Appendix A – Course Codes

Each course code submitted to PIMS must be mapped to a standardized state course code; the Pennsylvania Department of Education (PDE) lists standardized courses for use in federal reporting for Act 82 Building Score calculation and the Future Ready PA Index. will indicate if the course is a core content course. All core content courses are associated with one of the core content subject areas including: English, Reading/Language Arts, Mathematics, Sciences, Foreign Languages, Music and Art, and Social Studies (history, economics, geography, and civics and government).

The standardized course list is based on the 5-digit course codes in the National Center for Education Statistics (NCES) School Codes for the Exchange of Data (SCED) classification system for courses in the United States. Information, including course descriptions, is available in the *School Course Classification System: School Codes for Exchange of Data (SCED)*, found on the [NCES website](http://nces.ed.gov/forum/SCED.asp) (nces.ed.gov/forum/SCED.asp). 2007-344. SCED is part of the NCES data handbook series and is published as a searchable electronic database, *Handbooks Online*. Use the following links: [NCES website](http://nces.ed.gov/forum/SCED.asp) or go to the [NCES Handbook](http://nces.ed.gov/ipeds/data/handbook/) and search for SCED.

Only submission of core content courses is required. Submission of all other course data is optional. Optional course data submitted by local education agencies (LEAs) will be stored in the PIMS data warehouse but will not. Beginning in the 2018-19 school year, LEAs are encouraged to submit all course subject areas. Core Content subject area courses will still be used in support of the Building Score calculation School Performance Profile (SPP) used in educator evaluation, as prescribed under Act 82 of 2012 (note that school-level PVAAS is also included in the SPP but is not indicated in this appendix). Beginning In the 2019-20 school year, all subject areas will be required, in order for PDE to meet federal reporting requirements.

- The McKinney-Vento Act defines the term "homeless children and youths" as individuals who lack a fixed, regular, and adequate nighttime residence.

This Basic Education Circular (BEC) explains the categories of children who are "homeless" and entitled to the protections of the federal law. These categories include:

- children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
- children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- "migratory children" who qualify as homeless under federal law because the children are living in circumstances described in clauses (i) through (iii) above. The term "migratory children" means children who are (or whose parent(s) or spouse(s) are) migratory agricultural workers, including migratory dairy workers or migratory fishermen, and who have moved from one school district to another in the preceding 36 months, in order to obtain (or accompany such parents or spouses in order to obtain) temporary or seasonal employment in agricultural or fishing work.

Appendix P – CTE Status Type Codes

NOTE: Appendix P, for both AAP and Secondary CTE students, is for use with Field 10 (CTE STATUS TYPE CODE) in the CTE Student Fact Template.

Secondary CTE Students:

Code	Secondary CTE Program Student Status Type Descriptions
10	CONTINUED OR WILL CONTINUE CTE AT THIS SCHOOL – Use for students continuing any reimbursable CTE programs at the same school offering the student’s reported CIP. “Same school” refers to reported CIP Location Code (Field 4 in CTE Student Fact Template).
22	TRANSFERRED OR WILL TRANSFER TO A DIFFERENT SCHOOL – Use when students exit or intend to exit CTE at the school identified with CIP Location Code (Field #4 in CTE Student Fact Template) and transfer to a different school. Use this selection for students that exit CTCs to return to their sending schools OR for students that exit CTE at a regular high school to then enroll at a CTC for other CTE. Also, use this selection for students that relocate.
28	TRANSFERRED OR WILL TRANSFER TO NON-CTE PROGRAM AT THIS SAME SCHOOL – Use when students exit or intend to exit CTE to a non-CTE program at the same school. “Same school” refers to reported CIP Location Code.
30	COMPLETED CTE PROGRAM AND DID NOT GRADUATE* – Use for a secondary CTE student who has (1) completed all secondary-level competencies necessary to achieve his/her career objective (or met appropriate related IEP objectives) and (2) completed a PDE approved occupational end-of-program assessment (or completed a program which has an assessment waiver); however, <u>DID NOT</u> attain a high school diploma or equivalent.
40	COMPLETED CTE PROGRAM AND GRADUATED* – Use for a secondary CTE student who has (1) completed all secondary-level competencies necessary to achieve his/her career objective (or met appropriate related IEP objectives), (2) completed a PDE approved occupational end-of-program assessment (or completed a program which has an assessment waiver) and (3) attained a high school diploma or equivalent. SELECTION IDENTIFIES A CTE SECONDARY COMPLETER.
60	GRADUATED AND DID NOT COMPLETE CTE PROGRAM* – Use for a secondary CTE student who attained a high school diploma or equivalent; however, <u>EITHER</u> (1) DID NOT complete all appropriate secondary-level competencies necessary to achieve his/her career objective <u>OR</u> (2) DID NOT complete a PDE approved occupational end-of-program assessment (or did not complete a program which has an assessment waiver).
71	DROPPED OUT OF SCHOOL – Use for students who, for any other reason other than death, leave school before graduation without transferring to another school/institution.
80	DECEASED

* Students with IEPs who participate in (take) the Pennsylvania Alternate System of Assessment (PASA) in lieu of an approved state academic assessment are granted a waiver on the PDE approved end-of-program technical skills assessment, as long as the PASA being required for the student is documented in the student’s IEP. Therefore, IEP students participating in PASA can be considered as “completing the CTE program” as long as appropriate student IEP CTE program-related objectives are met.

