A due process hearing may be requested by a parent/guardian of a student with a disability who disagrees with a disciplinary placement or manifestation determination, or by the Charter School if the Charter School believes that the current placement is substantially likely to result in injury to the student or others. On parent/guardian appeal, or when the Charter School requests a due process hearing, the hearing officer may return the student to the placement from which the student was removed or order the student's removal to an appropriate interim alternative educational setting for up to forty-five (45) school days if the hearing officer determines that maintaining the student's current placement is substantially likely to result in an injury to the student or others. [\[8\]](#)[\[9\]](#)[\[12\]](#)

Placement during appeals of disciplinary actions shall be in the interim alternative educational setting pending the decision of the hearing officer or expiration of the time period set for the disciplinary exclusion from the student's regular placement, unless the Charter School and the parent/guardian agree otherwise. [\[8\]](#)[\[13\]](#)

Students Not Identified as Disabled/Pending Evaluation

Students who have not been identified as disabled may be subject to the same disciplinary measures applied to students without disabilities if the Charter School did not have knowledge of the disability. If a request for evaluation is made during the period the student is subject to disciplinary measures, the evaluation shall be expedited. [\[8\]](#)[\[14\]](#) Until the evaluation is completed, the student remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

Administrative Removal to Interim Alternative Educational Setting for Certain Infractions

Charter School personnel may remove a student with a disability, including intellectual disability, to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability if the student:[\[6\]](#)[\[8\]](#)

1. Carries a weapon to or possesses a weapon at school, on school property, or at school functions under the jurisdiction of the Charter School. For purposes of this provision, weapon is defined as a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half (2 ½) inches in length.[\[6\]](#)[\[8\]](#)[\[15\]](#)
2. Knowingly possesses or uses illegal drugs, as defined by law, or sells or solicits the sale of a controlled substance, as defined by law, while at school, on school property, or at school functions under the jurisdiction of the Charter School.[\[6\]](#)[\[8\]](#)[\[16\]](#)
3. Has inflicted serious bodily injury upon another person while at school, on school property, or at school functions under the jurisdiction of the Charter School. For purposes of this provision, serious bodily injury means bodily injury which involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.[\[6\]](#)[\[8\]](#)[\[17\]](#)

Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.[\[18\]](#)[\[19\]](#)[\[20\]](#)

The Chief Executive Officer or designee shall report required incidents, listed in School Code section 24 P.S. 13-1303-A(b)(4.1), and discretionary incidents, listed in School Code section 24 P.S. 13-1303-A(b)(4.2) in accordance with law, regulations and Board policy.[\[19\]](#)[\[21\]](#)[\[22\]](#)

The Chief Executive Officer or designee shall immediately report required incidents and may report discretionary incidents committed on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity by a student with a disability, including a student for whom an evaluation is pending, to the local police department that has jurisdiction over the school's property, in accordance with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies. The Chief Executive Officer or designee shall respond to such incidents in accordance with the Charter School's policies and administrative procedures for behavior support, and, if applicable, the procedures, methods and techniques defined in the student's Behavior Support Plan.[\[1\]](#)[\[8\]](#)[\[18\]](#)[\[21\]](#)[\[22\]](#)[\[23\]](#)[\[24\]](#)[\[25\]](#)[\[26\]](#)

For a student with a disability who does not have a Positive Behavior Support Plan, subsequent to notification of law enforcement, the Charter School shall convene the student's IEP team to consider whether a Positive Behavior Support Plan should be developed to address the student's behavior, in accordance with law, regulations and Board policies.[\[1\]](#)[\[23\]](#)

When reporting an incident committed by a student with a disability to the appropriate authorities, the Charter School shall provide the information required by state and federal laws and regulations and shall ensure that copies of the special education and disciplinary records of the student are transmitted for consideration by these authorities. The Charter School shall transmit copies of the student's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act ("FERPA") when transmitting copies of the student's special education and disciplinary records.[\[8\]](#)[\[18\]](#)[\[21\]](#)[\[22\]](#)[\[23\]](#)[\[26\]](#)[\[27\]](#)

In accordance with state law, the Chief Executive Officer shall annually, by July 31, report to the Office for Safe Schools on the required form all new incidents committed by students with disabilities, including students for whom an evaluation is pending, which occurred on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity.[\[19\]](#)

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Authority

The Board of Trustees (Board) recognizes the need to protect the confidentiality of personally identifiable information in the education records of students with disabilities.

The Charter School shall maintain a system of safeguards to protect the confidentiality of students' educational records and personally identifiable information when collecting, retaining, disclosing and destroying student special education records, in accordance with Board policy, state requirements, and federal and state law and regulations.[\[1\]](#)[\[2\]](#)[\[3\]](#)

The rights provided by this policy apply to parents/guardians of students who receive special education programming and services from the Charter School or an outside program provided through the Charter School.[\[4\]](#)[\[5\]](#)

Definitions

Destruction shall mean the physical destruction or removal of personal identifiers from information so that the information is no longer personally identifiable.[\[6\]](#)

Disclosure shall mean to permit access to or the release, transfer, or other communication of personally identifiable information contained in education records by any means, including oral, written, or electronic means, to any party except the party identified as the party that provided or created the record.[\[7\]](#)

Education Records, for purposes of this policy, shall include the records and information covered under the definition of education records in the Family Educational Rights and Privacy Act ("FERPA") and its implementing regulations.[\[7\]](#)[\[8\]](#)

Personally identifiable information includes, but is not limited to:[\[7\]](#)[\[9\]](#)

1. The name of a student, the student's parents/guardians or other family members.
2. The address of the student or student's family.
3. A personal identifier, such as the student's social security number, student number, or biometric record.
4. Other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name.

5. Other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty.
6. Information requested by a person who the Charter School reasonably believes knows the identity of the student to whom the education record relates.

Guidelines

Parental Access Rights

The Charter School must permit parents/guardians to inspect and review any education records relating to their child(ren) that are collected, retained, or used by the Charter School in connection with providing special education and related services to the student.[\[10\]](#)[\[11\]](#)

The Charter School must comply with a parental request to inspect and review education records without unnecessary delay and before any meeting regarding an Individualized Education Program ("IEP"); any impartial due process hearing relating to the identification, evaluation, educational placement, or the provision of a free and appropriate public education ("FAPE") to a student; a hearing related to the discipline of the student; and a resolution meeting.

The Charter School must presume a parent/guardian has authority to inspect and review records relating to their child unless it has been provided documentation that the requesting parent/guardian does not have this authority under applicable state law.[\[10\]](#)[\[12\]](#)

The Charter School must comply with a parental request for review within forty-five (45) days following receipt of the request.[\[10\]](#)[\[11\]](#)

A parent's/guardian's right to inspect and review education records includes the right to:

1. A response from the Charter School to reasonable requests for explanations and interpretations of the records;
2. Request that the Charter School provide copies of the records if failure to provide copies would effectively prevent the parent/guardian from exercising the right to inspect and review the records; and
3. Have a representative inspect and review the records.

If an education record includes information on more than one (1) student, the parents/guardians shall have access only to the information relating to their child or shall be informed of the information in the record.[\[13\]](#)[\[14\]](#)

The Charter School shall provide parents/guardians, upon request, a list of the types and locations of education records collected, maintained, or used by the Charter School.[\[15\]](#)

Fees

The Charter School may charge a fee for copies of records that are made for parents/guardians so long as the fee does not effectively prevent parents/guardians from exercising their right to inspect and review those records.[\[16\]](#)[\[17\]](#)

The Charter School shall not charge a fee to search for or to retrieve information in response to a parental request.

Record of Access

The Charter School must keep a record of parties obtaining access to education records collected, maintained, or used in providing special education and related services to students with disabilities, except access by parents/guardians and authorized Charter School employees.[\[18\]](#)

The Charter School's record of access shall include the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

Amendment of Records Upon Parental Request

If a parent/guardian believes that information in the student's education records is inaccurate, misleading or violates the privacy or other rights of the student, the parent/guardian may request the Charter School that maintains the information to amend the information.[\[19\]](#)[\[20\]](#)

The Charter School must decide whether to amend the information within a reasonable period of time from receipt of the parent's request.

If the Charter School declines to amend the information in accordance with a parental request, the Charter School must inform the parent/guardian of the refusal and advise the parent/guardian of the right to a hearing for this purpose.

Records Hearing

The Charter School must, on request, provide parents/guardians with an opportunity for a hearing to challenge information in the student's education records to ensure that the information is not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. The Charter School recognizes that parents/guardians who believe that there is a due process violation relating to an alleged violation of confidentiality may also request a special education due process hearing.[\[21\]](#)[\[22\]](#)[\[23\]](#)[\[24\]](#)

Hearing Procedures

A hearing to challenge information in education records must meet the following requirements:[\[25\]](#)[\[26\]](#)

1. The Charter School shall hold the hearing within a reasonable time after receiving the request for a hearing.
2. The Charter School shall give the parent/guardian reasonable advanced written notice of the date, time, and place of the hearing.
3. The hearing may be conducted by any individual, including a Charter School official, who does not have a direct interest in the outcome of the hearing.
4. The Charter School shall give the parent/guardian, or eligible student, a full and fair opportunity to present relevant evidence. The parent/guardian may, at the parent/guardian's own expense, be assisted or represented by one (1) or more individuals of the parent/guardian's choice, including an attorney.
5. The Charter School shall inform parents/guardians of its decision in writing within a reasonable period of time after the hearing.
6. The decision must be based solely on the evidence presented at the hearing, and must include a summary of the evidence and the reasons for the decision.

Result of Hearing

If, as a result of the hearing, the Charter School decides that the information is inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, the Charter School must amend the information accordingly and inform the parent/guardian in writing.[\[24\]](#)[\[27\]](#)

If, as a result of the hearing, the Charter School decides that the information is not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, the Charter School shall inform the parent/guardian of the parent's/guardian's right to place in the student's records a statement commenting on the information and/or providing any reasons for disagreeing with the Charter School's decision.

Any explanation placed in the student's records shall be:

1. Maintained by the Charter School as part of the student's records as long as the record or contested portion is maintained by the Charter School; and
2. Included with the record or contested portion if the record or contested portion are disclosed to any party.

Storage, Retention and Destruction of Information

The Charter School shall store all education records and personally identifiable information of students receiving special education services in such a way as to protect the confidentiality and integrity of the records and information, prevent unauthorized access to and disclosure of records and information, and ensure compliance with other legal and regulatory requirements regarding records retention.[\[28\]](#)

The Charter School shall maintain, for public inspection, a current listing of the names and positions of those Charter School employees who have access to personally identifiable information.[\[28\]](#)

In order to fulfill state compliance monitoring requirements, the Charter School shall maintain education records for students receiving special education services for at least six (6) years.

The Charter School shall inform parents/guardians when personally identifiable information collected, maintained, or used is no longer needed to provide educational services to the student. After notice, such information shall be destroyed upon parental request.[\[29\]](#)

No education record shall be destroyed if there is an outstanding request to inspect or review the record or if a litigation hold exists.[\[11\]](#)

The Charter School may maintain a permanent record of the student's name, address, and phone number, their grades, attendance record, classes attended, grade level completed, and year completed.[\[29\]](#)

The Charter School shall ensure the destruction of education records in a manner that protects the confidentiality and privacy rights of the student and the student's family.[\[28\]](#)

Disclosure to Third Parties

The Charter School shall obtain parental consent before disclosing personally identifiable information to parties other than Charter School officials with a legitimate educational interest or other educational institutions that provide special education services to the student for the purposes of meeting a requirement of law or regulation unless the information is contained in education records and the disclosure is permitted without parental consent under law and regulations.[\[30\]](#)[\[31\]](#)[\[32\]](#)[\[33\]](#)

Parental consent must be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.[\[31\]](#)

The Charter School shall forward a student's educational records, including the most recent Individualized Education Program (IEP), within ten (10) school days after the Charter School is notified in writing that the student is enrolled at another public agency, public school, private school, approved private school or private agency.[\[2\]](#)

Disclosure to Law Enforcement

When reporting an incident committed by a student with a disability to the appropriate authorities, in accordance with applicable law, regulations and Board policy, the Charter School shall provide the information required by state and federal laws and regulations and shall ensure that copies of the special education and disciplinary records of the student are transmitted for consideration by these authorities. The Charter School shall ensure compliance with the Family Education Rights and Privacy Act ("FERPA") when transmitting copies of the student's special education and disciplinary records.[\[2\]](#)[\[10\]](#)

Delegation of Responsibility

In order to maintain the confidentiality of the educational records and personally identifiable information of students with disabilities, the Board designates the Director of Special Education to coordinate the Charter School's efforts to comply with this policy and applicable laws and regulations.[\[2\]](#)[\[28\]](#)

All Charter School employees collecting or using personally identifiable information shall receive training or instruction regarding Board policy, administrative procedures, and state and federal laws and regulations regarding confidentiality of education records and personally identifiable information.[\[28\]](#)

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Purpose

The 21st Century Cyber Charter School (the "Charter School") believes that regular attendance is essential if students are to achieve and reach their potential. Each day is important for learning. Parents/Guardians are required to ensure their student maintains regular attendance.

Guidelines

Truancy - Overview

A child is truant if they have three (3) or more school days of unexcused absences during the current school year. An unexcused absence is any absence from school without an acceptable excuse (as articulated in the Charter School's Student/Parent Handbook), or without any reason at all. An out-of-school suspension shall be considered an excused absence.[\[1\]](#)

A child is habitually truant if they have six (6) or more school days of unexcused absences during the current school year.[\[1\]](#)

A child is not considered truant if they are absent from school due to not meeting the immunization, exemption or provisional admission requirements of the Department of Health, at 28 Pa. Code Chapter 23, Subchapter C (relating to immunization), or the student has not received from the Chief Executive Officer (CEO) or their designee a medical or religious exemption from immunization under 28 Pa. Code *23.84 (relating to exemption from immunization).[\[2\]](#)[\[3\]](#)

When a child demonstrates truant behavior, the Charter School will send the parent/guardian a notice of the unexcused absence and will schedule a school/family conference to discuss the cause of the child's truancy and develop a mutually agreed upon Student Attendance Improvement Plan to resolve truant behavior. The plan can include a myriad of options for the elimination of truancy that are mutually agreed upon by the participants.[\[1\]](#)
[\[4\]](#)

Procedure when child is habitually truant:

1. Habitually truant children under fifteen (15) years of age: The Charter School will refer the child to either:
 - 1) a school-based or community-based attendance improvement program; or
 - 2) the county children and youth agency (CYS) for services or possible disposition as a dependent child under the Juvenile Act. Additionally, the Charter School may file a citation against the parent/guardian of a habitually truant child under fifteen (15) years of age in a magisterial court. The venue for filing the citation shall be in the

magisterial district court based on the location of the child's residence.[\[5\]\[6\]\[7\]](#)

2. Habitually truant children fifteen (15) years of age and older: The Charter School will either: 1) refer the child to a school-based or community-based attendance improvement program; or 2) file a citation against the student or parent/guardian in the appropriate magisterial district court. The venue for filing the citation shall be in the magisterial district court based on the location of the child's residence. If a habitually truant child aged fifteen (15) or older incurs additional absences after a school refers that child to a school-based or community-based attendance improvement program or the child refuses to participate in an attendance improvement program, the Charter School may refer the child to the local CYS agency for possible disposition as a dependent child.[\[5\]\[6\]\[7\]](#)

In all cases, regardless of age, where the Charter School refers a habitually truant child to a magisterial district court or CYS, the Charter School will provide verification that it convened and held a Student Attendance Improvement Conference.[\[5\]](#)

Except as otherwise required by applicable law, students who are illegally absent from school for ten (10) or more consecutive days without appropriate documentation will be removed from the Charter School's rolls.[\[8\]](#)

The Charter School will report unexcused absences directly to PDE through the Pennsylvania Information Management System (PIMS).

Children who are habitually truant from school while subject to compulsory school attendance are subject to an assessment to determine if there is a need for general protective services. Children will not be referred to the county children and youth agency for assessment as possibly needing services until after the Charter School has made a formal effort to involve the family and child in resolving the cause of the truant behavior.

Delegation of Responsibility

The CEO or designee is directed to develop procedures that may be necessary to implement this policy.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Title	Clearance for Volunteers
Code	1020
Status	Active
Adopted	November 13, 2018

To ensure the safety of our students, 21st Century Charter School has instituted a policy regarding volunteers, which follows Act 15 of 2015. Volunteers who have "direct volunteer contact," with children at a school, meaning, the care, supervision, guidance, or control of children and routine interaction with children, must have background checks. "Routine interaction" is defined in the Act as "regular and repeated contact that is integral to a person's employment or volunteer responsibilities."

Volunteers must obtain the following certifications:

- Report of criminal history from the Pennsylvania State Police; and
- Child Abuse History certification from the Department of Human Services (Child Abuse)

A fingerprint based federal criminal history (FBI) submitted through the Pennsylvania State Police or its authorized agent is not required as long as: (1) the position the volunteer is applying for is an unpaid position; and (2) the volunteer has been a resident of the Commonwealth of Pennsylvania for the entirety of the previous ten (10) years. Volunteers who are not required to obtain the FBI certification for these reasons must swear or affirm, in writing, that they are not disqualified from service based upon a conviction of an offense under Section 6344.

If a volunteer has not been a resident of Pennsylvania for the previous ten (10) years, but obtained their FBI certification at any time since establishing residency, they must provide a copy of the certification to the person responsible for the selection of volunteers. They are not required to obtain any additional FBI certifications.

If a volunteer has not been a resident of Pennsylvania for the previous ten (10) years, and has not obtained their FBI certification, they must obtain that certification. If approved as a volunteer before August 25, 2015, and do not have certifications (because not previously required to obtain certifications) certifications must be obtained by July 1, 2016, to be permitted to continue volunteering at the Charter School. If approved as a volunteer before August 25, 2015, and have certifications because prior organization required one or all of them and certifications are older than 60 months, certifications must be obtained by July 1, 2016, to be permitted to continue volunteering at the Charter School. Volunteers required to obtain clearances include persons who are responsible for the child's welfare or who wish to visit the school regularly to serve as volunteers and to provide for the care, supervision, guidance or control of children. All Clearance Required Volunteers must obtain the required certification every sixty (60) months from the date of the individual's most recent certification. Copies of all clearances shall be provided to the Charter School.

Examples of volunteer situations requiring clearances include, but are not limited to:

- Working with small group of students or individual students
- Driving a team/group to an activity
- Volunteer coaches and club advisors
- Supervising a group of students on a field trip

Volunteers not required to obtain clearances include visitors who are not responsible for a child's welfare or are visiting the school irregularly and not providing for the care, supervision, guidance, or control of children. Although occasional visitors are not required to complete the clearances, they should continue to comply with building security policies (such as signing in before entering the building).

Examples of situations in which volunteers typically would not need clearances include, but are not limited to:

- Attending a presentation or party
- Attending a school-sponsored event (Ex. Picnic, bowling party, dinner, ceremony, school trips, etc.)
- Collecting tickets at events
- Working concession stands
- Participating in a "Career Day"

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Guidelines

As set forth in Policy 1020, the School values the participation of volunteers in both curricular and extra-curricular programs in order to support and enhance the learning experiences of all students. The purpose of this Administrative Regulation is to implement a process to ensure that our volunteers meet the standards of safety established by the Commonwealth of Pennsylvania as well as to set forth the School's general guidelines for volunteer participation in school-sponsored programs and activities.

Requirement to Obtain Certifications & Confidentiality

Pursuant to Pennsylvania law, certain volunteers are required to obtain FBI, State Police, and Department of Human Services (DHS) certifications ("certifications"), and will be required to renew those certifications every sixty (60) months. The School respects the privacy of volunteer applicants, and will hold all certification results in strict confidence to the extent permitted by law. There will be only limited personnel access approved by the CEO or designee to certification files on a "need-to-know" basis.

Reporting Child Abuse:

Volunteers must report all incidents of suspected child abuse in accordance with Policy 6006.

Reporting of Arrests and Convictions:

Volunteers must report new arrests or convictions for any offense that would create a ban on employment or volunteer work with children to an administrator in writing within 72 hours. If a person responsible for employment decisions or an administrator has a reasonable belief that any volunteer was arrested or convicted for an offense that would constitute grounds for denying employment, or was named as a perpetrator in a founded or indicated report of child abuse, or the volunteer has provided notice as required under the Act, the employer or administrator must immediately require that individual to submit current FBI, State Police, and DHS certifications. If any volunteer does not disclose arrests or convictions as required, they will be terminated immediately from all services to the School.

All Volunteers

In support of the School's responsibilities to operate an effective instructional program, and ensure the safety and welfare of all students, volunteer activities will be provided only as requested by the School and will be under the direction of a School employee at all times. All volunteers will be expected to follow the guidelines stated below:

1. Respect the authority of the teacher or School-employed supervisor ("supervisor") as the decision-maker and as the person responsible for the instructional program, all classroom or school-related activities, and the well-being of all children in the classroom or school. Teachers and supervisors bear the ultimate responsibility for the

welfare of students during school activities. When working with students or chaperoning field/class trips or school activities, volunteers must report all incidents of inappropriate behavior or situations in which students might be in danger to the teacher or supervisor in charge of the activity.

2. Respect the privacy and anonymity of each child by maintaining the confidentiality of information regarding students. Information regarding student classroom performance and/or behavior, and information contained in student records must be shared only with other School employees with an "educational need to know" the information. Information from student records is regulated by the Family Educational Rights Privacy Act.
3. Maintain a professional relationship with students. Volunteers are viewed as representatives of the Board and Administration. When issues of a personal or confidential nature are raised by students, volunteers are placed in a difficult situation. Nonetheless, volunteers must refrain from imposing their own opinions on students regarding matters of a personal nature.
4. Courteously inform your supervising teacher or supervisor if unable to attend a volunteer activity and document attendance as requested by supervising teacher or supervisor.

Title	Student Conduct on Buses and School Vehicles
Code	1021-AR-6
Status	Active
Adopted	September 8, 2020

Considering that a school bus or school vehicle is an extension of the classroom, the school requires students to conduct themselves on school buses and school vehicles in accordance with the Code of Student Conduct established for student behavior in school and on school property.

The driver has authority over and responsibility for all students from the point of pick up to the point of discharge, and students are responsible to adhere to their directions and instructions.

To assist with the maintenance of discipline and to enhance security, school buses and school vehicles may be equipped with audio recording and video recording equipment.

The principal will determine and administer disciplinary action; alert staff in cases of a delay, emergency or accident.

Students will be informed annually regarding the authority of the driver and the rules for student conduct on buses and school vehicles.

Rules for Student Conduct

In addition to the established Code of Student Conduct, the rules for student conduct on school buses and school vehicles require that students will:

1. Obey and cooperate with the driver.
2. Observe rules of good citizenship and respect private property while waiting for the bus or school vehicle at the designated stop.
3. Be on time at the designated stop and wait until the bus or school vehicle comes to a complete stop before attempting to enter.
4. Be courteous to fellow students and the driver.
5. Remain seated while the bus or school vehicle is in motion.
6. Talk in normal inside voices and not talk to or disturb the driver.
7. Keep heads and hands inside the bus or school vehicle at all times.
8. Be responsible for any damage to the bus or school vehicle.
9. Not litter, nor throw anything out the windows.
10. Not engage in horseplay on or around the bus or school vehicle.

11. Not eat, drink, smoke or use profanity.
12. Not leave books, lunches or personal property on the bus or school vehicle.
13. Not bring sharp or blunt instruments not in a proper container on the bus or school vehicle.
14. Not put items in the aisle, including backpacks, instruments, athletic gear, etc.
15. Cross in front of bus or school vehicle on departure after the bus or school vehicle has stopped completely and driver has signaled students.

Discipline for Violations

The driver will maintain appropriate behavior, enforce safety rules and handle routine discipline issues.

When a student's misconduct persists, the driver will complete and submit to the principal a Bus or School Vehicle Conduct Incident Report. The principal will review the report, interview the driver and/or student if necessary, determine disciplinary action, and complete the form. A copy of the form will be sent to the parent/guardian and the Transportation Supervisor, and a copy will be retained and filed by the principal. The principal will inform the driver of the discipline.

Disciplinary action will follow a general rule of increasing severity of consequences, including:

1. Warning.
2. Assigned seating.
3. Detention.
4. Suspension of bus or school vehicle riding privileges.

A student who is a discipline problem on a school bus or school vehicle may have their riding privileges suspended by the principal. In such cases, the parents/guardians are responsible for seeing that the student gets to school safely and on a regular basis.

Violations by Large Group of Students

The following procedure will be followed by the driver when a large number of students are violating student conduct rules:

1. Driver will proceed to or return to school with all the students who are on the bus or school vehicle at the time they make the decision.
2. Driver will contact principal or designee and will remain on the bus or school vehicle until the administrator arrives.
3. Administrator will review the situation, determine appropriate action and subsequent discipline.
4. The principal will notify the CEO regarding the incident.
5. The CEO may determine that conditions warrant the discontinuation of the bus route for a period of time sufficient to convey the message and importance of school bus and school vehicle safety.

Purpose

The Board believes that the goals and objectives of this school are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom curricular program of the school.

All learning experiences offered by the school, curricular and co-curricular, should be planned and integrated toward the attainment of the school's objectives. The CEO shall be responsible for the development and administration of the activities referenced in this policy. No activities referenced in this policy shall be scheduled to conflict with any educational activity necessary for meeting the requirements of the officially approved curriculum, unless specifically approved by the CEO. This policy mandates that students achieve minimum levels of academic and behavioral performance in order to participate in the activities referenced in this policy. Any student having three (3) or more unexcused absences or lateness during the prior report card period shall be ineligible for the activities referenced in this policy. Further, any student absent from school shall be ineligible for participation in any after-school activity referenced in this policy on that date of absence.

Definitions

For purposes of this policy, co-curricular activities shall be those activities which are sponsored or approved by the Board but are not offered for credit toward graduation. Such activities shall ordinarily be:

1. Conducted wholly or partly outside the regular school day;
2. Marked by student participation in the processes of initiation, planning, organizing, and execution;
3. Available to all students who voluntarily elect to participate; except that where eligibility requirements are necessary or desirable, the Board shall be so informed and must approve the establishment of eligibility standards before they may be operable; and
4. Contribute to attainment of 21CCCS objectives.

Guidelines

Co-Curricular Activities

Co-curricular activities refer to the activities directed, financed and supervised by the school in addition to the regularly organized, recognized, and scheduled class offerings for which grades are given. The following guiding principles in the administration of co-curricular activities should be interpreted by each school faculty in terms of its local school situation:

1. The justification for each co-curricular activity must lie in the contribution it can make to the learning and development of students.
2. The co-curricular program for each school should grow out of the life of that school and be adapted to the local situation.
3. To be vital, the co-curricular activities program must be continually changing and dynamic.
4. Participation should be equally available to all students with restrictions related only to competency and interest in the specific activity.[\[1\]](#)[\[2\]](#)

The goal of the extracurricular program is to provide opportunities for students to pursue interests and develop life skills beyond the classroom.

Activity advisors will create a roster of students who are members or participants of a group and will maintain attendance records.

This Code of Conduct applies to all students participating in extracurricular activities as defined in Board policy.

Students must conduct themselves at all times, including after school and on days school is not in session, as good citizens and representatives of their school; they must behave in ways that are consistent with good sportsmanship, leadership, and appropriate moral conduct. This Code does not contain a complete list of inappropriate behaviors for students in extracurricular activities. This Code of Conduct will be enforced 365 days a year, twenty-four (24) hours a day. A student may be excluded from activities or competition while the school is conducting an investigation regarding that student's conduct.

Students and their parents/guardians are encouraged to seek assistance from the Student Assistance Program regarding alcohol or other drug problems. Family referrals or self-referrals will be taken into consideration when determining consequences for Code of Conduct violations.

