DEDICATION

This report is dedicated to those correctional officials who lost their lives in the line of duty during 1979, and in particular, to the correctional officers in the Commonwealth of Pennsylvania. The following lost their lives in 1979, on the dates indicated:

Captain Felix Mokyhich
Pennsylvania Bureau of Correction
State Correctional Institution at Graterford
March 20, 1979

WILLIAM B. ROBINSON
Commissioner

ERSKIND DERAMUS
Deputy Commissioner

PENNSYLVANIA BUREAU of CORRECTION
P. O. BOX 598
CAMP HILL, PENNSYLVANIA 17011
(717) 787-7480

April 1980

I am pleased to present the Pennsylvania Bureau of Corrections's *1979 Annual Statistical Report*. This report provides pertinent information on the Bureau's inmate population, yearly commitment and release rates and numerous other statistical breakdowns. For the first time this year's report will contain information addressing time served by inmates discharged in 1979, major offense distributions, inmate maintenance costs, personnel complement and the age distribution and length of service for the correctional officer/matron cadre.

Although this report primarily presents data for 1979, it also provides historical data in many instances dating back to 1960. This continual reporting of data for the years 1960-1969 will cease after this report. Henceforth, prior data will only be provided for the previously completed decade.

Since this report is intended only as a descriptive tool for examining the Bureau's inmate population, caution is advised if the user attempts to create cause-effect relationships from the statistical information presented.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "William B. Robinson".

William B. Robinson
Commissioner

INTRODUCTION

This report presents a descriptive, statistical summary of the inmates admitted to, released from, and confined in the Pennsylvania Bureau of Correction for the calendar year 1979.

The data provided in the Pennsylvania Bureau of Correction's *1979 Annual Statistical Report* are for the most part self-explanatory and hence does not merit narrative elaboration. However, a summary narrative has been provided to quickly identify major points of interest.

Legislative Mandate

The Pennsylvania Bureau of Correction was established by law through Act 407 of July 1953. Prior to that enactment, Pennsylvania's state correctional institutions were governed by a Board of Trustees operating under the Pennsylvania Department of Public Welfare.

Administrative Responsibility

Under the direction of Commissioner of Correction William B. Robinson, the Bureau of Correction is responsible for seven state correctional institutions, two state regional correctional facilities, fifteen community service centers, a committed inmate population in excess of 8,000, and a staff complement in excess of 3,100.

Purpose of the Report

The report has the following three purposes:

1. It gives correctional administrators and planners within the Commonwealth summary data involving inmate population movements and counts of inmates committed to and confined in the Bureau of Correction;
2. It provides concerned legislators and judicial personnel with a yearly record of inmates confined in the Bureau of Correction; and
3. It serves as the Bureau's official document for statistical correctional information, and subsequently is distributed to state criminal justice agencies, Commonwealth officials, the State library systems, etc.

Definitions

1. State correctional institution - These institutions represent the Bureau's major correctional facilities, located at Camp Hill, Dallas, Graterford, Huntingdon, Muncy, Pittsburgh and Rockview. The State Correctional Institution at Muncy receives all female commitments to the Bureau of Correction.

2. State regional correctional facility - These are specialized facilities in two of the Commonwealth's six "Common Human Service Regions" which usually receive inmates sentenced from six months to two years. The State Regional Correctional Facility at Greensburg (formerly the Westmoreland County Prison) was dedicated on April 21, 1969. The State Regional Correctional Facility at Mercer was dedicated on September 8, 1978.

3. Community service centers - These centers provide community based programs for offenders as an alternative to incarceration, and they are operated as a continuum to the rehabilitative services provided in state correctional institutions or regional correctional facilities. Community service centers are residences in the community with custodial structure and a strong emphasis on guidance and counseling, with the hope of preparing the inmate for parole. The Bureau operates fifteen community service centers, three of which are exclusively for women.

4. Group homes - These homes provide another phase of transition from prison to community living. For those inmates who do not need the structured setting provided by the residential community service center, a group or individual home is an appropriate setting. This type of placement provides the former institutionalized inmate with a considerable amount of responsibility and freedom while they receive both supervision and an increased opportunity for rehabilitative treatment.

5. Diagnostic and classification centers - The Bureau's three centers (operated within the institutional confines of the State Correctional Institutions at Camp Hill, Graterford, and Pittsburgh) are responsible for processing all newly received criminal court commitments. (It is at these centers that the offender receives his educational, psychological, and vocational classification.) After the offender has been classified, he will then be transferred to an appropriate institution according to his established program.

