June 30, 2024

Dear Members of the General Assembly:

As Secretary of the Commonwealth, I am pleased to report on the administration of voter registration in Pennsylvania for calendar year 2023.

The administration of voter registration in Pennsylvania is a joint effort between county and state officials. In 2023, the Department of State worked with the state's 67 county election boards and voter registration commissions to provide voter registration opportunities to eligible residents of Pennsylvania and to enhance our efforts to ensure the accuracy of voter rolls. This partnership between state and county officials promotes civic participation while maintaining the integrity of our elections.

To achieve these dual complementary purposes, the Department supports counties in a variety of ways, including providing voter education materials, making available official voter registration application forms both in print and online in multiple languages, and distributing data to counties identifying voters who may have moved and voters who are deceased. The Department also continues its collaboration with various state agencies designated under the National Voter Registration Act of 1993 (NVRA), and those designated under Executive Order 2022-03 as Voter Registration Distribution Agencies, to administer voter registration programs. The Commonwealth's implementation of automatic voter registration processes through the Pennsylvania Department of Transportation continues this work of providing greater access to qualified electors through a method that keeps Pennsylvania's records secure, verified, and up to date.

The Department remains committed to fulfilling its responsibilities under both the NVRA and Pennsylvania's voter registration law. Under my leadership, the Department will continue to promote voter registration and civic engagement through its outreach efforts across the Commonwealth, and we will continue to provide the tools counties need to maintain the accuracy and integrity of their voter rolls.

If you have questions about this report, please contact the Office of Legislative Affairs at (717) 787-6458.

Sincerely,

Al Schmidt
Secretary of the Commonwealth

Executive Summary

As of December 31, 2023, Pennsylvania had approximately 8.66 million registered voters. This represents a .46% decrease in the number of registered voters since the end of 2022 but a 1.31% increase since the end of 2019, the last year preceding a presidential election. Since 2019, the number of voters registered as members of the Democratic Party decreased, the number of voters registered as members of the Republican Party increased, and the number of voters who chose to be unaffiliated or registered with a non-major party increased.

Pennsylvania voters registered in 2023 through a variety of methods, demonstrating the success of the Department's efforts to expand opportunities for Pennsylvanians to obtain or update a voter record. Approximately 128,000 applications for registration as a new voter were submitted online, and approximately 50,120 applications for registration as a new voter were submitted by paper.

The Department continued its partnership with other Commonwealth agencies designated under federal and state law to facilitate registration and to update voter rolls when individuals use that agency's services. Over 29,000 registration applications were submitted through these partner agencies (not including PennDOT), with County Assistance Offices (CAOs) providing the majority of these submissions.

Following the Shapiro Administration's implementation of Automatic Voter Registration (AVR) in September of 2023, the Department saw a notable increase in the number of applications submitted through PennDOT. There were 96,954 applications submitted through PennDOT from the implementation of AVR until the end of the year, compared to 55,755 in the same period two years prior. This revision to the PennDOT motor voter process also increased the number of language offerings from 14 to 31.

During 2023, counties delivered more than 600,000 notices to registered voters relating to list maintenance, the process by which Pennsylvania's counties ensure that their current voter rolls are up to date. Counties processed approximately 466,000 PennDOT transactions indicating that a voter changed their address. Close to 422,000 registrations were cancelled throughout the year.

Lastly, the Department's commitment to civic engagement extended to rewarding voters who had shown an unbreaking commitment to the franchise. A total of 183 Pennsylvanians from 10 counties were inducted into the Pennsylvania Voter Hall of Fame, which honors

voters who participate in at least 50 consecutive general elections. The list of inductees has now reached 24,226 total members.

All data referenced in this report is available in this report's appendices. Data from previous years can be found in the respective annual reports, available online at dos.pa.gov.

Opportunities for Improvement

The Commonwealth has made great strides over the past several years to modernize voter registration and voter list maintenance activities, but there is more work to be done.

- The Department is piloting an additional list maintenance mailing that will provide registrants another opportunity to respond to information indicating that they have moved.
- The Department believes county election officials would benefit from the voter rolls accuracy that fully reflects the data available through its Electronic Registration Information Center (ERIC) membership, including credible data regarding deceased registrants. However, county access to this data would require amendments to Pennsylvania's voter registration law, codified at 25 Pa.C.S. § 1505.
- The Department continues to prioritize the modernization of the SURE system to improve the convenience, speed, accuracy, and integrity of the voter registration and list maintenance processes.

Voter Registration Statistics

Through the SURE system, the county voter registration commissions maintain a complete list of all eligible registered voters in the Commonwealth. As of December 2023, there were 8,661,186 registered voters. The charts in this section represent a high-level snapshot of the change in voter registration over both the previous calendar year and the four-year period since the end of 2019. Details broken down by county and party can be found in Appendices A and B.

The chart below (Figure 1) depicts change in voter registration over the four-year period since the end of 2019 and whether that change represented growth or decline in party affiliation. The 2019 data was carried over from the [2019 annual report on voter registration](#); therefore, that data is as of December 31, 2019.

Areas of Growth and Decline

This section shows the voter registration growth and decline as compared to the previous year and over a four-year period. The charts are done in two parts: 1) growth and decline in registration for this year as compared to the previous year, and 2) growth and decline in registration over the period between the end of 2019 and the end of 2023. For each section, the charts list counties within each category with their rate of growth or decline when compared to either last year's totals or totals from 2019. The tables show the growth or decline for all 67 counties.