Code Of Conduct

Title	Language Instruction Educational Program for English Learners
Code	1038
Status	Active
Adopted	January 12, 2016
Last Revised	May 11, 2021
Prior Revised Dates	January 15, 2019

Purpose

It is the policy of the 21st Century Cyber Charter School to provide all students whose dominant language is not English equal access to a quality education under 22 PA. Code 4.26. Students identified as English Language Learners receive a bilingual/bicultural and English language development program (ELD) that is on grade level, content-focused, and research-based.

21st Century Cyber Charter School will provide assistance through an appropriate planned instructional program to enable limited English proficient (LEP) students to progress academically while they are learning English.

The purpose of the program is to increase the English language proficiency of eligible students so that they can attain the academic standards adopted by the Board and achieve academic success.

Authority

The 21st Century Cyber Charter School shall provide a program for each student whose dominant language is not English for the purpose of facilitating the student's achievement of English proficiency and the academic standards. The program shall meet the three-pronged test of program compliance: (1) sound research-based education theory, (2) sufficient resources and staffed by appropriate personnel, and (3) periodic program evaluation.

ELD is a basic core curricular area (i.e., content area subject) that will be available to all identified students as determined by appropriate assessments and consideration of multiple criteria. It will be provided to all identified students until English proficiency is achieved. Sufficient daily instructional time based on level of English proficiency and supporting the chosen instructional model will be allotted to enable students' development of English at the proficient level.

The Board shall include provisions for appropriate professional development for all stakeholders in its professional development plan.

The Board shall establish procedures for identification of students whose dominant language is not English. The Home Language Survey shall be completed for every student by their caregiver(s) and filed in the student's permanent record folder. For students whose native language is not English and for whom background and/or additional evidence warrants formal assessment of the student's English proficiency level, 21st Century Cyber Charter School will administer the required proficiency assessment and consider multiple criteria to determine the need for English as a Second Language instruction.

The ELD program shall be designed to provide planned instruction to meet each student's individual needs based on the English language proficiency level as identified through multiple criteria in reading, writing, listening, and speaking. Adequate content area support shall be provided while the student is learning English with a focus on both English Language Proficiency Standards and Academic Standards to ensure student achievement in both language and content. ELD curriculum will be aligned to Pennsylvania's English language arts standards and the PA English language proficiency standards. Content area instruction will incorporate the PA English language proficiency standards as an overlay to Pennsylvania academic standards.

A highly qualified PA certified teacher with a Program Specialist ELD Certificate shall provide the ELD instruction.

Adequate resources and funds, including a specific line item in the appropriate program budget, will be provided for an ELD program (e.g., staffing, professional development, assessments, etc.). Instructional resources shall be comparable to the resources provided for other core academic subjects.

Periodic ELD program evaluations will be conducted for the purpose of program improvement. Evaluations will be based on students making progress and attaining proficient levels of English as collected in PIMS. The program shall be evaluated for its effectiveness and compliance based on the attainment of Annual Measurable Achievement Objectives (AMAOs). If ELLs are not progressing and/or achieving English language proficiency, the program must be revised to ensure greater achievement.

For program exit, both quantitative data (e.g., assessment results, report card grades, attendance, portfolios, etc.) and qualitative data (e.g., teachers' anecdotal records, informal classroom observations, parent interviews, etc.) will be collected throughout the student's participation in the program. Summative evaluations to determine continued placement in the program or exit from the program will be made, at minimum, on an annual basis. Upon exit from the ELD program, a student's progress will be monitored quarterly for two years.

LEP students will participate in the PSSA/Keystone assessments and other large-scale assessments with appropriate accommodations. Formative assessments will align to the academic standards and English language proficiency standards and ELLs will be graded with the same grading system used for all students. ELL students will not be retained in a grade based solely on a lack of English proficiency.

Students shall have access to and should be encouraged to participate in all academic and extracurricular activities available specific to the 21st Century Cyber Charter School program.

Communication with parents shall include information about placement, assessment, academic achievement, and other related education issues, whenever possible, in the mode and language of communication preferred by the parents.

Parental Right to Opt Out of ELD Programs and Services –

Parents/Guardians of EL students have the right to refuse specialized programs and services that may be part of the LIEP for their child. A parent's/guardian's decision to refuse programs or services must be informed and voluntary; the Charter School shall not influence a parent's/guardian's decision in any way, or make any program or placement determinations without parental notification and an opportunity to opt the student out of programs and services.[\[1\]](#)[\[2\]](#)

The Charter School shall make a parental waiver form available for parents/guardians to opt their EL child out of ELD programs and services.

The Charter School shall document all notifications made to parents/guardians regarding assessment and recommended placements and programs for EL students, and whether or not a parental waiver form is received. When a waiver form is not received from the parent/guardian, the Charter School shall proceed with the recommended placement.

EL students who have a parental waiver for ELD programs and services shall be assessed on English language proficiency annually, and shall be provided with supports and accommodations to participate in general curricular and extracurricular programs, in order to meet academic standards and graduation requirements.

Parents/Guardians of EL students who have been opted out of ELD programs and services shall be notified of their child's progress, including achievement of academic standards and assessment results, and shall be provided with opportunity and a form to opt their child back into ELD programs and services.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Title	Procedures for Language Instruction Educational Program for English Learners
Code	1038-AR-1
Status	Active
Adopted	September 8, 2020
Last Revised	September 12, 2023

The school must provide appropriate English Language Development (ELD) instruction to students who are English Learners (EL) so they can attain English language proficiency, as well as content knowledge in core academic subject areas, based on the Board-approved academic standards.

The school will provide a Language Instruction Educational Program (LIEP) that includes research-based ELD instruction at the appropriate proficiency level; content area instruction aligned with the corresponding academic standards and adapted to meet the needs of students; and assessment processes that reflect academic standards and instruction.

Definitions

English Learner (EL) – a student enrolled or preparing to enroll in an elementary or secondary school, who:

1. Was not born in the United States or whose native language is a language other than English; or
2. Is a Native American or Alaska Native, or a native resident of the outlying areas; and comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
3. Is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and whose difficulties in speaking, reading, writing or understanding the English language may be sufficient to deny the individual:
 1. The ability to meet the challenging state academic standards;
 2. The ability to successfully achieve in classrooms where the language of instruction is English; or
 3. The opportunity to participate fully in society.

Language Instruction Educational Program (LIEP) - an instruction course:

1. In which an English Learner is placed for the purpose of developing and attaining English proficiency, while meeting challenging state academic standards; and
2. That may make instructional use of both English and a student's native language to enable the student to develop and attain English proficiency, and may include the participation of English proficient students if such course is designed to enable all participating students to become proficient in English and a second language.

Language Instruction Educational Program

The school will plan, develop, implement, resource and evaluate a LIEP based on law, regulations, state requirements and federal funding requirements. The LIEP must meet the needs of the school's EL students and be based on sound educational theory.

English Language Development Instruction –

ELD will be delivered by certified English as a Second Language (ESL) teachers and non-ESL teachers throughout the day as part of specialized instruction and as part of core content in the general curriculum.

ELD instruction will be part of the approved, planned curriculum, and will be provided as stand-alone courses, when appropriate, and as part of the general planned instruction courses, with the support of ESL staff.

Non-ESL staff will incorporate ELD into all classes for EL students, as well as provide supports, modifications and accommodations for curricular content to enable EL students to achieve academic standards.

Provision of Resources –

The school will provide adequate resources to effectively implement the LIEP, including but not limited to:

1. Employing adequate certified ESL staff for delivery of ELD.
2. Ensuring ESL staff have adequate time to collaborate with non-ESL staff for delivery of ELD, modification of core content and monitoring progress to meet the needs of EL students.
3. Purchasing and maintaining specialized materials to support ELD as necessary.
4. Ensuring that the LIEP receives the same resources as other academic programs and approved curriculum.
5. Providing adequate professional development for all staff working with EL students.

Evaluation of LIEP –

The school will implement, monitor and evaluate the LIEP as required by law, regulations and state guidelines.

The school will annually evaluate the LIEP for effectiveness based on student outcomes and student achievement data, and report the results to the state through the English Learner Reporting System (ELRS).

The LIEP must be designed to enable EL students to attain both English proficiency and equal participation in core academic content within a reasonable period of time—if the LIEP is not achieving both criteria, the school will review and modify the LIEP.

Evaluation of the LIEP will be based on achievement data of current EL students, former EL students, and students who have not been designated as EL, and may be based on data that includes but is not limited to:

1. Scores on state and local assessments.
2. Scores on annual English language proficiency assessments.
3. Grades in core content courses.
4. Retention in grade.
5. Reclassification/Program exit rates.
6. Graduation rates.
7. Participation in advanced courses.
8. Attendance rates.
9. Participation in extracurricular activities.
10. Other indicators of college and career readiness.

Student Placement and Grading

Students will be screened and assessed for designation as EL using the Home Language Survey and English Learner Identification Procedure. The school will determine a student's appropriate instructional placement, based on the student's English language and native language proficiency, in accordance with the LIEP.

Students with disabilities and gifted students will be provided with appropriate ELD instruction in accordance with their Individualized Education Program (IEP)/Gifted Individualized Education Plan (GIEP) and state and federal laws and regulations. The school will ensure that the IEP/GIEP team for an EL student includes an ESL professional familiar with the student's language needs. The school will follow the state requirements and guidelines for IEP/GIEP development, academic programming and assessments for students with disabilities and gifted students who are also identified as EL students.

Grading –

EL students will be graded within the same grading system for core content courses that is used for all school students.

The school will grade EL students in ELD specific courses or instructional periods with a grading system that clearly demonstrates progress or achievement.

The school will communicate an EL student's progress in English language proficiency to parents/guardians at least annually. Communication to parents/guardians regarding an EL student's ELD instruction and English language proficiency will be provided as part of the student's report card/progress report, through special communication, and shall be in the language and mode of communication preferred by the parents/guardians.

A student's designation as EL and any ELD instruction information will not be included on a student's high school transcript, unless the information is part of a course title or code.

Retention –

EL students will not be retained in a grade based solely on their lack of English proficiency.

Prior to considering retention, the school will implement and document appropriate modifications and accommodations to instruction and assessment aligned to the student's English language proficiency over time, to ensure the EL student is provided meaningful access to the general curriculum and academic standards, as well as attainment of English language proficiency.

Equal Access

The school will ensure that all EL students have access to and are encouraged to participate in all educational and extracurricular programs available to school students, including but not limited to, career and technical programs, extracurricular activities and interscholastic athletics.

- STEP 3: If the student has an IEP or is suspected of having a disability (e.g. the parent states that the student has a disability), then see [Appendix A](#) before proceeding.**

Review the information on the family interview. **Review of the family interview must be conducted by an ESL professional.** If the information from the family interview indicates that English is not the student's native language or that exposure to another language may have had a significant impact on the student's English language development, **proceed to STEP 4.**

- STEP 4:** Conduct a review of the student's academic records from previous schooling if available. Look for evidence that the student has sufficient English proficiency to benefit from instruction in English without specialized supports or accommodations. Acceptable evidence might include scores from standardized summative or interim tests in English, passing grades for core content classes conducted in English, and/or work samples. If the academic records are not available, or they do not contain reasonable evidence of English proficiency, then **proceed to STEP 5.**

NOTE: A student who has ACCESS scores from the previous school year indicating that he/she is an EL should still be screened to determine their current proficiency level. If the student exceeds the cut-off on the screener, then the school should identify the student as monitor year one. In this case, there is no need to continue with the identification process.

- **STEP 5:** Screen the student for English language proficiency using the KW-APT, K MODEL, WIDA screener (online or paper), or WIDA MODEL screener. Record the screening scores below.

Listening PL	Speaking PL	Reading PL	Writing PL	Literacy CPL	Oral CPL	Overall CPL

KW-APT only

Listening and Speaking raw score	Reading raw score	Writing raw score

If the student's scores meet the criteria for identification as an EL on the following table, then **proceed to STEP 6**. If not, then the student is not an EL and you do not need to proceed.

Grade Level	Screener	Criteria for identification as an EL
Kindergarten	KW-APT	Raw score for oral language of 19 or lower OR Between 20-24 inclusive AND reading ≤ 6 OR writing score ≤ 4 <i>See kindergarten identification and placement process flowchart in Appendix B</i>
Kindergarten	K MODEL	<i>1st semester K: Assess all 4 domains</i> Oral language composite below 5.0 (<i>Use literacy scores for instructional plans</i>) <i>2nd semester K: Assess all 4 domains</i> Overall composite proficiency level below 5.0 AND Literacy Composite below 4.2
1-12	WIDA Screener	Overall composite proficiency level below 5.0
1-12	MODEL Screener	Overall composite proficiency level below 5.0

NOTE: If a student is unable to complete the full screener (e.g. because of a disability or refusal), then the determination of EL status must be made based on the remaining available evidence gathered from the HLS, parent interview, and academic records review. If reasonable evidence of English proficiency cannot be established based on those sources along with the incomplete screener results, if any, then the student should be identified as an EL.

- **STEP 6: OPTIONAL** - Screen the student for native language proficiency if a screening instrument is available. Record the score(s). If no screening instrument is available, then **proceed to STEP 7**.

Name of screener	Score(s)	Score descriptor

- **STEP 7:** Determine if the student has **limited or interrupted formal education (LIFE)** using the criteria below:
 - Is enrolling after grade two, AND
 - Has a Literacy score of less than 3.5 on the W-APT, MODEL Screener, or WIDA Screener, AND
 - Has at least two fewer years of age appropriate schooling than peers **or** has disenrolled from U.S. schools to enroll in schools in other countries (including Puerto Rico) more than two times in the past four years, AND
 - Has limited encoding/decoding skills in native language (as indicated by family interview and/or native language measures and/or review of academic records and/or local measures)

Does this student have limited or interrupted formal education?
 YES NO

Proceed to STEP 8.

- **STEP 8:** Determine the most appropriate language instruction educational program (LIEP) based on the student’s English language proficiency and native language proficiency if available.

NOTE: If the student has an IEP, then EL and Special Education personnel MUST collaborate to determine program and academic placement.

Program Placement: [Click here to enter text.](#)

Proceed to STEP 9.

- **STEP 9:** Provide parent with a detailed program description and explain identification and placement decision. Parent has the right to refuse placement in a specialized, separate LIEP. See [PDE guidance concerning parental right to refuse services](#). **Proceed to STEP 10.**

- **STEP 10:** Parent accepts or refuses placement in part or in whole in the LIEP. If, after the school notifies the parent of their option to refuse specialized LIEP services, the parent does not respond, then the school may proceed with the recommended program placement. **Proceed to STEP 11.**
- **STEP 11:** Notify receiving school of student identification and placement. **Proceed to STEP 12.**
- **STEP 12:** Initiate an active service record in the school SIS. If the student has limited or interrupted formal education, then ensure that LIFE is identified. **Proceed to STEP 13.**
- **STEP 13:** Schedule student based on program placement and English language proficiency.

NOTE: The school is responsible for ensuring that all teachers with whom ELs are scheduled have English language proficiency information for their ELs. *This includes general education teachers.*

The procedure is complete. Attach HLS form and parent refusal acknowledgement form (if completed) to this form and file in student's record. Copies of this form should be given to ESL and general education teachers who will be working with this student.

Appendix A

Student who have or are suspected of having a disability

If a student arrives with an IEP or is suspected of having a disability (i.e. parent informs enrollment personnel that the student has a disability), then enrollment personnel must coordinate with Special Education staff to complete this procedure.

If the student arrives with an IEP:

Screening, if required, must be completed with appropriate accommodations and the test results must be interpreted in consultation with Special Education personnel.

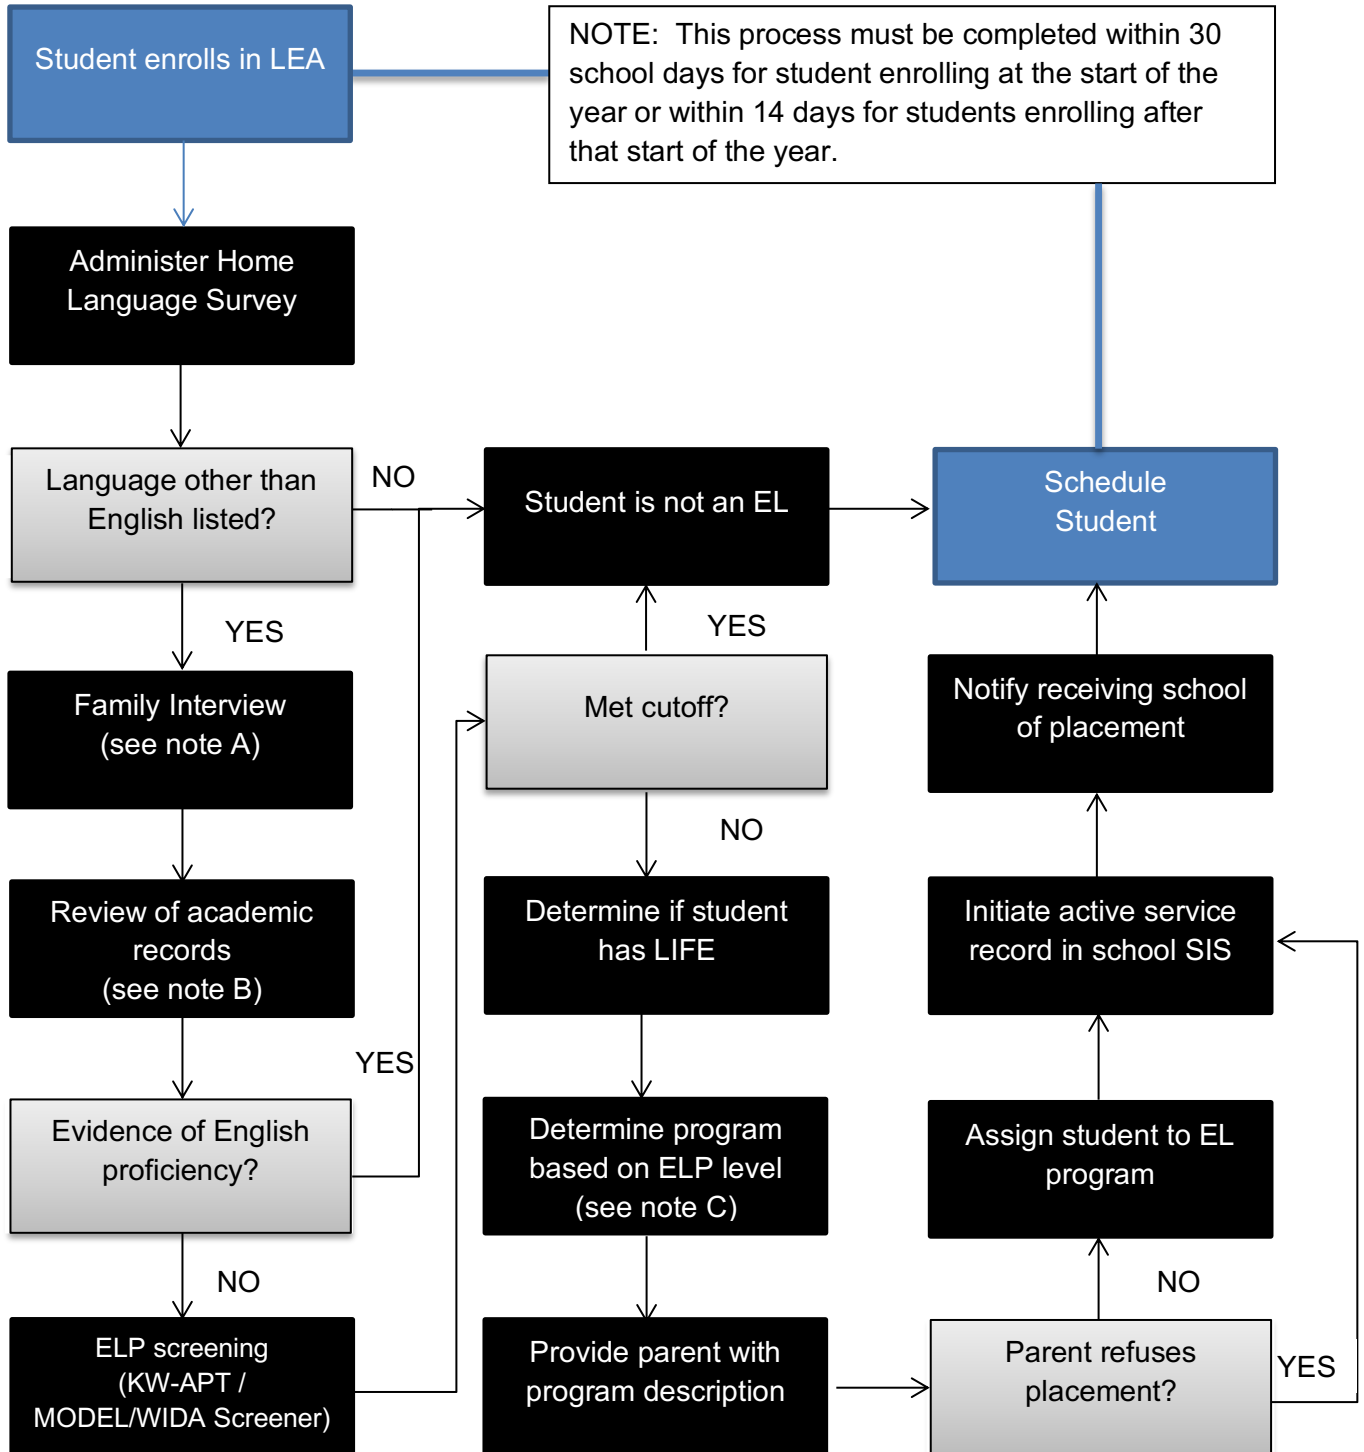

If the student is suspected of having a disability but a determination cannot be made prior to completing this procedure:

Screening, if required, must be completed with any administrative considerations, universal tools, or accommodations that the ESL/SPED educators deem necessary. This procedure must be completed in accordance with the outlined guidelines and the student must be placed in the appropriate language instruction educational program (LIEP) based on the information available at the conclusion of the identification procedure.

If, after the student is placed in the LIEP, the student is determined to have a disability that may have affected the screening (e.g. requires a testing accommodation that was not offered), then the student must be re-screened using the appropriate accommodations. If the student does not meet the criteria for identification as an EL based on this subsequent testing, then the school must contact PDE to remove the EL identifier and the student should be removed from the LIEP.

Appendix B

English Learner (EL) Identification Procedure Flowchart

Note A:

A student who comes from an environment where English is not the dominant language or who has been exposed to another language (HLS indicates other languages) is not necessarily an EL and does not necessarily need to be screened for English language proficiency if there is compelling evidence suggesting that the student is proficient in English. Parent permission to screen for language proficiency is **NOT** required; however, a parent interview must be conducted prior to screening. The parent interview should be standardized to some degree (see parent interview on pages 1 and 2) and the information gathered should be filed with the student's other enrollment documentation. The parent interview can serve to determine whether or not to screen a potential EL. If the evidence gathered during the parent interview is indeterminate, then an academic records review may be used to indicate English proficiency and preclude screening.

Note B:

If after the parent interview it is unclear whether or not a student should be screened for English proficiency, then a thorough review of any available academic records should be conducted to find evidence of English language proficiency. Some examples of this type of evidence are:

- Transcripts from previously attended U.S. schools with passing grades in core content classes
- Statewide assessment results from previously attended U.S. schools indicating English proficiency (may be from other states)
- School assessment results from previously attended U.S. schools indicating English proficiency (may be from other states)
- Notes and/or other less formal indicators regarding language proficiency contained in the student's academic records

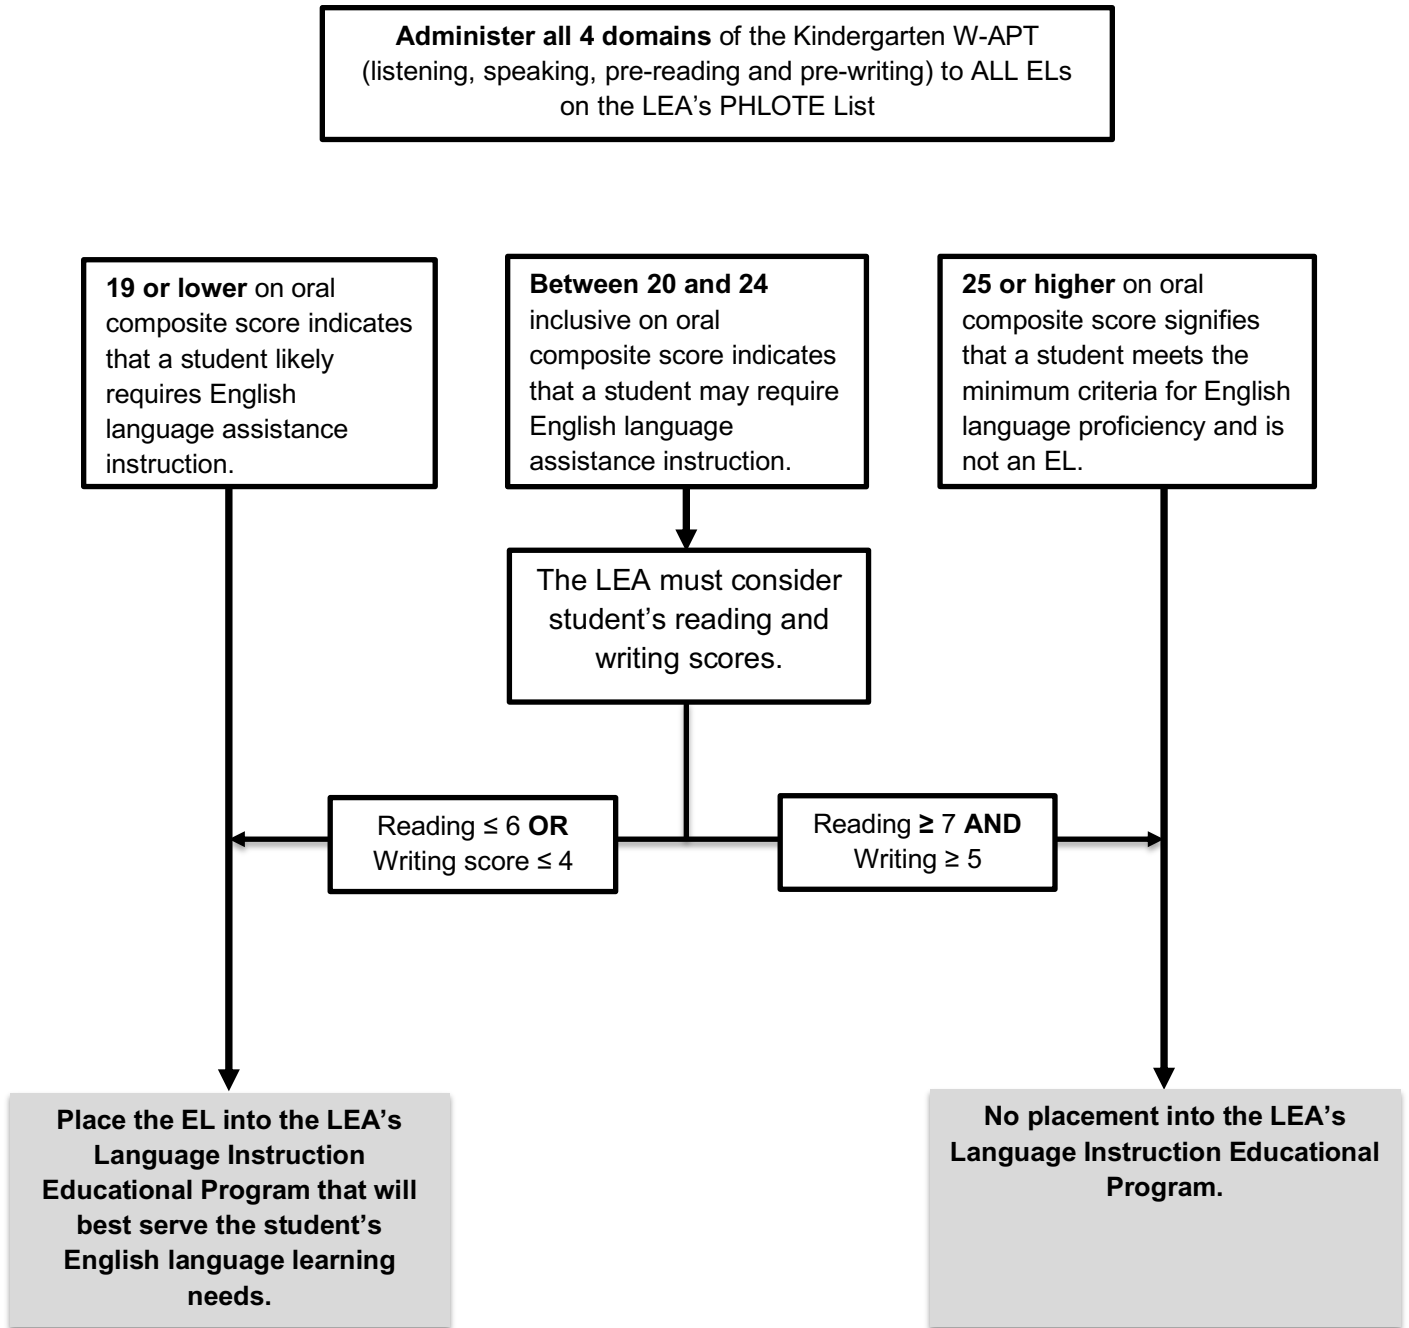

Note C:

If the student has an IEP, then EL and Special Education personnel **MUST** collaborate to determine program and academic placement.