6. Yearly average daily population - This represents the cumulative total of daily inmate population counts for the year divided by 365 days. The population count reflect those inmates who are physically confined.

7. Specified population movements - Generally, most population movements used in this report are self-explanatory. However, certain movements are defined for reader information.

- a. Authorized temporary absences - Court authorized appearances for inmate writs, hearings, funerals, etc. Always under the supervision of a law enforcement officer.

- b. Detentioners: Inmates awaiting trial or awaiting sentencing after a trial but in all cases without a sentence transferred from a county prison and detained in the Bureau of Correction for medical or security reasons.
- c. Furlough: Inmates are released on furlough for the purpose of family visits, job applications and pre-release planning. Inmates on furlough are not supervised but are still under the jurisdiction of the Bureau.
- d. Miscellaneous admissions and discharges: These groups represent returns or releases of inmates for special authorities under special conditions.
- e. Status change adjustments: These are paper transactions which are necessary to change the status of an inmate without changing the physical count while he is still under the jurisdiction of the Bureau of Correction.

8. Physically present inmate population - This type of inmate population count reflects only those inmates who are *physically present within a state correctional institution or a state regional correctional facility*.

9. Committed inmate population - This type of inmate population count reflects the total number of inmates who have been committed to the Bureau of Correction, and thus represents a more accurate representation of the Bureau's inmate responsibility. Specifically, the committed inmate population count reflects the following:

- a. Inmates physically present;
- b. Inmates confined in community service centers and group homes;
- c. Inmates on authorized temporary absences;
- d. Inmates on bail;
- e. Inmates detained by other authorities;
- f. Inmates on furlough;
- g. Inmates confined in local hospitals;
- h. Inmates confined in mental hospitals;
- i. Inmates listed on escape status;
- j. Etc.

CRIMES AND OFFENSE CATEGORIES

Source

In order to enable the reader to better comprehend the definition of crimes and offenses referred to in this report, all offense classifications found under the "Crime Index Offenses" (formerly Part I crimes) have been defined. The majority of definitions are taken from the *Pennsylvania Consolidated Statutes*, Title 18, "Crimes and Offenses," 1978 Edition," though some definitions have been obtained from the *Uniform Crime Report: Commonwealth of Pennsylvania, 1978 Annual Report*, for purpose of clarity and offense specificity.

Differentiation of Crimes

For reporting purposes, crimes are broken down into two major categories: (1) Crime Index Offenses (formerly Part I offenses) and (2) Part II offenses. According to the Pennsylvania State Police, Crime Index Offenses are...

...crimes that are considered by law enforcement to be the most serious crimes that readily come to the attention of police and occur with a frequency great enough to be reported as a separate category. Crime Index Offenses are used nationally as a basis for comparison of criminal activity.

Crime Index Offenses are further differentiated into major categories. The Crime Index categories of murder, nonnegligent manslaughter, forcible rape, robbery, and aggravated assault comprise the general category of "Violent Crime," while the categories of burglary, larceny-theft, and motor vehicle theft comprise the general category of "Property Crime."

Those offenses which are not classified as Index Crime Offenses are simply classified as Part II offenses. There are 19 distinct Part II offense categories; however, for purposes of brevity, all categories are not included in the commitment table, nor are they defined.

Definitions of Crime Index Offenses

Criminal homicide

(a) Offense defined - A person is guilty of criminal homicide if he intentionally, knowingly, recklessly or negligently causes the death of another human being.

(b) Classification - Criminal homicide shall be classified as murder, voluntary manslaughter, or involuntary manslaughter.

Murder

(a) Murder of the first degree - A criminal homicide constitutes murder of the first degree when it is committed by an intentional killing.

(b) Murder of the second degree - A criminal homicide constitutes murder of the second degree when it is committed while defendant was engaged as a principal or an accomplice in the perpetration of a felony.

(c) Murder of the third degree - All other kinds of murder shall be murder of the third degree. Murder of the third degree is a felony of the first degree.

Voluntary manslaughter

(a) General rule - A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by:

- (1) the individual killed; or
- (2) another whom the actor endeavors to kill, but he negligently or accidentally causes the death of the individual killed.