List Maintenance

This section summarizes voter list maintenance activities conducted during the 2023 calendar year. Generally, the practice of “list maintenance” encompasses the different methods that county election and voter registration officials use to manage voter registration rolls and ensure they are accurate. Both state and county election officials follow careful and appropriate steps, in compliance with federal and state laws, to determine whether a voter should be transferred to a new address, marked as *Inactive* or removed from the registration rolls.

List Maintenance Mailings

During 2023, counties sent more than 629,000 notices to voters: 201,574 Five-Year Notices; 160,265 National Change of Address (NCOA) Notices; 4,320 Duplicate Notices; 30,997 In-State Update Notices; 44,591 Out-of-State Update Notices; and 187,902 Address Verification Notices (AVNs).

Regarding list maintenance activity summaries below, voter responses to most notices generally fall into six broad categories:

- **Non-Response:** The voter did not respond to the mailed notice.
- **Returned Undeliverable:** The postal service was unable to deliver the notice by mail and the notice was returned as undeliverable to the county voter registration commission.
- **Return Confirmation:** The voter responded to the notice and confirmed their eligibility at their address of registration.
- **Voter Moved In County:** The voter responded to the notice and confirmed they moved to a new address within the same county.
- **Voter Moved Out of County:** The voter responded to the notice and confirmed they no longer reside in the county but live elsewhere in Pennsylvania.
- **Voter Moved Out of State:** The voter responded to the notice and confirmed that they moved outside of Pennsylvania.

Figures in this section are representative only of actions taken on or before December 31, 2023, as recorded by counties in the SURE system. If additional responses to notices were received after that date, they will not be represented in the below point-in-time data.

2023 Five-Year Notice Responses Summary²

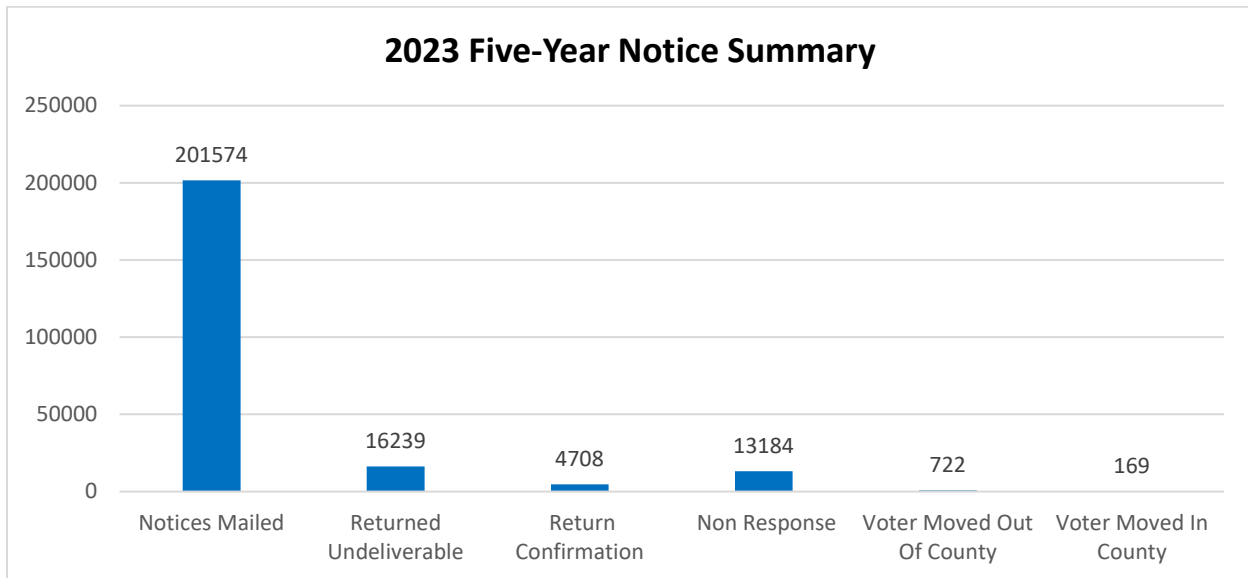

Figure 5: 2023 Five-Year Notice Summary

The Five-Year Notice (FYN) is a statutorily required, one-step mailing process. It is sent via forwardable mail. The purpose of this notice is to contact voters who have not had any activity on their record and have not voted within five years. Upon generation of this notice, the voter's record remains on the rolls but is updated to Inactive status for a statutorily defined period. If the voter does not take any action with respect to their record or does not vote before the passage of this period, the voter's record is cancelled in SURE. The FYN provides an opportunity for the voter to respond, which results in activity that allows the county to reinstate the registrant to *Active* status. Upon a return to *Active* status, the window to eventually cancel the voter record stops.

3,193 voters who were mailed FYNs voted or re-registered after the notice was mailed out, reinstating them to *Active* status. Appendix D1 represents the activity recorded by counties on FYN mailings.

² Because generating an FYN inactivates the voter, it is not necessary for county officials to record non-responses. Thus, the figures for the results of the FYN mailings presented in this section (and in Appendix D1) may not reconcile with the total number of FYNs mailed.