As required by federal law, your child has taken an English language proficiency test to determine if s/he qualifies for English Language Development (ELD) instruction in order to comprehend daily lessons and participate socially in school. Your child has been tested in English reading, writing, speaking and listening. The test scores indicate that they are eligible to receive ELD instruction in a program designed to help students acquire English language proficiency and access grade level content instruction.

Parental Right to Refuse ELD Services: The school has described in detail the ELD program they recommend for my child. I have considered the program(s) offered by the school and have chosen to decline separate, specialized ELD instruction for my child. Specialized services or classes are those provided only for English Learners (ELs), for example ELD pull-out classes, ESL tutoring, after-school English tutoring for ELs or content classes consisting of only ELs. This does not include a class composed of ELs and non-ELs in which ELD is supported through content instruction. By checking (✓) each item below, I acknowledge that I have read and understand each statement.

- I am aware of my child's English language assessment score and other information about my child's current academic progress, and understand why they were recommended for additional English language instruction.
- My decision to decline or opt-out of specialized ELD instruction is voluntary.
- The school will report my child to the Pennsylvania Department of Education as an English Learner (EL) until my child attains English proficiency.
- Federal law requires that my child will be tested annually with the WIDA ACCESS for ELs 2.0 until they attain English proficiency and is no longer considered EL status.
- The school will monitor my child's academic progress without benefit of receiving specialized ELD instruction until my child attains English proficiency, and four years after exit from EL status.
- The school will continue to inform me of my child's progress in attaining English proficiency.

- I can change my preference at any time by notifying the school in writing, and allow my child to enroll in the ELD program(s) offered by the school.

I, _____ (parent/guardian name)
with a full understanding of the above information, wish to:

- Decline **all** of the specialized ELD programs and services offered to my child.
- Decline **some** of the ELD programs and/or particular ELD services offered to my child.

State required Reclassification, Monitoring, and Re-designation of English Learners (ELs)

State required reclassification criteria

Districts must employ uniform procedures in accordance with state requirements for reclassifying English learners (ELs) as former ELs (FELs) when they attain proficiency. This document outlines the procedure and rules for doing so.

An EL must demonstrate the ability to access challenging academic content and interact with other students and teachers both academically and socially in an English language setting in order to be considered for reclassification. Evidence of this ability is demonstrated by the student on the annual English language proficiency assessment, ACCESS for ELLs®, and gathered by teachers using standardized language use inventories (Appendix A).

Using the following system, the ACCESS for ELLs® and the language use inventory together produce a single score. If that score exceeds the state-defined threshold, then the student is eligible to be reclassified.

See Appendix D for a sample reclassification cover sheet. Districts are free to develop their own form of documenting the reclassification decision for ELs, but it must, at a minimum, include the information contained on the sample form.

Two language use inventories must be completed. An ESL teacher must complete one of the inventories when possible. The other inventory may be completed by a single content teacher or a team of content teachers. In cases in which an ESL teacher cannot complete an inventory (e.g. students whose parents have refused services and who are not seen by an ESL teacher or ELs in higher proficiency levels who do not work with an ESL teacher regularly), both inventories may be completed by content teachers or teams of teachers. If only one teacher can accurately complete the inventory (e.g. elementary classes in which the classroom teacher is ESL certified and provides both content and language instruction and there is no other teacher or administrator who can accurately complete the inventory), one inventory may be completed and the single score is multiplied by two. **The two inventories do not need to agree.**

The language use inventories must be completed prior to the release of ACCESS scores each year for students who, based on teacher input and previous ACCESS scores, are likely to reach the threshold. Once ACCESS scores are released, the points are added to the points from the rubrics to determine if students are eligible to be reclassified.

NOTE: In some cases, students who were not identified as likely to reach the ACCESS score threshold and for whom no language use inventories were completed will unexpectedly achieve a score exceeding the threshold. Language use inventories may be completed after ACCESS scores are released in these limited cases, but they must be completed prior to October 1 of the following school year.

The reclassification window begins when ACCESS scores are published and ends on October 1 of the following school year. Although language use inventories must be completed as part of the reclassification decision-making and evidence-gathering process prior to the opening of the window, no changes to a student's status can be made in local data systems or in PIMS between October 1 and the date on which the district receives ACCESS scores each year.

Districts must develop local plans for how to:

- select content teachers who will complete the inventories
- manage the decision-making/reporting process using this procedure and these criteria
- train staff to use the rubrics and evaluate the students' language use
- hold teachers accountable for completing the inventories
- select students for whom inventories will be completed in anticipation of qualifying ACCESS scores

Each language use inventory produces a single score and the sum of the two inventory scores is added to the ACCESS for ELLs® *points assigned* to determine if the student meets the minimum threshold for reclassification.

The following tables display the points possible from the ACCESS for ELLs® and the language use inventories:

ACCESS Proficiency Level Score	Points Assigned
4.5-4.7	3.6
4.8-5.0	4.5
5.1-5.3	5.8

Total possible points from both inventories 7.6
Total Possible Points from all components: 16

Threshold for reclassification: 10.5

When this reclassification score is equal to or greater than the cutoff, then a student *should* be reclassified. However, if there is compelling evidence to suggest that a student should remain identified as an EL when his/her score exceeds the cutoff, and this evidence is documented along with the ACCESS for ELLs® score report and language use inventory forms, then the EL status may be retained.

ELs with Disabilities - taking the ACCESS for ELLs®

An EL with a disability who has not met the criteria outlined above may be considered for reclassification if:

1. The student has an IEP, **AND**
2. The student has been continuously enrolled in an LIEP for at least four years, **AND**
3. The student's overall composite proficiency level score on the ACCESS for ELLs® has not increased by more than 10% between any two years or total over the three most recent testing cycles, **AND**
4. The school has documented evidence* that the student has been provided with the appropriate level of language support, including ELD instruction, throughout his/her enrollment in the LIEP, **AND**
5. A school-based team recommends reclassification. *See below for team composition and recommendation protocol.*

* Documented evidence can include schedules indicating ELD instructional times, specific language supports used, ELD curriculum indicating areas of language instruction covered, language use evaluations based on WIDA rubrics or PA reclassification rubrics, modifications made to assessments, IEP addressing ELD instruction or language needs, etc.

To calculate the percent difference between scores, use the following formula:

$$\Delta \text{OCPL} / \text{OCPL1} (100) = \% \text{ change}$$

Δ OCPL: *Difference between the overall composite proficiency level from year one and year two, year two and year three, or year one and year three*

OCPL1: *overall composite proficiency level from the first of the two years being compared*

For example, the percent difference between a score of 4.3 and 4.5 is $(.2/4.3)*100$, which is 4.65%.

School-based team composition and recommendation protocol:

The following individuals must be included on the team that considers the body of evidence and determines whether to reclassify an EL with a disability:

- At least one expert on the student's English language acquisition
- At least one expert on the student's special education goals and services
- At least one expert on the student's general education content achievement
- At least one family member (and any requisite interpreters/cultural liaisons)
- Any related service providers who work with the student

A single team member may fill more than one of the roles identified above.

High Priority Evidence to consider:

- Standardized or curriculum-based assessments special education teachers and related service providers use to monitor students' progress towards IEP goals that are relevant to developing English language proficiency
- Classroom observations of students' language use
- Language samples demonstrating listening, speaking, reading, and writing skills
- Student work samples or portfolios
- Teacher input on students' English language development progress
- Family input on students' language development and use at home
- Data related to how the student was initially identified as an EL
- Review of English learner services across the most recent four years to ensure the student has received adequate English language development instruction and language support for content learning during that time

Evidence to consider if available:

- Assessments that evaluate students' proficiency in their home/primary language
- Language use inventories
- Comparable data from similar EL peer group (other ELs with similar profiles)

Questions that must be addressed by the team:

1. Has the student received adequate ELD instruction and language supports commensurate with his/her ELP level for the most recent four years?
2. Is this student able to effectively communicate in English?
3. Is the EL making progress toward meeting PA Core Standards in listening, speaking, reading, and writing on par with ELs who have similar profiles?
4. Are any ACCESS for ELLs domain scores that affect the student's ability to reach an overall composite proficiency level of 4.5 directly related to the student's disability?

If the answer to any of these questions is 'no', then the team must carefully consider the student's continued participation in the LIEP until such time that the student will no longer benefit from continued specialized English language development instruction and supports.

See Appendix E for a sample reclassification cover sheet. Districts are free to develop their own form of documenting the reclassification decision for ELs with disabilities, but it must at a minimum include the names of the team members involved, the evidence that was analyzed, the student's current ACCESS scores, and answers to the four questions above. The form should be filed with the student's permanent record.

ELs with Disabilities (taking the Alternate ACCESS for ELLs®)

ELs who are eligible for and take the Alternate ACCESS for ELLs® may be considered for reclassification when:

1. they achieve a score of at least P2 on two consecutive administrations of the test **OR** achieve the same score for three consecutive administrations of the test, **AND**
2. the IEP team, with input from an ESL/bilingual education professional, recommends reclassification.

*for students who cannot complete all four domains of the test as a direct documented result of their disability, a proficiency level can be calculated with fewer than all four domains by using the tool provided on the Reclassification, Monitoring, and Redesignation of ELs webpage.

Although language use inventories are not required for ELs with disabilities as part of the reclassification process, teachers should consider completing them in cases where it is appropriate as a way to document language proficiency at the time of reclassification and for future reference if needed.

For more detailed guidance related to ELs with disabilities, please see the guidance contained on the Bureau of Special Education website at www.pattan.net.

Monitoring of former ELs

Districts must include in their LIEP uniform procedures in accordance with state requirements for actively monitoring the progress of former ELs (FELs) for a period of two years after reclassification and reporting FELs to the state for an additional two years (total of four years of monitoring status).

Active Monitoring Period – first two years after reclassification

Districts must ensure that ELs in the first two years after reclassification do not struggle academically as a result of persistent language barriers. In order to do this, districts must develop and implement a process for actively monitoring students' progress and achievement in the general academic program delivered without specialized, planned language supports.

Districts are free to create their own process, but it must, at a minimum, include tracking student progress in all core academic classes and soliciting feedback from core academic teachers periodically throughout the school year with sufficient frequency to preclude a student falling significantly behind.

Additional monitoring period – third and fourth years after reclassification

Districts are required to continue reporting FELs to the state in PIMS for an additional two years after the active monitoring period. Districts are not required to actively monitor the progress and academic achievement of ELs in the general education program during these years. At the end of the fourth year after reclassification, ELs are coded as *Former ELs – no longer monitored* for the remainder of their time in school.

Re-designating former ELs

If it is determined during the active monitoring phase that an EL is struggling academically as a result of persistent language barriers, then the district must have plans in place to re-designate that former EL as an active EL and re-enroll him/her in the LIEP. The district must demonstrate that the FEL is struggling as a result of persistent language acquisition needs and not academic needs, which require academic supports and/or interventions.

FELs who have been re-designated as active ELs must meet the state-required criteria to be reclassified as FELs. In cases such as these, the monitoring process starts over from year 1 upon the second reclassification.

Book	Policy Manual
Section	2000 Students
Title	Enrollment of Students
Code	2000-AR-1
Status	Active
Adopted	September 8, 2020

Students are considered school age and are entitled to attend school from the time they are admitted to a public school until graduation from high school or the end of the school year in which they turn age twenty-one (21).

When a student of 6th grade is presented to school for enrollment, school staff will require the following documentation:

1. Proof of the student's age – acceptable documentation includes one (1) of the following: birth certificate; baptismal certificate; transcript of the record of baptism duly certified and showing the date of birth; notarized statement from the parents/guardians indicating date of birth; a valid passport; or a prior school record indicating the date of birth.
2. Immunization record with dates or assurance from the former school district or a medical office that the required immunizations have been completed or a required series has begun, with a record to be sent. Written statements are required for religious and medical exemptions.
3. Proof of residency – acceptable documentation includes two (2) of the following: PA driver's license or identification card; PA vehicle registration; deed; mortgage agreement; rent payment receipts or lease; property tax payment receipts; utility bill with current address; paycheck stub with employer and employee's address; and current voter registration.
4. Parental Registration Statement attesting to whether the student has been or is suspended or expelled for offenses involving drugs or alcohol, weapons or violence as required by the Pennsylvania School Code.

School staff may ask for any of the following information, in addition to the required documentation, but will not require it as a condition of enrollment and will not delay a student's enrollment or attendance until the document(s) is provided:

1. Picture identification.
2. Health or physical examination records.
3. Academic records.
4. Attendance records.
5. Individualized Education Program or other special education records.

6. Registration form.

School staff will not request any of the following information to verify enrollment or residency:

1. Social security number.
2. Reason for a student's placement if not living with natural parent.
3. Visa of student or parent.
4. Student's immigration status.
5. Agency records.
6. Court order or records relating to a dependency proceeding, except in limited circumstances that occur when a custody order, agreement or dependency is being relied upon as the basis for enrollment.

School staff will consider what residency verification is reasonable in light of a family's situation and should be flexible.

The school will normally enroll a school age, eligible student the next business day, but no later than five (5) business days after application.

Upon enrollment of a student, school staff will contact the student's former school for a copy of the student's education records and disciplinary record, if any. If the school is within Pennsylvania, the disciplinary record should be sent within ten (10) business days.

The school cannot deny or delay a student's enrollment based on the information contained in a disciplinary record or sworn statement. However, the school can provide alternative education services during the period of expulsion for a student currently expelled for a weapons offense. If a student has been expelled from the previous school for reasons other than a weapons offense, the school will review the student's prior performance and school record to determine the services and supports that will be provided upon enrollment in the school.

Health records must be transferred from all public and private schools, upon the request of the principal or designee.

The school will administer the home language survey to all students enrolling in the school for the first time.

The principal will report to the CEO or designee the name of any student attempting to enroll who does not present the required documentation.

Students Enrolling Without Previous School Records

If a student is presented for enrollment without previous school records or if a private school withholds an enrolling student's records, the principal may seek and accept information for student placement that appears reliable as proof of successfully completed coursework, such as report cards and sworn affidavits of previous school teachers.

If reliable information cannot be obtained, the principal, in consultation with the appropriate staff, will promptly evaluate the student and determine the appropriate grade and/or courses for that student. The evaluation will consist of an interview and demonstration of the degree to which the student has achieved the academic standards established by the Board for students.

The student and parents/guardians will be informed in writing of the results of the evaluation and the student's placement. The Board's adopted policy and planned instruction will be the criteria used by the school to determine a student's attainment of academic standards for high school graduation.

Change of Address

When a student or parent/guardian notifies the school of a change of address, the parent/guardian will be required to show proof of residence to the school.

A new student registration form will be filled out with the student's name, date of birth, new address, telephone number, school attending and grade.

The documentation accepted as proof should be noted on the registration form, and a copy of the document retained.

Enrollment Complaints

When a dispute arises regarding enrollment of a student, the individual attempting to enroll the student may file a complaint by mail, email or telephone with the CEO, Business Administrator or Student Support Manager.

The individual or the school may send written follow-up to the Department of Education, School Services Unit.

Universal Change ("21CCCS" to "the Charter School")

The Board of Trustees of 21st Cyber Charter School ("Charter School") recognizes that its enrollment policy must reflect current requirements of the Pennsylvania Public School Code and 22 Pa. Code, Chapter 11, the Pennsylvania Charter school Law at 24 P.S. §17-1723-A, Pennsylvania Public School Code, and Pennsylvania Department of Education's ("PDE") Basic Education Circulars on Enrollment of Students and Charter School Law. Therefore, the Charter School, as a public charter school, complies with these enrollment procedures to ensure that both resident and eligible non-residents are promptly enrolled through the policy provisions set forth below.

Every child of school age who is a resident of a Pennsylvania school district is entitled to a public school education. Resident students include those residing with their parent(s) and eligible non-resident students living with a Pennsylvania school district resident who is supporting the child gratis and non-resident children living in facilities or institutions and seeking enrollment. Once the required enrollment documentation described below is provided, the Charter School must enroll children and permit them to attend school. A child should be permitted to attend school on the next school day after the day on which the child is presented for enrollment, and in all cases within five (5) business days of the Charter School's receipt of the required documents.

Except when a child is homeless, whenever a child of school age is presented for enrollment by a parent(s), a Pennsylvania school district resident, or any other person having charge or care of the child, the Charter School shall require that the following information be documented before enrolling the child and allowing the child to attend school:

1. Proof of the child's age

Any one of the following constitutes acceptable documentation: birth certificate; notarized copy of birth certificate; baptismal certificate; copy of the record of baptism – notarized or duly certified and showing the date of birth; notarized statement from the parents or another relative indicating the date of birth; a valid passport; a prior school record indicating the date of birth.

2. Immunizations required by law

Acceptable documentation includes: either the child's immunization record, a written statement from the former school district or from a medical office that the required immunizations have been administered, or that a required series is in progress, or verbal assurances from the former school district or a medical office that the required immunizations have been completed, with records to follow.

3. Proof of Residency

Acceptable documentation includes: a deed, a lease, current utility bill, current credit card bill, property tax bill, vehicle registration, driver's license, or Department of Transportation identification card. While more than one form of residency confirmation may be required, the Charter School should be flexible in verifying residency, and should consider what information is reasonable in light of the family's situation. See the paragraph on Homeless Students for guidance in that situation. (Also see Residency Affidavit.) Parents/Guardians must continue to provide the Charter School with residency information after enrollment when residency changes or may be questioned to ensure that Parents/Guardians comply with applicable residency requirements as Pennsylvania residents and/or if student becomes a resident of a school district other than the one when originally enrolled.

4. Parent Registration Statement

A sworn statement attesting to whether the student has been or is suspended or expelled for offenses involving drugs, alcohol, weapons, infliction of injury or violence on school property must be provided for a student to be admitted to any school entity. The Charter School may not deny or delay a child's school enrollment based on the information contained in a disciplinary record or sworn statement.

During the enrollment process and prior to admission to a charter school, the parent, guardian, or person having control of a student shall provide a sworn statement stating whether the student was previously or is presently suspended or expelled from any public or private school for any offense involving weapons, alcohol or drugs, or for the willful infliction of injury to another person or for any act of violence committed on school property. The school from which the student was suspended or expelled and the dates of suspension or expulsion must be provided. Any willful false statements shall be a misdemeanor of the third degree.

5. Home Language Survey

All students seeking first time enrollment in a school shall be given a home language survey in accordance with requirements of the U.S. Department of Education's Office for Civil Rights.

Enrollment of the student may not be delayed in order to administer the Home Language Survey.

Act 110 Requirement

In Pennsylvania, K-12 public schools are required to remove, transfer or reassign students who are adjudicated delinquent or convicted of sexual assault when the offending student and the victim are enrolled in the same school. With regard to enrollment of students, this amended section of the Public School Code requires:

(g) Prior to admission to a public school entity, the parent, guardian or other person having control or charge of a student shall, upon registration, provide a sworn statement or affirmation stating whether the student was previously or is presently expelled under the provisions of this section. The registration shall include the name of the school from which the student was expelled with the dates of expulsion and shall be maintained as part of the student's disciplinary record. Any willful false statement made under this subsection shall be subject to 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities). See Act 110 Statement below.

Sexual assault includes any of the offenses specified under the following provisions of 18 Pa.C.S. (relating to crimes and offenses) relating to rape, statutory sexual assault, involuntary deviate sexual intercourse, sexual assault, aggravated indecent assault, and indecent assault.

Documents Which May Be Requested But Not as a Condition of Enrollment - Items Which May Be Requested

Although the Charter School may ask for any of the information below, Charter School may not require it as a condition of enrolling or admitting a child and a child's enrollment or attendance may not be delayed until these documents are provided. Among the documents that Charter School may request are: picture identification, health or physical examination records, academic records, attendance records, Individualized Education Program, and other special education records. In addition, the school may not require that a physical examination be conducted as a condition of enrollment.

Registration Form

A registration form, filled out by families for student enrollment, may include the following: name, address, telephone number, name of parent(s) or guardian(s) or resident adult(s) with whom the student is living, emergency contact information, former school information, and other locally required information. Failure to complete this form will not be made a condition of the student's enrollment.

Documentation Required From Other Sources

The Charter School is also entitled by law to receive information on an enrolling student from the previous school, public, charter, nonpublic or private, which the student attended. However, the provision of this information rests with the educational entity and not the family, and so, the Charter School, as the receiving local educational agency, will not require this information as a precondition to enrollment and will not delay a student's admission for lack of this information.

Student Education Records

Upon enrollment, the Charter School contacts the student's former school for a copy of the student's education records. The former school district or charter school, if within this Commonwealth, is required to respond by forwarding the records within ten (10) business days of the date upon which a student's records are requested by Charter School. School districts shall enroll students within five (5) business days regardless of receipt of records from the previous districts.

Disciplinary Records

Whenever a pupil transfers to another Pennsylvania school entity or nonpublic school, a certified copy of the student's disciplinary record shall be transmitted to the school entity or nonpublic school to which the pupil has transferred. The school entity or nonpublic school to which the student has transferred should request the record. The sending school entity or nonpublic school shall have ten (10) days from receipt of the request to supply a certified copy of the student's disciplinary record. Failure to receive the student's discipline record cannot be used to deny or delay the student's enrollment or school attendance.

Prohibited Requests - Items which May Not Be Requested

For both enrollment and also for residency determinations, the Charter School will not request or require any of the following: a social security number; the reason for a child's placement if not living with natural parents; a child's or parent's visa; agency records; or, except in the limited circumstances described in the next section, a court order or records relating to a dependency proceeding. A child's right to be admitted to school may not be conditioned on the child's immigration status. The Charter School will not inquire as to the immigration status of a student as part of the admissions process.

Student Classifications for Education Entitlement

- Resident Students and Court Orders or Custody Agreements
The Charter School may require a parent/guardian to provide a custody or dependency order when the child is being enrolled at the Charter School pursuant to parent relying on court order or custody agreement as the basis of enrollment. The Charter School will not require a custody order or agreement as a condition of enrollment in any circumstances other than the circumstance specified above. (See attached Affidavit of Custody).

- **Students Living With a Resident Adult other than a Parent**
When a child is living with an adult other than a parent, who is supporting the child without personal compensation, (gratis) the child may attend the public schools of that adult's school district, provided that resident makes application and supplies the required enrollment information noted in the section entitled Required Enrollment Documentation. In addition, before accepting the child as a student, the Charter School shall require the resident to file **only one** of the following:

1. A sworn and notarized statement from the resident of the school district indicating that the signer is a resident of the school district, is supporting the child without receiving personal compensation, that the child is living with the resident continuously and not just for the school year, and that the resident will accept all responsibilities relating to the child's schooling (See Charter School Enrollment Forms), **or**
2. Appropriate legal documentation to show dependency or guardianship, which may include a custody order. The Charter School may require other information to be submitted by the resident to substantiate the sworn statement. The natural parent(s) or former guardian(s) of the student may not be required to provide information. Once the requested information is provided, the Charter School will enroll the child and permit them to begin to attend school without delay, but in no case more than 5 days.

A resident's receipt of payments, such as Supplemental Security Income (SSI), Transitional Assistance for Needy Families (TANF), pre-adoptive or adoptive support, maintenance on public or private health insurance, support from the military or military personnel or other payments for or on account of the child such as child support, shall not be deemed to be personal compensation or gain.

- **Foster Children**
Students who are "awaiting foster care placement" are no longer considered homeless for purposes of the McKinney-Vento Education for Homeless Children and Youth ("EHCY") program. The deletion of "awaiting foster care placement" went into effect on December 10, 2016. (Section 725(2)(B)(i)).
- **Nonresident Children Living in Facilities or Institutions**
A child living in a district in which there is located a licensed shelter, group home, maternity home, residence, facility, orphanage or other institution for the care or training of children or adolescents, shall be admitted to that district's schools if living at or assigned to the facility or institution. If the school district or residence of a child living at or assigned to a facility or institution cannot be determined, but the child is determined to be a resident of the Commonwealth, the child shall be permitted to attend the public schools of the district. This includes a child placed by the child's resident parents or guardians at a facility or institution and subsequently abandoned or deserted.
- **Emancipated Minors**
An emancipated minor is a student under the age of 21 who has established a domicile apart from the continued control and support of parents or guardians or who is living with a spouse. The school district in which this student is living is their resident school district and the student may enroll at Charter School without any additional assistance from an adult.
- **Homeless Students**
The Charter School will ensure that each child of a homeless individual and each homeless youth have equal access to the same free, appropriate public education, including a public preschool education, as provided to other children and youth. Homeless students may reside in shelters, hotels, motels, cars, tents or be temporarily doubled-up with a resident family because of lack of housing. In the case of homeless students, traditional concepts of "residence" and "domicile" do not apply. Homeless children and youth lack a fixed, regular, and adequate nighttime residence. Included within the definition of homeless children and youth are those who meet the definition of "unaccompanied homeless youth" pursuant to the McKinney-Vento Homeless Assistance Act (42 U.S.C. §11431 *et seq.*)

Unaccompanied homeless youth may enroll without documents and without the help of an adult. Unaccompanied homeless youth includes any child who is "not in the physical custody of a parent or guardian." Falling within this definition are students who have run away from home, been thrown out of their home, or been abandoned or separated from their parents or guardians.

Youth awaiting foster care placement include those who are placed in emergency, interim or respite foster care; kinship care; evaluation or diagnostic centers or placements for the sole purpose of evaluation. When necessary, Charter School administration will consult with the respective county children and youth agencies to determine if a child meets the definition of "awaiting foster care placement", including, on a case-by-case basis, whether a child who does not clearly fall into one of these categories is nevertheless a child "awaiting foster care placement."

Homeless youth are entitled to immediate enrollments and their families are not required to prove residency regarding school enrollment. These students are considered residents of the district where they are presently residing, or continue their education in the district of prior attendance.

- **Pre-Adoptive and Adoptive Students**

The Federal Adoption Assistance Program, among other things, provides for adoption assistance payments to encourage the placement of certain hard-to-place children with adoptive parents. Pennsylvania has adopted companion legislation, known as the Adoption Opportunities Act. Children living with pre-adoptive parents who are receiving adoption assistance subsidies, pre-adoptive foster payments, or other payments such as Supplemental Security Income (SSI) or Transitional Assistance for Needy Families (TANF), are entitled to attend school in the school district in which the pre-adoptive parents reside. Notwithstanding receipt of any of the above payments, children living in pre-adoptive situations are considered residents of the school district in which their pre-adoptive parents reside. Children living with adoptive parents are entitled to all free school privileges accorded to resident school children of the respective school district.

