- Evaluate the function of the cardiovascular, respiratory, and endocrine systems in exercise by examining each system and relating its activity to physical exercise.
- Analyze how the ATP-PC, glycolytic, and oxidative energy systems relate to physical exercise by comparing function and characteristics of each system.
- Evaluate how the energy systems work in different types of exercise by examining the energy requirements of the types of exercise and relating them to properties of the energy systems.
- Describe how the human body moves by studying motion in terms of planes of motion and force, leverage, torque, and rotary motion.
- Evaluate the role of fitness testing in physical exercise by examining the goal and procedures of fitness testing and relating them with fitness goals.
- Describe how to determine heart rate, body mass index, and body composition by examining the procedures for each test.
- Analyze the importance of knowing heart rate, body mass index, and body composition in fitness by examining how each relates to fitness and by relating them with fitness goals
- Describe how to determine flexibility, cardio status, and muscular endurance by examining the procedures for determining each.

High School Physical Education B Syllabus

- Analyze the importance of knowing flexibility, cardio status, and muscular endurance in fitness by examining how each relates to fitness and by relating them with fitness goals.
 - Evaluate the importance of warm-up and cooldown in physical exercise by examining the effects of warm-up and cooldown procedures on the body.
 - Evaluate how flexibility can be increased by highlighting the characteristics of different stretching methods and comparing their advantages and disadvantages.
 - Analyze how cardiorespiratory training affects overall fitness levels by examining the characteristics of variables relevant to cardiorespiratory training and how the cardiorespiratory system functions during exercise.
 - Describe different levels of core training by highlighting the characteristics of the core and comparing and contrasting the properties of the core systems at different training levels.
 - Evaluate the importance of core training in physical exercise by highlighting the structure of the core systems and examining different core training activities.
 - Evaluate the benefits of plyometric training by examining the effects of the stretch-shortening cycle and the effects of plyometric training on the body.
 - Evaluate the benefits of speed, agility, and quickness (SAQ) training by examining mechanics of SAQ training and its effects on the body.
 - Evaluate the risks associated with plyometric training and SAQ training by examining exercises of each training.
 - Describe resistance training by examining the SAID principle and endurance, speed, and power.
 - Evaluate the benefits of resistance training by examining the effects of resistance training on the body.
 - Describe the acute variables that define an exercise program by examining each variable.
 - Evaluate ways to estimate energy needs of a program by examining how the body provides energy and how exercises consume energy.
 - Analyze the effects of cardiovascular training programs on the body by identifying the characteristics of steady-state, interval, aerobic, and anaerobic training.
 - Analyze the effects of resistance training programs on the body by determining the effects of building muscular endurance, strength, and power.
 - Determine ways to design all-inclusive muscular development programs by identifying relevant activities to be included.
 - Identify ways to design exercise programs for people with health conditions by examining the health condition and how it affects the body.
-

High School Physical Education B Syllabus

Required Materials

- Internet browser
-

Course Overview

- This course is made up of six units. Each unit has five lessons, for a total of 30 lessons.
- All lessons in the first five units of the course contain two to four content pieces, a discussion board, and a course-long Project in which students use a log to track their physical activity.
- A total of 25 videos that contain direct instruction are also provided.
- For assessment, students are given:
 - two Workbook questions per content piece
 - one engaging Discussion Board activity per lesson
 - a 10-question Checkpoint at the end of each lesson (excluding the final unit)
 - a 20-question Unit Exam in the last lesson of each unit (excluding the final unit)
 - a full-course Project activity, to be submitted at the end of each unit
 - a 25-question Final Exam in Lesson 30

The final unit of the course serves as a course review. One unit is reviewed per lesson in lessons 26-30.

Some activities are graded by the program software, and others are graded by the teacher. It is recommended that the course teacher communicate with students regarding information related to course guidelines and grading policies.

Course Organization

Text and Videos

Students are introduced to the main concepts of each lesson through text activities that consist of readings, including visual elements such as infographics and other tables and diagrams that aid in learning. An instructional video may be embedded in an activity at the start of each lesson (13 lessons begin this way). These videos provide direct instruction and also a deeper understanding of lesson concepts. Five videos on various strength-training exercises also appear within Lesson 14.

Seat time per video 20 mins

Seat time per content piece: 25 mins

Key Terms

High School Physical Education B Syllabus

Students are provided with important vocabulary terms and associated definitions that are emphasized in each lesson. These terms are highlighted orange and have the capability to display a definition box when a student clicks on the term. The student clicks again on the term to remove the definition box.

Assessment

Workbooks

Each text activity is followed immediately by two computer-graded Workbook questions related to the concepts that were just taught.

Seat time for Workbook questions is included in “Text and Videos” above.

Recommended gradebook percentage: 10%

Checkpoints

These computer-graded activities use 10 questions to assess students' mastery of lesson objectives. They appear in the first four lessons of Units 1-5. The only assessment in Unit 6, a review unit, is the Final Exam.

Seat time per Checkpoint: 20 mins

Recommended gradebook percentage: 15%

Unit Exams

These computer-graded activities, which occur at the end of each unit, except for Unit 6, include 20 questions that assess mastery of unit objectives.

Seat time per Unit Exam: 30 mins

Recommended gradebook percentage: 20%

Final Exam

This computer-graded activity, which appears in Lesson 30, includes 25 questions that assess mastery of course objectives.

Seat time for Final Exam: 45 mins

Recommended gradebook percentage: 15%

Discussions

These teacher-graded activities, which appear in all 30 lessons, provide students with the opportunity to discuss concepts related to each lesson. Students are challenged to provide thoughtful responses. Students are encouraged to observe the posts of their classmates and reply to the posts if they have additional information to share or if they have a viewpoint that differs from what they see on the

High School Physical Education B Syllabus

discussion board. Students should be reminded to be both polite and understanding of perspectives they do not share.

Seat time per Discussion: 25 mins

Recommended gradebook percentage: 15%

Project

The course-long Project is introduced to students in Lesson 1. Students are required to document the minutes they spend performing physical activities each day. The requirement is 200 minutes for every 5 school days, or 40 minutes per day on average. Students keep track of their physical activities in a log on a daily basis, then submit the log at the end of every unit (6 total submissions). Teachers may provide students with their own log at their discretion. Teachers assign a grade for the Project. See the Projects document of this Teacher Resource Guide for more information, including a recommended grading rubric.

Seat/activity time per each lesson's Project: 60 mins

Recommended gradebook percentage: 25%

High School Physical Education B Syllabus

Schedule of Work

Unit 1: Exercise Science Principles

- Videos:
 - The Kinetic Chain (Lesson 1)
- Texts:
 - Lesson 1: Nervous System and Physical Activity, Skeletal System and Physical Activity, Muscular System and Physical Activity
 - Lesson 2: Cardiovascular System and Physical Activity, Respiratory System and Physical Activity, Endocrine System and Physical Activity
 - Lesson 3: Energy and Work, Energy Systems, Energy: Intensity and Duration
 - Lesson 4: Metabolism during Steady-State Exercise, Metabolism during Intermittent Work, Myth of the Fat-Burning Zone
 - Lesson 5: Muscle Fiber Types, Planes of Motion and Joint Motion, Muscle Actions, Muscular Leverage and Force, Motor Learning and Proprioception
- Key Terms
- Workbook Problems (lessons 1-5, two questions each)
- Discussion Board (lessons 1-5)
- Checkpoint (lessons 1-4, 10 questions each)
- Unit 1 Exam (lesson 5, 20 questions)
- Project: Physical Activity Log (lessons 1-5)

High School Physical Education B Syllabus

Unit 2: Sport and Recreation

- Videos:
 - Overview of Fitness Testing (lesson 6), Resting Heart Rate (lesson 8) BMI (lesson 8), Body Composition (lesson 8), Flexibility Tests (lesson 10), Cardiorespiratory Tests (lesson 10), Muscular Endurance Tests (lesson 10)
- Text:
 - Lesson 6: Benefits and Limitations of Fitness Testing, Health History Questionnaires
 - Lesson 7: Heart Rate and Blood Pressure, BMI, Body Composition Tests
 - Lesson 8: N/A
 - Lesson 9: Flexibility Assessments, Cardio Assessments, Muscular Endurance Assessments
 - Lesson 10: N/A
- Key Terms
- Workbook Problems (lessons 6-10, two questions each)
- Discussion Board (lessons 6-10)
- Checkpoint (lessons 6-9, 10 questions each)
- Unit 2 Exam (lesson 10, 20 questions)
- Project: Physical Activity Log (lessons 6-10)

High School Physical Education B Syllabus

Unit 3: Exercise Testing and Program Design

- Videos:
 - Static Stretching (lesson 11), PNF Stretching (lesson 11), Dynamic Stretching (lesson 11), Cardiorespiratory Training (lesson 11), Beginner Core Exercises (lesson 14), Intermediate Core Exercises (lesson 14), Advanced Core Exercises (lesson 14)
- Texts:
 - Lesson 11: Warm-Up and Cooldown Protocols
 - Lesson 12: Static Stretching, Dynamic Stretching, PNF Stretching
 - Lesson 13: Cardiorespiratory Training Guidelines, Benefits of Cardiorespiratory Training, Monitoring Intensity
 - Lesson 14: N/A
 - Lesson 15: Muscles and Function of the Core, Core Training Guidelines, Core Training and Low Back Pain
- Key Terms
- Workbook Problems (lessons 11-15, two questions each)
- Discussion Board (lessons 11-15)
- Checkpoint (lessons 11-14, 10 questions each)
- Unit 3 Exam (lesson 15, 20 questions)
- Project: Physical Activity Log (lessons 11-15)

High School Physical Education B Syllabus

Unit 4: Behavior Modification

- Videos:
 - Beginner Plyometric Exercises (lesson 16), Intermediate Plyometric Exercises (lesson 16), Advanced Plyometric Exercises (lesson 16), Ladder Drills (lesson 16), Cone Drills (lesson 16), Chest Exercises (lesson 19), Back Exercises (lesson 19), Shoulder Exercises (lesson 19), Biceps and Triceps Exercises (lesson 19), Leg Exercises (Lesson 19)
- Texts:
 - Lesson 16: N/A
 - Lesson 17: Overview of Plyometric Training, Plyometric Training and Performance Enhancement, Plyometric Training and Injury Prevention
 - Lesson 18: Overview of SAQ Training; Sprint Mechanics; Differentiating Speed, Agility, and Quickness
 - Lesson 19: N/A
 - Lesson 20: Overview of Resistance Training, Benefits of Resistance Training, Resistance Training Systems, Acute Variables, Resistance Training Myths, Gym Etiquette and Spotting Techniques
- Key Terms
- Workbook Problems (lessons 16-20, two questions each)
- Discussion Board (lessons 16-20)
- Checkpoint (lessons 16-19, 10 questions each)
- Unit 4 Exam (lesson 20, 20 questions)
- Project: Physical Activity Log (lessons 16-20)

High School Physical Education B Syllabus

Unit 5: Nutrition and Weight Management

- Videos: N/A
- Texts:
 - Lesson 21: Overview of Program Design, Physical Activity Guidelines for Americans, FITT-VP, Estimating Energy Needs
 - Lesson 22: Steady-State Cardiovascular Training, Aerobic Interval Training Programs, Anaerobic Training Programs
 - Lesson 23: Muscular Endurance Training, Muscular Development Training, Power Training
 - Lesson 24: All-Inclusive Endurance Program, All-Inclusive Muscular Development Program, All-Inclusive Power Program
 - Lesson 25: Exercise Programming for Asthma, Exercise Programming for Obesity, Exercise Programming for Diabetes Mellitus
- Key Terms
- Workbook Problems (lessons 21-25, two questions each)
- Discussion Board (lessons 21-25)
- Checkpoint (lessons 21-24, 10 questions each)
- Unit 5 Exam (lesson 25, 20 questions)
- Project: Physical Activity Log (lessons 21-25)

High School Physical Education B Syllabus

Unit 6: Review and Final Exam

Lesson 26 – Unit 1 Review

- Lesson 1 Review, Lesson 2 Review, Lesson 3 Review, Lesson 4 Review, Lesson 5 Review
- Discussion Board
- Project: Physical Activity Log

Lesson 27 – Unit 2 Review

- Lesson 6 Review, Lesson 7 Review, Lesson 8 Review, Lesson 9 Review, Lesson 10 Review
- Discussion Board
- Project: Physical Activity Log

Lesson 28 – Unit 3 Review

- Lesson 11 Review, Lesson 12 Review, Lesson 13 Review, Lesson 14 Review, Lesson 15 Review
- Discussion Board
- Project: Physical Activity Log

Lesson 29 – Unit 4 Review

- Lesson 16 Review, Lesson 17 Review, Lesson 18 Review, Lesson 19 Review, Lesson 20 Review
- Discussion Board
- Project: Physical Activity Log

Lesson 30 – Unit 5 Review & Final Exam

- Lesson 21 Review, Lesson 22 Review, Lesson 23 Review, Lesson 24 Review, Lesson 25 Review
- Discussion Board
- Project: Physical Activity Log (final submission)
- Final Exam
- End of Course

**APPENDIX A
CURRICULUM**

G.5 Syllabi

It includes the syllabi for the Virtual Preparatory Academy of Pennsylvania curriculum in the following subject areas:

- a. English Language Arts K-12
- b. Mathematics K-12
- c. Science K-12
- d. Social Studies K-12
- e. General Electives K-12
- f. Health and Physical Education
- g. World Languages

World Languages

K-12

Spanish I A Syllabus

Course Description

In this introductory course, students will be introduced to the basics of the Spanish language through reading, writing, listening, and speaking. Students will learn how to introduce themselves and others, talk about interests and hobbies, ask for directions, and more!

In addition to learning the language, students will also learn about the cultures of some Spanish-speaking countries. They will learn about daily life in Mexico, the history of Spain, cultural traditions in Argentina, and more!

Students will participate in discussion boards, speaking practice, a culture project, and a speaking project.

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for the student, but not graded. It is recommended that the course instructor be contacted for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Vocabulary (Lessons 1-25) – This activity introduces vocabulary for the lesson. Most Vocabulary activities include a graded workbook.

Grammar (Lessons 1-25) – This activity provides instruction for how to apply proper Spanish grammar. Most Grammar activities include a graded workbook.

Application (Lessons 1-25) – This activity is an opportunity to practice reading, writing, listening, and speaking Spanish. The Application activity itself is not graded, but any associated workbook questions are.

Culture (Lessons 1-25) – This activity introduces an aspect of a Spanish-speaking country's culture. Most Culture activities include a graded workbook.

Discussion Board (Lessons 1-4, 6-9, 11-14, 16-19, and 21-24) – This activity is graded by the instructor and allows the student to interact and communicate with classmates and the instructor about lesson content.

Speaking Practice (Lessons 5, 10, 15, 20, and 25) – This activity is graded by the instructor and is an opportunity to listen to and repeat Spanish phrases to practice speaking skills.

Lesson Summary (Lessons 1-25) – an activity designed to review the information and content learned.

Checkpoint (Lessons 1-4, 6-9, 11-14, 16-19, and 21-24) – This graded activity uses 10 questions to assess mastery of lesson objectives.

Unit Exam (Lessons 5, 10, 15, 20, and 25) – At the end of the Unit is an exam that will assess mastery of the Unit objectives.

Culture Project (Lessons 2, 4, 7, 9, and 14)) – This is an assessment graded by the instructor that requires application of knowledge and writing capabilities.

Speaking Project (Lessons 16, 18, 19, 21, and 24) – This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Unit Review (Lessons 26-30) – This is an activity to review vocabulary and lesson summaries from each lesson in a unit to prepare for the final exam.

Final Exam (Lesson 30) – At the end of the course is an exam that will assess mastery of the course objectives.

Unit 1:

- Lesson 1: Introduction and Tips for Learning Spanish
- Lesson 2: Spanish Alphabet
- Lesson 3: Formal Introductions
- Lesson 4: Informal Introductions
- Lesson 5: Small Talk
- Workbook Assessments
- Discussions
- Culture Project
- Checkpoints 1-4
- Unit 1 Exam

Unit 2:

- Lesson 6: Numbers and Location
- Lesson 7: Telling Time
- Lesson 8: Friends & Family
- Lesson 9: Leisure activities
- Lesson 10: School
- Workbook Assessments
- Discussions
- Culture Project
- Checkpoints 6-9
- Unit 2 Exam

Unit 3:

- Lesson 11: Toys and Pets
- Lesson 12: Sports
- Lesson 13: Food
- Lesson 14: Friends
- Lesson 15: Celebrations
- Workbook Assessments
- Discussions
- Culture Project
- Checkpoints 11-14
- Unit 3 Exam

Unit 4:

- Lesson 16: Calendar/Dates
- Lesson 17: Weather/Seasons
- Lesson 18: Holidays
- Lesson 19: More Activities
- Lesson 20: Restaurants
- Workbook Assessments
- Discussions
- Culture Project
- Checkpoints 16-19
- Unit 4 Exam

Unit 5:

- Lesson 21: Transportation
- Lesson 22: Maps
- Lesson 23: Vacations
- Lesson 24: Nature
- Lesson 25: Helpful Phrases for Traveling
- Workbook Assessments
- Discussions
- Culture Project
- Checkpoints 21-24
- Unit 5 Exam

Unit 6:

- Lesson 26: Review Unit 1
- Lesson 27: Review Unit 2
- Lesson 28: Review Unit 3
- Lesson 29: Review Unit 4
- Lesson 30: Review Unit 5 & Final Exam

Spanish I B Syllabus

Course Description

This course is the second semester of year one of Spanish. Students will continue with the introduction to the basics of Spanish language through reading, writing, listening, and speaking. Students will learn how to discuss school subjects, various professions, daily routines, and likes and dislikes.

In addition to learning the language, students will also learn about the cultures of Venezuela, Chile, Ecuador, Guatemala, and Cuba. Students will learn about the history, traditions and practices of each of these countries.

Students will participate in discussion boards, speaking practice, a multimedia writing project and a speaking project.

Prerequisite: Spanish 1A

Course Objectives

Discuss concepts regarding school, house hold chores, daily activities and routines, common sights around town, professions, human body, illness and injuries, clothing, shopping, spending and saving, lending and borrowing money by translating related words.

Demonstrate an understanding of the use of regular present tense verbs, and irregular present tense verbs.

Demonstrate an understanding of the use of regular and irregular verbs in the present tense.

Understand the impact the history, products, traditions, and perspectives have played in Spanish-speaking countries.

Write simple short sentences in Spanish relating to topics covered in the course.

Speak in simple sentences in Spanish relating to topics covered in the course.

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for the student, but not graded. It is recommended that the course instructor be contacted for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Vocabulary (Lessons 1- 25) – This activity introduces vocabulary for the lesson. Vocabulary terms are accompanied by phonetic spelling so the student may be able to pronounce the word correctly in Spanish. Some vocabulary terms are accompanied by an image to illustrate the concept of the word.

Grammar (Lessons 1- 25) – This activity provides instruction for how to apply proper Spanish grammar. Most Grammar activities include a graded workbook.

Application (Lessons 1- 25) – This activity is an opportunity to practice reading, writing, listening, and speaking Spanish. The Application activity itself is not graded, but any associated workbook questions are.

Culture (Lesson 1 -25) - This activity introduces an aspect of a Spanish-speaking country's culture. Most Culture activities include a graded workbook.

Discussion Board (Lessons 1-4, 6-9, 11-14, 16-19, 21-24) – This activity is graded by the instructor and allows the student to interact with classmates and the instructor about lesson content.

Speaking Practice (Lessons 5, 10, 15, 20, and 25) – This activity is graded by the instructor and is an opportunity to listen to and repeat Spanish phrases to practice speaking skills.

Lesson Summary (Lessons 1 -25) – an activity designed to review the information and content learned.

Checkpoint (Lessons 1-4, 6-9, 11-14, 16-19, 21-24) – This graded activity uses 10 questions to assess mastery of lesson objectives. The Checkpoint may be taken up to three times.

Unit Exam (Lessons 5, 10, 15, 25) – At the end of the Unit is an exam that will assess mastery of the Unit objectives.

Final Exam (Lesson 30) - At the end of the course is an exam that will assess mastery of the course objectives.

Writing Project (Lessons 6, 7, 8, 9, 10, 15) – This is an assessment graded by the instructor that requires application of knowledge and writing capabilities to demonstrate mastery of content.

Speaking Project (Lessons 16, 18, 20, 23, 25) - This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Unit Review (Lessons 26-30) – This is an activity to review vocabulary and lesson summaries from each lesson in a unit to prepare for the Final Exam.

Unit 1:

- Lesson 1: Mis estudios
- Lesson 2: Mi escuela
- Lesson 3: Mis quehaceres
- Lesson 4: Donde yo vivo hay...
- Lesson 5: Entre aquí y allí
- Workbook Assessments
- Discussions
- Checkpoints 1-4
- Speaking Practice
- Unit 1 Exam

Unit 2:

- Lesson 6: Professional Life
- Lesson 7: La tecnología
- Lesson 8: Las profesiones médicas
- Lesson 9: En el taller
- Lesson 10: Los adverbios
- Workbook Assessments
- Discussions
- Writing Project
- Checkpoints 6-9
- Speaking Practice
- Unit 2 Exam

Unit 3:

- Lesson 11: Por la mañana
- Lesson 12: De día a día
- Lesson 13: Antes de acostarme
- Lesson 14: Las órdenes
- Lesson 15: ¿A quién le gusta...?
- Workbook Assessments
- Discussions
- Submission of Writing Project
- Checkpoints 11-15
- Speaking Practice
- Unit 3 Exam

Unit 4:

- Lesson 16: El cuerpo
- Lesson 17: Las enfermedades
- Lesson 18: Las heridas
- Lesson 19: Las emergencias
- Lesson 20: En el consultorio
- Workbook Assessments
- Discussions
- Speaking Project
- Checkpoints 16-20
- Speaking Practice
- Unit 4 Exam

Unit 5:

- Lesson 21: Los colores
- Lesson 22: La ropa
- Lesson 23: ¿Qué talla quieres?
- Lesson 24: De compras...
- Lesson 25: ¿Cuánto le debo?
- Workbook Assessments
- Discussions
- Submission of Speaking Project
- Checkpoints 21-24
- Speaking Practice
- Unit Exam 5

Unit 6:

- Lesson 26: Review of Unit 1
- Lesson 27: Review of Unit 2
- Lesson 28: Review of Unit 3
- Lesson 29: Review of Unit 4
- Lesson 30: Review of Unit 5 & Final Exam

Spanish II A Syllabus

Course Description

This course is the first semester of year two of Spanish. Students will continue with the introduction to the basics of Spanish language through reading, writing, listening, and speaking. Students will learn how to discuss social relationships, climate, various animals, fables, holiday customs and traditions, and outdoor activities.

In addition to learning the language, students will also learn about the cultures of Paraguay, Puerto Rico, El Salvador, Costa Rica, and Bolivia. Students will learn about the history, products, traditions, practices, and perspectives of each of these countries.

Students will participate in discussion boards, speaking practice, writing a fable in Spanish and a speaking project which will have the students ask questions, start, and end conversations.

Prerequisite: Spanish 1A and Spanish 1B

Course Objectives

Discuss concepts regarding social relationships, people in the community, climate in the northern and southern hemispheres, farm animales, zoo animales, fables, care of the home, holiday customs, transition points in life, cultural activities, leisure time activities, outdoor activities, recreational activities, and music.

Demonstrate an understanding of the use of adjectives of nationality, the verb *hacer* with time expressions, indefinite words & negative words, demonstrative adjectives and pronouns, adverbs, clarification of possessives with *de* + pronoun, prepositions, *por* and *para*, *estar* + prepositions, listening and reading strategies, and prepositional pronouns.

Demonstrate an understanding of the use of *estar* + past participle, imperfect, preterit, conjugation of regular and irregular verbs in the imperfect, verbs that change meaning in preterite vs the imperfect, formal commands, commands + pronouns, and constructions with *se*.

Understand the impact the history, products, traditions, and perspectives have played in Spanish-speaking countries.

Write simple short sentences in Spanish relating to topics covered in the course.

Speak in simple sentences in Spanish relating to topics covered in the course.

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for the student, but not graded. It is recommended that the course instructor be contacted for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Vocabulary (Lessons 1- 25) – This activity introduces vocabulary for the lesson. Some vocabulary terms are accompanied by an image to illustrate the concept of the word.

Grammar (Lessons 1- 25) – This activity provides instruction for how to apply proper Spanish grammar. Most Grammar activities include a graded workbook.

Application (Lessons 1- 25) – This activity is an opportunity to practice reading, writing, listening, and speaking Spanish. The Application activity itself is not graded, but any associated workbook questions are.

Culture (Lesson 1 -25) - This activity introduces an aspect of a Spanish-speaking country's culture. Most Culture activities include a graded workbook.

Discussion Board (Lessons 1-4, 6-9, 11-14, 16-19, 21-24) – This activity is graded by the instructor and allows the student to interact with classmates and the instructor about lesson content.

Speaking Practice (Lessons 5, 10, 15, 20, and 25) – This activity is graded by the instructor and is an opportunity to listen to and repeat Spanish phrases to practice speaking skills.

Lesson Summary (Lessons 1 -25) – This is an activity designed to review the information and content learned.

Checkpoint (Lessons 1-4, 6-9, 11-14, 16-19, 21-24) – This graded activity uses 10 questions to assess mastery of lesson objectives. The Checkpoint may be taken up to three times.

Unit Exam (Lessons 5, 10, 15, 25) – At the end of the Unit is an exam that will assess mastery of the Unit objectives.

Final Exam (Lesson 30) - At the end of the course is an exam that will assess mastery of the course objectives.

Writing Project (Lessons 16, 17, 18, 19, 20) – This is an assessment graded by the instructor that requires application of knowledge and writing capabilities to demonstrate mastery of content.

Speaking Project 1 (Lessons 6, 7, 8, 9, 10) - This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Speaking Project 2 (Lessons 11, 12, 13, 14, 15) - This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Unit Review (Lessons 26-30) – This is an activity to review vocabulary and lesson summaries from each lesson in a unit to prepare for the Final Exam.

Unit 1:

- Lesson 1: En familia
- Lesson 2: Relaciones sociales entre amigos
- Lesson 3: Interacciones religiosas
- Lesson 4: El trato social en la ciudad
- Lesson 5: Interacciones en la comunidad
- Workbook Assessments
- Discussions
- Checkpoints 1-4
- Speaking Practice
- Unit 1 Exam

Unit 2:

- Lesson 6: El clima del hemisferio norte
- Lesson 7: El clima del hemisferio sur
- Lesson 8: Los animales de la granja
- Lesson 9: Los animales del zoológico
- Lesson 10: Las fábulas
- Workbook Assessments
- Discussions
- Speaking Project
- Checkpoints 6-9
- Speaking Practice
- Unit 2 Exam

Unit 3:

- Lesson 11: El cuidado de la casa: Mantenimiento y reparaciones
- Lesson 12: El cuidado de la casa: Otras tareas caseras
- Lesson 13: Interacción con integrantes de la comunidad: Gastos de vivienda
- Lesson 14: Interacción con integrantes de la comunidad: Arreglos y mejoras de vivienda
- Lesson 15: Interacción con integrantes de la comunidad: Planes para mudarse
- Workbook Assessments
- Discussions
- Speaking Project
- Checkpoints 11-15
- Speaking Practice
- Unit 3 Exam

Unit 4:

- Lesson 16: Días festivos por tradición
- Lesson 17: Días festivos por tradición
- Lesson 18: Etapas de la vida - La niñez
- Lesson 19: Etapas de la vida - La adolescencia
- Lesson 20: Etapas de la vida - La edad adulta y la vejez
- Workbook Assessments
- Discussions
- Writing Project
- Checkpoints 16-20
- Speaking Practice
- Unit 4 Exam

Unit 5:

- Lesson 21: Actividades culturales
- Lesson 22: Actividades de esparcimiento
- Lesson 23: Actividades al aire libre
- Lesson 24: Actividades de recreación
- Lesson 25: Actividades relacionadas con la música
- Workbook Assessments
- Discussions
- Checkpoints 21-24
- Speaking Practice
- Unit Exam 5

Unit 6:

- Lesson 26: Review of Unit 1
- Lesson 27: Review of Unit 2
- Lesson 28: Review of Unit 3
- Lesson 29: Review of Unit 4
- Lesson 30: Review of Unit 5 & Final Exam

Spanish II B Syllabus

Course Description

Spanish B is the second semester of year two of Spanish. Students will continue with their acquisition of the Spanish language through reading, writing, listening, and speaking. Students will do so by participating in discussion boards, speaking practices, writing projects, and speaking projects. Students will learn how to discuss a variety of topics such as transportation, extracurricular interests, significant historical figures of various countries, professions, cuisine, clothing, health, and technological advances. Students will be able to discuss these topics in the present, past, future, and conditional tenses, as well as the present subjunctive mood.

In addition to learning the language, students will also learn about the cultures of the Dominican Republic, Equatorial Guinea, Honduras, Uruguay, and Panama. Students will learn about the history, cultural products, traditions, practices, and perspectives of each of these countries.

Course Objectives

Discuss concepts regarding travel and geography, interests, the kitchen, the professional world, and innovation.

Demonstrate an understanding of the imperfect progressive, long-form possessive adjectives and pronouns, the present perfect, the past perfect, the future tense, the conditional, the subjunctive mood, and the imperfect subjunctive.

Understand the impact the history, products, traditions, and perspectives have played in Spanish-speaking countries.

Write simple short sentences in Spanish relating to topics covered in the course.

Speak in simple sentences in Spanish relating to topics covered in the course.

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for the student, but not graded. It is recommended that the course instructor be contacted for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Vocabulary – This activity introduces vocabulary for the lesson. Vocabulary terms are accompanied by an audio recording so the student may be able to pronounce the word correctly in Spanish. Some vocabulary terms are accompanied by an image to illustrate the concept of the word.

Grammar – This activity provides instruction for how to apply proper Spanish grammar. Each Grammar activity includes a graded workbook.

Application – This activity is an opportunity to practice reading, writing, listening, and speaking Spanish. The Application activity itself is not graded, but any associated workbook questions are.

Culture – This activity introduces an aspect of a Spanish-speaking country’s culture. Each Culture activity includes a graded workbook.

Discussion Board – This activity is graded by the instructor and allows the student to interact with classmates and the instructor about lesson content.

Speaking Practice – This activity is graded by the instructor and is an opportunity to listen to and repeat Spanish phrases to practice speaking skills.

Checkpoint – This graded activity assess mastery of lesson objectives.

Lesson Summary – This activity is designed to review the information and content learned.

Unit Exam – At the end of the Unit is an exam that will assess mastery of the Unit objectives.

Writing Project – This is an assessment graded by the instructor that requires application of knowledge and writing capabilities to demonstrate mastery of content.

Speaking Project – This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Final Exam – At the end of the course is an exam that will assess mastery of the course objectives.

Schedule of Work

Unit 1: Los viajes y la geografía

Spanish 3A Syllabus

Suggested Prerequisites: Spanish 1A/1B, Spanish 2A/2B

Course Description

Spanish 3 (1 of 2) is the first semester of year three of Spanish. Students will continue with their acquisition of the Spanish language through reading, writing, listening, and speaking. Discussion Boards, speaking practice, a writing project, and a speaking project offer further practice of these skills. Students will explore the topic of writing in Spanish by learning about informative, argumentative, and descriptive texts, as well as the creative writing process. They will also learn about significant historical events in Spanish-speaking countries, as well as cultural products, practices, philosophies, and public spaces. Students will be able to discuss these topics in the indicative and subjunctive moods as well as the imperative.

Course Objectives

- Discuss concepts regarding the creative process, personal narratives, short fiction, and informative, argumentative, and descriptive texts.
- Demonstrate an understanding of the conditional, future perfect, imperfect, preterit, past perfect subjunctive, reported speech, prepositions of time and place, indirect commands, and verbs of *becoming*.
- Understand the impact that history, products, and perspectives have played in Spanish-speaking countries.
- Write in complex sentences in Spanish relating to topics covered in the course.
- Speak in complex sentences in Spanish relating to topics covered in the course.

Required Materials

- audio player
- internet browser

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for the student, but not graded. It is recommended that the course instructor be contacted for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Writing – This activity provides instruction on how to write in Spanish. Each Writing activity includes graded workbook questions as well as non-graded practice questions.

Application of Writing – This activity is an opportunity to practice writing skills in Spanish. The Application activity itself is not graded.

Vocabulary Game – This activity provides an opportunity to play a game to practice the vocabulary terms students have learned.

Grammar – This activity provides instruction on how to apply proper Spanish grammar. Each Grammar activity includes graded workbook questions as well as non-graded practice questions.

Application of Grammar – This activity is an opportunity to practice reading, writing, and listening in Spanish. The Application activity itself is not graded, but any associated workbook questions are.

Culture – This activity introduces an aspect of a Spanish-speaking country’s culture. Each Culture activity includes graded workbook questions as well as non-graded practice questions.

Discussion Board – This activity is graded by the instructor and allows the student to interact with classmates and the instructor about lesson content.

Speaking Practice – This activity is graded by the instructor and is an opportunity to answer questions in Spanish in order to practice speaking skills.

Checkpoint – This graded activity assesses mastery of lesson objectives.

Lesson Summary – This activity is designed to review the information and content learned. The questions provided are not graded.

Unit Exam – At the end of the unit is an exam that will assess mastery of the unit objectives.

Writing Project – This is an assessment graded by the instructor that requires application of knowledge and writing capabilities to demonstrate mastery of content.

Speaking Project – This is an assessment graded by the instructor that requires application of knowledge and speaking capabilities.

Final Exam – At the end of the course is an exam that will assess mastery of the course objectives.

Schedule of Work

Unit 1: El proceso creativo

- Lesson 1: ¿A quién le escribes?
- Lesson 2: ¿Por qué escribes?
- Lesson 3: ¿Cómo debes escribir?
- Lesson 4: ¿Cuál es tu proceso?
- Lesson 5: Ahora tú escribes

- Vocabulary Review Game
- Course Final Exam

Spanish 3B Syllabus

Course Description

Spanish 3 (2 of 2) is the second semester of year three of Spanish. Students will continue acquiring the Spanish language through reading, writing, listening, and speaking. Discussion Boards, speaking practice, two writing projects, and a speaking project offer further practice of these skills. Students will explore Spanish-language literature by learning about notable authors and by reading and analyzing selected poems and short stories. They will also learn about behavioral norms in different Spanish-speaking cultures in a variety of social contexts. Students will be able to discuss these topics in the indicative and subjunctive moods in a variety of tenses.

Course Objectives

- Read and analyze Spanish-language literary works and learn about their authors.
- Demonstrate an understanding of the indicative and the subjunctive; time expressions; the pronoun **lo**; demonstrative adjectives and pronouns; fixed phrases with prepositions; and common expressions with versatile verbs like **hacer**, **dejar**, and **tener**.
- Respond in culturally appropriate ways in different social contexts across the Spanish-speaking world.
- Write in complex sentences in Spanish relating to topics covered in the course.
- Speak in complex sentences in Spanish relating to topics covered in the course.

Required Materials

- audio player
- internet browser

Course Overview

This course is made up of six units. Each unit has five lessons. Lessons will present the material in many different ways to allow for increased comprehension of information. Some activities are graded by the program software, others will be graded by the instructor, and additional activities will be available for students but not graded. It is recommended that students contact the course instructor for further information about course guidelines and grading policies.

Course Organization

At the beginning of each unit and each lesson is a brief description of the intended learning outcomes. Following the introduction, a set of activities will take place:

Reading – This activity provides instruction that centers on a literary piece in Spanish. Each Reading activity (except the reading text itself) includes graded workbook questions as well as non-graded practice questions.

Grammar – This activity provides instruction on how to apply proper Spanish grammar. Each Grammar activity includes graded workbook questions as well as non-graded practice questions.

Culture – This activity introduces cultural norms observed in different Spanish-speaking countries. The goal is for students to learn to behave appropriately in the target culture. Each Culture activity includes graded workbook questions as well as non-graded practice questions.

Discussion Board – This activity is graded by the instructor and allows students to interact with classmates and the instructor about lesson content. Students should answer in Spanish.

Speaking Practice – This activity is graded by the instructor and is an opportunity to answer questions in Spanish in order to practice speaking skills.

Checkpoint – This graded activity assesses mastery of lesson objectives.

Lesson Summary – This activity is designed to review the information and content learned. The questions provided are not graded.

Unit Exam – At the end of the unit is an exam that will assess mastery of the unit objectives.

Writing Project – This assessment, graded by the instructor, requires application of knowledge and writing capabilities to demonstrate mastery of content.

Speaking Project – This assessment, graded by the instructor, requires application of knowledge and speaking capabilities.

Final Exam – At the end of the course is an exam that will assess mastery of the course objectives.

Schedule of Work

Unit 1: He andado muchos caminos

- Lesson 1: Autor: Antonio Machado
- Lesson 2: Vocabulario: "He andado muchos caminos"
- Lesson 3: Estrategias: leer poesía
- Lesson 4: Lectura: "He andado muchos caminos"
- Lesson 5: Análisis: "He andado muchos caminos"

Communicate procedures and explanations giving priority to evidence and understanding that scientists make their results public, describe their investigations so they can be reproduced, and review and ask questions about the work of other scientists.		
3.2.3.B1	Explain how movement can be described in many ways.	Explain how movement can be described in many ways. Science Grade 3 2017 Science 3B- Module 2: Forces and Movement Science 3B- Module 2: Magnetism	Identify pushes and pulls Z79 How do mass and force affect motion? E8S Compare the speeds of moving objects Z7A

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.2.3.B2	Explore energy's ability to cause motion or create change. Explore how energy can be found in moving objects, light, sound, and heat.		
3.2.3.B3	Explore temperature changes that result from the addition or removal of heat.	Grade 5A Module 4	
3.2.3.B4	Identify and classify objects and materials that are conductors or insulators of electricity. Identify and classify objects and materials as magnetic or non-magnetic.		
3.2.3.B5	Recognize that light travels in a straight line until it strikes an object or travels from one material to another.	Grade 5A Module 5	
3.2.3.B6	ENERGY Recognize that light from the sun is an important source of energy for living and nonliving systems and some source of energy is needed for all organisms to stay alive and grow.	<p>ENERGY: Recognize that light from the sun is an important source of energy for living and nonliving systems and some source of energy is needed for all organisms to stay alive and grow.</p> <p>Science Grade 3 2017 Sceince 3B- Module 2: Basics of Photosynthesis Science 3A- Module 1: Phases of the Moon Science 3A- Module 2: Plant Respiration and Relationships Science 3A- Module 2: Water Cycle: Evaporation Science 3A- Module 3: Eater Cycle: Precipitation Science 3A- Module 3: The Water Cycle Science 3A- Module 3: Water Cycle: Condensation Science 3A- Module 5: Global Climate Zones Science 3A- Module 5: The Earth and Sun Relationship Science 3B- Module 1: Cycle of Seasons Science 3B- Module 1: Types of Climate and the Seasons</p>	<p>Identify roles in food chains BQY How does matter move in food chains? TC8 Interpret food webs RGZ</p>

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.2.3.B7	Distinguish between scientific fact and opinion. Ask questions about objects, organisms, and events. Understand that all scientific investigations involve asking and answering questions and comparing the answer with what is already known. Plan and conduct a simple investigation and understand that different questions require different kinds of investigations. Use simple equipment (tools and other technologies) to gather data and understand that this allows scientists to collect more information than relying only on their senses to gather information. Use data/evidence to construct explanations and understand that scientists develop explanations based on their evidence and compare them with their current scientific knowledge. Communicate procedures and explanations giving priority to evidence and understanding that scientists make their results public, describe their investigations so they can be reproduced, and review and ask questions about the work of other scientists.		
3.3.3.A1	Explain and give examples of the ways in which soil is formed.	Grade 5B Module 5	
3.3.3.A2	Identify the physical properties of minerals and demonstrate how minerals can be tested for these different physical properties.		

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.3.3.A4	Connect the various forms of precipitation to the weather in a particular place and time.	<p>Connect the various forms of precipitation to the weather in a particular place and time.</p> <p>Science Grade 3 2017 Science 3A- Module 3: Eater Cycle: Precipitation Science 3A- Module 3: The Water Cycle Science 3A- Module 4: Lightning and Electricity Science 3A- Module 4: Weather Extremes</p>	
3.3.3.A5	Explain how air temperature, moisture, wind speed and direction, and precipitation make up the weather in a particular place and time.	<p>Explain how air temperature, moisture, wind speed and direction, and precipitation make up the weather in a particular place and time.</p> <p>Science Grade 3 2017 Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3A- Module 4: Cloud Formation II Science 3A- Module 4: Lightning and Electricity Science 3A- Module 4: Weather Extremes</p>	<p>Weather and climate around the world 7Q6 Weather or climate? Cite text XV6</p>

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.3.3.A7	<p>Distinguish between scientific fact and opinion. Ask questions about objects, organisms, and events. Understand that all scientific investigations involve asking and answering questions and comparing the answer with what is already known. Plan and conduct a simple investigation and understand that different questions require different kinds of investigations. Use simple equipment (tools and other technologies) to gather data and understand that this allows scientists to collect more information than relying only on their senses to gather information. Use data/evidence to construct explanations and understand that scientists develop explanations based on their evidence and compare them with their current scientific knowledge. Communicate procedures and explanations giving priority to evidence and understanding that scientists make their results public, describe their investigations so they can be reproduced, and review and ask questions about the work of other scientists.</p>		
3.3.3.B1	<p>Relate the rotation of the earth and day/night, to the apparent movement of the sun, moon, and stars across the sky. Describe the changes that occur in the observable shape of the moon over the course of a month.</p>		

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.3.3.B3	Distinguish between scientific fact and opinion. Ask questions about objects, organisms, and events. Understand that all scientific investigations involve asking and answering questions and comparing the answer with what is already known. Plan and conduct a simple investigation and understand that different questions require different kinds of investigations. Use simple equipment (tools and other technologies) to gather data and understand that this allows scientists to collect more information than relying only on their senses to gather information. Use data/evidence to construct explanations and understand that scientists develop explanations based on their evidence and compare them with their current scientific knowledge. Communicate procedures and explanations giving priority to evidence and understanding that scientists make their results public, describe their investigations so they can be reproduced, and review and ask questions about the work of other scientists.		
3.4.3.A1	Identify how the natural made world and the human made world are different.		
3.4.3.A2	Identify that some systems are found in nature and some systems are made by humans.		
3.4.3.A3	Identify how the study of technology uses many of the same ideas and skills as many other subjects.		

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.4.3.B1	Describe how using technology can be good or bad.	Describe how using technology can be good or bad. Science Grade 3 2017 Science 3A- Module 1: Devices to Tell Time Science 3B- Module 6: Biodiversity and Extinction	
3.4.3.B2	Explain how materials are re-used or recycled.	Explain how materials are reused or recycled. Science Grade 3 2017 Science 3B- Module 2: Interdependence of Man and Nature Science 3B- Module 6: Plants and Animals: Extinction	
3.4.3.B3	Identify and define products made to meet individual needs versus wants.		
3.4.3.B4	Illustrate how people have made tools to provide food, clothing, and shelter.	Illustrate how people have made tools to provide food, clothing, and shelter. Science Grade 3 2017 Science 3B- Module 2: Forces and Movement Science 3B- Module 2: Magnetism Science 3A- Module 1: Devices to Tell Time Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3A- Module 4: Lightning and Electricity Science 3A- Module 4: Weather Extremes Science 3B- Module 5: Heredity and Genetics	

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.4.3.C1	Recognize design is a creative process and everyone can design solutions to problems.	<p>Recognize design is a creative process and everyone can design solutions to problems.</p> <p>Science Grade 3 2017 Science 3B- Module 2: Magnetism Science 3A- Module 1: Devices to Tell Time Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3B- Module 5: Characteristics of Life Science 3B- Module 5: Characteristics of Vertebrates and Invertebrates</p>	<p>Evaluate multiple design solutions to prevent flooding LYN Identify the best design solution to prevent hurricane damage 3X9</p>
3.4.3.C2	Explain why the design process requires creativity and consideration of all ideas.	<p>Explain why the design process requires creativity and consideration of all ideas.</p> <p>Science Grade 3 2017 Science 3B- Module 2: Magnetism Science 3A- Module 1: Devices to Tell Time Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3B- Module 5: Characteristics of Life Science 3B- Module 5: Characteristics of Vertebrates and Invertebrates</p>	
3.4.3.C3	Recognize that all products and systems are subject to failure; many products and systems can be fixed.	Grade 5A Module 5 Light Part 1	

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.4.3.D1	Identify people's needs and wants and define some problems that can be solved through the design process.	Identify people's needs and wants and define some problems that can be solved through the design process. Science Grade 3 2017 Science 3B- Module 2: Magnetism Science 3A- Module 1: Devices to Tell Time Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3B- Module 5: Characteristics of Life Science 3B- Module 5: Characteristics of Vertebrates and Invertebrates	
3.4.3.D2	Observe, analyze and document how simple systems work.		
3.4.3.D3	Collect information about everyday products and systems by asking questions.		
3.4.3.E1	Identify the technologies that support and improve quality of life.	Identify the technologies that support and improve quality of life. Science Grade 3 2017 Science 3B- Module 2: Forces and Movement Science 3B- Module 2: Magnetism Science 3A- Module 1: Devices to Tell Time Science 3A- Module 3: Basics of Weather and Weather Patterns Science 3A- Module 4: Lightning and Electricity Science 3A- Module 4: Weather Extremes Science 3B- Module 5: Heredity and Genetics	

3rd Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.4.3.E2	Identify some processes used in agriculture that require different procedures, products, or systems.	Identify some processes used in agriculture that require different procedures, products, or systems. Science Grade 3 2017 Science 3A- Module 2: Plant Respiration and Relationships Science 3A- Module 6: Characteristics of Terrain on Earth	
3.4.3.E3	Recognize that tools, machines, products, and systems use energy in order to do work.	Recognize that tools, machines, products, and systems use energy in order to do work. Science Grade 3 2017 Science 3B- Module 2: Forces and Movement	
3.4.3.E4	Recognize that information and communication technology is the transfer of messages among people and/or machines over distances through the use of technology.	Recognize that information and communication technology is the transfer of messages among people and/or machines over distances through the use of technology. Science Grade 3 2017 Science 3B- Module 2: Magnetism	
3.4.3.E5	Understand that transportation has many parts that work together to help people travel.	Grade 5A Module 4: Force	
3.4.3.E6	Explain how manufacturing systems design and produce products in quantity.		
3.4.3.E7	Recognize that people live, work, and go to school in buildings which are different types of structures.		

4th Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.1.4.A1	Classify plants and animals according to the physical characteristics that they share.	Classify plants and animals according to the physical characteristics that they share. Science Grade 4 2017 Science 4A- Using Scientific Methods: Marine Life Science 4B- Module 4: Classifying Animals and Plants	Identify living and nonliving things XLC Identify mammals birds fish reptiles and amphibians 7MA Identify vertebrates and invertebrates ADG Use evidence to classify mammals birds fish reptiles and amphibians SME Use evidence to classify animals NUA Describe classify and compare kingdoms PUX
3.1.4.A2	Describe the different resources that plants and animals need to live.	Describe the different resources that plants and animals need to live. Science Grade 4 2017 Science 4B- Module 3: Characteristics of Life Science 4B- Module 4: Plant Systems	Identify plant parts and their functions BSM How do plants make food? B9H Identify flower parts and their functions 6A4
3.1.4.A3	Identify differences in the life cycles of plants and animals.	Identify differences in the life cycles of plants and animals. Science Grade 4 2017 Science 4B- Module 4: Plant Systems Science 4B- Module 5: Life Cycles	Read and construct animal life cycle diagrams 7AX Compare animal life cycles MXP Describe and construct flowering plant life cycles 7DH Describe and construct conifer life cycles 8VZ

4th Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.1.4.A5	Describe common functions living things share to help them function in a specific environment.	Describe common functions living things share to help them function in a specific environment. Science Grade 4 2017 Science 4B- Module 3: Animal and Plant Cells Science 4B- Module 3: Characteristics of Life	Animal adaptations: beaks mouths and necks YU6 Animal adaptations: feet and limbs GNY Animal adaptations: skins and body coverings L5N
3.1.4.A8	MODELS Construct and interpret models and diagrams of various animal and plant life cycles.	(MODELS) Construct and interpret models and diagrams of various animal and plant life cycles. Science Grade 4 2017 Science 4B- Module 4: Plant Systems Science 4B- Module 5: Life Cycles	Read and construct animal life cycle diagrams 7AX Compare animal life cycles MXP Describe and construct flowering plant life cycles 7DH Describe and construct conifer life cycles 8VZ

4th Grade Science Alignment

PA Core Standard	PA Description	Course Location	Location (IXL)
3.1.4.A9	<p>Distinguish between scientific fact and opinion. Ask questions about objects, organisms, and events. Understand that all scientific investigations involve asking and answering questions and comparing the answer with what is already known. Plan and conduct a simple investigation and understand that different questions require different kinds of investigations. Use simple equipment (tools and other technologies) to gather data and understand that this allows scientists to collect more information than relying only on their senses to gather information. Use data/evidence to construct explanations and understand that scientists develop explanations based on their evidence and compare them with their current scientific knowledge. PA Core Standard	PA Description	Course Location	Location (IXL)
3.3.7.A7	<p>Understand how theories are developed. Identify questions that can be answered through scientific investigations and evaluate the appropriateness of questions. Design and conduct a scientific investigation and understand that current scientific knowledge guides scientific investigations. Describe relationships using inference and prediction. Use appropriate tools and technologies to gather, analyze, and interpret data and understand that it enhances accuracy and allows scientists to analyze and quantify results of investigations. Develop descriptions, explanations, and models using evidence and understand that these emphasize evidence, have logically consistent arguments, and are based on scientific principles, models, and theories. Analyze alternative explanations and understanding that science advances through legitimate skepticism. Use mathematics in all aspects of scientific inquiry. Understand that scientific investigations may result in new ideas for study, new methods, or procedures.</p>		
3.3.7.B1	<p>Explain how gravity is the major force in the formation of the planets, stars, and the solar system. Describe gravity as a major force in determining the motions of planets, stars, and the solar system. Compare and contrast properties and conditions of objects in the solar system to those on Earth.</p>		Analyze data to compare properties of planets NTP

7th Grade Science Alignment

APPENDIX A CURRICULUM

D.5 ALIGNMENTS

It includes the alignments for the Virtual Preparatory Academy of Pennsylvania curriculum in the following subject areas:

- A. English Language Arts (K-12)
- B. Mathematics (K-12)
- C. Science (K-12)
- D. Social Studies (K-12)
- E. General Electives (K-5)

SOCIAL STUDIES

K-12

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
5.1.K.A	Explain the purpose of rules.	Explain the purpose of rules. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules
5.1.K.B	Explain the need for rules.	Explain the need for rules. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules
5.1.K.C	Define respect for self and others.	Define respect for self and others. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules
5.1.K.E	Demonstrate responsibilities in the classroom.	Demonstrate responsibilities in the classroom. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules Social Studies A- Module 5: Make a Difference
5.1.K.F	Identify significant American holidays and their symbols.	Identify significant American holidays and their symbols. Social Studies Grade K 2017 Social Studies A- Module 2: Calendar Time Social Studies B- Module 10: American Traditions Social Studies B- Module 10: World Celebrations Social Studies B- Module 10: American Holidays

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
5.2.K.A	Identify responsibilities at school.	Identify responsibilities at school. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules Social Studies A- Module 5: Make a Difference
5.2.K.B	Identify a problem and discuss possible solutions.	Identify a problem and discuss possible solutions. Social Studies Grade K 2017 Social Studies A- Module 6: How Do You Resolve Conflict?
5.2.K.C	Identify classroom projects/activities that support leadership and service.	Identify classroom projects/activities that support leadership and service. Social Studies Grade K 2017 Social Studies A- Module 5: Make a Difference
5.2.K.D	Explain responsible classroom behavior.	Explain responsible classroom behavior. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules Social Studies A- Module 5: Make a Difference
5.3.K.B	Identify the role of adults in authority at home or in school.	Identify the role of adults in authority at home or in school. Social Studies Grade K 2017 Social Studies A- Module 6: Who Is the Boss?

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
5.3.K.C	Identify roles of fire fighters, police officers, and emergency workers.	Identify roles of fire fighters, police officers, and emergency workers. Social Studies Grade K 2017 Social Studies A- Module 5: Everyday Heroes
5.3.K.F	Identify and explain behaviors for responsible classroom citizens.	Identify and explain behaviors for responsible classroom citizens. Social Studies Grade K 2017 Social Studies A- Module 1: Rules, Rules, Rules Social Studies A- Module 5: Make a Difference
5.4.K.A	Identify conflict in the classroom.	Identify conflict in the classroom. Social Studies Grade K 2017 Social Studies A- Module 6: How Do You Resolve Conflict?
5.4.K.B	Identify how students can work together.	Identify how students can work together. Social Studies Grade K 2017 Social Studies A- Module 6: How Do You Resolve Conflict?
6.1.K.A	Identify how scarcity influences choice.	Social Studies 1B- Module 3: Goods and Services Review
6.1.K.B	Identify family wants and needs.	Identify family wants and needs. Social Studies Grade K 2017 Social Studies B- Module 11: Wants and Needs

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
6.1.K.C	Identify choices to meet needs	Social Studies 1B- Module 2: Making Choices
6.1.K.D	Identify a choice based on family interest.	Social Studies 1B- Module 2: Making Choices
6.2.K.A	Identify goods and consumers.	Identify goods and consumers. Social Studies Grade K 2017 Social Studies B- Module 11: Buying Locally Social Studies B- Module 11: Wants and Needs
6.2.K.C	Identify advertisements that encourage us to buy things.	Identify advertisements that encourage us to buy things. Social Studies Grade K 2017 Social Studies B- Module 12: Advertising
6.2.K.D	Identify currency and how it is used.	Identify currency and how it is used. Social Studies Grade K 2017 Social Studies B- Module 11: Currency
6.3.K.D	Identify products produced in the region or state.	

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
6.4.K.A	Identify the specialized role performed by each member of the family.	Identify the specialized role performed by each member of the family. Social Studies Grade K 2017 Social Studies A- Module 1: My Family Social Studies A- Module 5: Make a Difference Social Studies A- Module 5: The Perfect Pet
6.4.K.D	Identify individual wants and needs.	Identify individual wants and needs. Social Studies Grade K 2017 Social Studies B- Module 11: Wants and Needs
6.5.K.A	Identify individuals who volunteer in the community.	Identify individuals who volunteer in the community. Social Studies Grade K 2017 Social Studies A- Module 5: Everyday Heroes Social Studies A- Module 5: Make a Difference
6.5.K.C	Identify goods and services provided by local businesses	Identify goods and services provided by local businesses. Social Studies Grade K 2017 Social Studies B- Module 11: Buying Locally Social Studies B- Module 11: Wants and Needs

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
7.1.K.A	Interpret a simple map of a known environment.	Interpret a simple map of a known environment. Social Studies Grade K 2017 Social Studies B- Module 7: Make a Room Map Social Studies B- Module 7: Map of Home and School
7.1.K.B	Describe the location of places in the home, school, and community to gain an understanding of relative location.	Describe the location of places in the home, school, and community to gain an understanding of relative location. Social Studies Grade K 2017 Social Studies B- Module 7: Make a Room Map Social Studies B- Module 7: Map of Home and School
7.2.K.A	Describe the characteristics of homes and businesses located in the community to gain an understanding of physical features.	Describe the characteristics of homes and businesses located in the community to gain an understanding of physical features. Social Studies Grade K 2017 Social Studies A- Module 6: Who Is the Boss? Social Studies B- Module 8: Impact of Location
7.2.K.B	Identify land and water forms.	Identify land and water forms. Social Studies Grade K 2017 Social Studies B- Module 8: A World Globe Social Studies B- Module 8: The U.S. Map

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
7.3.K.A	Describe how weather affects daily life.	Describe how weather affects daily life. Social Studies Grade K 2017 Social Studies B- Module 8: A World Globe Social Studies B- Module 8: Impact of Location
7.4.K.A	Identify local bodies of water and landforms to gain an understanding of their impact on the local community.	Identify local bodies of water and landforms to gain an understanding of their impact on the local community. Social Studies Grade K 2017 Social Studies B- Module 7: My Neighborhood
8.1.K.A	Identify chronological sequence through days, weeks, months, and years (calendar time).	Identify chronological sequence through days, weeks, months, and years (calendar time). Social Studies Grade K 2017 Social Studies A- Module 2: Calendar Time Social Studies A- Module 4: Abraham Lincoln
8.1.K.B	With guidance and support, differentiate facts from opinions as related to an event.	With guidance and support, differentiate facts from opinions as related to an event. Social Studies Grade K 2017 Social Studies B- Module 12: Fact or Fiction
8.1.K.C	Explain how to locate information in a source.	
8.2.K.A	Identify people in authority.	

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
8.2.K.B	Examine photographs of documents, artifacts, and places unique to Pennsylvania.	
8.2.K.D	Demonstrate an understanding of conflict.	
8.3.K.A	Identify American people related to national holidays.	Identify American people related to national holidays. Social Studies Grade K 2017 Social Studies B- Module 10: American Traditions Social Studies B- Module 10: American Holidays
8.3.K.B	Identify documents and artifacts important to the classroom community.	
8.3.K.C	Demonstrate an understanding of time order.	Demonstrate an understanding of time order. Social Studies Grade K 2017 Social Studies A- Module 3: Clara Barton Social Studies A- Module 3: Pocahontas: An American Heroine Social Studies A- Module 4: Abraham Lincoln Social Studies A- Module 4: George Washington Social Studies A- Module 4: Johnny Appleseed
8.4.K.A	Explain how cultures celebrate.	
8.4.K.C	Identify different celebrations of different cultures from around the world.	

