Appendix A – Course Codes

Course Codes are found in the Course Codes – App A spreadsheet on the Pennsylvania Department of Education > Data and Reporting > PIMS > [Manuals and Calendar](#) page.

Each course code submitted to PIMS must be mapped to a standardized state course code; the Pennsylvania Department of Education (PDE) lists standardized courses for use in federal reporting for Act 13 Building Score calculation, the Future Ready PA Index, and ESSA.

The standardized course list is based on the 5-digit course codes in the National Center for Education Statistics (NCES) School Codes for the Exchange of Data (SCED) classification system for courses in the United States. Information, including course descriptions, is available in the *School Course Classification System: School Codes for Exchange of Data (SCED)*, found on the [NCES website](https://nces.ed.gov/forum/SCED.asp) (nces.ed.gov/forum/SCED.asp).

Beginning in the 2019-20 school year, LEAs are required to submit all course subject areas. The new subject area data is required to support new federal reporting requirements that are not limited to the Core Content subjects. Only Core Content subject area courses will still be used to calculate the Building Score calculation used in educator evaluation, as prescribed under [ACT 13 of 2020](#) (Note: School-level PVAAS is also included in the Act 13 Building Score calculation but is not indicated in this appendix).

Appendix B – Staff Assignment Codes

Chief School Administrator Assignment Codes (numerical order) are found in the Staff Assignments – Appendix B spreadsheet, on the Pennsylvania Department of Education > Data and Reporting > PIMS > [Manuals and Calendar](#) page.

IMPORTANT NOTE: Every LEA must have one, and only one, Administrator code entered in Field 3 (ASSIGNMENT CODE) of the Staff Assignment Template.

NOTE: Appendix B is for use with Field 3 (ASSIGNMENT CODE) in the Staff Assignment Template.

 - Plan 504
- Some programs may be tracked in aggregate at the IU level, not the student level. Please refer to the District Annual Facts Template for specific details on how to collect this information. Currently these include:
 - EP Service Plan
- Some programs may be tracked at the school level, not the student level. Currently these include:

- The Education for Homeless Youth Basic Education Circular (BEC) explains the categories of children who are "homeless" and entitled to the protections of the federal law. These categories include:
 - children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;

 - "migratory children" who qualify as homeless under federal law because the children are living in circumstances described in clauses (i) through (iii) above. The term "migratory children" means children who are (or whose parent(s) or spouse(s) are) migratory agricultural workers, including migratory dairy workers or migratory fishermen, and who have moved from one school district to another in the preceding 36 months, in order to obtain (or accompany such parents or spouses in order to obtain) temporary or seasonal employment in agricultural or fishing work.

Appendix N – Residency Status and District Codes

NOTE: Appendix N is for use with Field 5 (DISTRICT OF RESIDENCE AUN), Field 6 (FUNDING DISTRICT AUN), and Field 7 (RESIDENCE STATUS CODE) for the Student Calendar Fact Template; Field 10 (RESIDENCE STATUS CODE) for the School Enrollment Template; and Field 117 (DISTRICT OF RESIDENCE AUN) and Field 189 (FUNDING DISTRICT AUN) in the Student and Student Snapshot Templates.

Definitions:

AUN: The unique, 9-digit Administrative Unit Number assigned by PDE.

NOTE: If a student is enrolled in a magnet school within their District of Residence, the School Number of Residence should be the magnet school.

District of Residence AUN: The AUN for the school district where the natural/adoptive parent or legal guardian resides. For a 1305 or 1306 student with no known school district of residence, enter the PA State code (999999999). Students whose natural/adoptive parent resides out-of-state should use the Out-of-State code (888888888).

Funding District AUN: The AUN for the school district that is financially responsible for the student. This is generally the same as District of Residence, except for non-resident students as noted in the appendix below.

AUN of Enrollment: The AUN for the LEA providing the majority of the student's core academic education.

NOTES:

- A value of 888888888 should be entered to indicate the generic “Out-of-State” code.
- A value of 999999999 should be entered to indicate the generic “PA State” code.
- Letters A to M are values for the Residence Status Code field in the School Enrollment Template (Field 10) and Student Calendar Fact Template (Field 7).
- Reporting Adult Affidavit Program (AAP) students in the School Enrollment Template is not required or needed. LEAs may report 999999999 in the District Code of Residence and should report the AUN of the school district where the CTE educating LEA is located in the Funding District AUN for AAP students.