- **School-Age Children of Military Personnel**

When Pennsylvania residents who are military personnel are deployed and their school age children are living with relatives or family friends in a school district for that period of time, the students are entitled to attend school in the school district in which they are residing.

Other Issues Related to Enrollment

- **Address Confidentiality Program (ACP)**

Some families may enroll a student using an ACP card which lists a post office box as their address. This is their legal address and Charter School will not require additional information about their residence. School records from the student's former school will be forwarded through the ACP.

- **Age**

Children are considered school age from the time they are admitted to the public school educational program until graduation from high school or the age of 21 if identified pursuant to the Individuals with Disabilities Education Act of 2004. The Charter School will not refuse admission to a child who meets the age requirement. Students who turn 21 during the school term are entitled to finish that school term. If a student is under age 21 and has a Graduation Equivalency Diploma ("GED"), the student can enroll in school and work towards a diploma. For subsidy purposes, students who reach age 21 after the school term begins are eligible to be counted for the entire school term. The Department of Education will accept requests to allow students to be counted in membership for subsidy purposes for an extended school program beyond age 21 if the request includes a hearing officer decision or court order.

- **Children and Families with Limited English Proficiency**

Children and families with limited English proficiency will be provided translation and interpretation services to the extent needed to help the family understand the enrollment process and enroll the student in school promptly per applicable federal law.

- **Twins and Multiple Siblings**

While the Public School Code provision governing twins and multiple siblings is not applicable to charter schools pursuant to the Pennsylvania Charter School Law, the Charter School will use the Public School Code provision for guidance in such situations in conjunction with consultation with the Charter School's legal counsel.

Submitting Enrollment Complaints to the Department Of Education

When a dispute arises regarding enrollment of a student, the person attempting to enroll the child or the Charter School may bring the dispute to the attention of the Department's School Services Unit . A complaint may be filed by mail, email or by phone with written follow up. After receipt of a complaint, a Department representative will contact the Charter School, family or other involved parties to determine the facts, whether the child is entitled to enrollment at the Charter School and to try to resolve the problem. These contacts, whenever possible, will occur within five (5) days of receipt of the complaint. If the complaint is not amicably resolved, a written determination will be made and sent to the Charter School and the individual who filed the complaint.

If Charter School does not enroll the student within five (5) school days after receiving the written determination, the Department will issue a letter to Charter School requesting its position on the situation. Charter School will have five (5) school days to respond to the request. If the Charter School refuses to enroll the student or does not respond, the matter will be forwarded to the Department's Office of Chief Counsel (OCC). The OCC and the Deputy Secretary for Elementary/Secondary Education will determine if the Charter School's response is valid to deny enrollment. If not, the Deputy Secretary will determine what additional measures may be necessary to assure enrollment.

Written Policies

Charter School's written policy on student admission is a public record and will be posted to the school's website.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Resident Students/Court Order/Custody Agreement

A school age student is entitled to be enrolled in the school if their parent(s) or legal guardian(s) reside in the State of Pennsylvania, upon submission of required documents.

When parents reside in different school districts due to separation, divorce or other reasons, the student can be enrolled in the school of the parent with whom the student lives for the majority of time, unless a court order or court-approved custody agreement specifies otherwise.

If parents share joint custody and the student's time is evenly divided between the parents, the parents can choose which of the two (2) school districts the student would have attended for the school year.

If a parent enrolling a student is relying on a court order or custody agreement as the basis for enrollment, school staff will require the parent to provide a copy of the order or agreement.

Students Living With Resident Adult Other Than Parent

When a student lives as a Pennsylvania resident who is supporting the student without personal compensation (gratis), the student can enroll in the school if the resident makes application and provides the required documentation.

In addition to the required documents, school staff will require the resident to provide only one (1) of the following:

1. Legal documentation to show dependency or guardianship.
2. Sworn and notarized statement indicating that the signer is a district resident and is supporting the student without receiving personal compensation, the student is living with them continuously and not just for the school year, and the resident accepts all personal obligations relative to school requirements.

School staff can require the resident to provide additional information before enrolling the student in school. Required documents may include:

1. Copy of completed county form or court order transferring child support payments to resident, if applicable.
2. Copy of completed state form notifying Department of Welfare of child's new residence, if applicable.

3. Copy of lease/rental agreement identifying the student as a tenant, if applicable.

4. Documents to verify residency, as required for all students enrolling in schools.

A resident's receipt of payments, such as Supplemental Security Income (SSI), Transitional Assistance for Needy Families (TANF), pre-adoptive support, child support, maintenance on public or private health insurance, support from the military or military personnel or other payments for or on account of the student will not be considered personal compensation or gain.

School staff will not require the natural parent(s) or former guardian(s) to provide information.

Student/Families With Limited English Proficiency

The school will provide translation and interpretation services to the extent needed to help a family with limited English proficiency understand the enrollment process.

School staff will promptly enroll the student, upon submission of required documents.

School staff will not request social security numbers or immigration status information.

Foster Students

Nonresident students placed in foster care are entitled to the same educational privileges as students residing in Pennsylvania. Nonresident exceptional students placed in foster care are entitled to receive an appropriate program of special education.

In addition to the required documents, school staff will request a letter from the appropriate agency verifying that the student is residing with a foster parent or is in a pre-adoptive or adoptive home. School staff cannot request a court order or agency records.

The school will attempt to enable a foster student moving from one placement to another to remain in the same school or the district when the student is moved to another school attendance area or to another school district, when feasible.

Pre-Adoptive/Adoptive Students

A student living with pre-adoptive parents who receive adoption assistance subsidies or payments is entitled to attend school in the district in which the pre-adoptive parents reside.

A student living with adoptive parents is entitled to attend school in the district in which the adoptive parents reside.

School staff will enroll a student living with adoptive parents or pre-adoptive parents who reside in Pennsylvania, upon submission of required documents.

Students Living In Institutions

If the school district hosts a children's detention home, drug and alcohol treatment center or similar facility, the district is required to provide an education, and special education when appropriate, to nonresident students placed in the institution.

Students placed in a children's institution have the right to attend school if appropriate for the student, upon submission of required documents.

Emancipated Minors

An emancipated minor is a student under the age of twenty-one (21) years who has established a residence apart from their parents/guardians or is living with a spouse.

The school district in which the student is living is the resident district, and the student can enroll without any assistance from an adult, upon submission of required documents.

Homeless Students

Homeless students lack a fixed, regular and adequate nighttime residence and may reside in shelters, hotels, motels, cars, tents, or be temporarily housed with a resident family because of lack of housing. Homeless students include unaccompanied homeless youth and those waiting for foster care placement.

School staff will immediately enroll a homeless student, and the family is not required to prove residency.

School staff will immediately enroll an unaccompanied homeless student without documents and without the help of an adult. An unaccompanied homeless student is any child who is not in the physical custody of a parent/guardian and includes a student who has run away, been thrown out of the home, or been abandoned or separated from a parent/guardian.

A youth awaiting foster care placement includes those placed in emergency, interim or respite foster care; kinship care; evaluation or diagnostic centers or placements for the sole purpose of evaluation. When necessary, prior to enrollment, school staff will consult with the county children and youth agencies to determine if the student meets the definition of awaiting foster care placement.

Children Of Military Personnel

When a student is a child of a Pennsylvania resident who is deployed by the military and the student is living for that time with relatives or family friends residing in Pennsylvania, the student is entitled to attend school, upon submission of required documents.

School staff will presume the district resident is supporting the student gratis, without personal compensation or gain.

Foreign Students With Student Visas

Students with visas of any type must comply with the terms and condition of that visa, including payment of tuition when required.

When a student with a visa requests enrollment in school, the designated administrator will consult with the school solicitor to ensure the school is following the specific requirements of the applicable visa program.

Undocumented Foreign Students

School staff will not ask about the immigration status of a student who is seeking to enroll in the school.

A student whose immigration status is not documented must provide the residency and other documents required for enrollment.

Students Returning From Delinquency Placements

When a student returns to the school from a delinquency placement, school staff cannot automatically place the student in an alternative education program just because they had been adjudicated delinquent.

A student returning from a delinquency placement is entitled to an informal hearing prior to being placed in an alternative education program. The purpose of the hearing is to determine if the student is currently fit to return to the regular classroom or if they meet the definition of a disruptive student. Factors the school will consider include:

1. If the incident causing the adjudication occurred at school or a school-sponsored event.
2. Student's behavior in the placement.
3. Recommendations of teachers and adults, such as the juvenile probation officers, who have worked with the student.

Address Confidentiality Program (ACP)

A family can enroll a student using an Address Confidentiality Program (ACP) that lists a post office box as their address.

School staff will accept this post office box as the legal address and will not require additional information about the residence. All other required documents must be submitted for enrollment.

School records from the former school will be forwarded through the Address Confidentiality Program (ACP).

The ACP can be contacted at 1-800-563-6399 regarding questions about the family's eligibility for enrollment.

Enrollment Complaints

When a dispute arises regarding enrollment of a student, the individual attempting to enroll the student may file a complaint by mail, email or telephone with the CEO, Business Administrator or Student Support Manager.

The individual or the school may send written follow-up to the Department of Education, School Services Unit.

Title	Residency Investigation
Code	2001-AR-5
Status	Active
Adopted	September 8, 2020

The school reserves the right to conduct an investigation to determine if an enrolled student and their parents/guardians reside within the boundaries of the school district.

When a validity of residence question arises, the principal will compile all relevant information and submit the information in writing to the CEO or designee.

The CEO or designee will determine whether or not to conduct further investigation and the nature and scope of the investigation.

The CEO or designee may verify information with other schools, governmental agencies, and other public or private agencies to determine the legitimacy of a claimed residence. The CEO or designee may also conduct a home/school visit and/or contact a private investigator.

If the investigation indicates that the residency is not valid, the CEO or designee will notify the parents/guardians that the student may no longer attend school. The written notice will state that it will become effective within seven (7) days of the date of notice, unless a meeting is requested within that time period with the CEO or designee to review the facts.

If a meeting is requested, it will be held within seven (7) days of the date of request. At the meeting, the basis of the conclusion that the residency is not valid will be reviewed, and any other facts presented will be considered.

Following the meeting, the CEO or designee will notify the parents/guardians in writing of the final determination. If the decision requires disenrollment, it will be effective immediately.

Parents/Guardians who have been determined to have improperly enrolled a child in the school will be billed for tuition costs and investigation costs and may be prosecuted for falsifying information.

All claims of residency will be verified by school staff.

Nonresident students may be denied admission when the educational facilities or instructional program maintained for school student is unable to meet the needs of the applicant.

Continued enrollment of a nonresident student will be contingent upon the student maintaining established standards of academics, attendance and discipline.

A student residing with an adult other than the natural parents will be enrolled following receipt of documents required for enrollment by law and Board policy and one (1) of the following:

1. Verification that the student resides at a federal installation.

School staff will contact the previous school district to obtain the student's transcripts and school records.

Enrollment of the nonresident student will be completed the next school day following receipt of required documentation by the school.

If enrollment of a nonresident student is denied, the parents/guardians will be notified in writing of the reason(s); and submitted records will be returned, upon request.

STUDENTS PLACED IN SCHOOL

Nonresident Children Placed In Resident's Home

Nonresident school age children placed in the home of a Pennsylvania resident by court order or an arrangement with an association, agency or institution having the care of neglected and dependent children, when the resident is compensated for the child's care, will be enrolled in school without tuition.

Before accepting a nonresident school age child for such compensation, the resident guardians must secure from the school's CEO or designee a written statement that the student can or cannot be accommodated in school. If the student cannot be accommodated, the reasons must be given in writing.

Prior to enrollment of the student, the resident must present proof of residence and documentation to comply with all established enrollment requirements, including proof of age, immunizations records and Parent Registration Statement.

At the time of registration, the resident will be required to present a copy of the court order or a letter from the placing agency, association or institution, which will be attached to the school's copy of the student registration.

The school will provide transportation to such students attending school.

The Business Office will be responsible for billing for tuition fees for such students.

For students in institutions located in Pennsylvania who are attending school and are suspected or identified as eligible students relative to special education services, the school is responsible for the following:

1. Providing the student with an appropriate program of special education and training consistent with laws and regulations.
2. Maintaining contact with the home school of the student to keep that school informed of its plans for educating the student and seeking the advice of the school with respect to the student.

The school may develop a written agreement for an arrangement of educational and procedural responsibilities, in accordance with law. The agreement must be approved by the Department of Education, after notice to and an opportunity for comment by the parents/guardians of the student.

Children Of Military Personnel

When military personnel who are parents/guardians of a student are deployed and the student lives with relatives or family friends who are Pennsylvania residents for the period of deployment, the student will be enrolled in Pennsylvania school.

The Pennsylvania resident is presumed to be supporting the child gratis, and no tuition will be charged.

TUITION STUDENTS

For purposes of this regulation, the term **tuition** means the per diem overhead cost per student computed on the same basis as tuition charges by other school districts, in accordance with state law.

The monthly tuition charge for nonresident students will be based on the number of scheduled student days in each month, and there will be no deduction in charges because of students' absences.

Prospective Residents

Prospective residents presenting an Agreement of Sale not exceeding two (2) months from the date of entry may enroll their child in school in accordance with the following:

1. Payment of tuition in advance for the entire period of attendance up to the date of occupancy. Tuition may be refunded for a period of attendance not exceeding two (2) months prior to the date of occupancy.
2. Ten (10) days' enrollment in a calendar month will constitute a full month for tuition calculation. Less than ten (10) days' enrollment in a calendar month will require one-half (1/2) tuition cost for the month.
3. Parents/Guardians will assume responsibility for transportation of the student until date of occupancy.
4. Once settlement occurs and the parents/guardians physically move into the school, a deed must be presented to the school as proof of occupancy.

Prospective parents/guardians presenting a lease/rental agreement indicating expected occupancy within Pennsylvania not exceeding two (2) months from the date of entry may enroll their child in school in accordance with the following:

1. Payment of tuition in advance for the entire period of attendance up to the date of occupancy. Tuition may be refunded for a period of attendance not exceeding two (2) months prior to the date of occupancy.
2. Ten (10) days' enrollment in a calendar month will constitute a full month for tuition calculation. Less than ten (10) days' enrollment in a calendar month will require one-half (1/2) tuition cost for the month.
3. Parents/Guardians will assume responsibility for transportation of the student until date of occupancy.
4. Once occupancy occurs, the parents/guardians will present documentation containing the rental address, such as a driver's license, motor vehicle registration, or voter's registration.

Former Residents

When a student and parents/guardians move from the school on or after the beginning of the fourth quarter, the student may continue to attend school for the remainder of the year without paying tuition. The parents/guardians will assume full responsibility for transportation of the student.

When a student and parents/guardians move from the school prior to the fourth quarter, the student may continue to attend school until the end of the school year, in accordance with the following:

All students of compulsory school age who either:

1. Reside in the Commonwealth of Pennsylvania,
2. Qualify for attendance in the Commonwealth of Pennsylvania but are not currently enrolled in any school,
3. Attend district schools on a tuition basis, are required to comply with the adopted Board policy governing attendance.

Designated staff in each school will be responsible for monitoring and maintaining records of each student's attendance.

School Response to Absences

The school is a critical part of a student's support system, and school staff have a significant opportunity to assist students and their families to comply with attendance requirements.

Staff will treat all absences as unexcused until a written excuse explaining the absence is submitted within three (3) days of the absence.

If the designated employee discovers that a student is unable to attend school because of a lack of clothing or food, they will report the case to a suitable relief agency operating in the district or to the appropriate county agency for investigation and relief.

Teachers can be the first line of defense for compulsory attendance, as they are the first to recognize students with possible attendance issues. Teachers will implement a plan of action that includes, but is not limited to:

1. Distributing and reviewing with students and families the adopted Board policies governing attendance and student responsibilities.
2. Meeting individually with students to discuss reasons for absence.
3. Providing feedback to designated district staff.
4. Making referrals to guidance counselors.

5. Cooperating with the Student Assistance Program, as appropriate.
6. Attending the school attendance improvement conference, as necessary.
7. Contributing, as necessary, to the development of the school attendance improvement plan.

Response to Unexcused Absences

The person in parental relation of a compulsory school age student is subject to penalties if compulsory attendance requirements are not met.

The designated school employee will make every effort to work collaboratively with the person in parental relation to address the truancy of a student and will not initiate formal action until an SAIC has been held and the student is habitually truant.

First Unexcused Absence –

Designated school staff will send to the person in parental relation a notice about the unexcused absence. The notice will be in the preferred language of the person in parental relation, will contain a description of the consequences that will follow if the student becomes habitually truant, and the name and telephone number of the school employee that the person in parental relation should contact to discuss the student's unexcused absence.

Second Unexcused Absences –

Designated staff will send to the person in parental relation a notice of a second unexcused absence. The notice will contain a description of the consequences that will follow if the student becomes habitually truant, and the name and telephone number of the school contact. The second notice will include offer of district assistance and will be in the preferred language of the person in parental relation. A school conference is required.

Third Unexcused Absences –

Designated school staff will send notice to the person in parental relation, in writing, within ten (10) school days of the student's third unexcused absence, that contains a description of the consequences that will follow if the student becomes habitually truant, and the name and telephone number of the school contact. The third notice will include another offer of school assistance and will be in the preferred language of the person in parental relation. A School Attendance Improvement Conference (SAIC) is required, and Student Attendance Improvement Plan will be created.

Participants invited to the School Attendance Improvement Conference (SAIC) must include, but not be limited to:

1. The student.
2. The student's person in parental relation.
3. Other individuals as identified by the person in parental relation who may be a resource.
4. Appropriate school personnel.
5. Recommended service providers.

While active participation by the student and family members is an integral component of this conference, there is no legal requirement for either the student or person in parental relation to attend the school attendance improvement conference. The school should make every attempt to conduct the SAIC with the person in parental relation present, to identify and resolve the root causes of truancy, and contribute to the group discussion their unique knowledge about the student and the student's environment.

In an attempt to encourage participation, the school should provide written notice and communicate with the person in parental relation via telephone. The school will hold the SAIC even if the person in parental relation declines to participate or fails to attend.

Issues that should be addressed in the SAIC include, but are not limited to:

1. Appropriateness of the student's educational environment.
2. Possible elements of the school environment that inhibit student success.
3. Student's current academic level and needs.
4. Social, emotional, physical, mental and behavioral issues.
5. Issues concerning family and home environment.
6. Any other issues affecting the student's attendance.

The school will document the outcome of the SAIC in a written school attendance improvement plan which can include: access to academic and social/health supports from the district and community organizations; an outline of family/parental and student responsibilities; and levels of performance monitoring that include rewards and consequences.

The school will use a form similar to the School Attendance Improvement Plan Form, created by PDE, to document the school attendance improvement conference.

At the end of the school attendance improvement conference, all parties present should sign the school attendance improvement plan. The student and person in parental relation will be provided a copy of the school attendance improvement plan, regardless of whether they attended.

When the student and/or person in parental relation is/are in attendance at the school attendance improvement conference, the designated school staff member will ensure that the student and the person in parental relation clearly understand the consequences that follow a violation of the compulsory attendance requirements.

Subsequent Unexcused Absences –

When a school attendance improvement plan is in place for a student who is not yet habitually truant, and the student is subsequently unlawfully absent at any point within the school year, meaning four (4) to five (5) school days of unexcused absences, the designated school staff will send to the person in parental relation, by and via any additional mode of communication previously successful with the person in parental relation, an official notice of unexcused absence. The notice will inform the person in parental relation that the school attendance improvement plan has been violated and that once the student reaches six (6) unexcused absences, formal truancy proceedings will be initiated.

When a school attendance improvement plan is in place and the student is subsequently unlawfully absent at any point within the school year, thus amounting to six (6) or more school days of unexcused absences, the designated school staff will send to the person in parental relation, by and via any additional mode of communication previously successful with the person in parental relation, an official notice to inform the person in parental relation that the school attendance improvement plan has been violated and formal truancy proceedings will be initiated.

At any time when:

1. A school attendance improvement plan has been violated,
2. Notice has been sent to the person in parental relation that formal action will be initiated, and
3. The student is habitually truant, the designated school staff will initiate truancy proceedings.

Penalties for Violations

When referring a habitually truant student of any age to the county children and youth agency or filing a citation, the school must provide verification that the SAIC was held, generally by submitting the school attendance improvement plan.

Habitually truant students under fifteen (15) years of age -

1. The designated school staff will refer the student to either:
 - a. A school-based or community-based attendance improvement program, or
 - b. The county children and youth agency for:
 1. Services, or
 2. Possible disposition as a dependent child.
2. The designated school staff may, but are not required to, file a truancy citation against the person in parental relation to the student who resides in the same household as the student.

Habitually truant students fifteen (15) years of age and older -

1. The designated school staff will either:
 - a. Refer the student to a school-based or community-based attendance improvement program, or
 - b. File a citation against the student or person in parental relation to the student who resides in the same household as the student.
2. If a student fifteen (15) years of age or older continues to accrue additional absences after a school refers the student to a school-based or community-based attendance improvement program or refuses to participate in an attendance improvement program, the school may refer the student to the county children and youth agency for possible disposition as a dependent child.

Citations and Proceedings

The designated school staff will file a truancy citation with the magisterial district judge where the student resides.

When a citation is filed against a student or person in parental relation to the student who resides in the same household as the student, the magisterial district judge will provide notice of the hearing to the school, person in parental relation, the student, and the county children and youth agency.

At the hearing, the district must prove beyond a reasonable doubt that the student was subject to the compulsory attendance law and was, without legal justification, habitually truant. The person in parental relation may demonstrate, by a preponderance of the evidence, that they took every reasonable step to ensure the attendance of the student at school.

Before entering a sentence, the magisterial district judge will permit the school, person in parental relation to the student, or student to present relevant information, such as the student's attendance since the citation was filed, to assist the judge in making an informed decision regarding an appropriate sentence.

A person convicted of a violation of the compulsory attendance laws may be sentenced to pay a fine for the benefit of the school, sentenced to perform community service, or required to complete an appropriate course or program designed to improve school attendance.

If within a three-year period a student or person in parental relation is convicted of a second or subsequent offense, the court must refer the student to the county children and youth agency for services or possible disposition as a dependent child under the Juvenile Act.

The designated school staff will not file a citation against a student or person in parental relation for a subsequent violation of compulsory school attendance if:

1. A proceeding is already pending against the student or person in parental relation and judgment in the first proceeding has not yet been entered, unless a warrant has been issued for failure of the student or person in parental relation to appear before the court and the warrant has not yet been served.

2. A referral for services has been made to the county children and youth agency under this subdivision, the agency has not closed the case, and the educational entity has not consulted with the county children and youth agency prior to filing the petition.
3. A petition has been filed alleging the student is dependent due to being habitually truant, relative to juvenile matters, and the case remains under the jurisdiction of the juvenile court.

Fines

For the first offense, the fine may not exceed \$300, together with court costs.

For the second offense, a person in parental relation may not be fined more than \$500, together with court costs.

For a third and any subsequent offense, a person in parental relation may not be fined more than \$750, together with court costs.

Failure to Comply with Penalties

If a person in parental relation fails to comply with the penalties imposed, that person may be sentenced to jail for up to three (3) days if the court determines that the person in parental relation had reasonable ability to comply with the penalty and that noncompliance was willful.

If a student fails to satisfy the penalties imposed:

1. Such act will not be considered delinquent but may result in a dependency determination under the Juvenile Act.
2. The magisterial district judge may send the record of conviction to the Pennsylvania Department of Transportation.
 - a. If the Department of Transportation receives such a record, it is required to take action against the student's operating privileges. The Department will suspend for ninety (90) days the operating privilege of any student upon receiving a certified record that the student was convicted of violating the compulsory attendance requirements. If the Department receives a second or subsequent conviction for a student's violation, the Department will suspend the student's operating privilege for six (6) months.
 - b. Any student whose record is received by the Department and who does not have a driver's license will be ineligible to apply for a driver's license for the time periods specified above. If the student is under sixteen (16) years of age when convicted, suspension of operating privileges will commence for the time specified above.

Nothing in this section will be construed to apply to a person in parental relation whose child or children are in a home education program.

Homeless and Unaccompanied Youth/Children in Foster Care

The Every Student Succeeds Act, the McKinney-Vento Homeless Assistance Act, and the Fostering Connections to Success and Increasing Adoptions Act require that states, local education agencies, and schools work to remove barriers to the education of homeless students, unaccompanied youth, and children in foster care. Such barriers include those related to enrollment and retention due to absences.

Designated school staff will not count as unexcused those absences that occur due to homelessness, the transience of unaccompanied youth, or the fluctuation of foster care placements.

Designated school staff should use the school attendance improvement conferences as a means to identify the root causes of students' absenteeism, such as homelessness, frequent household shifts, absence of consistency and stability, and a lack of transportation, which should all be captured in the school attendance improvement plan. The school attendance improvement plan should clearly delineate the school responsible for complying with the compulsory attendance laws (school of origin, school of residence, etc.) as well as the school(s) responsible for implementing various portions of the school attendance improvement plan.

The school must consider the living situation of each unaccompanied youth to determine whether it is appropriate to file citations against the person in parental relation. The charter school may consider contacting children and youth to link the youth with services.

Book	Policy Manual
Section	2000 Students
Title	School Attendance Improvement Plan
Code	2004-AR-9
Status	Active
Adopted	September 8, 2020

The School Attendance Improvement Plan (SAIP) is a comprehensive plan that addresses the specific needs of the truant student. The SAIP is most effective when developed collaboratively by the participants at a School Attendance Improvement Conference (SAIC). The SAIP needs to be understood, agreed upon and supported by the student, person in parental relation, school representative and all other conference participants.

The SAIP will substantiate efforts made by the school, family, and other vested third parties to assist the student in addressing and resolving school attendance issues. This comprehensive system of supports and services will provide documentation of the good faith efforts between the school and the student's family if future action is required, such as possible citation filed with the magisterial district judge and/or referral to the county children and youth agency which may depend upon whether the student is under or over fifteen (15) years of age.

The SAIP should include, but not be limited to, the following components, as appropriate:

1. Information about the student and a summary of the student's attendance record.
2. Explanation of both the student's and family's strengths and responsibilities related to the SAIP, including each strength's relevance to the plan.
3. Assessment of the home and school environment to identify areas of need:
 - a. Root cause(s) of truancy – it is crucial, yet sometimes overlooked, to build rapport regarding the:
 - i. Student's academic, social, physical, mental, behavioral health issues.
 - ii. Person in parental relation's home environment, work schedules, unsupervised time for student, special circumstances, etc.
 - iii. School's environment, student's interaction with other adults and with other students, school schedule, etc.
4. Solutions to address these issues:
 - a. Involving the student in programs and services available in the school or community.
 - b. If the student has plans for employment or further schooling after high school graduation, then appropriate activities could include:

- i. Discussing the ramifications of any future absences and how they could negatively impact those future plans.
5. Identification and provision of appropriate academic supports by the school and/or community organizations.
6. Discussion of the potential benefits for successfully implementing the SAIP.
 - a. Benefits could include better grades for the student, graduation, higher graduation rates for the school, more involved community members, improved self-esteem, better relationship with the person in parental relation and other adults, etc.
7. Explanation of the potential consequences for each stakeholder if the SAIP is not fully implemented.
 - a. Outline consequences for the student, person in parental relation, school, and other participants if they do not follow through with the recommendations of the SAIP.
8. The student, person in parental relation and school official will be asked to sign and date the SAIP as verification that all parties understand and agree to all components of the SAIP.

The following actions will take place during the SAIP follow-up meeting:

1. Each responsible party listed in the Solutions section will report on the progress of their area of responsibility.
2. The group members will list the outcome(s) of the SAIP and outline next steps, if any.
3. The student, person in parental relation and school official will again be asked to sign and date the SAIP.
4. A copy of the SAIP will be retained in the student's file. A copy of the SAIP must be provided to the student, person in parental relation and appropriate school personnel.