Adult Affidavit Students:

Code	Adult Affidavit Program (AAP) Student CTE Status Type Descriptions
11	CONTINUE AAP CTE AT THIS SCHOOL – Use for student who did not complete the reported AAP during the reporting year however, intend to continue any CTE AAP at the same school in the coming year. “Same school” refers to reported CIP Location Code (Field 4 in the CTE Student Fact template).
23	EXITED CTE WITHOUT COMPLETING REPORTED AAP – Use when students exit or intend to exit CTE AAP at this school either during or at the end of this reporting year without completing the reported AAP program (CIP reported in Field 6 of the Student Fact template). “This school” refers to the CIP Location Code (Field 4 in the CTE Student Fact template).
41	COMPLETED CTE AAP – Use for CTE AAP student who has: 1.) completed the AAP sequence of instruction to fulfill the program’s occupational objectives by the end of this school year, and 2.) received a certificate or other formal award. NOTE: THIS SELECTION IDENTIFIES A CTE AAP COMPLETER. Do not use this code for adult students enrolled in Young Farmers Programs (CIP 01.0301). Appendix S – Family Educational Rights and Privacy Act

Student education records are official and confidential documents protected by one of the nation's strongest privacy protection laws, the Family Educational Rights and Privacy Act (FERPA). FERPA, also known as the Buckley Amendment, defines education records as all records that schools or education agencies maintain about students.

FERPA gives parents (as well as students in postsecondary schools) the right to review and confirm the accuracy of education records. This and other United States "privacy" laws ensure that information about citizens collected by schools and government agencies can be released only for specific and legally defined purposes. Since enacting FERPA in 1974, Congress has strengthened privacy safeguards of education records through this law, refining and clarifying family rights and agency responsibilities to protect those rights.

FERPA's legal statute citation can be found in the U.S. Code (20 USC 1232g), which incorporates all amendments to FERPA. FERPA regulations are found in the Federal Register (34 CFR Part 99). FERPA's 1994 amendments are found in Public Law (PL) 103-382.

FERPA Protects Privacy

FERPA applies to public schools and state or local education agencies that receive Federal education funds, and it protects both paper and computerized records. In addition to the Federal laws that restrict disclosure of information from student records, most states also have privacy protection laws that reinforce FERPA. State laws can supplement FERPA, but compliance with FERPA is necessary if schools are to continue to be eligible to receive Federal education funds.

FERPA requires schools and local education agencies to have written and accessible policies about how they restrict the release of student records. The policies must explain parents' rights under FERPA, define what qualifies as "directory information" (personal information that can be made public), set procedures for reviewing and correcting records, and explain how and when student information can be disclosed. When students reach the age of 18, or when they become students at postsecondary education institutions, rights under FERPA transfer from the parents to the students.

FERPA gives both parents, custodial and non-custodial, equal access to student information unless the school has evidence of a court order or state law revoking these rights.

FERPA Defines an Education Record

Education records include a range of information about a student that is collected in schools, such as:

date and place of birth; parent(s) and/or guardian addresses; where parents can be contacted in emergencies; grades; test scores; courses taken; academic specializations and activities; official letters regarding a student's status in school; Special Education records; disciplinary records; medical and health records that the school creates or collects and maintains; documentation of attendance; schools attended; courses taken; awards conferred; and degrees earned; personal information such as a student's state-provided identification number, picture, or other information that would make it easy to identify or locate a student.

Personal notes made by teachers and other school officials that are not shared with others are not considered education records. Additionally, law enforcement records created and maintained by a school or district's law enforcement unit are not education records.

Part of the education record, known as **directory information**, includes personal information about a student that can be made public according to a school system's FERPA policy. Directory information may include a

student's name, address, and telephone number, and other information typically found in school yearbooks or athletic programs. Other examples are names and pictures of participants in various extracurricular activities or recipients of awards, pictures of students, and height and weight of athletes.

Each year schools must give parents public notice of the types of information designated as directory information. By a specified time after parents are notified of their review rights, parents may ask to remove all or part of the information on their child that they do not wish to be available to the public without their consent.

