the Act4.17 Liens and Adjustments or Recoveries(a) Liens

_____ The State imposes liens against an individual's real property on account of medical assistance paid or to be paid.

The State complies with the requirements of section 1917(a) of the Act and regulations at 42 CFR 433.36(o)-(g) with respect to any lien imposed against the property of any individual prior to his or her death on account of medical assistance paid or to be paid on his or her behalf.

_____ The State imposes liens on real property on account of benefits incorrectly paid.

_____ The State imposes TEFRA liens 1917(a)(1)(B) on real property of an individual who is an inpatient of a nursing facility, ICF/MR, or other medical institution, where the individual is required to contribute toward the cost of institutional care all but a minimal amount of income required for personal needs.

The procedures by the State for determining that an institutionalized individual cannot reasonably be expected to be discharged are specified in Attachment 4.17-A. (NOTE: If the State indicates in its State plan that it is imposing TEFRA liens, then the State is required to determine whether an institutionalized individual is permanently institutionalized and afford these individuals notice, hearing procedures, and due process requirements.)

The State imposes liens on both real and personal property of an individual after the individual's death.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Pennsylvania(b) Adjustments or Recoveries

The State complies with the requirements of section 1917(b) of the Act and regulations at 42 CFR 433.36(h)-(i).

Adjustments or recoveries for Medicaid claims correctly paid are as follows:

- (1) For permanently institutionalized individuals, adjustments or recoveries are made from the individual's estate or upon sale of the property subject to a lien imposed because of medical assistance paid on behalf of the individual for services provided in a nursing facility, ICF/MR, or other medical institution.

___ Adjustments or recoveries are made for all other medical assistance paid on behalf of the individual.

- (2) The State determines "permanent institutional status" of individuals under the age of 55 other than those with respect to whom it imposes liens on real property under § 1917 (a)(1)(B) (even if it does not impose those liens).

- (3) For any individual who received medical assistance at age 55 or older, adjustments or recoveries of payments are made from the individual's estate for nursing facility services, home and community-based services, and related hospital and prescription drug services.

___ In addition to adjustment or recovery of payments for services listed above, payments are adjusted or recovered for other services under the State plan as listed below:

(3) (Continued)

Limitations on Estate Recovery – Medicare Cost Sharing:

- (i) Medical assistance for Medicare cost sharing is protected from estate recovery for the following categories of dual eligible: QMB, SLMB, QI, QDWI, QMB+, SLMB+. This protection extends to medical assistance for four Medicare cost sharing benefits: (Part A and B premiums, deductibles, coinsurance, co-payments) with dates of service on or after January 1, 2010. The date of service for deductibles, coinsurance, and co-payments is the date the request for payment is received by the State Medicaid Agency. The date of service for premiums is the date the State Medicaid Agency paid the premium.
- (ii) In addition to being a qualified dual eligible the individual must also be age 55 or over. The above protection from estate recovery for Medicare cost sharing benefits (premiums, deductibles, coinsurance, co-payments) applies to approved mandatory (i.e., nursing facility, home and community-based services, and related prescription drugs and hospital services) as well as optional Medicaid services identified in the State plan, which are applicable to the categories of duals referenced above.

- (4) The State disregards assets or resources for individuals who receive or are entitled to receive benefits under a long term care insurance policy as provided for in Attachment 2.6-A, Supplement 8b.
- The State adjusts or recovers from the individual's estate on account of all medical assistance paid for nursing facility and other long term care services provided on behalf of the individual. (States other than California, Connecticut, Indiana, Iowa, and New York which provide long term care insurance policy-based asset or resource disregard must select this entry. These five States may either check this entry or one of the following entries.)
- The State does not adjust or recover from the individual's estate on account of any medical assistance paid for nursing facility or other long term care services provided on behalf of the individual.
- The State adjusts or recovers from the assets or resources on account of medical assistance paid for nursing facility or other long term care services provided on behalf of the individual to the extent described below:

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Pennsylvania(c) Adjustments or Recoveries: Limitations

The State complies with the requirements of section 1917(b)(2) of the Act and regulations at 42 CFR § 433.36(h)-(i).

- (1) Adjustment or recovery of medical assistance correctly paid will be made only after the death of the individual's surviving spouse, and only when the individual has no surviving child who is either under age 21, blind, or disabled.
- (2) With respect to liens on the home of any individual who the State determines is permanently institutionalized and who must as a condition of receiving services in the institution apply their income to the cost of care, the State will not seek adjustment or recovery of medical assistance correctly paid on behalf of the individual until such time as none of the following individuals are residing in the individual's home:
 - (a) a sibling of the individual (who was residing in the individual's home for at least one year immediately before the date that the individual was institutionalized), or
 - (b) a child of the individual (who was residing in the individual's home for at least two years immediately before the date that the individual was institutionalized) who establishes to the satisfaction of the State that the care the child provided permitted the individual to reside at home rather than become institutionalized.
- (3) No money payments under another program are reduced as a means of adjusting or recovering Medicaid claims incorrectly paid.

All children will be enrolled in a managed care program by June 30, 1995. These programs include the Family Care Network, the Lancaster Community Health Plan, Healthchoices and state contracted Health Maintenance Organizations.

The contracts or agreements require primary care providers to ensure children receive all necessary services, including age appropriate immunizations. These contracts or agreements are monitored by the appropriate state agency or administrative contract entity.

The Department will assure that payments are sufficient to enlist enough providers by submitting a comparison of the Medicaid fees for administration of pediatric vaccines to the administration fees paid by a major insurance company.