Purpose

The Board of Trustees (Board) directs that an organized student health services program shall be conducted in the Charter School. The goal of student health services is to help students maintain an optimum state of health so that they can participate fully in their educational experience, and to ensure a healthy school community.[\[1\]](#)

Definitions

For purposes of this policy, an examination, whether medical or dental, shall mean a general examination conducted by a licensed practitioner in accordance with the standards established by the Pennsylvania Department of Health.[\[2\]](#)

School nurse shall mean a licensed registered nurse properly certificated as a school nurse.[\[3\]](#)

Health monitoring, for purposes of this policy, shall mean screening or monitoring for specific symptoms that may indicate the presence of a communicable disease, in accordance with guidance from state and local health officials, including the Centers for Disease Control and Prevention ("CDC"), the Pennsylvania Department of Health and the Pennsylvania Department of Education.

Authority

In compliance with law and regulations, the Charter School shall provide the following health services to students:[\[4\]](#)[\[5\]](#)[\[6\]](#)

1. School nurse services;
2. Medical and dental examinations;
3. Vision and hearing screening tests;
4. Height and weight measurements including BMI and BMI percentile;
5. Scoliosis screenings; and
6. Maintenance of medical and dental records.

Delegation of Responsibility

The Chief Executive Officer or designee shall instruct all staff members to continually observe students for conditions that indicate health problems or disability and to promptly report such conditions to the school nurse or designated staff.[\[4\]](#)

Where a Charter School health official or a staff member has reasonable cause to suspect that a student may be the victim of child abuse, the school employee shall make a report of suspected child abuse in accordance with law and Board policy.

The Chief Executive Officer or designee shall ensure that notice is provided to all parents/guardians regarding the existence of and eligibility for the Children's Health Insurance Program (CHIP).[\[7\]](#)

Guidelines

School Nurse Services

Every student shall be provided with school nurse services in accordance with law and regulations. The number of students under the care of each school nurse shall not exceed 1,500 students.[\[10\]](#)[\[4\]](#)[\[8\]](#)[\[9\]](#)

Examinations/Screenings

Medical and dental examinations shall be conducted in order to:[\[4\]](#)[\[5\]](#)

1. Protect the school community from the spread of communicable disease.
2. Ensure that the student's participation in health, safety and physical education courses satisfies the student's individual needs.
3. Ensure that the learning potential of each student is not lessened by a remediable physical disability.

A private medical and/or dental examination conducted at the parents'/guardians' request and expense shall be accepted in lieu of the school examinations. The Charter School shall accept reports of privately conducted medical and dental examinations completed within one (1) year prior to a student's entry into the grade where an exam is required.[\[11\]](#)[\[12\]](#)[\[13\]](#)

The school nurse or medical technician shall administer to each student vision tests, hearing tests, scoliosis tests, other tests deemed advisable, and height and weight measurements, at intervals established by the Charter School. Height and weight measurements shall be used to calculate the student's Body Mass Index (BMI).[\[2\]](#)[\[4\]](#)

A student who presents a statement signed by the parent/guardian that a medical examination is contrary to the student's or parent's/guardian's religious beliefs shall be examined only when the Secretary of Health determines that facts exist indicating that certain conditions would present a substantial menace to the health of others in contact with the student if the student is not examined for those conditions.[\[14\]](#)[\[15\]](#)

Where it appears to Charter School health officials or teachers that a student deviates from normal growth and development, or where school examinations reveal conditions requiring medical or dental care, the parent/guardian shall be notified of the apparent need for a special examination by the student's private physician or dentist. The parent/guardian shall report to the Charter School whether a special examination occurred. If the parent/guardian fails to report whether the examination occurred within a reasonable time after being notified of the apparent need and the abnormal condition persists, appropriate Charter School health personnel shall arrange a special medical examination for the student and notify the student's parent/guardian accordingly. [\[16\]](#)[\[4\]](#)[\[7\]](#)

Health Records

The Charter School shall maintain for each student a comprehensive health record, which includes a record of immunizations and the results of tests, measurements, regularly scheduled examinations and special examinations. Student health records shall be maintained in the school building where the student attends and shall be available to the school nurse at all times.[\[17\]](#)[\[4\]](#)

All health records shall be confidential and shall be disclosed only when necessary for the health of the student or when requested in writing by the parent/guardian to a physician legally qualified to practice medicine in the Commonwealth, in accordance with law and Board policy.[\[18\]](#)

The Charter School may disclose information from health records to appropriate parties in connection with an emergency when necessary to protect the health or safety of the student or other individuals, in accordance with applicable law and Board policy.

Designated Charter School staff shall request the health records of students transferring into the Charter School from the school where the student was previously enrolled. Staff shall satisfactorily respond to such requests for the health records of students transferring from the Charter School to other schools. [\[17\]](#)[\[18\]](#)

The Charter School shall destroy relevant student health records only after the student has not been enrolled in the Charter School for at least two (2) years.[\[18\]](#)

Medical Plans of Care - written documents individualized for a particular student with a severe or life-threatening food allergy to address the student's needs throughout the school day, including:

1. Emergency Care Plan (ECP) - a medical plan of care based on the information provided in the student's Individualized Healthcare Plan (IHP) and distributed to all Charter School personnel who have responsibilities for the student, which specifically describes how to recognize a food allergy emergency and what to do when signs or symptoms of these conditions are observed.
2. Individualized Healthcare Plan (IHP) - a medical plan of care that provides written directions for Charter School health personnel to follow in meeting the individual student's healthcare needs. The plan describes functional problem areas, sets goals for overcoming problems, and lists tasks/interventions to meet the goals. The IHP shall include a Food Allergy Medical Management Plan developed by a student's personal healthcare team and family, which shall outline the student's prescribed healthcare regimen and be signed by the student's board-certified allergist, family physician, physician assistant or certified registered nurse practitioner.

3. Related Services Component in Individualized Education Program (IEP) - that part of an IEP for a student receiving special education and related services which includes reference to development and implementation of an IHP and ECP for students with a documented severe or life-threatening food allergy, as well as identifying the medical accommodations, educational aids and services to address the student's needs.
4. Section 504 Service Agreement - a medical plan of care which references development and implementation of an IHP and ECP, as well as other accommodations, educational aids and services a student with a documented severe or life-threatening food allergy requires in order to have equal access to educational programs, nonacademic services and extracurricular activities as students without food allergies.

Guidelines

Immediately following enrollment in the Charter School or diagnosis of a food allergy, appropriate medical plans of care such as an ECP, IHP, Section 504 Service Agreement and/or IEP shall be developed and/or implemented for each student identified with a food allergy. Plans shall be developed by the school nurse, in collaboration with the student's healthcare provider, the student's parents/guardians, the student, if appropriate, and any other appropriate persons.

Where a medical plan of care is developed, it should carefully describe the plan for coverage and care of a student during the school day, as well as during school-sponsored activities which take place while the student is under Charter School jurisdiction during or outside of school hours.

Medical plans of care should include both preventative measures to help avoid accidental exposure to allergens and emergency measures in case of exposure, including administration of emergency medication.

A complete set of a student's current medical plans of care related to food allergies shall be maintained by the school nurse. Information or copies of the different components of a student's medical plans of care shall be provided to appropriate personnel who may be involved in implementation of the medical plans of care.

Accommodating Students With Disabling Special Dietary Needs

Students with food allergies may be identified, evaluated and determined to be qualified students with disabilities, in which case the Charter School shall make appropriate accommodations, substitutions or modifications in accordance with the student's medical plans of care.

The Charter School shall provide reasonable accommodations, substitutions or modifications for students with disabling dietary needs. The student's physician shall determine and document if the student has a disabling dietary need. Examples of a disability under this policy would include metabolic conditions (e.g., diabetes), severe food allergies or cerebral palsy.

Students who fall under this provision must have a written medical statement signed by a licensed physician, which shall be included with the student's IHP. The medical statement must identify: [\[2\]](#)

1. The student's special dietary disability.
2. An explanation of why the disability restricts the student's diet.
3. The major life activity(ies) affected by the disability.
4. The food(s) to be omitted from the student's diet.
5. The food or choice of foods that must be provided as the substitute.

Accommodating Students With Non-Disabling Special Dietary Needs

The Charter School may, at its discretion, make appropriate accommodations, substitutions or modifications for students who have a special dietary need but who do not meet the definition of disability, such as a food intolerance or allergy that does not cause a reaction that meets the definition of a disability. The decision to accommodate such a student shall be made on a case-by-case basis.

Students who fall under this provision must have a written medical statement signed by a physician, physician assistant or certified registered nurse practitioner identifying the following:

1. The medical or other special dietary condition which restricts the student's diet.

2. The food(s) to be omitted from the student's diet.

3. The food or choice of foods to be substituted.

Confidentiality

The Charter School shall maintain the confidentiality of students with food allergies, to the extent appropriate and as requested by the student's parents/guardians. Charter School staff shall maintain the confidentiality of student records as required by law, regulations and Board policy.

Delegation of Responsibility

The Chief Executive Officer or designee, in coordination with the school nurse, and other pertinent staff, shall develop administrative procedures to implement this policy in the Charter School, including testing locations and during field trips.

Administrative procedures shall address the following components:

1. Identification of students with food allergies and provision of school health services.
2. Development and implementation of individual written management plans.
3. Medication protocols, including methods of storage, access and administration.
4. Development of a comprehensive and coordinated approach to creating a healthy school environment.
5. Communication and confidentiality.
6. Emergency response.
7. Professional development and training for Charter School personnel.
8. Awareness education for students.
9. Awareness education and resources for parents/guardians.
10. Monitoring and evaluation.

The Chief Executive Officer or designee shall annually notify students, parents/guardians, staff and the Charter School community about the Charter School's food allergy management policy by publishing such in handbooks and newsletters, on the Charter School website, and through posted notices and other efficient methods.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Every food-allergic reaction has the possibility of developing into a life-threatening reaction and, even with proper treatment, can be fatal. A life-threatening reaction can occur within minutes or hours after exposure to the allergen. A student's ability to learn may be drastically altered by their fears of a reaction. The goal of this plan is to provide the related aids and services needed to prevent exposure to food allergens and to respond appropriately should an anaphylactic reaction occur in accordance with the instructions provided by the student's personal health care provider team.

DEFINITIONS

Licensed Health Room Staff: Certified School Nurse (CSN); Registered Nurse (RN); Licensed Practical Nurse (LPN).

Medical Management Plan (MMP): A plan, written by the student's personal health care provider team, which is communicated to the school nurse and includes medication orders and protocols for response to this particular student's medical needs.

1. **Individualized Health Care Plan (IHP):** A plan that describes the regimen and identifies the health care needs of a student with food allergies. This plan is developed by the school nurse, based upon the recommendations and medical orders of the student's personal health care provider team and the student's current condition.

2. **Emergency Care Plan (ECP):** A plan that provides school personnel with essential information on how to recognize and react to signs and symptoms of an anaphylactic reaction. This plan is developed by the school nurse, based on the recommendations and medical orders of the student's personal health care provider team and the student's current condition as assessed or noted by the school nurse.

Provision of Food Allergy Care

1. In Pennsylvania, most medications require the assistance of a licensed nurse during school hours, school sponsored activities, and/or on school sponsored trips. Unlicensed school staff may be trained to administer epinephrine auto-injectors.
2. All staff members will be able to recognize symptoms of anaphylaxis and be able to react to these symptoms as per the Emergency Care Plan (ECP), Individualized Healthcare Plan (IHP), and Medical Management Plan (MMP).
3. Student shall have immediate access to all items necessary for the treatment of an anaphylactic reaction, including epinephrine auto-injectors as provided by the parent/guardian and ordered by a medical provider.
4. The CSN, RN, LPN, parent, student, or trained school staff can give epinephrine auto-injectors as ordered by the medical provider, with the written approval of the parent/guardian.
5. The school nurse may contact the medical provider for advice or consultation when necessary. Phone numbers to be provided by parent/guardian and available in health office and student's ECP.
6. Student's food allergy ECP will be made available to all staff including.as appropriate per the CSN.

Student's Level of Self-care and Location of Supplies and Equipment

1. The student is able to perform the following food allergy care tasks without help or supervision as per the MMP and as assessed by the professional nurse (CSN or RN):

NOTE: The student will be permitted to provide this self-care as directed by the MMP, IHP, and ECP as to time, locations, including all school-sponsored activities.

2. The student needs assistance or supervision with the following tasks:

3. The student needs a licensed nurse to perform the following tasks:

4. The student will be permitted to carry the following supplies and equipment with them at all times and in all locations: _____

5. Supplies and equipment that are not kept on/with the student, will be kept:

6. Parent/guardian is responsible for providing supplies, equipment, snacks, and/or other food to meet the needs of the student as directed in the MMP, IHP and ECP.

Snacks and Meals

1. The student will be provided with a seating accommodation, which limits the chance of exposure to allergens and allows students with food allergies to eat with non-disabled students, as appropriate to the needs of the students with food allergies.
2. Staff trained in the administration of epinephrine will be located near the food area to support rapid response
3. Where included in a medical plan of care as necessary to protect a student with food allergies, students will wash their hands or use hand wipes before and after the handling/consumption of food.
4. If a student inadvertently brings a restricted food to the school sponsored event/activity/testing, they will not be allowed to eat that snack in any setting where the student with a food allergy would be exposed to the allergen.
5. The parent/guardian will supply snacks needed in addition to or instead of any snacks supplied for all students.

Exposure to Food Allergen and/or Signs of Anaphylaxis

1. In the event student reports exposure to a food allergen and/or shows signs/symptoms of anaphylaxis, they will be treated according to the MMP, IHP, and the ECP.
2. Any staff member finding student unconscious will call 911 and then contact the nurse on duty in the building. The staff member/CSN will call the parents/guardians, as per the Emergency Care Plan (ECP).

Field Trips and Extracurricular Activities

1. The teacher will take into consideration the potential for exposure to food allergens during field trips, testing and school activities.
2. A parent/guardian will be allowed, but not required, to accompany field trips.
3. All supplies will accompany student on field trips/extracurricular activities.
4. Student may take their own food and lunch on field trips/extracurricular activities.
5. Student will be under the supervision of a responsible adult prepared to respond to symptoms of anaphylaxis per the ECP.

Communication

1. Encouragement is essential. The student shall be treated in a way that encourages the student to report possible exposure to allergen and/or any symptoms and to progress toward self-care with their food allergy management skills.
2. Each teacher and substitute school nurse will be provided with written instructions regarding the student’s care (ECP) and a list of all school nurses with contact information.

****IN THE EVENT OF AN EMERGENCY, THE EMERGENCY CARE PLAN ON FILE IN THE NURSE’S OFFICE AND COMMUNICATED WITH ALL WHO NEED TO KNOW, IS TO BE FOLLOWED. The Board authorizes the Charter School to stock epinephrine auto-injectors in the name of the Charter School for emergency administration by trained employees to a student believed to be experiencing an anaphylactic reaction. [\[3\]](#)

Definitions

Anaphylaxis - a sudden, severe allergic reaction that involves various areas of the body simultaneously. In extreme cases, anaphylaxis can cause death.

Asthma inhaler shall mean a prescribed device used for self-administration of short-acting, metered doses of prescribed medication to treat an acute asthma attack. [\[4\]](#)

Epinephrine auto-injector shall mean a prescribed disposable drug delivery system designed for the administration of epinephrine to provide rapid first aid for students suffering the effects of anaphylaxis.

Guidelines

Student health records shall be confidential and maintained in accordance with state and federal laws and regulations. [6]

Student Self-Administration of Asthma Inhalers and Epinephrine Auto-Injectors

Before a student may possess or use an asthma inhaler or epinephrine auto-injector in the school setting, the Board shall require the following: [2]

1. A written request from the parent/guardian that the Charter School complies with the order of the licensed physician, certified registered nurse practitioner or physician assistant.
2. A written statement from the parent/guardian acknowledging that the Charter School is not responsible for ensuring the medication is taken and relieving the Charter School and its employees of responsibility for the benefits or consequences of the prescribed medication.

 - f. Potential serious reaction or side effects of medication.
 - g. Emergency response.
 - h. If student is qualified and able to self-administer the medication.
4. A written acknowledgement from the student's licensed physician, certified registered nurse practitioner or physician assistant that the student has demonstrated that they are capable of self-administration of the asthma inhaler and/or epinephrine auto-injector in the school setting.

The student shall notify the school nurse immediately following each use of an asthma inhaler or epinephrine auto-injector. [2]

The Charter School reserves the right to require a statement from the licensed physician, certified registered nurse practitioner or physician assistant for the continued use of a medication beyond the specified time period. [2]

A written request for student use of an asthma inhaler and/or epinephrine auto-injector shall be submitted annually, along with required written statements from the parent/guardian and an updated prescription. If there is a change in the student's prescribed care plan, level of self-management or school circumstances during the school year, the parent/guardian and the licensed physician, certified registered nurse practitioner or physician assistant shall update the written statements. [2]

Students shall be prohibited from sharing, giving, selling, and using an asthma inhaler or epinephrine auto-injector in any manner other than which it is prescribed during school hours, at any time while on Charter School property, at any school-sponsored activity, and during the time spent traveling to and from school and school-sponsored activities. Violations of this policy result in loss of privilege to self-carry the asthma inhaler or epinephrine auto-injector and disciplinary action in accordance with Board policy. [2]

If the Charter School denies a student's request to self-carry an asthma inhaler or epinephrine auto-injector or the student has lost the privilege of self-carrying an asthma inhaler or epinephrine auto-injector, the student's prescribed medication shall be appropriately stored at a location in close proximity to the student. The school nurse, other trained Charter School employees and the student's classroom teachers shall be informed where the medication is stored and the means to access the medication. [2]

The school nurse shall provide and annually renew a standing order for administration of stock epinephrine auto-injectors to students believed to be experiencing an anaphylactic reaction.

The standing order shall include at least the following information:

Acquisition, Storage and Disposal of Stock Epinephrine Auto-Injectors

One or more Charter School employees shall be designated to be responsible for the storage and use of the stock epinephrine auto-injectors.[\[3\]](#)

Stock epinephrine auto-injectors shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

Stock epinephrine auto-injectors shall be made readily accessible to those employees who have completed the required training to administer it in the event of a student experiencing an anaphylactic reaction. All properly trained employees shall be informed of the exact location where stock epinephrine auto-injectors are being stored within the school nurse's office or other location.

The school nurse shall obtain sufficient supplies of stock epinephrine auto-injectors pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh epinephrine auto-injector stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Pennsylvania Department of Health guidelines.

Information About Emergency Epinephrine Administrations

Dear Parents/Guardians:

In accordance with the Pennsylvania Public School Code provisions on "School Access to Emergency Epinephrine" and Board Policy 2010.1, the 21st Century Cyber Charter School maintains a stock supply of epinephrine auto-injectors in each school building (stock epinephrine auto-injectors). An auto-injector prefilled with epinephrine is the drug of choice used for the emergency treatment of severe allergic reactions (anaphylaxis) to insect stings or bites, foods, drugs, and other allergens. If your child has been diagnosed with an allergy or health condition that requires use of epinephrine, it is still your responsibility to provide your child's prescribed medication to the school nurse.

The law and Board Policy 2010.1 give trained school employees the authority to administer epinephrine to any student whom they believe in good faith is experiencing anaphylaxis. In the event that a student who does not have epinephrine is experiencing an anaphylactic reaction, a trained school employee may use the stock epinephrine auto-injector in accordance with the standing order issued by the school physician or provide the student with a stock epinephrine auto-injector for self-administration.

By law, the 21st Century Cyber Charter School is required to notify parents/guardians of their ability to exempt their children from emergency administration of stock epinephrine auto-injectors.

Please complete the attached form (Refusal to Permit Administration of Stock Epinephrine for Emergency First Aid) and return it to your child's school, if you **DO NOT** want a trained school employee to:

- Administer a stock epinephrine auto-injector to your child if they are believed to be experiencing a life-threatening allergic reaction (anaphylaxis); or
- Provide a stock epinephrine auto-injector for self-administration if your child is authorized to self-administer.

If you change your mind after submitting the attached form, you must submit a written request notifying the school nurse that your prior refusal to permit administration of stock epinephrine for emergency first aid is revoked.

If you have questions or concerns, please contact the school nurse.

**Refusal to Permit Administration of Stock Epinephrine
for Emergency First Aid**

I, _____, acknowledge that I have received a copy of Policy 2010.1 on Epinephrine Auto-Injectors and this informational document; I have read and fully understand their content; and by signing this form, I refuse to permit a trained school employee to: administer a stock epinephrine auto-injector to my child in the event that they are believed to be experiencing a life-threatening allergic reaction (anaphylaxis); or to provide a stock epinephrine auto-injector for self-administration if my child is authorized to self-administer.

The Board of Trustees of 21st Century Cyber Charter School (21CCCS) supports students' learning and academic achievement by encouraging them to produce academic work that is their own best efforts, done with integrity, and displaying the best academic ethical behavior. 21CCCS requires all students to demonstrate honesty and responsibility and to abide by ethical standards in preparing and presenting materials, as well as in testing situations. Grades should reflect the student's own work. Academic dishonesty, cheating, or plagiarism involves an attempt by the student to show possession of a level of knowledge or skill that they do not possess. It involves any attempt of a student to substitute a product of another, in whole or in part, as their own work. It also includes theft, possession, or unauthorized use of any answer key.

The Board recognizes that the concepts of academic integrity, plagiarism, and cheating are developmental. Consequences for any violation of this policy should be designed by the teacher and the Chief Executive Officer (CEO). The Board directs the CEO to publish guidelines for students that clearly outline the consequences for any violation of this policy.

Academic dishonesty or academic misconduct is any type of cheating that occurs in relation to a formal academic exercise. Which can include the following:

- Plagiarism: The adoption or reproduction of original creations of another author (person, collective, organization, community or other type of author, including anonymous authors) without due acknowledgment.
- Fabrication: The falsification of data, information, or citations in any formal academic exercise.
- Deception: Providing false information to an instructor concerning a formal academic exercise—*e.g.*, giving a false excuse for missing a deadline or falsely claiming to have submitted work.
- Cheating: Any attempt to give or obtain assistance in a formal academic exercise (like an examination) without due acknowledgment.
- Bribery: or paid services. Giving assignment answers or test answers for money.

- Sabotage: Acting to prevent others from completing their work.
- Professorial misconduct: Professorial acts that are academically fraudulent equate to academic fraud and/or grade fraud.
- Personation: assuming a student's identity with intent to provide an advantage for the student. Plagiarism is the act of using another person's ideas or expressions in your writing without acknowledging the source. Plagiarism, (or intellectual theft) includes "the reproduction, in whole or essential part, of a literary, artistic or musical work by one who falsely claims to be its creator." *Encyclopedia Americana, 2003*. "The unauthorized use or close imitation of the language and thoughts of another author and the representation of them as one's own original work." *Dictionary.com*. Some examples might include, but are not limited to:
 - Downloading a paper from a "paper-mill"
 - Submitting another student's work
 - Copying a portion of another's work without citing it
 - Copying material, supplying proper documentation, but leaving out quotes or indents
 - Paraphrasing ideas without documentation

Plagiarism is regarded as a very serious offense. Many institutions of higher education expel students found guilty of plagiarism. This policy is part of our effort to educate all 21CCCS students about the issue of academic dishonesty and to prepare our students for the future.

Students are expected to maintain the highest standards of honesty in their work. Forgery of papers, reports, tests or notes or any other forms of cheating and/or copying the work of another student or plagiarism from library, publication, or internet sources is prohibited and will result in disciplinary action as well as loss of academic credit.

Students are expected to respect the computer privileges given to them. All students must keep their passwords to themselves. It is against this policy to use another person's passwords or accounts. It is also against this policy to break into ("hack") other files or systems, to download copyrighted material, or to conduct a personal business enterprise using the school computer network. Students shall not go into any sites on the Internet, which contain sexually explicit material. Entering progress hours for work that has not been completed is considered a form of Academic Dishonesty. Additional rules on computer use are listed in the 21CCCS's Acceptable Use Policy.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility. Criteria for determining whether the official has a legitimate interest include, but are not limited to, whether particular information concerning the student is:

1. Presently or potentially relevant to the provision of education, education-related services, or extracurricular activities or experiences, or
2. Necessary to protect the health, safety, or welfare of school officials and/or other students with whom the student might have contact.

The phrase also applies to school officials and support staff who are responsible for the maintenance and security of education records or auditing the school's recordkeeping procedures and to attorneys, consultants, and Board members when Board action concerning the student is required by law or when the education or treatment of the student is the subject of present or potential litigation or legal dispute.

Student - includes any individual who is or has been in attendance at the school and regarding whom the school maintains education records.

Responsibilities

The CEO or designee shall be responsible for education record maintenance and access, and for the education of staff about maintenance and access procedures. The principal is responsible for implementing Board policy concerning student education records in the school. All school personnel having access to education records should receive training in security, with emphasis upon privacy rights of student and parents.

Records are to be kept secure at all times under the supervision of school personnel and in accordance with law, regulations, Board policy and the student records plan.

Annual Notification of Rights

Parents and eligible students shall be notified annually and upon initial enrollment of:

1. The rights and procedures for parents or eligible students:
 - a. To access, inspect and review the student's education records; and
 - b. To seek an amendment of the student's education records that the parent or eligible student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights.

3. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of the FERPA and its implementing regulations.
4. The school's practice of permitting school officials with legitimate educational interests to access student records without prior consent of the parent or eligible student, as well as the criteria used by the school to determine who constitutes a school official and what constitutes a legitimate educational interest.

5. The types of personally identifiable information the school has designated as directory information; the parent's/eligible student's right to opt out of the disclosure of directory information; and the time period within which a parent/eligible student has to notify the school, in writing, of their decision to opt out.

The annual notice may be provided through a letter to parents/eligible students, school calendar, student/parent handbooks, school newsletter, on the school's website, and/or any other effective means.

The school will also ensure that parents and eligible students who are disabled or have a primary language other than English are effectively notified of their rights and the procedures to implement those rights.

Student Health Records

The school shall maintain a comprehensive health record for each child of school age, which shall include immunization information, results of vision and hearing screenings, results of state-mandated physical examinations, in-school treatment and medication dispensing or administration orders or prescriptions from physicians, treatment and medication dispensing or administration logs, and health-related information provided by parents. This includes medical questionnaires that are forms furnished by the Secretary of Health and completed by the child or the child's parent at such times as the Secretary of Health may direct.

All health records established and maintained by the school shall be confidential, and their contents shall be divulged only when necessary for the health of the child or at the request of the parent to a physician legally qualified to practice medicine and surgery or osteopathy or osteopathic surgery in the Commonwealth of Pennsylvania.

Disclosure of Student Records

The school shall obtain the signed and dated written consent of the parent of a student or the eligible student before disclosing personally identifiable information from the education records of the student, other than directory information, except as specifically permitted by law and regulations. Signed and dated written consent may include a record and signature in electronic form that identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

When disclosure is made pursuant to signed and dated written consent, the school shall, upon request, provide the parent, eligible student, and/or student who is not an eligible student with a copy of the record(s) disclosed.

The school shall use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other parties to whom the school discloses personally identifiable information from education records.

However, the school may disclose personally identifiable information from the education records of a student without written consent of the parent(s) or the eligible student if the disclosure is:

1. To other school officials, including teachers, guidance counselors, nurses, and I.U. personnel within the school who have been determined by the school to have legitimate educational interests. A contractor, consultant, volunteer or other party providing educational services or functions may be considered a school official provided that the party:
 - a. Performs an institutional service or function for which the school would otherwise use employees;
 - b. Is under the direct control of the school with respect to the use and maintenance of education records; and
 - c. Uses the information only for the purposes for which disclosure was made and does not disclose information to any other party without the prior consent of the parent or eligible student.

The school shall use reasonable methods to ensure that school officials obtain access to only those education records in which they have legitimate educational interests.

