LIMITATIONS:

The tuition discount may only be applied to sixteen (16) credits per academic year.

The tuition discount applies to all resident instruction and continuing education credit courses for which regular tuition is charged, except for the professional curriculum such as those offered at the College of Medicine at The Milton S. Hershey Medical Center, the Smeal College of Business Executive Doctorate of Business Administration (DBA), Dickinson Law, and Penn State Law. The discount does not apply at summer camps or workshops operated by the University unless University credit is given and regular tuition is charged.

REQUIRED APPROVAL:

Approval for a full-time employee to schedule courses during their scheduled work hours is a special arrangement and is granted only when the supervisor believes that the schedule of courses will not interfere with the efficient operation of the employee's regular University duties.

GRADUATE DEGREE LIMITATION:

No academic employee above the rank of Instructor, Research Assistant, or equivalent may receive from the University the Master's Degree or the Doctor's Degree in any graduate program where the faculty member has membership, teaches courses, serves on Master's or Doctoral Committees, or has other supervisory responsibilities which might give rise to conflicts of interest. The faculty member should inform their department head of their intention to pursue an advanced degree.

AMOUNT OF TUITION DISCOUNT:

The tuition discount is a reduction of 75% of the tuition payable per credit.

OTHER LIMITATIONS:

Those receiving the tuition discount are not eligible for University scholarships and also may not receive funding from other University sources (general, restricted, or unrestricted miscellaneous funds), with the exception of endowed funds specifically established for the benefit of employees.

When a department wants employees to take a course as professional development, the use of general funds is permitted. The department must pay 100% of the cost and the tuition discount does not apply. Departments are not permitted to ask employees to enroll using the tuition discount, and then to reimburse the employee for the 25% of tuition not covered.

If additional support is provided through an endowed fund specifically established for the benefit of employees, no direct reimbursement to the employee is permitted, and the application of these funds may only be used to cover remaining tuition after discount.

**Retirement Plans:
PENN STATE UNIVERSITY**

Most employees participate in one of two retirement programs at Penn State University -- the State Employees' Retirement System (SERS) and the Teachers Insurance and Annuity Association-College Retirement and Equity Fund (TIAA). A small number of employees participate in the Public-School Employees' Retirement System (PSERS) and currently no employees participate in the Federal Civil Service Retirement System. Membership in the federal plan is required for any position funded entirely by federal funds.

As of November 2024, there are 21,017 employees participating in one of the three programs. A breakdown of participation is as follows:

SERS	6,803
TIAA	13,358
PSERS	856

The employee contribution rate for SERS is determined by the member's class and ranges from 5.00-9.30% of gross salary. Employee contribution rate to TIAA is 5.00% of gross salary. EFFECTIVE JULY 1, 2024, the University contributes 19.04-40.33% as the employer to SERS and 9.29% to TIAA.

These contribution rates for SERS for both the employee and the employer are determined by the Commonwealth. The contribution rates for TIAA are determined by the plan documents governing the plan.

Election of a retirement system is mandatory for all full-time employees. In addition, state law requires participation for part-time employees upon the completion of 750 hours of employment in a calendar year. The retirement systems are not integrated with the Federal social security benefits and the retirement benefit is in addition to the benefit provided by social security.

The SERS plan is available to employees of the University and agencies of the Commonwealth of Pennsylvania. SERS provides a fixed dollar annuity with benefits determined by length of service and average salary for the three highest years of earnings. SERS retirement benefit is calculated using a formula. The formula is either 2.0% or 2.5% times the number of years and months of retirement credit, times the average of the highest three years of earnings. There are a variety of retirement options available under the plan. All employees new to SERS are enrolled in a hybrid plan that provides both a defined benefit and a defined contribution plan. For the hybrid defined benefit plan, the formula to determine the benefit is 1.25.% times the number of years and months of retirement credit, times the average of the highest five calendar years of earnings. Retirement income from the defined contribution plan is determined by the amount of money contributed to the account by the employee and the University, and the performance of the investments selected by the employee.