Involuntary manslaughter

(a) General rule - A person is guilty of involuntary manslaughter when as a direct result of the doing of an unlawful act in a reckless or grossly negligent manner, or the doing of a lawful act in a reckless or grossly negligent manner, he causes the death of another person.

Rape

A person commits a felony of the first degree when he engages in sexual intercourse with another person not his spouse:

- (1) by forcible compulsion;
- (2) by threat of forcible compulsion that would prevent resistance by a person of reasonable resolution;
- (3) who is unconscious; or
- (4) who is so mentally deranged or deficient that such person is incapable of consent.

Robbery

(a) Offense defined -

- (1) A person is guilty of robbery if, in the course of committing a theft, he:
 - (i) inflicts serious bodily injury upon another;
 - (ii) threatens another with or intentionally puts him in fear of immediate serious bodily injury;
 - (iii) commits or threatens immediately to commit any felony of the first or second degree;
 - (iv) inflicts bodily injury upon another or threatens another with or intentionally puts him in fear of immediate bodily injury; or
 - (v) physically takes or removes property from the person of another by force however slight.
- (2) An act shall be deemed "in the course of committing a theft" if it occurs in an attempt to commit theft or in flight after the attempt or commission.

Aggravated assault

(a) Offense defined - A person is guilty of aggravated assault if he:

- (1) attempts to cause serious bodily injury to another, or causes such injury intentionally, knowingly or recklessly under circumstances manifesting extreme indifference to the value of human life;
- (2) attempts to cause or intentionally, knowingly or recklessly causes serious bodily injury to a police officer making or attempting to make a lawful arrest;
- (3) attempts to cause or intentionally or knowingly causes bodily injury to a police officer making or attempting to make a lawful arrest; or
- (4) attempts to cause or intentionally or knowingly causes bodily injury to another with a deadly weapon.

(b) Grading - Aggravated assault under paragraphs (a)(1) and (a)(2) of this section is a felony of the second degree. Aggravated assault under paragraphs (a)(3) and (a)(4) of this section is a misdemeanor of the first degree.

Burglary

(a) Offense defined - A person is guilty of burglary if he enters a building or occupied structure, or separately secured or occupied portion thereof, with intent to commit a crime therein, unless the premises are at the time open to the public or the actor is licensed or privileged to enter.

Larceny-theft

(a) Definition - Larceny-theft is the unlawful taking or stealing of property or articles of value without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from autos, theft of auto parts and accessories, bicycle theft, etc. For the purposes of Uniform Crime Reporting, this offense category does not include embezzlement, "con" games, forgery or worthless checks. Motor vehicle theft is a separate Index Crime and, therefore, is also excluded.

Motor vehicle theft

(a) Definition - Motor vehicle theft is the illegal taking of a motor vehicle, or driving the vehicle without the owner's consent. Attempted motor vehicle thefts are included. This category includes theft of motor-driven vehicles, such as automobiles, trucks, buses, motorcycles, motor scooters, and snowmobiles. Specifically excluded is the temporary use when the vehicle is actually returned by the user, and lawful access to the vehicle has been granted or can be assumed.

Arson

(a) Endangering persons - A person commits a felony of the first degree if he intentionally starts a fire or causes an explosion, whether on his own property or on that of another, and thereby recklessly places another person in danger of death or bodily injury.

(b) Endangering property - A person commits a felony of the second degree if he:

- (1) starts a fire or causes an explosion with intent of destroying a building or occupied structure of another;
- (2) intentionally starts a fire or causes an explosion, whether on his own property or on that of another and thereby recklessly places a building or occupied structure of another in danger of damage or destruction; or
- (3) starts a fire or causes an explosion with intent of destroying or damaging any property, whether his own or of another, to collect insurance for such loss.

Note: In 1979 arson became the eighth category to be added to the FBI crime index. However, for reporting purposes, arson will not be included as a crime index offense for 1979. Reporting of arson as a crime index indicator will commence in the Bureau's 1980 annual statistical report.

CORRECTIONS

The December 31, 1978 committed inmate population has been revised from 7,845 to 8,149 (see Table 2, page 7 in the 1978 report) for reporting purposes in this year's report. After the 1978 statistical report was distributed in 1979, Pencor's computer underwent several programming revisions which significantly altered the December 31st figure. These changes also produced questionable population figures for the first three quarters of 1979, and subsequently could not be used in this year's report.