2. To officials of another school or school system or postsecondary schools in which the student seeks or intends to enroll, or where the student is already enrolled so long as the disclosure is for purposes related to the student's enrollment/transfer or where the student is enrolled and receiving services. Parents and eligible students may request a copy of and be provided the opportunity to challenge the contents of the records sent.
3. To authorized representatives of the state or federal government, subject to the conditions set forth in law and regulations.
4. The disclosure is in connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine the eligibility for, amount of, and conditions for aid, and to enforce the terms and conditions of the aid.
5. To organizations conducting studies for or on behalf of the school to develop, validate or administer predictive tests, administer student aid programs or improve instruction. Such disclosures are permissible only if:
 - a. The study is conducted in a manner that does not permit personal identification of parents and students by individuals other than representatives of the organization that have legitimate interests in the information;
 - b. The information is destroyed when no longer needed for the purposes for which the study was conducted; and
 - c. The educational agency or institution enters into a written agreement with the organization that:
 1. Specifies the purpose, scope, and duration of the study or studies and the information to be disclosed;
 2. Requires the organization to use personally identifiable information from education records only to meet the purpose(s) of the study as stated in the written agreement;
 3. Requires the organization to conduct the study in a manner that does not permit personal identification of parents and students by anyone other than representatives of the organization with legitimate interests; and
 4. Requires the organization to destroy or return to the educational agency or institution all personally identifiable information when the information is no longer needed for the purposes for which the study was conducted and specifies the time period in which the information must be returned or destroyed.
6. To parents of a dependent student, as defined in Section 152 of the Internal Revenue Code.
7. To comply with a judicial order or lawfully issued subpoena:
 - a. The school shall make a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance unless the disclosure is in compliance with:
 1. A federal grand jury subpoena and the court has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed;
 2. Any other subpoena issued for a law enforcement purpose and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed;
 3. An *ex parte* order obtained by the U.S. Attorney General in connection with the investigation or prosecution of specified terrorism offenses; or
 4. A court proceeding in which a parent is a party involving child abuse and neglect or dependency

matters, and the order is issued in the context of that proceeding.

- b. The school may disclose to a court, without court order or subpoena, the education records of a student that are relevant for the school to proceed with or defend a legal action.
8. To appropriate parties, including parents of an eligible student, in connection with a health or safety emergency, subject to certain conditions, if knowledge of the information is necessary to protect the health or safety of the student or other individuals.
 - a. The school shall not be prohibited from including in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community and disclosing appropriate information to teachers and school officials within the school or in other schools who the agency or institution has determined have legitimate educational interests in the behavior of the student.
 - b. In making a determination under this section, the school may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the school determines that there is an articulable and significant threat to the health and safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

In the event that personally identifiable information is disclosed due to a health or safety emergency, the school shall keep a record of the parties that received the information and the significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure.

9. Information designated by the school as directory information, provided that parents and eligible students have received prior notice of the types of personally identifiable information the school has designated as directory information; the parent's/eligible student's right to opt out of the disclosure of directory information; and the time period within which a parent/eligible student has to notify the school, in writing, of their decision to opt out.

A parent or eligible student may not use the right to opt out of directory information disclosures to prevent the school from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled; or requiring a student to wear, to display publicly, or to disclose a student ID card/badge that exhibits information that has been properly designated as directory information.

The school may continue to disclose directory information about former students without providing annual notice and opt out opportunities; however, the school must continue to honor any valid request to opt out of the disclosure of directory information made while a student was in attendance unless the student rescinds the opt out request.

The school may not disclose or confirm directory information without obtaining written consent. The school may not disclose or confirm if student's Social Security Number or other non-directory information is used alone or combined with other data elements to identify or help identify the student or the student's records.

10. To an agency caseworker or other representative of a state or local child welfare agency, or tribal organization, who has the right to access a student's case plan, as defined and determined by the state or tribal organization, when such agency or organization is legally responsible, in accordance with state or tribal law, for the care and protection of the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the state or tribal laws applicable to protecting the confidentiality of a student's education records.
11. To the parents of a student who is not an eligible student or to the student.
12. As otherwise required or permitted by law and regulations.

Questions regarding the disclosure of information should be referred to the designated school employee, the CEO or designee.

De-Identified Records and Information

The school may release education records or information without required consent after the removal of all personally identifiable information, provided that the school has made a reasonable determination that a student's identity is not personally identifiable, whether through single or multiple releases, and taking into account other reasonably available information.

The school may release de-identified student level data from education records for the purpose of education research by attaching a code to each record that may allow the recipient to match information received from the same source, provided that:

1. The school does not disclose any information about how it generates and assigns a record code, or that would allow a recipient to identify a student based on a record code;
2. The record code is used for no purpose other than identifying a de-identified record for purposes of education research and cannot be used to ascertain personally identifiable information about a student; and
3. The record code is not based on a student's Social Security Number or other personal information.

Re-Disclosure of Records

The school will disclose information from education records only on the condition that the party to whom the information is disclosed will not disclose the information to any other party without the prior consent of the parent or eligible student.

Information disclosed by the school is to be used by the party only for the purpose(s) for which the disclosure was made.

The school may disclose personally identifiable information with the understanding that the party receiving the information may make further disclosures of the information on behalf of the school only if the requirements of law and regulations are met.

Transfer of Records to Another School or Charter School

Upon receiving a request for educational records, health records, or student disciplinary records from another school or charter school where the student seeks or intends to enroll, the school shall forward the records within ten (10) business days of receipt of the request. A signed parent consent form is not required prior to this disclosure.

Responding to Subpoenas for Student Records

If a school employee receives a subpoena from any court or administrative body regarding student records, the school employee will immediately refer the subpoena to the CEO. The CEO or designee shall consult with the school's solicitor before responding to any subpoena.

Review and Inspection of Records by Parents and/or Eligible Students

Requests by a parent or eligible student to inspect and review the education record of a student are to be directed to the principal of the school in which the student is enrolled or to the school administrative offices for access to inactive records (e.g., graduates and withdrawals). Access shall be granted within a reasonable period of time not to exceed forty-five (45) calendar days after receiving the request. Review of records shall be permitted in the presence of the principal or a designated agent for the purposes of security and assistance in explaining or interpreting the data. The school shall respond to any reasonable request for explanation and interpretation of the records.

If the education records of a student contain information about more than one (1) student, the parent of the student or the eligible student may inspect and review or be informed orally or in writing of only the specific information which pertains to that student.

If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the student's education records, the school shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.

Copies shall be provided at a reasonable rate as determined by the school in order to cover the cost of copying, provided that the fee does not effectively prevent the parent or eligible student from exercising their right to inspect and review education records.

There shall be no fee to search for or to retrieve the education records of a student.

Record of Requests and Disclosures Required to be Maintained

The school shall maintain a record of each request for and each disclosure of personally identifiable information from the education records of a student. The school will maintain the record of disclosure with the education records of the student for as long as the records are maintained. For each disclosure, the record must include the parties who have requested or obtained personally identifiable information from the student's education records and the legitimate interests these parties had in requesting or obtaining the information. This requirement does not apply if the request was from or the disclosure was to:

1. A parent or eligible student;
2. School officials, such as administrators, teachers, school counselors and authorized support staff whom the school has determined to have a legitimate educational interest;
3. A party with the written consent of a parent or an eligible student;
4. A party seeking directory information; or
5. A party seeking or obtaining records in response to a lawfully issued subpoena or court order.

If a disclosure is made pursuant to a health or safety emergency, the school shall record the specific and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure, as well as the parties to whom the school disclosed the information.

The record of access shall include not only in-person access, but also cases where information is disclosed by any other means including, but not limited to, telephone, facsimile, email and/or mail. The school official permitting access/disclosure shall take necessary steps to confirm the identity of persons requesting student information and the legitimacy of the request.

The record of disclosure shall be available for inspection by parents, eligible students, school officials responsible for the custody of the records, and authorized representatives of the federal or state government for the purpose of auditing the school's recordkeeping procedures.

If the school discloses personally identifiable information from education records with the understanding that the party intends to re-disclose the information, the record of the disclosure must include:

1. The names of the additional parties to which the receiving party may disclose the information on behalf of the educational agency or institution; and
2. The legitimate interest which each of the additional parties has in requesting or obtaining the information.
3. This requirement does not apply to disclosures to authorized representatives of state and federal government to whom disclosure is permitted without parent/eligible student consent; however, the school will request a copy of the record of further disclosures from the state and/or federal government in response to a parent's or eligible student's request to review such records.

Amendment of Education Records

A parent or eligible student who believes that information in education records collected, maintained or used by the school is inaccurate, misleading or violates the student's privacy or other rights, has the right to request that the school correct, amend or delete the information under the following procedures:

1. The parent or eligible student shall submit, in writing to the principal, a request for amendment, which shall include a brief statement, which specifies the record(s) to be amended and the reason that an amendment is requested.
2. The principal shall decide whether to amend the information in accordance with the requests of the parent or eligible student within a reasonable time period not more than thirty (30) calendar days after receipt of the request.
3. If the principal decides to amend the information in accordance with the request, the principal shall notify the parent or eligible student, in writing, of the decision to amend the record.
4. If the principal decides not to amend the information as requested, the principal shall inform the parent or eligible student, in writing, of their decision, the specific reason(s) for the refusal, and the right to request a hearing.

Inaccuracies in student records can be changed at any point after a child has transferred to a new school; enrolled in further education; moved on to a different building in, graduated or withdrawn from the school, regardless of time constraints.

If the parent or eligible student is not satisfied with the principal's decision to not amend the record, they may submit a written request for a hearing to challenge the information in the student's education records to the CEO or designee within thirty (30) days of receiving the principal's decision.

The school shall hold the hearing within a reasonable time, not to exceed forty-five (45) calendar days, after receiving the request for a hearing and provide the parent or eligible student reasonable advanced written notice of the date, time, and place of the hearing. The school shall inform the parent or eligible student of its decision in writing within forty-five (45) calendar days after the hearing.

The hearing shall be conducted in accordance with the following requirements:

1. The hearing shall be conducted by a school official who does not have a direct interest in the outcome of the hearing.
2. The parent or eligible student shall have a full and fair opportunity to present relevant evidence.
3. The parent or eligible student may, at their own expense, be assisted or represented by one or more individuals of their choice, including an attorney.
4. The decision shall be based solely on the evidence presented at the hearing, and must include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, the school decides that the information is inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, the school shall amend the information accordingly and inform the parent or eligible student in writing.

If, as a result of the hearing, the school decides that the information is not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, the school shall inform the parent or eligible student of the parent's/student's right to place in the records a statement commenting on the information and/or providing any reasons for disagreeing with the school's decision.

Any statement placed in the student's records shall be:

1. Maintained by the school as part of the student's records as long as the record or contested portion is maintained by the school; and
2. Included with the record or contested portion if the record or contested portion are disclosed to any party.

Maintenance and Destruction of Information

The school shall maintain and destroy the educational records of all its students consistent with the student records plan.

Student health records shall be kept in the school building where the child attends school. Records shall be transferred with the child when they move to another school outside the school.

Staff members may maintain personal and confidential files containing grades, notes, transcripts of interviews, clinical diagnoses, and other memory aids for their own use in counseling students and parents. Such private notes are not to be made a part of the student's permanent or cumulative record, are not to be released to others, and must be destroyed when they no longer serve a useful purpose to the staff member or when the student or professional leaves the school or school system. Such notes are considered to be the personal property of the professional and shall be guarded by the tenets of professional ethics.

No education records containing information necessary for the education of a student who is enrolled or has been enrolled in an education program operated by the school shall be destroyed except as outlined in Board policy or the student records plan.

The destruction of any student records shall be by shredding, burning, deleting, erasing or any other method that renders information illegible and non-reconstructable through generally available means.

The school shall not destroy any education records if there is an outstanding request to inspect and review the records or if the education records are relevant to any existing or anticipated claims, actual or potential litigation, or other proceedings involving the student.

Section	2000 Students
Title	Notification of Rights Under FERPA
Code	2016-AR-4
Status	Active
Adopted	September 8, 2020

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over eighteen (18) years of age ("eligible students") certain rights with respect to the student's education records. These rights include:

1. The right to inspect and review the student's education records within forty-five (45) days of the day the school receives a request for access. Parents or eligible students should submit to the principal a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights. Parents or eligible students who wish to ask the school to amend a record should submit to the school principal a written request that clearly identifies the record or part of the record they want changed and specify why they feel it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One (1) exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing their tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility. Criteria for determining whether the official has a legitimate interest include, but are not limited to, whether particular information concerning the student is: (a) presently or potentially relevant to the provision of education, education-related services, or extracurricular activities or experiences, or (b) necessary to protect the health, safety, or welfare of school officials and/or other students with whom the student might have contact.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

5. The school is permitted by law to disclose appropriately designated "directory information" without obtaining the prior written consent of the parent or eligible student unless you have advised the school to the contrary in accordance with school procedures. The primary purpose of directory information is to allow the school to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two (2) federal laws require the school to provide military recruiters, upon request, with the following information on its junior and senior class students – names, addresses and telephone listings – unless parents have advised the school that they do not want their student's information disclosed without their prior written consent.

If you do not want the school to disclose directory information from your child's education records without your prior written consent, you must notify the school in writing. The school has designated the following information as directory information:

- a. The student's name, address, listed telephone number, date, and place of birth.
- b. Student's email address.
- c. Program or major field of study.
- d. Dates of attendance.
- e. Participation in officially recognized school activities and sports.
- f. Weight and height of members of athletic teams.
- g. Placement on the honor roll.
- h. Certificates and awards received.
- a. The most recent previous educational agency or institution attended by the student.
- j. Grade level.
- k. Enrollment status.
- l. Photograph/School Picture.

Questions regarding this notice or your rights under FERPA should be directed to the principal.

Section	2000 Students
Title	Graduation / Commencement
Code	2017-AR-1
Status	Active
Adopted	September 8, 2020

In order to graduate from the school, students must meet all graduation requirements established by the Board.

The academic progress and achievement of state academic and common core standards by individual students will be continually monitored by guidance staff at the high school throughout the student's years of attendance.

The high school principal will direct the guidance and teaching staff to compile a list of students who meet all graduation requirements and a list of students who do not meet graduation requirements. The principal will review the lists, and their determination will be final; however, a student does have a right to due process procedures regarding their graduation status.

The principal will forward the list of graduating students to the CEO, who will submit the list to the Board.

Commencement Ceremony

Acting on the recommendation of the CEO, the Board will set the date of the school commencement ceremony and approve necessary expenses.

The commencement program must be secular in nature and will be arranged under the direction of the senior high school principal or designee and approved by the CEO.

A student must complete the following in order to participate in the commencement ceremony:

Title	Discipline in School
Code	2018-AR-1
Status	Active
Adopted	September 8, 2020

Discipline is synonymous with teaching and learning. If learning is to prevail, discipline is essential. It creates a sound learning climate and promotes responsibility through self-discipline.

Discipline strives to educate on both an individual and collective basis; therefore, disciplinary procedures should promote respect for the dignity of individuals, as well as respect for authority and established standards.

The Board has the authority to adopt reasonable and necessary rules governing the conduct of students in school, on school property and at school-sponsored activities. The administration has the authority to implement the adopted rules and to assign discipline for violations of established rules.

A rule is generally considered reasonable if it uses a rational and neutral means of accomplishing some legitimate school purpose. School rules are assumed to be reasonable until they are rescinded or waived; therefore, students must obey school rules while working through channels to help change the rules with which they do not agree.

Student awareness of established rules minimizes discipline problems and provides students with an enumeration of acceptable conduct. School rules will be published and distributed to students and parents/guardians as the Code of Student Conduct. Rules may be posted in prominent locations throughout the schools.

School employees will recognize and follow a student's rights to due process.

Disciplinary actions such as in-school or after-school detentions should be considered before suspension or expulsion. Special consideration should be given to counseling as an alternative to or in conjunction with assigned discipline.

The Board, administration, staff and parents/guardians are interested in the welfare, rights and educational success of school students. Confrontations, individual misconduct and violations of the established Code of Student Conduct create disruptive and harmful situations where the innocent may suffer. A consistent and cooperative effort by the school community must be exercised to prevent such occurrences. It is vital that we realize the importance of sound relationships that are based upon mutual support and respect.

Responsibilities Of School Community

Discipline is the responsibility of the total school community. Everyone in the school community has the right to expect that the school environment will be safe, well-organized and conducive to teaching, learning and living.

It is the responsibility of the students, parents/guardians, staff administrators and Board to see that such an environment exists.

Student Responsibilities

Students attend school so they may develop to their fullest potential; therefore, each student is expected to:

1. Know all the rules and regulations for student behavior established by the Board and seek interpretation of items not understood.
2. Accept responsibility for their own actions.
3. Recognize that by law the teacher serves in place of the parent/guardian while the student is in school.
4. Recognize that teacher and administrative authority extends beyond the classroom to all school-related activities.
5. Be aware that by law minors are compelled to attend school until compulsory age and that regular, punctual school attendance and conscientious effort in the classroom are essential to learning.
6. Maintain standards of cleanliness and dress that meet reasonable standards of health and safety and do not cause disruption of the educational process.
7. Contribute information in matters relating to health, safety and welfare of the school community and protection of school property.
8. Respect and protect school property and the property of others.
9. See that all school-community communications are taken home to the parent/guardian.
10. Be honest and ethical.

Parent/Guardian Responsibilities

A cooperative effort between home and school is essential to each student's successful development and achievement. To achieve this relationship, parents/guardians are expected to:

1. Know all the rules and regulations for student behavior established by the Board and seek interpretation of items not understood.
2. Be aware of the responsibilities set forth for student by the school.
3. Teach their child self-respect; respect for the law; respect for the rules of the school community; respect for school employees; respect for other students; and respect for school property.
4. Set compatible expectations with the school's standards for study and completion of school assignment, and be available for assistance as needed.
5. Provide a home atmosphere conducive for study and completion of school assignments and be available for assistance as needed.
6. Insist on prompt and regular school attendance. Pennsylvania law provides for fines and discipline if a student of compulsory school age is continually delinquent in attendance.
7. Encourage student to bring home all school-community communications.
8. Be honest and ethical.

Teacher Responsibilities

Teachers are aware that their professional responsibilities extend beyond the instruction of subject material. The pursuit of educational excellence and student achievement requires a commitment to support and enforce school rules.

In order to achieve learning goals, teachers are expected to:

1. Know all the rules and regulations for student behavior established by the Board and seek interpretation of items not understood.
2. Make students aware of the Code of Student Conduct as it applies in the classroom and in the school.
3. Show by example a respect for school rules and enforce the rules in all areas of the school.
4. Develop an atmosphere of mutual respect and dignity and encourage a positive self-image and sense of self-worth for each student.
5. Plan and conduct a program of instruction that will stimulate interest in learning, while recognizing that, while important, their subject is only one (1) part of the total school program.
6. Serve in place of the parent/guardian in matters of discipline in accordance with law.
7. Handle minor student infractions of school rules. Report to the principal any student who jeopardizes their own safety or the safety of others or who seriously interferes with the instructional process.
8. Develop a cooperative relationship with parents/guardians and students for the educational benefit of the student.
9. Recognize changing behavior patterns in students, be available to discuss problems with students, strive to help students overcome negative peer pressure and, when necessary, make referrals to a counselor or administrator.
10. Be honest and ethical.

Building Administration Responsibilities

As the educational leaders of the school, building administrators must set the disciplinary climate for the students and staff. The building administrators are expected to:

1. Know all the rules and regulations for student behavior established by the Board and seek interpretation of items not understood.
2. Promote a climate of mutual respect and assume responsibility for dissemination, explanation and enforcement of the Code of Student Conduct.
3. Ensure that new students enrolling in schools receive the Code of Student Conduct at registration.
4. Implement the school Security Plan to ensure the health and safety of all members of the school community.
5. Be available to staff, students and parents/guardians to promptly resolve discipline problems and attempt to prevent problems.
6. Evaluate the program of instruction and assist the staff in developing an effective educational program.
7. Comply with pertinent laws governing hearings, suspensions and student rights.
8. Recommend to the school administration and Board appropriate policies and actions to achieve optimum conditions for a positive learning environment.
9. Provide orientation and inservice programs to implement and maintain school rules.

10. Be honest and ethical.

School Administration And Board Responsibilities

As the educational leaders and policy makers of the school, the Board of Education, CEO and respective members of the central administration must:

1. Work with students, parents/guardians, teachers and administrators to establish and maintain an atmosphere of openness and mutual respect.
2. Ensure that an appropriate Code of Student Conduct is developed, distributed, implemented and maintained.
3. Provide ample staff and administration for a quality education program and proper implementation of the Code of Student Conduct.
4. Provide a safe and secure environment for all members of the school community.
5. Be honest and ethical.

The CEO may directly handle referrals of extreme cases, or they may advise the principal in the proper disposition of the case. If expulsion is indicated, the CEO will refer the case to the Board.

Title	Consequences for Students Convicted / Adjudicated of Sexual Assault
Code	2018.3
Status	Active
Adopted	January 12, 2021
Last Revised	November 8, 2022

The Pennsylvania Legislature enacted Act 110 in an effort to protect student sexual assault victims. 21st Century Cyber Charter School (the "Charter School") has complied with the requirements of Act 110 since its passage. In a manner consistent with state law, this Consequences for Students Convicted or Adjudicated Delinquent of Sexual Assault Policy requires the imposition of disciplinary consequences for a student convicted or adjudicated delinquent of sexual assault upon another student enrolled in the Charter School. To the extent that anything in this Policy could be construed to conflict with the Charter School's charter or applicable State and/or Federal laws, the applicable State and/or Federal laws and/or Charter control.

Requirements

If a student enrolled in the Charter School is convicted or adjudicated delinquent of committing a sexual assault upon another student enrolled in the Charter School, the Charter School shall, pursuant to applicable laws and regulations, take one of the following actions:

- (i) Expel the convicted or adjudicated student.
- (ii) Transfer the convicted or adjudicated student to an alternative education program.
- (iii) Reassign the convicted or adjudicated student to another educational program within the Charter School.

The CEO or designee shall ensure that the convicted or adjudicated student is not educated in the same virtual classroom (or have access to the same virtual space), transported on the same vehicle or allowed to participate in the same school-sponsored activities at the same time as the victim.

The Charter School may not expel, transfer or reassign the convicted or adjudicated delinquent student if:

- (i) The Charter School has already expelled, transferred or reassigned the convicted or adjudicated delinquent student for the same sexual assault.
- (ii) The convicted or adjudicated student does not attend the same school as the victim.

The Charter School is not prohibited from taking action under this policy for convictions or adjudications for sexual assaults that occur outside a school setting if the assault:

(1) was against another student enrolled in the Charter School; and

(2) has the effect of:

(i) substantially interfering with the victim's education;

(ii) creating a threatening or hostile educational environment; or

(iii) substantially disrupting the orderly operation of the school.

A student expelled, transferred or reassigned pursuant to this policy may return to the student's originally assigned educational placement within the Charter School only if:

(1) the victim ceases to be enrolled in the Charter School; or

(2) the conviction or delinquency adjudication on which the expulsion, transfer or reassignment was based is reversed and no appeal is pending.

Nothing in this policy shall be construed as limiting the authority or duty of the Charter School to make an alternative assignment or provide alternative educational services during or after the period of expulsion.

A student convicted of sexual assault upon another student enrolled in the Charter School shall notify the Charter School of the conviction no later than 72 hours after the conviction.

Upon receipt of a student who transfers from a public or nonpublic school during or after the period of expulsion for an act or offense involving a sexual assault conviction or adjudication of delinquency, the Charter School may assign that student to an alternative assignment or provide alternative education services.

Prior to admission to the Charter School, the parent, guardian or other person having control or charge of a student shall, upon registration, provide a sworn statement or affirmation stating whether the student was previously or is presently expelled under the provisions of this policy. The registration shall include the name of the school from which the student was expelled with the dates of expulsion and shall be maintained as part of the student's disciplinary record. Any willful false statement made pursuant to this requirement shall be subject to 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities).

The Charter School shall, in the case of students with disabilities, take all steps necessary to comply with the Individuals with Disabilities Education Act.

Purpose

The Board of Trustees (Board) recognizes that students have the right to request redress of complaints. In addition, the Board believes that the demonstration of respect for established processes is an important part of the educational process. Accordingly, individual and group complaints from students shall be recognized, and appropriate appeal procedures shall be provided.

Definition

For purposes of this policy, a student complaint shall be one that arises from actions that directly affect the student's participation in an approved educational program.

Authority

The Board and its employees shall recognize the complaints of students, provided that such complaints are submitted according to the established administrative procedures developed by the Chief Executive Officer or designee.

The Board directs the Chief Executive Officer to ensure that students, staff and parents/guardians are informed of the established complaint process.

Guidelines

The student should first make the complaint known to the staff member most closely involved or, if none is identifiable, a guidance counselor or teacher; and both shall attempt to resolve the issue informally and directly.

For complaints that must move beyond the first step, the student shall prepare a written statement of their complaint which shall set forth:

1. Specific nature of the complaint and a brief statement of relevant facts.
2. Manner and extent to which the student believes they have been adversely affected.

3. Relief sought by the student.

4. Reason(s) why the student feels entitled to the relief sought.

The complaint may then be submitted, in turn, to the Chief Executive Officer, with a suitable period of time allowed for hearing of the complaint and preparation of a response.

A student shall not be subjected to any reprisals because of filing a complaint.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Prior Revised Dates	September 11, 2018, January 14, 2020

Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board of Trustees (Board) respects the right of students to express themselves in word or symbol and to disseminate non-school materials to others as part of that expression. The Board also recognizes that the exercise of that right is not unlimited and must be balanced with the Charter School's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the Charter School community.[\[1\]](#)

This policy addresses student expression in general as well as dissemination of expressive materials that are not part of Charter School-sponsored activities (non-school materials).

This policy does not apply to materials sought to be disseminated as part of the curricular or extracurricular programs of the Charter School, which shall be regulated separately as part of the Charter School's educational program.

Definitions

For purposes of this policy, dissemination shall mean students distributing or publicly displaying non-school materials to others:

1. On Charter School property or during Charter School sponsored activities by placing such materials upon desks, tables, on or in lockers, walls, doors, bulletin boards, or easels; by handing out such materials to other persons; or by any other manner of delivery to others; or
2. At any time or location when creating or sending information using email, websites, online platforms, social medial channels or other technological means that are owned, provided or sponsored by the Charter School.

Expression means verbal, written, technological or symbolic representation or communication.

Non-school materials means any printed, technological or written materials, regardless of form, source or

authorship, that are not prepared as part of the curricular or approved extracurricular programs of the Charter School. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, online discussion areas and digital bulletin boards, personal websites and the like.

Authority

Limitations on Student Expression

Students have the right to express themselves unless such expression is likely to or does materially and substantially disrupt or interfere with the educational process, including school activities, school work, discipline, safety and order on Charter School property or at school functions; threatens serious harm to the Charter School or community; encourages unlawful activity; or interferes with another's rights. Student expression is prohibited to the extent that it:[\[1\]](#)

1. Violates federal, state or local laws, Board policy or Charter School rules or procedures;
2. Is defamatory, obscene, lewd, vulgar or profane;
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/vaping products, alcohol or illegal drugs;
4. Incites violence, advocates use of force or threatens serious harm to the Charter School or community;
5. Materially and substantially disrupts or interferes with the educational process, such as school activities, school work, discipline, safety and order on Charter School property or at school functions;
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the Charter School and its programs; or
7. Violates written Charter School procedures on time, place and manner for dissemination of otherwise protected expression.

Student expression that occurs on Charter School property or at Charter School-sponsored events or occurs at any time or place when created or communicated using Charter School provided equipment, email, websites or other technological resources, is subject to this policy. The limitations, prohibitions and requirements of this policy will apply to expression that occurs outside the foregoing circumstances only when and to the extent that the out-of-school expression:[\[1\]](#)[\[2\]](#)

1. Incites violence, advocates use of force or otherwise threatens serious harm directed at students, staff, or the school environment;
2. Materially and substantially disrupts or interferes with the educational process, such as school activities, school work, discipline, safety and order on Charter School property or at school functions; or
3. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the Charter School and its programs.