2023 NCOA Notice Summary³

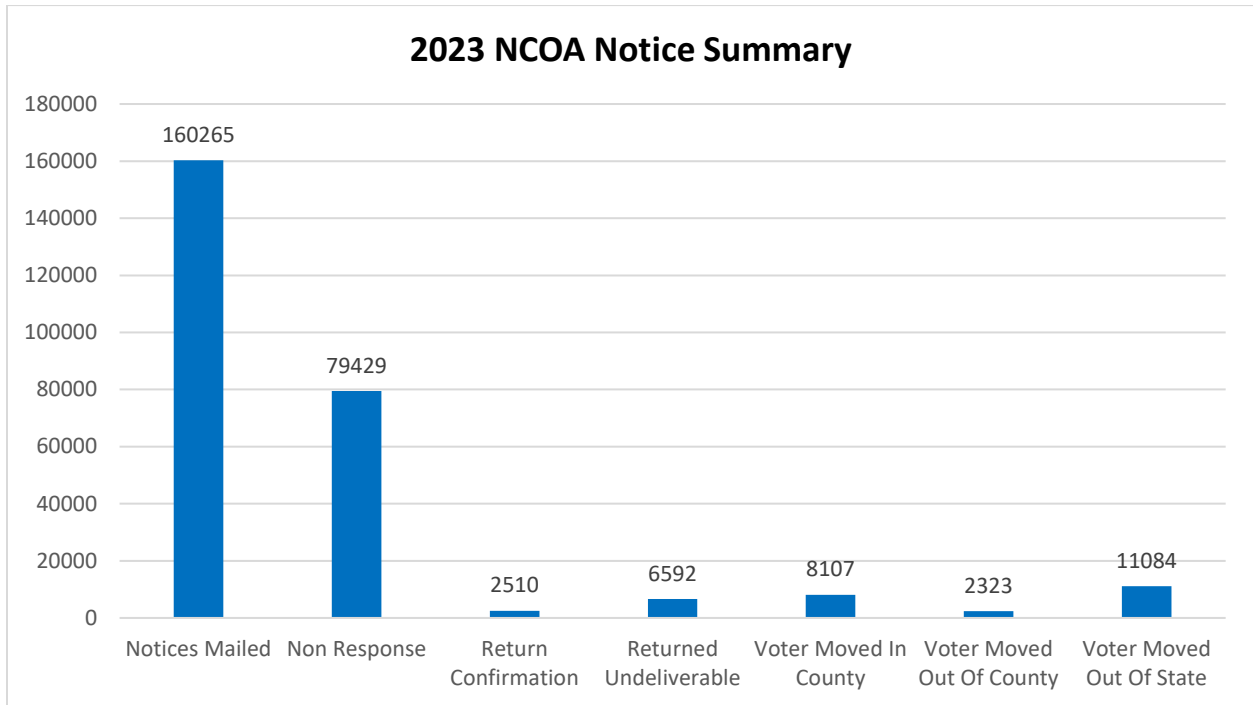

Figure 6: 2023 NCOA Notice Summary

The NCOA Notice is a statutorily required two-step mailing process. The notices in each step of the process are sent via forwardable mail to the address of registration. The first mailing, based on data received from the U.S. Postal Service (USPS) through its National Change of Address Program, is a notice which requires the voter to specify whether they have moved. Then, depending on their response, county officials update their records

³ The SURE system allows counties to queue an Address Verification Notice (AVN) for mailing even if the county has not marked the NCOA record as a non-response. Thus, the figures for the results of NCOA Notice mailings presented in this section (and in Appendix D2) may not reconcile with the total number of NCOA Notices mailed. For information on AVNs, see the section entitled 2023 Address Verification Notices (AVNs), below.

accordingly. These notices provide an opportunity for the voter to confirm their address or provide an update with their latest information to county officials.

Following the initial NCOA Notice mailing, county officials send a second notice to voters who did not respond to the first mailing, or where the initial NCOA Notice was returned as undeliverable. This second notice is commonly referred to as the Address Verification Notice (AVN). With the mailing of the AVN, the record is marked *Inactive*, triggering a waiting period before the voter record can be removed from the registration rolls. The period lasts until two federal general elections have passed. If the voter takes an action to update their record or vote within the waiting period, the voter record is returned to *Active* status, and the voter record is no longer scheduled for cancellation. For example, if a voter was marked as *Inactive* in 2023 during list maintenance activities, and they do not make any changes on their record or vote, the voter would be removed after the 2026 General Election. Appendix D2 represents the activity recorded by counties on NCOA mailings.

2023 ERIC Duplicate Notices ⁴

As part of the Department's membership in the Electronic Registration Information Center (ERIC), the Department receives and distributes data on potential duplicate voter records to county officials. Because ERIC is a consortium of member states, and because there is no national voter registration database, ERIC is in a unique position to compare, without accessing personally identifiable information, the verified data provided by member states to locate records of voters who may be potentially registered in more than one state. ERIC also provides a report on voters who may be registered in more than one Pennsylvania county.

These pairs of voter records are identified for further review by county officials, to confirm whether the same person is potentially registered in more than one jurisdiction. If the

⁴ Because generating an ERIC Duplicate Notice inactivates the voter, it is not necessary for county officials to record non-responses. Thus, the figures for the results of the ERIC Duplicate Notice mailings presented in this section (and in Appendix D3) may not reconcile with the total number of ERIC Duplicate Notices mailed.

county identifies the registrant as potentially duplicated in another jurisdiction, a notice is sent out to the voter's address on record.

During the 2023 calendar year, Pennsylvania counties mailed approximately 4,320 notices of potential duplication. The number of potential duplicate voter registrations has decreased by more than 80% since Pennsylvania started using this ERIC data in 2020, demonstrating the effectiveness of this program over time.

The chart below (Figure 7) represents a summary of the mailing responses. Appendix D3 represents the activity recorded by counties on ERIC Duplicate Notice mailings. After review, county officials update the voter's record to reflect the voter's response (or lack thereof) to the notice.