Responding to what was believed to be an unusually low committed inmate population, the Records and Statistics Section decided to reinstate the "Monthly Population County Report" (Form JBC-8b) as a means of determining the suspected discrepancy. (This count is taken at each institution at midnight during the last day of each month and provides a breakdown of the committed and physically present population.) The report was introduced for the quarter ending December 31, 1978.

Since the referenced quarterly population figures were regarded as inaccurate, it was decided to use the population figures as provided by the "Monthly Population County Report" until Pencor produced reliable population statistics. Reliable population statistics were made available for the quarter ending December 31, 1979, and are thus displayed in Table #8.

NARRATIVE SUMMARY

Inmate Population

The Pennsylvania Bureau of Correction experienced a .66 percent increase in its committed inmate population from December 31, 1978 to December 31, 1979 (see Table 1). However, the Bureau also experienced a increase in its yearly average population of *inmates physically confined*, up 2.84 percent from 1978 (see Table 3).

Committed Inmate Population as of December 31, 1979

On December 31, 1979 the Bureau displayed a committed inmate population of 8,203, with female inmates accounting for 3.5 percent (N=292). Non-white inmates comprise over 54 percent (N=4,450) of the Bureau's committed population.

As can be expected, inmates committed for robbery, murder and burglary account for over 59 percent of the committed inmate population.

Finally, commitments from Philadelphia, Allegheny and Montgomery counties were responsible for committing over 52 percent of the Bureau's committed inmate population.

Court Commitments

The number of court commitments received during 1979 (N=3,178) decreased for the third consecutive year, down 2.58 percent from 1978.

It is interesting to note that while the majority of the committed inmate population is predominantly non-white and male, white and female commitments are beginning to increase their numbers. Male commitments accounted for 94.8 percent (N=3,014) of the 1979 commitments, and of that number 57.6 percent (N=1,737) were white; likewise, of the 164 female commitments received during 1979, 52 percent (N=86) were white.

The age distribution of the 3,178 inmates yields an average age of 28.5 years, with 51.4 percent (N= 1,636) of the commitments being 21 to 29 years of age. Finally, it is interesting to note that there were more commitments 65 years of age or older, than there were 18 year old commitments.

Robbery and burglary accounted for 40 percent (N=1,272) of all commitments received during 1979, both of which are crime index offenses. Commitments for narcotic drug law violations continue to constitute the greatest number of commitments (N=181) with the Part II offenses, although this offense category did experience a decrease of 20 percent from 1978.

"Violent crimes" (consisting of murder, non-negligent manslaughter, forcible rape, robbery and aggravated assault, as defined by the FBI) accounted for 39 percent (N=1,262) of all 1979 commitments, while "property crimes" (consisting of burglary, larceny-theft and motor-vehicle theft, as defined by the FBI) accounted for 28 percent (N=921) of the 1979 commitments.

The number of parole violators recommitted to the Bureau (N=772) during 1979 increased 11 percent over 1978's total, primarily due to the increase in the number of parolee's returned by the Pennsylvania Board of Probation and Parole for technical violations.

Finally, Philadelphia, Allegheny and Montgomery counties were responsible for committing over 45 percent (N=1,447) of the Commonwealth's 3,178 commitments during 1979.

Discharges

The Board of Probation and Parole released 2,732 inmates on parole during 1979; an additional 640 paroles were ordered by the court. The total number of conditional releases declined for the third consecutive year, with 1979 displaying a 4.5 percent (N=156) decrease from 1978.

This year, for the first time, the annual report was able to include tables depicting the average time served by inmates discharged during 1979 by release method, sentence, race and sex. Since discrepancies may exist between other tables describing discharges by county, it must be noted that the time-served tables do not include releases that have missing effective dates, as time-served is calculated from the inmate's effective date of sentence to his final date of discharge.

Escapes

There were 88 inmate escapes during 1979, a decrease of 24 percent (N=28) from 1978.

<u>Community Service Centers and Group Homes (Total)</u>	371	366	350	323	348	- 25 - 7.2
Total	8,252	8,310	8,205	8,203	8,149	54 .66

* Inmate population as defined by the "Monthly Population Count Report" (JBC-8b).

** Inmate population as defined by Pencor's Data Processing Section.

Note: The institutional populations include the diagnostic and classification center populations since the JBC-8b report cannot differentiate between the two inmate populations.
