Provider Enrollment Application Requirement

Effective September 27, 2013, the Department of Human Services (the department) will only accept the current version of provider enrollment applications. If the department receives an outdated version of the enrollment application, the provider will be notified via email or telephone that the application will not be processed and will be shredded.

When a new enrollment application version is posted to the web site, the department will honor those applications already received and on file with the Provider Enrollment Section, Office of Medical Assistance Programs.

The current version of all provider applications contains the most recent updates and requirements to be enrolled as a Medical Assistance provider. Previous versions do not contain these updated fields/requirements.

To verify that you are using the most current enrollment application, providers are encouraged to always look at the department's Enrollment Information web page at:

http://www.dhs.pa.gov/provider/promise/enrollmentinformation/S_001994

Check the department's website often at: www.dhs.pa.gov
Thank you for your service to our Medical Assistance recipients.
We value your participation.