Dissemination of Non-School Materials

The Board requires that dissemination of non-school materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of the Charter School, while recognizing the rights of students to engage in protected expression.[\[1\]](#)[\[3\]](#)

The Board requires that students who wish to disseminate non-school materials on Charter School property shall obtain approval by submitting them at least 2 school day(s) in advance to the principal or administrator who shall forward a copy to the Chief Executive Officer.[\[1\]](#)

If the non-school materials include matters prohibited by this policy, the principal or administrator shall promptly notify the students of the nature of the violation and that they may not disseminate the materials until the violation is corrected and the materials are resubmitted for approval.

If notice of disapproval is not given during the period between submission and the time for the planned dissemination, students may consider the request approved and proceed with dissemination as requested, subject to all other established procedures and requirements relating to time, place and manner of dissemination. Students may nonetheless be directed to cease or suspend dissemination if it is later determined that the materials or the dissemination of them are in violation of this policy or implementing rules and procedures.

Students who disseminate printed non-school materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves. Printed non-school materials displayed in a fixed location of a Charter School building shall bear the date when placed in each location. The Charter School may remove the materials within 10 school days of the posting or other reasonable time as stated in the applicable procedures.

Review of Student Expression

Review of non-school materials proposed for dissemination shall be conducted promptly so as to avoid unreasonable delay in dissemination.

Charter School officials shall not censor or restrict non-school materials or other student expression for the sole reason that it is critical of the Charter School or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible, and apart from regarding time, place and manner, shall not be restricted unless the expression violates some other aspect of this policy, e.g., because it is independently determined to be in violation of this policy for reasons other than the religious nature of the content.

Appeal of the reviewer's decision may be made to the Chief Executive Officer and then to the Board, in accordance with Board policy and Charter School procedures.[5]

Delegation of Responsibility

The Chief Executive Officer shall assist the principal or administrator in determining the designation of the places and times non-school materials may be disseminated in each Charter School building. Such designations may take into account maintenance of the flow of student traffic throughout the building and shall limit dissemination of non-school materials to non-instructional times.

When student dissemination of non-school materials or other student expression violates this policy, the building principal or administrator may determine what if any disciplinary or other consequences should be imposed. Disciplinary actions shall be in accordance with applicable Board policy and the Code of Student Conduct.[6][7][8]

The Chief Executive Officer shall ensure that building principals, administrators and other staff involved in reviewing non-school materials proposed for dissemination and evaluating whether violations of this policy have occurred receive training regarding applicable standards and procedures. Special emphasis shall be given to understanding the limitations on Charter School officials' authority to regulate off-campus student expression, as well as the need to articulate in detail the nature and extent of disruption to or interference with the school environment thought to be caused by on or off-campus student expression and the specific manner by which the student expression involved is thought to have caused it.

This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

This exception shall be governed by Board policy relating to Controlled Substances/Paraphernalia.*[4]

Authority

The Board prohibits possession, use or sale of tobacco, nicotine, vaping products and/or related delivery products, including the product marketed as Juul and other e-cigarettes, regardless of whether such products contain tobacco or nicotine, by or to students at any time in a Charter School building and on any property, buses, vans and vehicles that are owned, leased or controlled by the Charter School; or at school-sponsored activities held off school property.[1][2][3]

The Board also prohibits student possession, or use of products marketed and sold as tobacco cessation products or for other therapeutic purposes, except as authorized in the Board's Medications Policy.

A student who violates this policy shall be subject to prosecution and, if convicted, shall be required to pay a fine plus court costs. In lieu of the imposition of a fine, the court may admit the student to an adjudication alternative.[2]

Tampering with devices installed to detect use of tobacco or vaping products shall be deemed a violation of this policy and subject the tampering student to disciplinary action.[12]

Students with Disabilities

Status	Active
Adopted	September 8, 2020

Board policy prohibits students from possessing, using, purchasing or selling tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes, at any time in a school building; on school buses or other vehicles that are owned, leased or controlled by the school; on property owned, leased or controlled by the school; or at school-sponsored activities that are held off school property.

State law defines the term tobacco product to broadly encompass not only tobacco but also vaping products including Juuls and other electronic cigarettes (e-cigarettes). Tobacco products, for purposes of Board policy and administrative regulations, and in accordance with state law, shall be defined to include the following:

1. Any product containing, made or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed or ingested by any other means, including, but not limited to, a cigarette, cigar, little cigar, chewing tobacco, pipe tobacco, snuff and snus.
2. Any electronic device that delivers nicotine or another substance to a person inhaling from the device, including, but not limited to, electronic nicotine delivery systems, an electronic cigarette, a cigar, a pipe and a hookah.
3. Any product containing, made or derived from either:
 - a. Tobacco, whether in its natural or synthetic form; or
 - b. Nicotine, whether in its natural or synthetic form, which is regulated by the United States Food and Drug Administration as a deemed tobacco product.
4. Any component, part or accessory of the product or electronic device listed in this definition, whether or not sold separately.

The term tobacco product does not include the following:

1. A product that has been approved by the United States Food and Drug Administration for sale as a tobacco cessation product or for other therapeutic purposes where the product is marketed and sold solely for such approved purpose, as long as the product is not inhaled.
NOTE: This exception shall be governed by Board policy relating to Medications.
2. A device, included under the definition of tobacco product above, if sold by a dispensary licensed in

compliance with the Medical Marijuana Act.

NOTE: Guidance issued by the PA Department of Health directs schools to prohibit possession of any form of medical marijuana by students at any time on school property or during any school activities on school property. This exception shall be governed by Board policy relating to Controlled Substances/Paraphernalia.

Prohibition of the possession, use, purchase and sale of tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes, by students applies during normal school hours, as well as during school activities at other hours that take place in buildings and on buses, vehicles and property owned, leased or controlled by the school. This policy will apply at all times a student is subject to the supervision of designated school staff, such as at any school function, extracurricular event, field trip, work-study program and other school-related activities.

Schools will maintain a tobacco product-free environment by taking positive action through educating students in the classroom on the health and safety hazards of using tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes; counseling individual students when necessary and appropriate; and communicating Board policy and administrative regulations with staff, students, parents/guardians and the community.

School counselors will provide interested students with information regarding available tobacco cessation programs.

Notices prohibiting possession, use, purchase and sale of tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes, will be posted in school buildings and on school property.

school publications such as the Code of Student Conduct, student handbooks, school mailings, parental newsletters, the school website and programs for events will include notice of the Tobacco and Vaping Products policy.

Procedure

school administrators and staff will be responsible to ensure that students adhere to the adopted Board policy prohibiting student possession, use, purchase and sale of tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes. Students will also be notified that tampering with devices installed to detect the use of tobacco or vaping products on school property will be deemed a violation of Board policy and administrative regulations, and will be subject to disciplinary action. Violations will be in accordance with the following procedure:

1. All school employees will be required to report suspected possession, use, purchase or sale of tobacco or vaping products by students, or tampering of detection devices, to the designated building administrator.
2. The administrator will investigate the alleged violation of Board policy.
3. If the administrator determines the student has violated Board policy, the administrator will confiscate the material and determine the appropriate disciplinary action to be assigned, in accordance with the Code of Student Conduct. Confiscated material will be documented and may be disposed of by the building administrator following the investigation process.
4. Parents/Guardians will be notified of the student's offense and the disciplinary action taken by the administrator.
5. A record of the offense and the disciplinary action will be placed in the student's records.
6. The student may be referred to a guidance counselor, school nurse, Student Assistance Program (SAP) Team, or other health or counseling services for health information or referral for tobacco cessation.
7. The administrator will report the offense to the school police, School Resource Officer (SRO), or the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

These procedures shall be followed when medications must be administered during school hours. All principals, school nurses and contract professional nurse substitutes shall review these procedures and ensure that they are followed. Our responsibility is to safeguard child health, safety and welfare at all times.

Procedures for Administering Medication:

1. No prescribed medication will be administered at school without a physician/CRNP (prescriber) order and a completed Authorization for School Administration of Medication and/or Self-Administration of Medication form.
2. Medications will be administered by, Licensed professional nurse/ RN substitute, student (if qualified to self-administer), parent/guardian.
3. All medications will be locked in a container or secured container (when offsite) in an agreed upon location between the school nurse and principal. Location should follow the double locked area in accordance with the controlled substances law and to ensure student privacy. The location of medications along with the key to the cabinet needs to be communicated to the principal or his or her designee in the principal's absence, to insure uncomplicated access by authorized individuals.
4. All medications submitted to the school must be in the original pharmacy container clearly labeled with the student's name and birth date. (This does not always appear on the label.)
5. The nurse assigned to each school will review the orders and medications. The prescriber's orders must match the medication provided to the school by the parent/guardian. If any concerns arise, the school nurse will clarify the orders with the parent and/or prescribing physician.
6. Students requiring medications during school will have their own medication administration sheet prepared and placed in the health record followed directly by the prescriber's order. The assigned school nurse is responsible for compiling this information.
7. An identification photo will be submitted to the school nurse by the principal/designee. The school nurse will attach the photo to each student's medication administration page.

8. All medication given to the student shall be marked on that chart at the time of administration, unless the student is self-administering. Student should initial.
9. The school nurse is responsible for contacting parent to ensure that the appropriate supply of medication is available for the student. It is the parents' responsibility to supply the medication.
10. Any student that refuses medications should be reported to the parent/guardian and the principal, and refusal should be documented on the student's medication chart. Substitute professional nurses must first notify the school nurse or principal.
11. Medication will be secured in a location away from other supplies and double locked when unattended. No student will have access to this location unsupervised.
12. The school has no responsibility for medicine that is stored. The medicine remains the property of the parents/guardians of the student.
13. Errors that occur while dispensing medication must be immediately reported to the CSN, the principal, and the parent. The principal shall contact the parent. The principal and school nurse should complete a critical incident report
14. Do not send medications home with students. All medications must be picked up by the parent/guardian at the end of the event or day (which ever comes first). If the parent provides permission for the medication to be discarded, proceed. Discuss the plan with the parent.
15. A standing doctor's order may authorize the use of an epinephrine auto-injector for an individual student experiencing anaphylaxis. The order may require 911 to be called when an epinephrine auto-injector has been used or administered.

Proper Administration of Medication

Before administering any medication, five things must be checked to avoid errors and ensure that the medication is being given appropriately. The five 'rights' are as follows:

THE FIVE RIGHTS

RIGHT PERSON	Ask the student their name and birth date. Check the photo i.d. against the student's name on the medication administration sheet.
RIGHT MEDICATION	Medication should be in the original container.
RIGHT DOSE	The dose on the container should match the prescriber's order. If controlled medications are given to students in school, the number of pills sent to school should be documented on the medication admin. sheet with the date.
RIGHT ROUTE	Check the prescriber's orders to insure proper route of administration.
RIGHT TIMES	Check the prescriber's orders and medication label for time/frequency of administration. Look at the medication label to insure that the medication has not expired. If more than one dose is provided during the school day, has it been long enough between doses?

Do not leave medications unsupervised. Medication administration errors are prevented when careful attention and re-checking occur throughout the process.

Title	Withdraw from School
Code	2025

Purpose

It is in the best interests of both students and the community that students complete the educational program that will equip them with skills and increase their chances for a successful and fulfilling life beyond the Charter School.

Authority

The Charter School directs that whenever a student wishes to withdraw, effort will be made to determine the underlying reason for such action and the resources of the school should be used to assist the student in reaching their career goals. No student of compulsory school age will be permitted to withdraw without the written consent of a parent and other justification, and only upon demonstration to the satisfaction of the administration that the student meets a statutory exception to compulsory attendance criteria. All efforts possible will be extended in an attempt to retain students in school and assist them in earning a diploma.

Purpose

The Board of Trustees (Board) acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the Charter School's interest in protecting and preserving the health, safety and welfare of the Charter School population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

Authority

Charter School officials have the authority to lawfully search students or their belongings, including automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when on Charter School property or when otherwise under Charter School supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the Charter School population, or evidence that there has been a violation of the law, Board policy, or Charter School rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched. [\[1\]](#)[\[2\]](#)[\[3\]](#)

The Charter School has a compelling interest in protecting and preserving the health, safety and welfare of the Charter School population, which under certain circumstances may warrant general or random searches of students and their vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto Charter School property of controlled substances, weapons or other dangerous materials.

Electronic Searches

By using 21CCCS' network and technology resources, all users are expressly waiving any right to privacy and consenting to having their electronic communications and all other use accessed, reviewed, and monitored by 21CCCS in accordance with 21CCCS Policies and Procedures. A user account with e-mail access will be provided to authorized users only on the conditions that the user consent to interception of or access to all communications accessed, sent, received, or stored using 21CCCS technology.

Electronic communications, downloaded material, and all data stored on 21CCCS technology resources, including files deleted from a user's account, may be intercepted, accessed, or searched by 21CCCS administrators or designees at any time in the regular course of business to protect users and 21CCCS

equipment. Any such search, access, or interception will be reasonable and shall comply with all applicable laws.

School Issued Equipment Search

School officials retain the right to electronically inspect and enter school-issued devices and accounts at any time, for any reason, using remote management software installed on all devices. The software must remain enabled and the device must remain accessible at all times.

21CCCS shall not remotely access any webcam or video camera on any computer or electronic device issued to a student without obtaining prior written permission from the parents/guardians (or student if age 18 or older).

Delegation of Responsibility

The Board authorizes the administration to conduct searches of students or their belongings, including automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Chief Executive Officer or designee, in consultation with the Charter School solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that Charter School staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.[\[1\]](#)

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

Individualized Suspicion Searches

Students or their belongings, including automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when on Charter School property or when otherwise under Charter School supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the Charter School population, or evidence that there has been a violation of the law, Board policy, or Charter School rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[\[1\]](#)

In determining whether reasonable suspicion exists, the administrator or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by Charter School staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, Board policy or Charter School rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

Random or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including vehicles parked on Charter School property, may be conducted during the school day or upon entry into Charter School buildings, property or Charter School activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto Charter School property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior

incident, in or out of the Charter School, which threatens to spill over into the Charter School, into a school-sponsored activity, or into other times and places that students are under Charter School supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in the Charter School.

Searches Upon Consent

Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.

Searches By or at the Request of Law Enforcement Officials

The legal standards governing searches initiated by Charter School officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings or vehicles, are conducted by or at the request of law enforcement officials, with or without the involvement of Charter School staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. Charter School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.

Handling and Disposal of Items Found in the Course of Searches

Illegal or Prohibited Materials

Illegal or prohibited materials discovered during a student search may be used as evidence against a student in a school disciplinary proceeding or legal hearing. As appropriate, 21CCCS may contact law enforcement agencies in response to any such discovery.

The building administrator shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Purpose

The Board of Trustees (Board) recognizes that fundraising activities by Charter School classes, programs, clubs and student organizations provide educational and extracurricular opportunities; however, the Board acknowledges that solicitation of funds from students must be limited because compulsory attendance laws make the student a captive donor and such solicitation may disrupt the Charter School's educational program.

Definition

For purposes of this policy, **student fundraising** shall include solicitation and collection of money by students in exchange for goods or services.

Authority

The Board prohibits the collection of money by a student for personal benefit in Charter School buildings, on Charter School property or at any school-sponsored activity.

The Chief Executive Officer or designee shall develop administrative procedures to implement this policy.

principals and activity sponsors should thoroughly plan with school groups so there will be a limited need for urgent or hurry-up types of fundraising requests. The farther in advance that permission is secured, the more likely it is that proper planning, as well as correct implementation of Board policy will occur.

Organizations that request to conduct a fundraising activity must make application to the principal. The application form is available in the main office and contains the following information: the activity proposed, potential use of the revenue, proposed involvement by students, and other information requested by the administration.

The activity sponsor will submit the completed request form for each planned fundraiser to the principal at least four (4) weeks prior to the start of the campaign. The application should be submitted prior to the students' involvement in ordering, selling or sales-related activity.

The principal will reply in writing to the activity sponsor no later than two (2) weeks after receiving the application. The principal will approve a fundraising activity when they are assured that the activity satisfies safety concerns; is consistent with the school's educational objectives and community standards; complies with federal, state and local laws; and that students are not being exploited or forced to participate. If the request is denied, the principal will state the reason for denial.

Upon approval of a fundraising activity, the principal will forward to the CEO a copy of the approved application, and the CEO will maintain a file of current fundraising activities for review by the Board upon request.

All student fundraisers will adhere to the following guidelines:

1. For safety reasons, the school strongly discourages door-to-door sales by students, unless accompanied by a parent/guardian. Students should not be used as door-to-door sales agents.
2. Items sold must be in good taste and appropriate to potential customers.
3. No student can be required to participate in a fundraiser.
4. When outside companies or agencies are used, the quality of the product and reputation of the firm must be considered. Related contracts must be reviewed and approved by the Business Administrator prior to signing.
5. No money will be given to vendors prior to delivery of services. If up-front money is required, the

school will keep the funds until the product is delivered.

6. Schools will not be involved in any way with fundraising activities that involve the use or sale of weapons, alcohol, tobacco, drugs or medications, and/or any material that encourages violence, immorality or abusive behavior.

Acceptable methods of fundraising include, but are not limited to, the following:

1. Bake sales.
2. Car washes.
3. Concession stand sales for one (1) season of a school activity.
4. School dances, with proper planning and supervision.
5. Sale of school-oriented products.
6. Nutritious food items.
7. Nonfood items.
8. Athletic events, concerts, recitals, dramatic performances, when held after school hours.
9. Student and/or class photographs.
10. Operation of school stores.
11. Fairs, such as book fairs, fun days, etc.
12. Seasonal gift items.

Charitable Drives

Sponsors of charitable organizations must apply to the principal on the available form, and the fundraising activity must be approved by the principal, who will coordinate the scheduling of such drives with approved school fundraisers.

School-Wide Fundraisers

Applications for school-wide fundraisers will be submitted on the available form to the CEO.

School administrators will cooperatively review the application and determine if approval will be granted.

The CEO will submit to the Board a written report outlining the administrators' decision and the rationale for the decision.

Control of Funds

Faculty sponsors are responsible for depositing in the main office all money collected through fundraising activities. Deposits should be made as soon as possible after collection, and under no circumstances will money be left in classrooms or student lockers.

Money deposited in the main office requires a deposit receipt to be issued to the depositor. Once deposited, money cannot be removed without permission of the principal. Uncounted money must be placed in a sealed envelope and counted by the depositor at a later time.

All applicable sales tax must be paid on fundraiser items.

All financial statements regarding fundraising projects will be signed by the student officers and faculty sponsor and retained until the student activities fund has been audited.

Faculty sponsors will complete the Financial Report form and submit it to the principal within thirty (30) days after the ending date of the fundraising project.

Authority

The Board supports public performances by students when they constitute a learning experience that contributes to the educational program; they do not interfere with other scheduled instructional activities; and the circumstances of the event do not pose a threat to the health, safety or well-being of the students who are involved.

Delegation of Responsibility

All requests for public performances by student groups require the approval of the Chief Executive Officer.

The Chief Executive Officer or designee shall develop administrative procedures to implement this policy.

Title	Procedures for Public Performances by Students
Code	2030-AR-1
Status	Active
Adopted	September 8, 2020
Last Revised	September 12, 2023

Student participation in school-sponsored public performances, productions and contests will be limited to those activities that are educationally sound, worthy and timely. Performances and productions should contribute to educational goals and objectives. Student participation should supplement and enrich the school experience and not substantially disrupt regularly scheduled classes and activities.

The principal, in cooperation with faculty advisors, will ensure that the following guidelines are followed regarding public performances by students:

1. Written parental permission is sought and received prior to students participating in any public performance.
2. Arrangements are made to provide proper supervision and to assure that participating students conduct themselves in a manner that brings credit to the school.
3. When public performances are scheduled as a regular part of a planned course of instruction taken for credit, students will be informed in advance of their obligation to participate in public performances. Students will be excused from participation only in accordance with the Board policy and administrative procedures governing school attendance.
4. The interests of students will be protected and guarded against exploitation for personal or business gain and from added work and/or responsibilities.
5. No school student, group of students, or employees will receive compensation for a public performance of students organized as school representatives.

Requests for a school organization to perform in the community will be made in writing. The faculty advisor will submit the request to the principal, who will approve or disapprove the request.

Requests for a school organization to perform outside the community will be made in writing. The faculty advisor will submit the request to the principal. The principal will recommend approval or disapproval and will forward the request to the CEO. The CEO will make the final decision regarding approval.

Requests that require students to be away from the school overnight must be submitted to the CEO at least six (6) weeks in advance of the proposed activity.

Prior to making a commitment for a school-sponsored group to participate in a public performance, the faculty advisor will provide written assurance to the principal or CEO that the activity in which the group proposes to participate is not politically affiliated and that participation will not create a conflict with students' academic programs.

The faculty advisor is responsible for making arrangements for the transportation of school-sponsored student groups to public performances.

Permission Forms

The faculty advisor will prepare a blanket permission form, approved by the principal. The form will be distributed to parents/guardians, and their signature will indicate their willingness to have their student participate in the activities and public performances of the group.

Permission forms will be distributed at the start of each school term. The faculty advisor will collect and maintain the permission forms for all students.

New students who join a student group throughout the term will be issued a permission form at the time of enrollment.

School Productions

The faculty advisor of a student production will make a tentative selection of the production and will submit the recommendation to the principal. The principal will have final approval of the selection of a school production.

The faculty advisor, in cooperation with the principal, will ensure that a student production contains no speech that:

1. Is vulgar, indecent or obscene.
2. Voices libelous comments, personal attacks or abusive language, such as language defaming an individual's race, religion, ethnic origin, gender, family status or disability.
3. Causes or clearly threatens to cause a material and substantial disruption of normal school functions or activities.
4. Encourages commission of unlawful acts or violation of lawful school rules or regulations.
5. Promotes any product or service not allowed to minors by law.

Student Representation

Representing the school in a public performance is an honor accorded students who display good citizenship.

A student's single act of egregious behavior or persistent disregard for Board policies, Code of Student Conduct, administrative procedures or school rules will be cause for the principal or designee to refuse to allow a student to represent the school.

When a faculty advisor or principal believes grounds exist to refuse a student's participation in a public performance, the principal and advisor will have a conference to share all available information.

The students and the parents/guardians will be notified as soon as possible when a student is being denied the privilege of representing the school in a public performance.

In a case of a student violating Board policy, Code of Student Conduct, administrative procedures or school rules, discipline will be in accordance with the relevant documents, which may include exclusion from participation in the school-sponsored activity.

#### Exclusion From School - Suspension

The building administrator or person in charge of the Charter School program may suspend a student for disobedience or misconduct for a period of one (1) to ten (10) consecutive school days, and shall immediately notify the parent/guardian in writing when the student is suspended.[\[2\]](#)[\[5\]](#)

No student may be suspended without notice of the reasons for which they are suspended and an opportunity to be heard on their own behalf before the Charter School official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the Charter School population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.[\[2\]](#)

When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated Charter School official. Such hearing shall take place as soon as possible after the suspension, and the Charter School shall offer to hold it within the first five (5) days of the suspension.[\[2\]](#)[\[8\]](#)

Informal hearings under this provision shall be conducted by the building administrator and/or designee.

#### Purpose of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses. [8]

#### Due Process Requirements for Informal Hearing

1. The student and parent/guardian shall be given written notice of the reasons for the suspension. [8]
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The Charter School shall offer to hold the informal hearing within five (5) days of the suspension.

#### Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the Charter School any student whose misconduct or disobedience warrants such sanction. No student shall be expelled without an opportunity for a formal hearing before the Board, or before a duly authorized committee of the Board or before a qualified hearing examiner appointed by the Board, and upon action taken by the Board after the hearing. [2][5][8]

#### Expulsion Hearings

A formal hearing shall be required in all expulsion actions. [2][5][8][9]

The formal hearing shall observe the following due process requirements: [8]

1. Notification of the charges in writing by certified mail to the student's parent/guardian.
2. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures, and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when they demonstrate good cause for an extension.
3. The hearing shall be private unless the student or parent/guardian requests a public hearing.
4. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.
5. Disclosure of the names of witnesses against the student and copies of such witnesses' written statements or affidavits.
6. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.
7. The right to testify and present witnesses on the student's behalf.
8. A written or audio record shall be kept of the hearing and a copy of the written or audio record shall be made available to the student at the student's expense, or at no charge if the student is indigent.
9. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:
  1. The need for laboratory reports from law enforcement agencies.
  2. Evaluations or other court or administrative proceedings are pending due to a student's invoking their rights under the Individuals with Disabilities Education Act ("IDEA").
  3. Delay is necessary due to the condition and/or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury.
10. Notice of a right to appeal the results of the hearing shall be provided to the student with the

expulsion decision.

### Adjudication

A written adjudication shall be issued to the student and/or parent/guardian after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions. [10]

### Attendance/School Work During Suspension and Prior to Expulsion

Students serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to established guidelines. [2]

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the Charter School may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in their normal class or program would constitute a threat to the health, safety or welfare of others.

### Attendance/School Work After Expulsion

Students who are under eighteen (18) years of age are still subject to compulsory school attendance even though expelled and shall be provided an education. [2][4]

The parent/guardian has the initial responsibility of providing the required education and shall, within thirty (30) days, submit written evidence to the Charter School that the required education is being provided or that they are unable to do so. If the parent/guardian is unable to provide for the required education, the Charter School shall, within ten (10) days of receipt of the parent's/guardian's notification, make provision for the student's education.

The Board may provide an educational program to the student immediately upon expulsion and may waive the 30-day period, at its discretion.

### Students With Disabilities

A student with a disability shall be provided educational services as required by state and federal laws and regulations, and Board policy. [4]

### **Delegation of Responsibility**

The Chief Executive Officer or designee shall develop administrative procedures to implement this policy which include:

1. Publication of a Code of Student Conduct, in accordance with Board policy on student discipline.
2. Procedures that ensure due process when a student is being deprived of the right to attend school.
3. Procedures regarding student records, which require that records of disciplinary suspension be maintained in accordance with Board policy on student records.
4. The name of a student who has been disciplined shall not become part of the agenda or minutes of a public meeting, nor part of any public record of the Board. Such students may be designated by code.
5. Any student who has been expelled may apply for readmission to the Charter School upon such conditions as may be imposed by the Board.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Exclusion from school represents the most severe disciplinary action of the school. Exclusion removes the student from the classroom and revokes all of their social privileges during the period of the exclusion. Exclusion from school may take the form of in-school suspension, out-of-school suspension or expulsion. The administration and the Board have the right to impose and use any combination of school exclusions necessary to address the misconduct, in accordance with Board Policy and the applicable student conduct rules.

#### Exclusion from School - Suspension: Ten (10) Days Or Less

**Out-of-school suspension** is removal of a student from school for a period of one (1) to ten (10) consecutive school days. The principal, other administrators in charge of the building, the CEO or the Board may assign an out-of-school suspension to a student. No student may be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given to the student when it is clear that the health, safety or welfare of the school community is threatened. The parents/guardians of the student and the CEO will be notified immediately in writing when a student is suspended. Suspensions may not be made to run consecutively beyond the 10-school day period.

When the out-of-school suspension exceeds three (3) school days, the student and the student's parent/guardian will be given the opportunity for an informal hearing with the principal and CEO.

The purpose of the informal hearing is to bring forth all relevant information regarding the event for which the student may be suspended and for the student, parent/guardian and school officials to discuss ways by which future offenses might be avoided.

The principal and CEO will offer to hold the informal hearing within the first five (5) days of the suspension. Delay of the informal hearing will not operate to delay return to school. The following due process requirements are to be observed in regard to the informal hearing: (a) notification of the reasons for the suspension will be given in writing to the parents/guardians and to the student; (b) sufficient notice of the time and place of the informal hearing will be given; (c) the student has the right to question any witnesses present at the hearing; (d) the student has the right to speak and produce witnesses on their own behalf.

During an out-of-school suspension, a student is placed into the custody of their parents/guardians during the hours of the regular school day, and is not permitted to attend any school functions, to be on school grounds or to participate in any school activities. A student is expected to make up all missed exams and

school work during their exclusion within a reasonable time period upon their return to school, as determined by the building administration and the student's teachers.