Kindergarten Social Studies Alignment

PA Core Standard	PA Description	Course Location
8.4.K.D	Demonstrate an understanding of conflict and cooperation.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
5.1.1.A	Explain the purposes of rules in the classroom and school community.	
5.1.1.B	Explain the importance of rules in the classroom.	
5.1.1.C	Define equality and the need to treat everyone equally.	Define equality and the need to treat everyone equally. Social Studies Grade 1 2017 Social Studies 1B- Module 6: Understanding Diversity
5.1.1.D	Explain the importance of written rules and laws.	
5.1.1.E	Describe students' responsibilities in the school and community.	Describe students' responsibilities in the school and community. Social Studies Grade 1 2017 Social Studies 1B- Module 6: Compassion for Others
5.1.1.F	Identify national symbols.	
5.2.1.A	Identify and explain the importance of responsibilities at school and at home.	Identify and explain the importance of responsibilities at school and at home. Social Studies Grade 1 2017 Social Studies 1B- Module 4: Personal Responsibility
5.2.1.B	Identify a problem and attempt to solve with adult or peer assistance.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
5.2.1.C	Identify school projects / activities that support leadership and public service.	
5.2.1.D	Explain responsible school behavior.	Explain responsible school behavior. Social Studies Grade 1 2017 Social Studies 1B- Module 6: Compassion for Others
5.3.1.A	Identify the roles of local government (fire, police, etc.).	Identify the roles of local government (fire, police, etc.). Social Studies Grade 1 2017 Social Studies 1B- Module 3: Community Service Providers
5.3.1.B	Identify the services of local government.	
5.3.1.C	Identify the value of fire fighters, police officers and emergency workers in the community.	Identify the value of fire fighters, police officers and emergency workers in the community. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Community Service Providers
5.3.1.D	Identify positions of authority in the classroom community.	
5.3.1.E	Identify situations in the school or community when it is beneficial to have an elected official represent the people.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
5.3.1.F	Identify and explain behaviors for responsible classroom citizens and possible consequences for inappropriate action.	Identify and explain behaviors for responsible classroom citizens and possible consequences for inappropriate action. Social Studies Grade 1 2017 Social Studies 1B- Module 6: Compassion for Others
5.3.1.H	Explain how information/news is conveyed to the public.	
5.3.1.I	Provide examples of taxation.	
5.3.1.J	Describe situations where voting eases conflict.	
5.4.1.A	Identify ways to avoid conflict.	
5.4.1.B	Describe how classrooms can work together.	
5.4.1.D	Identify different means of receiving information/news.	
5.4.1.E	Explain how a classroom community reaches compromise.	
6.1.1.A	Identify scarcity of resources within the family.	Identify scarcity of resources within the family. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Goods and Services Review
6.1.1.B	Identify classroom wants and needs.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
6.1.1.C	Identify choice based on needs versus wants.	Identify choice based on needs versus wants. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Goods and Services Review
6.1.1.D	Identify a choice based on classroom interest.	
6.2.1.A	Identify goods, consumers, and producers.	Identify goods, consumers, and producers. Social Studies Grade 1 2017 Social Studies 1B- Module 2: Goods and Services
6.2.1.C	Identify advertisements that encourage us to buy things based on want rather than need.	
6.2.1.D	Explain the role of money in determining price.	
6.2.1.E	Identify the impact on a community when a business opens.	
6.2.1.G	Define an economic system at the individual level.	
6.3.1.A	Identify examples of goods and services.	Identify examples of goods and services. Social Studies Grade 1 2017 Social Studies 1B- Module 2: Goods and Services
6.3.1.D	Identify products produced in the United States.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
6.4.1.A	Identify specialization of work in the community.	Identify specialization of work in the community. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Goods and Services Review
6.4.1.D	Describe how individuals differ in their wants and needs and why people buy and sell things.	Describe how individuals differ in their wants and needs and why people buy and sell things. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Goods and Services Review Social Studies 1B- Module 4: Goods in the Home
6.5.1.A	Identify individuals who work for wages in the community.	Identify individuals who work for wages in the community. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Community Service Providers Social Studies 1B- Module 3: Role of Work in a Community
6.5.1.B	Identify different jobs and the purpose of each.	Identify different jobs and the purpose of each. Social Studies Grade 1 2017 Social Studies 1B- Module 3: Community Service Providers Social Studies 1B- Module 3: Role of Work in a Community

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
6.5.1.C	Identify businesses and their corresponding goods and service.	Identify businesses and their corresponding goods and service. Social Studies Grade 1 2017 Social Studies 1B- Module 2: Goods and Services Social Studies 1B- Module 3: Community Service Providers Social Studies 1B- Module 3: Goods and Services Review Social Studies 1B- Module 4: Goods in the Home Social Studies 1B- Module 4: How the Marketplace Works
6.5.1.D	Identify ways to earn money.	
6.5.1.E	Describe what tools (tangible assets) are necessary to complete a task.	
6.5.1.F	Identify buyers and sellers (people) buy and sell things.	
6.5.1.G	Explain the need to save money.	Explain the need to save money. Social Studies Grade 1 2017 Social Studies 1B- Module 2: Young Abraham Lincoln

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
7.1.1.A	Identify geographic tools.	Identify geographic tools. Social Studies Grade 1 2017 Social Studies 1A- Module 4: Cardinal Directions Social Studies 1A- Module 4: Make a Map of Your House Social Studies 1A- Module 4: Make a Room Map Social Studies 1A- Module 5: Examine State Map Social Studies 1A- Module 5: Make a Neighborhood Map Social Studies 1A- Module 6: Examine a World Globe Social Studies 1A- Module 6: Impact of Location
7.1.1.B	Describe places in geographic reference in physical features.	Describe places in geographic reference in physical features. Social Studies Grade 1 2017 Social Studies 1A- Module 6: Examine U.S. Map Social Studies 1A- Module 6: Examine a World Globe
7.2.1.A	Identify physical characteristics in the community and region.	Identify physical characteristics in the community and region. Social Studies Grade 1 2017 Social Studies 1A- Module 5: Make a Neighborhood Map

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
7.2.1.B	Identify the basic physical processes that affect the physical characteristics of places.	Identify the basic physical processes that affect the physical characteristics of places. Social Studies Grade 1 2017 Social Studies 1A- Module 6: Examine a World Globe Social Studies 1A- Module 6: Impact of Location
7.3.1.A	Identify the local climate and how it determines the way people live.	
7.4.1.A	Describe how lakes, rivers, and streams impact people.	
8.1.1.A	Demonstrate an understanding of chronology.	
8.1.1.B	Identify a problem or dilemma surrounding an event.	
8.1.1.C	Identify sources of historical information.	
8.2.1.A	Identify groups of people who contribute to a community.	Identify groups of people who contribute to a community. Social Studies Grade 1 2017 Social Studies 1A- Module 5: Make a Neighborhood Map Social Studies 1B- Module 6: Community Review
8.2.1.B	Identify symbols, slogans, or mottos that are representative of the state.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
8.2.1.C	Identify holiday and cultural celebrations in a community and why they are celebrated.	
8.2.1.D	Identify historical conflict in the community.	
8.3.1.A	Identify Americans who played a significant role in American history.	Identify Americans who played a significant role in American history. Social Studies Grade 1 2017 Social Studies 1A- Module 1: Pocahontas: an American Heroine Social Studies 1A- Module 2: Abraham Lincoln Social Studies 1A- Module 2: George Washington Social Studies 1A- Module 3: Clara Barton Social Studies 1A- Module 3: Johnny Appleseed Social Studies 1B- Module 2: Making Choices
8.3.1.B	Identify American landmarks and their significance.	
8.3.1.C	Identify examples of change.	
8.3.1.D	Identify conflict and describe ways to cooperate with others by making smart choices.	
8.4.1.A	Explain why cultures celebrate.	
8.4.1.B	Explain the importance of world landmarks.	
8.4.1.C	Identify holidays and ceremonies of selected world cultures.	

1st Grade Social Studies

PA Core Standard	PA Description	Course Location
8.4.1.D	Describe examples of conflict and cooperation in the classroom community.	

2nd Grade Social Studies Alignment

PA Core Standard	PA Description	Course Location
5.1.2.A	Explain the purposes of rules and their consequences in the classroom and school community.	Social Studies KA- Module 1: Rules, Rules, Rules
5.1.2.B	Explain the importance of rules in the classroom and school community.	
5.1.2.C	Define fairness in working with others.	Social Studies KA- Module 6: How Do You Resolve Conflict?
5.1.2.D	Explain why school rules are written and posted.	Social Studies KA- Module 6: How Do You Resolve Conflict?
5.1.2.E	Describe citizens' responsibilities to the state of Pennsylvania and the nation.	Describe citizens' responsibilities to the state of Pennsylvania and the nation. Social Studies Grade 2 2017 Social Studies 2B- Module 5: Folklore and Making Choices Social Studies 3B- Module 6: Laws and Voting Reports
5.1.2.F	Identify state symbols.	
5.2.2.A	Identify and explain the importance of responsibilities at school at home and the community.	Identify and explain the importance of responsibilities at school at home and the community. Social Studies Grade 2 2017 Social Studies 2B- Module 4: Aesop's Fables Social Studies 2B- Module 5: Folklore and Making Choices Social Studies 2B- Module 5: Laws and Community Activism Social Studies 3B- Module 6: Contributing to Community
5.2.2.B	Identify a problem and probable solution.	Social Studies KA- Module 6: How Do You Resolve Conflict?
5.2.2.C	Identify community projects/activities that support leadership and public service.	Identify community projects/activities that support leadership and public service. Social Studies Grade 2 2017 Social Studies 2B- Module 5: Laws and Community Activism Social Studies 3B- Module 6: Contributing to Community

2nd Grade Social Studies Alignment

PA Core Standard	PA Description	Course Location
5.2.2.D	Explain responsible community behavior.	Explain responsible community behavior. Social Studies Grade 2 2017 Social Studies 2B- Module 5: Laws and Community Activism Social Studies 3B- Module 6: Contributing to Community
5.3.2.A	Identify the role government plays in the community (education, transportation).	Identify the role government plays in the community (education, transportation). Social Studies Grade 2 2017 Social Studies 3B- Module 6: Contributing to Community
5.3.2.B	Identify local government leaders.	Identify local government leaders. Social Studies Grade 2 2017 Social Studies 3B- Module 6: Contributing to Community
5.3.2.C	Identify other types of services provided by local government.	Identify other types of services provided by local government. Social Studies Grade 2 2017 Social Studies 3B- Module 6: Contributing to Community
5.3.2.D	Identify positions of authority at school.	Social Studies KA- Module 6: Who Is the Boss?
5.3.2.E	Describe situations in the state or nation when having an elected official represent the people is beneficial.	
5.3.2.F	Identify and explain behaviors for responsible school citizens and possible consequences for inappropriate action.	Identify and explain behaviors for responsible school citizens and possible consequences for inappropriate action. Social Studies Grade 2 2017 Social Studies 3B- Module 6: Contributing to Community
5.3.2.H	Identify different forms of media.	

2nd Grade Social Studies Alignment

Introduction

Virtual Prep Academy of Pennsylvania is committed to creating an environment of learning while remaining compliant with Federal and Pennsylvania state special education procedures. As such, Virtual Prep Academy of Pennsylvania has aligned the school's Special Education Procedures with *Chapter 711: Charter School and Cyber Charter School Services and Programs for Children with Disabilities* and the Individuals with Disabilities Education Act. Some language in this document is taken directly from Chapter 711.

Chapter 711

§ 711.2. Purposes and Intent

Virtual Prep Academy of Pennsylvania will meet its obligation to ensure the school complies with IDEA and its implementing regulations in 34 CFR Part 300 (relating to assistance to states for the education of children with disabilities), and Section 504 and its implementing regulations in 34 CFR Part 104 (relating to nondiscrimination on the basis of handicap in programs and activities receiving federal financial assistance). This chapter does not prevent Virtual Prep Academy of Pennsylvania and a school district from entering into agreements regarding the provision of services and programs to comply with this chapter, whether or not the agreements involve payment for the services and programs by the cyber charter school. Virtual Prep Academy of Pennsylvania is exempt from Chapter 14 (relating to special education services and programs). Children with disabilities will have access to the general curriculum and participate in State and local assessments as established and described in Chapter 4 (relating to academic standards and assessment) at Virtual Prep Academy of Pennsylvania. Virtual Prep Academy of PA will utilize prereferral intervention strategies, in accordance with 34 CFR 300.226 (relating to early intervening services) and as outlined in § 711.23(c) (relating to screening) to promote students' success in the general education environment.

§ 711.3. Incorporation of Federal Regulations

Virtual Prep Academy of Pennsylvania will assume the duty to ensure that a free and public education (FAPE) is available to a child with a disability in compliance with IDEA and its implementing regulations in 34 CFR Part 300 (relating to assistance to states for the education of children with disabilities) and section 504 and its implementing regulations in 34 CFR Part 104 (relating to nondiscrimination on the basis of handicap in programs and activities receiving federal financial assistance). The requirements of 34 CFR Part 300 as published at 71 FR 46540—46845 (August 14, 2006), amended at 73 FR 73006—73029 (December 1, 2008) are incorporated by reference, as follows:

- (1) 34 CFR 300.4—300.8(a) and (c) (relating to act; assistive technology device; assistive technology service; charter school; and child with a disability).
- (2) 34 CFR 300.9—300.15 (relating to consent; core academic subjects; day; business day; school day; educational service agency; elementary school; equipment; and evaluation).
- (3) 34 CFR 300.17—300.19 (relating to free appropriate public education; highly qualified special education teachers; and homeless children).
- (4) 34 CFR 300.22 and 300.23 (relating to individualized education program; and individualized education program team).
- (5) 34 CFR 300.27—300.30 (relating to limited English proficient; local educational agency; native language; and parent / guardian).

- (6) 34 CFR 300.32—300.37 (relating to personally identifiable; public agency; related services; scientifically based research; and secondary school).
- (7) 34 CFR 300.39 (relating to special education).
- (8) 34 CFR 300.41—300.45 (relating to State educational agency; supplementary aids and services; transition services; universal design; and ward of the state).
- (9) 34 CFR 300.101 and 34 CFR 300.102 (relating to free appropriate public education (FAPE); and limitation—exception to FAPE for certain ages).
- (10) 34 CFR 300.104—300.108 (relating to residential placement; assistive technology; extended school year services; nonacademic services; and physical education).
- (11) 34 CFR 300.113 and 300.114(a)(2) (relating to routine checking of hearing aids and external components of surgically implanted medical devices; and LRE requirements).
- (12) 34 CFR 300.115—300.117 (relating to continuum of alternative placements; placements; and nonacademic settings).
- (13) 34 CFR 300.122 (relating to evaluation).
- (14) 34 CFR 300.148 (relating to placement of children by parent / guardians when FAPE is at issue).
- (15) 34 CFR 300.160 (relating to participation in assessments).
- (16) 34 CFR 300.172 (relating to access to instructional materials).
- (17) 34 CFR 300.174 (relating to prohibition on mandatory medication).
- (18) 34 CFR 300.207 (relating to personnel development).
- (19) 34 CFR 300.210—300.213 (relating to purchase of instructional materials; information for SEA; public information; and records regarding migratory children with disabilities).
- (20) 34 CFR 300.226 (relating to early intervening services).
- (21) 34 CFR 300.300 and 300.301 (relating to parent / guardian consent; and initial evaluations).
- (22) 34 CFR 300.302—300.307(a)(1)(2) and (b) (relating to screening for instructional purposes is not evaluation; reevaluations; evaluation procedures; additional requirements for evaluations and reevaluations; determination of eligibility; and specific learning disabilities).
- (23) 34 CFR 300.308—300.311 (relating to additional group members; determining the existence of a specific learning disability; observation; and specific documentation for the eligibility determination).
- (24) 34 CFR 300.320—300.325 (relating to definition of individualized education program; IEP Team; parent / guardian participation; when IEPs must be in effect; development, review, and revision of IEP; and private school placement by public agencies).
- (25) 34 CFR 300.327 and 300.328 (relating to educational placements; and alternative means of meeting participation).
- (26) 34 CFR 300.501—300.508 (relating to opportunity to examine records; parent / guardian participation in meetings; independent education evaluation; prior notice by the public agency, content of notice; procedural safeguards notice; electronic mail; mediation; filing a due process complaint; and due process complaint).

- (27) 34 CFR 300.510—300.516 (relating to resolution process; impartial due process hearing; hearing rights; hearing decisions; finality of decision; appeal; partial review; timelines and convenience of hearings and reviews; and civil action).
 - (28) 34 CFR 300.518(a), (b) and (d) and 300.519 (relating to child’s status during proceedings; and surrogate parent / guardians).
 - (29) 34 CFR 300.530—300.537 (relating to authority of school personnel; determination of setting; appeal; placement during appeals; protections for children not determined eligible for special education and related services; referral to and action by law enforcement and judicial authorities; change of placement because of disciplinary removals; and state enforcement mechanisms).
 - (30) 34 CFR 300.610—300.625 (relating to confidentiality; definitions; notice to parent / guardians; access rights; record of access; records on more than one child; list of types and locations of information; fees; amendment of records at parent / guardian request; opportunity for a hearing; result of hearing; hearing procedures; consent; safeguards; destruction of information; and children’s rights).
- (c) The requirements of 34 CFR Part 104 are incorporated by reference as follows:
- (1) 104.3(f), (h)—(j), (k)(2) and (1) (relating to definitions).
 - (2) 104.4—104.8, regarding discrimination prohibited; assurances required; remedial action; designation of responsible employee; and notice.
 - (3) 104.10 (relating to effect of state or local law or other requirements and effect of employment opportunities).
 - (4) 104.11 and 104.12 (relating to discrimination prohibited; and reasonable accommodation).
 - (5) 104.21—104.37, regarding accessibility.

§ 711.4. Supervision

Virtual Prep Academy of Pennsylvania will provide general supervision of special education services and programs to ensure compliance with § 711.3 (relating to incorporation of Federal regulations). Virtual Prep Academy of Pennsylvania will comply with IDEA in accordance with the policies and procedures in the Department’s IDEA grant application under 34 CFR 300.100 (relating to eligibility for assistance) and as approved by the United States Department of Education. Virtual Prep Academy of Pennsylvania will:

- (1) Comply with the Department’s compliance monitoring requirements.
- (2) Provide the information requested by the Department.
- (3) Complete the corrective action required by the Department.

§ 711.5. Personnel

Virtual Prep Academy of Pennsylvania will ensure the following appropriate certifications are required:

- Persons who provide special education or related services to children with disabilities at Virtual Prep Academy of Pennsylvania will have appropriate certification, notwithstanding section 1724-A of the act (24 P. S. § 17-1724-A).

Educational Interpreters

An educational interpreter is an individual who provides students who are deaf or hard of hearing with interpreting or transliterating services in an educational setting. To serve as an educational interpreter at Virtual Prep Academy of Pennsylvania, consistent with the Sign Language Interpreter/Translator State Registration Act (63 P. S. §§ 1725.1—1725.12), an individual will meet the following qualifications:

- Achieve and provide evidence of a score of 3.5 on the Educational Interpreter Performance Assessment (EIPA) for the appropriate grade level to which the person has been assigned.
- Be a qualified sign language interpreter or qualified Translator under the Sign Language Interpreter or Translator State Registration Act and its implementing regulations.
- Provide evidence of a minimum of 20 hours of staff development activities relating to interpreting or transliterating services annually.

(c) *Review of EIPA score.* The Department, in consultation with the State Board of Education will review the EIPA score requirement every two years.

§ 711.6. Annual Report

Data Collection and Reporting for Special Education

Virtual Prep Academy of Pennsylvania will follow the Pennsylvania Information Management System (PIMS) requirements and specifications and comply with Special Education Data Collection protocol. Templates will be submitted in the Special Education Domain as students enrolled in charter schools are reported by the charter school. The December Special Education Submission (Student template and special education snapshot) will include all special education students with a valid IEP as of 12/1 of the school year. The July Special Education submission (Student template and special education snapshot) will include all students that received special education services from July 1 through June 30 who exited at any time during the current school year.

The annual report required under section 1728-A(b) of the act (24 P. S. § 17-1728-A(b)) will include:

- The number of children with disabilities in special education.
- The services, programs, and resources being implemented by Virtual Prep Academy of Pennsylvania.
- The services and programs utilized by Virtual Prep Academy of Pennsylvania through contracting with another public agency, other organizations or individuals.
- The services and programs utilized by Virtual Prep Academy of Pennsylvania through the assistance of an intermediate unit as prescribed under sections 1725-A(a)(4) and 1744-A(3) of the act (24 P. S. §§ 17-1725-A(a)(4) and 1744-A(3)).
- Staff training in special education utilized by Virtual Prep Academy of

Pennsylvania through the PDE's training and technical assistance network and intermediate unit.

The annual report must include an assurance that Virtual Prep Academy of Pennsylvania is in compliance with Federal laws and regulations governing children with disabilities and the requirements of this chapter.

The annual report must include the age and type of exceptionality for each enrolled child with a disability; the level of intervention provided to each child with a disability; certification of staff providing services to each child with a disability; and programs and services available to children with a disability.

§ 711.7. Enrollment

Virtual Prep Academy of Pennsylvania will have an open enrollment policy: any eligible public school student in the Commonwealth of Pennsylvania can attend. The school will not discriminate in its admissions policies or practices on the basis of geography, intellectual or athletic ability, measures of achievement or aptitude, status as a student with a disability, test scores, disabilities, etc.

Virtual Prep Academy of Pennsylvania will not deny enrollment or otherwise discriminate in its admission policies or practices on the basis of a child's disability or the child's need for special education or supplementary aids or services.

Virtual Prep Academy of Pennsylvania will not discriminate in its admission policies or practices on the basis of intellectual ability. Admission criteria may not include measures of achievement or aptitude.

§ 711.8. Education Records

Confidentiality-The Family Educational Rights and Privacy Act (FERPA)

Virtual Prep Academy of Pennsylvania recognizes the need to protect the confidentiality of personally identifiable information in the education records of children. Virtual Prep Academy of Pennsylvania is prepared to ensure the privacy rights of eligible children in the collection, maintenance, release, and destruction of records. Virtual Prep Academy of Pennsylvania will follow the provisions of the Regulations of the State Board of Education on Pupil Records (PA Code 22, Ch.12), the Family Educational Rights and Privacy Act of 1974 (FERPA), the Confidentiality Section of IDEA, and the Confidentiality Section of Pennsylvania Special Education Regulations and Standards.

Requests to View Files

A parent / guardian/guardian has the right to review the files of their child. The parent / guardian may also request and receive the following:

- An explanation of information in the student's education records.
- A copy of all or part of the student's education record (the cost of which will not exceed the costs of duplication).

- A list of the types and location of the student's education record collected, maintained, or utilized by the LEA.

Student Access Rights

When a student is 18 years of age or attending a postsecondary education institution, the right accorded to and consent required of a student's parent / guardian by law will only be accorded to and required of the student.

Parent / Guardian Access Rights

A parent / guardian, eligible student, or designated representative will have access to the student's education records within 45 days of receipt of written request in order to inspect, review or copy education records. A parent / guardian also has the right to request and receive the following:

- An explanation of information in the student's education records.
- A copy of all or part of the student's education record. If copies are to be released to anyone other than the parent / guardian, the Consent to Release Information form must be completed by the parent / guardian.
- A list of the types and location of the student's education record collected, maintained, or utilized by the LEA.

Accessing Records

Virtual Prep Academy of Pennsylvania will maintain a record indicating the names of those persons who have obtained access, the date of access, and the purpose of access. Administrators, teachers, instructional aides and the administrative assistant are authorized to have access to personally identifiable information.

The parent / guardian has the right to inspect the access record of their child's records.

Maintenance Records

The Director of Special Education will be responsible for ensuring that the education records, confidentiality rules, and education records policy for eligible children are enforced and administered. This official will:

- Annually notify parent / guardians and eligible students of this policy, its procedures, and their rights. The notification will be in their primary language unless it is not feasible to do so.
- Develop system of safeguards which will protect the confidentiality of personally identifiable information at the point of collection, storage, release and destruction.
- Be responsible for ensuring that all Virtual Prep Academy of Pennsylvania faculty and subcontracted agency employees, who collect or use personally identifiable information, receive in-service training regarding the implementation of this policy. In-servicing will consist of providing, at the least, yearly presentation of the information to staff and subcontractors.

Third Party Access to Student Information

FERPA provisions allow the school to disclose certain student information to third parties, such as other schools, *without the prior written consent of the parent / guardian/legal guardian or Eligible Student*. This occurs in two situations: Directory Information and situations in which FERPA permits the school to release educational records without consent. All other disclosure of student information to third parties requires the written consent of the Caretaker or Eligible Student.

Release of Educational Records without Consent: Directory Information

The school may release Directory Information (defined by Virtual Prep Academy of Pennsylvania as *student name, student WebMail address, state of residence, student telephone number, and student grade level*) to third parties as permitted by FERPA.

If the Caretaker or Eligible Student does **not** wish to have Directory Information released to third parties, s/he may prevent the release of this information by indicating so in the FERPA Directory Information section of the Student Information Form. If families do not make a selection, then the school may, without additional permission, disclose the Directory Information to third parties as permitted by FERPA.

Release of Educational Records without Consent: Legitimate Educational Interest

Virtual Prep Academy of Pennsylvania may provide a student's educational records to third parties in certain situations listed under FERPA. Examples include the transfer of educational records to the student's new school upon request from the new school, and the provision of educational records to school officials who possess a 'legitimate educational interest' in the student's records, and the provision of educational records to contracted parties providing special education related services.

Release of Student Records with Consent

With the exception of that information which FERPA and/or applicable state law or court order allows the school to release without consent, as noted above, Virtual Prep Academy of Pennsylvania will obtain written consent from the Caretaker or Eligible Student prior to releasing any educational record or personally identifiable information to any third party. Consent to release this information must be made in writing, be signed by the Caretaker or Eligible Student, and include the following information:

- A specific description of the information or record(s) to be released.
- The party or agency to which the information will be released and their address.
- The signature of the requestor, and the date of the request.

When the educational records for a child with a disability are transferred from a public agency, private school, approved private school or private agency, to a charter school or cyber charter school, the public agency, private school, approved private school or private agency from which the child transferred will forward all of the child's educational records, including the most recent IEP, within 10 days after the public agency, private school, approved private school or private agency is notified in writing that the child is enrolled in Virtual Prep Academy of Pennsylvania.

When the educational records for a child with a disability are transferred to a public agency, private school, approved private school or private agency from Virtual Prep Academy of Pennsylvania, the school will forward the child's educational records, including the most recent IEP, within 10 school days after Virtual Prep Academy of Pennsylvania is notified in writing that the child is enrolled at another public agency, private school, approved private school or private agency.

Virtual Prep Academy of Pennsylvania will maintain educational records for children with disabilities consistent with the regulations for FERPA (20 U.S.C.A. § § 1221 note and 1232g) in 34 CFR Part 99 (relating to family educational rights and privacy).

§ 711.9. Payments

As a public school, Virtual Prep Academy of Pennsylvania will comply with 22 PA. Code Chapter 711-Charter School and Cyber Charter School Services and Programs for Children with Disabilities and with the Individuals with Disabilities Education Improvement Act (IDEA), 20 U.S.C.A. §§ 1400 et seq. and implementing regulations, including Section 300.209 of Title 34 of the Code of Federal Regulations, and Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794 (sec. 504). Virtual Prep Academy of Pennsylvania will provide a free appropriate public education (FAPE) to children with disabilities, including, but not limited to, identifying, evaluating, and planning educational programs, and implementing placements in accordance with those Acts. Virtual Prep Academy of Pennsylvania is prepared to serve as a Local Education Agency (LEA).

The child's school district of residence will provide the special education payments required by section 1725-A(a)(3) of the act (24 P. S. § 17-1725-A(a)(3)) to Virtual Prep Academy of Pennsylvania either when:

- (1) A child currently receiving special education services begins attending Virtual Prep Academy of Pennsylvania.
- (2) Virtual Prep Academy of Pennsylvania has identified an enrolled child as a child with a disability under IDEA, has developed an IEP for the child and notifies the district of residence of the identification.

When a child for whom Virtual Prep Academy of Pennsylvania received the special education payment required under section 1725- A(a)(3) of the act enrolls in another public agency, private school or private agency, Virtual Prep Academy of Pennsylvania will immediately inform the child's school district of residence that its payment responsibilities under section 1725-A(a)(3) of the act have ceased.

§ 711.10. Complaint Procedure

Procedural Safeguards Notice

Parent / guardians of children who receive or who may be eligible for special education services have rights under the IDEA. The Procedural Safeguards Notice provides a detailed explanation of those rights. Virtual Prep Academy of Pennsylvania will give parent / guardians a copy of the Procedural Safeguards Notice and the explanatory Procedural Safeguards Letter at least once each school year. Parent / guardians can also obtain a copy of the Procedural

Safeguards Notice from Virtual Prep Academy of Pennsylvania at any time. An additional document is available to help parent / guardians to better understand the Notice document, *The Parent / guardians' Rights: Understanding the Procedural Safeguards Notice* provides a summary of those rights. Parent / guardians will also receive the Parent / guardians' Rights documents upon initial referral or upon the parent / guardian's request for an evaluation and in accordance with discipline procedures when a change in placement occurs.

Virtual Prep Academy of Pennsylvania will establish a complaint procedure consistent with 34 CFR 300.151—300.153 (relating to adoption of State complaint procedures; minimum State complaint procedures; and filing a complaint) and disseminate notice of that procedure.

IDENTIFICATION AND EVALUATION

§ 711.21. Child Find

Student Identification and Child Find

As a cyber school in Pennsylvania, Virtual Prep Academy of Pennsylvania is bound by the Child Find requirements of Chapter 711 of the Pennsylvania School Code, "Charter School and Cyber Charter School Services and Programs for Children with Disabilities," as well as the requirements of the Individuals with Disabilities Education Improvement Act (IDEA 2004), Section 504 of the Rehabilitation Act of 1973, and the Family Educational Rights and Privacy Act (FERPA). Virtual Prep Academy of Pennsylvania's Director of Special Education will serve as the Child Find Coordinator and provide Child Find information to school staff, parent / guardians, and state and local organizations and agencies. These efforts will include compliance with the special education referral process, providing professional development to Virtual Prep Academy of Pennsylvania staff and Student Support Team (SST), participating in the Multi-Tiered Systems of Support/Response to Intervention and Instruction (MTSS/RtII) process, including universal screening procedures, creating and maintaining written policies, and procedures related to Child Find, and involvement in public awareness activities related to Child Find of implementation of students enrolled in Virtual Prep Academy of Pennsylvania.

School Professional Development Related to Child Find

The Director of Special Education and Student Support Team leader will provide the entire Virtual Prep Academy of Pennsylvania staff with Child Find training and compliance progress updates. At the start of the school year, the staff will be provided information on documenting information received by parent / guardians regarding special education evaluation requests, including timelines and the importance of timeliness in responding and alerting the Virtual Prep Academy of Pennsylvania special education team. Subsequent professional development for school staff will include how to interpret universal screening results, intervention processes and results, as well as measures of compliance with Pennsylvania Special Education Evaluation Timelines.

Written Policies and Public Awareness Related to Child Find

Virtual Prep Academy of Pennsylvania's statement about Child Find will be accessible to the general public can be located on the general school public website. In addition, all families enrolled in Virtual Prep Academy of Pennsylvania will receive Child Find

information within the school newsletter, published on a semester basis. A link to the *Pennsylvania Parent / guardian Guide to Special Education for School-Age Children* will also be provided in all locations.

To enable the Commonwealth to meet its obligations under 34 CFR 300.111 (relating to child find), Virtual Prep Academy of Pennsylvania will establish written policies and procedures to ensure that all children with disabilities who are enrolled in Virtual Prep Academy of Pennsylvania, and who are in need of special education and related services, are identified, located and evaluated. Virtual Prep Academy of Pennsylvania's written policy will include:

- (1) Public awareness activities sufficient to inform parent / guardians of children applying to or enrolled in the charter school or cyber charter school of available special education services and programs and how to request those services and programs. Written information will be published in the Virtual Prep Academy of Pennsylvania handbook and web site.
- (2) Systematic screening activities that lead to the identification, location and evaluation of children with disabilities enrolled in Virtual Prep Academy of Pennsylvania.

§ 711.22. Reevaluation

Reevaluation

Virtual Prep Academy of Pennsylvania will remain in full compliance with regulations requiring triennial (biennial for students identified as having an intellectual disability) special education reevaluations to determine continued eligibility and need for special education services. Prior to conducting the reevaluation, the Virtual Prep Academy of Pennsylvania IEP Team will meet to discuss the need for reevaluation, review existing data, and determine additional data needed to best meet the needs of the student. The review of existing data will be documented in the Reevaluation Report (RR) form. If the team agrees that a reevaluation is needed, the school will then issue a Permission to Reevaluate-Consent (PTR-Consent) form to obtain signed parent / guardian consent for reevaluation. Virtual Prep Academy of Pennsylvania will not proceed with the reevaluation without parent / guardian consent and will make every attempt to receive consent.

Virtual Prep Academy of Pennsylvania will complete all reevaluations within the 60 days of the receipt of signed parent / guardian consent, as required by Pennsylvania statute. Reevaluations will be conducted by a qualified examiner at a location proximate to the child. All evaluations conducted by Virtual Prep Academy of Pennsylvania will take a child's English Language ability and disability into consideration. Once the evaluation is complete, Virtual Prep Academy of Pennsylvania will provide parent / guardians with a copy of the report. A multidisciplinary team will then review the report to determine continued eligibility. Once a child is found to continue to need special education services, and the RR form is completed and provided to parent / guardians, an IEP team meeting is scheduled to develop the IEP within 30 days of the date of the RR.

If the team, including the parent / guardian, agrees that reevaluation is not necessary, the school provides the *Agreement to Waive Reevaluation* form to the parent / guardians, with

reasons the reevaluation was waived. Parent / guardians must sign this form as an agreement to waive the reevaluation. If parent / guardians disagree, the reevaluation must proceed. If at any time, the parent / guardian or school believes they need an assessment to benefit the child, the team can convene to discuss conducting a reevaluation. The only exception to the three-year reevaluation requirement involves students that have been identified as intellectually disabled, who must be reevaluated every two years.

If at any time, a parent / guardian believes that Virtual Prep Academy of Pennsylvania's evaluation was not conducted properly or disagrees with the findings, the parent / guardian has the right to request an Independent Education Evaluation (IEE). Virtual Prep Academy of Pennsylvania will provide the IEE by an approved evaluator to the parent / guardian at Virtual Prep Academy of Pennsylvania's expense. The IEE results will be taken into consideration when determining eligibility for special education and/or programming.

Students who Enroll in Virtual Prep Academy of Pennsylvania with an IEP

During enrollment, families will be given the opportunity to inform Virtual Prep Academy of Pennsylvania if their child has an IEP or 504 plan. Parent / guardians may provide a copy of the documents or Virtual Prep Academy of Pennsylvania will obtain the documents from the previous school district. Virtual Prep Academy of Pennsylvania will conduct IEP meetings within 30 days of enrollment for all new students to adopt the IEP, amend the IEP, or conduct an annual review. In addition to being active participants in the IEP team meetings, parent / guardians will be provided with Prior Written Notice / Notice of Recommended Education Placement detailing the type and level of supports decided upon by the IEP team.

The parent / guardian or teacher of a child with a disability has the right under 34 CFR Part 300.303(b) (relating to reevaluations) to request a reevaluation annually. More frequent reevaluations may only occur if the parent / guardian and Virtual Prep Academy of Pennsylvania agree. In addition to the requirements incorporated by reference in 34 CFR 300.303 (relating to reevaluation), reevaluation time line will be 60 calendar days from the receipt of the signed permission to reevaluate from the parent / guardian/guardian, except that the calendar days from the day after the last day of the spring school term up to and including the day before the first day of the subsequent fall school term will not be counted. Virtual Prep Academy of Pennsylvania will reevaluate students with disabilities at least once every three years. Children with disabilities who are identified as a student with an intellectual disability will be reevaluated minimally once every two years.

§ 711.23. Screening

Participation in the Multi-Tiered Systems of Support/Response to Intervention and Instruction (MTSS/RtII) Team

Special education will be represented on Virtual Prep Academy of Pennsylvania's MTSS/RtII process, providing guidance to the team on specific instructional and behavioral approaches for students. The special education team member will ensure that students who are not responding adequately to the interventions established are referred for special education in a timely manner, engaging parent / guardians in the process. The team will verify that the struggling student has received appropriate instruction and that the student's difficulties are not related to Limited English Proficiency. Data related to academic achievement, behavior

concerns, intervention results, and academic progress will also be reviewed by the team.

Pre-Referral/Referral/Initial Evaluation

Students may be referred for special education evaluation by their parent / guardians, teacher, or the SST. The SST, consisting of general education teachers, special education staff, and school administrators will regularly review data on students that are not progressing as expected. The SST will consult with the parent / guardians and address struggling students' needs through the MTSS/RtII process. The teacher will implement and document interventions and the student's response to interventions. If a student is referred for an evaluation, the students' response to MTSS/RtII efforts are used as one data metric in the determination of special education eligibility. These interventions will not be used to delay or deny a parent / guardian-requested special education evaluation.

Virtual Prep Academy of Pennsylvania will establish a system of screening which may include prereferral intervention services to accomplish the following:

- (1) Identification and provision of initial screening for students prior to referral for a special education evaluation, including those services outlined in subsection (c).
- (2) Provision of peer support for teachers and other staff members to assist them in working effectively with students in the general education curriculum.
- (3) Identification of students who may need special education services and programs.

The screening process must include:

- (1) Hearing and vision screening in accordance with section 1402 of the Public School Code of 1949 (24 P. S. § 14-1402) for the purpose of identifying students with hearing or vision difficulty so that they can be referred for assistance or recommended for evaluation for special education.
- (2) Screening at reasonable intervals to determine whether all students are performing based on grade-appropriate standards in core academic subjects.

Virtual Prep Academy of Pennsylvania will develop a program of prereferral intervention services. In the case of Virtual Prep Academy of Pennsylvania meeting the criteria in 34 CFR 300.646(b)(2) (relating to disproportionality), as established by the PDE, the services are required and include:

- (1) A verification that the student was provided with appropriate instruction in reading, including the essential components of reading instruction (as defined in section 1208(3) of the Elementary and Secondary Education Act (ESEA) (20 U.S.C.A. § 6368(3)), and appropriate instruction in math.
- (2) For students with academic concerns, an assessment of the student's performance in relation to State-approved grade level standards.
- (3) For students with behavioral concerns, a systematic observation of the student's behavior in the school environment where the student is displaying difficulty.

- (4) A research-based intervention to increase the student's rate of learning or behavior change based on the results of the assessments under paragraph (2) or (3), or both.
- (5) Repeated assessments of achievement or behavior, or both, conducted at reasonable intervals, reflecting formal monitoring of student progress during the interventions.
- (6) A determination as to whether the student's assessed difficulties are the result of a lack of instruction or limited English proficiency.
- (7) A determination as to whether the student's needs exceed the functional ability of the regular education program to maintain the student at an appropriate instructional level.
- (8) Documentation that information about the student's progress as identified in paragraph (5) was periodically provided to the student's parent / guardians.
- (9) Screening or prereferral intervention activities may not serve as a bar to the right of a parent / guardian to request an evaluation, at any time, including prior to or during the conduct of screening or prereferral intervention activities.

§ 711.24. Evaluation

Initial Evaluation

Students may be referred for special education evaluation by their parent / guardians, teacher, or the SST. The SST, consisting of general education teachers, special education staff, and school administrators will regularly review data on students that are not progressing as expected. When a parent / guardian requests a special education evaluation, the process occurs *concurrently* with the MTSS/RtII process if the student is in need of academic intervention. Virtual Prep Academy of Pennsylvania will respond to the parent / guardian's verbal request within 10 days by issuing the Permission to Evaluate-Request (PTE-Request) form, as well as the Procedural Safeguards Letter and Notice. Upon receipt of the parent /guardian's written request, Virtual Prep Academy of Pennsylvania will issue the Permission to Evaluate-Consent (PTE-Consent) form within 10 days to gain the parent /guardian's permission to evaluate. This form outlines the reason for the special education evaluation referral and lists the assessments that will be conducted. Parent / guardian input and any outside evaluations will also be collected during the evaluation process.

The special education evaluation will be coordinated with the parent / guardian and an evaluator in close proximity to the student and completed within 60 calendar days of Virtual Prep Academy of Pennsylvania's receipt of signed PTE-Consent form. Once the evaluation is complete, the parent / guardians will join a multidisciplinary team meeting to review the assessment results and determine the student's eligibility for special education, completing an Evaluation Report (ER). If the student is found eligible as a student with a disability and in need of specially designed instruction, Virtual Prep Academy of PA will convene the IEP meeting within 30 days after the completion of an *Evaluation Report (ER)*.

Allowing for Differences in English Language Skills and Ethnic Background

Evaluations must take into account the child's English language skills and ethnic background to ensure that the testing and evaluation will be equitable for children of any race or culture. Tests must be given in the native language or mode of communication that is most likely to give accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible. Upon enrollment with Virtual Prep Academy of Pennsylvania, parent/guardians will complete a Language Preference Form to ensure communication and assessments are delivered in the student/family's native language.

Disproportionality

Virtual Prep Academy of Pennsylvania will collect and examine data regularly to ensure disproportionality is not evident in the areas of identification, academic settings and placements, and disciplinary measures. In addition to cultural sensitivity and awareness training, the following practices will be implemented to ensure students are found eligible for special education services without unjust bias:

- Evaluations will be administered by trained and licensed personnel
- More than one single measure or assessment will be used to determine a disability
- Evaluations will not be discriminatory or racially/culturally biased
- Evaluations will take into consideration the child's English language skills, including ethnic background
- Evaluations will be administered in the child's native language, or mode of communication

If there is any evidence of disproportionality, the school will review, and revise if needed, all procedures and policies that may be contributing.

§ 711.25. Criteria for the Determination of Specific Learning Disabilities

Following are State-level criteria for determining the existence of a specific learning disability. Virtual Prep Academy of Pennsylvania will develop procedures for the determination of specific learning disabilities that conform to criteria in this section. These procedures will be included in the school's charter application and annual report. To determine that a child has a specific learning disability, Virtual Prep Academy of Pennsylvania will:

- (1) Address whether the child does not achieve adequately for the child's age or meet State- approved grade-level standards in one or more of the following areas, when provided with learning experiences and scientifically based instruction appropriate for the child's age or State-approved grade-level standards:
 - a. Oral expression.
 - b. Listening comprehension.
 - c. Written expression.
 - d. Basic reading skill.
 - e. Reading fluency skills.

- f. Reading comprehension.
 - g. Mathematics calculation.
 - h. Mathematics problem solving.
- (2) Use one of the following procedures:
- a. A process based on the child's response to scientific, research-based intervention, which includes documentation that:
 - i. The student received high quality instruction in the general education setting.
 - ii. Research-based interventions were provided to the student.
 - iii. Student progress was regularly monitored.
 - b. A process that examines whether a child exhibits a pattern of strengths and weaknesses, relative to intellectual ability as defined by a severe discrepancy between intellectual ability and achievement, or relative to age or grade.
- (3) Have determined that its findings under this section are not primarily the result of any of the following:
- a. A visual, hearing or orthopedic disability.
 - b. Intellectual Disability
 - c. Emotional disturbance.
 - d. Cultural factors.
 - e. Environmental or economic disadvantage.
 - f. Limited English proficiency.
- (4) Ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or mathematics by considering documentation that:
- a. Prior to, or as a part of, the referral process, the child was provided scientifically- based instruction in regular education settings, delivered by qualified personnel, as indicated by observations of routine classroom instruction.
 - b. Repeated assessments of achievement were conducted at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parent / guardians.

IEP

§ 711.41. IEP

IEP Team Process

Once the evaluation team has determined a child has a disability and requires specially

designed instruction, an IEP is developed within 30 days from the date of the evaluation report team meeting. From that point on, the IEP will be reviewed annually unless a meeting prior to the annual due date is necessary and/or requested by the parent/guardian. The annual IEP will be implemented within 10 school days of the IEP meeting date. An IEP meeting will also take place within 30 days of the completion of a reevaluation report.

The IEP team will include all required members including the parent / guardians, a minimum of one general education teacher, a minimum of one special education teacher, any related service providers when applicable, a local education agency representative (LEA), the student if turning 14 years or older during the duration of the annual IEP (or if the parent / guardian would like for the student to participate prior to age 14), a qualified person that can interpret the evaluation findings, and lastly, anyone else the parent / guardian would like present at the meeting that is familiar with the child and their education. Parent / guardians are IEP team members and Virtual Prep Academy of Pennsylvania will take all steps needed to ensure that one or both of the parent / guardians are present at each IEP team meeting.

The IEP developed will address any new evaluation reports, student strengths, parent / guardian input, both present level academic and functional performance, measurable yearly goals (and objectives if the student is alternatively assessed), how the disability affects progress in the general education curriculum, services and programs with dates (including transportation needs), progress reporting (at least quarterly during the school year) and how the progress will be evaluated, participation in general education classes (and other activities) with children without disabilities, accommodations (including supplementary aids and services), and participation in Pennsylvania statewide testing. The IEP team will also examine behaviors, including how they may interfere with learning (or that of peers) and if a behavioral management plan should be created. The team will take into account if the student has limited English proficiency, communication and assistive technology (AT) needs, as well as if eligibility for Extended School Year (ESY) services. If the student is transition age (14 years or older), transition assessments, annual goals, activities, and courses of study will be developed to support postsecondary goals.

IEP Progress Reporting

Student progress on annual goals and objectives will be monitored regularly using. The data will be summarized and provided to the parent / guardians quarterly throughout the school year, unless the IEP team agrees upon more frequent updates. Data collection tools may include rubric scores, curriculum based assessments, tests, portfolios or fluency probes. Data may also be accumulated during small group or one on one instruction. Teachers will collect and analyze the data bi-weekly to ensure the student is on track to meet the goal by the annual IEP due date. If the student is not making expected progress on the annual goals or objectives, instructional adjustments will be made accordingly in an effort to increase progress, such as increased repetition opportunities or the re- teaching of critical skills. Related service goals will also be regularly monitored and a summary included in the quarterly report provided to parent / guardians.

Assistive Technology

Virtual Prep Academy of Pennsylvania will provide students with Assistive Technology as defined by IDEA 2004, any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified or customized, that is used to increase, maintain, or

improve the functional capabilities of a child with a disability.

Consistent with Pennsylvania Chapter 711, IEP teams will consider assistive technology needs for every student with an IEP. Students have access to screen readers, text readers, dictation and word prediction software, large monitors, alternative keyboards and mice, and other AT as specified in the students' IEP.

Transition

Students turning age 14 or older (or younger if appropriate) during the duration of the annual IEP will have a transition plan developed by the IEP team. The transition plan will prepare the student to move from school to post-school activities including post-secondary education, vocational education or adult education independent or supported employment and, when appropriate, independent living skills or community participation. The student will be invited to join and participate in the IEP meeting. The transition plan developed will include the following: Present Level of Academic Achievement and Functional Performance, Courses of Study and Transition Activities, agency linkages, measurable annual goals/objectives, and services that the student needs to meet the goals outlined in the transition plan.

The following steps will occur to engage students in the transition process:

- The IEP Team Meeting Invitation will be addressed to the student.
- The Present Level of Academic Achievement and Functional Performance will include formal and/or informal transition assessments. The assessments will be both age-appropriate and student-focused to determine the students' strengths, needs, goals and interests. The assessments selected may include, but are not limited to, the Casey Life Skills assessment, the Myers Briggs, Keys2Work, and/or PACareerzone.org.
- Courses of Study will be addressed by the IEP team to ensure the student is taking courses and making sufficient progress to meet their post-secondary goals by the time the student graduates or transitions to adult services.
- Transition activities will be tied to transition goals. Depending on the student's post-secondary goals, activities may include college visitations and participation in state-wide Career Days. A vast number of agencies are available to support a student's transition plan and activities throughout the Commonwealth.
- Goals and objectives will be developed as an IEP team and areas of focus will include education, employment, and independent living. Goals will be developed based on the transition assessment results.
- A transition specialist will monitor and support student internships and job shadow opportunities across the state by collaborating with local businesses, colleges and universities, and the PA Office of Vocational Rehabilitation (OVR). These opportunities will be based on the student's interests and transition plan. Monitoring will include observing the student in the vocational setting, providing ongoing and frequent feedback and support and, when needed, modeling skills.

For students who are graduating or at maximum age, a Summary of Performance (SOP) document will be created to ensure the student has personal summary information that includes all of the student's abilities and limitations summarized, recommendations for continued supports for a successful transition, and input from both the student and individuals

supporting the student.

Interagency Collaboration

Virtual Prep Academy of Pennsylvania will work with students' resident districts and intermediate units to benefit enrolled students with IEPs. Interagency collaboration is a critical element of Virtual Prep Academy of Pennsylvania's continuum of special education services. This collaboration will be necessary when considering related services, mental health and welfare support, postsecondary transition planning, bridging to adult services, and placement considerations. This system will not replace the Virtual Prep Academy of Pennsylvania's responsibilities to serve enrolled students with IEPs; rather, this intensive interagency collaboration is designed to provide additional placement considerations to students' IEP teams when students need additional supports and services.

Related Services

Cyber schools offer a vast range of options for the delivery of related services. Virtual Prep Academy of Pennsylvania will contract with agencies to support the delivery of related services. Related services provided to qualifying students will include, but are not limited to:

- Speech-language services
- Occupational therapy
- Counseling services
- Social work services
- Behavior therapy
- Special transportation
- Physical therapy
- Audiology services
- Social Skills
- Autism support
- Parent / guardian training
- Orientation and mobility
- Closed-captioning
- American Sign Language

Related services will be equally accessible to all students in the Commonwealth. Teletherapy will be considered as the first option for students. Students attending cyber schools in Pennsylvania have been receiving services in both cyber and/or face-to-face settings for many years. When the IEP team determines that the services will be provided face to face, the services are provided at a mutually convenient location for both the family and the provider. Options for locations include: the student's home, the therapist's business location, libraries, community centers, etc. For services provided outside of the home, special transportation

will be provided or the parent / guardian may choose to receive mileage reimbursement from Virtual Prep Academy of Pennsylvania for transporting their child. Virtual Prep Academy of Pennsylvania provides related services by engaging IUs, private businesses, agencies, hospitals, adult service providers, etc. For each provider serving enrolled students, Virtual Prep Academy of Pennsylvania maintains copies of licensure and certification, background checks, etc. consistent with Pennsylvania law.

Least Restrictive Environment (LRE)

Virtual Prep Academy of Pennsylvania provides special education and related services within the LRE for all students. This includes taking into consideration supplementary aids and services, accommodations, and ESY while ensuring the student is educated with nondisabled peers, to the maximum extent possible, and making expected gains on IEP goals. The Director of Special Education works closely with the general education staff to ensure that every student receives accommodations, modifications, and all needed services to access and progress in the general education curriculum. Assistive technology may include collaboration with PaTTAN AT consultants and Intermediate Unit (IU) staff, access to PaTTAN's short term AT loan library and AIM Center (Accessible Instructional Materials), closed captioning, speech to text, and text to speech. ESY will be considered by the IEP team, at each IEP meeting, determining if potential regression over school interruptions or other relevant factors may interfere with the student's access to FAPE.

Continuum of Services and Placement

Virtual Prep Academy of Pennsylvania will have a continuum of special education and alternative placements available to ensure FAPE is being provided in the LRE.

- Consultative support for the general education teachers to provide modifications and accommodations to the general education curriculum
- Itinerant, supplementary or full-time special education support will be provided via the telephone, Internet, live sessions, as well as in person depending on the needs of the student
- Direct related service support (for example: speech-language, occupational, or physical therapy, psychological counseling,) provided face-to-face, via computer, in homes, community sites, and/or therapist offices
- Related services may include: parent / guardian training, autism support, parent / guardian groups, student support groups, and itinerant hearing or vision support consistent with the student's IEP
- Ongoing progress monitoring for every student: including frequent and thorough review of student performance, attendance or non-attendance, and participation data as reported to the student, parent / guardian and teacher
- Documenting all communication (phone, WebMail message, live sessions, student attendance or non-attendance) and consultation with the student and/or parent / guardian as well as general education teachers
- Specific tracking and reporting for providers of direct/related services, with close monitoring by the special education staff of any missed appointments or incomplete

services

- Private placements if deemed necessary

Program for Alternatively Assessed Students

Virtual Prep Academy of Pennsylvania will provide a comprehensive program for students qualified to take Pennsylvania's alternative state assessment, PASA. To the greatest extent possible, the students will be included with their same age classmates so they may enjoy age-appropriate communication and socialization. Students participating in the alternative curriculum program may or may not have

classes with their general education peers, which is determined on an individual basis. For example, some alternative curriculum students will participate in only alternative courses, while others may participate in electives with their general education peers, in addition to their alternative core coursework. The Least Restrictive Environment will be determined by each student's IEP team.

Alternative Curriculum Resources

Unique Learning System is an online, dynamic, standards-based curriculum specifically designed for students with special needs. Virtual Prep Academy of Pennsylvania special education teachers will download monthly instructional thematic units of study. Themes center on Science and Social Studies topics. Each unit contains 30 special education lesson plans and downloadable materials that teachers can readily implement into special education classroom learning activities. All materials are created using SymbolStix graphics. Each lesson plan defines three levels of differentiated tasks to accommodate the diversity of learners with significant disabilities. Lesson plans are organized by chronological grade band. The high school level grade band lesson plans also include postsecondary transition activities.

Independent Living and Life Skills

As part of Virtual Prep Academy of Pennsylvania's postsecondary transition planning and alternative curriculum program, Virtual Prep Academy of Pennsylvania will implement independent living and life skills programming for students with IEPs. Designed to provide life skills support, this program will provide the instruction necessary for students to function independently as adults to the fullest extent possible. Independent living and life skills will be addressed in students' IEPs with appropriate transition activities and goals clearly determined and outlined after conducting thorough transition interviews and assessments with the students and their families. All goals and associated activities will be directly aligned with students' present levels.

Activities may range from self-care to money management to community navigation. Frequent, regular progress monitoring and documentation of goal progress is an integral part of Virtual Prep Academy of Pennsylvania's life skills and independent living programming. As appropriate, the team may determine that intensive interagency collaboration is needed to best meet the independent living and life skills goals.

Virtual Prep Academy of Pennsylvania will hold annual reviews of the IEP, including reviewing

student progress within the existing IEP, reevaluating whether the student is benefitting from the program, creating new IEP goals. If the student is not benefitting from the program, a new IEP will be developed and changes will be recommended regarding the student's placement.

§ 711.42. Transportation

Students are not required to attend a specific facility to receive their educational services. The act does not require that a student's school district of residence provide transportation for Virtual Prep Academy of Pennsylvania students. If transportation is required as a related service in the IEP of the student with disabilities, Virtual Prep Academy of Pennsylvania will provide the required transportation. This chapter does not prohibit Virtual Prep Academy of Pennsylvania and a school district from entering into agreements regarding the provision of transportation as a related service or accommodation to children with disabilities eligible under IDEA.

§ 711.43. Educational Placement

Alternative placements will be considered through a re-evaluation process when the current educational environment is no longer meeting the needs of the student. Alternative placements include special classes, specialty schools, approved private placements and home and hospital instruction. Resources to support alternative placement options may include collaboration with the student's resident school district, IUs, and approved private schools. Once an alternative placement is agreed upon by the team, a Prior Written Notice (PWN) and Procedural Safeguards will be issued to document the team decision. When the IEP team at a charter school or cyber charter school places a child in another public agency, private school or private agency, and the parent / guardians choose to keep their child enrolled in the charter school or cyber charter school, the charter school or cyber charter school is obligated to pay for that placement.

§ 711.44. Extended School Year (ESY)

ESY will be considered by the IEP team, at each IEP meeting, determining if potential regression over school interruptions or other relevant factors may interfere with the student's access to FAPE. In addition to the requirements incorporated by reference in 34 CFR 300.106 (relating to extended school year services), Virtual Prep Academy of Pennsylvania will use the following standards for determining whether a student with disabilities requires ESY as part of the student's program:

- (1) At each IEP meeting for a student with disabilities, Virtual Prep Academy of Pennsylvania will determine whether the student is eligible for ESY services and if so, make subsequent determinations about the services to be provided.
- (2) In considering whether a student is eligible for ESY services, the IEP team will consider the following factors, however, no single factor will be considered determinative:
 - Whether the student reverts to a lower level of functioning as evidenced by a measurable decrease in skills or behaviors which occurs as a result of an interruption in educational programming (Regression).
 - Whether the student has the capacity to recover the skills or behavior

- patterns in which regression occurred to a level demonstrated prior to the interruption of educational programming (Recoupment).
 - Whether the student's difficulties with regression and recoupment make it unlikely that the student will maintain the skills and behaviors relevant to IEP goals and objectives.
 - The extent to which the student has mastered and consolidated an important skill or behavior at the point when educational programming would be interrupted.
 - The extent to which a skill or behavior is particularly crucial for the student to meet the IEP goals of self-sufficiency and independence from caretakers.
 - The extent to which successive interruptions in educational programming result in a student's withdrawal from the learning process.
 - Whether the student's disability is severe, such as autism/pervasive developmental disorder, serious emotional disturbance, severe mental retardation, degenerative impairments with mental involvement and severe multiple disabilities.
- (3) Reliable sources of information regarding a student's educational needs, propensity to progress, recoupment potential and year to year progress may include the following:
- Progress on goals in consecutive IEPs.
 - Progress reports maintained by educators, therapists and others having direct contact with the student before and after interruptions in the education program.
 - Reports by parent / guardians of negative changes in adaptive behaviors or in other skill areas.
 - Medical or other agency reports indicating degenerative-type difficulties, which become exacerbated during breaks in educational services.
 - Observations and opinions by educators, parent / guardians and others.
 - Results of tests, including criterion-referenced tests, curriculum-based assessments, ecological life skills assessments and other equivalent measures.
- (4) The need for ESY services will NOT be based on any of the following:
- The desire or need for day care or respite care services.
 - The desire or need for a summer recreation program.
 - The desire or need for other programs or services that while they may provide educational benefit, are not required to ensure the provision of a FAPE.
- (5) Students within the Armstrong Group who are diagnosed with severe disabilities such as autism/pervasive developmental disorder, serious emotional

disturbance; severe mental retardation; degenerative impairments with mental involvement; and severe multiple disabilities require expeditious determinations of eligibility for ESY services to be provided as follows:

- Parent / guardians of students with severe disabilities will be notified by the charter school or cyber charter school of the annual review meeting to ensure their participation.
- An IEP review meeting must occur no later than February 28 of each school year for students within the Armstrong Group.
- The Notice of Recommended Educational Placement (NOREP) will be issued to the parent / guardian no later than March 31 of the school year for students within the Armstrong Group which will indicate if the student does or does not qualify for ESY.
- If a student with a severe disability transfers into Virtual Prep Academy of Pennsylvania after the dates in paragraphs (2) and (3), and the ESY eligibility decision has not been made, the eligibility and program content must be determined at the IEP meeting.
- Virtual Prep Academy of Pennsylvania will consider the eligibility for ESY services of all students with disabilities at the IEP meeting. ESY determinations for students other than those described in subsection (d) are not subject to the timelines in subsection (d). However, these determinations will still be made in a timely manner. If the parent / guardians disagree with Virtual Prep Academy of Pennsylvania's recommendation on ESY, the parent / guardians will be afforded an expedited due process hearing.

§ 711.45. Access to Instructional Materials

National Instructional Materials Accessibility Standard (NIMAS)

Virtual Prep Academy of Pennsylvania will ensure timely delivery of print instructional materials in accessible formats to blind or other enrolled students with print disabilities. Virtual Prep Academy of Pennsylvania will work with Accessible Media Providers (AMPs), such as Bookshare, to provide eligible students files in the NIMAS standard. These files are based on the international DAISY (Digital Accessible Information System) standard, essentially the DAISY/NISO (National Information Standards Organization) Z39.86 2005 standard and is required by federal IDEA regulation. DAISY is an internationally recognized technical standard used to facilitate the creation of accessible content. These files are electronic documents created by textbook providers, submitted to AMPs, and then requested by public schools. These files will be provided to eligible students as part of its accessibility provision and assistive technology considerations of the students' IEP teams.