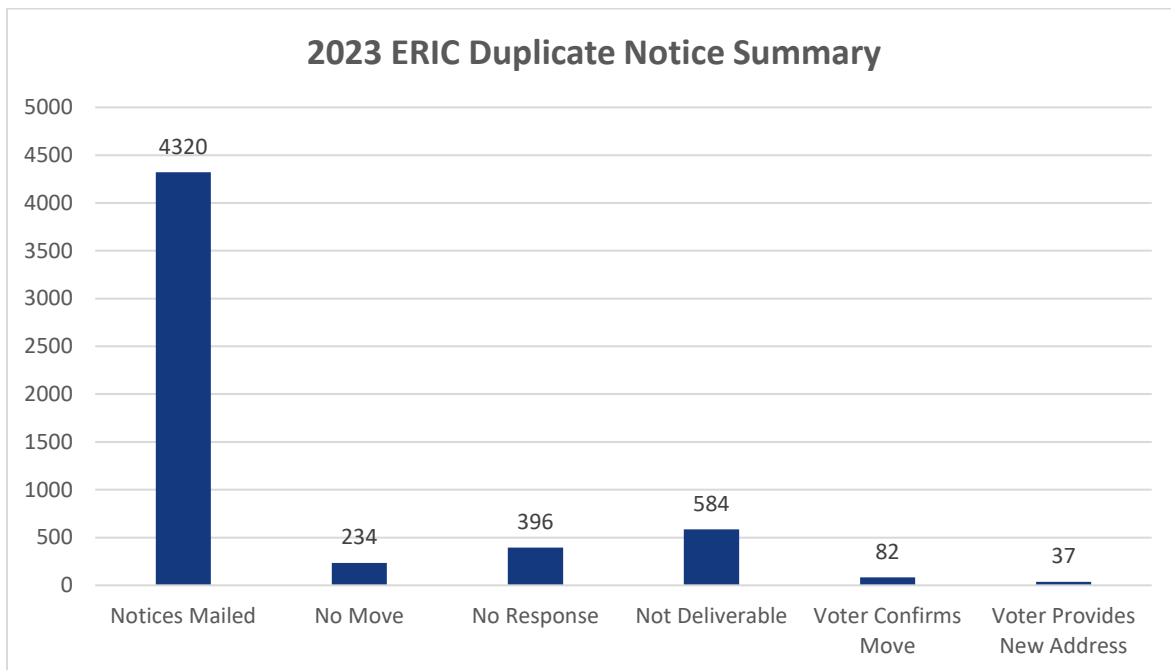

Figure 7: 2023 ERIC Duplicate Notice Summary

2023 ERIC In-State Moves

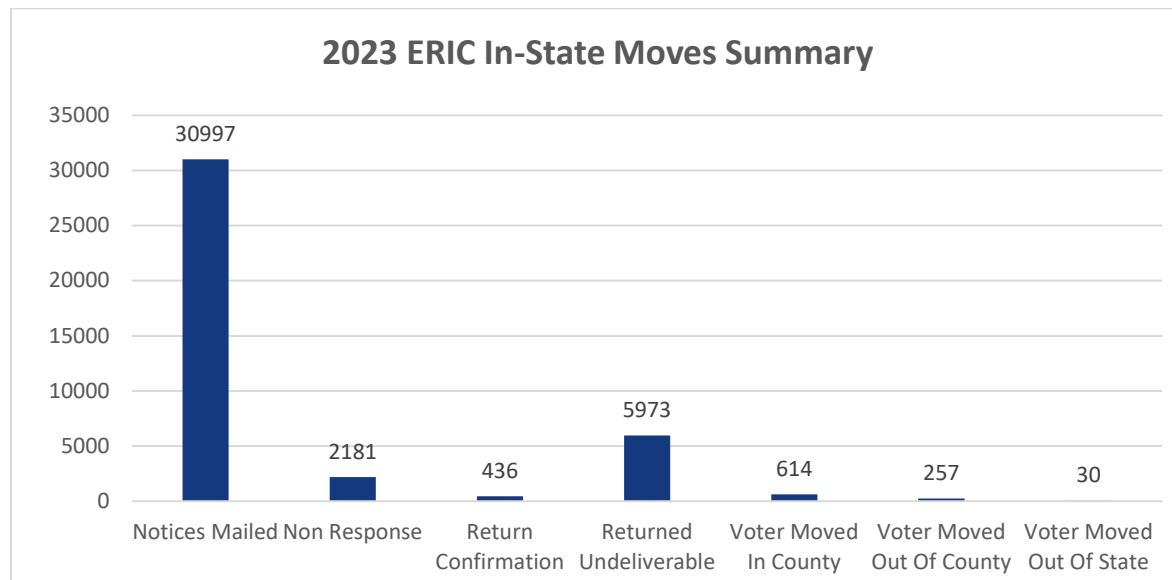

Figure 8: 2023 ERIC In-State Moves Summary

In addition to comparing voter registration information, ERIC provides a report with data comparing voter registration information with PennDOT information to identify voters who may have moved without updating their registration. These data are also provided to counties.

The process for determining whether this new information accurately reflects a voter's current status involves a one-step mailing procedure. Once the notice is queued and confirmed, the affected voter records are updated to *Inactive* status. Depending on the response – or nonresponse – to the mailer, the voter's record may be updated to *Active*, remain in *Inactive* status, or be *Cancelled*. During 2023, approximately 30,997 notices were mailed to voters. Appendix D4 represents the activity recorded by counties on ERIC In-State Move mailings.