NOTE: Codes apply to all grade levels **with the exception of Adult Affidavit Program (AAP) students.**

Reporting Adult Affidavit Program (AAP) students in the School Enrollment Template is not required or needed. LEAs may report “999999999” in the District Code of Residence and should report the AUN of the school district where the CTE educating LEA is located in the Funding District AUN for AAP students.

Appendix P – CTE Status Type Codes

NOTE: Appendix P, for both AAP and Secondary CTE students, is for use with Field 10 (CTE STATUS TYPE CODE) in the CTE Student Fact Template.

Secondary CTE Students

Code	Secondary CTE Program Student Status Type Descriptions
10	CONTINUED OR WILL CONTINUE CTE AT THIS SCHOOL – Use for students continuing any reimbursable CTE programs at the same school offering the student’s reported CIP. “Same school” refers to reported CIP Location Code (Field 4 in CTE Student Fact Template).

Code	Secondary CTE Program Student Status Type Descriptions
22	TRANSFERRED OR WILL TRANSFER TO A DIFFERENT SCHOOL – Use when students exit or intend to exit CTE at the school identified with CIP Location Code (Field #4 in CTE Student Fact Template) and transfer to a different school. Use this selection for students that exit CTCs to return to their sending schools OR for students that exit CTE at a regular high school to then enroll at a CTC for other CTE. Also, use this selection for students that relocate.
28	TRANSFERRED OR WILL TRANSFER TO NON-CTE PROGRAM AT THIS SAME SCHOOL – Use when students exit or intend to exit CTE to a non-CTE program at the same school. “Same school” refers to reported CIP Location Code.
30	COMPLETED CTE PROGRAM AND DID NOT GRADUATE* – Use for a secondary CTE student who has (1) completed all secondary-level competencies on their program’s task list or met appropriate related IEP objectives and (2) completed a PDE approved occupational end-of-program assessment (or completed a program which has an assessment waiver); however, DID NOT attain a high school diploma or equivalent.
40	COMPLETED CTE PROGRAM AND GRADUATED* – Use for a secondary CTE student who has (1) completed all secondary-level competencies on their program’s task list or met appropriate related IEP objectives, (2) completed a PDE approved occupational end-of-program assessment (or completed a program which has an assessment waiver) and (3) attained a high school diploma or equivalent. SELECTION IDENTIFIES A CTE SECONDARY COMPLETER.
60	GRADUATED AND DID NOT COMPLETE CTE PROGRAM* – Use for a secondary CTE student who attained a high school diploma or equivalent; however, EITHER (1) DID NOT complete all appropriate secondary-level competencies on their program’s task list or met appropriate related IEP objectives OR (2) DID NOT complete a PDE approved occupational end-of-program assessment (or did not complete a program which has an assessment waiver).
71	DROPPED OUT OF SCHOOL – Use for students who, for any other reason other than death, leave school before graduation without transferring to another school/institution.
80	DECEASED

* Students with IEPs who participate in (take) the Pennsylvania Alternate System of Assessment (PASA) in lieu of an approved state academic assessment are granted a waiver on the PDE approved end-of-program technical skills assessment, as long as the PASA being required for the student is documented in the student’s IEP. Therefore, IEP students **participating in PASA** can be considered as “completing the CTE program” as long as appropriate student IEP CTE program-related objectives are met.

Adult Affidavit Students

Code	Adult Affidavit Program (AAP) Student CTE Status Type Descriptions
11	CONTINUE AAP CTE AT THIS SCHOOL – Use for student who did not complete the reported AAP during the reporting year, however, intend to continue any CTE AAP at the same school in the coming year. “Same school” refers to reported CIP Location Code (Field 4 in the CTE Student Fact Template).
23	EXITED CTE WITHOUT COMPLETING REPORTED AAP – Use when students exit or intend to exit CTE AAP at this school either during or at the end of this reporting year without completing the reported AAP program (CIP reported in Field 6 of the Student Fact Template). “This school” refers to the CIP Location Code (Field 4 in the CTE Student Fact Template).

Appendix S – Family Educational Rights and Privacy Act

Student education records are official and confidential documents protected by one of the nation's strongest privacy protection laws, the Family Educational Rights and Privacy Act (FERPA). FERPA, also known as the Buckley Amendment, defines education records as all records that schools or education agencies maintain about students.