Virtual Prep Academy of Pennsylvania will, in a timely manner, provide print instructional materials in specialized, accessible formats (that is, Braille, audio, digital, large-print, and the like) to children who are blind or other persons with print disabilities, as defined in 2 U.S.C.A. § 135a regarding books and sound reproduction records for blind and other physically handicapped residents annual appropriations and purchases.

Virtual Prep Academy of Pennsylvania will act in a timely manner in providing instructional materials under subsection (a) if they take all reasonable steps to ensure that children who are blind or other persons with print disabilities have access to their accessible format instructional materials at the same time that students without disabilities have access to instructional materials. Virtual Prep Academy of Pennsylvania will not withhold instructional materials from other students until instructional materials in accessible formats are available.

Receipt of a portion of the instructional materials in alternate accessible or specialized format will be considered receipt in a timely manner if the material received covers the chapters that are currently being taught in the student's class.

If a child who is blind or other person with a print disability enrolls in school after the start of the school year, Virtual Prep Academy of Pennsylvania will take all reasonable steps to ensure that the student has access to accessible format instructional materials within 10 school days from the time it is determined that the child requires printed instructional materials in an alternate accessible or specialized format.

Virtual Prep Academy of Pennsylvania may coordinate with the National Instructional Materials Access Center (NIMAC) to facilitate the production of and delivery of accessible materials to children who are blind or other persons with print disabilities. The NIMAC refers to the central repository, established under section 674(e) of IDEA (20 U.S.C.A. § 1474(e)), which is responsible for processing, storing and distributing NIMAS files of textbooks and core instructional materials.

Virtual Prep Academy of Pennsylvania coordinating with NIMAC will require textbook publishers to deliver the contents of print instructional materials to the NIMAC in NIMAS format files on or before delivery of the print instructional materials to the Virtual Prep Academy of Pennsylvania may on occasion choose not to coordinate with NIMAC may require that publishers deliver the contents of print instructional materials to the NIMAC in NIMAS format files on or before delivery of the print instructional materials to the charter schools or cyber charter schools.

§ 711.46. Positive Behavior Support

Positive Behavior Interventions and Support

Virtual Prep Academy of Pennsylvania believes that every student must be treated with respect and will implement an evidenced- based, data-driven, school wide program of positive behavioral supports to improve the academic and social outcomes of all students. This framework of positive behavior interventions and supports (PBIS) includes a variety of school wide as well as individual strategies focused on teaching and reinforcing positive school engagement and behaviors. Every student will receive positive reinforcement through frequent teacher feedback and interaction.

Components of Virtual Prep Academy of Pennsylvania's PBIS program include all-staff professional development related to understanding students' negative behaviors and their antecedents as well as how to use preventative measures to prevent them. When a student is

in need of behavior interventions, the Virtual Prep Academy of Pennsylvania Student Support Team will work with school staff, parent / guardians, Learning Coaches and the student to create positive behavior intervention plans based on data collected from interviews and observations of the student in the virtual classroom and the home, if necessary. Any prior or current behavior interventions plans will be reviewed in the process and adapted as necessary for the virtual environment. Data is analyzed and interventions are adapted as needed, based on that data, to determine how to modify environmental factors that may contribute to negative behaviors. Teachers and Learning Coaches will work together to support students' efforts to control their own behaviors by teaching and reinforcing self-management and helping students to identify triggers that lead to negative behaviors.

Virtual Prep Academy of Pennsylvania's PBIS framework will also include efforts related to dropout prevention. School general and special education staff will work collaboratively to monitor students at risk for dropout. These students will be targeted for additional intervention, IEPs may be updated, and families will be engaged.

Use of Seclusion or Restraint

Virtual Prep Academy of Pennsylvania does not have physical contact with students on a regular basis; however, it will maintain a Seclusion and Restraint plan to implement, if necessary during occasions when staff has contact with students during field trips, state testing, or visits to the school offices. A copy of this plan will be available to students and their families in the school handbook.

Every effort will be made to avoid the need for the use of restraint or seclusion of a student. Physical seclusion or restraint will not be used except when used as a last resort and only when:

- the student's behavior poses imminent risk of injury to self or others; and,
- other less restrictive interventions are ineffective.

A student will never be secluded or physically restrained by a school employee who has not received extensive training by the school in the use of seclusion and restraint procedures. These strategies may be used in rare and clearly unavoidable emergency circumstances when fully trained school personnel are not immediately available. Untrained staff will request assistance from trained staff as soon as possible.

Physical restraint or seclusion of a student may only be used for a short period of time and will be ended as soon as the imminent risk of injury to self or others has dissipated, usually a matter of minutes. The use of any drug, medication, or other chemical to control behavior or restrict freedom of movement (except as authorized by a licensed physician or other qualified health care professional) is prohibited.

A Virtual Prep Academy of Pennsylvania employee will never give a student any drug or medication that is not a standard treatment or dosage, or both, for the student's medical or psychiatric condition unless otherwise prescribed by a physician.

Every instance in which seclusion or restraint is used will be carefully, continuously, and visually monitored to ensure the safety of the student, other students and school employees. Immediately after the imminent risk of injury to self or others has ended, the student should

no longer be physically restrained or secluded and a school employee, not involved with the seclusion or restraint, will examine the student to ascertain if any injury has been sustained during the seclusion or restraint of the student.

After each incident a debriefing procedure is followed and the incident is documented. Virtual Prep Academy of Pennsylvania will annually review this seclusion and restraint policy. Regular professional development and training on these procedures will be provided to school staff.

When Seclusion and Restraint Procedures Will Not Be Employed

Physical restraint and seclusion will not be used unless the student's behavior poses imminent risk of injury to self or others and other less restrictive interventions are ineffective. A verbal threat or verbally aggressive behavior does not itself indicate an imminent risk of injury and will not result in seclusion or restraint. Unless a student's destruction or damage to property creates an imminent risk of injury to the student or others, the destruction or damage of property does not itself indicate an imminent risk of injury and will not be the justification for seclusion or restraint of a student.

Debriefing

As soon as practical and after every instance in which seclusion or restraint is used on a student, the school administrator or designee will do the following:

- meet with at least one school employee who participated in the implementation, monitoring, and supervision of the seclusion or restraint to discuss whether proper seclusion or restraint procedures were followed, including the use of proper procedures to prevent the need for restraint or seclusion;
- direct a staff person, who was not part of the seclusion or restraint of the student, to debrief the incident with the student in a manner appropriate to the student's age and developmental ability and to discuss the behavior(s), if any, that precipitated the use of restraint or seclusion; and,
- provide a copy of an incident report to the parent / guardian(s) or guardian(s) and offer the opportunity to request a meeting regarding the incident of restraint or seclusion.

Incident Documentation and Reporting

Every instance in which seclusion or restraint is used on a student will be documented in order to memorialize the events that led up the use of either seclusion or restraint. Documentation must be made on the form prescribed by the school and will include the following:

- The student's name;
- The date and time of the incident;
- The duration of any seclusion or restraint or the beginning and ending times of the restraint or seclusion, or both;
- A description of any relevant events leading up to the incident;

- A description of the incident or student behavior that resulted in implementation of seclusion or restraint including a description of the danger of injury which resulted in the seclusion or restraint;
- A description of relevant interventions used immediately prior to the implementation of seclusion or restraint;
- A summary of the student's behavior during seclusion or restraint, including a description of the restraint technique or techniques used and any other interaction between the student and staff;
- A description of any injuries to students, staff, or others or property damage;
- A list of school employees who participated in the implementation, monitoring and supervision of the seclusion or restraint; and,
- If applicable, a statement that intervention used was consistent with the student's most current behavioral intervention plan or IEP.

The Principal or designee will attempt to verbally report every instance in which seclusion or restraint is used on a student to the student's parent / guardian or guardian no later than the end of the school day or as soon as practical. The building administrator or designee will also send written notification, as soon as practical, to the student's parent / guardian or guardian after every instance in which seclusion or restraint is used on a student.

Training

Virtual Prep Academy of Pennsylvania will provide all school employees with training on:

- Appropriate use of effective alternatives to physical seclusion and restraint,
- Conflict de-escalation procedures,
- Positive supports and behavioral interventions techniques,
- The dangers of seclusion and restraint,
- Procedures for contacting fully trained and certified staff when behavioral crises occur
- The safe use of seclusion and restraint.
- Steps to avoid the use of seclusion or restraint.
- Debriefing practices and procedures.

This training will be recurrent and will be provided to new school employees.

A core group of appropriate personnel will be trained in crisis intervention techniques, which will include the use of seclusion and restraint procedures. Any member of the core group, trained in crisis intervention techniques, including the safe use of seclusion or restraint procedures, may provide training to other school employees under this plan.

Recurrent training will be provided to school employees on a regular basis at least annually.

Annual Review, Planning Process, and Oversight

The Principal will be designated as the coordinator of data, planning and oversight of the use of seclusion or restraint procedures. Virtual Prep Academy of Pennsylvania will establish a team to conduct an annual review of all individual and program-wide data associated with this policy. The Committee will review the following components related to the use of restraint:

- incident reports;
- procedures used during restraint, including the proper administration of specific Virtual Prep Academy of Pennsylvania- approved restraint techniques;
- preventative measures or alternatives tried, techniques or accommodations used to avoid or eliminate the need of the future use of restraint;
- documentation and follow up of procedural adjustments made to eliminate the need for future use of restraint;
- injuries incurred during a restraint;
- notification procedures;
- staff training needs;
- specific patterns related to staff or student incidents;
- environmental considerations, including physical space, student seating arrangements, and noise levels.

Upon review of the data, the Committee will identify any issues and/or practices that require further attention and provide written recommendations to the Superintendent of Schools for changes in policies or practices. The Committee may recommend review of the training program to ensure the most current knowledge and techniques are reflected in Virtual Prep Academy of Pennsylvania training curriculum.

Positive rather than negative measures will form the basis of positive behavior support programs to ensure that all students will be free from demeaning treatment, the use of aversive techniques and the unreasonable use of restraints. Behavior support programs must include research based practices and techniques to develop and maintain skills that will enhance an individual student's opportunity for learning and self-fulfillment. Behavior support programs and plans will be based on a functional assessment of behavior and utilize positive behavior techniques. When an intervention is needed to address problem behavior, the types of intervention chosen for a particular student must be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including deescalation techniques in accordance with subsection (c)(2). Notwithstanding the requirements incorporated by reference in 34 CFR 300.34, 300.324, 300.530 (relating to related services; development, review, and revision of IEP; and authority of school personnel), with regard to a child's behavior, the following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Aversive techniques—Deliberate activities designed to establish a negative association with a specific behavior.

Positive behavior support plan—A plan for students with disabilities who require specific intervention to address behavior that interferes with learning. A positive behavior support plan will be developed by the IEP team, be based on the results of a functional behavior assessment and become part of the student’s IEP. These plans include methods that utilize positive reinforcement and other positive techniques to shape a student’s behavior, ranging from the use of positive verbal statements as a reward for good behavior to specific tangible rewards.

Restraints:

- The application of physical force, with or without the use of a device, for the purpose of restraining the free movement of a student’s body. The term does not include briefly holding, without force, a student to calm or comfort him, guiding a student to an appropriate activity, or holding a student’s hand to safely escort him from one area to another.
- Excluded from this definition are hand-over-hand assistance with feeding or task completion and techniques prescribed by a qualified medical professional for reasons of safety or for therapeutic or medical treatment, as agreed to by the student’s parent / guardians and specified in the IEP. Devices used for physical or occupational therapy, seatbelts in wheelchairs or on toilets used for balance and safety, safety harnesses in buses, and functional positioning devices are examples of mechanical restraints which are excluded from this definition, and governed by subsection (d).
- Restraints to control acute or episodic aggressive or self-injurious behavior may be used only when the student is acting in a manner as to be a clear and present danger to himself, to other students or to employees, and only when less restrictive measures and techniques have proven to be or are less effective.
- The use of restraints to control the aggressive behavior of an individual student will cause the charter school or cyber charter school to notify the parent / guardian of the use of restraint and will cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent / guardian, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team will consider whether the student requires a functional behavioral assessment, reevaluation, a new or revised positive behavior support plan or a change of placement to address the inappropriate behavior.
- The use of restraints may only be included in a student’s IEP when:
 - Utilized with specific component elements of positive behavior support.
 - Used in conjunction with the teaching of socially acceptable alternative skills to replace problem behavior.
 - Staff are authorized to use the procedure and have received the staff training required.
 - There is a plan in place for eliminating the use of restraint through the application of positive behavior support.
- The use of prone restraints is prohibited in educational programs. Prone restraints are those in which a student is held face down on the floor.

- The use of restraints may not be included in the IEP for the convenience of staff, as a substitute for an educational program or employed as punishment.
- Virtual Prep Academy of Pennsylvania will maintain and report data on the use of restraints as prescribed by the Secretary. The report will be reviewed during cyclical compliance monitoring conducted by the PDE.
- Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student's parent / guardians. Mechanical restraints must prevent a student from injuring himself or others or promote normative body positioning and physical functioning.

The following aversive techniques of handling behavior are considered inappropriate and will not be used by Virtual Prep Academy of Pennsylvania in educational programs:

- Corporal punishment.
- Punishment for a manifestation of a student's disability.
- Locked rooms, structures or spaces from which the student cannot readily exit.
- Noxious substances.
- Deprivation of basic human rights, such as withholding meals, water or fresh air.
- Suspensions constituting a pattern.
- Treatment of a demeaning nature.

Virtual Prep Academy of Pennsylvania will have the primary responsibility for ensuring that behavior support programs are in accordance with this chapter, including the training of personnel for the use of specific procedures, methods and techniques, and for having a written policy and procedures on the use of behavior support techniques and obtaining parent / guardian consent prior to the use of restrictive or intrusive procedures or restraints.

Virtual Prep Academy of Pennsylvania may convene a review, including the use of human rights committees, to oversee the use of restrictive or intrusive procedures or restraints.

Subsequent to a referral to law enforcement, for a student with a disability who has a positive behavior support plan, an updated functional behavior assessment and positive behavior support plan will be required.

PROCEDURAL SAFEGUARDS

§ 711.61. Suspension and Expulsion

Discipline Procedures for Students with Disabilities (Suspension and Expulsion)

Reflected in the Virtual Prep Academy of Pennsylvania handbook is careful protection of the rights of disabled students through the fair application of due process. Given the nature of the cyber school and limited face to face contacts with students, suspensions and expulsions are extremely rare.

Virtual Prep Academy of Pennsylvania staff may order the removal of a student from school for disciplinary reasons to the extent the removal is applied to non-disabled students, as long as the removals do not constitute a change of placement. A change in placement occurs if the student is removed from school for disciplinary reasons for more than ten consecutive school days or if the student is subjected to a series of removals (15 cumulative school days in a school year) that constitute a pattern of removal.

If a student with a disability is removed from his/her current placement for more than ten days during a school year, the school staff will provide services to the student to the extent necessary for the student to appropriately progress in the general curriculum and appropriately Virtual Prep Academy of Pennsylvania toward achieving the goals in his/her IEP. School staff may order a change of placement to an appropriate alternative setting for no more than 45 days. The extent of the student's removal for disciplinary reasons is applied to non-disabled students if a student carries a weapon to a school function, knowingly possesses or uses illegal drugs, sells or solicits the sale of a controlled substance, or causes serious bodily injury to another person while at a school function. The interim alternative setting must enable the student to continue to progress in the general curriculum and to receive those services and modifications to enable the student to progress on the goals set out in his/her IEP.

If the school staff is considering a disciplinary action that involves changing a student's placement, a manifestation determination must be completed within ten school days of any decision to change the placement of the child with a disability. The parent / guardian and relevant members of the child's IEP team must review all relevant information, including the IEP, teacher observations, information provided by the parent / guardian to determine if the behavior in question was a result of or had a direct substantial relationship to the child's disability or failure to implement the IEP. If the result of the IEP team is that the behavior was not a manifestation of the student's disability, the relevant disciplinary procedures applicable to students with disabilities may be applied to the student in the same manner in which they would be applied to students without disabilities. However, Virtual Prep Academy of Pennsylvania will provide services to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately Virtual Prep Academy of Pennsylvania toward achieving the goals set out in his/her IEP.

After changing a student's placement for disciplinary reasons, school staff will issue a permission to re-evaluate to gain parent permission to conduct a functional behavioral assessment (FBA). Once the FBA is completed, a re-evaluation report and IEP will be developed to include any new information found within the FBA.

Virtual Prep Academy of Pennsylvania will comply with Chapter 12 (relating to students) and 34 CFR 300.530—300.537, regarding discipline procedures. Any removal from the current educational placement is a change of placement for a student who is identified with an intellectual disability. When a child with a disability has been expelled from Virtual Prep

Academy of Pennsylvania, the school will provide the child with a disability with the education required under § 12.6(e) until Virtual Prep Academy of Pennsylvania is notified in writing that the child is enrolled in another public agency, private school, approved private school or private agency. Notwithstanding the requirements incorporated by reference in 34 CFR 300.530(b) and 300.536 (relating to authority of school personnel; and change of placement because of disciplinary removals), a disciplinary exclusion of a student with a disability for more than 15 cumulative school days in a school year will be considered a pattern so as to be deemed a change in educational placement.

§ 711.62. Procedural Safeguards

Procedural Safeguards Notice

Parent / guardians of children who receive or who may be eligible for special education services have rights under the IDEA. The Procedural Safeguards Notice provides a detailed explanation of those rights. Virtual Prep Academy of Pennsylvania will give parent / guardians a copy of the Procedural Safeguards Notice and the explanatory Procedural Safeguards Letter at least once each school year. Parent / guardians can also obtain a copy of the Procedural Safeguards Notice from Virtual Prep Academy of Pennsylvania at any time. An additional document is available to help parent / guardians to better understand the Notice document, *The Parent / guardians' Rights: Understanding the Procedural Safeguards Notice* provides a summary of those rights. Parent / guardians will also receive the Parent / guardians' Rights documents upon initial referral or upon the parent / guardian's request for an evaluation and in accordance with discipline procedures when a change in placement occurs.

Virtual Prep Academy of Pennsylvania will ensure that procedures are established and implemented to allow parties to disputes regarding any matter described in 34 CFR 300.503(a)(1) (relating to prior notice by the public agency, content of notice), to resolve the dispute through a mediation process that, at a minimum, must be available whenever a hearing is requested under 34 CFR 300.507 (relating to filing a due process complaint) or 34 CFR 300.530—300.537, regarding discipline procedures. The following apply to coordination services for special education and Section 504 hearings and to hearing officers: The Secretary may contract for coordination services in support of hearings conducted by Virtual Prep Academy of Pennsylvania. The coordination services will be provided on behalf of charter schools or cyber charter schools and may include arrangements for stenographic services, arrangements for hearing officer services, scheduling of hearings and other functions in support of procedural consistency and the rights of the parties to hearings.

- A hearing officer may not be an employee or agent of Virtual Prep Academy of Pennsylvania which is responsible for the education of the student, or of the school district in which the parent / guardians or student reside or of any other agency which is responsible for the education or care of the student. A hearing officer will promptly inform the parties of a personal or professional relationship the officer has or has had with any of the parties.
- Virtual Prep Academy of Pennsylvania may request a hearing to proceed with an initial evaluation or a reevaluation when a parent / guardian fails to respond to Virtual Prep Academy of Pennsylvania's evaluation or reevaluation. When a parent / guardian rejects Virtual Prep Academy of Pennsylvania's proposed identification of a child, proposed evaluation, proposed provision of a FAPE or proposed

educational placement, other than the initial placement, Virtual Prep Academy of Pennsylvania may request an impartial due process hearing. If the parent / guardian fails to respond or refuses to consent to the initial provision of special education services, neither due process nor mediation may be used to obtain agreement or a ruling that the services may be provided.

The following timeline applies to due process hearings:

- A hearing will be held after the conclusion of the resolution session under 34 CFR 300.510 (relating to resolution process) or after one of the parties withdraws from mediation or the parties agree to waive or end the resolution session.
- The hearing officer's decision will be issued within 45 days after the resolution or mediation session ends without resolution or agreement date.

Except as provided by 34 CFR 300.533 (relating to placement during appeals), during the pendency of any mediation proceeding conducted in accordance with 34 CFR 300.506 (relating to mediation), unless Virtual Prep Academy of Pennsylvania and the parent / guardians of the child agree otherwise, the child that is the subject of the mediation will remain in the child's then current education placement until the mediation process is concluded.

The resolution session required by 34 CFR 300.510 will be available to parent / guardians of both school age and eligible young children with disabilities. Parent / guardian advocates may attend the sessions.

APPENDIX C

Acceptable Use Policy

TECHNOLOGY & INTERNET ACCEPTABLE USAGE POLICY

Virtual Preparatory Academy of Pennsylvania Cyber Charter School requires that all families use high speed internet access to attend the program.

INTRODUCTION

The use of technology is a privilege and an important part of Virtual Preparatory Academy of Pennsylvania Cyber Charter School's overall curriculum. Virtual Preparatory Academy of Pennsylvania Cyber Charter School does not warrant that technology resources will meet any specific requirements that the Student, or other users, may have or that it will be error free or uninterrupted. Virtual Preparatory Academy of Pennsylvania Cyber Charter School will, from time to time, make determinations on whether specific uses of technology are consistent with Virtual Preparatory Academy of Pennsylvania Cyber Charter School policies for students and employees of the School. Virtual Preparatory Academy of Pennsylvania Cyber Charter School always reserves the right to monitor and log technology use, to monitor cloud storage utilization by users and examine specific network usage (as may be deemed necessary) for maintenance, safety or security of the technology resources or the safety of the user. It is the policy of Virtual Preparatory Academy of Pennsylvania Cyber Charter School to:

- Prevent users from accessing or transmitting access over its computer network to, or transmission of, inappropriate material via internet, electronic mail, or other forms of direct electronic communications over its (Virtual Preparatory Academy of Pennsylvania Cyber Charter School's) computer network;
- Prevent unauthorized access and other unlawful online activity and damage to school resources;
- Prevent unauthorized online disclosure, use or dissemination of personal identification information of minors; and
- Comply with the Children's Internet Protection Act [Publ. L. No. 106-554 and 47 USC 254(h)].

ACCESS TO INAPPROPRIATE MATERIAL

To the extent practicable, technology protection measures are used to block or filter internet access to, or other forms of electronic communications containing, inappropriate information. Filtering and maintenance, or blocking, is applied to visual depictions of material deemed obscene, child pornography, or to any material deemed harmful to minors, as defined by the Children's Internet Protection Act (CIPA). The filter serves to block minors from accessing inappropriate matter on the internet and the worldwide web.

The installation of technology protection measures at the time of computer installation is mandatory and the internet filter will be set at a level determined by the School. Thereafter, it will be the parent educator's responsibility to monitor computer usage for compliance with Virtual Preparatory Academy of Pennsylvania Cyber Charter School's policies and the Children's Internet Protection Act. The technology protection measures

may be disabled only for bona fide research or other lawful purposes. Additionally, it shall be the responsibility of all members of Virtual Preparatory Academy of Pennsylvania Cyber Charter School staff to supervise and monitor usage of the online computer network and access to the internet and ensure that the same is in accordance with this policy, including any e-mails, chat room discussions, electronic communications, and webcam usage.

By using the filter program, as well as staff monitoring student use, Virtual Preparatory Academy of Pennsylvania Cyber Charter School is attempting to provide a safe and secure medium by which students can use the internet, world wide web, electronic mail, chat rooms and other forms of direct electronic communications. To the extent practicable, steps are taken to promote the safety and security of users of the Virtual Preparatory Academy of Pennsylvania Cyber Charter School private network. Other inappropriate network usage Virtual Preparatory Academy of Pennsylvania Cyber Charter School intends to eliminate includes:

- Unauthorized access, including so-called 'hacking', and other unlawful activities; and
- Unauthorized disclosure, use and dissemination of personal identification information regarding minors.

By signing the Parent/Student Handbook agreement form, the Parent and Student agree:

- To abide by all Virtual Preparatory Academy of Pennsylvania Cyber Charter School policies relating to the use of technology;
- To release all Virtual Preparatory Academy of Pennsylvania Cyber Charter School employees from any and all claims of any nature arising from the use or inability to use the technology;
- That the use of technology is a privilege; and
- That use of the technology will be monitored and there is no expectation of privacy whatsoever in any use of the technology.

The Parent/student further agrees and understands that the user may have his/her privileges revoked or other disciplinary actions taken against them for actions and/or misuse such as, but not limited to, the following:

- Altering system technology, including but not limited to, software or hardware;
- Placing unauthorized information, computer viruses or harmful programs on or through the computer system in either public or private files or messages;
- Obtaining, viewing, downloading, transmitting, disseminating or otherwise gaining access to or disclosing materials Virtual Preparatory Academy of Pennsylvania Cyber Charter School believes may be unlawful, obscene, pornographic, abusive or otherwise objectionable;

- Using technology resources for commercial, political or other unauthorized purposes since Virtual Preparatory Academy of Pennsylvania Cyber Charter School technology resources are intended only for educational use;
- Intentionally seeking information on, obtaining copies of, or modifying files, other data or passwords belonging to other users;
- Disrupting technology through abuse of the technology including, but not limited to, hardware or software;
- Malicious uses of technology through hate mail, harassment, profanity, vulgar statements or discriminating remarks; Interfering with others' use of technology;
- Installation of software without consent of Virtual Preparatory Academy of Pennsylvania Cyber Charter School;
- Allowing anyone else to use an account other than the account holder;
- Sending unsolicited mail messages, including the sending of "junk mail" or other advertising material to individuals who did not specifically request such material ("email spam");
- Creating or forwarding "chain letters" or other "pyramid schemes" of any type, whether or not the recipient wishes to receive such mailings;
- Malicious e-mail including, but not limited to, "mail bombing" (flooding a user or site with very large or numerous pieces of email);
- Unauthorized use, or forging, of mail header information;
- Using an Virtual Preparatory Academy of Pennsylvania Cyber Charter School or a client account to collect replies to messages sent from another Virtual Preparatory Academy of Pennsylvania Cyber Charter School account; and
- Other unlawful or inappropriate behavior.

The user also acknowledges and agrees that he/she is solely responsible for the use of his/her accounts, passwords and/or access privileges, and that misuse of such may result in appropriate disciplinary actions (including but not limited to suspension or expulsion), loss of access privileges, and/or appropriate legal action. The user must also know and further agrees that:

- Should the user transfer a file, shareware or software that infects the technology resources with a virus and causes damage, the user will be liable for any and all repair costs;
- The user will be liable to pay the cost or fee of any file, shareware or software transferred or downloaded, whether intentional or accidental;
- Should the user intentionally destroy information or equipment that causes damage to technology resources the user(s) will be liable for any and all costs; and
- Violation of this internet safety policy is also a violation of the Virtual Preparatory Academy of Pennsylvania Cyber Charter School Code of Conduct and may result in any other scholastic disciplinary action, other than those specifically set forth above, including but not limited to suspension or expulsion.

SPECIFIC TERMS AND CONDITIONS FOR USING CHAT ROOMS, WEBCAMS AND EMAIL

Virtual Preparatory Academy of Pennsylvania Cyber Charter School offers a chat room, webcam, discussion boards and email to provide Virtual Preparatory Academy of Pennsylvania Cyber Charter School Parents and students a forum in which to share ideas and exchange views regarding Virtual Preparatory Academy of Pennsylvania Cyber Charter School with other Parents, students, teachers and Administrators. To protect all chat room and e-mail participants, all chat room sessions and network e-mails are monitored and recorded. Virtual Preparatory Academy of Pennsylvania Cyber Charter School does not discourage criticism or healthy disagreements; however, Virtual Preparatory Academy of Pennsylvania Cyber Charter School does expect each chat room and e-mail participant to act civilly throughout such conversations and will not tolerate vulgarity, name-calling or attacks upon other chat room participants in any way.

If, for any reason, Virtual Preparatory Academy of Pennsylvania Cyber Charter School does not believe that a Student/Parent or Guardian is acting in a manner that will enhance or support the mission of the School, it reserves the right to remove that person from the network (except for access to his/her master teacher and course materials) in accordance with the penalty provisions provided below. Specifically, the School's in-home computers and internet connection should **not** be used for any of the following purposes and acting appropriately **does not** include:

- Making statements that are sexually explicit or grossly offensive, including blatant expression of bigotry, racism, hatred or profanity.
- Indulging in: abusive, defamatory or harassing behavior; insults or personal attacks; threats of harm to anyone; promoting physical harm or injury to any group or individual.
- Promoting or providing information about illegal activities.
- Indulging in activities that infringe upon anyone else's copyright(s). Specifically, he/she cannot advocate illegal conduct or participate in illegal or fraudulent schemes.
- Using chat rooms to distribute unauthorized copies of copyrighted materials, including photographs, work, text, recordings, designs or computer programs;
- Impersonating someone else or falsely representing oneself;
- Attempting to post or use computer programs that contain destructive features including, but not limited to: viruses, worms, trojan horses, bot scripts, etc.;
- Posting or transmitting unauthorized or unsolicited advertising, promotional materials or any other forms of solicitation of other users; and
- Any other chat room behavior which, at the sole discretion of the Administrator, does not support the mission of the School.

While this is not a complete listing of every behavior that may be inappropriate, it gives some guidance regarding the types of actions and communications that are prohibited.

INAPPROPRIATE TECHNOLOGY USE PENALTY SYSTEM

Violation of Virtual Preparatory Academy of Pennsylvania Cyber Charter School's chat room or webcam Policy may result in a warning or permanent ban from the chat room, depending on the severity of the infraction. The length of any temporary ban shall be at the sole discretion of the Administrator. Inappropriate use of the webcam will result in the loss of the webcam.

STUDENT MISUSE

In addition to the penalties above, students who violate any Policy may be suspended or expelled in accordance with Virtual Preparatory Academy of Pennsylvania Cyber Charter School's Code of Conduct.

Dear Secretary Rivera,

I am writing to express my support for The Virtual Preparatory Academy of Pennsylvania's proposal to open its doors. The mission of the Virtual Preparatory Academy of Pennsylvania is to "...provide K-12 Students with an innovative college preparatory cyber school grounded in strong academics, character education, and service learning".

I whole heartedly believe that, with the approval of their proposal, The Virtual Preparatory Academy of Pennsylvania will provide PA children with an education that will surpass the standards of excellence in PA and serve to properly prepare their students for secondary education and life beyond high school.

I greatly appreciate your consideration of The Virtual Preparatory Academy of Pennsylvania's proposal. If you have any questions, please contact my District Director Paul D'Alesandro in my Pittsburgh Office at (412) 390-1499.

Sincerely,

A handwritten signature in blue ink that reads "Mike Doyle".

September 26, 2019

Pedro A. Rivera
Pennsylvania Secretary of Education

Dear Secretary Rivera,

My name is Dr. John Maris, a childhood cancer doctor and scientist at the Children's Hospital of Philadelphia. I work with children that need educational options because they are simply unable to attend their local brick and mortar school either because of a weakened immune system or due to other limitations imparted by their cancer journeys. These children deserve to learn and interact with other children their age.

I recently met with a representative from the Virtual Preparatory Academy of Pennsylvania and personally know one of the Founding Board Members, Patrick Scott (his little sister Alex Scott, the founder of Alex's Lemonade Stand Foundation, was a patient of mine). I am excited about the school's commitment to offer college preparatory offerings while engaging students in purposeful service learning projects throughout the years.

I would personally strongly support the Virtual Preparatory Academy of Pennsylvania because I think the mission and vision align with what we need across the state in today's youth.

Sincerely,

John Maris, MD
Giulio D'Angio Endowed Professor of Pediatrics
Children's Hospital of Philadelphia

September 27, 2019

To Whom It May Concern:

Virtual Preparatory Academy of Pennsylvania is an innovative college preparatory cyber school grounded in strong academics, charter education and service learning. Service-learning is a teaching and learning strategy that integrates meaningful community service instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities.

I met recently with a representative from Virtual Preparatory Academy of Pennsylvania about an application they are submitting to the Pennsylvania Department of Education for a new cyber charter that will offer a unique learning experience both academically and civically. At MANNA we pride ourselves on our inclusive volunteer opportunities. Our successful partnerships with other cyber schools will allow for a fruitful relationship with Virtual Preparatory Academy of Pennsylvania.

As such, we support Virtual Preparatory Academy of Pennsylvania's application and look forward to partnering with the school to develop meaningful service-learning projects for their students.

If Virtual Preparatory Academy of Pennsylvania is approved by the Pennsylvania State Board of Education, we look forward to collaborating to formalize our partnership prior to opening.

Sincerely,

JodyAnn McIntosh, MPH, CVA
Senior Manager of Community Engagement

Secretary Rivera
Pennsylvania Dept. of Education
333 Market Street
Harrisburg, Pa 17126

9/27/19

Secretary Rivera:

I recently spoke with a representative from the Virtual Preparatory Academy of Pennsylvania. I am thrilled that this school will provide a virtual learning environment offering college preparatory curriculum, character education, and include service-learning projects at all grade levels . I believe this combination is very needed with all that is going on in today's world.

I found it very interesting that cyber schools have been around since 2001 in Pennsylvania, yet the population of students using this type of school is relatively small. The mission and vision of this school are aligned to supporting students and allowing them to find their own passions. I feel there is an opportunity for students to learn and grow within this environment. They would not be subjected to bullying and school violence. I think that students may be more inclined to share their ideas and concerns in an online setting.

I believe every parent should make the choice for their own child. I truly hope you will support this application so that Philadelphia (and all Pennsylvania) students can learn in a safe, challenging environment.

I hope this application becomes a reality.

Sincerely,

A handwritten signature in cursive script that reads "Moira Kelly". The signature is written in black ink and is positioned below the word "Sincerely,".

Steve & Rachel Shetterly, Owners ~ 717.692.0390

Secretary Rivera

Pennsylvania Department of Education

333 Market Street

Harrisburg, PA 17126

Dear Secretary Rivera,

My name is Rachel Shetterly, and I am a business owner in the state of Pennsylvania. We are also a family who utilized the options in education for our children that the State of Pennsylvania makes available to dedicated families. Our four children successfully completed their elementary and part of their secondary years of education in 2 of the cyber charter schools offered. High School was completed in the traditional home school education option. Our children have excelled in their places of higher education and job fields. Our eldest child received her Master of Arts in Mental Health Counseling this year from a Seminary in Kentucky. Our second child is a teacher in a Navajo school in New Mexico. Our third child graduated with honors from a technical school and utilizes his education in Washington state. Our fourth child is setting his own records as a Business major at a University in PA. Their life experiences, compared to their traditionally schooled peers, are highly diverse.

It was my privilege recently to be in communication with a representative of the Virtual Preparatory Academy of Pennsylvania. It is important to support a school which will focus on college preparatory classes while providing a hands on education. Our traditional school settings would do well to get back to the basics of hands on education, bucking the system which dictates teaching to tests and which ties the "success" of a child's education to a flat standard. Children are created individuals; their education also ought to be created individually. I believe this school will take a look at the whole scope of the child and be able to tailor an education which will allow the child to excel.

I encourage you to support the creation and launch of the Virtual Preparatory Academy of Pennsylvania.

Sincerely,

Rachel Shetterly

Secretary Rivera
Pennsylvania Dept. of Education

9/26/19

Secretary Rivera:

I recently spoke with a representative from the Virtual Preparatory Academy of Pennsylvania. I have learned that this school will provide a virtual learning environment offering college preparatory curriculum and will also include service learning projects.

My name is Susan Dioguardi. I have 2 children who have completed their K-12 education in Pennsylvania. Both of my children had service commitments that continued beyond their graduation. They were very fortunate to attend Mt. Lebanon Schools where service commitments are an expectation of both the school and the community. I believe that incorporating the service commitment into the Virtual Preparatory Academy of Pennsylvania's education plan will make the program and its graduates stand out as examples of well-rounded individuals with character and integrity. Combining a great education with focus on service learning is essential to success of these students.

Virtual learning is an option my children did not have. It is a very necessary option in today's world.

I hope you too will support this program.

Susan Dioguardi

[REDACTED]

[REDACTED]

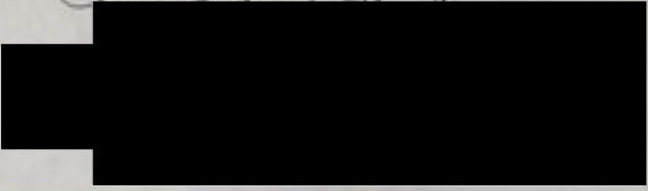

Dear Secretary Rivers

I have had the opportunity to meet with and hear from a representative from the Virtual Preparatory Academy of Pennsylvania. I feel it is important to offer the college-prep to students and believe everyone can benefit by them engaging in service learning projects as it truly will be needed in their futures.

My name is Patrick Bowry. I did not go to college and only wish that something like this was available to me while I attended school.

I feel the year long service projects will enhance the character and integrity of students. As a life long resident in the City of Pittsburgh, parent of a child who attended Public Schools, our youth needs this opportunity. I strongly support the application of Virtual Preparatory of Pennsylvania.

Patrick Bowry

Secretary Rivera
Pennsylvania Department of Education
333 Market street
Harrisburg, PA17126

Secretary Rivera,
I am the owner operator of a small HVAC contracting company for 37+years and lifelong resident of Pittsburgh Pennsylvania.

I am writing today to inform you that I would support the virtual preparatory Academy Of Pennsylvania, I truly feel that after discussing with their representative the goals and the mission and their visions for the future of education are absolutely critically important within any youth's educational development.

I have been informed that the school will focus on character education, honesty and integrity and service learning. These are certainly some examples of fine character traits that are learned by example and review and without question incredibly important to Pennsylvania Education and I believe our Nation's Future.

Our daughter is currently a second grade teacher Educated in Pennsylvania, Along with several of my customers that are teachers and administrators within various school systems throughout Pittsburgh.

They have often shared various stories with their experiences of children coming to the system with a lack of knowledge and understanding of these basic and important human good character traits.

It certainly in all cases appeared to make their jobs as educators that much more incredibly difficult than it already is, 1st having to work on basic courtesies.

So I believe a school that focuses on strength of character from the very beginning is essential.

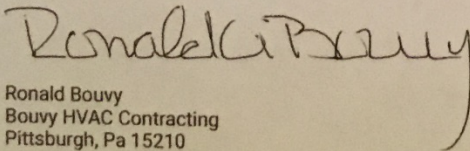

My understanding is that students will learn to create and support local and national nonprofits, and service learning. What a wonderful concept to teach to all. Understanding that was the mindset of our previous generations that helped to create and build this wonderful country.

As a business Owner for many years, in reviewing future employees for hire. I look for strength in character and personal integrity first. I've always said that everything else related to my Industry and Business can be taught.

I personally know several individuals who would have greatly benefited from this type of learning environment as well as family members.

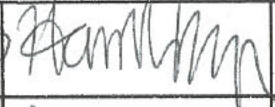

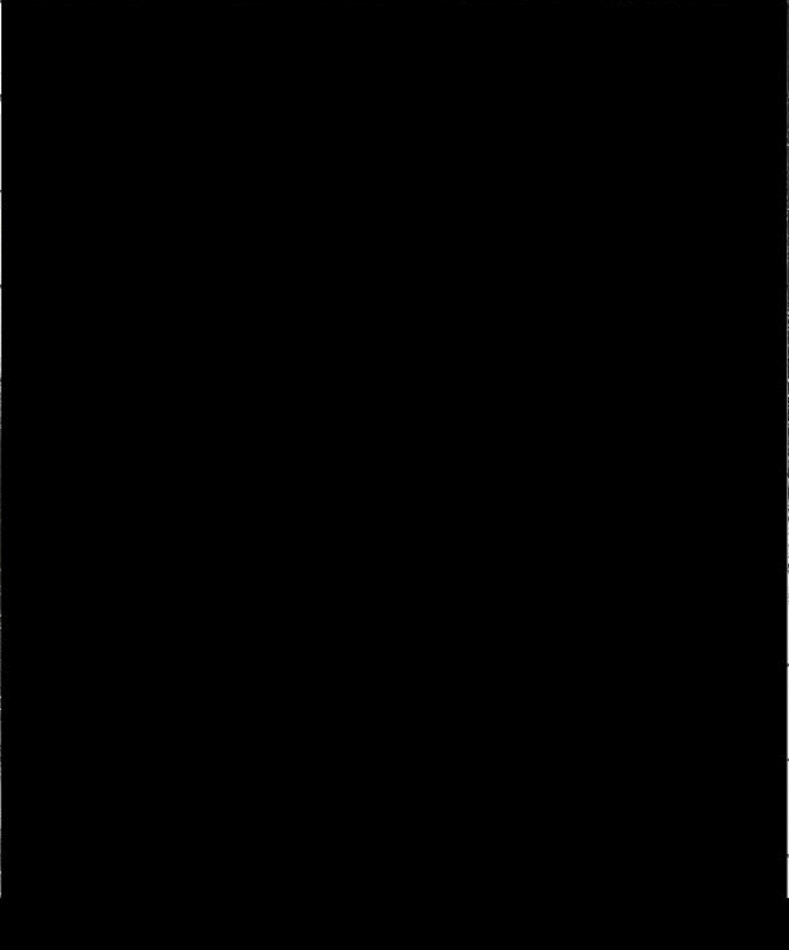

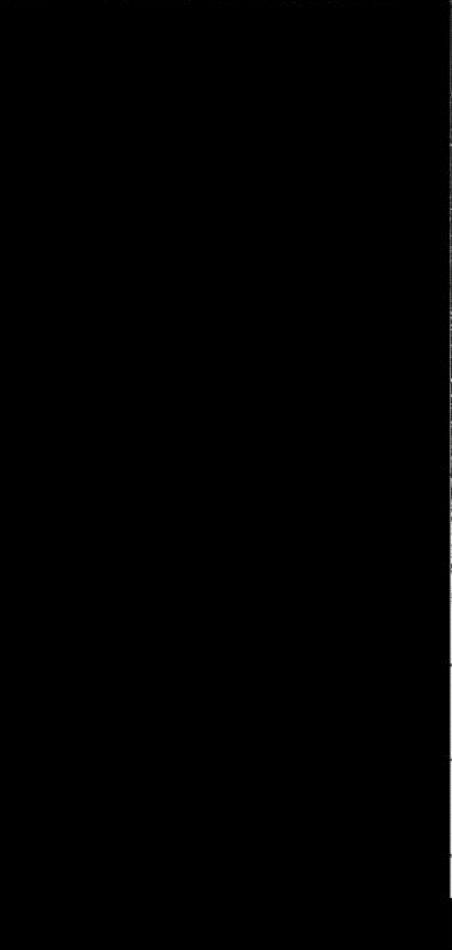

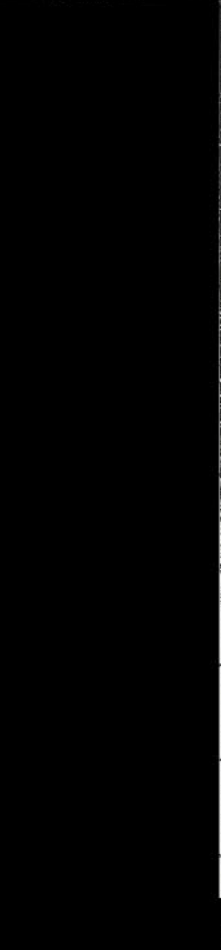

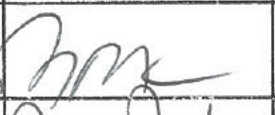

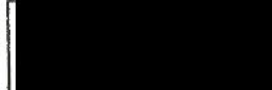

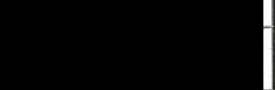

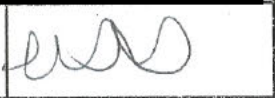

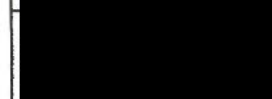

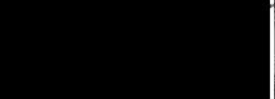

I do believe that this type of school will take into account the entire child's needs while providing them with great education.

Thank you,

Ronald Bouvy

Appendix L- Sample Letter to Superintendents

September 20, 2020

Superintendent of Schools
School District Name
Street Address
City, PA, Zip Code

Re: Virtual Preparatory Academy of Pennsylvania Cyber Charter School

Dear Sir/Madam,

I am writing to inform you that the Board of Trustees of Virtual Preparatory Academy of Pennsylvania Cyber Charter School will be resubmitting a cyber charter school application to the Pennsylvania Department of Education. This statewide cyber school plans to open in the fall of 2021.

Virtual Preparatory Academy of Pennsylvania Cyber Charter School will offer flexible pacing for students, deliver personalized learning plans, rigorous curriculum, and state certified highly qualified teachers. In addition to the core curriculum, the school will provide opportunities for all students in the school to participate in service learning experiences, opportunities and activities.

If approved, and students from your district enroll in Virtual Preparatory Academy of Pennsylvania Cyber Charter School, we look forward to working with you to ensure they have a seamless transition, and that they receive all the necessary services to make their educational experience a successful one. Please feel free to contact me if you have any questions. We look forward to working with you to ensure students are given every opportunity to succeed.

Regards,

Richard Flynn, Board Chair
Virtual Preparatory Academy of Pennsylvania Cyber Charter School
[REDACTED]

APPENDIX F

Resumes of Board of Trustees

RICHARD FLYNN

SENIOR THOUGHT LEADER | P&L & STRATEGIC MANAGEMENT

<https://www.linkedin.com/in/reflynn/>

PROFESSIONAL PROFILE

Leadership

Leader who provides a communicative environment of the corporate vision/mission, including direct staff and project-based globally. I am continually recognized as an intellectually curious leader that thrives in an immersive and respectful environment and provides support and engagement for staff, customers, and community. This enables me to discover new markets and opportunities while ensuring improvement and preservation of existing end-user needs

- Have led teams from start-up through large international environments.

Industry experience

- Consumer Products
- Consumer Electronics
- Retail
- Education (Online/Virtual)
- Insurance
- Financial
- Manufacturing
- Media & Entertainment
- Private Equity
- Technology Industries

Rick Saccone Ph.D.

Dr. Rick Saccone spent a career in the USAF as a Counterintelligence Officer and Special Agent, conducting felony criminal, fraud and counterintelligence investigations and operations worldwide.

Dr. Saccone spent most of his career assigned overseas, home based in South Korea but traveling throughout Asia. During a return assignment to Los Angeles Air Force Station, he worked with an anti-terrorist task force for the 1984 Olympics in LA. Following that he moved to Monterey and graduated from the Naval Postgraduate School with a M.A. in National Security Affairs and from the Defense Language Institute, studying Korean, before returning to Seoul. Dr. Saccone became the Chief of Counterintelligence for the USAF in Korea and worked on the counter terror task force for the 1988 Olympics in Seoul. He also Commanded a Special Investigative Detachment and, as the chief liaison officer in the national capital, worked closely with ten different foreign government agencies and as many U.S. agencies. He received several awards from the Korean and American governments and two Meritorious Service medals from the USAF. Along the way, he wrote scores of culture and travel articles for a local paper in Seoul and began writing books about the history, travel, and culture of South Korea to share his experiences with others. He appeared on the Korean episode on the Popular PBS show Full Circle with celebrity Michael Palin. He also taught English at several Korean institutes in his spare time.

After retiring from the USAF, Saccone stayed in South Korea to work as a TV news anchor on an English language station, and took several jobs working for Korean and American companies in Seoul and Central America before returning to the U.S. to begin work on his Ph.D. During this period, he was asked to represent an international organization in North Korea building nuclear power plants as part of the Agreed Framework negotiated under the Clinton Administration. As the only American living in North Korea at the time, he gained valuable diplomatic experience working and successfully negotiating with North Koreans, resulting in two books about that enigmatic country, including “Negotiating with North Korea,” and “Living with the Enemy: Inside North Korea.”

Dr. Saccone returned to complete his Ph.D. at the University of Pittsburgh and continue teaching at [St. Vincent College](#) where he had instructed part-time in the past. During that time, the war in Iraq began and Saccone decided to take his turn offering his years of interrogation and counterintelligence experience. Assigned to the U.S. Army as a civilian, he served in Baghdad and in the hotspot of Mosul, as Senior Counterintelligence Agent identifying, capturing and interrogating insurgents.

Since returning from Iraq, Saccone has enjoyed an academic fellowship to Israel as a Fellow for the Foundation for the Defense of Democracy, a Fulbright-Hays summer scholarship to Egypt

studying Islam, history and politics, and, an education and research scholarship to Africa. He has traveled to 75 countries and authored ten books on North and South Korea, with his eighth book on Iraq, and his tenth book entitled "Our Godly Heritage" documents the Godly heritage of our founding and our founding fathers. He was elected to the Pa State House of Representatives in 2010 and is served four terms.

He has written numerous articles concerning international politics and culture. He is a member of the VFW, AMVETS, American Legion, and a life member of the NRA.

Dr Saccone served on the Elizabeth-Forward School District School Board as Vice President. He was named to the Elizabeth-Forward High School Hall of Fame. Dr Saccone has been involved in education most of his adult life.

Dr. Saccone has been married to Yong Saccone for 40 years and has two children, Nick & Matthew, both graduates of the Virginia Military Institute as Civil Engineers. Nick is currently a Major in the USAF, and Matt is a Captain.

EXPERIENCE

Ophthalmology and Retina Associates, Waynesburg, PA — Office Manager/COA, OSA, OSC

MARCH 2016 - PRESENT

Manage office and all staff. Coordinating schedules of patients and employees. Placing orders for supplies. Credentialing with insurance and hospitals, verifying patient benefits, coordinating surgeries, discussing surgeries with patients. Preparing surgical packets for hospitals prior to surgery. Credentialed and established an optical department within the office. Establishing accounts with optical labs and frame vendors. Verifying timesheets and payroll. Training all staff members. Assisting doctor with in-office procedures including surgical and intravitreal injections. Assisting the doctor with surgery in a hospital setting, Proficient with OCT, visual fields, IOL master and refraction.

Pennsylvania Families For Public Cyber Schools, Statewide— *Founder and Executive Director*

JANUARY 2006 - December 2017

Founded a statewide organization to give a voice to parents regarding virtual charter schools. Organized events across the state, including an annual rally at the state Capitol with over 2,500 parents and students in attendance. Worked with brick and mortar charter schools to help defeat legislation that would reduce the funding for charter schools. Met with senators and representatives to educate and discuss the benefits of cyber school education.

Experience

Alex's Lemonade Stand Foundation:

Data & Information Manager (Jul '18-Pres.)

Senior Project Coordinator (Jan '18-Jul '18)

Bala Cynwyd, PA

January 2018-Present

- Manage a team of five, responsible for data entry, data management, direct mail analysis, program application processing and IT
- Reduced average turnaround time on data entry of mail from over two weeks to under one week
- Designed and implemented an electronic system for tracking requested database edits and inquiries
- Recruited over 1,000 people to host peer-to-peer fundraisers using Facebook advertising
- Established and manage an advisory council composed of executives and highly regarded business professionals
- Oversaw customization and implementation of NetSuite, a constituent relationship management and accounting software, across an organization with over 50 full-time employees and \$25M in annual revenue

Kraft Heinz Company:

Finance Manager, Walmart Sales (Apr '17-Jan '18)

Senior Analyst (Dec '16-Apr '17), Analyst (Jun '16-Dec '16)

Chicago, IL & Bentonville, AR

June 2016-January 2018

- Designed and implemented a standardized forecasting and forecast reporting system across multiple sales teams, totaling \$5.9Bn in annual gross revenue
- Streamlined P&L reporting for sales to Walmart, a P&L worth \$4.3Bn in annual net revenue and \$1.9Bn in contribution margin
- Created a succinct scorecard combining key financial, sales, and supply chain metrics, based on Walmart's strategic pillars—used for presentation to both Kraft Heinz and Walmart executives
- Coordinated creation of a budget for expected sales and promotional spend for over 700 product groups; prepared high level budget summaries for presentation to executives, with rigorous backup for all line items
- Performed diverse analyses on pricing, promotion, and product mix
- Conducted ROI analysis of all Kraft Heinz promotions at Walmart

Harvard Student Agencies, Inc.:

President

Cambridge, MA

February 2015-January 2016

- Oversaw a student-run corporation with annual revenues in excess of \$5 Million and over 580 employees
- Led the company to growth in revenue of approximately 10%
- Strategized and executed company-wide initiatives, including an expansion of our businesses' online presence and a push to improve employee satisfaction
- Pursued corporate growth opportunities and new business ventures, including the start of a summer entrepreneurship camp for high schoolers, which netted \$20K in its first year, and the acquisition of a startup in the copywriting industry
- Hired, trained, and managed a team of over 30 student managers
- Managed businesses in a diverse set of industries, including retail, service, publishing, and ad sales
- Reported on the company's finances and operations to a board of directors of alumni, faculty, and students

HSA Cleaners, Manager

October 2013-January 2015

- Managed operations of a laundry and dry cleaning service, grossing over \$600K per year and employing over 35 students
- Planned and executed laundry plan and rental sales on move-in day, which increased 40% year-over-year to \$52K
- Implemented an electronic laundry tracking system, improving customer experience and increasing employee efficiency
- Improved customer service through better employee training and higher accountability

VPA of PA Budget review and finance roles - presented and **approved** by a quorum of the Board (Richard, Greg, Patrick, Rick)

Assignments

Change - Pat/Richard - **Accel Service Agreement**.

Note that we have approved the agreement in the past but there will be minor changes
Due to the time constraints of getting this to Accel, I have changed this task - A draft with changes (Pat/Richard) will be sent to Patrick, Rick, Jenny, and Greg for review. Once sent please review. If anyone has questions/concerns we will set a meeting with an expedited deadline of approving and executing prior to our June 26th Board Meeting.

501.C3 EIN - Pat will provide documentation that we applied for our application.

Facility - Pat will provide documentation for our application

Susan is coordinating updated submission including a revised ELL handbook, Letters of Support among others.

Close - next Board meeting June 26, 2020 10am

APPENDIX J

Board of Trustees By-laws

BYLAWS
OF
VIRTUAL PREPARATORY ACADEMY OF PENNSYLVANIA CYBER CHARTER SCHOOL

Article 1

CORPORATION OFFICE

Section 1.1 The Corporation shall have and continuously maintain in the Commonwealth of Pennsylvania a registered office at an address to be designated from time to time by the Board of Trustees which may, but need not, be the same as its place of business.

Section 1.2 The Corporation may also have offices at such other places as the Board of Trustees may from time to time designate or the business of the Corporation may require, but at all times after it has received a cyber charter school charter shall maintain at least one administrative office in the Commonwealth of Pennsylvania.

Article 2

MEMBERS

Section 2.1 The Corporation shall have no members.

Article 3

MISSION AND PURPOSE

Section 3.1 The Corporation's mission is to provide K-12 students with an innovative college preparatory education by utilizing outstanding teachers, world-class technology, and a rigorous online and offline curriculum where students can learn outside the traditional classroom. The school operated by the Corporation will maintain a commitment of high expectations and accountability for all involved- administrators, teachers, students, and parents with the result being positive student outcomes.

Section 3.2 Virtual Preparatory Academy of Pennsylvania Cyber Charter School

is a nonprofit corporation established under the laws of the Commonwealth of Pennsylvania and is subject to the provisions of applicable state and federal statutes, applicable state and federal regulations including, but not limited to, the Charter School Law, as amended, and the applicable provisions of the Public School Code, and the Pennsylvania Department of Education Regulations. In any circumstance in which the provisions of these Bylaws shall conflict with any provision of the Public School Code, the applicable provision of the Public School Code shall control.

Article 4

TRUSTEES

Section 4.1 The Board of Trustees shall consist of Trustees entitled to vote and elected by the Board of Trustees. The Board shall consist of not fewer than five (5) nor more than nine (9) members as determined by the Board from time to time.

Section 4.2 Each Trustee shall be a natural person of the age 18 years or older, and shall qualify to serve as a Trustee of the Corporation under applicable law.

Section 4.3 Trustees shall be elected at any duly organized meeting of the Board of Trustees by a majority of the Trustees then in office. Trustees shall take office immediately following the annual or other meeting of this Corporation at which they are elected. At least three Trustees shall be chosen from and shall represent one of the following constituencies:

(a) At least one (1) Trustee shall be the parent of one or more student(s) who is or has enrolled a student in a Pennsylvania cyber charter school, preferably a parent who has a student enrolled in the Corporation's educational program.

(b) At least one (1) Trustee shall be a representative of a non-profit organization located in the Commonwealth of Pennsylvania, as determined in the discretion of the Board of Trustees.

(c) At least one (1) Trustee shall be currently employed as either teachers,

college instructors or individuals who have served in those capacities **or** who otherwise have expertise in education, as determined in the discretion of the Board of Trustees.

Section 4.4 Trustees shall be classified with respect to the time for which they shall hold office by dividing them into three (3) classes, each class to consist of, as nearly as possible, an equal number of Trustees. The Trustees of the first class shall hold office for an initial term of one (1) year, and the Trustees of the second class for an initial term of two (2) years, and the Trustees of the third class for an initial term of three (3) years. At the close of each annual meeting of this Corporation, the successors to the class of Trustees whose terms expire that year shall commence to hold office for a term of three (3) years, or until their successors have been elected and qualified. In the event of an increase in the number of Trustees, the remaining Trustees shall assign the newly created Trusteeship(s) to the appropriate class or classes so that the three (3) classes shall continue to consist of, as nearly as possible, an equal number of Trustees. There is no limit to the number of terms a Trustee can serve on the Board.

4.5. Bonding of Officers and Employees. The Treasurer and the Secretary of the Charter School shall furnish a bond in such amount and with such surety as may be required, from time to time, by the Board. At the direction of the Board, any other officer or employee shall furnish a bond in such amount and with such surety as may be required by the Board. The expense of furnishing any such bond shall be paid by the Charter School.

Article 5

FAILURE TO ORGANIZE AND REMOVAL OF TRUSTEES

Section 5.1 Any individual Trustee may be removed from office with or without assigning any cause by a three-fifths vote of the members of the Board of Trustees. If any Trustees are so removed, new Trustees may be elected at the same meeting.

Section 5.2 The Board of Trustees may declare vacant the office of a Trustee who has been judicially declared of unsound mind, or if within sixty (60) days after notice of his election, the Trustee does not accept such office either in writing or by attending a meeting of the

Board of Trustees, and fulfill such other requirements of qualification as these Bylaws may specify.

Section 5.3 A member of the Board of Trustees who is convicted of a felony or any crime involving moral turpitude shall be immediately disqualified from serving on the Board of Trustees.

Section 5.4 If a member of the Board of Trustees fails to perform his or her duties under these Bylaws or under the Pennsylvania Charter School Law, including by reason of failing to regularly attend Board meetings or otherwise, the President shall at the next regularly scheduled meeting of the Board bring before it a proposed resolution for the removal of such member.

Article 6

VACANCIES ON BOARD OF TRUSTEES

Section 6.1 Vacancies on the Board of Trustees, including vacancies resulting from an increase in the number of Trustees, shall be filled by a majority vote of the remaining members of the Board of Trustees, or by a sole remaining Trustee, and each person so elected shall be a Trustee to serve for the balance of the unexpired term.

Section 6.2 When one or more Trustees resign from the Board of Trustees effective at a future date, the Trustees then in office, including those who have so resigned, shall have the power by a majority vote to fill the vacancies, the vote thereon to take effect when the resignations become effective. A Trustee may rescind his or her resignation, in writing, at any time prior to a vote of the Board to declare that a vacancy exists by reason of that Trustee's resignation.