2023 ERIC Out-of-State Moves

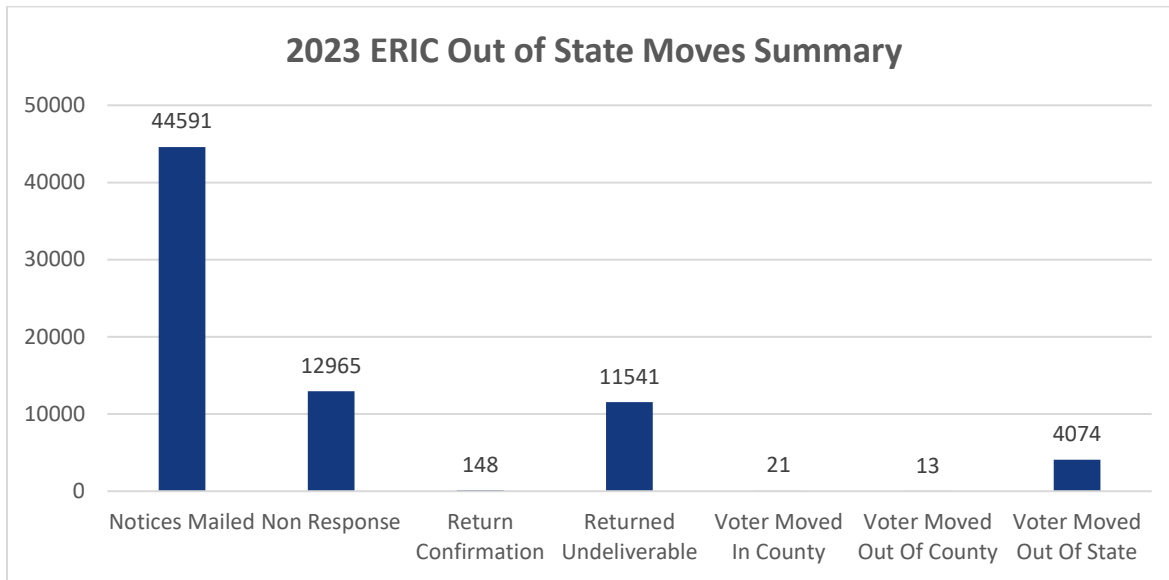

Figure 9: 2023 ERIC Out-of-State Moves Summary

The data for potential out-of-state updates or moves are provided by ERIC. This process captures information where a voter within Pennsylvania appears to match another record from out of state that contains newer information. This may be an indication that the voter no longer resides in the state. Therefore, any identified registrants are sent a notice to confirm their move.

This process is a one-step mailing procedure. Once the notice is queued and confirmed, the affected voter records are updated to Inactive status. Depending on the response to the mailer or non-response, the voter's record may be updated to Active, remain in Inactive status, or be Cancelled. During 2023, approximately 44,590 notices were mailed to voters. Appendix D5 represents the activity recorded by counties in the SURE system on ERIC Out-of-State Move mailings.

2023 Address Verification Notices (AVNs)⁵

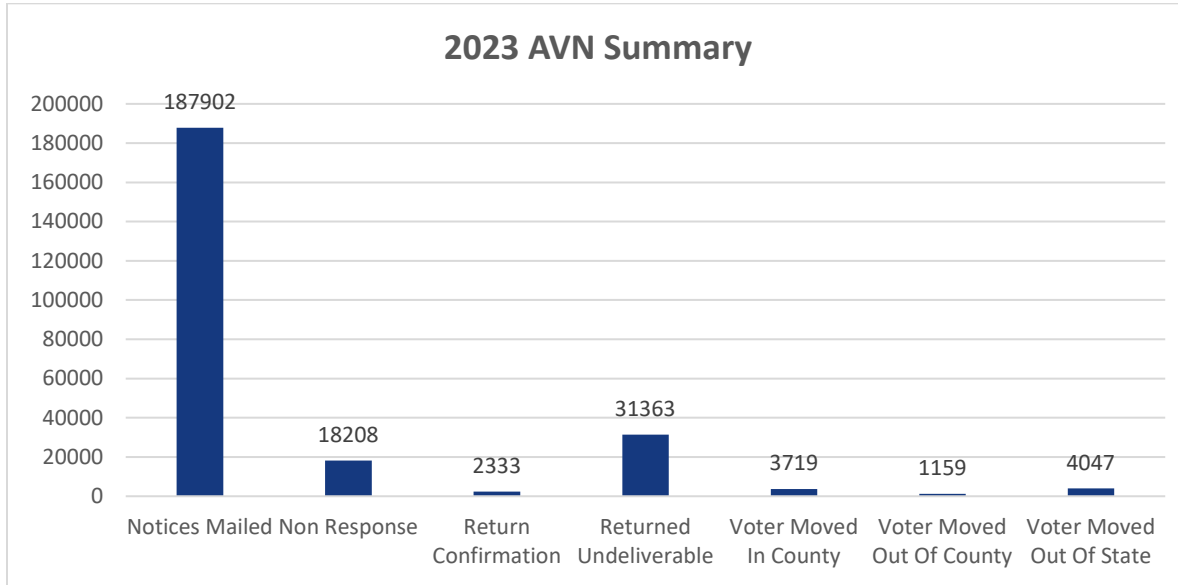

Figure 10: 2023 AVN Summary

A further list maintenance tool is the AVN, which is used in multiple circumstances to determine if a voter is still eligible to vote at their documented address. In addition to the activities described above, with respect to voters who have potentially moved, counties send AVNs to *Inactive* voters when an initial contact attempt is returned as undeliverable. For example, if the USPS returns a voter identification card to the county because it was undeliverable to the address used by the registrant, an AVN may be sent to the voter. In 2023, approximately 187,900 AVNs were mailed to voters by county officials. The chart above (Figure 10) summarizes the responses received by county officials as of December 31, 2023. Appendix D6 represents the activity recorded by counties on AVN mailings.