In 1974, the Commonwealth enacted legislation that enabled Penn State to offer TIAA as an alternate retirement plan. TIAA and CREF are nonprofit insurance and annuity companies, whose membership is limited exclusively to employees of colleges and universities and to employees of any other not for profit institutions. TIAA is a legal reserve life insurance and annuity company and returns a fixed annuity. Its companion, CREF, was established to provide benefits based on variable investments, primarily in the equities and bond markets. Retirement income from membership in TIAA is determined by the amount of money contributed to the account by the employee and the University, the age at retirement, and the performance of the investments offered by TIAA. There are several retirement options available through TIAA at the time of retirement.

ELIGIBILITY FOR COVERAGE INTO RETIREMENT:

Medical Coverage

Full-Time Employees (does not apply to Post-Doctoral Scholars or Fellows) Hired Before January 1, 2010:

You may continue to be covered under the health plan benefits available to retired employees and their eligible dependents if, at retirement you meet one of the following conditions:

- You are at least 60 years of age.
- You have at least 15 years of regular, continuous full-time employment.
- You have participated in a University-sponsored medical plan for 15 continuous years immediately preceding retirement.

-OR-

- You have 25 years of regular full-time employment.
- You have 10 years of continuous participation in a University-sponsored health care plan immediately preceding retirement.

If you and/or your spouse is Medicare eligible, your medical plan coverage will be provided under a University sponsored retiree Medicare plan. Those eligible retirees and/or spouses who are not Medicare eligible will continue coverage in the same University sponsored medical plan in which you were enrolled prior to retirement. As you and your spouse attain Medicare eligibility, your coverage will transition to a University sponsored retiree Medicare plan. Regardless of the plan, you will be billed for your contribution by the University on a semi-annual basis.

Full-Time Employees (does not apply to Post-Doctoral Scholars or Fellows) Hired on or After January 1, 2010:

The University will contribute funds each month on your behalf to a retirement healthcare savings plan to help you to pay for qualified medical and health-related expenses in retirement, including the purchase of a health insurance policy.

You will be eligible to access your Penn State Retirement Savings Account when you are no longer actively employed at Penn State AND have:

- Completed 25 years of continuous full-time service and are age 60 or older.

-OR-

- Completed a minimum of 15 years of continuous full-time service and are age 65 or older.

Dental and Vision Coverage

Your dental and vision plan coverage terminate at retirement. However, you may elect to continue one or both of these plans for up to 18 months under the provisions of COBRA. You must contact the Employee Benefits Division within 60 days after your retirement date to enroll in COBRA.

LIFE INSURANCE AFTER RETIREMENT:

Employees who retire from Penn State on or before December 31, 2020 will continue to carry a \$5,000 Term Life Insurance benefit policy into retirement at no cost to the retiree. This benefit is not available to employees retiring on or after January 1, 2021. Technical Service employees should refer to their Collective Bargaining Agreement for details regarding this benefit.

CESSATION OF DENTAL, VISION CARE, AND VADD COVERAGE UPON RETIREMENT OR DEATH:

Coverage for faculty or staff and their eligible dependents under the University's dental, vision or VADD plans ceases upon retirement, and, for dependents, upon the death of the actively employed faculty or staff member.

DEPENDENT PROTECTION IN UNIVERSITY SPONSORED MEDICAL PLANS AFTER THE DEATH OF A FACULTY OR STAFF MEMBER, OR RETIREE:

At the death of a retiree who continued medical plan coverage after retirement, or an active faculty or staff member who was qualified to continue coverage on the basis of age and/or length of service, eligible surviving dependents may continue to be covered under a University sponsored medical plan. Dependent children will qualify for coverage until the age of 26. Surviving spouses may continue the coverage for life, or until remarriage occurs.

If, at the time of death, a faculty or staff member was not qualified to continue medical plan coverage after retirement, coverage would continue for the surviving spouse for one year or until remarriage occurs, if earlier. Dependent children also would continue to be covered under the plan, assuming that they continued to meet the definition of a qualified dependent. Individuals interested in continuing the coverage beyond this period should contact the Employee Benefits Division regarding coverage extensions under COBRA.