Article 7

POWERS OF BOARD

7.1 The business and affairs of the Corporation shall be managed by the Board of Trustees. The Board has ultimate responsibility to determine general, academic, financial,

personnel and related policies deemed necessary for the administration and development of the Charter School in accordance with its stated purposes and goals. The Board of Trustees may exercise all such powers of the Corporation and do all such lawful acts and things as are permitted, directed or required to be exercised and done by statute, including the Pennsylvania Charter School Law, the Articles of Incorporation or these Bylaws. The Board of Trustees has the full power and authority to decide matters related to the operation of the school, including, but not limited to, budgeting, curriculum, operating procedures and determining general, academic, financial, personnel and other policies, subject to the school's cyber charter school charter and applicable law. More specifically, the Board's authority shall be, without limitation:

(a) to approve policies and procedures regarding employment, including but not limited, to appointment, promotion, contracts, leaves of absence, fringe benefits, qualifications of professional and nonprofessional staff, professional development and dismissal of employees;

(b) to adopt the curriculum or courses of study and textbooks;

(c) to authorize the acquisition, management and disposition of all property and physical facilities, having due respect for the corporate purpose, including the construction renovation and upkeep of the physical plant. As prescribed by the Charter School Law, the Board and contractors shall be restricted and subject to certain statutory requirements governing construction projects as set forth in Section 1715-A(10) of the governing construction projects as set forth in Section 1715-A(10) of the Public School Code of 1949, as amended 24 P.S. 17-1715-A;

(d) to approve institutional documents and policy statements at the Board's discretion to assure compliance with the Articles of Incorporation, Bylaws, Charter, and Board Policy;

to sue and be sued, complain and defend and participate as a party or otherwise, but only to the same extent and upon the same condition that political subdivisions and local agencies can be sued;

(f) to make contracts and leases for the procurement of services, equipment, and supplies;

(g) to incur temporary debts in anticipation of the receipt of funds;

(h) to solicit and accept any gifts or grants for Charter School purposes;

(i) to establish the annual academic calendar;

(j) to adopt and approve the annual budget and to make revisions therein;

- (k) to establish enrollment policies and procedures;
- (l) to adopt and approve policies and procedures to assess student achievement;
- (m) to approve or ratify all contracts as determined by the policy on contracting;
- (n) to be final arbiter of all disciplinary matters;
- (o) to authorize any annual audit by an independent certified public accountant;
- (p) to fix the salary or other compensation of the Administrators, Principals, teachers, and other employees of the Charter School;
- (q) to approve all personnel actions;
- (r) to designate depositories of Charter School funds;
- (s) to have and exercise all of the powers and means appropriate to effect the purpose or purposes for which the Charter School is chartered; and
- (t) to have and exercise all other powers enumerated in the Nonprofit Corporation Law or otherwise vested by law in the corporation and not consistent with the Charter School Law.

Section 7.2 The Board of Trustees may, by resolution adopted by a majority of the Trustees in office, establish one or more committees consisting of one or more Trustees as may be deemed appropriate or desirable by the Board of Trustees to serve at the pleasure of the Board. Any committee, to the extent provided in the resolution of the Board of Trustees pursuant to which it was created, shall, subject to any restrictions in applicable law, have and may exercise all of the powers and authority of the Board of Trustees, except that no committee shall have any power or authority as to the following:

- a) The filling of vacancies in the Board of Trustees;
- b) The adoption, amendment or repeal of these Bylaws;
- c) The amendment or repeal of any resolution of the Board of Trustees that by its terms is amendable or repealable only by the Board; and
- d) Action on matters committed by these Bylaws or a resolution of the Board of Trustees exclusively to another committee of the Board of Trustees.

The Board of Trustees may designate one or more Trustees as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of a member of a committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another Trustee to act at the meeting in the place of any such absent or disqualified member.

Section 7.3. Permanent Committees. The Board will form certain committees to oversee the on-going business of the Charter School. These committees may include:

- (a) Nominating Committee. If a Nominating Committee is appointed by the Board of Trustees, the Board of Trustees shall set forth both the time frame for nominations and the manner by which the Nominating Committee shall make nominations.
- (b) Finance and Audit Committee. The Finance and Audit Committee shall prepare and present a proposed financial budget to the Board of Trustees, and prepare and implement a system of internal fiscal controls.
- (c) Personnel Committee. The Personnel Committee shall establish criteria for the performance and evaluation of the faculty and other employees of the school. This committee shall make recommendations to the Board of Trustees regarding salaries, bonuses, and benefits.

Article 8

MEETINGS OF THE BOARD OF TRUSTEES

Section 8.1 The annual meeting of the Board of Trustees shall be held during the month of June. Other meetings of the Board of Trustees shall be held at such times and places within or without the Commonwealth of Pennsylvania as the Board of Trustees may from time to time appoint or as may be designated in the notice of the meeting. One or more Trustees may participate in any meeting of the Board of Trustees, or of any committee thereof, by means

of a conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear one another. Participation in a meeting by such means shall constitute presence in person at the meeting. After such time as the Corporation receives a charter to operate a cyber charter school, and for so long as required by law, the Board of Trustees shall comply with act of July 8, 1986 (P.L. 388, No. 84), known as the “Sunshine Act.”

Section 8.2 Special meetings of the Board of Trustees may be called by the President of the Corporation on one (1) day's notice to each Trustee, or upon any subsequent minimum notice requirement enacted into the Sunshine Act subsequent to the adoption of these Bylaws, either by telephone, or if in writing, in accordance with the provisions of Article 21 of these Bylaws. Special meetings shall be called by the President or Secretary in like manner and on like notice upon the written request of a majority of the Trustees in office.

Section 8.3 At all meetings of the Board of Trustees a majority of the Trustees in office, present in person, shall constitute a quorum for the transaction of business, and the acts of a majority of the Trustees present in person at a meeting at which a quorum is present shall be the acts of the Board of Trustees No more than one proxy may be utilized to count toward a quorum at any meeting of the Board.

Section 8.4 A Trustee who is present at a meeting of the Board, or of a committee of the Board, at which action on any corporate matter is taken, shall be presumed to have assented to the action taken unless his or her dissent is entered in the minutes of the meeting or unless the trustee files a written dissent to the action with the Secretary of the meeting before the adjournment thereof or transmits the dissent in writing to the Secretary of the Corporation immediately after the adjournment of the meeting. The right to dissent shall not apply to a Trustee who voted in favor of the action. Nothing in this section shall bar a Trustee from asserting that the minutes of the meeting incorrectly omitted his dissent if, promptly upon receipt of a copy of such minutes, the trustee notifies the Secretary in writing of the asserted omission or inaccuracy.

Article 9

COMPENSATION OF TRUSTEES; CONFLICT OF INTEREST

No Trustee shall, except as allowed by law, as a private person engage in any business transaction with the Corporation, be employed in any capacity by the Corporation or receive from the Corporation any pay for services rendered to the Corporation, provided that a Trustee may receive reimbursement for reasonable expenses incurred in connection with corporate matters if such reimbursement is authorized by the Board of Trustees. Voting on any matter involving a conflict of interest shall be governed by the Public Official and Employee Ethics Act, 65 P.S. 401-422. Notwithstanding the foregoing, common interested Trustees may be counted in determining the presence of a quorum at a Board meeting in which a transaction described above is authorized, approved, or ratified.

Article 10

LIABILITY OF TRUSTEES

Section 10.1 A Trustee of the Corporation shall stand in a fiduciary relation to the Corporation and shall perform his or her duties as a Trustee, including his or her duties as a member of any committee of the Board of Trustees upon which he or she may serve, in good faith, in a manner he or she reasonably believes to be in the best interests of the Corporation, and with such care, including reasonable inquiry, skill and diligence, as a person of ordinary prudence would use under similar circumstances. In performing his or her duties, a Trustee shall be entitled to rely in good faith on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by any of the following: (a) one or more officers or employees of the Corporation whom the Trustee reasonably believes to be reliable and competent in the matters presented; (b) legal counsel, public accountants or other persons as to matters which the Trustee reasonably believes to be within the professional or expert competence of such persons; or (c) a committee of the Board of

Trustees upon which he or she does not serve, duly designated in accordance with law, as to matters within its designated authority, which committee the Trustee reasonably believes to merit confidence. A Trustee shall not be considered to be acting in good faith if he or she has knowledge concerning the matter in question that would cause his or her reliance to be unwarranted.

Section 10.2 In discharging the duties of their respective positions, the Board of Trustees, committees of the Board of Trustees and individual Trustees may, in considering the best interests of the Corporation, consider the effects of any action and all other pertinent factors. The consideration of these factors shall not constitute a violation of Section 10.1 hereof.

Section 10.3 Absent Virtual Preparatory Academy of Pennsylvania of fiduciary duty, lack of good faith or self-dealing, actions taken as a Trustee or any failure to take any action shall be presumed to be in the best interests of the Corporation.

Section 10.4 A Trustee of the Corporation shall not be personally liable, as such, for monetary damages for any action taken, or any failure to take any action, unless: (a) the Trustee has breached or failed to perform the duties of his or her office under Sections 10.1 through 10.3 hereof; and (b) the breach or failure to perform constitutes self-dealing, willful misconduct or recklessness.

Section 10.5 The provisions of Section 10.4 hereof shall not apply to: (a) the responsibility or liability of a Trustee pursuant to any criminal statute; or (b) the liability of a Trustee for the payment of taxes pursuant to local, state or federal law.

Section 10.6 Notwithstanding any other provisions of these Bylaws, the approval of the Board of Trustees shall be required to amend, repeal or adopt any provision as part of these Bylaws that is inconsistent with the purpose or intent of Sections 10.1, 10.2, 10.3, 10.4, 10.5 or 10.6 of this Article 10, and, if any such action shall be taken, it shall become effective only on a prospective basis from and after the date of such Board of Trustees approval.

Article 11

OFFICERS

Section 11.1 The Corporation shall have a President, a Secretary and a Treasurer on the Board of Trustees, or persons who shall act as such, regardless of the name or title by which they may be designated, elected or appointed and may have such other officers and assistant officers as the Board of Trustees may authorize from time to time. Each such officer must be a Trustee. Any number of offices may be held by the same person. Officers shall be nominated and elected by the Board of Trustees and each officer shall hold office at the pleasure of the Board of Trustees and until his successor has been elected and qualified or until his earlier death, resignation or removal. Any officer may resign at any time upon written notice to the Corporation. The resignation shall be effective upon receipt thereof by the Corporation or at such subsequent time as may be specified in the notice of resignation. The Corporation may secure the fidelity of any or all of the officers by bond or otherwise.

Section 11.2 Any officer or agent of the Corporation may be removed by the Board of Trustees whenever in its judgment the best interests of the Corporation will be served by such removal. The removal shall be without prejudice to the contract rights, if any, of any person so removed. If the office of any officer becomes vacant for any reason, the vacancy may be filled by the Board of Trustees.

Article 12

THE PRESIDENT

Section 12.1 The President shall, when present, preside at all meetings of the Board of Trustees and have such other duties as may be assigned by the Board of Trustees from time to time.

Article 13

THE SECRETARY

Section 13.1 The Secretary shall: (a) keep, or ensure the minutes of the Board of Trustee's meetings are kept, in one or more books provided for that purpose; (b) see that all notices are duly given in accordance with the provisions of these Bylaws or as required by applicable law; (c) be custodian of the corporate records; and (d) have such other duties as may be assigned by the Board of Trustees from time to time.

Article 14

THE TREASURER

Section 14.1 The Treasurer shall be responsible for full and accurate accounts of receipts and disbursements in books belonging to the Corporation, shall submit to the Board a summary of all funds received and disbursed each month and shall perform such other duties as may be assigned by the Board of Trustees. The Treasurer shall receive all funds including local, state and federal funds and privately donated funds. The Treasurer shall also make payments out of the same on proper orders approved by the Board of Trustees.

Article 15

DISMISSAL OF SCHOOL STAFF

Section 15.1 Any member of the school staff may be dismissed by majority vote of the Board of Trustees, subject to such policies as may be adopted from time to time by the Board of Trustees and subject to applicable law.

Article 16

INDEMNIFICATION OF OFFICERS, TRUSTEES, EMPLOYEES AND AGENTS

Section 16.1 The Corporation shall indemnify any Trustee or officer, and may indemnify any other employee or agent, who was or is a party to, or is threatened to be made a party to, or who is called as a witness in connection with, any threatened, pending, or completed

action, suit or proceeding, whether civil, criminal, administrative or investigative, other than an action by or in the right of the Corporation, by reason of the fact that he is or was a Trustee, officer, employee or agent of the Corporation against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement, actually and reasonably incurred by him in connection with such action, suit or proceeding if such person acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Section 16.2 The Corporation shall indemnify any Trustee or officer, and may indemnify any other employee or agent, who was or is a party to, or is threatened to be made a party to, any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he is or was a Trustee, officer, employee or agent of the Corporation delete against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the Corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the Corporation unless and only to the extent that the court of common pleas of the county in which the registered office of the Corporation is located or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the court of common pleas or such other court shall deem proper.

Section 16.3 The indemnification and advancement of expenses provided by, or granted pursuant to, this Article 16 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any Bylaw,

agreement, vote of disinterested Trustees or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office. It is the policy of the Corporation that indemnification of, and advancement of expenses to, Trustees and officers of the Corporation shall be made to the fullest extent permitted by law. To this end, the provisions of this Article 16 shall be deemed to have been amended for the benefit of Trustees and officers of the Corporation effective immediately upon any modification of the Nonprofit Corporation Law of 1988 ("NPCL") or any modification or adoption of any other law that expands or enlarges the power or obligation of charter schools or corporations organized under the NPCL to indemnify, or advance expenses to Trustees and officers of corporations.

Section 16.4 The Corporation shall pay expenses incurred by an officer or Trustee, and may pay expenses incurred by any other employee or agent, in defending an action, or proceeding referred to in this Article 16 in advance of the final disposition of such action or proceeding upon receipt of an undertaking by or on behalf of such person to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the Corporation.

Section 16.5 The indemnification and advancement of expenses provided by, or granted pursuant to, this Article 16 shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a Trustee, officer, employee or agent of the Corporation and shall inure to the benefit of the heirs, executors and administrators of such person.

Section 16.6 The Corporation shall have the authority to enter into a separate indemnification agreement with any officer, Trustee, employee or agent of the Corporation or any subsidiary providing for such indemnification of such person as the Board of Trustees shall determine up to the fullest extent permitted by law.

Section 16.7 As soon as practicable after receipt by any person specified in Section 16.1 or Section 16.2 of this Article 16 of notice of the commencement of any action, suit or proceeding specified in Section 16.1 or Section 16.2 of this Article 16, such person shall, if a

claim with respect thereto may be made against the Corporation under this Article 16, notify the Corporation in writing of the commencement or threat thereof; however, the omission so to notify the Corporation shall not relieve the Corporation from any liability under this Article 16 unless the Corporation shall have been prejudiced thereby or from any other liability which it may have to such person other than under this Article 16. With respect to any such action as to which such person notifies the Corporation of the commencement or threat thereof, the Corporation may participate therein at its own expense and, except as otherwise provided herein, to the extent that it desires, the Corporation, jointly with any other indemnifying party similarly notified, shall be entitled to assume the defense thereof, with counsel selected by the Corporation to the reasonable satisfaction of such person. After notice from the Corporation to such person of its election to assume the defense thereof, the Corporation shall not be liable to such person under this Article 16 for any legal or other expenses subsequently incurred by such person in connection with the defense thereof other than as otherwise provided herein. Such person shall have the right to employ his own counsel in such action, but the fees and expenses of such counsel incurred after notice from the Corporation of its assumption of the defense thereof shall be at the expense of such person unless: (i) the employment of counsel by such person shall have been authorized by the Corporation; (ii) such person shall have reasonably concluded that there may be a conflict of interest between the Corporation and such person in the conduct of the defense of such proceeding; or (iii) the Corporation shall not in fact have employed counsel to assume the defense of such action. The Corporation shall not be entitled to assume the defense of any proceeding brought by or on behalf of the Corporation or as to which such person shall have reasonably concluded that there may be a conflict of interest. If indemnification or advancement of expenses under this Article 16 are not paid or made by the Corporation, or on its behalf, within ninety (90) days after a written claim for indemnification or a request for an advancement of expenses has been received by the Corporation, such person may, at any time thereafter, bring suit against the Corporation to recover the unpaid amount of

the claim or the advancement of expenses. The right to indemnification and advancements of expenses provided hereunder shall be enforceable by such person in any court of competent jurisdiction. The burden of proving that indemnification is not appropriate shall be on the Corporation. Expenses reasonably incurred by such person in connection with successfully establishing the right to indemnification or advancement of expenses, in whole or in part, shall also be indemnified by the Corporation.

Section 16.8 The Corporation shall have the power to purchase and maintain insurance on behalf of any person who is or was a Trustee, Director, Officer, employee or agent of the Corporation, against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under the provisions of this Article 16.

Section 16.9 Notwithstanding any other provisions of these Bylaws, the approval of the Board of Trustees shall be required to amend, repeal or adopt any provision as part of these Bylaws which is inconsistent with the purpose or intent of this Article 16, and, if any such action shall be taken, it shall become effective only on a prospective basis from and after the date of such Board of Trustees approval.

Article 17

ANNUAL REPORT

Section 17.1 The Treasurer and the President shall present annually to the Board of Trustees a report showing in appropriate detail the following:

- a) The assets and liabilities of the Corporation as of the end of the fiscal year immediately preceding the date of the report;
- b) The principal changes in assets and liabilities during the year immediately preceding the date of the report;
- c) The revenue or receipts of the Corporation, both unrestricted and restricted to particular purposes, for the year immediately preceding the date of

the report;

d) The expenses or disbursements of the Corporation, for both general and restricted purposes, during the year immediately preceding the date of the report, including separate data with respect to each trust fund held by or for the Corporation.

Section 17.2 The annual report of the Treasurer shall be filed with the minutes of the meetings of the members of the Board of Trustees.

Article 18

BOOKS AND RECORDS

Section 18.1 The Corporation shall keep an original or duplicate record of the proceedings of the Board of Trustees and the original or a copy of these Bylaws, including all amendments thereto to date, certified by the Secretary of the Corporation. The Corporation shall also keep appropriate, complete and accurate books or records of account. The records provided for herein shall be kept at either the registered office of the Corporation in this Commonwealth or at its principal place of business wherever situated.

Section 18.2 To the extent required by law, the Pennsylvania Department of Education shall have ongoing access to all records, instructional material and student and staff records and to the Corporation's school facilities.

Article 19

FISCAL YEAR

Section 19.1 The fiscal year of the Corporation shall be as determined by the Board of Trustees.

Article 20

TRANSACTION OF BUSINESS

Section 20.1 Except as otherwise provided by applicable law or directed by the Board of Trustees, each of the President, and one of either the Secretary or Treasurer shall have authority to sign, execute and acknowledge on behalf of the Corporation, all deeds, mortgages, bonds, contracts, leases, reports, and all other documents or instruments necessary or proper to be executed in the course of the Corporation's regular business, which shall be authorized by resolution of the Board of Trustees. The Secretary of the Corporation is authorized and empowered to sign in attestation all documents so signed, and to certify and issue copies of any such document and of any resolution adopted by the Board of Trustees of the Corporation, provided, however, that an attestation is not required to enable a document to be an act of the Corporation.

Section 20.2 No moneys shall be borrowed on behalf of the Corporation and no evidences of such indebtedness shall be issued in its name unless authorized by a resolution of the Board of Trustees. Such authority may be general or confined to specific instances.

Section 20.3 All funds of the Corporation, not otherwise employed, shall be deposited from time to time to the credit of the Corporation in such banks, investment firms or other depositories as the Board of Trustees may select providing that funds shall be invested consistent with sound business practice only in the following instruments: United States Treasury bills; Short-term obligations of the United States Government or its agencies or instrumentalities; Deposits in savings accounts or time deposits or share account of institutions insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund to the extent that such accounts are so insured, and for any amounts above the insured maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository; Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the

United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith of the Commonwealth, or of any political subdivision of the Commonwealth of Pennsylvania of any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision; Shares of an investment company registered under the Investment Company of America Act of 1940 (54 Stat.789, 15 U.S.C. * 80a-1 et seq.). The school Treasurer shall settle his or her accounts annually with the Board of School Directors for each school year.

Article 21

MANNER OF GIVING WRITTEN NOTICE; WAIVERS OF NOTICE

Section 21.1 Whenever written notice is required to be given to any person under the provisions of these Bylaws, it may be given to the person either personally or by sending a copy thereof by first class or express mail, postage prepaid, or by telegram (with messenger service specified), telex or TWX (with answerback received) or courier service, charges prepaid, or by facsimile transmission, to his address (or to his telex, TWX or facsimile number) appearing on the books of the Corporation or, in the case of written notice to Trustees, supplied by each Trustee to the Corporation for the purpose of the notice. If the notice is sent by mail, telegraph or courier service, it shall be deemed to have been given to the person entitled thereto when deposited in the United States mail or with a telegraph office or courier service for delivery to that person or, in the case of telex or TWX, when dispatched.

Section 21.2 Any written notice required to be given to any person under the provisions of statute, the Corporation's Articles of Incorporation or these Bylaws may be waived in a writing signed by the person entitled to such notice whether before or after the time stated therein. Except as otherwise required by statute, and except in the case of a special meeting, neither the business to be transacted at, nor the purpose of, a meeting need be specified in the waiver of notice. Attendance of a person, whether in person or by proxy, at any meeting shall constitute a waiver of notice of such meeting, except where a person attends a meeting for the

express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting was not lawfully called or convened.

Article 22

AMENDMENTS

Section 22.1 Except as provided in Sections 10.6 and 17.10 hereof, and except as provided in Section 5504(b) of the NPCL, these Bylaws may be amended or repealed, and new Bylaws adopted, by a majority vote of the members of the Board of Trustees at any regular or special meeting duly convened.

Services Agreement with Accel Online Pennsylvania LLC

EDUCATION SERVICES AGREEMENT

This Education Services Agreement (the “*Agreement*”) is entered into as of the _____ day of _____, 2020 (“*Effective Date*”) by and between Accel Online Pennsylvania LLC, a Delaware limited liability company (“*Service Provider*”), and Virtual Preparatory Academy of Pennsylvania Cyber Charter School (the “*School*”), a Pennsylvania non-profit corporation and a public charter school, by and through its Board of Trustees (the “*Board*”).

RECITALS

Whereas, the School is organized as a Pennsylvania nonprofit corporation under the laws of Pennsylvania (sometimes referred to as the “Commonwealth”) and the School has entered into a Charter with the Pennsylvania Department of Education (the “*Authorizer*” or “*PDE*”) pursuant to which the School is authorized to operate a public charter school under Commonwealth laws;

Whereas, the Service Provider was established, among other reasons, to provide services to support public schools, and is expected to provide invaluable assistance and expertise, including educational products, administrative, marketing, technology, regulatory, financial, facilities, and other advice, in connection with the operation of the School; and

Whereas, the School and the Service Provider (individually, a “*Party*” and collectively, the “*Parties*”) desire to create an enduring relationship whereby they will pursue and provide educational excellence for the School based on an agreed upon school design, comprehensive educational program and management principles.

NOW THEREFORE, in consideration of their mutual promises and covenants, and intending to be legally bound hereby the Parties agree to the following terms:

ARTICLE I. EDUCATIONAL, ADMINISTRATIVE AND TECHNOLOGY SERVICES

1.1 Educational Products and Services.

- (a) During the Term (as defined in ARTICLE II below), Service Provider will provide to the School the following educational products and services (the “*Educational Services*”):
 - (i) Curriculum and Assessment. Under the direction of the Board and in conjunction with School employees, Service Provider will assist with the implementation of the educational goals and programs set forth in the Charter (the “*Educational Program*”) by providing Pennsylvania aligned curriculum (core curriculum, elective courses, CTE courses, and advanced placement), assessment tools, a learning management system, a student information system and a content management system in all subjects and grades Service Provider generally offers to its managed programs customers; curriculum for all other subjects required by applicable law; assistance in administering all Commonwealth mandated testing; and providing additional curriculum or educational programs recommended by Service Provider in its reasonable discretion to assist the Board and the School to achieve the goals of the Educational Program. In the event Service Provider determines, after a review of certain data including student achievement data,

satisfaction surveys and Board review, it is advisable to modify the Educational Program, Service Provider may recommend to the Board and the School proposed changes and obtain School approval, and if requested and required under the Charter, assist the Board and the School with requesting an amendment to the School's Charter from the Authorizer.

- (ii) Instructional Support. Support the Board's oversight and coordination of the services to be provided by instructional personnel, including the School's leadership team and its teachers and support staff (collectively, "**Personnel**"), all in accordance with Article VI below.
 - (iii) Instructional Tools. Selection of instructional tools, equipment and supplies including textbooks, computers, computer peripherals, curriculum, printers, software and multi-media teaching tools as Service Provider determines to be necessary in its reasonable discretion, with oversight and approval from the Board.
 - (iv) Supplemental Instructional Support, Extra-Curricular and Co-Curricular Activities and Programs. Advise the Board about appropriate supplemental instructional support programs, extracurricular and co-curricular activities and programs including, but not limited to, clubs, activities and special events (but not Supplemental Programs as defined in ARTICLE V below).
- (b) Special Education Services/Program Support for Disadvantaged Students. Service Provider will assist with, advise about and provide certain Protocols (as defined in Section 1.4 below) for development, program oversight and compliance, IEP management and software support, assistive technology procurement, third-party service provider coordination, accessibility support, 504 Plan guidance, at-risk population support services, homeless and migrant support, school counseling support, and ELL support (provided by ESOL / TESOL certified leaders and teachers).
 - (c) Additional Educational Services. Any other services required by the PDE (in both its role as Authorizer and its role as the State Education Agency) and such other services as are necessary or expedient for the provision of teaching and learning at the School as agreed to from time to time between Service Provider and the School. The Educational Services will be provided in accordance with the educational goals, curriculum, methods of pupil assessment, admissions policy, student recruitment policy, school calendar, school day schedule, and age and grade range of pupils to be enrolled at the School as adopted by the Board and as provided for in the Charter, as the same may be amended.
 - (d) Service Provider will be responsible and accountable to the Board and School for the provision of the Educational Services, provided, however, that such obligations, duties and responsibilities are limited by the School Budget established pursuant to and defined in Section 1.2(a)(vi) below, and Service Provider will not be required to expend funds on such services in excess of the amounts set forth in such School Budget.

1.2 Administrative Services.

- (a) During the Term, under the oversight of the Board, Service Provider will provide to the School the following administrative services (the "**Administrative Services**"):
 - (i) Personnel Management. Advise Board and the Chief Executive Officer about management of and professional development for all Personnel providing Educational Services, Administrative Services and Technology Services in accordance with ARTICLE VI below.

- (ii) Business Administration. The day-to-day responsibilities of School financial and business support services shall be shared between Service Provider and School's business manager (based on separate contract, third-party Charter Choices, Inc., "Contracted **Business Manager**") based on the roles and responsibilities assigned by the Board. Contracted Business Manager will provide oversight of internal controls; review invoices from Service Provider; bill district for student funding and perform accounts receivable tasks regarding same; perform external reporting to PDE; and assist with federal grant applications and tax reporting. Service Provider will provide business support services, internal reporting, budgeting and audit support as set forth below.
- (iii) Business Support Services.
 - (A) Provide guidance for spending and reporting compliance for federal programs such as Title and IDEA programs.
 - (B) Provide payroll and benefits support services including required internal reporting to the Board and data input.
 - (C) Make recommendations regarding insurance/risk management and provide support for same. The School is responsible for procuring and maintaining the types and limits of insurance as required by applicable law, the Charter, or both necessary to operate the School. The School is also responsible for procuring and maintaining liability insurance for any Offices and Satellite Facilities leased directly by the School and any equipment, furniture and fixtures owed by the School.
 - (D) Provide comprehensive logistic services for physical curriculum provided by Service Provider including procurement, contracting, storage, fulfillment and other services required to obtain, deliver, collect and warehouse these materials.
 - (E) Provide comprehensive purchasing support services including recommendations for vendor determinations, procurement process, contracting procedures, fulfillment, and other services required to obtain, deliver, and collect various services and materials.
 - (F) Per Board policy, serve as the School's agent in administering the School's student technology support stipend program established by the Board. Service Provider will facilitate stipend payments to eligible households by making payments to the parent, guardian or student, as applicable, according to the schedule provided in the student handbook which shall include the same rate used in the Budget. Service Provider will not advance School funds to support the stipend program.
 - (G) Under direction from the Board, provide cash flow protection services to the School.
- (iv) Invoice Payment Process. Service Provider will serve as the School's agent for processing payments of invoices for the products and services it provides hereunder. However, the School shall remain responsible for the costs associated with the invoices and will reimburse Service Provider. The Chief Executive Officer will be responsible for processing any invoices related to the Service Provider.
- (v) Public Relations. Coordination and assistance with any and all advertising, website development and maintenance, branding, and media and public relations efforts including parent and community outreach programs and local community

relationship building (collectively, “**Public Relations**”). Service Provider is under no obligation to implement any Public Relations initiatives promoted by the Board that Service Provider determines will have a negative impact on Service Provider or its Affiliate’s brand identity and/or reputation, including in connection with the School. To the extent that such Public Relations materials involve the use of trademarks or other intellectual property of Service Provider or its Affiliates, such use will be subject to review by Service Provider. The Service Provider will report to the Board each school year analytics related to student enrollment results from the campaigns.

(vi) Internal Reporting, Budgeting and Audit Support.

- (A) A proposed annual budget will be prepared by the School with assistance from the Service Provider in a mutually agreeable format by April 1st of the immediately preceding fiscal year and will be subject to the approval of the Board which shall not to be unreasonably withheld or delayed and in all cases shall be publicly posted no later than May 30 of the immediately preceding fiscal year. The approved budget is the “**Budget**” which shall be passed by the Board no later than June 30 per Pennsylvania law and submitted to PDE.
- (B) The Service Provider shall be responsible for preparing financial statements as required by and in compliance with the Charter and applicable laws and regulations, including such documentation as may be required by the independent certified public accountants retained by the Board to perform annual audits of the School's financial statements. The cost of the independent audit will be the responsibility of the School and will be provided for in the Budget. To the extent School contracts with providers other than Service Provider for products and services not included in this contract, the School shall ensure the products and services are provided in accordance with the Budget, the Charter and applicable law.
- (C) The Service Provider will provide the Board with monthly financial forecast and analysis reports (Forecasted P&L / Cash Balances), and all other support as needed.
- (D) The Service Provider will provide the following accounting information and services: accounts payable coding; payroll journal entries; expense accrual journal entries; support for grant writing / reporting / draw down; and support for all Pennsylvania reporting requirements. The Service Provider will prepare a five-year financial plan.
- (E) On behalf of the School, the Service Provider is responsible for preparing (i) such other reports on the finances and operation of the School as requested or required by the PDE, by the PDE in its role as Authorizer, or the Board to ensure compliance with the terms of the Charter; (ii) monthly unaudited financial statements; and (iii) year-end unaudited financial statements which will be provided within forty-five (45) days after the end of the fiscal year.
- (F) The Service Provider will provide other information on a periodic basis or as requested with reasonable notice as may be reasonably necessary to enable the Board to monitor Service Provider's performance under this and related agreements including the effectiveness and efficiency of its operations at the School.

- (G) On behalf of the School, the Service Provider will maintain accurate financial records pertaining to its operation of the School, together with all School financial records, and retain all such records for a period of five (5) years (or longer if required by applicable laws and regulations) from the close of the fiscal year to which such books, accounts and records relate. All the School financial records retained by the Service Provider pertaining to the School will be available to the Board, the Authorizer, the Auditor of Pennsylvania, the United States Department of Education and all other appropriate regulatory authorities for inspection and copying upon reasonable request, it being understood that in most cases such copies will be made available within five (5) business days of request or within the time frame under applicable law.
- (vii) Board's Right to Audit. The Board reserves the right to conduct or to appoint others to conduct examinations, in addition to the independent annual audit, at the School's expense, of the books and records maintained for the School.
- (viii) Maintenance of Student and Other Records.
- (A) Service Provider will maintain on behalf of the School accurate student records pertaining to the students enrolled at the School as is required and in the manner provided by the Charter and applicable laws and regulations, together with all additional School student records prepared by or in the possession of Service Provider, until this Agreement expires or is terminated, at which time such records will be delivered to the School which shall thereafter be solely responsible for the retention and maintenance of such records (it being understood that such student records are and shall be at all times the property of the School). Service Provider and the School will maintain the proper confidentiality of such records as required by law and the Charter. Subject to Service Provider's post-termination obligation to return records as set forth in Section 7.6 below, at no time shall the Service Provider unreasonably withhold student records from the School and its authorized personnel after receiving their request for records.
- (B) Service Provider will maintain accurate employment, business and other records pertaining to the operation of the School as is required and in the manner provided by the Charter and applicable laws and regulations, together with all additional School employment, business and other records prepared by or in the possession of Service Provider, and retain such records on behalf of the School until this Agreement expires or is terminated, at which time such records will be delivered to the School which shall thereafter be solely responsible for the retention and maintenance of such records (it being understood that such employment, business, and other records are and shall be at all times the property of the School). Service Provider and the School will maintain the proper confidentiality of such records as required by law and the Charter. Subject to Service Provider's post-termination obligation to return records as set forth in Section 7.6 below, at no time shall the Service Provider reasonably withhold employment, business or other operations records from the School and its authorized personnel after receiving their request for records.

- (C) The financial, educational and student records pertaining to the School are the property of the School, and such records are subject to the applicable provisions of Commonwealth and federal law. Service Provider shall help ensure that to the extent requested by the School, all School records shall be physically or electronically available, upon request, at the School.
- (D) Service Provider shall provide such other information, including a written report, as reasonably requested by the Board and/or the School.
- (ix) Student Recruitment, Admission and Enrollment. Service Provider will facilitate recruitment and admission of students, subject to the School's recruitment and admission policies to the extent as budgeted for in the Budget or as otherwise approved by the Board. Students shall be selected in compliance with the procedures set forth in the Charter and Commonwealth and federal laws. Recruiting via lead generation, lead qualification and lead conversion may take the form of information sessions, open houses, expos or other events. Service Provider will ensure the implementation of the School's admission policy, including management of the application and enrollment process as well as orientation in conjunction with School personnel.
- (x) Student Hearings. The Chief Executive Officer may consult with the Service Provider regarding the administration and enforcement of student disciplinary and special education hearings in conformity with the requirements of the procedures established by the School, and applicable laws and regulations (including, but not limited to, requirements involving due process and confidentiality) to the extent consistent with the School's duties and obligations under applicable laws and regulations. The Chief Executive Officer, however, is ultimately responsible for the implementation of the School's disciplinary process.
- (xi) Academic Progress Reports. Provide to the Board on a periodic basis as necessary or appropriate for the School to satisfy its obligations under the Charter and applicable laws and regulations, a report detailing (A) the School's students' academic performance, (B) Service Provider's self-assessment of performance against mutually acceptable criteria of the Educational Services and Administrative Services, and (C) such other reports reasonably requested by the Board. The provision of such reports does not preclude the Board from conducting its independent review of the School's academic progress, including the Service Provider's performance, in relation to Board established criteria.
- (xii) Personalized Learning Plan Development. Provide support for applicable Personnel to prepare and deliver instruction tailored to enable each student to meet or exceed Pennsylvania mandated standards.
- (xiii) Student Welfare Protocols and Training. Service Provider will present Protocols to the Board for consideration, and provide training for applicable Personnel, if approved by the Board, on the following topics regarding student welfare:
- (A) Prohibiting the possession and use of drugs, alcohol, weapons, tobacco and tobacco substitutes on School grounds and at School sponsored events;
 - (B) Prohibiting bullying, harassment of any nature, and other social behaviors prohibited under applicable laws;
 - (C) Complying with Commonwealth immunization laws; and

(D) Trauma-informed practices.

- (xiv) Consultation Regarding Services. To enable the Board to execute its oversight responsibilities, Service Provider will make key knowledgeable personnel reasonably available to Board members, the Chief Executive Officer, and Authorizer for consultation and advice about Educational Services and Administrative Services.
- (xv) Services Support Coordinator. Service Provider may assign a dedicated resource to be a liaison between the School and Service Provider and support School operations with respect to all services provided pursuant to this Agreement.
- (xvi) Office and Satellite Facility Management. Service Provider will obtain, subject to Board approval, manage and maintain the School's Office and Satellite Facilities, and provide systems administration, networking and internet connectivity, Computer Equipment, furniture, fixtures, equipment and office supplies for them so they are functional for their intended purposes. School shall own the Computer Equipment, furniture, fixtures, equipment and office supplies in the Office and Satellite Facility to the extent School pays for them.
- (xvii) Additional Administrative Services. Service Provider will provide any other services reasonably necessary or expedient for the effective administration of the School as agreed to from time to time by Service Provider and the Board.
 - (A) The Administrative Services will be provided in a manner consistent with the Educational Program, the Charter, local, Commonwealth and federal laws and applicable regulations and policies.
 - (B) Subject to this Agreement, the Charter, and applicable laws and regulations, Service Provider may modify the methods, means and manner by which such Administrative Services are provided at any time, provided that Service Provider supplies the School with written notice of such modifications.
 - (C) Service Provider will be responsible and accountable to the Board for the provision of the Administrative Services, provided that such obligations, duties, and responsibilities are limited by the Budget established in Section 1.2(a)(vi) above, and Service Provider will not be required to expend funds on such services in excess of the amounts set forth in such Budget.

1.3 Technology Services.

- (a) During the Term, Service Provider or its Affiliates ("**Affiliate**" means any entity that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, a specified Party whether through ownership of voting securities, by contract interest or otherwise.) will provide or cause to be provided to the School the following technology services (collectively, the "**Technology Services**") using the proceeds set forth in Sections 4.1 and 4.2 of this Agreement, as applicable:
 - (i) Monitor production services, i.e., the learning management and content management systems;
 - (ii) Monitor and analyze data to fix production issues as they arise;
 - (iii) Generate reports on student academic performance, attendance and progress;

- (iv) For School Personnel, provide computers, monitors, printers, software and other peripherals (collectively, “*Computer Equipment*”) as necessary for the delivery of the Educational Program;
 - (v) For the students, provide Computer Equipment as necessary to participate in the Educational Program;
 - (vi) Develop, design, publish and maintain the School’s website;
 - (vii) Determine hardware configurations (including software and operating systems) for the School’s technology needs;
 - (viii) Provide support for School administration in troubleshooting system errors;
 - (ix) Provide technical support for parents, students and Personnel; and
 - (x) Other technology support services requested and mutually agreed upon by the Board and Service Provider.
- (b) Service Provider shall be responsible for selection, procurement, deployment, reclamation, refurbishment, storage and tracking of the Computer Equipment, as well as other related comprehensive logistical support services such as set up, imaging, and technical support, it provides to Personnel and students. School shall be the exclusive owner of the Computer Equipment to the extent School pays for the Computer Equipment.

1.4 Protocols. Recommend to the Board for consideration and approval rules, regulations, policies and procedures developed by Service Provider (“*Protocols*”) applicable to the School and its students including, but not limited to, employee and student handbooks, and those that enable the School to obtain accreditation including but not limited to Middle States Association of Colleges and Schools and/or NCAA Eligibility Center. In conjunction with the Chief Executive Officer, Service Provider will assist with implementation of such Protocols adopted by the Board that are not in direct conflict with this Agreement, the Charter, and applicable laws and regulations.

To the extent the School does not adopt and implement Service Provider’s recommended Protocols, the School understands and accepts responsibility for any impact such decision may have on the School’s ability to obtain accreditation.

1.5 Board Training. Pursuant to Pennsylvania law, the Board will secure Act 55 Board Training from a provider approved by the PDE.

ARTICLE II. TERM

2.1 Term. The term of this Agreement will commence on (the “*Start Date*”) and shall continue thereafter through the term of the Charter (the “*Initial Term*”) unless sooner terminated pursuant to ARTICLE VII or mandated by regulation or statute. In the event the Authorizer and/or the Charter changes, this Agreement shall automatically survive and be performed in accordance with the new Charter, these terms and conditions and applicable law, unless this Agreement is otherwise terminated in accordance with ARTICLE VII herein.

- 2.2 Renewal. This Agreement will automatically extend for successive additional periods consistent with the length of the new or renewal term from the Authorizer (each such period a “**Renewal Term**”), unless (a) either Party provides the other with written notice of non-renewal at least twelve (12) months before the applicable Renewal Date; or (b) the Agreement is sooner terminated under ARTICLE VII. The Initial Term and any Renewal Terms will be referred to collectively as the “**Term**”.

ARTICLE III. RELATIONSHIP OF THE PARTIES

- 3.1 Status of the Parties. Service Provider is not a division or any part of the School. The School is a separate and distinct corporation authorized under Commonwealth law and is not a division or a part of Service Provider. The relationship between the Parties was developed and entered into through arms-length negotiations and is based solely on the terms of this Agreement and those of any other agreements that may exist from time to time between the Parties. Nothing herein will be construed to create a partnership or joint venture by or between the School and Service Provider or to make one the agent (except and to the extent the Parties agree Service Provider will be School’s agent for paying School’s invoices and administering the School’s student technology support stipend program) or fiduciary of the other. Neither the School nor Service Provider will hold itself out as a partner or agent of the other or otherwise state or imply by advertising or otherwise any relationship between it and the other in any manner contrary to the terms of this Agreement. Neither the School nor Service Provider has, and neither will represent that it has, the power to bind or legally obligate the other. No employee of one Party will be considered an employee of the other Party by either Party for any purpose whatsoever. The Board will offer an annual written evaluation of the Service Provider’s performance after the conclusion of each academic year but no later than August 1.
- 3.2 Service Provider Attendance at Board Meetings. Service Provider shall use commercially reasonable efforts to attend Board meetings in person and, if unable to attend in person, may attend them telephonically or by other electronic means. The Board shall use reasonable efforts to schedule any regular, special or emergency Board meeting so that Service Provider has the opportunity to attend the same. The Board shall provide Service Provider with notice of any regular, special or emergency meeting of the Board when it provides members of the Board with notice of the meetings. The Board may, from time to time, issue an invitation to the Service Provider to attend an executive session if the subject matter of the executive session requires the input from the Service Provider. Unless specifically invited to attend an executive session, the Board is under no obligation to provide prior notice to the Service Provider of executive sessions.
- 3.3 No Related Parties or Common Control. Service Provider will not have any role or relationship with the Board that, in effect, substantially limits the Board's ability to exercise its rights, including cancellation rights, under this Agreement and under Commonwealth and federal law. Any director, officer or employee of Service Provider shall be prohibited from serving on the Board. None of the voting power of the Board will be vested in Service Provider or its directors, members, managers, officers, shareholders and employees, and

none of the voting power of the Board or shareholders of Service Provider will be vested in the School or its directors, members, managers, officers, shareholders (if any) and employees. Furthermore, the Board and Service Provider will not be members of the same control group, as defined in Section 1.150-(f) of the regulations under the Internal Revenue Code of 1986, as amended (or its successor) (the “*Internal Revenue Code*”), or related persons, as defined in Section 144(a)(3) of the Internal Revenue Code.

- 3.4 Other Schools. The Parties acknowledge that this arrangement is not exclusive and that Service Provider will have the right to render similar services to other persons or entities including other public or private schools or institutions. To the extent Service Provider intends to render similar services to other persons or entities, including other public or private schools or institutions, such services shall not place the viability to the School’s charter at jeopardy. The Service Provider shall provide written notice to the School of any such arrangements.
- 3.5 Exclusive Provider. During the Term, Service Provider and its Affiliates shall be the sole provider of the products and services set forth herein for the School unless otherwise waived in writing by an authorized officer of Service Provider or by amendment of this Agreement.

ARTICLE IV. CONSIDERATION

- 4.1 Reimbursement of Expenses. In addition to the Service Fees referenced in Section 4.2 below, the School will reimburse Service Provider for all costs incurred and paid by Service Provider in providing the Educational Services, Administrative Services and Technology Services. Such costs may include, but are not limited to, rent and/or lease payments pursuant to any equipment lease; Computer Equipment; furniture; fixtures; equipment; office supplies; and costs of or related to curriculum, instructional materials, textbooks, software, technology hardware, supplies, social media development and management, website development and management, marketing, background checks, insurance, special education services, psychological services and medical services.
- 4.2 Compensation for Services.
- (a) Service Fees. In exchange for Services provided during the Term, the School will pay to Service Provider fees according to the Fee Schedule attached hereto as Appendix A.
 - (b) Adjustment of Services Provided and Fees Payable. If the Parties agree to increase or decrease the services provided by Service Provider under this Agreement, the Parties shall negotiate a corresponding adjustment to Service Fees. The modification of services and Service Fees shall be in writing and effective upon approval by the Board.
 - (c) Reasonable Compensation. The Service Fees are reasonable compensation for services rendered. Service Provider's compensation for services under this Agreement will not be based, in whole or in part, on a share of net profits from the operation of the School.
 - (d) Annual Reconciliation. The Service Fees shall be subject to annual reconciliation based upon actual enrollment (including the final month of the Term, even though the payment may be made beyond expiration or termination of the Term). If the School receives written notice of a review of the enrollment being completed by the Commonwealth or by resident

school district(s), the School shall provide Service Provider with a copy of the written notice upon receipt of same. If the review results in a finding that additional funding is owed to the School, the School shall pay the equitable amount to Service Provider within five (5) business days after receiving an invoice for such amount. If the review results in a finding that the School owes money to the Commonwealth or resident school district(s), the School will work with the Service Provider to initiate an appeal of the administrative determination in accordance with applicable laws and regulations. Service Provider shall cooperate with the School's efforts to appeal. Should the final determination result in the School owing money to the school district(s) of residence, Service Provider agrees to issue a credit to School for the equitable amount overpaid to Service Provider. Should the final determination result in the school district(s) of residence owing money to the School, School agrees to pay to Service Provider the equitable amount underpaid to Service Provider.

4.3 Intentionally omitted.

4.4 Time and Priority of Payments.

- (a) Service Fees will be due and payable by the School upon receipt of invoice.
- (b) Service Provider will notify the School of any payments due and owing to Service Provider pursuant to Section 4.1 above as soon as possible after the end of each month and the School will make such payments to Service Provider upon receipt of invoice.
- (c) School shall give Service Provider written notice of and reason for any invoice dispute within thirty (30) days of receipt of invoice and work to resolve the dispute within thirty (30) days of providing notice. All undisputed amounts shall be paid according to the terms herein.
- (d) The School will satisfy its payment obligations under this ARTICLE IV to Service Provider in the following order of priority: (i) payments due and owing under Section 4.1 above, with the oldest amounts due first; and (ii) payments due and owing pursuant to Section 4.2 above for Service Fees with the oldest amounts due first.

4.5 Interest Rate and Carryovers.

- (a) Unless otherwise agreed by the Parties, unpaid Service Fees and loans (other than the Start-up Loan) to the School, if any, to pay expenses will accrue interest at the prime rate reported by the Wall Street Journal's bank survey, plus one percent (1%) for the time overdue.
- (b) Limits to fees and/or expense owed to Service Provider that may be carried over from year to year shall be determined by Service Provider in its sole discretion.
- (c) Loans shall be documented by separate agreements in writing.

**ARTICLE V.
SUPPLEMENTAL PROGRAMS**

In addition to the Educational Services, Administrative Services and Technology Services provided by Service Provider to the School, Service Provider may, subject to School approval, provide additional services, which may benefit the School by increasing its exposure in the community to students and non-students of the School (the "**Supplemental Programs**"), provided that nothing herein shall require Service Provider to provide any

such Supplemental Programs. Service Provider may retain the full amount of any and all revenues collected from or for such Supplemental Programs, and Service Provider will be responsible for the full cost of providing such Supplemental Programs.

ARTICLE VI. PERSONNEL AND TRAINING

6.1 Personnel Responsibility.

- (a) Subject to Sections 1.1 and 1.2 above, the Charter and applicable laws and regulations, the Board will be the employer of School Personnel and have final authority to determine staffing levels, compensation and Protocols, and select, evaluate, assign, discipline, supervise, manage, transfer and terminate School Personnel necessary to carry out the Educational Program. Though the Board will determine compensation arrangements for School Personnel, such offers must consider the impact of such compensation on the Budget.
- (b) Service Provider will assist the Board in recruiting potential School Personnel and selecting final job candidates, but any and all hires will be subject to Board approval.
- (c) Service Provider will be responsible for conducting reference checks, employment checks, criminal background checks and unprofessional conduct checks on potential School Personnel to the extent required under applicable laws and regulations. Upon request, Service Provider will provide the School with documentary evidence of such background checks. School will share on a confidential basis with the Service Provider its performance reviews and assessment of School Personnel.
- (d) Chief Executive Officer. The Chief Executive Officer is the Board representative and shall be responsible for the day-to-day management of the School, implementation of the Educational Program, supervising Personnel, and being the primary liaison between the Board and Service Provider and the Board and Personnel. Service Provider will support the Chief Executive Officer with the performance of annual evaluations of Personnel in accordance with a system and criteria approved by the Board, federal and Commonwealth law, and the Charter. The Chief Executive Officer may consult with Service Provider about employment actions regarding Personnel.

6.2 Annual Evaluation of Chief Executive Officer. The Board shall evaluate the Chief Executive Officer annually using criteria adopted by the Board, which evaluation may be based on tools developed by the Service Provider at the Board's request. While the Board is responsible for evaluating the Chief Executive Officer, the evaluation may include consultation with the Service Provider.

6.3 Termination of Chief Executive Officer. If the Board decides to terminate the Chief Executive Officer, it shall, to the extent possible, give Service Provider thirty (30) days written notice of intent to terminate, including reasons for the decision. If Service Provider objects to the Board terminating and replacing the Chief Executive Officer, it shall, within ten (10) days of receiving notice from the Board, provide the Board with notice of objection and reason(s) therefore.

- 6.4 Teachers and Support Staff. Teachers shall be licensed and credentialed in accordance with Commonwealth law. Teachers and support staff, which may include, among others, teachers' aides, clerical staff, administrative assistants to the Chief Executive Officer and bookkeepers, shall work under the direction of the Chief Executive Officer or his or her designee and comply with Service Provider's Protocols in executing the Educational Program.
- 6.5 Training. Under the oversight of the Board, Service Provider will provide training in its instructional methods, curriculum, Protocols, educational program and support technology to the School's instructional personnel on a regular and continuous basis. Such training will enable the School's instructional staff to provide in-service training to each other. Non-instructional personnel will receive such training as Service Provider and Chief Executive Officer determines to be reasonable and necessary under the circumstances.
- 6.6 Non-Solicitation/Non-Hiring.
- (a) Each Party may not directly or indirectly solicit, recruit for employment, offer employment to, offer subcontracting opportunities to, or otherwise employ or use the services of any current or former consultant or employee of the other Party or Affiliate if that consultant, employee, former consultant or employee had been assigned to or worked under this Agreement, for a period of one year after the conclusion of his/her employment with a Party (or its Affiliates) to this Agreement. Former consultant or employee means a consultant or employee who worked for a Party within six (6) months prior to hire or potential hire by the prohibited Party.
 - (b) Unpermitted Solicitation/Hiring Remedies. In the event of such unpermitted use or engagement by a Party of such consultant, employee, former consultant or former employee whether directly or indirectly, in contravention of the clause immediately above, the other Party, at its option, may seek receipt of a sum equivalent to one hundred percent (100%) of that consultant, employee, former consultant or former employee's compensation during their first year with the new employer, or seek any legal or equitable relief against such actions including, but not be limited to, immediate injunctive relief in any court of competent jurisdiction. The one (1) year period in this Section will be extended by the amount of time that a Party engages in any activity in violation of this Agreement and while the aggrieved Party seeks enforcement of this Agreement. The School acknowledges and agrees that no advances or past uncollected fees shall be issued by Service Provider to cover any penalty, damages or other relief owed by the School upon a violation of this provision.
 - (c) Solicitation Exceptions. For the avoidance of doubt, newspaper, periodical or Internet-based listings of employment opportunities by a Party shall not be considered direct or indirect solicitation of an employee, consultant, former employee or former consultant of the other Party or Affiliate. However, such Party shall continue to be precluded from engaging or otherwise using a Party's and Affiliate's employee, former employee, consultant or former consultant provided for in this Section 6.6.

**ARTICLE VII.
TERMINATION OF AGREEMENT**

7.1 Termination By Service Provider.

- (a) All notices of termination under this section shall include explanation of the reason(s) for termination and be subject to the resolution process in the Dispute Resolution section below
- (b) Service Provider may terminate this Agreement in the event that the School is in material default under any other condition, term or provisions of this Agreement or the Charter, and the default remains uncured for thirty (30) days, excluding overdue payments resulting from a payment dispute or delay between the School and any funding entity, after the School receives written notice from the Service Provider or Authorizer, as applicable, of the default, unless the actions or services of the Service Provider are the reason for any notification by the Authorizer. However, if the default cannot be reasonably cured within thirty (30) days, and the School promptly undertakes or continues efforts to cure the material default within the thirty (30) day period, then such additional time as necessary to complete the cure, but in not event longer than sixty (60) days following written notice of breach. School shall give Service Provider written notice of any delay of funding from funding entity promptly upon learning about the delay.
- (c) Service Provider may terminate this Agreement if there is any adverse and material change in local, State or federal funding for the School's students, or applicable laws or regulations impose requirements that are materially different from those in force at the time the Parties entered into this Agreement and Service Provider is unwilling or unable to make the required changes; provided that any notice of termination delivered to the School based upon an adverse and material change in funding shall be effective when the funding change goes into effect or such later date as designated by the Service Provider. If such an event occurs in the middle of the school year, Service Provider agrees to use its best efforts to complete its obligations for the then-current school year without waiving any rights and remedies hereunder.
- (d) Service Provider may terminate this Agreement effective immediately upon written notice to the School in the event that the School adopts or amends a policy, and the effect of such amendment or policy would reasonably be determined by Service Provider to increase materially the financial risk to Service Provider arising from its performance of its obligations hereunder, thus rendering Service Provider's performance economically unviable. In the event the School adopts such an adverse policy in the middle of the school year, Service Provider agrees to use its best efforts to complete its obligations for the then-current school year without waiving any rights and remedies hereunder.
- (e) Service Provider may terminate this Agreement effective immediately upon written notice to the School if the School undergoes adverse change that makes the School financially unviable.
- (f) Service Provider may terminate this Agreement effective at the end of the then-current school year if there are unresolvable differences between the Parties regarding what Service Provider, in its sole discretion, considers to be conduct by the School that reflects materially and unfavorably on Service Provider. The Parties shall work in good faith to resolve their

differences to Service Provider's satisfaction during the thirty (30) days after which Service Provider provides School with notice of intent to terminate.

7.2 Termination by the School.

- (a) The School may terminate this Agreement if Service Provider, in School's sole discretion, fails to remedy a material breach of this Agreement within thirty (30) days after written notice from the School. However, if the default cannot be reasonably cured within thirty (30) days, and the Service Provider promptly undertakes or continues efforts to cure the material default within the thirty (30) day period, then such additional time as necessary to complete the cure, but in no event longer than sixty (60) days following written notice of breach.. Termination by the School will not relieve the School of any obligations to pay Service Fees and costs, whether accrued, pending or outstanding, to Service Provider as of the effective date of the termination of this Agreement. Nothing shall require the School to pay for the remainder of the Agreement post-termination and the School shall only be liable for any amounts that accrued as of the effective date of termination.
- (b) The School may terminate this Agreement if the Board determines at the end of a school year that the performance of Service Provider in the provision of the Education Program set forth in this Agreement does not meet the requirements for a cyber charter school, as defined by applicable laws and regulations provided, however, that notice of termination shall be given in writing no later than December 15 of the school year in which such termination shall be effective on June 30 of that school year unless Service Provider cures alleged breach prior to June 30. Notice of termination under this section shall include a detailed explanation of the reason(s) for termination and be subject to resolution process referenced in the Dispute Resolution section below.

7.3 Termination of the Charter. This Agreement will terminate upon the School's ceasing to be a party to a valid and binding charter, provided, however, that this Agreement will continue to remain in effect until the date of termination or expiration of a Term (as applicable) if (i) the School has entered into a subsequent charter, and (ii) this Agreement has not been terminated pursuant to this ARTICLE VII. Termination pursuant to this paragraph will not relieve the School of any obligations to pay Service Fees, and costs, whether accrued, pending or outstanding, to Service Provider as of the effective date of termination.

7.4 Change in Law. If any federal, Commonwealth or local law or regulation, court or administrative decision or Commonwealth Attorney General's opinion could reasonably be expected to have an adverse effect on the ability of either Party to carry out its obligations under this Agreement, such Party, upon written notice to the other Party, may request renegotiation of this Agreement. That notice may be given at any time following enactment of such change in applicable law, whether such change is effective on the date of such enactment or thereafter. Renegotiation will be undertaken in good faith. If the Parties are unable to renegotiate and agree upon revised terms within thirty (30) days after such notice of renegotiation, then this Agreement will be terminated effective at the end of the

academic year in which such notice was given. Service Provider may terminate this Agreement effective immediately upon written notice to School in the event Service Provider undergoes or is required to undergo a change that makes Service Provider, as determined in its sole judgment, financially unviable.

- 7.5 Real and Personal Property. Upon termination or expiration of this Agreement for any reason, all real and personal property leased by Service Provider to the School will remain the real and personal property and leases of Service Provider, unless assigned to the School by a written assignment between the Parties and all other personal property purchased by Service Provider with funds provided to Service Provider by the School pursuant to Section 4.1 above will be the personal property of the School provided that the School has fulfilled all payment obligations under Section 4.1 and any loan between the Parties. Notwithstanding the above, if any lease shall contain a buy-out or purchase option, the School shall have the right to exercise such option and purchase such equipment.
- 7.6 Return of Materials and Records. On the later of (a) five (5) business days after any termination or expiration of this Agreement for any reason, and (b) the effective date of termination as established in this ARTICLE VII, the School shall (i) assemble in a safe place all operational, systems and other administrative manuals and material, and copies thereof, and (ii) the President of the Board shall certify to Service Provider in writing that the School has ceased use of any proprietary materials relating to the Educational Program and has deleted the materials from all databases and storage media maintained by the School. At Service Provider's direction, the School will promptly permit representatives of Service Provider or its Affiliate to pick up all such materials at a mutually agreeable location. Service Provider shall return to the School all student educational records and all School-titled equipment and material (if any). Notwithstanding the foregoing, in the event that the School closes for any reason, the Service Provider shall, if required by applicable law or regulation, instead transmit the educational records of each student to said student's school district of residence.
- 7.7 Obligations on Termination/Non-Renewal. In the event this Agreement is terminated by either Party for any reason, (a) the Service Provider shall assist and cooperate with the School in the transition of the Education Program which shall commence immediately upon notice by either Party of that Party's intent to terminate the Agreement early or upon notice by either Party to not renew the Agreement beyond the expiration date, and (b) School shall pay Service Provider all amounts due under this Agreement upon the earlier of either their due dates or thirty (30) days after the effective date of termination..