⁵ Because generating an AVN inactivates the voter, it is not necessary for county officials to record non-responses. Thus, the figures for the results of the AVN mailings presented in this section (and in Appendix D6) may not reconcile with the total number of AVNs mailed.

PennDOT Change of Address Summary

In addition to more traditional means of voter registration such as paper or online applications, the National Voter Registration Act of 1993 (NVRA) requires states to incorporate voter registration opportunities into the driver's licensing application process at state motor vehicle authorities. As part of that process, voters have an opportunity to update their voter registration with their latest information to ensure the voter registration rolls are accurate.

During the 2023 calendar year, 468,503 voter address change applications were processed by county officials to review and update voter records. Appendix D7 represents the activity recorded by counties in the SURE system on PennDOT change-of-address transactions.

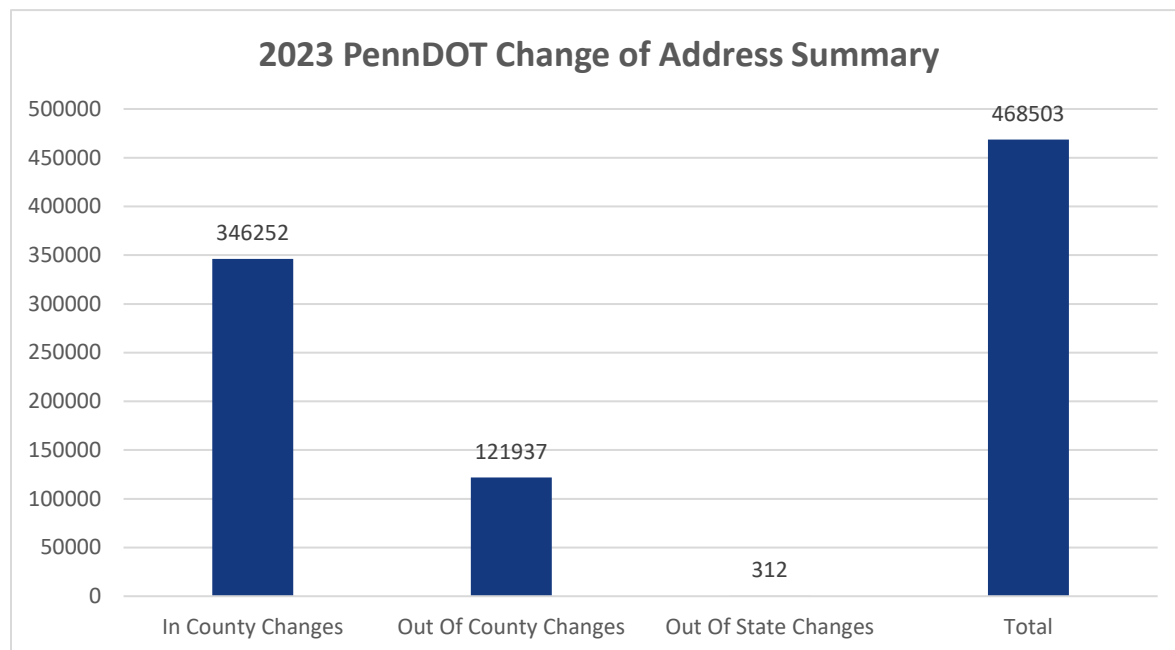

Figure 11: 2023 PennDOT Change of Address Summary

Voter Registration Cancellations

During 2023, the SURE system recorded more than 422,000 voter registration cancellations. When a voter registration is cancelled, the record is tagged in the SURE system to identify

the reason for cancellation. The record of an Active voter may be cancelled if, for example, the voter confirms they have moved out of state.

The record of *Inactive* voters, including those marked Inactive following the list maintenance activities described above, who have failed to vote in two consecutive general (even-numbered year) elections must be cancelled pursuant to federal law. Table 3 represents the total number of cancellations by reason for the state. Figures in this section are representative of actions taken on or before December 31, 2023, as recorded by the counties in the SURE system. See Appendix D for details broken out by county.

National Voter Registration Act (NVRA)

NVRA Agency Registrations

The National Voter Registration Act (NVRA) requires that:

“(1) Each state shall designate agencies for the registration of voters in election for Federal offices.

“(2) Each state shall designate as voter registration agencies –

(A) all offices in the state that provide public assistance; and (B) all offices in the State that provide State-funded programs primarily engaged in providing service to persons with disabilities.” See 52 U.S.C. § 20506.

Pennsylvania, through its voter registration law, has incorporated these requirements for all elections. See 25 Pa.C.S. § 1325.

In consideration of these mandates, the Department continues to work with the covered agencies to ensure that the requirements of federal and state law are met.

The Department also works with PennDOT regularly to ensure that eligible citizens can register to vote or update their voter registration when they use PennDOT services.

PennDOT

Since 1995, PennDOT has played an integral role in voter registration through what is commonly known as the “Motor Voter” registration process. In 2003, the process became electronic. Motor Voter provides Commonwealth citizens with an opportunity to apply to register to vote while receiving or renewing their driver’s license or photo ID at a PennDOT center, as well as the opportunity to update their registration at a PennDOT center or online.

PennDOT voter registration applications are organized into two primary groups: 1) initial applications to register to vote (otherwise known as new applications); and 2) change of address applications to update the registrant’s address on an existing record (otherwise known as change applications).

Automatic Voter Registration at a PennDOT Center

PennDOT customers visit a photo license center with a driver's license application card provided by PennDOT. The application card contains a printed two-dimensional bar code. The bar code is scanned, and the computer system determines the customer's age and U.S. citizenship status. It then determines which customers will be at least 18 years old by the date of the next election, has verified a Pennsylvania residential address, and is a U.S. citizen. If the PennDOT customer meets these requirements, they are presented with motor voter screens.

