

2024-2025 School Year Restraint Information System Collection Tracking and Training First Quarter Reporting Window

The Restraint Information System Collection (RISC) is open for data entry for the first quarter (restraints occurring between July 1 – October 19, 2024, of the 2024-25 school year).

Local Educational Agencies (LEAs) are required to report RISC data quarterly during the 2024-25 school year. This includes reporting zero restraints during a quarter when restraints did not occur. Additionally, LEAs still are required to comply with 22 Pa. Code § 14.133(f) or 22 Pa. Code § 711.46(f) Positive Behavior Support related to training of personnel in specific procedures, methods, and techniques. However, 22 Pa. Code § 14.133(f) and 22 Pa. Code § 711.46(f) Positive Behavior Support do not require LEAs to acquire specific certification in the use of restraints and leaves this up to the LEAs and their specific training model. The training of personnel should provide varied intervention and strategies needed to address problem behaviors. The types of intervention chosen for a specific student or eligible young child shall be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including de-escalation techniques.

The Bureau of Special Education (BSE) continues to require LEAs to report the restraints that occurred in each quarter. This reporting process permits LEAs to report restraints in a timely manner which, in turn, allows LEAs to monitor patterns of episodic behaviors and address them accordingly.

The quarterly windows of reporting for the 2024-25 school year are as follows:

Quarter	Begin Date	End Date	Last Day to Report	Zero Window Opens	Zero Window Closes
1	07/01/2024	09/30/2024	10/18/2024	10/01/2024	10/18/2024
2	10/01/2024	12/31/2024	01/15/2025	01/01/2025	01/15/2025
3	01/01/2025	03/31/2025	04/14/2025	04/01/2025	04/14/2025
4	04/01/2025	06/30/2025	07/14/2025	07/01/2025	07/14/2025

The RISC reporting design provides an “End Date” for LEAs to comply with their end of quarterly reporting. In addition, there is a two-week window date labeled “Last Day to Report” to allow LEAs to gather and report on those students that attend an out-of-district facility where they were placed in a restraint during that quarter. This two-week period is also a designated time for LEAs that had no restraints during the quarter to report zero in RISC. BSE will continue to send out reminder PDE Bulletins about this quarterly reporting requirement.

BSE will monitor the restraint information reported by LEAs. RISC requires each LEA to report the event that occurred prior to the incident, the incident, the unsafe behavior, and the de-escalation techniques used. The LEA must notify the parent(s)/guardian(s) of the use of a restraint and schedule an Individualized Education

Program (IEP) meeting within 10 school days of the use of the restraint in the educational program, unless the parent(s)/guardian(s), after written notice, agree(s) in writing to waive the IEP meeting. Restraints occurring during Extended School Year sessions should be reported within three weeks of the start of the school year.

In reviewing restraints submitted in RISC of school-age students with IEPs, the Special Education Advisers of BSE will continue to focus on LEA monitoring responsibilities, as well as:

- Training of staff in de-escalation techniques;
- Excessive time of restraint;
- Excessive use of parent/guardian waivers;
- Mechanical restraints;
- Injuries;
- Number of restraints;
- 10-day window (school days) to convene an IEP meeting after a restraint occurs;
- Handcuffing of students, students tased, or students charged with a safe schools offense; and
- Excessive law enforcement involved in restraints with staff not involved.

A RISC reporting webinar is posted on the [RISC website](#). The RISC reporting webinar link is located below the login box of the Leader Services RISC sign-in page. This webinar explains the reporting and investigation process and how to use the RISC program. The webinar also shares how to update your LEA's contact information. All parties involved with RISC are highly encouraged to view this webinar to learn how to report restraints, how to use the system, and to understand the regulatory responsibility of LEAs.

Additionally, BSE has recently updated the [RISC Program Guidelines](#) which are available for review on the RISC website.

Questions regarding RISC should be directed to the RISC Resource Account - ra-edrisc@pa.gov.