FERPA gives parents (as well as students in postsecondary schools) the right to review and confirm the accuracy of education records. This and other United States "privacy" laws ensure that information about citizens collected by schools and government agencies can be released only for specific and legally defined

purposes. Since enacting FERPA in 1974, Congress has strengthened privacy safeguards of education records through this law, refining and clarifying family rights and agency responsibilities to protect those rights. FERPA's legal statute citation can be found in the U.S. Code (20 USC 1232g), which incorporates all amendments to FERPA. FERPA regulations are found in the Federal Register (34 CFR Part 99). FERPA's 1994 amendments are found in Public Law (PL) 103-382.

FERPA Protects Privacy

FERPA applies to public schools and state or local education agencies that receive Federal education funds, and it protects both paper and computerized records. In addition to the Federal laws that restrict disclosure of information from student records, most states also have privacy protection laws that reinforce FERPA. State laws can supplement FERPA, but compliance with FERPA is necessary for schools to be eligible to receive Federal education funds.

FERPA requires schools and local education agencies to have written and accessible policies about how they restrict the release of student records. The policies must explain parents' rights under FERPA, define what qualifies as "directory information" (personal information that can be made public), set procedures for reviewing and correcting records, and explain how and when student information can be disclosed. When students reach the age of 18, or when they become students at postsecondary education institutions, rights under FERPA transfer from the parents to the students.

FERPA gives both parents, custodial and non-custodial, equal access to student information unless the school has evidence of a court order or state law revoking these rights.

FERPA Defines an Education Record

Education records include a range of information about a student that is collected in schools, such as:

date and place of birth; parent(s) and/or guardian addresses; where parents can be contacted in emergencies; grades; test scores; courses taken; academic specializations and activities; official letters regarding a student's status in school; Special Education records; disciplinary records; medical and health records that the school creates or collects and maintains; documentation of attendance; schools attended; courses taken; awards conferred; and degrees earned; personal information such as a student's state-provided identification number, picture, or other information that would make it easy to identify or locate a student.

Personal notes made by teachers and other school officials that are not shared with others are not considered education records. Additionally, law enforcement records created and maintained by a school or district's law enforcement unit are not education records.

Part of the education record, known as **directory information**, includes personal information about a student that can be made public according to a school system's FERPA policy. Directory information may include a student's name, address, and telephone number, and other information typically found in school yearbooks or athletic programs. Other examples are names and pictures of participants in various extracurricular activities or recipients of awards, pictures of students, and height and weight of athletes.

Each year schools must give parents public notice of the types of information designated as directory information. By a specified time after parents are notified of their review rights, parents may ask to remove all or part of the information on their child that they do not wish to be available to the public without their consent.

FERPA Guarantees Parent Review and Appeal

If, upon review, parents find an education record is inaccurate or misleading, they may request changes or corrections, and schools and education agencies must respond promptly to these requests.

Requests should be made in writing according to local policies. Within a reasonable time period, the school or agency must decide if the request to change the record is consistent with its own assessment of the accuracy of the record. If a parent's request is denied, they must be offered the opportunity for a hearing. If parents'

disagreement with the record continues after the hearing, they may insert an explanation of their objection in the record.

FERPA's provisions do not apply to grades and educational decisions about children that school personnel make.

While parents have a right to review records, schools are not required by federal law to provide copies of information, unless providing copies would be the only way of giving parents access. Schools may charge a reasonable fee for obtaining records, and they may not destroy records if a request for access is pending.

FERPA Restricts Disclosure of Student Records

Local education agencies and schools may release information from students' education records with the prior written consent of parents, under limited conditions specified by law, and as stated in local agencies' student records policies. The same rules restricting disclosures apply to records maintained by third parties acting on behalf of schools, such as state and local education agencies, intermediate administrative units, researchers, psychologists, or medical practitioners who work for or are under contract to schools.

A school district is required, however, to have a policy that specifies the categories of officials and parties to whom records may be released without parental consent. The policy should be readily accessible to parents for review.

Teachers and school officials who work with the students and schools to which students apply for entrance may also have access to education records without parental consent. In addition, information from students' records may be released to State and local education officials to conduct audits or to review records in compliance with Federal laws. Schools may also disclose information from education records without the consent of parents in response to subpoenas or court orders. A school official must make a reasonable effort to notify the parent before complying with the subpoena unless the subpoena is issued to enforce a law and specifies not to notify the parent.