The motor voter screens first ask the customer to confirm that they are a U.S. citizen. If they confirm that they are, the screen informs the customer that unless they opt out, they will be shown a series of screens to confirm their information and submit a voter registration application to their county election office.

- Customers must confirm that they are U.S. citizens and qualified to register in the Commonwealth.
- Customers are asked to confirm their county of residence and indicate a party preference. The customer is then offered the opportunity to submit optional information (telephone number and race).
- Customers are advised of the penalty for furnishing false information and are asked to sign a declaration that the information they have provided is true and correct to the best of their knowledge.
- At the end of the AVR process, customers are provided a receipt indicating pertinent information about their voter registration application, including the date on which they applied at the photo license center. The receipt instructs customers to contact their county voter registration office if they do not receive a voter identification card within two weeks.

The completed applications are transmitted electronically to the Department which, in turn, forwards the applications to individual county voter registration offices via the SURE system. For more detail on applications received from PennDOT license centers, see Appendix E.

The process described above reflects the changes implemented on September 19, 2023. Previously, eligible registrants had to choose to opt into the voter registration process. The September 19, 2023, enhancements now require customers to opt out. They also made

the process more inclusive and user-friendly, including through the addition of more than a dozen languages, bringing the total number of available languages to 31.

Between its launch in September and December 31, 2023, 96,954 voters made use of the PennDOT AVR process, compared to 55,755 in the same period two years prior.

37,611 total new registrations were processed and approved by county election offices, and 37,878 voter record updates were processed. Out of the new voter registration applications processed, 11,669 were Democratic, 12,688 were Republican and 13,254 belonged to other parties or registered with no affiliation.

NVRA Agencies

Since 2010, the Department has used computer-compatible registration forms with its partner agencies, which allow the Department to identify the source agency of registrations. The Department is thus able to track its efforts and ensure that partnership efforts comply with the requirements of the NVRA and the Pennsylvania voter registration law.

On December 2, 2017, the Pennsylvania Department of Human Services (DHS) became the first Commonwealth agency to publicly deploy an online voter registration service with the Department. Through this online service, DHS clients submitted more than 26,500 applications in 2023. The Department also worked with the Department of Labor & Industry's (L&I) Office of Vocational Rehabilitation and the Department of Health's (DOH) Women, Infants and Children (WIC) program to deploy online services. The Department continues to look for other opportunities to modernize voter registration with state agencies. Table 4 (below) shows voter registration applications processed by counties from NVRA agencies. Appendix C2 shows the voter registration applications processed from each agency by county.

Code	Agency	Description	Applications
WIC	WIC	Women, Infant and Children Nutrition Clinics	315

Online Voter Registration

The Pennsylvania Online Voter Registration (OVR) Application was deployed August 27, 2015. The OVR application provides residents of Pennsylvania with the opportunity to register to vote or change an existing voter registration online and electronically submit voter registration data to their county voter registration office for processing.

During the 2023 calendar year, approximately 214,169 voter registration applications were submitted through the OVR application on the Department's website, including 96,309 applications for new voters. Since its inception, OVR has accounted for more than 3.3 million applications through the end of 2023.

Web Application Programming Interface (Web API)

A Web Application Programming Interface (Web API) was created for individuals and organizations that wish to develop a website to gather voter registration application data during voter registration drives. The Web API application works as an analog to third-party submission of paper voter registration forms and requires the registrant to input the information necessary for the county to process the application. As with paper registration submissions, entities that submit electronic applications through the Web API do not have direct access to the SURE system. This tool also interacts with PennDOT to capture signatures from valid driver's licenses and, if necessary, sends a correspondence when the signature cannot be located.

The Department manages a rigorous certification process to ensure individuals or organizations wishing to use the Web API tool meet Department-identified testing and security standards prior to approving access to the Web API. As with online voter registration, signatures may be uploaded through the Web API interface, or a request to receive a mail-in ballot may be submitted as a separate application in addition to the voter registration application.

During the 2023 calendar year, approximately 38,397 voter registration applications were submitted through the Web API, including 31,052 applications for new voters.

Comparison of Voter Registration Method

The chart below depicts a general comparison of total applications submitted through OVR, OVR Web API (a subset of online voter registration), and paper applications. In addition to method of registration, these statistics are also broken down by month to highlight volume throughout the election cycle. This data will not reconcile with the total OVR registrations processed in the voter registration system because it does not represent the final disposition of the applications submitted via OVR; rather, it reflects the total number of applications submitted. These may diverge, for example, where a registrant submits duplicate applications that are declined after processing.