FERPA Guarantees Parent Review and Appeal

If, upon review, parents find an education record is inaccurate or misleading, they may request changes or corrections, and schools and education agencies must respond promptly to these requests.

Requests should be made in writing according to local policies. Within a reasonable time period, the school or agency must decide if the request to change the record is consistent with its own assessment of the accuracy of the record. If a parent's request is denied, he or she must be offered the opportunity for a hearing. If parents' disagreement with the record continues after the hearing, they may insert an explanation of their objection in the record.

FERPA's provisions do not apply to grades and educational decisions about children that school personnel make.

While parents have a right to review records, schools are not required by federal law to provide copies of information, unless providing copies would be the only way of giving parents access. Schools may charge a reasonable fee for obtaining records, and they may not destroy records if a request for access is pending.

FERPA Restricts Disclosure of Student Records

Local education agencies and schools may release information from students' education records with the prior written consent of parents, under limited conditions specified by law, and as stated in local agencies' student records policies. The same rules restricting disclosures apply to records maintained by third parties acting on behalf of schools, such as state and local education agencies, intermediate administrative units, researchers, psychologists, or medical practitioners who work for or are under contract to schools.

A school district is required, however, to have a policy that specifies the categories of officials and parties to whom records may be released without parental consent. The policy should be readily accessible to parents for review.

Teachers and school officials who work with the students and schools to which students apply for entrance may also have access to education records without parental consent. In addition, information from students' records may be released to State and local education officials to conduct audits or to review records in compliance with Federal laws. Schools may also disclose information from education records without the consent of parents in response to subpoenas or court orders. A school official must make a reasonable effort to notify the parent before complying with the subpoena unless the subpoena is issued to enforce a law and specifies not to notify the parent.

In emergencies, school officials can provide information from education records to protect the health or safety of the student or others.

There are cases when schools or school systems decide it is in the public interest to participate in policy evaluations or research studies. If student records are to be released for these purposes, the school or school system must obtain prior parent consent. Signed and dated written consent must:

- specify the records that will be released;
- state the reason for releasing the records;
- identify the groups or individuals who will receive the records.

In general, information about each request for records access and each disclosure of information from an education record must be maintained as part of the record until the school or agency destroys the education record. Outside parties receiving records must receive a written explanation of the restrictions on the re-release of information.

Additional FERPA Provisions

In 1994, the Improving America's Schools Act amended several components of FERPA, tightening privacy assurances for students and families. The amendments apply to the following key areas:

- parents have the right to review the education records of their children maintained by state education agencies;
- any agency or institution that inappropriately re-releases personally identifiable information from an education record cannot have access to education records for five years;
- information about disciplinary actions taken against students may be shared, without parents' consent, with officials in other education institutions;
- schools may release records in compliance with certain law enforcement judicial orders and subpoenas without notifying parents.

Questions?

Call your local school system, state agency, or the Family Policy Compliance Office.

School districts, state education agencies, and the U.S. Department of Education offer assistance about FERPA. Before contacting federal officials, you can often get a direct and immediate response from your local or state education officials.

Appendix X – Officer Definitions

NOTE: Appendix X is for use with Field 48 (STAFF QUALIFICATION STATUS CODE) in the Staff and Staff Snapshot Templates.

"School police officer" A law officer employed by a school district whose responsibilities, including work hours, are established by the school district.

"School resource officer" A law enforcement officer commissioned and employed by a law enforcement agency whose duty station is located in a school entity and whose stationing is established by an agreement between the law enforcement agency and the school entity.

"School security guard" An individual employed by a school entity or a third-party contractor who is assigned to a school for routine safety and security duties and is not engaged in programs with students at the school.

"School police officer" means an officer employed by a school district who has been granted powers under subsection (c) (2), (3) or (4), or any combination thereof. The term does not include a school resource officer under section 778.1 or a school security officer under section 778.2. Several school districts have their own school police departments. These officers are typically full-time, in-house school officers with police powers who are employed directly by the school district rather than directly by a law enforcement agency outside of the school district.

"School resource officer" (SRO) means a law enforcement officer commissioned by a law enforcement agency whose duty station is in a school. SROs are law enforcement officers from local, county or state law enforcement agencies assigned to schools in cooperative agreements with education officials.

"School security officer" means a noncommissioned officer employed by a school district or a vendor who is assigned to a school for routine safety and security duties and who has not been granted powers under section 778 (c) (2), (3) or (4). In-house school security personnel, although sometimes commissioned with limited arrest authority depending upon jurisdiction, qualifications, and other issues, typically are civilian, non-police classified school support personnel without full police powers. In many school systems, these officials are the backbone of school operations with respect to providing school safety support services, enhanced campus supervision, assistance with disruptive students, monitoring visitors, coordination with law enforcement officials, and a host of other functions geared toward improving and maintaining school safety.