ARTICLE VIII. PROPRIETARY INFORMATION, OWNERSHIP AND LICENSE

- 8.1 Service Provider Proprietary Information and Ownership. The School acknowledges that Service Provider owns the intellectual property rights and interests in the Protocols, curriculum, learning systems, assessment systems and pedantic methods licensed to or utilized by the School during the Term (“*Service Provider Protected Materials*”) and to the name “ACCELTM” (such name being a trademark of Service Provider) and associated

logos. Service Provider retains all right, title and interest in and to the Service Provider Protected Materials and any related proprietary rights not expressly granted to the School hereunder. The School acknowledges and agrees that it has no intellectual or property interest or claims in the Service Provider Protected Materials or name, and has no right to use the Service Provider Protected Materials or name unless expressly agreed to in writing by Service Provider. In accordance with all laws and regulations, Service Provider shall have the right to install signs on or at the Office and Satellite Facilities, including under the name of the School, describing the services provided by Service Provider or its assignees, including "Educational Services Provided by ACCEL Schools." Upon any expiration or termination of this Agreement, those signs shall be promptly removed.

- 8.2 License. The Service Provider developed and owns proprietary rights to the Service Provider Protected Materials. The Service Provider hereby grants the School a limited, non-exclusive, non-transferable, non-sublicensable, revocable license to use the Service Provider Protected Materials in connection with the School during the Term. When this Agreement is terminated or expires, the license granted herein shall automatically terminate and the School shall immediately cease using the Service Provider Protected Materials on its signage, stationary, website, marketing materials and any other material or location it appears. The School may not use the Service Provider Protected Materials for any purpose other than strictly within the scope of the license granted in this Agreement without the prior written consent of the Service Provider.
- 8.3 School Ownership. The School owns the School name, "Virtual Preparatory Academy of Pennsylvania Cyber Charter School", and any associated design marks and logos the School develops ("*School Trademarks*"). The School also owns any policies, procedures and other intellectual property it creates and develops in connection with delivering the Educational Program provided such intellectual property does not constitute derivative works of Service Provider Protected Materials ("*School Protected Materials*"). Service Provider and its Affiliates shall only use the School Trademarks and School Protected Materials to fulfill their obligations under this Agreement during the Term or as otherwise permitted by this Agreement and the School. Upon termination or expiration of this Agreement, Service Provider and its Affiliates shall immediately cease using the School Trademarks and School Protected Materials.

ARTICLE IX. INDEMNIFICATION AND LIMITATIONS OF LIABILITIES

- 9.1 Indemnification of Service Provider. To the extent permitted by Commonwealth law, the School will indemnify, defend and save and hold Service Provider and its Affiliates and all of their respective employees, officers, directors, subcontractors and agents (collectively, "*Representatives*") harmless against any and all third party claims, demands, suits or other forms of liability (any of which are a "*Claim*") (including reasonable attorney's fees and costs) that may arise out of, or by reason of, any wrongdoing, misconduct or negligence by the School or its Representatives; noncompliance by any of them with any agreements, covenants, or undertakings of the School contained in or made pursuant to this Agreement; any misrepresentations of the School contained in or made pursuant to this Agreement; any

action or omission by the School or its Representatives that results in injury, death or loss to person or property; and any violation by them of Commonwealth or federal law. In addition, the School will reimburse Service Provider, its Affiliates and their Representatives for any and all reasonable legal expenses and costs associated with the defense of any third-party Claim. Further, the Parties acknowledge and agree that Service Provider and its Affiliates shall have no liability or responsibility for activities of the School that occurred prior to the Start Date. This indemnification obligation shall survive the termination or expiration of this Agreement.

9.2 Indemnification of the School. Service Provider will indemnify, defend and save and hold the School and its Representatives harmless against any and all third party Claims (including reasonable attorney's fees and costs) that may arise out of, or by reason of, any wrongdoing, misconduct, or negligence of Service Provider, its agents, employees or assigns or noncompliance by Service Provider with any agreements, covenants, or undertakings of Service Provider contained in or made pursuant to this Agreement, and any misrepresentation of the Service Provider contained in or made pursuant to this Agreement. any action or omission by the Service Provider that results in injury, death or loss to person or property; and any violation by them of Commonwealth or federal law. In addition, Service Provider will reimburse the School for any and all reasonable legal expenses and costs associated with the defense of any third-party Claim. Further, the Parties acknowledge and agree that the School shall have no liability or responsibilities for claim against the Service Provider for unauthorized use of a service, product, or technology for technology products procured by the Service Provider for use with its contracted school or education entities, certain licensee modifications or combinations, or claims made against the Service Provider by its own Affiliates. This indemnification obligation shall survive the termination or expiration of this Agreement.

9.3 Defense. A Party seeking indemnification under this ARTICLE IX (the "*Indemnitee*") shall give notice to the indemnifying Party (the "*Indemnitor*") of a Claim or other circumstances likely to give rise to a request for indemnification, promptly after the Indemnitee becomes aware of the same. The Indemnitor, with Indemnitee's consent, which shall not be unreasonably withheld, conditioned or delayed, shall be afforded the opportunity to undertake the defense of and to settle by compromise or otherwise any Claim for which indemnification is available under this ARTICLE IX. The Indemnitor's selection of legal counsel is subject to the Indemnitee's approval (which approval shall not be unreasonably withheld). If an Indemnitor so assumes the defense of any Claim, the Indemnitee may participate in such defense with legal counsel of the Indemnitor's selection and at the expense of the Indemnitor. Indemnitor may not settle any Claim against Indemnitee or otherwise consent to any final order or judgement regarding same if such settlement, final order or judgement includes an admission of wrongdoing in Indemnitee's or Affiliate's name unless Indemnitee or Affiliate, as applicable, consents in writing. If the Indemnitor, upon the expiration of the fifteen (15) days after receipt of notice of a Claim by the Indemnitee under this ARTICLE IX, has not assumed the expense of the defense thereof, the Indemnitee may thereupon undertake the defense thereof on behalf of, and at the risk and expense of, the Indemnitor, with all reasonable costs and expenses of such defense to be paid by the Indemnitor.

9.4 Limitations of Liabilities.

- (a) Immunities and Statutory Limitations. The School will assert all immunities and statutory limitations of liability in connection with any third-party Claims arising from its operations and will not waive any immunities or limitations without the prior written consent of Service Provider. Notwithstanding this ARTICLE IX, to the fullest extent permitted by law, the School will waive the defense of governmental immunity in any dispute between the Parties.
- (b) MAXIMUM OBLIGATIONS. EXCEPT AS TO THE PARTIES' INDEMNIFICATION OBLIGATIONS, TO THE EXTENT PERMITTED BY LAW EACH PARTY'S MAXIMUM LIABILITY AND OBLIGATION TO THE OTHER PARTY AND THE EXCLUSIVE REMEDY FOR ANY CAUSE WHATSOEVER, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT OR IN TORT, INCLUDING NEGLIGENCE, RELATING TO THIS AGREEMENT SHALL BE LIMITED TO THE RECOVERY OF ACTUAL DIRECT DAMAGES UP TO THE AMOUNT OF FEES PAID UNDER THIS AGREEMENT IN THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE DATE A CLAIM IS MADE. NEITHER PARTY, ITS AFFILIATES AND ALL OF THEIR OFFICERS, DIRECTORS, EMPLOYEES AND AGENTS SHALL BE LIABLE FOR THE DEBTS, ACTS OR OMISSIONS OF THE OTHER PARTY, ITS AFFILIATES AND ANY OF THEIR OFFICERS, DIRECTORS, EMPLOYEES AND AGENTS.
- (c) ECONOMIC DAMAGES. EXCEPT IN CONNECTION WITH ITS INDEMNITY OBLIGATIONS EXPRESSLY SET FORTH HEREIN, NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, EXEMPLARY, PUNITIVE, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY LOST SAVINGS, LOST PROFITS, LOST SALES, BUSINESS INTERRUPTIONS, DELAY DAMAGES, OR LOST OR DESTROYED DATA, EVEN IF THAT PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
- (d) REASONABLENESS. NEITHER OCCASIONAL SHORT-TERM INTERRUPTIONS OF SERVICE OR PRODUCTS, WHICH ARE NOT UNREASONABLE UNDER COMPARABLE INDUSTRY STANDARDS NOR INTERRUPTIONS OF SERVICE OR PRODUCTS RESULTING FROM EVENTS OR CIRCUMSTANCES BEYOND SERVICE PROVIDER'S OR ITS AFFILIATES' REASONABLE CONTROL SHALL BE CAUSE FOR ANY LIABILITY OR CLAIM AGAINST SERVICE PROVIDER HEREUNDER, NOR SHALL ANY SUCH OCCASION RENDER SERVICE PROVIDER IN BREACH OF THIS AGREEMENT.

9.5 Right of Set-Off. Either Party may, but shall not be obligated to, set off against any and all payments due the other Party under this Agreement, any amount to which the Party is entitled to be indemnified hereunder provided that there has been a final judicial determination thereof.

**ARTICLE X.
INSURANCE**

10.1 To the extent permitted by applicable law, the School's insurance coverage shall be

not only for the School, its directors, officers and employees, but shall also name Service Provider, its Affiliates and their respective Representatives as additional insureds under such policies. Upon Service Provider's request, the Board shall deliver to the Service Provider a copy of such policies.

- 10.2 Cooperation. Each Party will, upon request, present evidence to the other that it maintains the requisite insurance in compliance with the provisions of this Agreement. Each Party will comply with any information or reporting requirements applicable to or required by the other Party's insurer(s), to the extent reasonably practicable.

ARTICLE XI. REPRESENTATIONS AND WARRANTIES

- 11.1 Representations and Warranties of Service Provider. Service Provider hereby represents and warrants to the School:
- (a) Service Provider is a duly formed limited liability company in good standing and is authorized to conduct business in the Commonwealth.
 - (b) To the best of its knowledge, Service Provider has the authority under applicable laws and regulations to execute, deliver, and perform this Agreement, and to incur the obligations provided for under this Agreement.
 - (c) Service Provider's actions under this Agreement have been and will be duly and validly authorized, and it will adopt any and all further resolutions or expenditure approvals required for execution of this Agreement.
 - (d) The services to be performed under this Agreement will be performed in a professional and workmanlike manner in accordance with commercially reasonable industry standards. THE FOREGOING WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SERVICE PROVIDER AND ITS AFFILIATES MAKE NO GUARANTEES AS TO THE GRADES OR TEST RESULTS TO BE OBTAINED BY THE STUDENTS. WITHOUT LIMITING THE FOREGOING, SERVICE PROVIDER AND ITS AFFILIATES MAKE NO GUARANTEES AND SHALL NOT BE LIABLE FOR NON-ACCESIBILITY OF ANY WEBSITE, SYSTEM OR PROGRAM, END-USER CONNECTION SPEED OR CONNECTIVITY PROBLEMS, REGARDLESS OF THE REASON.
- 11.2 Representations and Warranties of the School. The School hereby represents and warrants to Service Provider:
- (a) The Charter (i) authorizes the School to operate and receive the Commonwealth, federal and local education funds, as well as other revenues; (ii) approves the Education Program and other activities contemplated by this Agreement; and (iii) vests the School with all authority and powers necessary and desirable for carrying out the Education Program and other activities contemplated in this Agreement.
 - (b) The School has the authority under applicable laws and regulations to contract with a private entity to perform the Educational Services, Administrative Services, Technology Services, Supplemental Programs, and all other services under this Agreement and

execute, deliver and perform this Agreement, and to incur the obligations provided for under this Agreement.

- (c) The School's actions have been duly and validly authorized, and the School will adopt any and all further resolutions or expenditure approvals required for execution of this Agreement; provided, however, that with regard to expenditures, such resolutions and approvals shall be required only if the relevant information is available to the School and the School has sufficient funds in the approved Budget to pay for such expenditures.
 - (d) The School is not in breach of the terms of the Charter.
 - (e) The School has no intellectual or property rights or claims in the curriculum or other educational materials provided by Service Provider or in the name "ACCEL™" and will make no such claims in the future.
 - (f) After the Effective Date the School shall not incur any indebtedness outside the ordinary course of business or enter into any factoring or other debt arrangements without the prior written consent of the Service Provider, which consent shall not be unreasonably withheld, conditioned or delayed.
- 11.3 Mutual Warranties. Each Party to the Agreement warrants to the other that there are no pending actions, claims, suits or proceedings, to its knowledge, threatened or reasonably anticipated against or affecting it, which if adversely determined, would have a material adverse effect on its ability to perform its obligations under this Agreement.

ARTICLE XII. CONFIDENTIALITY AND NON-DISCLOSURE

- 12.1 Confidential Information. Without the prior written consent of the other Party, neither Party will at any time: (a) use for its own benefit or purposes or for the benefit or purposes of any other person, corporation or business organization, entity or enterprise; or (b) disclose in any manner to any person, corporation or business organization, entity or enterprise any trade secret, proprietary information, data, know-how or knowledge (including but not limited to curricula information, financial information, marketing information, cost information, vendor information, research, marketing plans, educational concepts and employee information), whether transferred in writing or other tangible form, or transferred orally, visually, electronically or by any other means, belonging to, or relating to the affairs of the other Party or any of its Affiliates (the "**Disclosing Party**") or received through association with the Disclosing Party (collectively, "**Confidential Information**"), whether the Confidential Information was received by the Receiving Party before or after the commencement of this Agreement. Confidential Information does not include information a Party receives (the "**Receiving Party**") and can show that it: (i) was known to the Receiving Party prior to its association with the Disclosing Party; (ii) had become available to the public other than by a breach of this Agreement by the Receiving Party; or (iii) was disclosed to the Receiving Party by a third person or entity that was not prohibited by a contractual, fiduciary or other legal obligation to the Disclosing Party from disclosing the Confidential Information. The Service Provider expressly recognizes and agrees that the School is subject to Pennsylvania Open Records Act under which any request

for covered records does not require previous notice to or approval from Service Provider.

- 12.2 Care and Authorized Use. Receiving Party will use at least the same degree of care to prevent unauthorized use and disclosure of Confidential Information as that Party uses with respect to its own confidential information (but in no event less than a reasonable degree of care); use Confidential Information only in performance of its obligations under this Agreement; and not disclose or grant access to such Confidential Information to any third party except on a need-to-know basis and based on a confidentiality agreement with terms at least as strict as those contained in this Agreement. This Agreement does not prohibit the Receiving Party from disclosing Confidential Information it is legally compelled to disclose by oral questions, interrogatories, requests for information or documents, subpoenas, investigative demands, judicial orders or similar process. However, if the Receiving Party is legally compelled to disclose any Confidential Information, the Receiving Party covenants to use its best efforts to provide the Disclosing Party with prompt written notice (not more than forty-eight (48) hours after learning it will be compelled to disclose) so that the Disclosing Party may seek a protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. In the event a protective order or other remedy is not obtained, or the Disclosing Party waives compliance with the provisions of this Agreement, the Receiving Party covenants to furnish only that portion of the Confidential Information that the Receiving Party is legally required to disclose, and to exercise its best efforts to obtain reliable assurance that the Confidential Information will be treated confidentially.
- 12.3 Survival. This ARTICLE 12 shall survive any expiration or termination of this Agreement.

ARTICLE XIII MISCELLANEOUS

- 13.1 Integration, Sole Agreement, and Third-Party Beneficiaries. This Agreement (together with any exhibits, schedules or documents referred to herein) is the entire agreement between the Parties, sets forth all of the promises, covenants, agreements, conditions and undertakings of the Parties with respect to the subject matter hereof, and supersedes all prior and contemporaneous agreements and understandings, negotiations, inducements or conditions, express or implied, oral or written, if any, between the Parties with respect to the subject matter hereof. Except as limited by Section 13.7 (Assignment) below, this Agreement shall be binding upon and is for the exclusive benefit of the Parties, and their respective affiliates, successors and permitted assigns, and not for the benefit of any third party, nor shall it be deemed to confer or have conferred any rights, express or implied, upon any other third party including a relationship in the nature of a third party beneficiary or fiduciary.
- 13.2 Force Majeure. If any circumstance should occur that is beyond the control of a Party and delays or renders impossible or impracticable performance as to the obligations of such Party, the Party's obligation to perform such obligations shall be postponed for a period

equal to the time during which such circumstance shall extend or, if such performance has been rendered impossible by such circumstance, shall be excused; provided, however, School's obligation to pay for services rendered shall re-commence upon the conclusion of the force majeure event. Such circumstances shall include, but are not limited to, disasters, acts of God, national emergencies, government regulations, pandemic, epidemic and/or disease or other acts beyond the control of the Parties. As soon as practicable, the Party experiencing a force majeure event shall notify the other Party about the event.

- 13.3 Governing Law, Jurisdiction and Waiver of Jury Trial. The laws of the Commonwealth of Pennsylvania, without regard to conflict of law principles, will govern this Agreement, its construction, and the determination of any rights, duties and remedies of the Parties arising out of or relating to this Agreement. Jurisdiction and venue are proper in the county in which the School Office is located. The Parties each waive any right to trial by jury in any litigation involving this Agreement, including breach, interpretation or performance thereof.
- 13.4 Construction. The Parties acknowledge and agree that this Agreement is the result of extensive negotiations between the Parties and their respective counsel, and that this Agreement shall not be construed against either Party by virtue of its role or its counsel's role in the drafting hereof. Paragraph captions or headings of various articles, sections and other subdivisions are used herein for convenience of reference only and are not intended to be used, nor shall they be used, in interpreting this instrument or modifying, defining or limiting any of the terms or provisions hereof.
- 13.5 Counterparts. This Agreement may be executed in counterparts, each of which will be deemed an original, but both of which will constitute one and the same instrument. Each Party may rely on facsimile signature pages as if such facsimile pages were originals.
- 13.6 Notices. Either Party may change the address to which notice to it, or copies thereof, shall be addressed by giving notice thereof to the other Party hereto in conformity with the following. All notices and other communications permitted or required by the terms of this Agreement shall be in writing and sent via any of the following methods to the Parties hereto at the addresses set forth below. Notice shall be deemed given: (a) upon receipt if sent by certified or registered mails, postage prepaid, return receipt requested, (b) on the day it is sent if by facsimile (with confirmation of transmission by sender's facsimile machine) and a copy simultaneously sent by nationally recognized overnight courier on a business day during normal business hours, or the next business day thereafter if sent on a non-business day or after normal business hours, (c) upon delivery if sent by personal delivery (with written confirmation of delivery), or (d) upon delivery if by sent by nationally recognized overnight carrier (with written confirmation of delivery). The addresses of the Parties are:

- 13.7 Assignment. Neither Party may assign this Agreement without the prior written consent of the other Party (which consent shall not be unreasonably withheld). Notwithstanding the foregoing, Service Provider may, without prior written consent from or notice to the School, assign this Agreement to its Affiliates or in connection with a merger, acquisition, asset sale or corporate reorganization.
- 13.8 Amendment and Cumulative Effect. This Agreement will not be altered, amended, modified or supplemented except in a written document approved by the School and signed by both the Board President or other authorized officer of the School and an authorized officer of Service Provider. The rights and remedies of the Parties hereto are cumulative and not exclusive of the rights and remedies that they otherwise might have now or hereafter, at law, in equity, by statute or otherwise.
- 13.9 Waiver and Delay. Except to the extent that a Party hereto may have otherwise agreed in writing, no waiver by that Party of any condition of this Agreement or breach by the other Party of any condition of this Agreement or breach by the other Party of any of its obligations or representations hereunder or thereunder shall be deemed to be a waiver of any other condition or subsequent or prior breach of the same or any other obligation or representation by the other Party, nor shall any forbearance by a Party to seek a remedy for any noncompliance or breach by the other Party be deemed to be a waiver by the first Party of its rights and remedies with respect to such noncompliance or breach.
- 13.10 Severability. If any term, condition or provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law or public policy, all other terms, conditions

and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner adverse to either Party. Upon such determination that any term, condition or provision is invalid, illegal or incapable of being enforced, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner to the extent that the transactions contemplated hereby are fulfilled to the extent possible.

13.11 Assertion of Claims. No Party shall bring any claim relating to this Agreement beyond one year after the date on which the Party became aware, or should reasonably have become aware, of the facts giving rise to any alleged liability of the other Party and, in any event, no later than two (2) years after (a) the last day of the Term, or (b) the earlier termination of this Agreement for any reason. The provisions of the preceding sentence shall not apply to claims for payment of amounts due under the “Consideration” Section of this Agreement or loans.

13.12 Injunctive Relief and Dispute Resolution.

- (a) Injunctive Relief. The School acknowledges that the covenants set forth in Sections “Non-Solicitation/Non-Hiring”, “Proprietary Information and Ownership”, “License”, and “Confidentiality and Non-Disclosure” above are reasonable in scope and content and necessary to protect the Service Provider and its business interests. The School understands and agrees that the breach or threatened breach of Sections “Non-Solicitation/Non-Hiring”, “Proprietary Information and Ownership”, “License”, and “Confidentiality and Non-Disclosure” of this Agreement would give rise to the aggrieved Party suffering irreparable harm which harm would be inadequately compensable in money damages. Accordingly, in addition to any other remedies available to it, the aggrieved Party shall be entitled to a restraining order and/or an injunction prohibiting the breach or threatened breach of any provision, requirement or covenant of this Agreement, without the requirement of posting a bond, in addition to and not in limitation of any other legal remedies which may be available.
- (b) Dispute Resolution Procedure. The Parties agree that they will attempt in good faith to settle any and all disputes arising in connection with this Agreement amicably in the ordinary course of business. If a dispute is not resolved in the ordinary course of business, the aggrieved Party will submit its dispute in writing to the Board’s president and Service Provider’s Chief Operating Officer or equivalent who shall have ten (10) business days to seek resolution of the matter. The dispute resolution procedures described herein will be deemed complete upon the earlier to occur of the following:
 - (i) the Parties mutually agree in writing to discontinue the dispute resolution procedures herein; and
 - (ii) the relevant dispute is not resolved within the time periods provided herein.

To the extent such dispute remains unresolved after employing procedure above, each Party, upon providing the other with ten (10) calendar days’ notice of its intent to do so, may pursue their respective remedies available to them to resolve the dispute.

13.13 Survival on Termination or Expiration. The following Articles and/or Sections shall survive termination or expiration of this Agreement: Consideration and Supplemental Programs (to the extent they relate to amounts owing for periods through the expiration or termination of this Agreement); Non-Solicitation/Non-Hiring; Termination of Agreement (to the extent they relate to obligations after expiration and termination); Proprietary Information, Ownership and License; Indemnification and Limitations of Liabilities; Confidentiality and Non-Disclosure; Interpretation, Sole Agreement and Third Party Beneficiaries; Governing Law, Jurisdiction and Waiver of Jury Trial; Construction; Counterparts; Notices; Assignment; Amendment and Cumulative Effect; Waiver and Delay; Severability; Assertion of Claims; Injunctive Relief and Dispute Resolution; Survival on Termination or Expiration; payment obligations and any provision that, based on its nature, should survive.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the date and year first above written.

Appendix M

Virtual Preparatory Academy of Pennsylvania

Preliminary Startup and Operating Budget

This appendix includes:

- Budget Narrative
- Start-Up and Operating Budget

BUDGET NARRATIVE

Virtual Preparatory Academy of Pennsylvania

STUDENT ENROLLMENT & DEMOGRAPHICS

Enrollment & Grade Level Mix

Beginning in the 2021-22 school year, enrollment is projected to serve 500 students, with the school growing to a maximum enrollment of 2,500 students by 2025 -26.

In year one of operations, the Virtual Preparatory Academy of Pennsylvania will enroll students in grades K through 10, expanding in 2022-23 to serve grades K-11, and then serving all K-12 grades in 2023-24 and all subsequent years.

The enrollment and grade level mix are projected at:

Grade Level	Year 1	Year 2	Year 3	Year 4	Year 5
Enrollment	500	1,000	1,500	2,000	2,500
K-5	28%	23%	24%	24%	24%
6-8	36%	35%	35%	35%	35%
9-12	36%	42%	41%	41%	41%
Key Assumption:	Grades K-10	Grades K-11	Full K-12 Offering	Full K-12 Offering	Full K-12 Offering

Student Retention Rate

At the end of each school year, students either graduate from the school or decide to voluntarily leave. Based on anticipated retention efforts, the budget assumes a projected retention rate of 75%.

In-Year Gross Enrollments vs. Withdrawals

Throughout each school year, historical trends have shown that new students are enrolled throughout the school year, peaking July through September. This is partially offset by students who withdraw for a variety of reasons.

Student Demographics

Based on historical Pennsylvania data, we project the following student demographics at Virtual Preparatory Academy of Pennsylvania:

- Special Education: 12.5%
- English Language Learners: 5%
- Economically Disadvantaged: 49%

REVENUES

In the plan, for 2021-22, local revenues were calculated assuming a blended rate of \$10,500 per pupil and an incremental \$18,000 per pupil for general education and special education, respectively, with an annual increase of 2% for years 2022-23 and beyond.

Federal revenues were calculated based on per pupil rate assumptions. The budget used a Title I rate of \$225 and a Title II rate of \$28, starting in 2021-22 in addition to IDEA funding at a rate of \$900 per pupil, beginning in 2022-23.

BUDGET NARRATIVE

The budget includes a loan advancement to cover start-up expenses incurred before the school opens. The budget assumes an interest rate of 4% and assumes repayment in full by the end of 2022 -23.

COST & EXPENDITURES

Key Assumptions:

Expenditures are based on educated estimates of anticipated expenses, with most the school's expenses being variable (i.e. fluctuating with student enrollment). The variability largely relies on enrollment projections and subsequent staffing ratios.

Budget lines containing an asterisk signify that the service is provided by Accel Online Pennsylvania LLC, "Accel".

Budget assumes a 2.5% inflation increase year over year of all appropriate expenses.

Salary assumptions were based on Pennsylvania-specific market research and include year-round staffing needs.

Employee benefit budget assumptions include health benefits at 20% of salaries, payroll taxes at 10% of salaries and a 5% contribution rate for a retirement plan. Additionally, a 2.5% annual salary raise was budgeted for every staff member, as well as a \$20,000 initial bonus allocation for year 2021-22 staff members. This annual bonus allocation scales accordingly with staff in subsequent years beyond 2021-22.

Instructional Cost:

The Curriculum and Instructional Support Services* expense was calculated using the Accel Fee Schedule and includes:

- Core Curriculum
- Elective Courses
- CTE Courses
- Clubs & Activities & Special Events
- Advanced Placement (AP) Courses
- Supplemental Instructional Support Programs
- ACCEL Management Platform for Education (AMP)
- Synchronous Online Instructional Tools

Student Technology Assistance Services* expenditures were calculated using the Accel Fee Schedule and includes:

- Student Instructional Technology and Software
- Student Instructional Technology and Software Support

Parent and Student Activities Program Expenses are budgeted to cover expenses related to the parent/student-focused opportunities this unique school will offer including parent training and support, as well as the implementation of the service-learning program activities.

Student Testing and Assessment expenditures are budgeted to cover expenses associated with administering state assessments in multiple locations throughout Pennsylvania. This also covers the facility expenses involved, as well as the setup and maintenance of computers to administer state testing.

Extracurricular Activities expenses are budgeted to provide resources to students who elect to participate in associated activities.

Student Printers expenses cover the printers that each household will be eligible to use. It also, per Pennsylvania state requirements, covers the ink for each printer, at the request of the family. The budget assumes a 1.2 students per family for

BUDGET NARRATIVE

equipment and technology distribution.

The Student Technology Support Reimbursement expense covers the reimbursement that each family will receive for the full cost of internet service. It also considers the students who are enrolled during the summer months.

PASA Testing (Technology, Travel & Administration) covers the travel and other costs associated with unique Special Education annual testing.

IEP Management Software, Alternative Curriculum and Assistive Technology covers the software, curriculum, and technology costs directly associated with Special Education students.

Extended School Year (Staffing) covers the costs associated with the additional 5-6 weeks of summer teacher staffing that may be needed for some students.

The Special Ed Program Support Services* expense is calculated using the Accel Fee Schedule and includes:

- Special Education Protocol Development
- Special Education Training and Professional Development
- Special Education Oversight and Compliance Support
- Provide guidance on IEP Management Software
- Provide guidance on Assistive Technology Procurement
- Special Education Service Provider Coordination
- Accessibility Support
- 504 Plan Guidance
- At-Risk Population Support Services
- Homeless and Migrant Support
- School Counseling Support
- Gifted Program Support
- ELL Support (provided by ESOL/TESOL certified leaders and teachers)

Support Services Cost:

The School Staff Support Services* expense is calculated using the Accel Fee Schedule and includes:

- Human Resources Support
- Staff Instructional Technology and Software

The Professional Development Services* expense is calculated using the Accel Fee Schedule and includes:

- Professional Development and Training for Teachers
- Pennsylvania-Specific Compliance Training

The Staff Training/Professional Development (Teachers) budgeted expense is in addition to what will be provided by Accel. This includes travel related expenses for teachers attending in person training events.

Travel and Conferences (Administrative & Board) expenses are for school leadership and board related travel and expenses.

The Enrollment/Placement/Student Support Services* expense was calculated using the Accel Fee Schedule and includes:

BUDGET NARRATIVE

- Community Outreach Support
- Enrollment Services
- Academic Placement Services
- Student Support Services (Student Advisors)
- Student Records Management

The School Operations Support Services* expense was calculated using the Accel Fee Schedule and includes:

- School Launch Support
- School Oversight
- School Leader Support and Development
- Accreditation Support
- Research and Analysis
- School Handbook Support
- External Reporting Support
- State Testing Support
- Accountability Support
- Grant Identification, Writing and Administration
- General Board Support
- Governance Training
- Purchasing Support

The Staff Recruiting expense covers direct sourcing in addition to recruiting services provided by Accel.

Legal Services, D&O Insurance, General Liability Insurance, Board Related Expenses, and Dues cover the expenses related to these items.

Office Supplies, Office Postage, and Copier/Reproduction expenditures are variable based on locations and are budgeted to increase as the school grows and satellite facilities are added.

Contracted Pupil Health Support are budgeted to cover expenses related to contracted school health and nursing services.

Business Cost:

The School Business Support Services* expense was calculated using the Accel Fee Schedule and includes:

- School Accounting Services
- School Financial Services
- Accounts Payable
- Federal Program Support
- Cash Flow Protection
- Insurance/Risk Management Support
- School Business Support

The budget also reflects the cost associated with Charter Choices, who will perform the below critical business services:

- District Billing Services
- The PDE, Federal Grant, and Tax Reporting
- Internal Controls and Accel Invoice Review
- Business Manager Services

BUDGET NARRATIVE

The External Audit expenditure will cover the cost of an independent CPA firm to conduct the audit.

Banking Fees cover expenses related to banking services.

Operation & Maintenance Cost:

Office Rent (including utilities) was budgeted for a primary facility in year one, with expansion into a new satellite office beginning in year three. The budget assumes expansion in Philadelphia (2023-24) and Pittsburgh (2024-25). Furniture, Fixtures and Equipment grows as the school adds locations.

Facility Support Services* expense was calculated using the Accel Fee Schedule and includes:

- Systems Administration
- Telecommunications Support
- Networking & Internet Connectivity
- Facilities Support Services

Maintenance and Repair, Internet, and Telephone were all budgeted on a per location basis.

In Person Covid-19 Health Measures were budgeted on a per location basis.

Debt Service:

Interest and Principal expenditures are related to the loan to support the startup period. Interest was calculated using a 4% rate, with repayment of debt beginning in year two.

Net Income & Fund Balance:

Projected Net Income of \$46K in 2021 -22, with the fund balance as a percent of revenue growing to 7% in year two, and continuing to improve through 2025-26.

APPENDIX O

BOARD POLICIES

These draft policies will be used as the basis of school policies and are subject to modification by the Board of Trustees.

If the charter application is approved, these will be modified to reflect Virtual Preparatory Academy of Pennsylvania's mission and vision and compliance with all Pennsylvania laws and regulations.

To the extent that anything in these policies could be construed to conflict with state and/or federal law, the applicable state and/or federal laws control. These policies are not intended to conflict with charter requirements.

1. Admissions Policy
2. Employment and Clearance Review Policy
3. Enrollment Policy
4. Evaluation and Reevaluation Policy
5. Finance Purchases Subject to Bid
6. Mandatory Reporting
7. Student Anti-Bullying
8. Student Attendance and Punctuality
9. Student CIPA
10. Student Conduct and Discipline
11. Student Disciplinary Exclusions and Hearing
12. Student Truancy Policy
13. Student Internet Access & Reimbursement Policy
14. Student Technology Policy

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Admissions Policy

Purpose

The Board of Trustees of the Virtual Preparatory Academy of Pennsylvania recognizes that all resident children in Pennsylvania qualify for admission to Virtual Preparatory Academy of Pennsylvania as follows:

As a cyber charter school, Virtual Preparatory Academy of Pennsylvania shall not discriminate in its admission policies or practices on the basis of intellectual ability, or athletic ability, measures of achievement or aptitude, status as a person with a disability, proficiency in the English language or any other basis that would be illegal if used by a school district.

Virtual Preparatory Academy of Pennsylvania will abide by all applicable federal, state, and local statutes, policies, and guidelines for student enrollment and does not impose enrollment requirements that are inconsistent with these policies and guidelines. These policies and guidelines include compliance with the McKinney-Vento Act regarding homeless students. The school leader or his/her designee shall serve as the liaison for homeless students. Students who meet the definition of homeless shall not be barred from enrolling due to lack of required documents.

As a cyber charter school, Virtual Preparatory Academy of Pennsylvania may limit admission to a particular grade level, a targeted population group composed of at-risk students, or areas of concentration of the school such as service learning.

As a cyber charter school, Virtual Preparatory Academy of Pennsylvania may establish reasonable criteria to evaluate prospective students, which shall be outlined in Virtual Preparatory Academy of Pennsylvania's Charter.

If more students apply to Virtual Preparatory Academy of Pennsylvania than the number of attendance slots available in the school, then students must be selected on a random basis from a pool of qualified applicants meeting the established eligibility criteria and submitting an application by the deadline established by Virtual Preparatory Academy of Pennsylvania. However, Virtual Preparatory Academy of Pennsylvania may give preference in enrollment to a child of an individual who has actively participated in the development of the cyber charter school and to siblings of students presently enrolled in Virtual Preparatory Academy of Pennsylvania.

Children from across the Commonwealth of Pennsylvania may enroll on a space-available basis, and the student's district of residence shall permit the student to attend Virtual Preparatory

Academy of Pennsylvania.

The Board of Trustees authorizes Virtual Preparatory Academy of Pennsylvania as follows:

Virtual Preparatory Academy of Pennsylvania will utilize an open enrollment plan to encourage all parents to consider enrolling their children. Any child who is qualified under the laws of Pennsylvania for admission to a public school is qualified for admission to Virtual Preparatory Academy of Pennsylvania.

Applications for student slots must be submitted by a deadline that will be established and made known by Virtual Preparatory Academy of Pennsylvania.

If more students submit applications than can be accommodated by the school's capacity—class, grade, etc., a lottery will be held to enroll students on a specified date that will be made known to all applicants and their families.

All students whose enrollment forms were filed by the enrollment deadline will be separated by grade. A lottery will only be held for a particular grade level if more applications are received than can be accommodated for that grade level.

Priority for available spaces shall be:

1. Students whose parents actively participated in the development of Virtual Preparatory Academy of Pennsylvania.
2. Students who have at least one sibling currently enrolled in Virtual Preparatory Academy of Pennsylvania.
3. Students who do not fall into paragraphs 1 or 2.

Within ten days after the lottery has been held, a mailing will be sent to all applicants regardless of their status. This status letter will indicate either that the student has been enrolled or that the student has been placed on the waiting list and the student's place on the waiting list.

The lottery will be conducted at a public board meeting and will be presided over by the President of the Board of Trustees or another member of the Board of Trustees designated for that purpose. A waiting list will be maintained in the order drawn by lot, if needed, for the admission of students at a grade level should space become available during the school year. Students whose applications are received after the deadline will be placed on the waiting list in the order that their applications are received.

Students are allowed to withdraw from Virtual Preparatory Academy of Pennsylvania at any time, upon written notice by the child's parent or guardian and upon evidence of arrangements at another school. The district of residence will be notified by Virtual Preparatory Academy of Pennsylvania when a student withdraws.

No tests will be administered to students in order to determine eligibility for admission.

Students who have been expelled from another school because their behavior reflected concerns for their personal safety, or for the safety of others, will be reviewed individually and enrollment decisions will be made in full compliance with Pennsylvania law and with the State Board of Education regulations.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL. THIS POLICY IS NOT INTENDED TO CONFLICT WITH CHARTER REQUIREMENTS.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Employment Background Checks and Clearance Policy

The Board of Trustees of the Virtual Preparatory Academy of Pennsylvania (“Charter School”) places substantial responsibility for the effective management and operation of the charter school with its administrative, professional and support employees. The charter school is committed to ensuring the safety of the students in its care by employing only those individuals who have demonstrated compliance with the Pennsylvania School Code and the Child Protection statutes.

Pre-Employment Requirements

All applicants for employment at the Virtual Preparatory Academy of Pennsylvania, including student teachers/interns, substitute teachers, and independent contractors and their employees, but excluding employees who do not have direct contact with students, must undergo state and federal background checks. Background checks shall be no more than one (1) year old at the time of application. Administrators shall make and keep a copy of the original background checks. The copy shall include the date copied and the name of the administrator who saw the original.

Direct contact with children is defined as care, supervision, guidance or control of children or routine interaction with children.

Applicants for employment are required to produce five (5) original documents for verification prior to employment:

- Pennsylvania State Criminal History Record (Act 34)
- Child Abuse Report (Act 151)
- Federal (FBI) Criminal History Report (Act 114)
- Arrest / Conviction and Certification Report (Act 24)
- Sexual Misconduct / Abuse Disclosure Release (Act 168)

The charter school shall conduct an employment history review in compliance with state law prior to issuing an offer of employment to a candidate. Failure to accurately report required information shall subject the candidate to discipline up to, and including, denial of employment or termination if already hired, and may subject the candidate to civil and criminal penalties. The charter school may use the information for the purpose of evaluating an applicant’s fitness to be hired or for continued employment and may report the information as permitted by law.

Before the charter school may offer employment to an applicant who would be employed by or in the charter school in a position involving direct contact with children, the charter school shall:

- (1) Require the applicant to provide:
 - (i) A list, including name, address, telephone number and other relevant contact

information of the applicant's:

- (A) Current employer.
- (B) All former employers that were school entities.
- (C) All former employers where the applicant was employed in positions that involved direct contact with children.

(ii) A written authorization that consents to and authorizes disclosure by the applicant's current and former employers of the information requested under paragraph (2) and the release of related records and that releases those employers from liability that may arise from such disclosure or release of records.

(iii) A written statement of whether the applicant:

- (A) has been the subject of an abuse or sexual misconduct investigation by any employer, State licensing agency, law enforcement agency or child protective services agency, unless the investigation resulted in a finding that the allegations were false;
- (B) has ever been disciplined, discharged, nonrenewed, asked to resign from employment, resigned from or otherwise separated from any employment while allegations of abuse or sexual misconduct as described in clause (A) were pending or under investigation, or due to an adjudication or findings of abuse or sexual misconduct as described in clause (A); or
- (C) has ever had a license, professional license or certificate suspended, surrendered or revoked while allegations of abuse or sexual misconduct as described in clause (A) were pending or under investigation, or due to an adjudication or findings of abuse or sexual misconduct as described in clause (A).

The charter school will conduct a review of the employment history of the applicant by contacting those employers listed by the applicant above and requesting the information described in the written authorization.

The charter school will check the eligibility for employment or certification status of any applicant for a position involving direct contact with children to determine whether the applicant holds valid and active certification appropriate for the position and is otherwise eligible for employment and whether the applicant has been the subject of public professional discipline.

The charter school will inquire whether the Department of Education has received notification of pending criminal charges against the applicant.

Information received under this section shall not be deemed a public record for the purposes of the act of February 14, 2008 (P.L.6, No.3), known as the "Right-to-Know Law."

Each candidate shall report, on the designated form, arrests and convictions as filed on the form. Candidates shall likewise report arrests and convictions that occur subsequent to initially submitting the form. Failure to accurately report such arrests and convictions may, depending on the nature of the offense, subject the individual to denial of employment, termination if already hired, and/or criminal prosecution.

A candidate shall not be employed until s/he has complied with the mandatory background check requirements for state and federal criminal history and child abuse clearance and the charter school has evaluated the results of that screening process.

A list of the enumerated offenses and employment bans related to class of conviction is

attached as Exhibit A.

Substitute Employees

For substitute employees, the employment history review required by this section shall be required only prior to the initial hiring of a substitute employee or placement on the charter school's approved substitute list and shall remain valid as long as the substitute employee continues to be employed by the charter school or remains on the charter school's approved substitute list. An employment history review conducted upon initial hiring of a substitute employee by an independent contractor, intermediate unit or any other entity that furnishes substitute staffing services to school entities shall satisfy the requirements of this section. An independent contractor, intermediate unit or any other entity furnishing substitute staffing services to school entities shall comply with the provisions of subsection (i)(3) and (4).

Independent Contractors

For employees of independent contractors, the employment history review shall be performed, either at the time of the initial hiring of the employee or prior to the assignment of an existing employee to perform work for the charter school in a position involving direct contact with children. The review shall remain valid as long as the employee remains employed by the same independent contractor, even if assigned to perform work at other school entities.

An independent contractor shall maintain records documenting employment history reviews for all employees as required by law. The charter school shall request all of the required clearances and checks from the independent contractor from which an employee is assigned to perform work. Prior to assigning an employee to perform work for the charter school in a position involving direct contact with children, the independent contractor shall inform the charter school of any instance known to the independent contractor in which the employee:

- (i) was the subject of any abuse or sexual misconduct investigation by any employer, State licensing agency, law enforcement authority or child protective services agency, unless such investigation resulted in a finding that allegations are false;
- (ii) has ever been disciplined, discharged, nonrenewed, removed from a substitute list, asked to resign from employment, resigned from or otherwise separated from any employment while allegations of abuse or sexual misconduct as described in subparagraph (i) were pending or under investigation, or due to an adjudication or findings of abuse or sexual misconduct as described in subparagraph (i); or
- (iii) has ever had a license, professional license or certificate suspended, surrendered or revoked while allegations of abuse or sexual misconduct as described in subparagraph (i) were pending or under investigation, or due to an adjudication or findings of abuse or sexual misconduct as described in subparagraph (i).

The independent contractor may not assign the employee to perform work for the charter school in a position involving direct contact with children where the charter school objects to the assignment after being informed of an instance listed above.

Miscellaneous

Nothing in this policy shall prevent Virtual Preparatory Academy of Pennsylvania as a

prospective employer from conducting further investigations of prospective employees or from requiring applicants to provide additional background information or authorizations beyond what is required by law nor to prevent it as a former employer from disclosing more information than what is required under this section.

Delegation of Responsibility

The Head of School/Chief Executive Officer or designee shall develop administrative guidelines for employment of staff, in accordance with Board policy and state and federal laws and regulations.

The Head of School/Chief Executive Officer or designee shall seek recommendations from former employers and others in assessing the candidate's qualifications. Recommendations and references shall be retained confidentially and for official use only.

The Head of School/Chief Executive Officer or designee will inventory the date of all existing clearances, establishing an age-tracking system going forward, and prepare notices to employees of the date of expiration.

Clearances

Clearances must be obtained every 60 months. Timelines for renewed clearances are based upon the date of each individual clearance.

Persons employed prior to Dec. 31, 2014 are required to obtain updated clearances as follows:

- Within 60 months of the date of the most recent clearance;
- By Dec. 31, 2015, if the clearance is older than 60 months; or
- By Dec. 31, 2015, if they have not received a clearance because they were employed in the same position and were not required to obtain a clearance under prior law.

For individuals that received clearances prior to 2008 and were not required to obtain the FBI clearance, the three required clearances would be obtained consistent with the timeframes above. Therefore, if either of the individual's Child Abuse and State Police Clearances were obtained within the past 60 months, all three clearances must be obtained within 60 months of the date of the most recent clearance. If all clearances were obtained more than 60 months ago, all three clearances must be obtained by Dec. 31, 2015.

The applicant or employee is responsible for paying the cost of the required clearances.

The charter school will maintain copies of the required information and require the individual to produce the original documents prior to employment or acceptance to serve in any such capacity, except provisional employees for limited periods

Child abuse history clearance information is confidential and may not be released to other individuals.

Any person who obtained their clearances may transfer or provide services in another capacity within the charter school without submitting new clearances as long as the person's clearances are current.

Provisional Hiring Period for Employees

Individuals may be employed for a single period, not to exceed 90 days if all of the following conditions are met:

- The applicant has applied for the three required clearances and they provide a copy of the completed forms to their employer.
- The employer has no knowledge of information pertaining to the applicant which would disqualify him from employment.
- The applicant swears or affirms in writing that he is not disqualified from employment pursuant to the grounds for denying employment in § 6344 (c) of the Child Protective Services Law or has not been convicted of an offense of a similar nature to those crimes under the laws or former laws of the United States, or one of its territories or possessions, another state, the District of Columbia, the Commonwealth of Puerto Rico or a foreign nation, or under a former law of the Commonwealth.
- The applicant is not permitted to work alone with children and must work in the immediate vicinity of a permanent employee.

To the extent that anything in this policy could be construed to conflict with applicable state and federal laws, the state and federal laws apply.

ADOPTED this day _____ of _____, 2020

President

DRAFT

EXHIBIT A

24 P.S. Section 1-111 *et seq* precludes the employment of individuals who have been convicted of certain enumerated felony offenses

- **criminal homicide**
- **aggravated assault**
- **stalking**
- **kidnapping**
- **unlawful restraint**
- **rape**
- **statutory sexual assault**
- **involuntary deviate sexual intercourse**
- **sexual assault**
- **institutional sexual assault**
- **aggravated indecent assault**
- **indecent assault**
- **indecent exposure**
- **incest**
- **concealing death of child**
- **endangering welfare of children**
- **dealing in infant children**
- **prostitution and related offenses**
- **obscene and other sexual materials and performances**
- **corruption of minors**
- **sexual abuse of children**
- **an offense designated as a felony under The Controlled Substance, Drug, Device and Cosmetic Act.**
- **Luring a child into a motor vehicle or structure**
- **Sexual intercourse with an animal**
- **Unlawful contact with a minor**
- **Solicitation of minors to traffic drugs**
- **Sexual exploitation of children**
- **An offense similar in nature to those crimes listed above for which a person was convicted under the laws or former laws of the United States or one of its territories or possessions, another state, the District of Columbia, the Commonwealth of Puerto Rico or a foreign nation, or under a former law of this Commonwealth.**

In addition to the lifelong ban as enumerated above, the new criminal background check provision adds a **ten year ban of employment** if the criminal history record indicates that the prospective employee has been convicted of a felony offense of the first, second or third degree (other than the above-cited enumerated offenses). An employee is only eligible for employment ONLY if a period of ten years has elapsed from the date of expiration of the sentence for the offense.

If the conviction is for a misdemeanor of the first degree, the person shall be eligible for prospective employment only if a period of five (5) years has elapsed from the date of expiration of the sentence for the offense.

If the criminal background check reveals that the person has been convicted of more than one offense graded as a misdemeanor of the first degree of driving under the influence of alcohol or a controlled substance, the employee is precluded from employment in a school for three years from the expiration of the sentence from the most recent offense.

In order to comply with any concerns regarding the constitutionality of any ban from employment in a school due to a conviction as discussed in any section above, school entities should continue to apply the employment prohibitions contained in Section 111 of the Pennsylvania School Code on a case-by-case basis, with student safety serving as the paramount consideration.

If a school official may employ such an individual if, after a due diligence investigation of the facts surrounding an offense and in consultation with its legal counsel, concludes in good faith that the application of Section 111 to an individual would violate the Pennsylvania Constitution as interpreted by a Pennsylvania court.

In making this determination, it is critical that a school official carefully consider the nature of the offense as it relates to student safety and the person's suitability for school employment, when the offense occurred, and the person's current position.

It is also of utmost importance that school officials document their determination not to apply the statute to the employee or candidate. Documentation must describe the process employed by school officials, their findings, and their analysis as to the constitutionality of applying Section 111 to the employee or candidate. A determination that the application of Section 111 would be unconstitutional as applied to a particular individual must be supported by a written opinion from the school's legal counsel.

In considering the constitutionality of the application of Section 111 to a particular individual, PDE would expect school officials and their legal counsel to consider several important factors. Primary among the factors is the nature of the particular offense. In particular, school officials should consider whether the nature of the particular crime is such that the individual poses a danger specifically to school students or is otherwise unsuitable for school employment. This factor would be most paramount as to an employee or candidate convicted of a sexual offense, especially an offense involving sexual, physical or verbal abuse against a child.

In addition, school officials to consider the following additional factors:

- ☐ The time period that has elapsed since the offense.
- ☐ Whether the offense was an isolated single event or was repeated.
- ☐ The presence or absence of a subsequent criminal history.
- ☐ The nature of the person's current position and whether the offense bears a relationship to the current position.
- ☐ Whether the person was employed at a school when the crime occurred.
- ☐ Whether the conduct occurred on the property of a school.

- ☐ The employee's employment record with the school.
- ☐ Any evidence of rehabilitation provided by the employee or prospective employee since the conviction for the applicable offense.

NOTE: In considering the nature of the offense, PDE believes that offenses that implicate the safety of children (e.g., sexual, physical or verbal abuse or violence against children) would presumptively necessitate a ban on employment regardless of when the offense occurred.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Enrollment Policy

Purpose

The Board of Trustees of Virtual Preparatory Academy of Pennsylvania (“Charter School”) recognizes that its enrollment policy must reflect current requirements of the Pennsylvania Public School Code and 22 Pa. Code, Chapter 11. Therefore, Virtual Preparatory Academy of Pennsylvania, as a public charter school, complies with these enrollment procedures to ensure that both resident and eligible non- residents are promptly enrolled through the policy provisions set forth below.

Entitlement to Education

The Charter School refers to its Student Admission/Process policy by reference. Every child of school age who is a resident of a Pennsylvania school district is entitled to a public school education. Resident students include those residing with their parent(s) and non-resident students living with a Pennsylvania school district resident who is supporting the child gratis and seeking enrollment. After registration to the school, the Charter School will request the required enrollment documentation. Once the required enrollment documentation described below is provided, Charter School must enroll a student and permit them to attend school. A child should be permitted to attend school on the next school day after the day on which the child is presented for enrollment, and in all cases within five (5) business days of Charter School’s receipt of the required documents, if a space exists.

Required Enrollment Documentation

Except when a child is homeless, whenever a child of school age is presented for enrollment by a parent(s), a Pennsylvania school district resident, or any other person having charge or care of the child, Charter School shall require that the following information be documented before enrolling the child and allowing the child to attend school:

1. Proof of the child's age

Any one of the following constitutes acceptable documentation: birth certificate; notarized copy of birth certificate; baptismal certificate; copy of the record of baptism – notarized or duly certified and showing the date of birth; notarized statement from the parents or another relative indicating the date of birth; a valid passport; a prior school record indicating the date of birth.

2. Immunizations required by law

Acceptable documentation includes: either the child's immunization record, a written statement from the former school district or from a medical office that the required immunizations have been administered, or that a required series is in progress, or verbal assurances from the former school district or a medical office that the required immunizations have been completed, with records to follow.

3. Proof of Residency

Acceptable documentation includes: a deed, a lease, current utility bill, current credit card bill, property tax bill, vehicle registration, driver's license, or Department of Transportation identification card. While more than one form of residency confirmation may be required, the Charter School should be flexible in verifying residency, and should consider what information is reasonable in light of the family's situation. See the paragraph on Homeless Students for guidance in that situation.

4. Parent Registration Statement

A sworn statement attesting to whether the student has been or is suspended or expelled for offenses involving drugs, alcohol, weapons, infliction of injury or violence on school property must be provided for a student to be admitted to any school entity. Charter School may not deny or delay a child's school enrollment based on the information contained in a disciplinary record or sworn statement. However, Charter School may wait to enroll a student until a current period of expulsion has expired.

5. Home Language Survey

All students seeking first time enrollment in a school shall be given a home language survey in accordance with requirements of the U.S. Department of Education's Office for Civil Rights. Enrollment of the student may not be delayed in order to administer the Home Language Survey.

Documents Which May Be Requested But Not As a Condition of Enrollment -

Items Which May Be Requested

Although Charter School may ask for any of the information below, Charter School may not require it as a condition of enrolling or admitting a child and a child's enrollment or attendance may not be delayed until these documents are provided. Among the documents that Charter School may request are: picture identification, health or physical examination records, academic records, attendance records, Individualized Education Program, and other special education records. In addition, a school district may not require that a physical examination be conducted as a condition of enrollment.

Registration Form

A registration form, filled out by families for student enrollment, may include the following: name, address, telephone number, name of parent(s) or guardian(s) or resident adult(s) with whom the student is living, emergency contact information, former school information, and

other locally required information. Failure to complete this form will not be made a condition of the student's enrollment. However, the Charter School will require that the student's parent or guardian fill out the Charter School Enrollment Notification required for a local school district to process the Charter School's per pupil allocation.

Documentation Required From Other Sources

Charter School is also entitled by law to receive information on an enrolling student from the previous school, public, charter, nonpublic or private, which the student attended. However, the provision of this information rests with the educational entity and not the family, and so, Charter School, as the receiving local educational agency, will not require this information as a precondition to enrollment and will not delay a student's admission for lack of this information.

Student Education Records

Upon enrollment, Charter School contacts the student's former school for a copy of the student's education records. The former school district or charter school, if within this Commonwealth, is required to respond by forwarding the records within 10 business days of the date upon which a student's records are requested by Charter School. School districts shall enroll students within 5 business days regardless of receipt of records from the previous districts.

Disciplinary Records

Whenever a pupil transfers to another Pennsylvania school entity or nonpublic school, a certified copy of the student's disciplinary record shall be transmitted to the school entity or nonpublic school to which the pupil has transferred. The school entity or nonpublic school to which the student has transferred should request the record. The sending school entity or nonpublic school shall have 10 days from receipt of the request to supply a certified copy of the student's disciplinary record. Failure to receive the student's discipline record cannot be used to deny or delay the student's enrollment or school attendance. The school may not deny or delay a child's school enrollment based on the information contained in a disciplinary record or sworn statement.

Prohibited Requests - Items Which May Not Be Requested

For both enrollment and also for residency determinations, Charter School will not request or require any of the following: a social security number; the reason for a child's placement if not living with natural parents; a child's or parent's visa; agency records; or, except in the limited circumstances described in the next section, a court order or records relating to a dependency proceeding. A child's right to be admitted to school may not be conditioned on the child's immigration status. Charter School will not inquire as to the immigration status of a student as part of the admissions process.

Student Classifications for Education Entitlement

- Resident Students and Court Orders or Custody Agreements

Charter School may require a parent/guardian to provide a custody or dependency order when

the child is being enrolled at Charter School pursuant to parent relying on court order or custody agreement as the basis for enrollment.

Charter School will not require a custody order or agreement as a condition of enrollment in any circumstances other than the circumstance specified above.

- Students Living With a Resident Adult other than a Parent

When a child is living with an adult other than a parent, who is supporting the child without personal compensation, (gratis) the child may attend the public schools of that adult's school district, provided that resident makes application and supplies the required enrollment information noted in the section entitled Required Enrollment Documentation. In addition, before accepting the child as a student, Charter School shall require the resident to file only one of the following:

1. A sworn and notarized statement from the resident of the school district indicating that the signer is a resident of the school district, is supporting the child without receiving personal compensation, that the child is living with the resident continuously and not just for the school year, and that the resident will accept all responsibilities relating to the child's schooling), or

2. Appropriate legal documentation to show dependency or guardianship, which may include a custody order. Charter School may require other information to be submitted by the resident to substantiate the sworn statement. The natural parent(s) or former guardian(s) of the student may not be required to provide information. Once the requested information is provided, Charter School will enroll the child and permit him or her to begin to attend school without delay, but in no case more than 5 days, if a space exists pursuant to the school's Admission Policy

A resident's receipt of payments, such as Supplemental Security Income (SSI), Transitional Assistance for Needy Families (TANF), pre-adoptive or adoptive support, maintenance on public or private health insurance, support from the military or military personnel or other payments for or on account of the child such as child support, shall not be deemed to be personal compensation or gain.

- Foster Children

While the Public School Code provisions governing nonresident children placed in foster care are not applicable to charter schools pursuant to the Pennsylvania Charter School Law, the Charter School will use such Public School Code provisions for guidance in such situations in conjunction with consultation with the Charter School's legal counsel.

- Nonresident Children Living in Facilities or Institutions

A child living in a district in which there is located a licensed shelter, group home, maternity home, residence, facility, orphanage or other institution for the care or training of children or adolescents, shall be admitted to that district's schools if living at or assigned to the facility or institution. If the school district or residence of a child living at or assigned to a facility or institution cannot be determined, but the child is determined to be a resident of the

Commonwealth, the child shall be permitted to attend the public schools of the district. This includes a child placed by the child's resident parents or guardians at a facility or institution and subsequently abandoned or deserted.

- Emancipated Minors

An emancipated minor is a student under the age of 21 who has established a domicile apart from the continued control and support of parents or guardians or who is living with a spouse. The school district in which this student is living is his or her resident school district and the student may enroll at Charter School without any additional assistance from an adult.

- Homeless Students

The Charter School will ensure that each child of a homeless individual and each homeless youth have equal access to the same free, appropriate public education, including a public preschool education, as provided to other children and youth. Homeless students may reside in shelters, hotels, motels, cars, tents or be temporarily doubled-up with a resident family because of lack of housing. In the case of homeless students, traditional concepts of "residence" and "domicile" do not apply. Homeless children and youth lack a fixed, regular, and adequate nighttime residence. Included within the definition of homeless children and youth are those who are "awaiting foster care placement" and "unaccompanied homeless youth."

Unaccompanied homeless youth may enroll without documents and without the help of an adult. Unaccompanied homeless youth includes any child who is "not in the physical custody of a parent or guardian." Falling within this definition are students who have run away from home, been thrown out of their home, or been abandoned or separated from their parents or guardians.

Youth awaiting foster care placement include those who are placed in emergency, interim or respite foster care; kinship care; evaluation or diagnostic centers or placements for the sole purpose of evaluation. When necessary, Charter School administration will consult with the respective county children and youth agencies to determine if a child meets the definition of "awaiting foster care placement", including, on a case-by-case basis, whether a child who does not clearly fall into one of these categories is nevertheless a child "awaiting foster care placement."

Homeless youth are entitled to immediate enrollments, if a space exists pursuant to the Admissions Policy and their families are not required to prove residency regarding school enrollment. These students are considered residents of the district where they are presently residing, or continue their education in the district of prior attendance.