In emergencies, school officials can provide information from education records to protect the health or safety of the student or others.

There are cases when schools or school systems decide it is in the public interest to participate in policy evaluations or research studies. If student records are to be released for these purposes, the school or school system must obtain prior parent consent. Signed and dated written consent must:

- specify the records that will be released;
- state the reason for releasing the records; and
- identify the groups or individuals who will receive the records.

In general, information about each request for records access and each disclosure of information from an education record must be maintained as part of the record until the school or agency destroys the education record. Outside parties receiving records must receive a written explanation of the restrictions on the re-release of information.

Additional FERPA Provisions

In 1994, the Improving America's Schools Act amended several components of FERPA, tightening privacy assurances for students and families. The amendments apply to the following key areas:

- parents have the right to review the education records of their children maintained by state education agencies;

- any agency or institution that inappropriately re-releases personally identifiable information from an education record cannot have access to education records for five years;
- information about disciplinary actions taken against students may be shared, without parents' consent, with officials in other education institutions; and
- schools may release records in compliance with certain law enforcement judicial orders and subpoenas without notifying parents.

Questions?

Call your local school system, state agency, or the Family Policy Compliance Office. School districts, state education agencies, and the U.S. Department of Education offer assistance about FERPA. Before contacting federal officials, you can often get a direct and immediate response from your local or state education officials.

Indication of No Reportable School Safety Incidents for a School

Reportable School Safety incidents are to be submitted in detail in the Discipline Domain Templates. Some schools (most often elementary schools) may not have any reportable School Safety incidents for the entire school year. In this situation an LEA must indicate this by submitting a record in the Location Fact Template for each school that does not have reportable incidents for the year. Use the categories in the table below.

Category 1	Category 2	Category 3	Description of what to include in COUNT field
INCIDENTS	ZERO	ZERO	Include 0 to indicate that the school did not have any reportable School Safety incidents for the entire school year.

Appendix AB – Categories to Use in the District Fact Template for Safe Schools

The table below details the values to use in the CATEGORY 1 and CATEGORY 2 fields as well as the COUNT field when reporting zero directly employed or contracted security staff. Alternately, if an LEA contracts with a security company that rotates staff, the values to use in the CATEGORY 1, CATEGORY 2, and COUNT fields for the various aggregate security staff counts are listed.

NOTE: The data reported in Category 1 and Category 2 must be reported in all UPPER CASE letters to pass validation. If you are reporting Category 2 = ZERO, you should have a single District fact record where Count = 0. You should not have records where both Category 2 = ZERO and Category 2 = TOTAL. If you are reporting Category 2 = TOTAL, then Count must be > 0.

Category 1	Category 2	Description of what to include in COUNT field
SECURITY	ZERO	Include 0 to indicate that the entire LEA does not have any directly employed or contracted security staff
SECURITY	TOTAL	Aggregate number of contracted security staff who provided services to the LEA during the school year
SECURITY	WEAPON	Total aggregate number of contracted security staff who provided services to the LEA during the school year and were authorized to carry a weapon
SECURITY	CPR	Aggregate number of contracted security staff who provided services to the LEA during the school year and were trained on CPR
SECURITY	FIRSTAID	Aggregate number of contracted security staff who provided services to the LEA during the school year and were trained in first aid
SECURITY	FIREARMS	Aggregate number of contracted security staff who provided services to the LEA during the school year and were firearms qualified
SECURITY	MPOETC	Aggregate number of contracted security staff who provided services to the LEA during the school year and received Municipal Police Officer's Education and Training Commission (MPOETC) training within the school year
SECURITY	NASRO	Aggregate number of contracted security staff who provided services to the LEA during the school year and received National Association of School Resource Officer's (NASRO) training within the school year
SECURITY	LOCAL	Aggregate number of contracted security staff who provided services to the LEA during the school year and received local training within the school year
SECURITY	SCOPE	The scope of security services provided by the contract security company during the school year. Valid values: 1 – All schools in LEA 2 – High school(s) only 3 – Middle school(s) only 4 – High school(s) and middle school(s) 5 – Elementary school(s) only 6 – Other