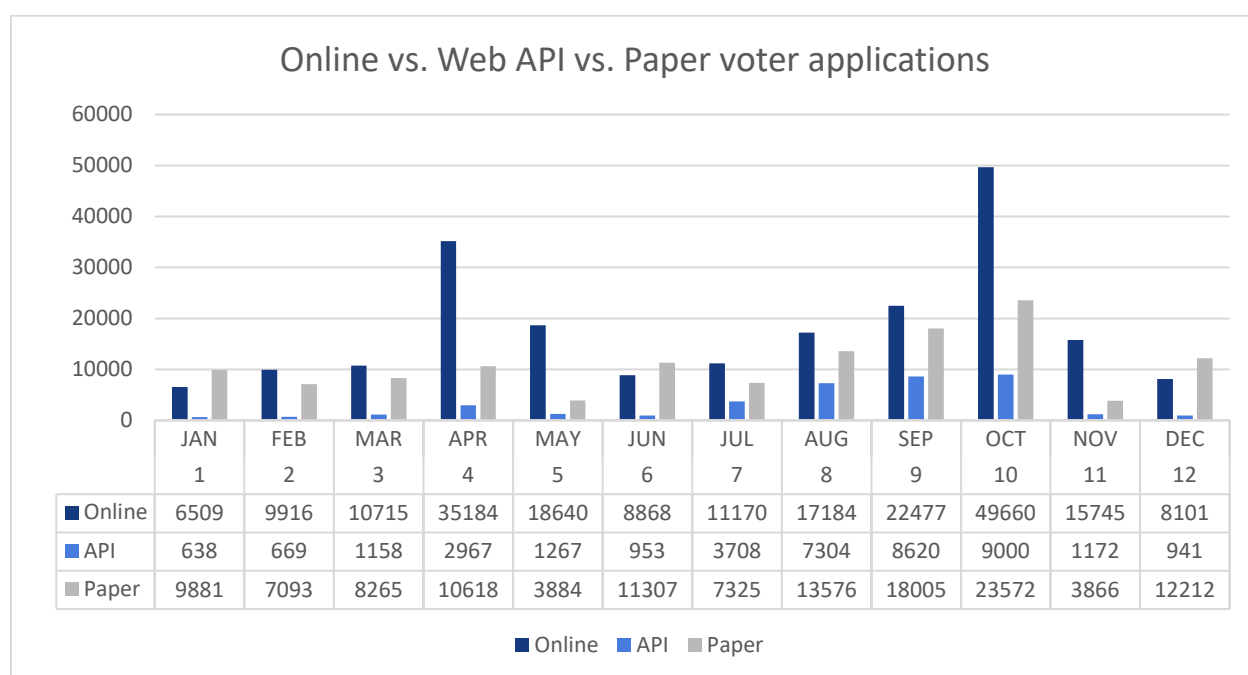

Figure 15: OVR vs. Web API vs. paper applications in 2023

Demographics of Online Voter Registration

The graph below (Figure 16) illustrates a summary breakdown of OVR usage statistics by age group. It provides a general idea of who uses the online service to register to vote or to update their voter registration.

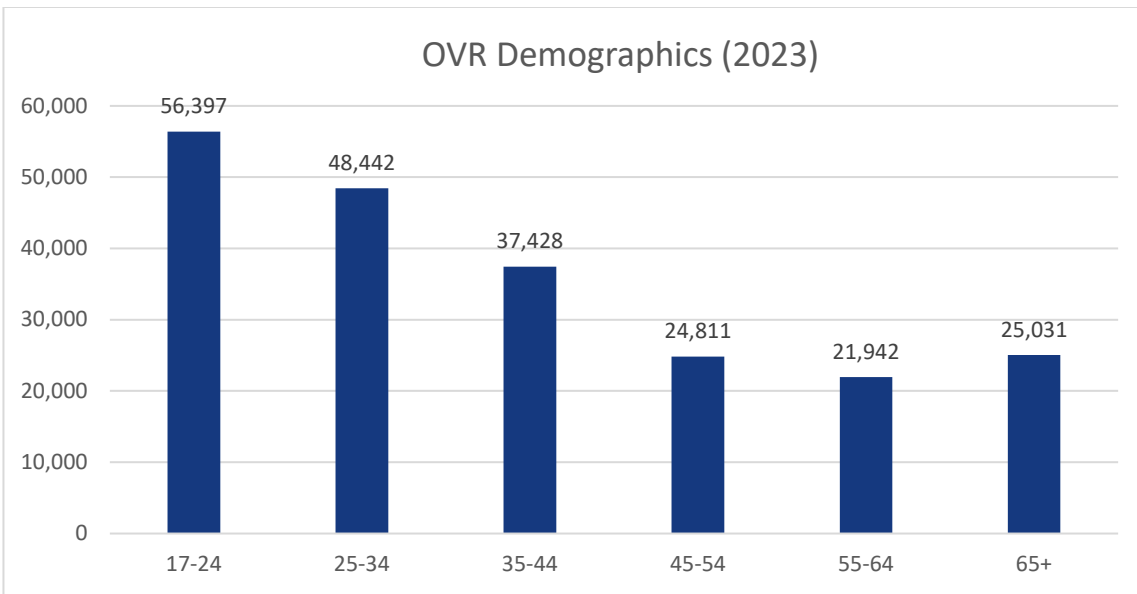

Figure 16: Demographics of OVR Use

Voter Hall of Fame

The Pennsylvania Voter Hall of Fame program is administered by the Department of State's Bureau of Elections. The program was established to promote awareness and to encourage all eligible Pennsylvanians to exercise their right to vote. The Voter Hall of Fame publicly honors Pennsylvanians who have voted in at least 50 consecutive November elections. The inductees serve as ambassadors in their communities – leading by example and encouraging participation in the electoral process. In 2023, the Department inducted 183 citizens from 10 counties into the Voter Hall of Fame. The 183 new members bring total membership to 24,226, with members representing all 67 counties across the Commonwealth.

Conclusion

The administration of voter registration in the Commonwealth relies on a collaborative approach between the Department of State and Pennsylvania's 67 counties. By providing resources and sharing expertise, the Department works with county election officials to promote the secure, efficient, and inclusive composition of voter rolls. Well-maintained voter rolls lead to well-conducted elections.

This report reflects the hard work of the Department and its county partners to expand voter registration opportunities and to ensure the accuracy of Pennsylvania's voter rolls. At the same time, this report details the ways in which the Department hopes to improve on these advances by working with its state and local partners to maintain a voter registration system that accurately and completely reflects the eligible voters of this Commonwealth.