- Pre-Adoptive and Adoptive Students

The Federal Adoption Assistance Program, among other things, provides for adoption assistance payments to encourage the placement of certain hard-to place children with adoptive parents. Pennsylvania has adopted companion legislation, known as the Adoption Opportunities Act. Children living with pre-adoptive parents who are receiving adoption assistance subsidies, pre-adoptive foster payments, or other payments such as Supplemental Security Income (SSI) or Transitional Assistance for Needy Families (TANF), are entitled to

attend school in the school district in which the pre-adoptive parents reside. Notwithstanding receipt of any of the above payments, children living in pre-adoptive situations are considered residents of the school district in which their pre-adoptive parents reside. Children living with adoptive parents are entitled to all free school privileges accorded to resident school children of the respective school district.

- School-Age Children of Military Personnel

When Pennsylvania residents who are military personnel are deployed and their school age children are living with relatives or family friends in a school district for that period of time, the students are entitled to attend school in the school district in which they are residing.

Other Issues Related To Enrollment

- Address Confidentiality Program (ACP)

Some families may enroll a student using an ACP card which lists a post office box as their address. This is their legal address and Charter School will not require additional information about their residence. School records from the student's former school will be forwarded through the ACP.

- Age

Children are considered school age from the time they are admitted to the public charter school's educational program until graduation from high school or the age of 21 if identified pursuant to the Individuals with Disabilities Education Act of 2004. The age of admission for the Virtual Preparatory Academy of Pennsylvania is age 5 years and seven months– which age must be obtained before September 1st of the requested school year.

Charter School will not refuse admission to a child who meets the age requirement. Students who turn 21 during the school term are entitled to finish that school term. If a student is under age 21 and has a Graduation Equivalency Diploma ("GED"), the student can enroll in school and work towards a diploma.

For subsidy purposes, students who reach age 21 after the school term begins are eligible to be counted for the entire school term. The Department of Education will accept requests to allow students to be counted in membership for subsidy purposes for an extended school program beyond age 21 if the request includes a hearing officer decision or court order.

- Children and Families with Limited English Proficiency

Children and families with limited English proficiency will be provided translation and interpretation services to the extent needed to help the family understand the enrollment process and enroll the student in school promptly per applicable federal law.

- Twins and Multiple Siblings

While the Public School Code provision governing twins and multiple siblings is not applicable to charter schools pursuant to the Pennsylvania Charter School Law, the Charter School will use

the Public School Code provision for guidance in such situations in conjunction with consultation with the Charter School’s legal counsel.

Submitting Enrollment Complaints to the Department Of Education

When a dispute arises regarding enrollment of a student, the person attempting to enroll the child or Charter School may bring the dispute to the attention of the Department’s School Services Unit. A complaint may be filed by mail, email or by phone with written follow up. After receipt of a complaint, a Department representative will contact Charter School, family or other involved parties to determine the facts, whether the child is entitled to enrollment at Charter School and to try to resolve the problem. These contacts, whenever possible, will occur within five (5) days of receipt of the complaint. If the complaint is not amicably resolved, a written determination will be made and sent to Charter School and the individual who filed the complaint.

If Charter School does not enroll the student within five (5) school days after receiving the written determination and space exists pursuant to the school’s Admissions Policy, the Department will issue a letter to Charter School requesting its position on the situation. Charter School will have five (5) school days to respond to the request. If Charter School refuses to enroll the student or does not respond, the matter will be forwarded to the Department’s Office of Chief Counsel (OCC). The OCC and the Deputy Secretary for Elementary/Secondary Education will determine if Charter School’s response is valid to deny enrollment. If not, the Deputy Secretary will determine what additional measures may be necessary to assure enrollment.

Written Policies

Charter School’s written policy on student admission is a public record and will be posted to the school’s website.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL’S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Adopted this _____ day of _____, 2020

Secretary

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Evaluation and Reevaluation Policy

In accordance with applicable state and federal regulations, the Board of Trustees of the Virtual Preparatory Academy of Pennsylvania (“Charter School”) recognizes that in order to properly identify a student as eligible, the Charter School must have a process and procedures in place and therefore, directs as follows:

That the Charter School adopts this policy which sets forth procedural requirements for Evaluations and Reevaluations which are necessary to identify specific learning disabilities in accordance with its application for charter. To determine that a child has a specific learning disability, the Charter School shall address whether the child does not achieve adequately for the child’s age or meet State-approved grade-level standards in one or more of the following areas, when provided with learning experiences and scientifically based instruction appropriate for the child’s age or State-approved grade-level standards:

- (i) Oral expression.
 - (ii) Listening comprehension.
 - (iii) Written expression.
 - (iv) Basic reading skill.
 - (v) Reading fluency skills.
 - (vi) Reading comprehension.
 - (vii) Mathematics calculation.
 - (viii) Mathematics problem solving.
- (2) Use one of the following procedures:
- (i) A process based on the child’s response to scientific, research-based intervention, which includes documentation that:
 - (A) The student received high quality instruction in the general education setting.
 - (B) Research-based interventions were provided to the student.

(C) Student progress was regularly monitored.

(ii) A process that examines whether a child exhibits a pattern of strengths and weaknesses, relative to intellectual ability as defined by a severe discrepancy between intellectual ability and achievement, or relative to age or grade.

(3) Have determined that its findings under this section are not primarily the result of:

- (i) A visual, hearing or orthopedic disability.
- (ii) Mental retardation.
- (iii) Emotional disturbance.
- (iv) Cultural factors.
- (v) Environmental or economic disadvantage.
- (vi) Limited English proficiency.

(4) Ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or mathematics by considering documentation that:

(i) Prior to, or as a part of, the referral process, the child was provided scientifically-based instruction in regular education settings, delivered by qualified personnel, as indicated by observations of routine classroom instruction.

(ii) Repeated assessments of achievement were conducted at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.

The IEP Team, which consists of a group of qualified professionals and the student's parents, reviews the evaluation materials to determine whether the child is a child with a disability. The Team shall include a certified school psychologist when evaluating a child for autism, emotional disturbance, mental retardation, multiple disabilities, other health impairments, specific learning disability or traumatic brain injury. Other professionals include hearing or visual specialists, a medical doctor, and occupational, physical or speech therapists. The evaluation must include information from the child's teacher(s), such as the results of informal tests and narrative statements describing the student's strengths and needs and also verbal and written input from the parent(s) as to the student's medical, social and academic history and observations from the home.

The initial evaluation shall be completed and a copy of the evaluation report presented to the parents no later than 60-calendar days after the agency receives written parental consent for evaluation, except that the calendar days from the day after the last day of the spring school term up to and including the day before the first day of the subsequent fall school term will not

be counted. The evaluator shall prepare and sign the full report of the evaluation containing information such as: a clear explanation of the testing and assessment results; a complete summary of all test scores, including, for all standardized testing administered, all applicable full scale or battery scores, domain or composite scores, and subtest scores reported in standard, scaled, or T-score format; a complete summary of all information obtain or reviewed from sources other than testing conducted by the evaluator; and specified recommendations for educational programming and/or placement, if necessary.

Parents may request an evaluation at any time, and the request must be in writing. The Charter School shall make the Permission to Evaluate form readily available for that purpose. If a request is made orally to any professional employee or administrator of the Charter School, that individual shall provide a copy of the Permission to Evaluate form to the parents within 10-calendar days of the oral request.

Copies of the Evaluation Report shall be disseminated to the parents at least 10 school days prior to the meeting of the IEP Team, unless this requirement is waived by a parent in writing.

Reevaluations

Once the child has been identified as being eligible for special education, the child must be reevaluated to determine whether the child's needs have changed. A Reevaluation must be conducted every three years. An exception to this is if a child has mental retardation. For students who have been determined to have mental retardation, reevaluations must occur every two years.

The Reevaluation process begins with a review of existing evaluation data by the IEP Team, which once more includes the parents. The IEP Team shall also include a certified school psychologist when evaluating a child for autism, emotional disturbance, mental retardation, multiple disabilities, other health impairment, specific learning disability and traumatic brain injury.

The information the IEP Team must review includes, but is not limited to, existing evaluation data, evaluations and information provided by the parents, current classroom-based assessments and observations, observations by teachers and services providers, and whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals in the IEP and to participate as appropriate in the general curriculum.

At the end of the review, the IEP Team concludes either that no additional data are needed to determine continued eligibility for special education and related services, or that there is a need for additional data.

When additional data is needed to complete a Reevaluation to determine whether the child continues to be a child with a disability and still in need of special education, Charter School officials must also obtain written permission through a formal Permission to Re-Evaluate form. However, if the Charter School has made "reasonable attempts" to get permission and has failed to get a response, it may proceed with the Reevaluation.

Reasonable attempts must consist of:

- Documented Telephone calls
- Registered (return receipt required) and First Class Mail letters to the parents
- Visits to the home or parents' place of business

The reevaluation time line will be 60-calendar days, except that the calendar days from the day after the last day of the spring school term up to and including the day before the first day of the subsequent fall school term will not be counted.

Copies of the reevaluation report shall be disseminated to the parents at least 10 school days prior to the meeting of the IEP team, unless this requirement is waived by a parent in writing.

All evaluations (whether an initial evaluation or a reevaluation) needed to determine a child's eligibility for special education services must be provided by the Charter School at no charge to the parents. If a child needs special education, the special programs and related services as determined by the IEP Team will be provided free by the Charter School.

The Head of School/Chief Executive Officer or his/her designee is directed to implement all procedures in accordance with this policy.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Board of Trustees Policy

Purchases Subject to Bid Policy

Purpose

It is the policy of the Board of Trustees ("Board") to advertise and obtain competitive bids for products and services where such bids are required by law or where such bids may be believed to bring about a cost saving to Virtual Preparatory Academy of Pennsylvania ("Charter School").

1. All construction, reconstruction, repairs, maintenance or work of any nature upon any school building or upon any school property or upon any building or portion of building, made by Charter School where the entire cost, value, or amount of such construction, reconstruction, repairs, maintenance or work, including labor and material is in excess of Eighteen Thousand Five Hundred Dollars (\$18,500.00) shall be done under separate contracts to be entered into by Charter School with the lowest responsible bidder, under proper terms, after due public notice has been given asking for competitive bids.
2. Written or telephonic price quotations from at least three (3) qualified and responsible contractors shall be requested by the Board for all contracts that exceed four thousand dollars (\$4,000.00) or, in lieu of price quotations, a memorandum shall be kept on file showing that fewer than three (3) qualified contractors exist in the market area within which it is practicable to obtain quotations. A written record shall be made of these quotations and shall contain the date of the quotation; name of contractor; contractor's representative; the construction, reconstruction, repair, maintenance or work of the quotation. The written price quotations, records or telephonic price quotations and memoranda shall be kept on file for a period of three (3) years.
3. Any construction, reconstruction, repairs or work of any nature, where the entire cost or value, including labor and material, is less than Five Thousand Dollars (\$5,000.00) may be performed by Charter School's own maintenance personnel. The Board may authorize the Secretary of the Board or Head of School/Chief Executive Officer to award contracts for construction, reconstruction, repairs or work of any nature, where the entire cost or value, including labor and materials, is Eighteen Thousand Five Hundred Dollars (\$18,500.00) or less, without soliciting competitive bids, subject, however, to the provisions set forth above in paragraph number 2.
4. As required by code, every contract for construction, reconstruction, alteration, repair, improvement or maintenance of public works shall comply with the provisions of the Act of March 3, 1978, known as the "Steel Procurement Act."
5. No person, consultant, firm or corporation contracting with Charter School for purposes of rendering personal or professional services to Charter School shall share with any Charter School Board member or employee, and no Charter School Board member or

employee shall accept, any portion of the compensation or fees paid by Charter School for the contracted services provided to Charter School except under the following terms and conditions:

- a. Full disclosure of all relevant information regarding the sharing of the compensation or fees shall be made to the Board.
 - b. The Board must approve the sharing of any fee or compensation for personal or professional services prior to the performance of said services.
 - c. No fee or compensation for personal or professional services may be shared except for work actually performed.
 - d. No shared fee or compensation for personal or professional services may be paid at a rate in excess of that commensurate for similar personal or professional services.
6. Charter School is prohibited from evading the provisions of this policy as to advertising for bids or purchasing materials or contracting for services piecemeal for the purpose of obtaining prices under Eighteen Thousand Five Hundred Dollars (\$18,500.00).

Responsibility

1. Bid specifications shall be approved by the Board before being published.
 - a. The Public School Code requires Charter School to comply with the Pennsylvania Prevailing Wage Act. This Act requires every public entity to ensure that the prevailing wage rates are paid to workers employed on any construction, reconstruction, demolition, alteration, or repair work in excess of Twenty-Five Thousand Dollars (\$25,000.00). The prevailing wages, as determined by the Department of Labor and Industry, must be incorporated into the bidding specifications and the final contract for any work that falls under the Pennsylvania Prevailing Wage Act.
2. The Board recognizes that emergencies may occur when imminent danger exists to persons or property or the continuance of existing school classes is threatened, and time for bidding cannot be provided because of the need for immediate action in accordance with the Pennsylvania School Code. Such emergency must be declared by the Board and stated by resolution at an emergency meeting which does not require public notice pursuant to the Sunshine Act.
3. Whenever a contractor shall submit a bid for the performance of work and the contractor later claims a mistake, error or omission in preparing said bid, the contractor shall, before the bids are open, make known the fact and in such case the bid shall be returned unopened and the contractor may submit a revised bid proposal at the discretion of Charter School or the contractor may lose the right to bid if circumstances as determined by the Board require.
4. Bids shall be opened by the Board Secretary and/or an appointed Board Member at the

next regularly scheduled Board Meeting after the closing date of the bids. The Board shall accept the bid of the lowest responsible bidder, kind, quality, and material being equal, but shall have the right to reject any and all bids, or select a single item from any bid.

5. There are exceptions to contracts or purchases which do not require advertising, bidding or price quotations and are set forth at 16 Pa.C.S.A. sec. 1802(h) and include but are not limited to professional service contracts involving professional expertise (ie., medical, legal, architects, engineers, CPAs) and specifically those involving construction management services.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL. THIS POLICY IS NOT INTENDED TO CONFLICT WITH CHARTER REQUIREMENTS.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Mandatory Child Abuse Reporting Policy

Purpose: Virtual Preparatory Academy of Pennsylvania strives to safeguard the well-being of its students. As a result, this Mandatory Child Abuse Reporting Policy addresses VPAPA's employee mandatory reporting obligations when child abuse is suspected; describes what to report; and details how to make a report.

Scope: This policy describes the mandatory child abuse reporting obligation for all employees and this policy applies to all programs, activities or services occurring on the premises of VPAPA's facility(ies) and VPAPA-sponsored activities occurring on or off campus.

For purposes of this policy, the following definitions apply:

A "Minor" or a "Child" means any individual under 18 years of age.

An "Employee," any individual employed by VPAPA, and independent contractor of VPAPA, or any individual who provides a program, activity, or service- sponsored by VPAPA, whether paid or unpaid.

These individuals include staff and instructional staff members (including faculty), independent contractors, and volunteers of the School.

Basic Reporting Duty

Any Employee, who has reasonable cause to suspect that a student or minor on school property or participating in a school-sponsored activity has been the victim of child abuse shall immediately report the suspected abuse consistent with this policy. This is a mandatory reporting obligation.

Authority: This policy is consistent with requirements of the Pennsylvania Child Protective Services Law (CPSL), which can be found at 23 Pa. Cons. Stat. 6301, et seq.

What Must Be Reported

You must report child abuse you have reasonable cause to suspect. Child abuse, according to the CPSL, means intentionally, knowingly or recklessly doing any of the following:

1. Causing bodily injury to a child through any recent act or failure to act.
2. Fabricating, feigning or intentionally exaggerating or inducing a medical symptom or disease which results in a potentially harmful medical evaluation or treatment to the child through any recent act.

3. Causing or substantially contributing to serious mental injury to a child through any act or failure to act or a series of such acts or failures to act.
4. Causing sexual abuse or exploitation of a child through any act or failure to act.
5. Creating a reasonable likelihood of bodily injury to a child through any recent act or failure to act.
6. Creating a likelihood of sexual abuse or exploitation of a child through any recent act or failure to act.
7. Causing serious physical neglect of a child.
8. Engaging in any of the following recent acts:
 - a. Kicking, biting, throwing, burning, stabbing or cutting a child in a manner that endangers the child.
 - b. Unreasonably restraining or confining a child, based on consideration of the method, location or the duration of the restraint or confinement.
 - c. Forcefully shaking a child under one year of age.
 - d. Forcefully slapping or otherwise striking a child under one year of age.
 - e. Interfering with the breathing of a child.
 - f. Causing a child to be present during the operation of a methamphetamine laboratory, provided that the violation is being investigated by law enforcement.
 - g. Leaving a child unsupervised with an individual, other than the child's parent, who the actor knows or reasonably should have known: i. is required to register as a Tier II or III sexual offender; ii. has been determined to be a sexually violent predator; or iii. has been determined to be a sexually violent delinquent child.
9. Causing the death of the child through any act or failure to act.

"Recent" is defined as any act of child abuse committed within the previous two years. Sexual abuse, serious mental injury, serious physical neglect and deaths have no time limit.

How to Make a Report

In the interest of protecting the safety and welfare of a child, any uncertainty about whether reporting is required or whether abuse has actually occurred should always be resolved in favor of making a report. Employees should not investigate, or attempt to obtain proof, or try to solicit information from the child. This responsibility lies with the Pennsylvania Department of Human Services. If the child you would like to report is in immediate danger, please call 911 immediately.

Follow these steps to make an immediate and direct report of suspected child abuse to the Pennsylvania Department of Human Services and to School:

1. **SUBMIT AN ONLINE REPORT** (preferred method): to the Pennsylvania Department of Human Services at www.compass.state.pa.us/cwis. OR **CALL**: Pennsylvania's ChildLine at 800-932-0313 (alternative method). Please Note: If you call ChildLine, you must also submit a written report within 48 hours;

2. CALL: Any employee who makes a report must also report to the Head of School/Chief Executive Officer, who serves as the School's designee for receiving reports of child abuse reports. The Head of School/Chief Executive Officer will inform the appropriate school officials in order to ensure the safety of the School community.

Upon receiving a report made under this policy, the Head of School/Chief Executive Officer will ensure that a report is made to the Pennsylvania Department of Human Services and local law enforcement by either requiring confirming documentation that the employee has already reported the suspected abuse or by assuming the responsibility and assuming the legal obligation to ensure that a written report is made to the Pennsylvania Department of Human Services. The Head of School/Chief Executive Officer may not make an independent determination of whether to report. If the Head of School/Chief Executive Officer assumes the responsibility, the Head of School/Chief Executive Officer will notify the reporting employee to confirm that the School's report was made.

Confidentiality of Reports

Reports made directly to the Pennsylvania Department of Human Services' ChildLine and Abuse Registry can be made anonymously. In order to ensure that the School gives the suspected abuse appropriate and immediate attention, employees are also required to report suspected abuse internally as described above. Reports will be handled with discretion and in cooperation with the Pennsylvania Department of Human Services and local authorities.

Non-Retaliation

Any person who makes a good faith report of child abuse must not be subjected to retaliation in any form. Retaliation will be considered a violation of School policy and will result in serious disciplinary action, up to or including dismissal.

Immunity from Liability

Under the Pennsylvania CPSL, any person who makes a good faith report of child abuse or who participates in a subsequent investigation in good faith will have immunity from civil and criminal liability that might otherwise result from such actions.

Failure To Report

A failure by an employee under this policy to report suspected child abuse is a violation of this policy and may result in disciplinary review. Also, criminal penalties exist for a mandated reporter, as defined by the Pennsylvania CPSL, who willfully fails to report child abuse. The penalties can range from a misdemeanor up to a felony.

Under the Pennsylvania CPSL (23 Pa. Cons. Stat. 6301, et seq.), the following adults are considered mandated reporters and are required to report suspected child abuse if they have reasonable cause to suspect that a child is a victim of child abuse:

- A person licensed or certified to practice in any health-related field under the jurisdiction of the Department of State.

- A medical examiner, coroner or funeral director.
- An employee of a health care facility or provider licensed by the Department of Health, who is engaged in the admission, examination, care or treatment of individuals.
- A school employee.
- An employee of a child-care service who has direct contact with children in the course of employment.
- A clergyman, priest, rabbi, minister, Christian Science practitioner, religious healer or spiritual leader of any regularly established church or other religious organization.
- An individual paid or unpaid, who, on the basis of the individual's role as an integral part of a regularly scheduled program, activity or service, accepts responsibility for a child.
- An employee of a social services agency who has direct contact with children in the course of employment.
- A peace officer or law enforcement official.
- An emergency medical services provider certified by the Department of Health.
- An employee of a public library who has direct contact with children in the course of employment.
- An individual supervised or managed by a person listed above, who has direct contact with children in the course of employment.
- An independent contractor who has direct contact with children.
- An attorney affiliated with an agency, institution, organization or other entity, including a school or regularly established religious organization that is responsible for the care, supervision, guidance or control of children.
- A foster parent.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Anti-Bullying Policy

Purpose

The Board of Trustees (“Board”) of Virtual Preparatory Academy of Pennsylvania (“Charter School”) recognizes the importance of providing all students and employees with a safe school and learning environment in order to promote the educational process. The Board has determined that a safe and civil environment in school is necessary for students to learn and achieve high academic standards. Bullying and cyberbullying, like other disruptive or violent behaviors, is conduct that disrupts both a student’s ability to learn and Charter School’s ability to safely educate its students in a safe environment. Therefore, in order to ensure and promote a safe learning environment, it shall be the policy of Charter School to maintain an educational environment that is intolerant of bullying and cyberbullying in any form.

Since students learn by example, school administrators, faculty, staff and volunteers are directed to demonstrate appropriate behavior, treat others with civility and respect and to refuse to tolerate bullying and cyberbullying. This policy pertains to all students and staff, regardless of their status. This policy also applies to all students and staff whose conduct out of school materially and substantially interferes with the educational process at Charter School.

Definitions

Bullying and Cyberbullying are defined as an intentional electronic, written, verbal or physical act, or a series of acts:

1. directed at another student or students;
2. which occurs in a “school setting”, or occurs outside of school and Charter School reasonably forecasted that the outside-of-school conduct would materially interfere with or substantially disrupt the educational process or program in the school, and the outside-of-school conduct does in fact materially interfere with or substantially disrupt the educational process or program in the school;
3. that is severe, persistent or pervasive; and
4. that has the effect of doing any of the following:
 - substantially interfering with a student’s education;
 - creating a threatening environment; or
 - substantially disrupting the orderly operation of the school.

Bullying and cyberbullying shall encompass acts that occur outside a school setting if those acts meet the requirements found in (1), (3) and (4) listed above.

School Setting shall mean in Charter School, on Charter School grounds, on Charter School property, using Charter School equipment and technology, on Charter School’s server or

Charter School's electronic, web-based, Internet or online programs, in Charter School vehicles, at designated bus stops or at any activity sponsored, supervised or sanctioned by Charter School and any time spent necessarily traveling to and from these locations. Additionally, any student whose out of school conduct materially interferes with or substantially disrupts the educational process in the school is also subject to this policy.

Cyberbullying

Cyberbullying is often seen by sending harmful or cruel material, text messages and/or images or engaging in other forms of social aggression and bullying using the Internet, cell phones, personal digital assistants ("PDAs") or other technology resources.

All students, staff, volunteers and contractors shall comply with Charter School's Acceptable Use and Internet Safety Policy, which is required under the Children's Internet Protection Act ("CIPA"), and review Charter School's Social Media and Networking Guidelines Policy when using any technology resources.

Cyberbullying via the Internet is seen through the use of any one or more of a number of methods, including, but not limited to:

- Email sent to the intended victim;
- Blog entries regarding the intended victim;
- Posts on social networking websites, including, but not limited to, Facebook, Instagram, SnapChat, or Twitter;
- Posting victim's pictures on the Internet or networking websites with derogatory phrases or questions attached to them;
- Using instant messaging tools to harass victims;
- Creating an Internet parody of the intended victim;
- Creating fake Internet profiles for the victim on a public website;
- Creating or accessing an unauthorized website which harasses or bullies the victim;
- Using camera phones and/or digital cameras to take embarrassing photographs of students and/or staff and posting them online;
- Excluding others from an online group by falsely reporting them for inappropriate language to Internet service providers.

Cell phones are also often used for cyberbullying for things such as calling or text messaging the victim and/or using a victim's cell phone to text or call another victim using harassing language.

The use of the Internet or Charter School email does not necessarily have to involve the creation of the offensive materials. Rather, the person creating the offensive material may do it on a home computer and then use Charter School's computers to take such actions as accessing it, viewing it, displaying it for others to see, disseminating copies of it to others or otherwise publicizing the contents.

Charter School strictly prohibits the above conduct and any conduct by any student or staff that creates or intends to create an intimidating, threatening, offensive or hostile learning environment.

Guidelines

Students shall conduct themselves in a manner in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students, school staff, volunteers, and contractors.

The Board believes that standards for student behavior must be set cooperatively through interaction among the students, parents and guardians, staff, and community members of Charter School, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school and community property on the part of students, staff, and community members.

Since bystander support of bullying and cyberbullying can bolster these types of behaviors, Charter School prohibits both active and passive support for acts of bullying and cyberbullying. The staff should encourage all students to refuse to engage in these acts and to report them immediately to the Head of School/Chief Executive Officer or his/her designee of Charter School.

Reporting Procedures

Any student who feels he or she has been bullied or cyberbullied shall have the right to file a complaint of such bullying. Complaints should be reported to the Head of School/Chief Executive Officer or his/her designee. Complaints may also be reported directly to a teacher, guidance counselor, or other administrator who shall immediately report the incident to the Head of School/Chief Executive Officer or his/her designee in order to protect the alleged victim and for prompt investigation.

Any staff who sees any incidents of bullying or cyberbullying must immediately report the incident(s) to the Head of School/Chief Executive Officer or his/her designee. All other members of the school community, including students, parents, volunteers, and visitors, are encouraged to report any act that may be a violation of this policy. It shall be the responsibility of the Head of School/Chief Executive Officer or his/her designee to investigate promptly and thoroughly any and all bullying and cyberbullying complaints received or referred by other individuals and to make recommendations based upon the investigation. The investigation is to be commenced within three (3) school days after a report of any bullying is received.

The Board of Trustees requires the Head of School/Chief Executive Officer or his/her designee to be responsible for determining whether an alleged act constitutes a violation of this policy. In determining whether alleged conduct constitutes bullying or cyberbullying, the totality of circumstances, nature of the conduct, and context in which the alleged conduct occurred shall be investigated. If the investigation results in a substantiated charge of bullying and/or cyberbullying, Charter School shall take prompt corrective action to ensure the bullying and/or cyberbullying ceases and will not reoccur.

Reports to the Head of School/Chief Executive Officer or his/her designee may be made anonymously, but formal disciplinary action *may not* be based solely on the basis of an anonymous report.

The Head of School/Chief Executive Officer or his/her designee shall immediately notify the parent or guardian of the perpetrator of the bullying and the parent or guardian of the

victim of the bullying of the alleged incident.

Consequences for Violations

Consequences and appropriate remedial actions for a student or staff member who commits one or more acts of bullying or cyberbullying may range from positive behavioral interventions up to and including in school or out of school suspension from Charter School or expulsion or other disciplinary removal from Charter School, in the case of a student, or suspension or termination in the case of an employee, as set forth in Charter School's student Code of Conduct or Employee Handbook.

In some cases, bullying and/or cyberbullying may constitute criminal activity and the Police Department will be notified. This may lead to a criminal investigation and criminal charges against the student or staff.

Consequences for a student who commits an act of bullying and/or cyberbullying shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance, and must be consistent with Charter School's student code of conduct. Remedial measures shall be designed to: correct the problem behavior; prevent another occurrence of the behavior; and protect the victim of the act.

The following intervention strategies for protecting victims may be followed as needed:

- Supervise and discipline offending students fairly and consistently;
- Provide adult supervision at Charter School testing sites or other sites used by Charter School, at any activity sponsored, supervised or sanctioned by Charter School during any breaks, lunch times, bathroom breaks and in the hallways during times of transition;
- Maintain contact with parents and guardians of all involved parties;
- Provide counseling for the victim if assessed that it is needed;
- Inform school personnel of the incident and instruct them to monitor the victim and the offending party for indications of harassing, intimidating and bullying and/or cyberbullying behavior. Personnel are to intervene when prohibited behaviors are witnessed; and
- Check with the victim daily to ensure that there have been no incidents of retaliation from the offender or other parties.

Retaliation Prohibited

The Board of Trustees strictly prohibits retaliation or reprisal against any person who reports bullying and/or cyberbullying incidents. Retaliation includes, but it is not limited to, any form of intimidation, reprisal or harassment used against a person who reports, in good faith, incident(s) of bullying and/or cyberbullying. Disciplinary action against any person who retaliates or engages in reprisals for reporting such behavior(s) may include sanctions up to and including expulsion or suspension for students and termination for staff engaging in such prohibited conduct. The consequences and appropriate remedial action shall be determined after consideration of the nature, severity, and circumstances of the act.

False Accusations

The Board of Trustees prohibits any person from falsely accusing another of bullying and/or

cyberbullying. The consequences and appropriate remedial action for a student found to have falsely accused another of bullying and/or cyberbullying may range from positive behavioral interventions up to and including suspension or expulsion. Consequences and appropriate remedial action for an employee found to have falsely accused another of bullying and/or cyberbullying shall be in accordance with Charter School policies, procedures, and agreements.

Annual Distribution of Information

The Board of Trustees requires Charter School officials to annually disseminate the policy to all school staff, students, volunteers, independent contractors and parents along with a statement explaining that it applies to all applicable acts of bullying and cyberbullying that occur in Charter School, on Charter School grounds, on Charter School property, using Charter School equipment and/or technology, on Charter School's server or Charter School's electronic, web-based, Internet or online programs, in Charter School vehicles, at designated bus stops or at any activity sponsored, supervised or sanctioned by Charter School and any time spent necessarily traveling to and from these locations. Additionally, any student or staff's out of school conduct that materially and substantially interferes with the educational process in Charter School is also subject to this policy.

Charter School is required to post this policy on its website and make the policy available in every classroom. This policy shall also be posted at a prominent location within every Charter School building where such notices are usually posted. Charter School shall ensure this policy and its procedures for reporting bullying and cyberbullying incidents are reviewed with students and staff within ninety (90) days after its adoption and, thereafter, a minimum of one (1) time per school year.

Compliance

As required by the Federal Broadband Data Improvement Act of 2008, Charter School shall educate elementary and secondary school aged students with computer access to the Internet about appropriate online behavior, including online interaction with other individuals on social networking websites, such as Facebook, Instagram, SnapChat, and Twitter, and in chat rooms and educate them regarding cyberbullying awareness and response.

The Board of Trustees directs the Administration to develop any procedures necessary to implement this policy and to develop appropriate prevention, intervention and education strategies related to bullying and cyberbullying.

Acts of bullying and cyberbullying are prohibited by and a violation of Charter School's Acceptable Use and Internet Safety Policy and its Child Internet Protection Act (CIPA) Policy.

Charter School will comply with all applicable federal and state laws relating to bullying and cyberbullying, including, but not limited to, the requirements delineated in the Pennsylvania Charter School Law, 24 P.S. § 1701-A, *et seq.*, the Federal Children's Internet Protection Act (CIPA), 47 U.S.C. § 254(h) and (l), and the Neighborhood Children's Internet Protection Act (N-CIPA) and any applicable implementing regulations.

Charter School will also comply with Chapter 711 of Title 22 of the Pennsylvania Code, the Public School Code, the applicable House Bill 1067 Public School Code amendments relating to safe schools and bullying, and applicable provisions of the Individuals with Disabilities Education Improvement Act of 2004 (IDEA 2004) and its applicable implementing regulations regarding

the discipline of special education students and thought-to-be eligible students who engage in an act of bullying.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Student Attendance and Punctuality Policy

1. Purpose

- 1.1 The Board of Trustees (“Board”) requires that students enrolled at Virtual Preparatory Academy of Pennsylvania (“Charter School”) attend school daily and on time in accordance with the compulsory attendance laws of the Commonwealth of Pennsylvania.
- 1.2 Parents or guardians are required to ensure that their children attend school on days that school is in session through the procedures required by Charter School.
- 1.3 The education program offered by Charter School is based upon the presence of the student and requires continuity of instruction and classroom participation.

2. Delegation of Responsibility

- 2.1 The Head of School/Chief Executive Officer shall have the responsibility to develop procedures following the guidelines developed by the Board to assure that students attend school regularly and that said procedures comply with all Federal, State and local laws.

3. Guidelines

- 3.1 A component of the procedures shall be an early intervention process to assure that assistance is given to students who are experiencing problems in attending school.
- 3.2 Attendance and punctuality procedures will be delineated in the Student Handbook and distributed to every student.
- 3.3 Said attendance and punctuality guidelines are subject to periodic review by the entire Board of Trustees.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, AND/OR THE CHARTER APPLICATION OR ADOPTED CHARTER, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR THE CHARTER APPLICATION OR ADOPTED CHARTER CONTROL.

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Internet Safety Policy Pursuant To The Children’s Internet Protection Act (CIPA)

Background

According to the Pennsylvania Department of Education (“PDE”), the Federal Children’s Internet Protection Act (“CIPA”), Pub. L. No. 106-554 and 47 USC 254(h), mandates that schools that receive federal technology funds must develop and implement measures and policies to prevent access to “visual depictions” that are determined to be “obscene”, “child pornography”, or “harmful to minors” as defined herein.

PDE has further stated that schools receiving certain E-rate discounts are also mandated by the Neighborhood Children’s Internet Protection Act (N-CIPA) to adopt and enforce an Internet Safety Policy (ISP) that addresses harmful or inappropriate online activities. N-CIPA was passed as part of CIPA.

The Board of Trustees of Virtual Preparatory Academy of Pennsylvania (“Charter School”) has adopted this Policy in order to establish specific standards to comply with CIPA and N-CIPA requirements.

This Policy is to be read in conjunction with the Charter School’s Acceptable Use of Computer Resources Policy and shall supplement, not supplant, Charter School’s Acceptable Use of Computer Resources Policy.

The Head of School/Chief Executive Officer or his/her designee is directed to include this Policy in the Parent and Student Handbook and the Employee Handbook. Failure to comply with this Policy and/or Internet safety requirements of Charter School shall result in consequences as set forth in the school’s Parent and Student Handbook, Code of Conduct or Employee Handbook and/or as allowed by applicable law. Consequences may include, but are not limited to: denial of or restriction to access to technology, suspension, expulsion, notification of authorities, termination, commencement of civil and/or criminal proceedings and/or other consequences available under school policy and/or applicable state and/or federal laws.

Purpose

Charter School uses computer resources to facilitate the education of students and to aid in matters related to the operations of Charter School. Charter School further places student Internet safety as a primary concern.

It is every computer user’s duty to use computer resources, including the Internet, responsibly, professionally, ethically and lawfully. Access to these resources shall be designated a privilege, not a right.

This policy applies to aspects of both adult and student compliance with Internet safety at Charter School.

CIPA/N-CIPA Compliance/Internet Safety

It is the policy of Charter School to:

- (1) Prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, and all other forms of direct electronic communications;
- (2) Prevent unauthorized access and other unlawful online activity;
- (3) Prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and
- (4) Comply with the Children’s Internet Protection Act, Pub. L. No. 106-554 and 47 USC 254(h).

To the extent consistent with applicable state and federal laws and reasonably practical, technology protection measures (or “Internet filters”) shall be used at Charter School to block or filter Internet, and other forms of electronic communications, and access to inappropriate information. The form and type of technology protection measures used during the 2020-2017 school year include: end-point software solutions (Internet filters), such as Cybersitter ,installed on all computers.

The term “technology protection measure” means a specific technology that blocks or filters Internet access to visual depictions that are:

- (1) Obscene, as that term is defined in section 1460 of title 18, United States Code;
- (2) Child Pornography, as that term is defined in section 2256 of Title 18, United States Code; or
- (3) Harmful to minors. The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that:
 - a. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
 - b. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
 - c. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

The terms “sexual act” and “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.

As required by the Children’s Internet Protection Act (CIPA), blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Technology protection measures shall only be disabled pursuant to the direction of the Head of School/Chief Executive Officer or his/her designee to the extent allowed by applicable law and regulation, for bona fide research or other lawful purposes of an adult as determined by the Head of School/Chief Executive Officer or his/her designee. The development of procedures for the disabling or otherwise modifying of any technology protection measures shall be the responsibility of the Head of School/Chief Executive Officer of Charter School or his/her designee.

The Head of School/Chief Executive Officer or his/her designee shall take reasonable steps to promote the safety and security of users of the online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

As required by the Children's Internet Protection Act, prevention of inappropriate network usage at Charter School shall include:

- (1) Unauthorized access, including so-called 'hacking,' and other unlawful activities; and
- (2) Unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

It shall be the responsibility of all members of the Charter School staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and applicable laws, including the Children's Internet Protection Act as well as in accordance with any administrative procedures developed by the Head of School/Chief Executive Officer in furtherance of this Policy.

In accordance with the "Protecting Children in the 21st Century Act" and its requirement to certify to the Schools and Library Division ("SLD") that the school's Internet Safety Policy includes educating minors about appropriate online behavior, students shall be educated about appropriate online behavior, including cyber-bullying awareness and response and interacting with other individuals on social networking sites and in chat rooms.

With regard to educating minors about appropriate online behavior, the Head of School/Chief Executive Officer or his/her designee is directed to:

- (1) Make such educational opportunities available to students during the school year;
 - (2) Notify students and their parents about these educational opportunities in advance; and
- Maintain documentation of:
- a. educational programs offered;
 - b. the dates and locations of such opportunities;
 - c. how online safety was taught and what was covered in the programs offered; and
 - d. those in attendance at the programs offered.

The Head of School/Chief Executive Officer or his/her designee is directed to file and/or provide the appropriate certifications evidencing compliance with CIPA and N-CIPA as required by applicable state and/or federal laws and regulations.

The Head of School/Chief Executive Officer or his/her designee is directed to maintain documentation of compliance with CIPA and N-CIPA certification requirements including the annual filing of FCC Form 486.

The Head of School/Chief Executive Officer or his/her designee is directed to ensure that Charter School employs necessary technology protection measures in accordance with this Policy and shall report to the Board when modifications are needed to technology protection measures at Charter School.

The online activities of students shall be monitored and minors' access to harmful materials shall be restricted to the extent required by applicable laws and regulations.

To the extent not inconsistent with applicable laws and regulations, the following disclaimers apply:

- (1) There shall be no expectation of privacy by users of Charter School's Computer Resources;
- (2) Charter School does not guarantee the effectiveness of technology protection measures or internet filtering; and
- (3) Charter School does not guarantee network functionality or accuracy of online information.

The Head of School/Chief Executive Officer is directed to implement any procedures that may be necessary to implement this policy as well as to timely submit any forms and paperwork as required by CIPA and N-CIPA and/or applicable state and federal Internet safety laws and regulations.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL. THIS POLICY IS NOT INTENDED TO CONFLICT WITH CHARTER REQUIREMENTS.

ADOPTED this day _____ of _____, 2020

President

Secretary

Virtual Preparatory Academy of

Pennsylvania Board of Trustees

Policy

Student Conduct and Discipline Policy

Purpose

- 1.1 The Board of Trustees of Virtual Preparatory Academy of Pennsylvania (“Charter School”) has the authority to make reasonable and necessary rules governing the conduct of students in Charter School. The rulemaking power, however, is not unlimited; it must operate within statutory and constitutional restraints. The Board acts within those powers that are enumerated in the statutes of the Commonwealth, or that may reasonably be implied or necessary for the orderly operation of Charter School.

Authority

- 2.1 Accordingly, the Board’s adoption of a Student Code of Conduct, which contains student rights and responsibilities as well as levels of misconduct and resulting discipline, is within its grant of authority from the General Assembly. The rules contained within this Code of Conduct are to be implemented in a consistent and non-discriminatory manner and are a rational means of accomplishing the legitimate school purpose of a safe and orderly environment in which students may be instructed.

All students in Charter School are entitled to share in its educational and related programs to the extent of their abilities without regard to race, color, sex, sexual orientation, national origin, religion or handicap. Every student is expected to behave at school and in school-related activities in accordance with public laws, school rules and lawful directions of assigned staff, and to deal fairly and courteously with fellow students, staff and the public.

- 2.2 Given the ongoing developments in technology, this Code of Conduct must specifically apply to student use of computers and computer technology. Therefore, a separate document and related procedures shall be developed and implemented and shall be identified as an “Acceptable Use of Technology and Internet Safety Policy” for computer, electronic mail and other technology use by both students and staff.

- 2.3 The Head of School/Chief Executive Officer shall develop and disseminate reasonable rules to carry out the purpose of this policy. These rules shall comply with applicable public law and shall include the following elements:
- (a) Standards of student conduct shall inform students and staff what conduct is acceptable and what is prohibited. These standards shall apply to students while traveling to and from school, at school and in all school-related activities and shall be appropriate to students' ages.
 - (b) Disciplinary sanctions shall state which staff may employ what sanctions to penalize and correct students who violate reasonable standards of conduct. Discipline must be rationally related to the offense, designed to teach responsibility for one's actions and applied without discrimination on account of race, color, sex, sexual orientation, national origin or religion.
- 2.4 Authorized sanctions shall not include corporal punishment of students.
- 2.5 Procedures to enforce standards of conduct and apply disciplinary sanctions shall provide for due process by giving students notice of the offense charged and an opportunity to respond. The extent of appeal to review the application of any discipline shall be reasonably related to the weight of the sanction.
- 2.6 These standards of student conduct will be presented to the Board of Trustees for approval.
- 2.7 Student records shall reflect disciplinary action to the extent necessary to support educational and counseling objectives with appropriate safeguards for proper use and limited dissemination.
- 2.8 Special education students are afforded appropriate protection of their due process rights through a separate document, "Disciplinary Exclusions of Special Education Students Policy."
- 2.9 This Code shall be published and distributed to students and parents or guardians on an annual basis and copies of the code shall also be available in the main office.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL.

DRAFT

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Disciplinary Exclusions and Hearings Policy

Exclusion from School: may take the form of suspension or expulsion;

(1) Suspension is exclusion from school for a period of from one (1) to ten (10) consecutive school days.

(i) Suspensions may be given by the Head of School/Chief Executive Officer or his/her designee of Virtual Preparatory Academy of Pennsylvania (“Charter School”).

(ii) A student may not be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health, safety or welfare of the school community is threatened.

(iii) The parents or guardians shall be notified immediately in writing when the student is suspended.

(iv) When the suspension exceeds three (3) school days, the student and parent shall be given the opportunity for an informal hearing consistent with the requirements of the Pennsylvania Code.

(v) Suspensions may not be made to run consecutively beyond the ten (10) school day period.

(vi) Students shall have the responsibility to make up exams and work missed while being disciplined by suspension and shall be permitted to complete these assignments within guidelines established by the Board of Trustees (“Board”).

(2) Expulsion is exclusion from school by the Board for a period exceeding ten (10) school days and may be permanent expulsion from the school rolls. Expulsions require a prior formal hearing pursuant to the Pennsylvania Code.

(i) During the period prior to the hearing and decision of the Board in an expulsion case, the student shall be placed in his/her normal class except as set forth in subsection (ii).

(ii) If it is determined after an informal hearing that a student’s presence in his/her normal class would constitute a threat to the health, safety or welfare of others and it is not possible to hold a formal hearing within the period of a suspension, the student may be excluded from school for more than ten (10) school days. A student may not be excluded from school for longer than fifteen (15) school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.

(iii) Students who are under 17 years of age are still subject to the compulsory school attendance law even though expelled and shall be provided an education.

(1) The initial responsibility for providing the required education rests with the

student's parents or guardian, through placement in another school, tutorial or correspondence study, or another educational program approved by the district's superintendent.

(2) Within thirty (30) days of action by the Board, the parents or guardians shall submit to Charter School written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardians are unable to provide the required education, Charter School, within the (10) days of receipt of the notification, shall make provision for the student's education. A student with a disability shall be provided educational services as required by the Individuals with Disabilities Education Act 2004.

(3) If the approved educational program is not complied with, Charter School may take action in accordance with 42 Pa.C.S. Chapter 63 (relating to the Juvenile Act) to ensure that the child will receive a proper education. See Pennsylvania Code § 12.1(b) (relating to free education and attendance).

Exclusion from classes—in-school suspension

(1) A student may not receive an in-school suspension unless the student has been informed of the reasons for the suspension and has been given an opportunity to respond before the suspension becomes effective.

(2) Communication to the parents or guardian shall follow the suspension action taken by Charter School.

(3) When the in-school suspension exceeds ten (10) consecutive school days, an informal hearing with the Head of School/Chief Executive Officer or his/her designee shall be offered to the student and the student's parent or guardian prior to the eleventh (11th) school day in accordance with the procedures in the Pennsylvania Code.

(4) Charter School has the responsibility to make provision for the student's education during the period of the in-school suspension.

Hearings

(a) *General.* Education is a statutory right, and students shall be afforded due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to a formal hearing.

(b) *Formal hearings.* A formal hearing is required in all expulsion actions. The hearing may be held before the Board or an authorized committee of the Board, or a qualified hearing examiner appointed by the Board. When a committee of the Board or a hearing examiner conducts the hearing, a majority vote of the entire Board is required to expel a student. The following due process requirements shall be observed with regard to the formal hearing:

(1) Notification of the charges shall be sent to the student's parents or guardians by certified mail.

(2) At least three (3) days' notice of the time and place of the hearing shall be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures shall be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.

(3) The hearing shall be held in private unless the student or parent requests a public hearing.

(4) The student may be represented by counsel, at the expense of the parents or guardians, and may have a parent or guardian attend the hearing.

(5) The student has the right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.

(6) The student has the right to request that the witnesses appear in person and answer questions or be cross-examined.

(7) The student has the right to testify and present witnesses on his/her own behalf.

(8) A written or audio record shall be kept of the hearing. The student is entitled, at the student's expense, to a copy. A copy shall be provided at no cost to a student who is indigent.

(9) The proceeding shall be held within fifteen (15) school days of the notification of charges, unless mutually agreed to by both parties. A hearing may be delayed for any of the following reasons, in which case the hearing shall be held as soon as reasonably possible:

(i) Laboratory reports are needed from law enforcement agencies.

(ii) Evaluations or other court or administrative proceedings are pending due to a student invoking his/her rights under the Individuals With Disabilities Education Act 2004 (20 U.S.C.A. § § 1400—1482).

(iii) In cases in juvenile or criminal court involving sexual assault or serious bodily injury, delay is necessary due to the condition or best interests of the victim.

(10) Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

(c) *Informal hearings.* The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended.

(1) The informal hearing is held to bring forth all relevant information regarding the event for which the student may be suspended and for students, their parents or guardians and school officials to discuss ways by which future offenses might be avoided.

(2) The following due process requirements shall be observed in regard to the informal hearing:

(i) Notification of the reasons for the suspension shall be given in writing to the parents or guardians and to the student.

(ii) Sufficient notice of the time and place of the informal hearing shall be given.

(iii) A student has the right to question any witnesses present at the hearing.

(iv) A student has the right to speak and produce witnesses on his/her own behalf.

(v) Charter School shall offer to hold the informal hearing within the first five (5) days of the suspension.

Discipline of Students with Disabilities

Charter School shall comply with the Individuals with Disabilities Education Improvement Act (IDEA 2004) and any applicable federal and state statutes or regulations when disciplining students with disabilities. Students with disabilities who engage in inappropriate behavior, disruptive or prohibited activities, and/or conduct injuries to themselves or others shall be

disciplined in accordance with their Individualized Education Programs (IEP), behavioral intervention plan, Title 22 Chapter 711 and relevant portions of Chapter 12 of the State Board of Education Regulations, IDEA 2004, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and any other applicable federal or state law.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

ADOPTED this/her day _____ of _____, 2020

President

Secretary

Virtual Preparatory Academy of Pennsylvania

Board of Trustees Policy

Truancy Policy

Compulsory school age shall mean the period of a child's life from the time the child's parents/guardians elect to have the child enter school, which shall not be later than the age of six (6) years, until the age of eighteen (18) years. The term shall not include any child who holds a certificate of graduation from a regularly accredited senior high school.

Truant shall mean having incurred three (3) or more school days of unexcused absences during the current school year by a child subject to compulsory school attendance.

Habitually truant shall mean having incurred six (6) or more school days of unexcused absences during the current school year by a child subject to compulsory school attendance.

Person in parental relation shall mean (1) a custodial biological or adoptive parent; (2) a noncustodial biological or adoptive parent; (3) guardian of the person of a child; or (4) a person with whom a child lives and who is acting in a parental role of a child.

School attendance improvement conference shall mean a conference where the child's absences and reasons for the absences are examined in an effort to improve attendance, with or without additional services. The following individuals shall be invited to the conference: (1) the child; (2) the child's person in parental relation; (3) other individuals identified by the person in parental relation who may be a resource; (4) appropriate school personnel; and (5) recommended service providers.

School-based or community-based attendance improvement program shall mean a program designed to improve school attendance by seeking to identify and address the underlying reasons for a child's absences. The term may include an educational assessment in an alternative education program, provided the program does not include a program for disruptive youth.

The Board of Trustees delegates authority to the Chief Executive Officer to ensure that personnel, in the form of the Attendance Office, ensure the enforcement of compulsory attendance as defined by the Pennsylvania School Code. The Attendance Officer will track student attendance and communicate with parents/guardians regarding truancy.

The Charter School will coordinate, attend and participate in school attendance improvement conferences. Such conferences will also result in the documentation of the plan developed at the time of the conference – the School Attendance Improvement Plan.

To the extent that truancy citations are necessary, the Attendance Office will notify the School District of Residence and file in the Magisterial District Court of the student's school district of residence. Such Attendance personnel will attend any court proceedings and present evidence.

VAP will refer habitually truant children to a school-based or community-based attendance improvement program or to the Office of Children and Youth of the student's county of residence or services when appropriate and/or required or permitted by law.

If a discovery is made that any child of compulsory school age is unable to attend school due to the lack of necessary clothing or food, attendance personnel will report such matter to any suitable relief agency operating in the school

district of residence or to the proper County board of assistance for investigation and relief.

Unexcused Absences

All absences shall be treated as unexcused until the Charter School receives a written excuse explaining the reason for an absence. Parents/guardians may submit excuses as follows:

1. Written note signed by a parent/guardian; or
2. Email from a parent/guardian's email account as designated by the parent/guardian.

The mere fact that a parent/guardian has written an excuse note does not mean the absence is excused.

Excused Absences

In addition to attendance via the online learning portal, which requires that a student log-on to be considered "present," a student will be considered in attendance if present at any place while school is in session, if receiving approved tutorial instruction, or health or therapeutic services; an approved and properly supervised independent study, work- study, career education; or the student is receiving approved homebound instruction.

A student absence is considered excused under the following circumstances:

1) When the student is prevented from attendance for mental, physical, or other urgent reasons such as:

- Illness
 - Family Emergency
 - Death of a Family Member
 - Medical or Dental Appointments
 - Authorized School Activities
 - Educational Travel with Prior Approval
 - Pre-approved religious instruction (limit 36 hours per year)
 - Bona Fide Religious Holiday
 - For purposes of receiving tutorial instruction in a field not offered in the school's curricula, when the excusal does not interfere with the student's regular program of studies, the qualifications of the tutor or instructor are satisfactory to the Chief Executive Officer or designee, and permission for such excusal is sought in writing by the parent/guardian of the child in advance of the commencement of such tutoring
2. When the student is required to leave school for the purposes of attending court hearings related to their involvement with the county children and youth agency or juvenile probation office.
 3. If the student is absent due to participation in a project sponsored by an organization that is eligible to apply for a grant under the Pennsylvania Agricultural Fair Act.
 4. If a student is dismissed from school during school hours for health-related reasons by a certified school nurse, registered nurse, licensed practical nurse or a school administrator or designee.
 5. For the purpose of obtaining professional health care or therapy service rendered by a licensed practitioner of the healing arts in any state, commonwealth or territory.
 6. If a student whose parent or legal guardian has been called to duty for, is on leave from, or is immediately returned from deployment to a combat zone or combat support posting, with regard to school attendance, tests and extra-curricular or cocurricular activities, at the discretion of the Chief Executive Officer or designee, no penalties shall be imposed for absences of up to five (5) days. Teachers shall assist students in making up work caused by such absences.

Ten Consecutive Absences

Students who miss ten consecutive school days shall be dropped from the active membership roll unless the school is provided with evidence that the absences are excused or the school is pursuing compulsory attendance prosecution. The

Charter School will notify the school district of residence both after three (3) days of excused absence and ten (10) days of unexcused absence.

Procedures for Unexcused Absences

Parents/guardians and students shall submit the required excuse within three (3) school days of the absence. If written verification of the reason for absence is not received within three (3) school days of the absence, the absence will be counted towards the calculation of unexcused absences for purposes of reporting truancy. The absence may be reclassified if a valid excuse note is forthcoming within ten (10) school days from the date of the absence. A maximum of ten days of cumulative excused absences for illness verified by parental/guardian notification may be permitted during a school year. All absences for illness beyond ten cumulative school days shall require an excuse from a physician familiar with the student who may not be the student's parent/guardian.

When a child is absent from school, the Attendance Office will send a notice via email to the

Third Unexcused Absence

Within ten (10) school days of a child of compulsory school age's third unexcused absence, the Attendance Officer shall send an Official Notice of Truancy, which will include a description of the consequences if the child becomes habitually truant. This notice may include the offer of a school attendance improvement conference, and shall be in the mode and language of communication preferred by the person in parental relation to the child.

When transmitted to a person who is not the biological or adoptive parent, such notice shall also be provided to the child's biological or adoptive parent if the parent's mailing address is on file with the school and the parent is not precluded from receiving the information by court order.

Continued Absenteeism

If a child of compulsory school age continues to incur unexcused absences after the issuance of the Official Notice of Truancy, the school shall then schedule a school attendance improvement conference, unless a conference was previously held following the Official Notice of Truancy. The following shall apply with respect to a school attendance improvement conference:

- There is no legal requirement that the child or person in parental relation attend the conference, and the conference shall occur even if the person in parental relation declines to participate or fails to attend the scheduled conference after advance written notice and attempts to communicate via telephone.
- The outcome of the conference shall be documented in a written school attendance improvement plan, on the template provided by the Department of Education.
- Further legal action may not be taken to address unexcused absences by the child until after the date for the scheduled school attendance improvement conference has passed.

The Charter School shall not expel or impose out-of-school suspension or disciplinary reassignment for truant behavior.

Procedure for Addressing Habitually Truant Children

When a child is habitually truant and under fifteen (15) years of age at the time of referral, the school:

- i. Shall refer the child to either (1) a school-based or community-based attendance improvement program or (2) the County Office of Children and Youth where the student resides for services or possible disposition as a dependent child; and

- ii. May file a citation in the office of the magisterial district judge having jurisdiction in the region against the person in parental relation who resides in the same household as the child. The venue for the filing of such a citation shall be based on the location of the school district of residence of the child.

When a child is habitually truant and fifteen (15) years of age or older at the time of referral, the school shall either

- i. Refer the child to a school-based or community-based attendance improvement program or service; or
- ii. File a citation in the office of the magisterial district judge having jurisdiction in the region against the child or the person in parental relation who resides in the same household as the child. The venue for the filing of such a citation shall be based on the location of the school district of residence of the child.

If a child of compulsory school age who is fifteen (15) years of age or older continues to incur additional unexcused absences after being referred to a school-based or community-based attendance improvement program or fails to participate in the such a program as recommended through the school attendance improvement conference, the school may refer the child to the County Office of Children and Youth where the student resides for possible disposition as a dependent child.

When referring a habitually truant child to the respective County Office of Children and Youth or filing a citation with the magisterial district judge having jurisdiction over the region, the school shall provide verification that a school attendance improvement conference was held.

No citation may be filed against a child or a person in parental relation with the child who resides in the same household as the child for a subsequent violation of school attendance if any of the following circumstances apply:

- A proceeding is already pending against the child or person in parental relation with the child who resides in the same household as the child and judgment in the first proceeding has not yet been entered, unless a warrant has been issued for failure of the child or person in parental relation to appear before the court and the warrant has not yet been served.
- A referral for services has been made to the appropriate County Office of Children and Youth, the agency has not closed the case and the Charter School has not consulted with that County Office of Children and Youth prior to filing the petition.
- A petition has been filed alleging the child is dependent due to being habitually truant and the case remains under the jurisdiction of the Juvenile Court.

Exempt from Compulsory Education

Pennsylvania School Code section 1330 states that a 16-year-old student who is regularly engaged in any useful and lawful employment or service during the time the public schools are in session, and who holds an employment certificate issued according to the law is exempt from compulsory attendance. In order to be a student who is exempt from compulsory education, the student must be 16 years of age or older and must be engaged in useful and lawful employment or service for 40 hours per week or more.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Board of Trustees Policy

Student Internet Access & Reimbursement

The Board of Trustees of the Virtual Preparatory Academy of Pennsylvania (VPAPA) will ensure a continued, comprehensive learning experience for its students. VPAPA will ensure access to Internet connectivity for every student to have access to instructional materials and collaboration tools within a cyber environment, including students who live in areas not serviced with Internet connectivity.

Regardless of the connectivity available, no student's cyber education should be limited based on where he or she lives. Therefore, the Board will offer options for Internet access to cyber charter school students who may currently have only dial-up access available to the home.

The Board has considered potential Internet options available to ensure adequate access, especially in remote areas of the Commonwealth.

Student Technology Reimbursement: Families will arrange for Internet service for their students to attend school and will be regularly reimbursed for the full cost of Internet service. VPAPA will reimburse the families regularly so as not to cause financial hardship for families and so there is no disruption of schooling for the students. The reimbursement schedule will also factor in students enrolled in VPAPA's various pacing models.

For students who are unable to arrange for Internet service, VPAPA will work with them to help with securing high speed Internet access. If the student lives in an area that receives limited or poor Internet connections, the school will work with the family on alternative methods for accessing VPAPA online. One potential solution is to provide students with an educational Mi-Fi, through our agreement with Accel Schools. Accel Schools has experience with procuring educational Mi-Fi for students in other schools they support through Kajeet, a company recommended by Verizon. Kajeet provides a solution using a Verizon Mi-Fi running on the Verizon 4G LTE network with their Sentinel cloud portal that provides CIPA compliant filtering to keep students on task.

For students who select the accelerated pacing option or the year-round pacing option which requires participating in the program in the summer, VPAPA will ensure the families are reimbursed for Internet expenses over the summer months.

DRAFT

Virtual Preparatory Academy of Pennsylvania

Board of Trustees

Student Technology Policy

The Board of Trustees of Virtual Preparatory Academy of Pennsylvania recognizes that the Pennsylvania Charter School Law requires that a cyber charter school provide a computer to each student enrolled. 24 P.S. § 17-1743-A(e). The Board will provide a computer and necessary equipment to each student to ensure that all students receive an equitable educational experience and have access to technical support and a safe online experience.

As indicated herein, the Board will periodically assess the school's equipment and infrastructure against established industry standards and identified educational needs. In addition, the Board has a process by which technology will be refreshed in a timely fashion to meet new standards and needs.

VPAPA will provide all students with all equipment, including, but not limited to, a computer device and printer (and printer ink).

