

Pennsylvania Assessments Training Site

DRC's administration training for all state assessments is located on the [Pennsylvania Assessments Training Site](#).

DRC's training site includes videos and Frequently Asked Questions that cover the logistical aspects of paper assessments and the technological aspects of online testing.

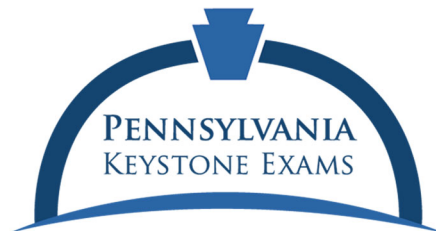

The site also includes frequently accessed resource and training materials, which are also available on the DRC INSIGHT Portal and PDE website.

The information and videos should be viewed by all District Assessment Coordinators and should be used to assist in the training of other district and school personnel.

Any questions about the training or content can be directed to DRC's customer service team at pacustomerservice@datarecognitioncorp.com or 800-451-7849.