The technology specifications are listed herein. However, the makes/models may vary, though each unit will have comparable performance specifications. To ensure equitable access for students, VPAPA will provide each student with the following:

One laptop computer per student in grades K–12

- Hardware
 - HP model laptop
 - Intel i3-series processor
 - 15.6-inch LCD LED display w/ integrated webcam
 - 4 GB 1600MHz DDR3 (1 DIMM)
 - 1 TB Hard drive
 - 24X DVD/CDRW (fixed)
 - 10/100/1000 NIC
 - Broadcom® 802.11 a/b/g/n Wireless
 - Bluetooth 4.0®
 - 3 USB 2.0
 - Headphone/line out
 - External USB Dial-Up Modem provided as necessary

- Software
 - Microsoft Windows 7 Professional
 - Microsoft Office
 - Ad-Aware SE Anti-spyware protection
 - Other software installed includes: Adobe Acrobat Reader, Flash Player, Shockwave Player, and Windows Media Player
 - Internet filtering software is available upon request
 - Headset/Microphone combo (upon request)
 - Unlimited Technical Support
- One printer per household: Each household will be eligible to receive or be reimbursed for one standard HP Desktop printer in the first year of enrollment.
- Subsidy for Student Technology Support Stipend: Each household receives a stipend paid three times a year to assist with the cost of Internet service and printer ink.

Supplying Technology

VPAPA will contract with Accel Schools to supply technology to students. When a student enrolls, the appropriate equipment and technology will be ordered during the initial enrollment phase. When the enrollment is processed, the system generates a file that is sent to the Accel Schools computer team to expediently fulfill the equipment order. A laptop with preloaded software, necessary to fully access and support the Accel Schools curriculum, is sent to the student's home.

A Computer Setup Guide with instructions are provided along with contact information for technical support and detailed information regarding the equipment. A friendly technical representative is available to assist the student with setting up the equipment and provide any required logistical support. This seamless process allows for an effective and efficient start for the student and family.

Refreshing Student Technology

VPAPA will contract with Accel Schools, through the Statement of Agreement, to refresh student technology. Accel Schools will complete an annual student technology refresh campaign where student devices (laptops) that have been with the same student/household for three or more years are eligible to be refreshed. If a household elects to participate in the refresh campaign, they will receive a refreshed device loaded with the most current student image and operating system, which meets technology performance requirements. The laptops will be equipped with Internet security features.

Accel Schools will process all returns from students as well. They work with families to coordinate the return including arranging for pick up from students' homes.

Repairing and Replacing Technology

VPAPA will contract with Accel Schools for repair and replacement, services. As such, Accel Schools bears the financial responsibilities associated with repair and replacement. Accel Schools has procedures in place to ensure repair and replacement are accomplished in a quick

and convenient manner.

Computer risk assumption is covered through the Statement of Agreement with Accel Schools on a limited basis. Accel Schools builds in replacement assumptions as part of their comprehensive technology offering and it is covered in the Student Technology Assistance Services fee.

As Accel Schools provides similar services for virtual schools throughout the country, they have sufficient stock to provide replacement equipment.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL. THIS POLICY IS NOT INTENDED TO CONFLICT WITH CHARTER REQUIREMENTS.

WELCOME

Welcome to the Virtual Preparatory Academy of Pennsylvania! As a new employee, you are joining our talented team of professionals who all share a passion for empowering children by providing them with a world-class education. Each staff member is a valued member of our team. Our organization is more than just a place to work; it is a place where your talents and skills can improve children's lives and our society. We want you to help make our mission a reality.

At Virtual Preparatory Academy of Pennsylvania, every position is important. We are committed to teamwork, cooperation, innovation and quality service. Your commitment to those values is critical for our mutual success. It is a place where we all share the same passion for education and staffed with colleagues with whom you can share your successes and challenges. We celebrate success and embrace challenges. No obstacle is too large to be overcome if it stands in the way of allowing us to help a child.

The success of this School rests solely with our employees. Your talent, dedication and integrity are essential to our success. Virtual Preparatory Academy of Pennsylvania has four values that stand above the rest: innovation, integrity, commitment to the mission, and quality service. We expect that every employee will live these values and incorporate them into every interaction, both internally and externally.

In becoming a part of the Virtual Preparatory Academy of Pennsylvania' team, we expect you to display a commitment to our high standards and to demonstrate a professional demeanor that will make all of us proud of you, our team and our School. This handbook was prepared to make you aware of what you can expect from Virtual Preparatory Academy of Pennsylvania – and what Virtual Preparatory Academy of Pennsylvania will expect from you. It is not meant to cover everything, so please feel free to ask questions. Your supervisor or someone in HR (HR@accelschools.com) will be happy to talk with you.

Please read this handbook and keep it for future reference. If changes are made because of general economic conditions or conditions in our industry, you will be provided with updated information.

Once again, we welcome you to the team!

Sincerely,

Board Chair

INTRODUCTION

INTRODUCTION TO HANDBOOK

This Handbook was developed to provide you with guidelines to our School policies and to outline programs and benefits available to you. You should familiarize yourself with the contents as soon as possible so you will know what is expected of you and what you can expect from our organization.

This Employee Handbook replaces all previous Virtual Preparatory Academy of Pennsylvania handbooks, policies and memoranda. Failure to follow any of the policies in this handbook may result in disciplinary action, up to and including, termination of employment.

You should have already signed an Employment Agreement outlining your employment relationship with the School. Contact your supervisor or a payroll or human resource specialist if you have any questions.

We hope that your experience with us will be challenging, enjoyable and rewarding. Again, welcome!

EMPLOYMENT

AT-WILL EMPLOYMENT

Your employment with Virtual Preparatory Academy of Pennsylvania (“The School”) is at-will, which means that you or the School may terminate your employment at any time for any lawful reason unless a written employment agreement exists with the School that provides otherwise.

The School has the right to transfer, demote, or otherwise discipline an employee at any time for any lawful reason. For an employment agreement with the School to be considered valid, it must be signed by an officer of the School or a designated representative.

This handbook is not a contract guaranteeing employment for any specific duration. As provided in the Handbook Acknowledgement, nothing in this handbook creates or is intended to create a promise or representation of continued employment. This handbook replaces any and all prior handbooks, written documents (with the exception of authorized employment agreements) or oral or implied representations that might otherwise contradict the at-will nature of your employment.

No statement or promise by a supervisor or school leader, past or present, may be interpreted as a change in policy, nor will it constitute an agreement with an employee.

EQUAL EMPLOYMENT OPPORTUNITY

Virtual Preparatory Academy of Pennsylvania provides equal employment opportunities to all employees and applicants in all School facilities without regard to race, color, religious creed, sex, national origin, ancestry, citizenship status, pregnancy, childbirth, physical disability, mental and/or intellectual disability, age, military status or status as a Vietnam-era or special disabled veteran, marital status, registered domestic partner or civil union status, gender, gender identity, sexual orientation, medical condition, or genetic information in accordance with applicable federal, state and local laws.

This policy applies to all terms and conditions of employment, including, but not limited to, hiring, placement, promotion, termination, layoff, recall, transfers, leaves of absence, compensation and training.

CHANGE IN POLICY

The School may change, revoke or supplement the policies in this handbook at any time without notice. The School will determine the effective date of any changes and every effort will be made to notify you in advance. However, failure to give advance notice will not void any policy’s application in the workplace.

The current version of all School policies will be readily available to all (currently active) employees in an electronic and/or hard copy format.

Supervisors do not have the authority to change the policies in this handbook on their own. If you are uncertain about any policy or procedure, contact your supervisor for clarification.

OUTSIDE EMPLOYMENT & CONFLICTS OF INTEREST

The School recognizes that some employees may need or want to hold additional jobs outside their employment with the School. Employees may be permitted to engage in outside work or hold other jobs, subject to certain restrictions based on reasonable business concerns. Employees must consult their supervisors or managers for review and approval of outside employment prior to beginning outside employment.

The following rules for outside employment apply to all employees:

1. Work-related activities and conduct away from the School must not compete with, conflict with or compromise the School's interests or adversely affect job performance and the ability to fulfill all job responsibilities.
2. Employees must carefully consider the demands that additional work activity will create before accepting outside employment. Outside employment will not be considered an excuse for poor job performance, absenteeism, tardiness, leaving early, refusal to travel, or refusal to work overtime or different hours. If outside work activity causes or contributes to job-related problems at the School, the employee will be asked to discontinue the outside employment, and the employee may be subject to the normal disciplinary procedures for dealing with the resulting job-related problem(s).
3. In evaluating the effect that outside work may have on an employee's job performance and other job-related responsibilities, the Employee's supervisor and the human resource department will consider whether the proposed employment:
 - a. May reduce the employee's efficiency in working for the School.
 - b. Involves working for an organization that does a significant amount of business with the School, such as major contractors or suppliers.
 - c. Involves working for an organization that provides competing services.
4. Employees are prohibited from using School property or facilities to perform work for an outside employer unless authorized in advance by a supervisor.
5. Employees may not solicit or conduct any outside business during School work time.
6. Employees who have accepted outside employment may not use School-provided Paid Time Off (PTO) to perform work on the outside job.
7. Fraudulent use of the School's sick leave or an employee's refusal to discontinue outside employment after being requested to do so by his or her supervisor or the human resource department will result in disciplinary action up to and including termination of employment.

ACCOMMODATION OF DISABILITIES

The School is committed to making every reasonable effort to accommodate an employee's disability. An accommodation may be provided as long as the employee can perform the essential duties of the job, and it does not create an undue hardship for the School. A reasonable accommodation may include changes in the work environment or in the way a job is performed, so a person with a disability may enjoy equal employment opportunities.

Under this policy, if you are pregnant and request a reasonable accommodation for the duration of or any part of your pregnancy, we will explore all possible means of providing the reasonable accommodation including, but is not limited to, the following:

- More frequent or longer bathroom breaks;
- Breaks for increased water intake;
- Breaks for periodic rest;
- Seating;
- Assistance with manual labor;
- Light duty;
- Temporary transfer to a less strenuous or hazardous position;
- Acquisition or modification of equipment;
- Modified job duties;
- Modified work hours;
- Temporary relocation of work area; or
- Approval for leave necessitated by pregnancy, childbirth, or medical or common conditions relating to pregnancy or childbirth.

Accommodations depend upon the employee's job qualifications and the specific facts and circumstances of each individual situation.

Please inform your supervisor if you require an accommodation, so the School can have an interactive discussion with you. Your supervisor will work with you to determine if there is a need for an adjustment or change at work to accommodate your disability.

PERSONNEL FILES

The School maintains a personnel file on each employee. Contact Human Resources to view your personnel file.

To ensure that your personnel file is up-to-date at all times, use the School's Human Resource Information System, UltiPro® (<https://e42.ultipro.com>) for entering changes in your name, telephone number, home address, withholding instructions, number of dependents, beneficiary designations, scholastic achievements, or emergency contacts..

INTRODUCTORY PERIOD

All employees will undergo an introductory period of employment. The introductory period shall consist of the first one hundred twenty (120) days of employment or ninety (90) days following transfer or promotion within the organization. This is an opportunity for the School to evaluate the employee's performance. It also is an opportunity for the employee to decide whether he or she is happy being employed by the School. The School may extend the introductory period if it desires. The employee will be notified, either verbally and/or in-writing if this period is extended. Completion of the introductory period does not alter an employee's at-will status.

It is expected that an employee must actively be at work during the Introductory Period except with

written management approval or unless approved in writing by management or Human Resources.

The School will conduct a formal performance review at the end of the introductory period.

SEPARATION FROM EMPLOYMENT

An employee may be separated from employment either voluntarily or involuntarily by resignation, retirement, lack of work, poor performance or other reasons.

Employment Termination

Our goal is to build and maintain lasting work relationships with our employees. In the case that an employee chooses to resign, he/she should consult the terms of his/her employment agreement.

It is expected that teachers provide a minimum of 30 calendar days' notice and others provide a minimum of 14 calendar days' notice.

The School reserves the right to accept the resignation immediately upon notice, or based upon the individual circumstances, the School may elect to allow the employee to work out his/her notice. Employees must actively be at work during a notice period except with written management approval or unless approved in writing by management or Human Resources. Paid Time Off (PTO) cannot be used during this notice period.

Once notice of resignation is received by the school leader, it cannot be withdrawn except with the written agreement of the school leader, even if such attempt to withdraw is during the notice work out period. Some employees may have additional conditions and/or limitations regarding resignation from employment. For additional information regarding any additional conditions and/or limitations regarding resignation from employment see your employment agreement, if any.

Employees who fail to follow any additional restrictions or conditions within their employment agreement, if any, may be in breach of their employment agreement and/or state law.

End of Employment Term / End of School Year Procedure

Each employee must return any equipment or supplies received during the course of employment prior to his/her final work day. Equipment, grade books, lesson plan books, student records and files, School manuals, computers, cell phones, keycards, security badges, building keys, and all School-owned materials must be given to the supervisor upon termination of employment.

For staff terminating employment at the end of the school year, standard responsibilities may include but are not limited to the following: completing a textbook inventory; inspecting all issued textbooks for damage; assigning responsibility for damage to school property to specific students; compiling a list of necessary room repairs; updating student cumulative records; thorough cleaning of classroom furniture and student lockers; and completion of classroom inventory of equipment, furniture and teaching materials. Grade books, lesson plan books, student records and files, school manuals, and all school-owned materials must be given to the school leader upon the ending of employment.

Exit Interviews

The school leader will generally schedule exit interviews at the time of employment termination. Topics of discussion may include reasons for leaving as well as impressions about the School and/or School. During the exit interview, employees can provide insights into areas for improvement their specific position held, the School, and/or the School.

Technology & Access Control

Once notice is given, the School reserves the right to limit or disable access to specific or all systems. Once employment has been terminated, all accounts will be disabled. Incoming email may be redirected to a current employee's inbox.

Return of School Property

Any property issued to you by the School such as software, computer equipment, databases, files, cell phone, pager, keys, parking passes, credit card(s) or any other equipment must be returned at the time of termination. You will be responsible for any lost or damaged items.

EMPLOYMENT VERIFICATION

All requests for employment verification for current or former employees should be referred to Human Resources at 888-990-4226 or HR@accelschools.com. Human Resources will only release your last title and dates of employment, unless the request for additional information is authorized in writing.

RESOLUTION OF DISPUTES

Any dispute arising out of or relating to the negotiation, execution, performance or termination of your employment, including, but not limited to claims under Title VII of the Civil Rights Act of 1964, as amended, the Civil Rights Act of 1991, the Age Discrimination in Employment Act of 1967, the Americans with Disabilities Act of 1990, Section 1981 of the Civil Rights Act of 1966, as amended, the Family Medical Leave Act, the Employee Retirement Income Security Act, and any similar federal, state or local law, statute, regulation, or any common law doctrine, whether that dispute arises during or after employment, shall be settled by binding arbitration before a single arbitrator in accordance with the Employment Arbitration Rules and Procedures of JAMS; provided however, that this dispute resolution provision shall not apply to any separate agreements between the parties that do not themselves specify arbitration as an exclusive remedy.

The location for the arbitration shall be the Pittsburgh metropolitan area. Any award made by such arbitrator shall be final, binding and conclusive on the parties for all purposes, and judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. The arbitrator's fees and expenses and all administrative fees and expenses associated with the filing of the arbitration shall be borne by the School; provided however, that at your option, you may voluntarily pay up to one-half the costs and fees.

You and the School acknowledge and agree that the obligations to arbitrate under this section

continue after the termination of the employment relationship between you and the School. By electing arbitration as the means for final settlement of all claims, you and the School hereby waive their respective rights to, and agree not to, sue each other in any action in a Federal, State or local court with respect to such claims, but may seek to enforce in court an arbitration award rendered pursuant to this offer letter. You and the School specifically agree to waive their respective rights to a trial by jury, and further agree that no demand, request or motion will be made for trial by jury.

EMPLOYEE CONDUCT

ANTI-HARASSMENT

Virtual Preparatory Academy of Pennsylvania is committed to a work environment in which all individuals are treated with respect and dignity and are free from all forms of harassment and discrimination. Any form of harassment, even when not unlawful or directed at a protected category, is prohibited and will not be tolerated. All employees, including supervisors, co-workers, vendors, contractors, or other third parties, are expected to adhere to this policy.

Reported or suspected occurrences of harassment or discrimination will be promptly and thoroughly investigated. Following an investigation, the School will promptly take any necessary and appropriate disciplinary action.

The School will not permit or condone any acts of retaliation against anyone who files or cooperates in the investigation of harassment or discrimination complaints.

1. The term “harassment” includes harassment based on any category protected by federal, state or local law, which may include, but is not limited to, unwelcome slurs, jokes, or verbal, graphic or physical conduct relating to an individual's race, color, religious creed, sex, national origin, ancestry, citizenship status, pregnancy, childbirth, physical disability, mental and/or intellectual disability, age, military status or status as a Vietnam-era or special disabled veteran, marital status, registered domestic partner or civil union status, familial status, gender, gender identity, sexual orientation, medical condition, or genetic information.
2. Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature where:
 - a. Submission to such conduct is an explicit or implicit term or condition of employment;
 - b. Employment decisions are based on an employee's submission to or rejection of such conduct; or
 - c. Such conduct unreasonably interferes with an individual's work performance or creates an intimidating, hostile or offensive working environment.

Complaint Procedure

The School provides you with a convenient and reliable method for reporting incidents of alleged harassment, including sexual harassment and discrimination. Any employee who feels harassed or discriminated against is encouraged to immediately inform the alleged offender that the behavior is unwelcome. In many instances, the person is unaware his or her conduct is offensive, and this action alone may often resolve the problem. If the informal discussion with the alleged offender is unsuccessful in remedying the problem, or if you do not feel comfortable with such an approach, you should immediately report the conduct to your direct supervisor, manager or school leader. We cannot resolve a harassment or discrimination problem unless we know about it. Therefore, it is your responsibility to bring those kinds of problems to our attention so we can take the necessary steps to correct any problems. The report should include all facts available to you regarding the alleged harassment, sexual harassment, or discrimination.

Should you feel uncomfortable reporting the conduct to your supervisor or school leader, please send an email to hr@accelschools.com indicating that you have a confidential matter to discuss along with the best phone number and times of day to contact you.

Confidentiality

All reports of alleged harassment, sexual harassment, or discrimination will be treated seriously. Confidentiality will be maintained to the extent possible. However, to conduct a thorough investigation, certain information may need to be disclosed to other individuals, including the alleged offender. Consequently, absolute confidentiality cannot be promised and cannot be guaranteed.

Investigative Procedure

Once a complaint of alleged harassment, sexual harassment, or discrimination is received, we will begin a prompt and thorough investigation. The investigation may include interviews with all involved employees, including the alleged harasser, and any employees who are aware of facts or incidents alleged to have occurred.

Following an investigation, the School will promptly take any necessary and appropriate disciplinary action. Disciplinary action will be taken if the investigation reveals that an employee has acted in a manner that is not in alignment with the goals of this policy. Virtual Preparatory Academy of Pennsylvania may address any workplace issue discovered during an investigation. This may include some or all of the following steps:

1. Restore any lost terms, conditions, or benefits of employment to the complaining employee.
2. Discipline the alleged harasser. This discipline may include written disciplinary warnings, transfer, demotion, suspension and/or termination of employment.

If the alleged harassment, sexual harassment, or discrimination is from an employee, vendor, contractor, or parent, or other third party over the age 18, the School will take appropriate action to stop the conduct. If the behavior is from a student or other minor under the age of 18, the School or the School will take appropriate action.

If you have made a complaint but feel that the action taken in response has not remedied the situation, you should make an additional complaint following the complaint procedure outlined in this policy.

Duties of Employees and Supervisors

All employees of the School, both management and non-management, are responsible for assuring that a workplace free of harassment, sexual harassment, and discrimination is maintained. Any employee may file a complaint regarding incidents experienced personally or incidents observed in the workplace. The School strives to maintain a pleasant work environment where all employees are able to effectively perform their work without interference of any type and requests the assistance of all employees in this effort.

All managers and supervisors are responsible for doing all they can to prevent and discourage harassment, sexual harassment, and discrimination from occurring. If a complaint of harassment, sexual harassment or discrimination is raised, the individual to whom the complaint is made (i.e., supervisor, manager, school leader) should promptly notify Human Resources so an investigation may be initiated. The School may discipline any managers or supervisors who fail to follow this policy, which discipline may include termination.

HARRASSMENT

Harassment is any form of hostility, conduct or language that alters the conditions of the student's school environment and that creates a hostile, intimidating or offensive school environment. Additionally, sexual harassment can consist of unwelcome sexual advances, intentional and unwelcome touching, verbal remarks and requests or demands for sexual favors. The prohibition against harassment is applicable to all employees.

Reported incidents shall be investigated immediately. The incident and report will be kept as confidential as the circumstances permit.

GUIDELINES FOR APPROPRIATE CONDUCT

In order to conduct the operations of Virtual Preparatory Academy of Pennsylvania efficiently and professionally, all employees are to follow the rules of conduct that will protect the interests and safety of all employees and the School. All employees are expected to act in a professional manner at all times including during interactions with students and their families, co-workers, board members, and the general public.

Although it is not possible to list all forms of inappropriate behavior and conduct, the following are examples that are considered inappropriate and may result in disciplinary action up to and including termination of employment:

- Falsifying employment or other School records;
- Violating the Anti-Harassment policy;
- Violating certain state, federal or local laws and regulations;
- Violating security or safety rules or failing to observe safety rules or safety practices; failing to wear required safety equipment; tampering with equipment or safety equipment;
- Soliciting gratuities from students and their families, vendors, or other third parties;
- Displaying excessive or unexcused absenteeism or tardiness;
- Possessing firearms, weapons or explosives on School property without authorization unless explicitly permitted by state law
- Using the School's or school's property and supplies, particularly for personal purposes in an excessive, unnecessary or unauthorized way;
- Negligent damage of property;
- Violating the Violence in the Workplace policy;
- Violating the Drug-Free Workplace policy;
- Committing theft or having unauthorized possession of School property or the property of fellow employees; possessing or removing any School property, including documents, from the premises without prior permission from management; using School equipment or property for personal reasons without proper authorization; using School equipment for profit;
- Giving confidential or proprietary information to competitors or other organizations, or to unauthorized employees; working for a competing business while an employee of the School; breaking confidentiality of personal information during employment and after separation;
- Engaging in abusive conduct, or bullying, such as using obscene, abusive or threatening language or gestures or other verbal or physical conduct a reasonable person would find threatening, intimidating, or humiliating;
- Engaging in malicious acts such as gossip and/or rumors, derogatory remarks, insults, epithets; engaging in behavior that creates discord and lack of harmony during employment and after

separation;

- Interfering with another employee on the job, restricting work output or encouraging others to do the same, unwarranted sabotage or undermining another's work, during employment and upon separation;
- Soliciting, selling, or collecting funds for any purpose while on working time (not including meals and authorized breaks). Employees who are not on working time shall not interfere with the work of employees who are on workingtime.
- Refusing to follow the School and/or School Health & Safety protocols, including appropriate dress for prevention of spreading disease and use of personal protective equipment.

Where appropriate, supervisors will follow a process of progressive employee discipline. Before or during application of any discipline, employees may be given an opportunity to relate their version of the incident or problem and provide an explanation. Examples of progressive employee discipline include:

- Verbal Counseling - A conversation with an employee explaining that the employee's conduct or poor performance is unacceptable, and repeated or continued unacceptable conduct or performance will result in more severe disciplinary action. A record of the notice of the verbal counseling may be made and retained in the employee's personnel file.
- Written Counseling - A written document or memo that describes the unacceptable conduct or performance of the employee and specifies needed changes or improvements. A copy of the written counseling generally will be retained in the employee's personnel file.
- Suspension - Suspension of the employee's employment may, at the sole discretion of the School, be used prior to termination. The length of the suspension will vary based upon such factors as the severity of the offense, the employee's performance and the employee's disciplinary record. An employee may be suspended for repeated instances of minor misconduct, failure to conform his/her conduct or performance to the standards of his/her position, or for a single serious offense. A record of the suspension generally will be retained in the employee's personnel file.
- Termination - If an employee fails to follow acceptable conduct or performance standards, the School may terminate the employee's employment.

Depending on the specific circumstances, the School may suspend or terminate an employee without prior discipline, or without following a particular order of discipline.

ADDITIONAL GUIDELINES FOR APPROPRIATE CONDUCT

Examples of offenses that can lead to disciplinary action or dismissal include, but are not limited to:

- Conviction of an offense that would prohibit the staff member from exercising care and custody over students in the School;
- Committing any violation of state or federal laws, statutes, or rules, although the conduct may not have resulted in a criminal charge, indictment, prosecution or conviction;
- Failure to complete a criminal background check, or other mandated employment screenings, as required by state and federal law;
- Falsifying, intentionally misrepresenting, willfully omitting or being negligent in reporting information submitted to federal, state, and other governmental agencies such as professional qualifications, criminal history and information submitted in the course of an official inquiry or investigation, college or professional development credit and/or degrees, academic awards, and employment history when applying for employment and/or licensure, or when recommending an individual for employment, promotion or licensure. This includes but is not

limited to, employment application, time keeping records, or student records;

- Intent to, or behavior that inflicts physical or emotional harm to a person or damage to property, whether intentional or negligent; (This can include any behavior that would constitute any type of harassment);
- Disparaging a colleague, peer or other personnel on the basis of race or ethnicity, national origin, socioeconomic status, gender, gender identity, sexual orientation, political or religious affiliation, physical characteristics, age, disability or English language proficiency;
- Serious or repeated acts in violation of general safety rules or practices in the performance of work or in the use of School facilities for any purpose;
- Absence without notification; (This is defined as failure to report, intentionally misrepresenting, willfully omitting or being negligent in reporting reasons for absences or leaves for a scheduled workday without notification to the Administration.)
- Excessive employee tardiness and unapproved or unprotected absences beyond the allocated paid time off policy (see the Notification of Absence Policy above);
- Theft, misappropriation of School property, and dishonesty;
- Possessing, consuming or being under the influence of alcoholic beverages or any non-prescribed, controlled substance during work hours; (An employee is to inform their supervisors of any appropriately prescribed prescription medicine that they have been given that may affect their job performance or ability to function at work);
- Consuming or being under the influence of alcoholic beverages or any non-prescribed, controlled substance while on School property;
- Possession of explosives or firearms on School property, while representing the School, or while the employee is conducting any business of the School as an employee or volunteer;
- Unauthorized possession of or use of any School property, equipment, or material;
- Using technology to intentionally host or post improper or inappropriate material that could reasonably be accessed by the School community;
- Unauthorized disclosure of confidential records that include but are not limited to student records, employee records, and/or school records; standardized tests, test supplies or resources during employment and after separation;
- Unauthorized use or disclosure of student records as determined by the Family Educational Rights and Privacy Act of 1974, as amended ("FERPA"), and by related regulations during employment and after separation;
- Failure to perform job functions or failure to follow Administrative directives in a satisfactory and/or timely manner;
- Co-mingling public or School-related funds with personal funds; submitting fraudulent requests for reimbursement of expenses; failing to account for funds related to School activities collected from students, parents, family members, community members, staff or peers;
- Willfully or knowingly violating any student confidentiality required by federal or state laws, including publishing, providing access to, or altering confidential student information on district or public web sites such as grades, personal information, photographs, disciplinary actions, or individual educational plans (IEPs) without parental consent or consent of students 18 years of age and older during employment and after separation;
- Using confidential student, family, or School-related information in a non-professional way (e.g., gossip, malicious talk or disparagement);
- Improper verbal or physical conduct toward a student, parents, family members, community members, staff or peers;
- Failure to follow School policies, procedures, or job instructions;
- Failure to adhere to job description;
- Failing to adhere to any Code of Professional Conduct for Educators or equivalent as mandated by each state.
- In addition, each employee must advise the Administrator if s/he is arrested for or convicted of

any offense (other than a minor traffic violation) within three days of her/his arrest or conviction. Failure to give prompt notice is grounds for termination of employment.

The listed causes for disciplinary actions are not all-inclusive and the School will determine appropriate discipline reasons and level of discipline or disciplinary actions of each occurrence by examining the specific facts presented.

Should an employee's performance, work habits, overall attitude, conduct or demeanor become unsatisfactory based on violations either of the above or of any other School policies, rules or regulations, the employee will be subject to disciplinary action, up to and including termination.

Before or during imposition of any discipline, employees may be given an opportunity to relate their version of the incident or problem at issue and provide any explanation or justification they consider relevant.

Where appropriate and as circumstances may dictate, supervisors will follow a process of progressive employee discipline. Examples of employee discipline include:

Progressive Discipline

The School's own best interest lies in ensuring fair treatment of all employees and in making certain that disciplinary actions are prompt, uniform, and impartial. The major purpose of any disciplinary action is to correct the problem, prevent recurrence, and prepare the employee for satisfactory service in the future.

Disciplinary action may call for all or any of four steps -- verbal warning, written warning, suspension with or without pay, or termination of employment, all of which will be documented and placed in the employee's personnel file. Depending on the severity of the problem and the number of occurrences there may be circumstances when one or more steps are bypassed.

Progressive discipline means that, with respect to most disciplinary problems, these steps will normally be followed: a first offense may call for a verbal warning; a next offense may be followed by a written warning; another offense may lead to a suspension; and, still another offense may then lead to termination of employment.

The Executive Team recognizes that there are certain types of employee problems that are serious enough to justify either a suspension, or termination of employment, without going through the usual progressive discipline steps.

While it is impossible to list every type of behavior that may be deemed a serious offense, this Handbook includes examples of problems that may result in immediate suspension or constitute just cause for immediate termination of employment. However, the causes for disciplinary action listed are not all necessarily serious offenses, but may be examples of unsatisfactory conduct that will trigger progressive discipline.

By using progressive discipline, we hope that most employee problems can be corrected at an early stage, benefiting both the employee and the School.

POLICY ON FRAUD, BRIBERY AND CORRUPTION

The School prohibits any acts of fraud, bribery, and corruption.

Fraud is defined as any act or omission that intentionally misleads, or attempts to mislead, another party in order to obtain a financial or other benefit or to avoid an obligation.

Bribery is defined as giving, paying, promising, offering, or authorizing the payment of anything of value to any party to influence any person or entity to act improperly.

Corruption is defined as the use or abuse of one's authority or position within the School for private gain.

Reported incidents shall be investigated immediately. The incident and report will be kept as confidential as the circumstances permit.

ANTI-BULLYING POLICY

The school prohibits any acts of bullying. Workplace Bullying refers to repeated, unreasonable actions of individuals (or a group) directed towards an employee (or a group of employees) that are intended to intimidate, degrade, humiliate, or undermine; or that creates a risk to the health and safety of the employee(s). Bullying, like other disruptive or violent behaviors, is conduct that disrupts both the student's ability to learn and the school's ability to educate its students in a safe environment. Demonstration of appropriate behavior, treating others with civility and respect, and refusing to tolerate bullying is expected of all staff.

Harassment is any form of hostility, conduct or language that alters the conditions of the student's school environment and that creates a hostile, intimidating or offensive school environment. Additionally, sexual harassment can consist of unwelcome sexual advances, intentional and unwelcome touching, verbal remarks and requests or demands for sexual favors. The prohibition against harassment is applicable to all employees.

Reported incidents shall be investigated immediately. The incident and report will be kept as confidential as the circumstances permit.

Reporting Student Abuse/Neglect/Battery/Bullying

Requirements and Procedures for Reporting Known or Suspected Cases of Child Abuse/Neglect/Battery/Bullying

When any employee knows of or suspects abuse or neglect of a student under the age of 18 years of age, the employee shall first notify their Supervisor. Then the employee shall call the local reporting agency in the presence of the Supervisor. The employee shall document the notification by using the Suspected Student Abuse/Neglect Form. The School Nurse will be notified, if appropriate.

When any staff employee suspects abuse or neglect of a student that is 18 years of age or older, he/she must first notify the supervisor. The employee must then offer the student the opportunity to report the incident(s) to the local police. The student, as an adult, has the option not to make a call to the police. In either case, the employee must complete a Student

Abuse/Neglect Form that is placed into the student's records.

If the family contacts the School about the report, the family needs to be told to contact the agency or police department that is handling the matter. All reports are to be kept confidential – including between members of the School staff — unless a given staff member needs to know about the matter in order to fulfill his/her duties.

Refer to the anti-bullying policy if an employee believes that bullying is occurring.

ANTI-NEPOTISM

It is the School's policy to consider members of an employee's immediate family for employment on the basis of their qualifications. Immediate family may not be hired, however, if employment would:

Create a supervisor/subordinate relationship with a family member;

Have the potential for creating an adverse impact on work performance; or

Create either an actual conflict of interest or the appearance of a conflict of interest.

This policy must also be considered when assigning, transferring, or promoting an employee. For the purpose of this policy, immediate family includes: spouse, parent, child, sibling, in-law, aunt, uncle, niece, grandparent, grandchild, members of household. This policy also applies to romantic relationships.

Employees who become immediate family members or establish a romantic relationship may continue employment as long as it does not involve any of the above. If one of the conditions outlined should occur, attempts will be made to find a suitable position within the School to which one of the employees will transfer. If employees become immediate family members or establish a romantic relationship, the School will make reasonable efforts to assign job duties so as to minimize problems of supervision, safety, security or morale. If accommodations of this nature are not feasible, one of the employees may be asked to resign. The employees will be permitted to determine which of them will resign. If the employees cannot make a decision, the School will decide in its sole discretion who will remain employed.

ABSENTEEISM AND TARDINESS

Regular attendance is important to the smooth operation of Virtual Preparatory Academy of Pennsylvania. If you are late or absent, it places a burden on other employees and may impact productivity, student learning, and classroom and school morale.

You are expected to be reliable and punctual by reporting to work on time and as scheduled. If there is an unscheduled absence or a need for late arrival to work, notify your supervisor at least two hours prior to when your scheduled work shift begins. In most circumstances, you should notify your supervisor within two hours of your work shift each day of your absence, unless you have been granted a leave of absence. In the event of a sickness or accident while performing your duties,

notify your supervisor immediately.

If you are absent for three or more consecutive workdays due to personal illness, you may be required to provide a statement from your healthcare provider, unless state or local law provides otherwise, before you will be permitted to return to work and you may be required to follow leave request processes.

. Failure to properly report your absences may be considered a voluntary resignation of your position. Employees who fail to report to work for three consecutive business days without notifying the school of the absence will be considered as having voluntarily resigned as a result of job abandonment.

Suspected abuse of sick leave may lead to disciplinary action. Indications of possible abuse include, but are not limited to, repeated usage of sick leave to extend regularly scheduled days off, including weekends, holidays (before or after a holiday), excessive absenteeism on Mondays and Friday, and usage of sick leave on days previously requested and denied as vacation.

If you need to leave the worksite to conduct personal business, you must first obtain permission from your immediate supervisor. This will allow us to make modifications to the work schedule if necessary and will keep us aware of your availability during the day.

OUTSIDE EMPLOYMENT & CONFLICTS OF INTEREST

The School recognizes that some employees may need or want to hold additional jobs outside their employment with the School. Employees may be permitted to engage in outside work or hold other jobs, subject to certain restrictions based on reasonable business concerns. Employees must consult their supervisors or managers for review and approval of outside employment prior to beginning outside employment.

The following rules for outside employment apply to all employees:

1. Work-related activities and conduct away from the School must not compete with, conflict with or compromise the School's interests or adversely affect job performance and the ability to fulfill all job responsibilities.
2. Employees must carefully consider the demands that additional work activity will create before accepting outside employment. Outside employment will not be considered an excuse for poor job performance, absenteeism, tardiness, leaving early, refusal to travel, or refusal to work overtime or different hours. If outside work activity causes or contributes to job-related problems at the School, the employee will be asked to discontinue the outside employment, and the employee may be subject to the normal disciplinary procedures for dealing with the resulting job-related problem(s).
3. In evaluating the effect that outside work may have on an employee's job performance and other job-related responsibilities, the Employee's supervisor and the human resource department will consider whether the proposed employment:
 - a. May reduce the employee's efficiency in working for the School.
 - b. Involves working for an organization that does a significant amount of business with the School, such as major contractors or suppliers.
 - c. Involves working for an organization that provides competing services.
4. Employees are prohibited from using School property or facilities to perform work for an outside employer unless authorized in advance by a supervisor.
5. Employees may not solicit or conduct any outside business during School work time.

6. Employees who have accepted outside employment may not use School-provided Paid Time Off (PTO) to perform work on the outside job.
7. Fraudulent use of the School's sick leave or an employee's refusal to discontinue outside employment after being requested to do so by his or her supervisor or the human resource department will result in disciplinary action up to and including termination of employment.

DRUG-FREE WORKPLACE

Virtual Preparatory Academy of Pennsylvania is committed to protecting the safety, health and well-being of all employees, students, families, contractors, board members, vendors, and others with whom we interact in our workplace. "Workplace" includes School property, any School-sponsored activities located at any other site where you are performing work or representing the School.

The term "drug" as used in this policy includes alcoholic beverages and prescription drugs, as well as illegal inhalants and illegal drugs and/or controlled substances including, but not limited to, marijuana, opiates (e.g., heroin, morphine), cocaine, phencyclidine (PCP), and amphetamines.

All employees are expected to contribute to maintaining a drug-free workplace. Prohibited activities under this policy include the possession, use, sale, attempted sale, distribution, manufacture, purchase, attempted purchase, transfer or cultivation of drugs in the workplace. Employees are also prohibited from being at the workplace with a detectable amount of drugs in their system. However, the use and/or possession of prescription drugs, when taken as directed and obtained with a valid prescription under federal law, is not a violation of this policy.

As a condition of continued employment, all employees must comply with this policy. An employee who engages in an activity prohibited by this policy shall be subject to disciplinary action, up to and including immediate termination of employment.

Contact Human Resources for information about the Employee Assistance Program (EAP) and support for participation in drug and alcohol abuse rehabilitation and education programs through the School's health care carrier.

This policy is not intended to replace or otherwise alter applicable U.S. Department of Transportation obligations or any other federal, state or local agency drug testing regulations related to a particular industry.

PERSONAL APPEARANCE - DRESS CODE

All employees, working in any capacity with the students, are to maintain and adhere to the following dress code:

The appropriate dress attire for men would include, shirts, non-denim pants/slacks, and shirts with a collar; the appropriate attire for women is dresses, non-denim pants/slacks, skirts and blouses or collared shirts. For safety purposes, shoes must cover heels and toes. The following are not permitted:

- Spandex/exercise/athletic gear;
- Pajamas or other sleepwear;
- Skirts that are more than 2 inches above the knee;
- Revealing tops including those with plunging neck lines;
- Any article of clothing with images or words that are violent, sexual or religious in overtone, promote or refer to alcohol or drugs, or promote School competitors;
- Facial tattoos or tattoos that are violent, sexual or religious in overtone, promote or refer to alcohol or drugs, or promote School competitors;
- Tattoos that cover more than one-fourth of the exposed body part;
- Tongue piercings;
- Teeth ornamented with designs, jewels, initials, etc.;
- Intentional mutilation or radical alteration of any part.

If a uniform shirt or other dress is specified the School, employees may dress in accordance with the School's specific policy.

Generally, if uncertain about whether a particular style of dress or article of clothing is appropriate, choose NOT to wear it to work. The employee should be considerate of the fact that the students are required to dress uniformly and adhere to the dress code of the School. The School staff should present a model for students to follow in areas regarding personal hygiene and appearance.

All employees are expected to keep their work area clean and organized.

Some individuals may have sensitivity or allergic reactions to perfumes, colognes, powders and lotions. If you use these items, use them in moderation and with consideration for those around you.

The School will consider reasonable accommodations to appearance standards for medical and/or religious reasons. Contact your supervisor if you have a request for an accommodation in this area.

For additional dress codes, see State Addendums.

PERSONAL PROPERTY

The School does not provide insurance coverage for employee's personal property. This is the responsibility of each individual. Employees should contact their individual insurance agents to check their coverage. Any personal property brought onto School property is subject to inspection and search.

RETURN OF PROPERTY

Employees are responsible for all School property, materials, or written information issued to them or in their possession or control.

Employees must return all property immediately upon request or upon termination of employment and keep no copies of the property in any media form. The Executive Team may also take all action deemed appropriate to recover or protect its property.

PERMISSIBLE USE OF RECORDING DEVICES

Use of recording or camera functions on electronic communication devices is permitted in the building or on School property solely for the purpose of obtaining or maintaining licensure that is required for your position with Virtual Preparatory Academy of Pennsylvania. Before any recording, you must ensure that you have the appropriate permission from the parents/guardians of your students and from adults who appear in the recording. You may not use the recording for any purpose that is not within the parameters of the permission forms you received for students or adults who appear in your recording.

Use of online recording devices (i.e. conference bridge services) may be used to capture discussions for the purpose of reference. Under these circumstances, all attendees must be audibly notified when recordings are commenced and terminated. These recordings must be made available to all attendees and may be shared with other employees or vendors with whom we have a non-disclosure agreement (NDA). All recordings can be disclosed to law enforcement or other third parties without prior consent of the sender or the receiver. The information collected may be used as a justification for internal disciplinary action, including, but not limited to demotion, suspension, or termination. The School is under no obligation to share that information with the employee.

You must obtain written permission from your Supervisor prior to recording any conversation, communication, activity or event.

PROHIBITED USE OF RECORDING DEVICES

To encourage open channels of communication among employees and to ensure the privacy of our employees, students, families, board members, contractors, vendors, and others with whom we interact, and to protect the integrity of our business information, you may not openly or secretly tape, record, or videotape, any conversation, communication, activity or event unless necessary for obtaining or maintaining licensure required by your job with the School. This policy also applies to recording conversations and communications with any other third parties either doing business with or connected to Virtual Preparatory Academy of Pennsylvania, including outside legal counsel, auditors and regulatory officials.

You are restricted from using the recording or camera functions on any electronic communication devices anywhere in the building or on School property at any time.

TOBACCO-FREE WORKPLACE

Virtual Preparatory Academy of Pennsylvania is committed to providing all employees with a safe and healthy work environment. All school premises are smoke-free, unless clearly marked otherwise. Smoking a cigarette, cigar, e-cigarette, or pipe or any other form of tobacco, as well as the chewing of tobacco, is not allowed. For your convenience, designated smoking areas are clearly marked. Employees are expected to use the waste disposal receptacles for smoking products.

VIOLENCE IN THE WORKPLACE

Virtual Preparatory Academy of Pennsylvania is committed to providing a safe workplace for employees, students, families, board members, contractors, vendors, and others with whom we interact. The School has zero tolerance for violent acts or threats of violence.

You are expected to conduct yourself in a non-threatening, non-abusive manner at all times. Any direct, conditional or veiled threat of harm to any employee, guest, or School property will be considered unacceptable behavior. Acts of violence, intimidation or bullying of others will not be tolerated.

All employees share the responsibility in identifying and alleviating threatening or violent behaviors. Anyone who is subjected to or threatened with violence, or who is aware of another individual who has been subjected to or threatened with violence, is to immediately report this information to his/her supervisor, or a management member. You must assume that any threat is serious. The School will carefully investigate reports and maintain employee confidentiality to the fullest extent possible.

Virtual Preparatory Academy of Pennsylvania will take disciplinary action, up to and including termination, and/or legal action as appropriate, against any employee who commits or threatens to commit a violent act against any person while on School premises or while engaged in school business off the premises.

Experts in the mental health profession state that prior to engaging in acts of violence, troubled individuals often exhibit one or more of the following behaviors or signs: over-resentment, anger and hostility; extreme agitation; making ominous threats such as bad things will happen to a particular person or a catastrophic event will occur; sudden and significant decline in work performance; irresponsible, irrational, intimidating, aggressive or otherwise inappropriate behavior; reacting to questions with an antagonistic or overtly negative attitude; discussing weapons and their use, and/or brandishing weapons in the workplace; overreacting or reacting harshly to changes in school policies and procedures; personality conflicts with co-workers; obsession or preoccupation with a co-worker or Supervisor; attempts to sabotage the work or equipment of a co-worker; blaming others for mistakes and circumstances; or demonstrating a propensity to behave and react irrationally.

WEAPONS

Virtual Preparatory Academy of Pennsylvania strives to provide a safe and secure workplace for employees, students, families, board members, contractors, vendors, and others with whom we interact. The School has zero tolerance for, and forbids the possession of any type of weapon, firearm, explosive and/or ammunition while on School property or conducting school business, unless explicitly authorized by state law. For purposes of this policy, School property includes, but is not limited to, all School facilities, and School-provided vehicles and equipment that are either leased or owned by the School.

Possession of firearms or other weapons may be cause for discipline, including, but not limited to, immediate termination of employment. In enforcing this policy, Virtual Preparatory Academy of

Pennsylvania reserves the right to request inspections of any employee and their personal effects while on School or school property, to the extent allowable under applicable law. Any employee who refuses to allow an inspection will be subject to the same disciplinary action as having been found in possession of firearms or other weapons.

In the event an employee lawfully possesses a firearm, the employee can store the firearm in the employee's personal vehicle while on school-provided parking areas; however, the firearm must be stored in the employee's locked vehicle, or locked to the vehicle, and hidden from plain view.

Employees share the responsibility of identifying violators of this policy. If you either witness or suspect another individual of violating this policy, you should immediately report this information to their onsite supervisor.

WHISTLEBLOWER POLICY

The School is committed to operating in compliance with all applicable laws, rules and regulations, including those concerning accounting and auditing, and prohibits fraudulent practices by any of its board members, officers, employees, or volunteers. This policy outlines a procedure for employees to report actions that an employee reasonably believes violates a law, or regulation or that constitutes fraudulent accounting or other practices. This policy applies to any matter that is related to the school's business and does not relate to private acts of an individual not connected to the business of the school.

A whistleblower as defined by this policy is an employee of the School or its affiliates who reports an activity that the employee considers to be illegal or dishonest business activity. A whistleblower is not responsible for investigating the activity or for determining fault or corrective measures; appropriate management officials are charged with these responsibilities.

Examples of illegal or dishonest activities include but are not limited to, violations of federal, state or local laws; billing for services not performed or for goods not delivered; and other fraudulent financial reporting.

If you have knowledge of, or a concern of illegal or dishonest fraudulent activity, you are to call 866.733.9409 or email whistleblowerhotline@accelschools.com. Employees are expected to exercise sound judgment to avoid baseless allegations. An employee who intentionally files a false report of wrongdoing will be subject to disciplinary action, up to and including termination of employment. All reports of illegal and dishonest activities will be promptly submitted to the school leader who is responsible for investigating and coordinating any corrective action needed.

Pursuant to the Defend Trade Secrets Act, an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that: (A) is made (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (B) is made in a complaint or other document that is filed in a lawsuit or other proceeding, if such filing is made under seal. An individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the employer's trade secret to the attorney of the individual and use the trade secret information in the court proceeding if the individual files any document containing the trade secret under seal; and does not disclose the trade secret, except pursuant to court order.

Whistleblower protections are provided in two important areas -- confidentiality and protection from retaliation against an employee who makes such a report. To the extent possible, the confidentiality of the whistleblower will be maintained. However, the whistleblower's identity may have to be disclosed to conduct a thorough investigation, to comply with the law and to provide accused individuals their legal rights of defense. Additionally, Virtual Preparatory Academy of Pennsylvania does not condone retaliation of any kind.

A whistleblower who believes he/she has been retaliated against must contact Virtual Preparatory Academy of Pennsylvania Human Resources immediately. The right of a whistleblower to protection against retaliation does not include immunity for any personal wrongdoing that is alleged and investigated. Virtual Preparatory Academy of Pennsylvania may take disciplinary action (up to and including termination) against an employee who in management's assessment has engaged in retaliatory conduct in violation of this policy.

If you have questions regarding this policy, contact Human Resources.

HOURS AND COMPENSATION

See State Addendum for additional hours and compensation policies.

ERROR IN PAY

The School makes every effort to ensure that you receive the correct amount of pay in each paycheck and that you are paid on the scheduled payday.

You should review your paycheck when received and, if you believe an error has been made, contact your supervisor and payroll@accelschools.com immediately. All necessary steps will be taken to research the problem and to assure that any necessary correction is promptly made.

EXEMPT EMPLOYEE REDUCTION OF SALARY

Exempt employees are paid on a salary basis and, in general, must be paid their full salary for any week they perform work. Their weekly salary may be reduced only in the following circumstances:

- Employees who are absent for at least a full day because of personal reasons, sickness or disability will not be paid for that day unless they have accrued paid time off under the Virtual Preparatory Academy of Pennsylvania paid time off or disability policy and the absence qualifies for pay under the policy. Their salary will not be reduced for less than a full day because of personal reasons, sickness or disability.
- Employees who are absent from work for jury duty, attendance as a witness or military leave may have their salary reduced by the amount of payment they receive in the form of jury fees, witness fees or military pay. Their salary will not be reduced by the number of hours or days they are absent unless they perform no work during a given week.
- Employees who work less than 40 hours during their first and/or last week of employment will be paid a proportionate part of their full salary for the time actually worked.
- Employees who take leave under the Family and Medical Leave Act will not be paid for that time unless they have accrued paid time off under the School paid time off or disability policy, if any. Their salary will be reduced by the hours missed, even if it is for less than a full day.
- Employees who violate a safety rule of major significance, may have their salary reduced in an amount to be determined by the School as a penalty for that violation.
- Employees may be suspended without pay for other types of workplace misconduct, but only in full day increments. This refers to suspensions imposed according to a written policy applicable to all employees regarding serious misconduct, including, but not limited to, workplace harassment, violence, drug and alcohol violations, legal violations, etc. The possibility of unpaid suspensions is included into all similar policies.

This policy is subject to applicable state law regarding reduction of exempt employees' salaries if the state law is more favorable to employees.

Prohibited Reductions/Complaint Procedure

Any salaried exempt employee whose salary is reduced in violation of this policy will be reimbursed. If you feel your salary has been improperly reduced, please notify your human resource specialist. No employee will be penalized in any way for making a complaint.

This policy is intended solely to implement Fair Labor Standards Act (FLSA) regulatory requirements, and applicable state law will be applied and modified as necessary in accordance with the requirements, and is not to be considered any type of contract.

HOURS OF OPERATION

Normal operating hours for Virtual Preparatory Academy of Pennsylvania are from 7:30 a.m. to 4:00 p.m., Monday through Friday. These hours may vary depending upon your position and work requirements. If applicable, your supervisor will provide direction for lunch and rest breaks in order to facilitate the smooth flow of business and to maintain an adequate number of staff.

Give your supervisor as much advance notice as possible for any schedule changes.

INCLEMENT WEATHER

In the case of inclement weather, please consult your school leader for policy and procedures on school opening status.

Hourly staff will not be paid for any hours during a school closure due to inclement weather unless they choose to use available PTO hours.

MEAL PERIODS

All regular full-time employees will have one meal period of thirty minutes in length each workday. Your supervisor will schedule your meal period to accommodate operational requirements. During meal periods, you are not subject to any work responsibilities or restrictions. You will not be paid for meal period time.

OVERTIME FOR NONEXEMPT EMPLOYEES

Depending on the School work needs, employees may be required to work overtime when requested to do so. Nonexempt employees will be paid overtime premiums at the applicable federal or state wage rate, whichever is higher. You are responsible for clearly noting all hours worked, including any overtime hours, on your timesheet.

It is our policy that no overtime can be worked without the advance approval of your supervisor.

Failure to obtain approval in advance of working the overtime is a violation of School policy and may result in disciplinary action.

If, during a workweek, you are away from the job because of an injury, paid holiday, jury or witness duty, sick day or vacation day, those hours not worked will not be counted as hours worked for the purpose of computing overtime pay, even if you receive pay such as sick or vacation pay for such time missed.

Prohibited "Off the Clock" Work

Employees are not to work "off the clock" and are required to ensure that all time worked is properly recorded. If you are given directions to perform work "off the clock," you should promptly notify your supervisor. If your supervisor has given you directions to work "off the clock" and/or has told you not to properly record all hours worked, notify your human resource specialist. You will not be penalized in any way for making such a complaint.

PAY PRACTICES

For overtime calculations and salary administration, the fixed 7-day "workweek" for Virtual Preparatory Academy of Pennsylvania is the period beginning at 12:01 a.m., Sunday and ending at midnight, Saturday. All employees will be paid bi-weekly on every second Friday. For paydays falling on a weekend or holiday, you will be paid the prior business day.

If you are absent on payday and someone else is to pick up your check, it will not be released without a signed note from you authorizing the named person to pick it up. The person designated to pick up your check will be asked to produce satisfactory identification; otherwise, your check will not be released.

If your employment ends, you will be paid your final wages in accordance with applicable state law.

Payroll is biweekly, with all employees paid one week in arrears.

TIMESHEETS

Accurately recording and reporting time worked is the responsibility of every employee in order for the School to calculate employee pay and benefits. All employees are required to accurately record and report all time worked and time away from work and sign their own time report prior to submitting to their supervisor for approval.

Any discrepancies regarding overtime should be resolved by your supervisor before submitting your hours. You may not work "off the clock" and if you are asked to do so, you should immediately report this to management.

LACTATION BREAK

The School will provide a reasonable amount of break time, or amount of time required by state law, to accommodate a female employee's need to express breast milk for the employee's infant child for up to one year following the child's birth, or as required by law. The break time should, if possible, be taken concurrently with other break periods already provided. Employees should clock out for time taken for 30 minutes or more that does not run concurrently with normally scheduled break periods. For office-based employees, Virtual Preparatory Academy of Pennsylvania will provide the employee with the use of a room or other location in close proximity to the employee's work area, other than a restroom, where the employee may express milk in private. Speak with your supervisor should arrangements for a refrigerator be required.

Employees should advise management if they need break time and an area for this purpose. Employees will not be discriminated against or retaliated against for exercising their rights under this policy.

OPERATIONS

SCHOOL PROPERTY INSPECTION

In an effort to maintain the safety and welfare of employees and visitors, the School will conduct searches or inspections on reasonable suspicion that a School policy was violated. Areas that may be searched include, but are not limited to, an employee's work area, desks and any other property located on School premises or worksites. Entry on School premises constitutes consent for the School to conduct a search or inspection when there is a reasonable suspicion that a School policy was violated.

USE OF SCHOOL PROPERTY

Employees may use school property, equipment and reference materials for business purposes. School equipment (including, but not limited to, computers, printers, fax machines, etc.) assigned to employees is the property of the school and may not be removed from the building without first obtaining written permission from your supervisor. You are expected to take proper precautions concerning the equipment, reference material and/or property you are assigned to use. Any equipment that is malfunctioning should be reported immediately to your supervisor.

EMPLOYEE SAFETY AND HEALTH

Health and Safety policies are posted in the School. All employees need to review the policies and follow requirements of the building to be certain that they are followed at all times. Failure to follow these policies can result in discipline up to and including termination.

All managers, supervisors, and employees are responsible for protecting and securing School property, materials, equipment and facilities and reporting any security violations, thefts and other

security-related incidents to their supervisor or Human Resources. Failure to protect, to secure, or report any such violations of any employee of the School can result in discipline up to and including termination.

Our employees are our most valuable resource, and their safety is most important to us. You are expected to report all job-related injuries or illnesses to your supervisor immediately, regardless of severity. You are also expected to:

- Obey safety rules.
- Follow safe job procedures and not take shortcuts.
- Keep work areas clean and free from slipping or tripping hazards.
- Use prescribed personal protective equipment.
- Report all safety hazards or malfunctions to a supervisor immediately.
- Use care and proper technique when lifting and carrying objects.
- Observe restricted areas and all warning signs.
- Know and follow emergency procedures.
- Report unsafe conditions to supervisors.
- Report every accident and injury to a supervisor promptly.
- Follow the care prescribed by the attending physician when treated for an injury or illness.
- Attend all employee safety meetings.
- Cooperate fully in accident investigations; serve on safety committee or other loss control activities as needed.
- Any employee who works at a School office and is diagnosed by a medical professional with COVID-19 must notify his/her supervisor within 24 hours of diagnosis. The employee will not be allowed to report to work until cleared by a medical professional or other Center for Disease Control (CDC) protocol.

If you have reported a safety issue to your supervisor and you feel that the issue has not been appropriately addressed, you should report the issue to Human Resources.

To maintain a safe and healthy workplace, both management and employees must work diligently to promote safety.

Failure to observe these guidelines may result in disciplinary action, up to and including termination of your employment.

WORKPLACE CONDITIONS

Reporting Workplace Injuries

The School complies with appropriate federal and state laws regarding workplace injuries. All work-related injuries (including injuries that arise during work related travel) must be immediately reported to your supervisor both verbally and in writing. The Supervisor is then responsible to submit the information to the Human Resources Department within 24 hours of the event. The Human Resources department will file the claim with the appropriate agency. Employees who seek medical attention for a workplace injury are required to provide a return to work slip from the physician or medical facility upon returning to work.

In the event of a workplace injury, the School may require drug/alcohol testing.

Safety Drills and Emergencies

The School has safety drills and emergency procedures designed for each building. Each employee must understand the drills and procedures and be ready to follow them.

School Building Evacuation. In the event of an emergency evacuation, all employees must follow the Safety Drills and Emergency Procedures as determined for each building. This procedure can be found with the building's school leader. Emergency evacuation routes are located in each room of the buildings.

Use of Phone and Mail Systems

Personal use of the telephone for toll calls is not permitted. Employees should practice discretion when making personal calls and may be required to reimburse the School for any charges resulting from their personal use of the telephone.

To ensure effective telephone communications, employees should always use the approved greeting and speak in a courteous and professional manner. Please confirm information received from the caller, and hang up only after the caller has done so.

The use of the School-paid postage for personal correspondence is not permitted.

Media Policy

It is the policy of the School that all employees shall refrain from talking to members of the media on School-related issues. If a media representative contacts you, you are expected to refer all inquiries to your school leader or the Executive Team.

Consistency and clarity of message is critical in preserving the School's reputation throughout the business, public and press. Employees are prohibited from releasing any nonpublic School-related information outside the School in any media whatsoever including any and all social media whether general or restricted.

Civic and Community Activities

The School encourages employees to participate in various civic and community activities unless participation interferes with job responsibilities. These activities should be pursued in a responsible manner that reflects favorably upon employees and the School.

Visitors in the Workplace

To provide for the safety and security of employees and students and the facilities at the school, only authorized visitors are allowed in the workplace. Personal visitors are not allowed unless authorized in advance by the school leader. Restricting unauthorized visitors helps maintain safety standards, protects against theft, ensures security of equipment, protects confidential information, safeguards employee welfare, and avoids potential distractions and disturbances.

A visitor will be considered unauthorized if the visitor failed to do any of the following:

- Enter the school through the main entrance;
- Register as a visitor in the front office;
- Receive permission to proceed to any other location in the building.

Authorized visitors will receive directions or be escorted to their destination. Employees are responsible for the conduct and safety of their visitors.

Please consult your school leader for more detailed explanation of visitor protocols.

GIFTS AND FAVORS

No employee is to accept a commission, gift, or anything of value above twenty-five dollars (\$25.00) from individuals, groups, clubs or companies within or outside the School that are supplying, or seeking to supply, material or services required in the operation of the School. Acceptance of such gifts may be cause for dismissal. Employees may attend business luncheons with supervisor approval.

The School discourages the presentation of gifts to employees by students and parents/guardians above twenty-five dollars (\$25.00).

Generally, the school leader will not allow gifts of any kind intended for a student from any employee to any student(s), for any reason.

JOB PERFORMANCE EVALUATIONS

Virtual Preparatory Academy of Pennsylvania is committed to attracting and retaining a qualified and competent workforce. Employees typically will receive an annual written performance review and may receive additional performance evaluations at other intervals. Written performance reviews will be based on your overall performance in relation to your job responsibilities, your achievements and work behavior. Informal performance discussions typically occur throughout the year and encourage open supervisor-employee communication.

A positive performance review does not guarantee either an increase in compensation or continued employment. Raises, if given, may be based on a number of factors, such as the School's performance, the School's performance, department or group performance, and individual performance.

SOLICITATIONS AND DISTRIBUTION OF LITERATURE

Virtual Preparatory Academy of Pennsylvania strives to maintain a professional environment and prevent interference with work and inconvenience to others from solicitations and/or distribution of literature.

In an effort to ensure a productive and harmonious work environment, solicitation of any kind by an employee of the School is prohibited while he or she is on working time. This means that any type of solicitation is prohibited if the employee is doing the solicitation or the employee being solicited is on work time.

Distribution or acceptance of literature by an employee is prohibited while he or she is on working time and is also prohibited in any working area of the facility whether an employee is on working or non-working time. This rule includes solicitation or distribution or acceptance of literature for all purposes including lotteries, raffles, political organizations, labor organizations, fraternal organizations, and the like. Distribution of literature by any person who is not an employee of the School is prohibited. If you observe persons violating this policy, you must report the violation to

your supervisor immediately. Employees who violate this policy may be subject to discipline up to and including termination.

In addition, the posting of written solicitations on School bulletin boards is prohibited

TELECOMMUTING POLICY AND PROCEDURE

Equipment

The School will determine, with information supplied by the employee and the supervisor, the appropriate equipment needs (including hardware, software, modems, phone and data lines and other office equipment) for telecommuting. The human resource and information system departments will serve as resources in this matter. Equipment supplied by the School will be maintained by the School. Virtual Preparatory Academy of Pennsylvania accepts no responsibility for damage or repairs to employee-owned equipment. Virtual Preparatory Academy of Pennsylvania reserves the right to make determinations as to appropriate equipment, subject to change at any time. Equipment supplied by the organization is to be used for business purposes only. Upon termination of employment, all company property will be returned to the company, unless other arrangements have been made.

The employee will establish an appropriate work environment within his or her home for work purposes. Virtual Preparatory Academy of Pennsylvania will not be responsible for costs associated with the setup of the employee's home office, such as remodeling, furniture, or lighting, nor for repairs or modifications to the home office space.

Security

Consistent with the organization's expectations of information security for employees working at the office, telecommuting employees will be expected to ensure the protection of proprietary School and student information accessible from their home office. Steps include the use of locked file cabinets and desks, regular password maintenance, and any other measures appropriate for the job and the environment.

Safety

Employees are expected to maintain their home workspace in a safe manner, free from safety hazards. Injuries sustained by the employee in a home office location and in conjunction with his or her regular work duties are normally covered by the company's workers' compensation policy. Telecommuting employees are responsible for notifying the employer of such injuries as soon as practicable. The employee is liable for any injuries sustained by visitors or household members to his or her home worksite.

Telecommuting is not designed to be a replacement for appropriate family care (i.e. children, pets, other adult dependents). Employees must provide undivided attention to their job responsibilities and to the students and families that we serve during work hours. Personal travel and vacations are to be requested through our paid time off policy and should be communicated with the employee's supervisor.

CHILDCARE POLICY FOR REMOTE EMPLOYEES

Dependent Care

During established work hours, the employee agrees that family care demands shall not compete with work except in the case of an emergency. Working at a remote location is not designed to be a replacement for appropriate family care (i.e. children, pets, other adult dependents). Although an individual employee's schedule may be modified to accommodate family care needs with the approval of the employee's supervisor, the focus of the remote work arrangement must remain on job responsibilities, meeting business needs, and individual performance.

Child Care

The School strives to maintain a professional work environment yet understands the need for an atmosphere that is family oriented. The School values the flexibility that it can provide to its employees due to the virtual setting utilized by the School.

Therefore, the School desires to implement a childcare policy that encompasses family friendly values while maintaining the degree of professionalism necessary to serve the families of the School. Employees of the School must provide undivided attention to their job responsibilities and to the families that we serve during work hours. Childcare needs must not interfere with such duties and responsibilities.

1. Employees may not bring any child/children to any marketing, promotional or testing situations presented where such employee's participation is expected as part of their job responsibilities.
2. Employees may not bring any child/children to a staff meeting. If an Employee feels it is necessary to bring such child/children in violation of this provision, then prior written approval from the Head of School must be obtained and the employee will have to provide their own childcare. No childcare will be provided by the School for children during staff meetings. Employees may bring their child/children to school outings and events, as long as one of the following is true:
 - a. The employee's child/children will be supervised by an appropriate child care provider secured by the employee (other than the employee or any other employee), or
 - b. The child is a student of the School and is participating in an age-appropriate school outing/event and more than one employee is overseeing the outing/event. In the event that there is a fee associated with such an outing, employees are responsible to cover the charges for the employee's child/children and childcare provider (if any).
3. A student or parent should never feel that the services provided to him/her are being disrupted by an employee's child or childcare schedule. Employees are expected to devote their full attention to the duties and responsibilities of their job during work hours, which are typically from **7:30am to 4:00pm** non-holiday weekday, or while conducting School-related business.
4. The school will not be responsible for any costs related to an employee's childcare. For example, if an employee needs to drive extra miles to take a child to a childcare provider in order to attend a School outing, the extra mileage cannot be expensed.

WORKPLACE ACCIDENTS AND WORKERS' COMPENSATION INSURANCE

All accidents, injuries, potential safety hazards, safety suggestions and health and safety related issues must be reported immediately to your supervisor and/or Human Resources. If you or another employee is seriously injured, contact outside emergency response agencies. No matter how insignificant an injury may seem at the time of occurrence, you are to notify a supervisor or Virtual Preparatory Academy of Pennsylvania Human Resources immediately of any workplace accident or injury.

The federal law, Occupational Safety and Health Administration (OSHA) requires that we keep records of all illnesses and accidents that occur during the workday. Employees are required to report any workplace illness or injury, no matter how slight. OSHA also provides for your right to know about any health hazards that might be present on the job. Should you have any questions or concerns, contact your supervisor or Virtual Preparatory Academy of Pennsylvania Human Resources Department for more information.

Workers' compensation insurance coverage is provided by worker's compensation carrier in most states, with the exception of Washington, Wyoming, and North Dakota where coverage is provided by a state fund. Questions regarding workers' compensation insurance coverage should be directed to your supervisor or to human resources at HR@accelschools.com.

COMPLAINT RESOLUTION PROCEDURE

Virtual Preparatory Academy of Pennsylvania is committed to providing a comfortable and productive work environment for employees. It is important that your concerns are resolved in a timely manner in an atmosphere of open communication and mutual respect. You are encouraged to follow the process below for bringing concerns to management for resolution. Employees will not be penalized for taking advantage of this procedure.

First, discuss the problem with your supervisor. If you do not believe a discussion with your supervisor is appropriate, request a meeting with an Virtual Preparatory Academy of Pennsylvania human resources specialist. In an effort to resolve the problem, the Virtual Preparatory Academy of Pennsylvania human resource specialist will consider the facts and may conduct an investigation.

Additionally, the Anti-Harassment Policy in this handbook outlines procedures for employees to report complaints of harassment and discrimination.

INTERNET CODE OF CONDUCT

Access to the Internet has been provided to employees for the benefit of the organization. It is your responsibility to use the Internet in a productive manner. The following guidelines have been established for using the Internet.

Acceptable Use of the Internet

You should use the internet in an effective, ethical, productive and lawful manner. You may use the instant messaging systems and internet forums to conduct official School business or to gain technical or analytical advice. Databases may be accessed for information as needed. Email may be used for work contacts.

Unacceptable Use of the Internet

You should not use the school-provided internet services for non-work-related reasons. Use of the internet must not interfere with the school's productivity or operations.

It is strictly prohibited for you to use the Internet while working for personal gain. Use of the Internet while on School time must not interfere with your productivity or disrupt the operations of the School network or the network of other users.

Employees may not use their personal devices for work purposes for any reason, at any time, without authorization in advance from the school leader.

Communications

You are responsible for the content of all text, audio or images that you place or send over the Internet including, but not limited to, any Web-based sites or programs. During or after employment, employees are prohibited from posting statements, photographs, and video or audio that reasonably could be viewed as malicious, obscene, and threatening or intimidating; that

disparage other employees, students, families, contractors, board members, vendors, and others with whom we interact; or that might constitute harassment or bullying. Examples of this conduct might include offensive posts meant to intentionally harm someone's reputation or posts that could contribute to a hostile work environment on the basis of race, sex, disability, religion or any other status protected by law or School policy.

Except to the extent that you are discussing your wages, hours, or terms and conditions of employment, the following guidelines apply:

- All messages communicated on the Internet should have your name attached to them if they mention or refer to Virtual Preparatory Academy of Pennsylvania in any way;
- No messages regarding or relating to the School are to be transmitted under an assumed name;

Employees may not transmit messages or other communication by means that either mask or hide their identity or indicate that they are sent by someone else if the messages contain information regarding the School's or School's business.

Employees are not allowed to forward School information to one's personal email address. Employees are not allowed to forward employee information to non-employees such as former colleagues, third party service provider, or vendor.

Software and Copyright Issues

Virtual Preparatory Academy of Pennsylvania intends to prevent computer viruses and unauthorized use of copyrighted materials belonging to entities other than the School. You should obtain prior approval before downloading any software. Users are not permitted to copy, transfer, rename, add or delete information or programs belonging to other users unless given express permission to do so by the owner. Failure to observe copyright or license agreements may result in disciplinary action from the School, up to and including immediate termination or legal action by the copyright owner.

Confidentiality and Passwords

While our systems may accommodate the use of passwords for school security, you should not expect confidentiality of your files at work. Virtual Preparatory Academy of Pennsylvania reserves the right to access your Internet use and messages at any time, without notice.

Never disclose personal or system passwords to anyone other than authorized school representatives. You are not to attempt to gain access to another employee's system, including email or voice mail messages.

Security

All information created, sent, or retrieved over the Internet, and transactional/analytic data is the property of the School and are not private. The School may access and monitor all messages and files on the computer system at any time. All communications, including text and images, can be disclosed to law enforcement or other third parties without prior consent of the sender or the receiver. The information collected may be used as a justification for internal disciplinary action, including, but limited to demotion, suspension, or termination. Pansophic Learning is under no obligation to share that information with the employee.

Harassment

Harassment of any kind is prohibited. Messages with derogatory or inflammatory remarks about an individual or group's race, color, national origin, ancestry, citizenship status, religious creed, sex, gender, gender identity, pregnancy, childbirth, physical disability, mental and/or intellectual disability, age, military status or status as a Vietnam-era or special disabled veteran, marital status, registered domestic partner or civil union status, gender (including sex stereotyping and gender identity or expression), medical condition (including, but not limited to, cancer related or HIV/AIDS related), genetic information or sexual orientation will not be permitted.

Violations

Violations of any guidelines listed in this policy may result in disciplinary action, up to and including immediate termination. If necessary, the School will advise appropriate legal officials of any illegal violations.

SOCIAL MEDIA

Social Media is a powerful tool that has a significant impact on the School and the School. The Social Media Policy is designed to offer practical guidance for responsible, constructive communications via social media channels. Social media includes all means of communicating or posting information or content of any sort on the Internet, including to your own or someone else's web log or blog, journal or diary, personal web site, social networking or affinity web site, web bulletin board or a chat room, whether or not associated or affiliated with the School, as well as any other form of electronic communication.

Employees are prohibited from being friends with any current students or former students under the age of 18 years old at any of our school entities, on any social media sites or platforms.

Employees are prohibited from posting confidential or proprietary information about the school, employees, students or their families, board members, the School, or any other subsidiaries of the business, direct or indirect. This also includes all applicable federal requirements such as FERPA and HIPPA, as well as the Department of Education rules and regulations.

School logos or any other trademarked School -owned images or icons are prohibited from being posted on personal social mediasites.

Photos of students and or student activities are prohibited without prior written approval from the student's parent/guardian and the school leader of the school.

Employees are prohibited from discussing matters of professional life on their personal page (i.e. events during the work day, workshops, trainings, etc.).

The same laws, professional expectations, and behavioral standards that you would follow in your daily operations are expected to be followed when interacting on a social media site. The school respects the legal rights of its employees; what you do on your own time is your affair however activities in or outside of work that negatively affect your job performance, the performance of others, or the business interests of the School will be reviewed on a case-by-case basis.

INSTITUTIONAL SOCIAL MEDIA

School social media pages may only be maintained by an officially appointed employee who is identified as being responsible for the page's content. The page must link back to the School web site and the postings should be brief redirecting a visitor to the contents of the School site.

All posts made on the School social media site should protect the voice of the School by remaining professional in tone and of good taste.

Best Practices:

- Employees are liable for anything they post to the social media site, so think twice before posting.
- Consider your audience and exercise good judgment. The social media site is available to the public; this includes prospective and current students, future employees, colleagues, and/or peers.
- Be authentic and respect copyrights and trademarks.
- Names and/or pictures of current or former students are prohibited without the written consent of the student's parent(s) or legal guardian and the school leader of the building.

Employees are liable for anything they post to social media sites. Violations of the above will result in disciplinary action up to and including termination of employment.

PERSONAL PHONE CALLS AND PERSONAL BUSINESS

During business hours, you are requested to keep personal calls, including personal cell phone calls, to an absolute minimum. No long distance or charged calls, such as directory assistance, other than School business calls, are to be made from School telephones. If it is absolutely necessary that you make a personal charged call from work, you must bill it to your personal credit card or home number, or use your personal cell phone. Telephone records are subject to periodic review by management

If you need to leave the worksite to conduct personal business, you must first obtain permission from your immediate supervisor. This will allow us to make modifications to the work schedule if necessary and will keep us aware of your availability during the day. Personal visits from friends and family members to the worksite are discouraged.

USE OF COMMUNICATION SYSTEMS

Virtual Preparatory Academy of Pennsylvania provides the communication systems necessary for you to conduct business. You are expected to adhere to proper use of all communication systems. These include, but are not limited to, the telephone, email, wireless communication devices, iPads, tablets, facsimile, Internet access and other external network connections, network file share and storage systems, wide area network, School intranet, voicemail, computers, modems, systems, audio/visual equipment, and other software and equipment.

The School's computing and communications systems are to be used in a productive manner primarily for the School business.

No Privacy Expectations

You should have no expectation of privacy of any correspondence, messages or information located or sent across in the School's computing and communication systems, regardless of the content or purpose. This includes email, social media sites, text messages, chat messages, internet searches and stored documents.

The School may access, monitor, copy, capture, disclose, delete, and use any communication, information or data, whether personal or business related, that is created on, stored on (permanently or temporarily), viewed on, downloaded or uploaded to, accessed by, printed from, or communicated across the school's computing and communication systems with or without notice to the employee. This includes instances where employees transmit or receive text or instant messages on school devices. All messages, regardless of content or the intent of the sender, are a form of school correspondence, and are subject to the same internal and external regulation, security and scrutiny as any other school correspondence.

Email communications must be written following customary business communication practices as is used in correspondence. Email communications are official internal school communications that may be subject to summons in legal proceedings. Work-related messages should be directed to the specific employee(s) rather than sending a global message to all employees. It is the employee's obligation to notify any third parties affected by this policy of the School's policies regarding monitoring employee communications.

Communication systems shall not be used as a forum to promote religious or political causes, or an illegal activity. Offensive or improper messages or opinions, transmission or postings of sexually explicit images or other images or materials inappropriate for the workplace, messages, cartoons, or other such items, or messages that may be construed as harassment or disparagement of others based on race, color, religious creed, sex, national origin, ancestry, citizenship status, pregnancy, childbirth, physical disability, mental/intellectual disability, age, military status or status as a Vietnam-era or special disabled veteran, marital status, registered domestic partner or civil union status, gender, gender identity, sexual orientation, medical condition, or genetic information are also prohibited.

Unless authorized by personnel with the authority to grant such authorization, any attempt to gain access to another employee's personal communications system and messages is prohibited.

WIRELESS COMMUNICATION DEVICE USE GUIDELINES

Virtual Preparatory Academy of Pennsylvania provides wireless communication devices, including hands-free devices, to Employees who have a job-related need for them. These devices are the property of Virtual Preparatory Academy of Pennsylvania. The following guidelines must be followed:

- Employees are expected to carry wireless communications devices as directed by their supervisor.

- Employees are responsible for lost or stolen wireless communications devices and must report such losses immediately.
- Employees are responsible to take care of these devices and may be responsible for repairs, depending on the nature of the damage.
- Upon termination of employment for any reason, the employee must return all School-issued property.

Safety Concerns

The School values its employees and the safety of others, and it expects employees to put safety first while driving for work purposes. Employees are prohibited from using wireless communication devices while driving unless using a hands-free device. Texting (including composing, sending, or reading) while driving is strictly prohibited. You are strongly encouraged to pull off to the side of the road and park the vehicle in a safe location before placing or accepting a call or before reading or writing e-mail or text messages. You should take special care in situations where there is heavy traffic, inclement weather or you are driving in an unfamiliar area.

You are expected to know and follow all local and state laws related to using communication devices while driving. Employees are responsible for all traffic violations and consequences resulting from the use of communication devices while driving for work.

No Use of Camera Phone

Use of the camera feature on cellular phones or other communication devices presents risks to the school, potentially compromising student information, the privacy of your co-workers, or proprietary information. Use of this feature is banned from all areas on school property or other areas during work-related functions, unless authorized in advance by your supervisor.

Cellular Phone Policy

The school provides employees with efficient, cost effective telephone communication equipment and services. The purchase and use of school-owned cellular telephones shall be limited to the requirement and specifications contained in this policy.

The acquisition of school-owned cellular telephones shall be limited to those instances in which there is a demonstrated need for such equipment to perform essential school business or to improve safety, increase productivity, or in situations in which necessary communications cannot be provided by any other means. The purchase of School-owned cellular telephones shall be subject to written approval by your school leader. An employee has no right or expectation of privacy in using a school-provided cell phone, including voice mails.

a. Use of School Owned Cellular Phones

Cellular telephone calls are more expensive than those using ordinary telephone services. These higher costs shall be weighed against the level of employee need and expected usage. Cellular phones shall be used only when a lower cost alternative is unsafe, inconvenient, or not readily available.

Cellular transmissions can be overheard by others. Discretion is to be used in discussing confidential information using cellular communication. Employees are responsible for taking reasonable precautions to prevent theft and/or vandalism of cellular equipment. Cellular phone usage must comply with the School's "Mobile Device Security Policy" below.

Employees cannot add, modify, or remove cellular telephone equipment or services. The School's Information Technology Department is responsible for adding, modifying, or removing cellular telephones and services. Employees may request authorization for changes from their supervisor. All school-owned cellular telephone purchases, including hardware or software shall be made according to policies established by the Operations and IT departments. You are expected to follow applicable state or federal laws or regulations regarding the use of electronic devices at all times. Telephone records are subject to periodic review by management.

b. Personal Use

The School recognizes that occasions arise in which personal calls need to be made or received on a cellular telephone. However, it is intended that cellular telephones be used for school business-related purposes. Personal calls are to be minimized. Calls home or to the family, etc. by school staff when required to work extended hours shall be considered business calls.

Cellular phones must not be taken on vacation or used when an employee is off duty unless there is a school-related purpose in doing so. Telephone records are subject to periodic review by management.

The School reserves the right to monitor the billing and use of all school-owned cellular telephones and has the authority to withhold any un-reimbursed amount from the employee's wages.

c. Reimbursement for Personal Calls

Employees shall be responsible for reimbursing Accounts Payable for personal calls noted on the monthly cellular service billing.

d. Termination of Use of School Owned Cellular Phones

If the conditions of this policy are violated by the employee, the school leader shall terminate the

use of school-owned cellular phones by the employee.

e. Policy for Employee-Owned Cellular Phones

It is School policy to allow employees to bring personal cellular telephones. Making and receiving personal calls should be limited. Use of personal cellular telephones should not result in additional costs to the School and should not interfere with performance of employee duties or normal business operations. Employees are trusted to exercise good judgment in both the duration and frequency of such calls. The School does not normally reimburse employees for personal cellular phone charges.

Employees may not use their personal devices for work purposes for any reason, at any time, without authorization in advance from the school leader.

Upon resignation or termination of employment, or at any time upon request, you may be asked to produce your personal device(s) for inspection. All School data on personal devices will be removed by IT upon termination of employment. Failure to follow policies and procedures may result in disciplinary action up to and including termination of employment.

Mobile Device Security Policy

Mobile devices must be appropriately secured to prevent sensitive or confidential data from being lost or compromised, to reduce the risk of spreading viruses and to mitigate other forms of abuse of the School's computing and information infrastructure. Any approved device is required to have an anti-virus, mobile device management (MDM) and "remote wipe" software installed. This MDM software will store all School-related information, including calendars, emails and other School-related applications in one area that is password-protected and secure. The IT department must approve any personal device and install all required software prior to the device being used for work-related activities. A mobile device includes but is not limited to a laptop, flash drive, MP3 player, CD's DVD's, portable hard drives, tablet, smart phone, or digital camera.

Employees must follow these mobile device security policies:

1. All School issued mobile devices must have encryption turned on.
2. Device authentication must be turned on, on all mobile devices and must have password protection on at all times.
3. Bluetooth capabilities on all mobile devices must be disabled when they are not actively transmitting information. All Bluetooth devices must always be in the "hidden" mode.
4. Whenever possible, all mobile devices must be password protected. Choose and implement a strong password and following policies established by Information Technology for password complexity.
5. The physical security of these devices is the responsibility of the employee to whom the device has been assigned. Devices shall be kept in the employee's physical presence whenever possible. Whenever a device is being stored, it shall be stored in a secure place, preferably out-of-sight.
6. If a mobile device is lost or stolen whether that device is School property or personally owned any device that contains School data must promptly report the incident to the IT Department/Help Desk and proper authorities. Also, be sure to document the serial number of your device now, for reporting purposes, in the event that it is lost or stolen.
7. Sensitive or confidential documents audio, and video, if stored on the device, must be encrypted if possible.
8. Mobile device options and applications that are not in use must be disabled.

9. Sensitive and confidential information must be removed from the mobile device before it is returned, exchanged, or disposed.
10. All mobile devices must have enabled screen locking and screen timeout functions.
11. No personal information shall be stored on mobile devices unless it is encrypted and permission is granted from the data owner.
12. Before a mobile device is connected to the IT systems, it shall be scanned for viruses (the user risks having files on the device deleted if any viruses are detected). If media mobile device is used for transitional storage (for example copying data between systems), the data shall be securely deleted from the mobile device immediately upon completion.
13. You should have no expectation of privacy of any correspondence, messages or information located or sent across the School's computing and communication systems, regardless of the content or purpose or whether the device is personal or business. This includes email, social media sites, text messages, chat messages, internet searches and stored documents.
14. Cloud-based applications or backup that allows School-related data to be transferred to unsecure parties are prohibited. Additionally, personal devices may not be synchronized to other devices that have not been authorized. Making any modifications to the device hardware or software beyond authorized and routine installation updates is prohibited unless approved by IT. You may not use unsecure Internet sites."
15. Violation of these technology policies is a serious offense and may result in disciplinary action up to and including termination.

EMPLOYEE BENEFITS

HOLIDAYS

Full-time employees are eligible for paid holidays during each calendar year.

Virtual Preparatory Academy of Pennsylvania Holiday Calendar observes the following holidays each year.

Holiday	2020-21 Date	Holiday	2020-21 Date
Independence Day	July 3	New Year's Day	January 1
Labor Day	Sept 7	Martin Luther King Day	January 18
Thanksgiving Day	November 26	Presidents Day	February 15
Day after Thanksgiving	November 27	Memorial Day	May 31
Christmas Day	December 25		

These days are paid days off for full-time 12-month staff, as well as full-time 10-month hourly staff if the holiday falls on a regularly scheduled workday. A paid holiday does not count as a day worked in calculating overtime for the week.

Additional days off for instructional staff (Teachers, Instructional Aides) will be communicated by the school leader at the start of the school year.

When holidays fall or are celebrated on a regular workday, eligible employees will receive one (1) day's pay at their regular straight-time rate. Eligible employees who are called in to work on a holiday will receive one (1) day's pay at their regular straight-time rate, and an additional payment

of straight-time for the actual time they work that day.

If a holiday falls within an eligible employee's approved vacation period, the eligible employee will be paid for the holiday (at the regular straight-time rate) in addition to the vacation day, or the eligible employee will receive an additional vacation day at the option of the school.

If a holiday falls within a jury duty or bereavement leave, the eligible employee will be paid for the holiday (at the regular straight-time rate) in addition to the leave day, or the eligible employee will receive an additional day off at the option of the school.

PAID TIME OFF (PTO)

Virtual Preparatory Academy of Pennsylvania offers Paid Time Off (PTO) for full-time regular employees to use for illness, personal business, or unexpected emergencies. The number of PTO days provided depends on the employee's role and is shown in the tables below. All full-time regular employees will earn PTO beginning with their date of hire. PTO accrues based on total hours worked, up to 40 hours in a workweek. Employees will not earn PTO while on any type of leave.

Completed School Years Worked*	10-Month Staff: Annual PTO Eligibility		
	Date of Hire		
	July 1, 2020 – September 26, 2020	September 27, 2020 – November 21, 2020	On or After November 22, 2020
Date of Hire through End of 2nd Year	10	7	4
Start of 3rd Year through End of 6th Year	12		
Start of 7th Year and Continuing Thereafter	15		
Maximum School Year Accrual	Annual Benefit + 5 days		

*School Years Worked is defined as uninterrupted employment in consecutive school years.

12-Month Administrative and Operational Staff: Annual PTO Eligibility			
Completed School Years Worked*	Date of Hire		
	July 1, 2020 – September 26, 2020	September 30, 2020 – November 21, 2020	On or After November 22, 2020
Date of Hire through End of 2nd Year	15	10	5
Start of 3rd Year through End of 6th Year	18		
Start of 7th Year and Continuing Thereafter	20		
Maximum School Year Accrual	Annual Benefit + 5 Days		

* School Years Worked is defined as uninterrupted employment in consecutive school years.

On non-instructional days that are not designated as School holidays, 12-month employees are to utilize PTO if they are not working.

Prior to the start of the employment term, all full-time regular employees may elect to carryover or receive payment for a limited number of unused PTO days. Employees must work until the end of the School Year and remain in good standing throughout the School Year as defined by the school in order to receive payment or carry over unused PTO days.

Work and Pay Schedule	Maximum Unused PTO Carryover	Maximum Unused PTO Payout
10-month salaried	5 days	3 days @ \$200/day
10-month hourly		3 days, calculated based on regular daily rate, not to exceed 8 hours per day
12-month salaried		
12-month hourly		

Employees requesting PTO must do so in writing and obtain their supervisor’s approval in advance. Where possible, employees are expected to provide at least 5 business days’ advance notice to their Supervisor so that the school may schedule work and plan for business requirements. If advance notice is not possible due to an emergency situation, employees still must follow the established call-off and any appropriate leave request procedure.

The use of PTO days will not be approved during the following: the first four weeks or last two weeks of the School Year; the day before or day after a holiday break; during state and/or district level testing; during in-services/professional development days; or on any other “blackout” date designated by the school. Except in extraordinary circumstances, Instructional Staff may use no more than 1 PTO day in any given calendar month.

No more than 3 days of PTO may be used in the first 2 months of employment.

Pay for PTO days will be paid on the regular pay cycle and on actual straight time hours worked. No overtime hours are included in PTO calculations. PTO days are not considered hours worked when calculating overtime hours.

If there are conflicting dates, preference generally will be given to the employee who has the most

tenure. A more junior employee who already has an approved PTO schedule will not, however, be bumped by a more tenured employee.

If planned PTO has to be canceled due to the needs of the School and you are unable to reschedule the time off within the year, the School reserves the option of paying you in lieu of taking the canceled PTO or allowing you to reschedule your time off.

In certain circumstances, employees may be permitted to donate their PTO days to other eligible employees. Contact Human Resources for more information regarding PTO day donation.

Absences from work that are not covered by PTO or another type of authorized leave will be considered unpaid and unexcused, and may result in disciplinary action, up to and including termination of employment.

Upon separation of employment, if you have taken unearned PTO time, you agree to repay any such amounts and you will be required to complete an authorization form to allow deductions from your final paycheck, to the extent permitted by law.

Unused PTO days will not be paid out upon resignation or termination during the School Year.

ULTIPRO® ONLINE SERVICES

Visit UltiPro® online to access training, secure personal information and work tools.

Access UltiPro for First-Time Login

- Go to <https://e42.ultipro.com>

User ID: Your User ID will be your last name in lowercase with the first initial capitalized, the capitalized first initial of your first name, and the last two digits of your birth year. For example, Jane Doe will have a user name of DoeJ50. Please make sure you capitalize the first initial of your last name and first name.

Password: Your password will be your Birthdate entered as mmddyyyy, no spaces or dash just numbers. For example, Jane Doe with a date of birth of October 5, 1950 will have an initial password of 10051950.

Upon your first login you will be asked to change your password. The requirements are as follows:

- Must be at least 8 characters
- Must contain at least 1 uppercase letter
- Must contain at least 1 lowercase letter
- Must contain at least 1 number and 1 special character.

As you create your new password, each requirement will be greyed out as you fulfill it.

Please make a note of your credentials, so that you can log in at any point in time to view pay stubs or update information.

Access UltiPro via Single Sign On (preferred)

- Go to <https://www.office.com/>
- Sign in using your Active Directory credentials. These are the same credentials you use for your work computer.

- Look under Apps → UltiPro or it may be under All Apps → Other → UltiPro

When logging in for the first time you will be asked the below security questions. Please use the examples for help on formatting.

Date of Birth (Example: mm/dd/yyyy)

Address City (Example: Columbus)

Last Name (Example: Smith)

Multi-Factor Authentication will still be a required due to the sensitive information. You will need to enter in your access code.

Your personal information is accessible only to you through multiple layers of security and industry-standard data encryption. Since payroll information and other sensitive data are accessible through your account, it is important you do not share your username and password with others.

LEAVE OF ABSENCE

For additional leave of absence policies, see State Addendums.

LEAVE OF ABSENCE PROCEDURES

Employees requesting leave of absence must submit a Leave of Absence Request Form and contact Unum to start the leave process. Employees absent for three consecutive days are required to follow the leave request procedures.

Employees must complete the Leave Request Form with the estimated start and end date of your leave and provide to your supervisor to review before submitting to human resources. If the dates change, please let your supervisor and human resources know right away by contacting HR@accelschools.com

Call Unum to notify them of your leave request.

- You can start your leave claim either online or by telephone:
- **Policy #: TBD**
- www.unum.com - Telephone: 866-779-1054
- Monday-Friday - 8:00 a.m. to 8:00 p.m. Eastern

If you are eligible for leave, certification of health care provider form may be required. If so, it will be mailed in your initial leave packet within two (2) business days of filing your leave. You will be provided a minimum of 15 days from the date the leave is requested to complete and return this form.

Family and Medical Leave Act (FMLA)

Where Virtual Preparatory Academy of Pennsylvania is a Covered Employer under applicable federal law, the School provides unpaid Family and Medical Leave (“FMLA”) to eligible employees.

Eligible Employee

To qualify to take family and medical leave, you must meet the following requirements the date your leave is to begin:

1. You are an active full-time or part-time employee who works at a Virtual Preparatory Academy of Pennsylvania worksite where 50 or more Virtual Preparatory Academy of Pennsylvania employees work within a 75-mile radius of that worksite;
2. You have been employed by Virtual Preparatory Academy of Pennsylvania for at least 12 months in the preceding 7 years; and
3. You have worked 1,250 hours during the 12-month period immediately before the beginning of the leave.

In determining eligibility for employees returning from military service, such employees will be given credit for the months served and the hours of service that would have been performed if not for the absence caused by active service.

Approved Reasons for Leave

FMLA leave may be taken for the following reasons:

1. The birth of an employee's child or care for the newborn child;
2. The placement of a child with the employee for adoption or state-approved fostercare;
3. The employee's own serious health condition or the care of an employee's spouse, child or parent ("family member") who has a serious health condition. A "serious health condition" is an illness, injury, impairment or physical or mental condition that involves either inpatient care or continuing treatment by a health care provider. The continuing treatment requirement is met where an employee is out of work due a) to an incapacity of more than three consecutive, full calendar days and during which the employee visits a health care provider on at least one occasion; b) to an incapacity caused by pregnancy or prenatal care; a chronic condition, or long-term conditions; or c) to absences for multiple treatments;
4. The employee's care of a "covered service member" who has sustained a serious injury or illness during active duty ("military caregiver leave"). The employee must be the spouse, son, daughter, parent, or next of kin of the covered service member. A "covered service member" means a member of the Armed Forces, National Guard, or Reserves, who is undergoing medical treatment, recuperation or therapy, is in out-patient status, or is on the temporary disability retired list for serious injury or illness. A "covered service member" also includes a covered veteran of the Armed Forces, National Guard, or Reserves, who was discharged or released within five years preceding the date on which the veteran undergoes medical treatment, recuperation, or therapy for a serious injury or illness. For covered veterans who were discharged or released under conditions other than dishonorable prior to March 8, 2013, the time period between October 28, 2009 and March 8, 2013 will not be counted towards the determination of the five-year period for covered veteran status. A "serious injury or illness" for military caregiver leave includes an injury or illness that was incurred or aggravated by the covered service member on active duty in the Armed Forces and in the case of a covered veteran, manifested itself before or after the member became a veteran.
5. The employee's responding or attending to a "qualifying exigency," arising out of a military member's active duty or notification of an impending call or order to covered active duty in the Armed Forces, National Guard or Reserves in a foreign country. A "military member" includes a spouse, son, daughter, or parent of the employee. A "qualifying exigency" includes the following:
 - a. Short-notice deployment where a covered military member is notified of a call or order to active duty seven or less calendar days prior to the date of deployment;
 - b. Military events and related activities sponsored by the military;
 - c. Childcare and school activities, where necessary to arrange for alternative childcare, provide childcare on an immediate need basis, enroll in a new school or day care or attend meetings with school officials;
 - d. Financial and legal arrangements to address the covered military member's absence;
 - e. Counseling of eligible individuals by someone other than a health care provider;
 - f. Rest and recuperation, for purposes of spending up to 15 days with a covered military member who is on short-term, temporary, rest and recuperation leave;
 - g. Post-deployment activities;
 - h. Parental care, including arranging for alternative care, providing care on an immediate need basis, admitting to or transferring the parent to a care facility where the military member's parent is incapable of self-care and the need to provide such care arises out of military member's active duty or call to active duty; and

- i. Other activities related to the military member agreed upon between you and Virtual Preparatory Academy of Pennsylvania.

Length of Family and Medical Leave and Qualifying Exigency Leave

An eligible employee is entitled to a combined total of 12 workweeks of unpaid leave within a 12-month period for family and medical and qualifying exigency leave. The amount of leave available to you will be calculated by looking backward at the amount of leave taken within the 12-month period immediately prior to the first date of leave. Family and medical leave and qualifying exigency leave may run concurrent with other federal, state and local leave laws.

Leave taken for the care of a newborn child or placement for adoption or foster care must be taken within 12 months of the birth or placement of the child. If both parents are employed by Virtual Preparatory Academy of Pennsylvania, and are eligible for leave, except for leave due to your serious health condition or your spouse's or child's, you may both take a combined total of 12 weeks. Leaves may be taken as an intermittent leave or a reduced schedule in the following situations:

- a. For your own serious health condition or the serious health condition of a family member when medically necessary or when the need for leave is best accommodated through scheduling.
- b. For a qualifying exigency leave.

An employee requesting intermittent leave/reduced schedule leave may be transferred temporarily to an available alternative position with equivalent pay and benefits, or to a part-time position with an equivalent hourly rate and benefits, if such a position better accommodates the need for intermittent leave/reduced schedule leave.

Length of Military Caregiver Leave

An eligible employee is entitled to a combined total of 26 workweeks of unpaid leave within a single 12-month period for military caregiver and other qualifying FMLA leave. If both a husband and wife are employed by Virtual Preparatory Academy of Pennsylvania and are eligible for military caregiver leave, the two may take a combined total of 26 weeks. Military caregiver leave may run concurrent with other leave entitlements provided under federal, state and local law.

Intermittent leave or a reduced schedule may be approved for military caregiver leave where medically necessary and where the need for leave is best accommodated through scheduling. An employee requesting intermittent leave/reduced schedule leave may be transferred temporarily to an available alternative position with equivalent pay and benefits, or to a part-time position with an equivalent hourly rate and benefits, if such a position better accommodates the need for intermittent leave/reduced schedule leave.

Substitution of Paid Leave

If you are taking family and medical leave due to your own serious health condition, you should substitute all accrued paid leave, including accrued and unused sick leave, paid vacation, paid personal time, paid time off and, if applicable, short-term salary continuation, before continuing leave on an unpaid basis. When receiving disability benefits under a disability benefit plan, the substitution of your accrued paid leave is not required.

If you take leave under this policy for reasons other than your own serious health condition, you

must use all accrued paid leave before continuing on an unpaid basis. Any family and medical leave, qualifying exigency leave, military caregiver leave, whether paid, unpaid or a combination, will be counted toward the 12-week or 26-week leave entitlement, as applicable.

Employee Notification Requirements

If you expect to take family and medical leave, qualifying exigency leave or military caregiver leave, you must notify Human Resources of your intention to take leave at least 30 days in advance of the expected leave by completing a Leave of Absence Request form. If the leave is not foreseeable, you must provide notification as soon as practical. In addition, you must comply with Virtual Preparatory Academy of Pennsylvania established absenteeism and tardiness policies.

Medical Certification

Within 15 calendar days of the request, an employee who takes leave for his or her own or a family member's serious health condition, or to care for a covered service member, must submit medical certification to Human Resources detailing the reason(s) for the leave. If you fail to do so, Virtual Preparatory Academy of Pennsylvania may delay the start of the requested leave, withdraw any designation of the requested leave as FMLA leave, or deny the requested leave, and consider time taken off subject to the School's established absenteeism and tardiness policies.

If your medical certification is incomplete and/or insufficient, Human Resources may notify you in writing as to what is incomplete and/or insufficient. You will then have seven calendar days to resubmit the medical certification. Failure to provide a complete and sufficient certification by the date required may result in the denial of the requested FMLA leave.

Employees cannot return from a medical leave of absence without first providing a sufficient doctor's return to work authorization.

"Qualifying Exigency" Leave Certification

Within 15 calendar days of a request for qualifying exigency leave, the employee must submit written certification detailing the reason(s) for leave to Human Resources.

You may also be required to submit appropriate supporting documentation, such as a copy of the covered military member's active duty orders or other military documentation indicating the appropriate military status and the dates of active duty status.

Job Restoration

When returning from an authorized leave, an employee will normally be returned to the same or an equivalent position, with no loss of benefits accrued prior to leave. Absences due to leave will not be counted as time worked for the purpose of seniority or computing paid time off for vacation, sick leave or personal days. In the event your position is affected by a decision or event not related to your leave of absence (e.g., job elimination or layoff), you will be affected to the same extent as if not on leave.

Certain "key employees" as defined under the FMLA may not be eligible to be restored to the same or an equivalent position after leave if doing so would cause substantial and grievous economic injury to the operations of the School. If applicable, Virtual Preparatory Academy of Pennsylvania will notify "key employees" in writing of their status and the conditions under which job restoration will be denied.

Compensation upon Return to Work

Regular pay for 10-month salaried employees returning from Leave of Absence is subject to review and pro-ration for the remainder of the annual term. Pro-ration results when the employee's actual annual number of work days is significantly lower than the number estimated at the start of the employment term.

Workers' Compensation and Family and Medical Leave

If you are eligible for FMLA and are on leave due to a workers' compensation injury that meets the definition of "serious health condition," the absence will count towards your family and medical leave. You may be asked to provide a medical certification form to determine if your workers' compensation injury meets the definition of a serious health condition.

Questions about Family and Medical Leave

If you have any questions about your rights or responsibilities under this policy, contact Human Resources. Virtual Preparatory Academy of Pennsylvania will comply with all applicable federal, state and local laws in administering this policy.

BEREAVEMENT LEAVE

Full-time and part-time regular employees may take up to three (3) days off work for the death of a spouse, registered domestic partner, civil union relationship, child, parent, sibling or comparable step-relation, and up to one (1) day off work for the death of all other family members. The eligible time off will be paid. Contact your supervisor as soon as reasonable to request time off for bereavement leave.

CONTINUATION OF BENEFITS

All active, full-time employees covered by the School's health policies may continue plan coverage for up to 12 weeks during an approved leave of absence, or for any longer period, as required by law.

While on leave, you must continue to pay any required contribution for health coverage, as well as make payments for any other applicable benefits that would otherwise be automatically deducted from your wages (e.g., supplemental life insurance, credit union loans, and loans).

Your failure to pay any required employee contributions does not relieve you of your obligation to pay such contributions. Contact the Payroll department for details regarding employee contributions.

If you do not return to work upon expiration of the applicable 12-week period (or such longer period as required by law), coverage will terminate and you will have the opportunity to continue coverage for a limited period of time under COBRA in accordance with applicable law.

JURY DUTY AND WITNESS LEAVE

If you are summoned to jury duty or to appear in court as a witness, the school will continue your pay in accordance with FLSA and applicable law. If you are summoned to jury duty, Virtual Preparatory Academy of Pennsylvania will continue your pay for 5 days of jury service per calendar year. If you are required to serve more than 5 working days of jury service in a calendar year, you will be allowed additional time off without pay to complete the jury service. The school will continue to pay for this extended period of service in accordance with FLSA and applicable law. You must notify your supervisor as soon as it is known your jury duty will be extended.

To qualify for either jury or witness duty leave, you must submit a copy of the summons to your supervisor as soon as it is received. In addition, you must also submit to your supervisor a related proof of service when the period of jury or witness duty is completed. No adverse employment action will be taken against employees due to their service as either a juror or witness in state or federal courts.

MILITARY LEAVE OF ABSENCE

A leave of absence without pay for military or reserve duty or National Guard training will be granted to employees. The employee should submit copies of military orders to his or her supervisor as soon as possible. The employee may use any accrued but unused vacation time or paid time off. Exempt employees who perform any work in a week in which they also have military duty will be paid their full salary. Eligibility for reinstatement following a military leave of absence will be determined in accordance with applicable federal and state laws.

WORKERS COMPENSATION AND PTO

Any injury on the school or Virtual Preparatory Academy of Pennsylvania premises should be reported immediately to your supervisor and human resources, and all applicable incident reports and documents must be completed and turned in to HR@accelschools.com. An employee who is injured and misses work must use available PTO hours to cover the days they are absent, if they wish to be paid. Additional compensation for missed work days is subject to insurance guidelines and policies. Contact your Workers' Compensation claims adjuster for more details.

Upon return from a workers' compensation leave due to an injury, you must provide a release to return to work. Any restrictions must be noted on the release. The School will consider modifications or adjustments to help facilitate your return to work.

PERSONAL LEAVE OF ABSENCE

You may be granted a leave of absence to attend to personal matters in situations in which the school determines that an extended period of time away from the job will be in your and the school's best interest.

Requests for a leave of absence or any extension of a leave should be submitted in writing to your supervisor at least 30 days prior to commencement of the leave period or as soon as is practicable. Your supervisor will forward the request to the appropriate manager recommending approval or denial. Management will make the final decision concerning the request. While on approved leave,

you are expected to report any change of status in your need for leave or your intention to return to work.

You may be required to use all accrued paid time off while on leave before going on unpaid leave. For information on health care coverage during a leave of absence, refer to the Continuation of Benefits policy. Benefits that accrue according to length of service, such as paid time off, holiday, and sick days, do not accrue during periods of leave.

Upon return from a personal leave due to an illness or injury, you must provide a release to return to work. Any restrictions must be noted on the release. The School will consider modifications or adjustments to help facilitate your return to work.

A personal leave of absence may not provide a guarantee of reinstatement to the same or similar position.

VOTING LEAVE

Employees are encouraged to fulfill their civic responsibility by voting in local, state and national elections. If you are unable to reach your polling place outside of work hours, you may take up to 2 hours of unpaid time off to vote. You are required to provide reasonable notice to your supervisor, and evidence of voting may be required.

PENNSYLVANIA SPECIFIC POLICIES

EMERGENCY RESPONDER LEAVE

The School allows employees who are volunteer fire fighters, volunteer fire police officers or volunteer members of an ambulance service or rescue squad to be late for or absent from work if they responded to an emergency before their workday started.

In the event that you need to take time off following emergency responder duty, inform your supervisor before doing so, when possible. An employee taking leave must use all accrued paid time off, vacation and/or personal time before continuing leave on an unpaid basis. You may be required to provide documentation to support your absence.

JUDICIAL WITNESS/CRIME VICTIMS LEAVE

An employee who is the victim of a crime, family member of a crime victim, or witness to a crime is eligible to take leave to appear at court or other legal or investigative proceedings associated with the crime.

An employee taking leave must use all accrued paid time off, vacation and/or personal time before continuing leave on an unpaid basis. You must provide documentation supporting your need for leave. The School will maintain the confidentiality, to the extent possible, of any written documents or records submitted and the fact that leave has been requested.

HANDBOOK ACKNOWLEDGMENT

I acknowledge that I have received the School's Employee Handbook ("the Handbook"), dated July 1, 2020, and understand that violations of the policies contained in the Handbook including, but not limited to, the Anti-Harassment Policy, could result in disciplinary action, up to and including termination.

I understand I must repay the School any vacation/PTO used but not accrued at the time my employment ends, and I hereby authorize the School to deduct such amounts from my final paycheck to the extent permitted by law. I also agree that if requested, I will complete a new deduction authorization form to facilitate such deductions.

I further agree and consent to all policies contained herein and understand that the information contained in the Handbook represents guidelines for the School and that the School reserves the right to modify the Handbook or amend or terminate any policy, procedure or employee benefit program at any time.

I further understand that the contents of the Handbook do not form a written employment contract for employment for a specific term or duration. My employment with Virtual Preparatory Academy of Pennsylvania is at-will unless a duly authorized employment agreement with Virtual Preparatory Academy of Pennsylvania provides otherwise.

I further understand that no manager, supervisor or other representative of the School, other than the president or vice president, has any authority to change my at-will status or enter into any agreement guaranteeing employment for any specific period of time. I also understand that any such agreement, if made, will not be duly authorized and enforceable unless it is in writing and signed by both parties.

My signature below certifies that I understand the at-will employment relationship between the School and myself.

I further understand that if I have any questions about the interpretation or application of any policies contained in the Handbook, I should direct these questions to the onsite supervisor.

Appendix R

Virtual Preparatory Academy of Pennsylvania

Charter Choices Draft Agreement

CHARTER CHOICES

December 26, 2019

Virtual Preparatory Academy of Pennsylvania
Attn: Richard Flynn, President – Board of Trustees
1500 Market St, 39th Floor
Philadelphia, PA 19103

It has been our privilege to work in recent months to help Virtual Prep win approval to deliver innovative educational opportunities to children and families across our Commonwealth. We appreciate the opportunity to propose to support the Board of Trustees and leaders via the school's Accounting and Finance functions and related processes. If engaged, we pledge to Virtual Prep the hallmarks of our team's service that have made us the premier provider of back-office and advisory support to charter school leaders and boards across Pennsylvania:

- Best practices in accounting and finance processes
- Strong internal controls and audit-readiness
- Proprietary technology and systems
- Outstanding communication and responsiveness

We are committed to working in a collegial and collaborative relationship with Accel in mutual support of school's mission. This proposal specifies several functions identified in the charter application and with Accel taking a lead role in day-to-day core accounting activities. Recognizing the importance of the Virtual Prep's independence and the politically-sensitive environment in which the school would operate, at the Board's request, we would be happy to provide an amended proposal and structure in which Charter Choices would also perform the day-to-day functions typically performed by an internal Business Manager, which would ensure independence while also achieving cost savings. (Day to day accounting functions and transactions such as Payroll, Accounts Payable and the General Ledger would remain with Accel).

The functions included in this proposal include:

- District Billing and Accounts Receivable
- Monthly review and analysis of (Accel) school budget and financial statements
- Federal and State Reporting and Compliance
- Independent validation of Accel invoices, fees and charges
- Support to the Board and attendance/participation in regular Board meetings

As a member of an organization whose members have been involved with PA charter schools since their inception, I can assure you that Virtual Prep will receive the highest quality of customer service available. Supporting charter schools and the charter school cause is the mission of our organization, and we have been

doing so as individuals and through our Charter Choices team for nearly 20 years. **During that period, Charter Choices has become the premier business service provider in the Commonwealth, currently serving more than 40 charter and cyber charter schools in Pennsylvania.**

You will see from our proposal that we focus on providing business services exclusively to charter schools in Pennsylvania and their related organizations. We believe that the team – all of whom reside in PA and are always available to Virtual Prep’s leadership team - we have assembled to serve the School is uniquely qualified and possesses the right combination of training, experience, commitment and creativity to drive effective outcomes and exceptional value in support of Virtual Prep’s Board, leadership team, staff, students and families.

Charter Choices is not aware of any conflicts of interest, litigation or investigations and has the ability to provide all services necessary on a timely basis in order to accomplish the services identified.

We would welcome the opportunity to discuss this proposal to the full Board of Trustees and answer any questions you or they may have.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Corcoran", with a long horizontal flourish extending to the right.

Kevin Corcoran

SERVICE PROPOSAL

• PROPOSAL QUALIFICATIONS

The founders of Charter Choices have been working with charter schools since their inception in the Commonwealth more than 20 years ago. Our first client was chartered in 1997 and continues to be a client. We currently provide services to over 40 charter schools in Pennsylvania.

Our philosophy has been, and continues to be, to consistently provide the highest quality of personalized services to our clients. **We believe that our strength comes from our industry experience and our commitment to enable charter leaders to focus on their school's mission.** We realize this strength through the following qualities, which we believe distinguish Charter Choices from other business services providers:

- **Engagement.** We are deeply engaged in the charter school movement, across the Commonwealth of Pennsylvania. Over the past year, Charter Choices employees participated in more than 10 conferences and events across state. Whether it is the annual Charter School Day on the Hill or a School Reform Commission meeting, if it has to do with charter schools in Pennsylvania, we're there.

Charter Choices' founder Michael Whisman has testified before the state House of Representatives' Education Committee on the topic of charter school funding numerous times over the past several years. We know that context matters – that policy development in Harrisburg may result in on-the-ground changes that affect future Virtual Prep families across the state. We serve our clients best by being able to anticipate potential changes, advocate for or against them based on your interests, and advise responses to new realities.

- **Focus.** Where competitors offer a variety of services in multiple industries, since our inception we have focused exclusively on providing accounting and business services to charter school clients. This single-minded focus on charter schools has made it possible for us to develop a multi-dimensional understanding of our client schools and their needs. Further, it has enabled us to build a staff uniquely suited to our client base. Providing sound financial guidance to schools requires financial expertise, but that expertise is too often lost in translation when it is not coupled with an understanding of the culture of schools and aspirations of educators. Our leadership team, which includes two CPAs and two former charter school administrators with, collectively, 10 years of K-12 teaching experience and 20 years of charter school administrative and leadership experience, possesses a breadth and depth of industry knowledge unrivaled by our peers.
- **Team orientation.** We recognize that the quality of our services depends not only on our leaders but also on our talented staff accountants and functional specialists. Accordingly, we work hard both to build accounting and business skills among our junior staff and to foster connection between our staff and the schools we serve. All Charter Choices staff are expected to complete professional development activities with financial support from the company. All participate in volunteer activities at our client schools. And all receive personal development plans based on formal and informal feedback from our clients.

In addition, at least quarterly, our leadership team performs a “round table” review of client financials and operations to identify trends and provide feedback. This sharing enables us to identify and disseminate best practices quickly and to deliver on our mission to offer high-quality, efficient and timely service that exceeds our clients' expectations and helps them to meet their educational goals.

- **PROPOSED SERVICES**

Charter Choices' engagement will be designed to perform the following services, which provide support to the school's leaders and Board of Trustees. In short, our handling of these areas provides peace of mind and allows you to focus on the school's core academic mission:

District Billing and Accounts Receivable: We have developed and continuously update a proprietary technology that streamlines the process of invoicing school districts at potentially 1000 different rates, based on PDE guidelines. We use our custom developed software to invoice – at this time - all 500 school districts for more than 20,000 students. Our team ensures that monthly invoices and annual reconciliations are generated promptly and accurately. We take pride in facilitating professional communications with school districts and the Department of Education on behalf of our clients. Above all, we provide assurance that your school will receive all school district funding it is due in the fastest possible timeline – and thus preserving cashflow essential in the first few years of a school's life. Specifically, Charter Choices will:

- Send monthly school district billing to the school districts of residence of Charter School's students;
 - Receive student information from the school and promptly enter to VSIMS system.
 - At the School's direction, bill the Department for districts that are delinquent and for district which refuse to pay the Charter School directly.
 - Make every reasonable effort to collect balances due from the districts and PDE.
 - Record District and Department payments in VSIMS.
 - After the last day of school of Charter School's school calendar, Charter Choices will generate a reconciliation report based on average daily membership (ADM). Charter Choices will send this reconciliation report to the applicable districts.
 - In coordination with the general accounting function, Charter Choices will generate applicable revenue and receivable reports and record monthly journal entries.
 - Charter Choices will provide school level administrative staff with read-only access to VSIMS
-
- **PDE, Federal Grant, and Tax Reporting.** Reports submitted to the state and IRS are among the most complex and carefully scrutinized documents required of charter schools. These and the School's annual independent audit are, moreover, key components of the organization's public face. Your Charter Choices team is skilled at preparing these reports in a manner that is both compliant and mindful of the many audiences that review them. Working with School management, Charter Choices will:
 - Based on the Board-approved annual budget, review and submit the Final General Fund Budget to PDE (PDE-2028).
 - Working with school staff, prepare and submit grant budgets for federal categorical and competitive grants programs including Title I, Title II, and IDEA, quarterly cash-on-hand reports of disbursements (PDE-2030), and Final Expenditure Reports (PDE-5040) for grants administered by the PDE.
 - Review auditor prepared Annual Financial Report (AFR; PDE-2057) submitted to PDE.

- Review auditor prepared federal form 990.
- Oversee preparation for periodic federal programs audits.
- **External Business Manager, including Internal Controls and Accel Invoice Review:** Charter Choices will support effective decision-making by the School’s Board and management by completing the following tasks:
 - Review the School’s annual budget, coordinating with school staff, Accel finance team, school leadership and the Board to obtain information for the building of appropriate estimates and projections
 - Review monthly financial reports for the Board provided by Accel; suggested reports to include:
 - i. A statement of financial position (balance sheet) as of the end of the previous month;
 - ii. A statement of activities (income statement) for the year to date, including comparison of actual results to budget;
 - iii. A prospective statement of activities presenting expected results of operations at year-end with comparison to the annual budget;
 - iv. A monthly listing of disbursements;
 - v. An Executive Summary and narrative highlighting key financial developments and trends for the Board;
 - Independent review and validation of all Accel invoices, fees and charges

- **SERVICE TEAM**

The quality of our back-office and advisory services lies in the expertise and integrity of our professional staff. We are proposing the following Charter Choices team to serve the school:

Michael Whisman, CPA will provide oversight of all day to day operations in the execution of Charter Choice’s responsibilities.

Prior to founding a charter school service firm in 2004, Michael managed the local charter school audit practice of the 13th largest US public accounting firm. Our organization continues to provide consulting services to many of Michael’s previous audit clients.

Since the inception of the charter school law, Michael has been an active member in the charter school community. Michael has testified numerous times in Harrisburg at the House of Representative Education Committee hearings on the topic of charter school funding.

As an advocate for school choice, Michael has dedicated his career to charter schools and to looking for alternative methods of educating the students of Pennsylvania. Most recently, Michael has been the trusted advisor to the PA Coalition of Charter Schools and all cyber charter schools across the state in negotiating proposed legislation with the Senate Education Committee and Office of the Governor.

Kevin Corcoran, MBA will be responsible for completion of all day to day operations and customer service to the CEO, Business Manager and Board.

Kevin is a resident of Hershey and brings more than 20 years of financial, accounting and management experience, including 10 years in leadership positions at one of the largest cyber charter schools in the state and 6 years as its Chief Financial Officer/Chief Operations Officer. He has testified before the PA Senate Education Committee on the topic of charter schools and Special Education funding and is often requested by members of the legislature and their staffs to educate them on key financial aspects of proposed legislation. Kevin also has served in client service and consulting organizations with an emphasis on operations management, procurement and contracts. Kevin is a veteran and still serves as a Captain in the United States Navy Reserves. He earned MBA and Master of Public Policy degrees from Duke University and B.S. in Finance from Villanova University.

Under Michael’s and Kevin’s direction, several other Charter Choices staff will serve on the team:

David Sutter will lead our team that ensures Virtual Prep’s funding through District Billing and Accounts Receivable functions.

Dave is a subject matter expert in District Billing and related PDE policies and processes. He has served clients and led Charter Choices’ efforts in this area for nearly 10 years. Prior to joining our team, Dave worked for 8 years at a cyber charter school in positions of increasing responsibility, including Registrar and Director of Student Services. He holds a B.S. in Accounting from Cedarville University.

Abby Dubinchik, M.S.Ed. serves as our Director of Compliance and will assist Virtual Prep by providing guidance to the Board, school leaders and Accel team on Pennsylvania-specific requirements, policies and guidelines.

Abby brings more than a decade of Federal Programs coordination and school operational experience. Her experience teaching high school math led Abby to pursue her graduate work at the University of Pennsylvania in Education Policy (M.S.Ed.). Abby is a great resource for State and Federal reporting, required quarterly and annual reports, comprehensive and school improvement planning, policy development, as well as many other educational compliance tasks.

In addition to these distinguished professionals, we will provide additional staff accountants and other resources as required by the needs of Virtual Prep.

- **COST PROPOSAL**

The proposed term is 36 months (to match the likely length of initial charter). Our proposed pricing structure is as follows:

- District Billing and Accounts Receivable: \$6 per student per month
- PDE, PIMS, State and Federal Reporting: \$4 per student/month
- Business Manager/Internal Controls/Accel Invoice Review: \$2 per student/mo

In no year shall the total paid under this agreement be less than \$72,000. If applicable, postage costs to mail district invoices will be invoiced separately.

Fees would be billed at the start of each month based on confirmed enrollment on an annual period beginning July 1st of 2021 of whatever year the school begins to serve students. These rates shall be adjusted upwards each year based on the greater of 2% or the change in the May annual CPI-U for the Mid-Atlantic Region, as published by the Federal Bureau of Labor Statistics.

If requested by the school, Charter Choices will provide and bill an hourly rate for additional services outside of those engaged upon obtaining direction from the Board or school leaders.