### Expulsion

**Expulsion** is exclusion from school by the Board for a period exceeding ten (10) school days, and may be permanent expulsion from the schools. No student will be expelled without an opportunity for a formal hearing before the Board or qualified hearing examiner appointed by the Board as set forth in Policy 2033. All of the due process requirements and procedures set forth in Policy 2033 will be followed with respect to the Board hearing.

The hearing will be held in accordance with Policy 2033 and 22 Pa. Code §12.8(b). If it is not possible for the hearing to be held and the Board to vote on the expulsion while the student is suspended, the student will be placed in their normal class at the end of the suspension period pending the Board's decision; however, if it is determined after an informal hearing that the student's presence in their normal class would constitute a threat to the health, safety or welfare of others and it is not possible to hold a formal hearing within the period of suspension, the student may be excluded from school for more than ten (10) school days. A student may not be excluded from school for longer than fifteen (15) school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded will be provided with alternative education, which may include home study.

The student or their parents/guardians may waive the student's right to a formal expulsion hearing before the Board. If the student or their parents/guardians choose to waive the student's right to a formal hearing, the student will be expelled without a hearing for the period of time recommended to the Board by the CEO or designee. If the student or their parents/guardians decide to waive the student's right to a formal hearing before the Board, they will be asked to sign an Expulsion Hearing Waiver Form. If the waiver form is not executed, a formal expulsion hearing before the Board will be scheduled.

The following due process requirements will be observed with regard to the formal hearing:

1. Notification of the charges will be sent to the student's parents/guardians by certified mail.
2. At least three (3) days' notice of the time and place of the hearing will be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures will be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.
3. The hearing will be held in private unless the student or parent/guardian requests a public hearing.
4. The student may be represented by counsel, at the expense of the parents/guardians, and may have a parent/guardian attend the hearing.
5. The student has the right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.
6. The student has the right to request that the witnesses appear in person and answer questions or be cross-examined.
7. The student has the right to testify and present witnesses on their own behalf.
8. A written or audio record will be kept of the hearing. The student is entitled, at the student's expense, to a copy. A copy will be provided at no cost to a student who is indigent.
9. The proceeding will be held within fifteen (15) school days of the notification of charges, unless mutually agreed to by both parties. A hearing may be delayed for any of the following reasons, in which case the hearing will be held as soon as reasonably possible:
  - a. Laboratory reports are needed from law enforcement agencies.
  - b. Evaluations or other court or administrative proceedings are pending due to a student invoking their rights under the Individuals With Disabilities Education Act.
  - c. Juvenile or criminal court cases involving sexual assault or serious bodily injury may

necessitate a delay due to the condition or best interests of the victim.

10. Notice of a right to appeal the results of the hearing will be provided to the student with the expulsion decision.

Any student under eighteen (18) years of age who is expelled has forfeited their right to an education in the schools, but has not been excused from compliance with the compulsory attendance laws. The initial responsibility for providing the required education rests with the student's parents/guardians through placement in another school, tutorial or correspondence study or another educational program approved by the CEO. Within thirty (30) days of the Board's expulsion decision, the parents/guardians of expelled students under eighteen (18) years of age will submit to the CEO written evidence that the required education is being provided to the student, including a description of where or how the education is being provided. If the parents/guardians are unable to provide the required education, the parents/guardians will send a letter to the CEO within thirty (30) days of the Board's expulsion decision, indicating that they are unable to provide the required education.

If the parents/guardians are unable to provide the required education, the school will then make provision for the student's education within ten (10) days of receipt of the parents'/guardians' notification, in its discretion. A student with a disability will be provided educational services as required by IDEA. If the approved education program is not complied with, the school may take action in accordance with 42 Pa. C.S. Chapter 63 to ensure that the child will receive a proper education.

Any student who has been expelled, but not permanently expelled, may apply for re-admission to school pursuant to such conditions imposed by the Board in its decision at the time of expulsion. Such conditions depend upon the circumstances for which the student has been expelled and could include, but is not limited to, drug and alcohol counseling.

### **Purpose**

21st Century Cyber Charter School ("Charter School") acknowledges the usefulness of a system of computing grade point averages and class ranking for secondary school graduates to inform students, parents and others of their relative academic placement among their Charter School peers under relatively similar circumstances.

### **Authority**

The Charter School authorizes a system of class ranking, by grade point average, for students in grade 12. All students shall be ranked together. Class rank shall be computed by the final grade in all subjects. Any two or more students whose computed grade point averages are identical shall be given the same rank. The rank of the student who immediately follows a tied position will be determined by the number of students preceding them and not by the rank of the person preceding them.

A student's grade point average and rank in class shall be entered on their 12th grade record and shall be subject to the Charter School's policy on release of student records.

Rank in class shall be entered on students' records and on all transcripts, where they will be available for review by authorized persons.

### **Delegation of Responsibility**

The Director of Education shall develop procedures for the computation of grade point averages and the assignment of rank in class to implement this policy.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Class rank is used as an academic descriptor for college admissions and employers. Class rank also determines other academic honors at graduation.

Grade Point Average (GPA) is used to determine class rank within each grade level. Each student's GPA is calculated at the end of each semester of the 12<sup>th</sup> grade year. It is determined by using the final grade and total number of credits for each course taken. All mathematical calculations will be carried two (2) decimal points.

Only grades and courses taken at the school will be used to calculate a student's GPA. Transfer courses will be incorporated into the determination of GPA only when the exact course is offered at the high school.

Nongraded courses will be omitted from the calculations for class rank.

#### Weighted Grading

Weighted grading encourages all students to enroll in the most rigorous academic schedule commensurate with their ability without risking detriment to class rank and cumulative GPA.

Grade Point Averages will be weighted by awarding extra credit for Advanced Placement (AP) courses, Honors courses and courses so designated in the student course selection materials.

## U.S. Department of Education Funded Surveys

No student shall be required, as part of any program funded in whole or in part by the U.S. Department of Education, to submit to a survey, analysis or evaluation that reveals protected information without written parental consent for students under eighteen (18) years of age or written consent of emancipated students or those over eighteen (18) years of age.[\[1\]](#)

All instructional materials, including teachers' manuals, films, tapes or other supplementary material, that will be used in connection with any survey, analysis or evaluation as part of any program funded in whole or in part by the U.S. Department of Education, shall be made available for inspection by the parent(s)/guardian(s) of the student.[\[1\]](#)

## Surveys Funded by Other Sources

Parents/Guardians shall be informed of the nature and scope of individual surveys and their relationship to the educational program of their child and the parent's/guardian's right to inspect, upon request, a survey created by a third party prior to administration or distribution to a student. Such requests shall be in writing and submitted to the building administrator, Chief Executive Officer or Director of Education.[\[1\]](#)[\[2\]](#)

## Student and Parent/Guardian Rights

Under federal law, the rights provided to parents/guardians under this policy transfer to the student when the student turns eighteen (18) years old or is an emancipated minor. These rights do not transfer under state law; therefore, parents/guardians retain their rights to receive notice and to inspect.[\[1\]](#)[\[2\]](#)[\[3\]](#)

## **Delegation of Responsibility**

The Chief Executive Officer or designee shall notify parents/guardians and students of:[\[1\]](#)

1. This policy and its availability.
2. The specific or approximate dates during the school year when activities described above are scheduled, or expected to be scheduled.
3. How to opt their child out of participation in activities as provided in this policy.

### **Purpose**

The Board of Trustees (Board) adopts this policy in order to support an educational environment that is orderly, safe and secure for Charter School students and employees, while also recognizing that electronic devices may provide a positive contribution when used for educational purposes.

### **Definition**

**Electronic devices** shall include all devices that can take photographs; record, play or edit audio or video data; store, transmit or receive calls, messages, text, data or images; operate online applications; or provide a wireless, unfiltered connection to the Internet.

### **Authorized Use of Electronic Devices**

The Board authorizes use of electronic devices in the classroom, in education-related activities and in approved locations under the supervision of the classroom teacher or staff for educational purposes. All use shall be in compliance with the Code of Student Conduct and Board policy, or as designated in an Individualized Education Program (IEP) or Section 504 Service Agreement.

### **Electronic Images and Photographs**

The Board prohibits the taking, storing, disseminating, transferring, viewing, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or other means, including but not limited to texting and emailing.

Because such violations may constitute a crime under state and/or federal law, the Charter School may report such conduct to state and/or federal law enforcement agencies.

### **Delegation of Responsibility**

The Chief Executive Officer or designee shall annually notify students, parents/guardians and employees about the Board's electronic device policy and established rules and administrative procedures.

The Chief Executive Officer or designee shall develop administrative procedures to implement this policy.

### **Guidelines**

Violations of this policy by a student shall result in disciplinary action and may result in confiscation of the electronic device.

The Charter School shall not be liable for the loss, damage or misuse of any electronic device.

The Charter School shall not provide technical support, troubleshooting or repair for personal electronic devices.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

| Section             | 2000 Students        |
| Title               | Assistive Technology |
| Code                | 2038                 |
| Status              | Active               |
| Adopted             | November 23, 2010    |
| Last Revised        | November 5, 2019     |
| Prior Revised Dates | January 9, 2018      |

As defined in federal and state law, assistive technology device means any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of children with disabilities. Assistive technology devices range from a simple switch for a child with particular physical limitations to a sophisticated vocal output augmentative communication device for a child with severe speech impairment.

Assistive technology service means any service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device.

By virtue of these expansive definitions, an exhaustive yet specific list of what constitutes assistive technology devices and/or services would be impossible to create.

By way of example:

Hearing aids worn in school by children with hearing impairments, including deafness, must be functioning properly.

External components of surgically implanted medical devices must be functioning properly.

The Board recognizes that assistive technology devices and/or services may be essential factors in meeting the educational needs of children with disabilities. Both federal and state special education laws explicitly include assistive technology devices and/or services among those services which must be provided for a child with a disability, at no cost to parents, if determined by the Individualized Education Program (IEP) team to be necessary for the student to receive a free appropriate public education (FAPE). Such services may be required as part of special education, related services, or supplementary aids and services required to enable a child to be educated in the least restrictive environment.

The Board further recognizes that, as with every other special education service, the IEP team is responsible for determining if an assistive technology device and/or service is necessary for a child with a disability to receive FAPE. It is important to remember that assistive technology devices and/or services are not ends in themselves. The IEP team should focus on whether or not assistive technology devices and/or services are necessary for the eligible child to meet educational demands and therefore receive FAPE.

To the extent that assistive technology devices and/or services may be required as part of special education, related services, or supplementary aids or services, a child's IEP must include a statement describing the full extent of devices (e.g. low, and high technology and back-up strategies) and service(s) as well as the amount of such service(s). The provision of assistive technology devices and/or services may not be made conditional on subsequent approval by entities outside the IEP process (i.e., IU availability, Medical Access Reimbursement, etc.).

All procedural safeguards and time lines set forth in federal and state laws for completing multidisciplinary evaluations, reevaluations, and developing and implementing IEPs are fully applicable to assistive technology devices and/or services when they are necessary to ensure eligible children receive FAPE. Assistive technology devices should be secured on loan or leased if manufacturer delay is anticipated.

It is the charter school's responsibility to provide assistive technology devices and services when included as part of a student's IEP. The charter school is responsible for the maintenance and repair of assistive technology devices used to implement a child's IEP.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

The CEO or their designee is charged with implementing procedures to ensure that devices are properly maintained and functioning, including hearing aids and surgically implanted medical devices.

Routine checks and tests of those devices will be administered and results logged or otherwise noted when necessary. The CEO or their designee is directed to implement a process to address: the need for AT, effective maintenance of all AT devices, the selection of age and developmentally appropriate AT devices, review of recommendations from qualified personnel including speech language pathologists regarding AT, and the maintenance of AT by the charter school. All AT devices are to be maintained in a manner deemed appropriate for their intended use and purpose as directed by the manufacturer to the maximum extent possible.

The need for AT services and devices are to be identified with specificity in students' IEPs and AT services and devices are to be reviewed at least annually in the course of an IEP team meeting, or as requested by the IEP team and/or parent.

The CEO or their designee is directed to have AT devices promptly repaired when needed and in the interim a device or back up plan is to be in place while the device is being repaired/maintained.

The CEO or their designee is further directed to have a plan in place to provide AT services without interruption.

The CEO or their designee is charged with making personnel aware of the availability of AT resources.

There are special rules in Pennsylvania for excluding children with disabilities for disciplinary reasons as set forth in Chapter 711 of Title 22 of the Pennsylvania Code as well as the Procedural Safeguards Notice available through PaTTAN. The Board of Trustees directs compliance with these requirements and directs the CEO or their designee to implement procedures necessary to effectuate the following:

**AUTHORITY OF SCHOOL PERSONNEL (34 CFR §300.530)**

**1. Case-by-Case Determination**

21<sup>st</sup> Century Cyber Charter School (21CCCS) personnel may consider any unique circumstances on a case-by-case basis, when determining whether a change of placement, made in accordance with the following requirements related to discipline, is appropriate for a child with a disability who violates a school code of student conduct.

**2. General**

To the extent that they also take such action for children without disabilities, school personnel may, for not more than 10 consecutive school days, remove a child with a disability (other than a child with mental retardation) who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension. School personnel may also impose additional removals of the child of not more than 10 consecutive school days in that same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement (see Change of Placement Because of Disciplinary Removals for the definition, below) or exceed 15 cumulative school days in a school year. Once a child with a disability has been removed from his or her current placement for a total of 10 school days in the same school year, 21CCCS must, during any subsequent days of removal in that school year, provide services to the extent required below under the sub-heading Services.

**3. Additional Authority**

If the behavior that violated the student code of conduct was not a manifestation of the child's disability (see Manifestation determination, below) and the disciplinary change of placement would exceed 10 consecutive school days, school personnel may apply the disciplinary procedures to that child with a disability in the same manner and for the same duration as it would to children without disabilities, except that the school must provide services to that child as described below under Services. The child's IEP Team determines the interim alternative educational setting for such services. Under PA special education regulations, a disciplinary exclusion of a student with a disability for more than 15 cumulative school days in a school year will be considered a pattern so as to be deemed a change in educational placement

(explained under Change of Placement Because of Disciplinary Removals). 21CCCS is required to issue a NOREP/Prior Written Notice to parents prior to a removal that constitutes a change in placement (removal for more than 10 consecutive days or 15 cumulative days).

#### **4. Services**

The services that must be provided to a child with a disability who has been removed from the child's current placement may be provided in an interim alternative educational setting. 21CCCS is only required to provide services to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who has been similarly removed. Students may have the responsibility to make up exams and work missed while being disciplined by suspension and may be permitted to complete these assignments within guidelines established by their charter school.

A child with a disability who is removed from the child's current placement for more than 10 consecutive school days must:

Continue to receive educational services, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and

Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not happen again.

After a child with a disability has been removed from his or her current placement for 10 school days during one school year, or if current removal is for 10 consecutive school days or less, and if the removal is not a change of placement (see definition below), then school personnel, in consultation with at least one of the child's teachers, determine the extent to which services are needed to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

If the removal is a change of placement (see definition below), the child's IEP Team determines the appropriate services to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

#### **5. Manifestation Determination**

Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct (except for a removal that does not constitute a change in educational placement i.e., is for 10 consecutive school days or less and not a change of placement), 21CCCS, the parent, and relevant members of the IEP Team (as determined by the parent and 21CCCS) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of 21CCCS' failure to implement the child's IEP.

If 21CCCS, the parent, and relevant members of the child's IEP Team determine that either of those conditions were met, the conduct must be determined to be a manifestation of the child's disability.

If 21CCCS, the parent, and relevant members of the child's IEP Team determine that the conduct in question was the direct result of 21CCCS' failure to implement the IEP, 21CCCS must take immediate action to remedy those deficiencies.

#### **6. Determination that Behavior was a Manifestation of the Child's Disability**

If 21CCCS, the parent, and relevant members of the IEP Team determine that the conduct was a manifestation of the child's disability, the IEP Team must either:

- a. Conduct a functional behavioral assessment, unless 21CCCS had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

- b. If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior.

Except as described below under the sub-heading Special circumstances, 21CCCS must return the child to the placement from which the child was removed, unless the parent and 21CCCS agree to a change of placement as part of the modification of the behavioral intervention plan.

## **7. Special Circumstances**

Whether or not the behavior was a manifestation of the child's disability, school personnel may remove a student to an interim alternative educational setting (determined by the child's IEP Team) for up to 45 school days, if the child:

- a. Carries a weapon (see the Definitions below) to school or has a weapon at school, on school premises, or at a school function under the jurisdiction of 21CCCS;
- b. Knowingly has or uses illegal drugs (see the Definitions below), or sells or solicits the sale of a controlled substance, (see the Definitions below), while at school, on school premises, or at a school function under the jurisdiction of 21CCCS; or
- c. Has inflicted serious bodily injury (see the Definitions below) upon another person while at school, on school premises, or at a school function under the jurisdiction of the State Educational Agency or a charter school.

## **8. Definitions**

- a. *Controlled substance* means a drug or other substance identified under schedules I, II, III, IV, or V in section 202 (c) of the Controlled Substances Act (21 U.S.C. 812(c)).
- b. *Illegal drug* means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.
- c. *Serious bodily injury* has the meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.
- d. *Weapon* has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

## **9. Notification**

On the date it makes the decision to make a removal that is a change of placement of the child because of a violation of a code of student conduct, 21CCCS must notify the parents of that decision, and provide the parents with a procedural safeguards notice.

### Change Of Placement Because Of Disciplinary Removals

A removal of a child with a disability from the child's current educational placement is a change of placement requiring a NOREP/prior written notice if:

1. The removal is for more than 10 consecutive school days; or
2. The removal is for 15 cumulative school days total in any one school year;
3. The child has been subjected to a series of removals that constitute a pattern because:
  - a. The series of removals total more than 10 school days in a school year;
  - b. The child's behavior is substantially similar to the child's behavior in previous incidents that resulted in a series of removals;
  - c. Of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another; and

- d. Whether a pattern of removals constitutes a change of placement is determined on a case-by-case basis by 21CCCS and, if challenged, is subject to review through due process and judicial proceedings.

### Determination of Setting

The IEP team must determine the interim alternative educational setting for removals that are changes of placement, and removals under the headings *Additional Authority* and *Special Circumstances*, above.

#### 1. General

The parent of a child with a disability may file a due process complaint (see above) to request a due process hearing if he or she disagrees with:

- a. Any decision regarding placement made under these discipline provisions; or
- b. The manifestation determination described above.

21CCCS may file a due process complaint (see above) to request a due process hearing if it believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

#### 2. Authority of Hearing Officer

A hearing officer that meets the requirements described under the sub-heading Impartial Hearing Officer must conduct the due process hearing and make a decision.

The hearing officer may:

- a. Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of the requirements described under the heading Authority of School Personnel, or that the child's behavior was a manifestation of the child's disability; or
- b. Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

These hearing procedures may be repeated, if 21CCCS believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

Whenever a parent or 21CCCS files a due process complaint to request such a hearing, a hearing must be held that meets the requirements described under the headings Due Process Complaint Procedures, Hearings on Due Process Complaints, except as follows:

1. The SEA must arrange for an expedited due process hearing, which must occur within 20 school days of the date the hearing is filed and must result in a determination within 10 school days after the hearing.
2. Unless the parents and 21CCCS agree in writing to waive the meeting, or agree to use mediation, a resolution meeting must occur within 7 calendar days of receiving notice of the due process complaint. The hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 calendar days of receipt of the due process complaint.

A party may appeal the decision in an expedited due process hearing in the same way as they may for decisions in other due process hearings.

When, as described above, the parent or 21CCCS has filed a due process complaint related to disciplinary matters, the child must (unless the parent and the State Educational Agency or 21CCCS agree otherwise) remain in the interim alternative educational setting pending the decision of the hearing officer, or until the expiration of the time period of removal as provided for and described under the heading Authority of School Personnel, whichever occurs first.

### Special Rules for Students with Mental Retardation

The disciplinary removal of a child with mental retardation attending a charter school for any amount of time is considered a change in placement and requires a NOREP/prior written notice (if the disciplinary event does not involve drugs, weapons and/or serious bodily injury). A removal from school is not a change in placement for a child who is identified with mental retardation when the disciplinary event involves weapons, drugs, and/or serious bodily injury.

According to certain assurances the Commonwealth entered into related to the PARC consent decree, a charter school may suspend on a limited basis a student with mental retardation who presents a danger to himself or others upon application and approval by the Bureau of Special Education and only to the extent that a student with a disability other than mental retardation could be suspended.

### Protections For Children Not Yet Eligible For Special Education and Related Services

#### 1. General

If a child has not been determined eligible for special education and related services and violates a code of student conduct, but 21CCCS had knowledge (as determined below) before the behavior that brought about the disciplinary action occurred, that the child was a child with a disability, then the child may assert any of the protections described in this notice.

#### 2. Basis of Knowledge for Disciplinary Matters

21CCCS must be deemed to have knowledge that a child is a child with a disability if, before the behavior that brought about the disciplinary action occurred:

- a. The parent of the child expressed concern in writing that the child is in need of special education and related services to supervisory or administrative personnel, or a teacher of the child;
- b. The parent requested an evaluation related to eligibility for special education and related services under Part B of the IDEA; or
- c. The child's teacher, or other 21CCCS personnel expressed specific concerns about a pattern of behavior demonstrated by the child directly to 21CCCS' director of special education or to other supervisory personnel of 21CCCS.

#### 3. Exception

A charter school would not be deemed to have such knowledge if:

- a. The child's parent has not allowed an evaluation of the child or refused special education services; or
- b. The child has been evaluated and determined to not be a child with a disability under Part B of the IDEA.

#### 4. Conditions That Apply if There is No Basis of Knowledge

If prior to taking disciplinary measures against the child, a charter school does not have knowledge that a child is a child with a disability, as described above under the sub-headings Basis of knowledge for disciplinary matters and Exception, the child may be subjected to the disciplinary measures that are applied to children without disabilities who engaged in comparable behaviors.

However, if a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation must be conducted in an expedited manner.

Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by 21CCCS, and information provided by the parents, 21CCCS must provide special education and related services in accordance with Part B of the IDEA, including the disciplinary requirements described above.

### REFERRAL TO AND ACTION BY LAW ENFORCEMENT AND JUDICIAL AUTHORITIES

1. The state and federal regulations do not:

- a. Prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities; or
- b. Prevent State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.
- c. Subsequent to a referral to law enforcement, an updated functional behavior assessment and positive behavior support plan are required.

2. Transmittal of Records

If a charter school reports a crime committed by a child with a disability, 21CCCS: must ensure that copies of the child's special education and disciplinary records are transmitted for consideration by the authorities to whom the agency reports the crime; and may transmit copies of the child's special education and disciplinary records only to the extent permitted by FERPA.

NON-DISCRIMINATION

21CCCS shall not discriminate in its discipline policies or practices on the basis of intellectual ability, status as a person with a disability, proficiency in the English language or any other basis that would be illegal under applicable state and/or federal laws.

The CEO or their designee is directed to develop procedures and practices related to the use of positive behavioral interventions and supports, and procedural safeguards and to ensure that those policies and procedures are implemented.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

It is the policy of the Board of Trustees of 21<sup>st</sup> Century Cyber Charter School (21CCCS) that there shall not be disproportionate representation of racial and/or ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification. It is the policy of the Board of Trustees of 21CCCS to comply with Chapter 711.23 of Title 22 of the Pennsylvania Code regarding student screening and disproportionality.

It is the policy of 21CCCS that there shall be no disproportionality in regard to any of the following areas per 34 CFR 300.646:

- (1) The identification of children as children with disabilities, including the identification of children as children with disabilities in accordance with a particular impairment described in section 602(3) of IDEA;
- (2) The placement in particular educational settings of these children; and
- (3) The incidence, duration, and type of disciplinary actions, including suspensions and expulsions.

21CCCS directs Administration to utilize such evaluative measures that mitigate against the potential for disproportionate representation as the result of inappropriate identification.

21CCCS directs Administration to appropriately identify students for special education and related services by following evaluation and reevaluation procedures mandated by IDEA 2004 and its implementing regulations.

21CCCS directs Administration to appropriately identify students' disabilities by complying with the screening and child find requirements of Chapter 711 of Title 22 of the Pennsylvania Code and by conducting evaluations and reevaluations in accordance with applicable state and federal laws and regulations.

21CCCS directs Administration to ensure that no evaluation or reevaluation procedures, tests or reports are culturally and/or racially biased. Tests and instruments used to identify students shall not be racially or culturally biased.

In accordance with 34 CFR 300.646(b)(2) (relating to disproportionality), as established by the State Department of Education, the services that would be required at 21CCCS should disproportionality be found to exist at 21CCCS, would then include:

- (1) A verification that the student was provided with appropriate instruction in reading, including the essential components of reading instruction (as defined in section 1208(3) of the Elementary and Secondary Education Act (ESEA) (20 U.S.C.A. § 6368(3)), and appropriate instruction in math.

- (2) For students with academic concerns, an assessment of the student's performance in relation to State-approved grade level standards.
- (3) For students with behavioral concerns, a systematic observation of the student's behavior in the school environment where the student is displaying difficulty.
- (4) A research-based intervention to increase the student's rate of learning or behavior change based on the results of the assessments under paragraph (2) or (3), or both.
- (5) Repeated assessments of achievement or behavior, or both, conducted at reasonable intervals, reflecting formal monitoring of student progress during the interventions.
- (6) A determination as to whether the student's assessed difficulties are the result of a lack of instruction or limited English proficiency.
- (7) A determination as to whether the student's needs exceed the functional ability of the regular education program to maintain the student at an appropriate instructional level.
- (8) Documentation that information about the student's progress as identified in paragraph (5) was periodically provided to the student's parents.

Every effort should be made to address and resolve disputes at the building/IEP team level if possible. The CEO or their designee is directed to be aware of alternative dispute resolution procedures and programs, including facilitated IEP team meetings and mediation, and utilize those programs when deemed appropriate.

The CEO or their designee is responsible for ensuring that any agreements entered into as a result of a mediation session are implemented in accordance with the state regulations and is directed to maintain evidence of implementation.

When alternative dispute resolution is not practical or otherwise appropriate, or when a due process complaint is filed, the CEO or their designee is directed to follow applicable state procedures regarding the filing and answering of a due process complaint, including requirements relating to dissemination of procedural safeguards.

The Board of Trustees directs that 21<sup>st</sup> Century Cyber Charter School (21CCCS) comply with the requirements incorporated by reference in 34 CFR 300.106 (relating to extended school year services).

The CEO or their designee is directed to ensure that 21CCCS uses the following standards for determining whether a student with disabilities requires ESY as part of the student's program:

- (1) At each IEP meeting for a student with disabilities, the charter school shall determine whether the student is eligible for ESY services and if so, make subsequent determinations about the services to be provided.
- (2) In considering whether a student is eligible for ESY services, the IEP team shall consider the following factors, however, no single factor will be considered determinative:
  - (i) Whether the student reverts to a lower level of functioning as evidenced by a measurable decrease in skills or behaviors which occurs as a result of an interruption in educational programming (Regression).
  - (ii) Whether the student has the capacity to recover the skills or behavior patterns in which regression occurred to a level demonstrated prior to the interruption of educational programming (Recoupment).
  - (iii) Whether the student's difficulties with regression and recoupment make it unlikely that the student will maintain the skills and behaviors relevant to IEP goals and objectives.
  - (iv) The extent to which the student has mastered and consolidated an important skill or behavior at the point when educational programming would be interrupted.
  - (v) The extent to which a skill or behavior is particularly crucial for the student to meet the IEP goals of self-sufficiency and independence from caretakers.
  - (vi) The extent to which successive interruptions in educational programming result in a student's withdrawal from the learning process.
  - (vii) Whether the student's disability is severe, such as autism/pervasive developmental disorder, serious emotional disturbance, severe mental retardation, degenerative impairments with mental involvement and severe multiple disabilities.

Reliable sources of information regarding a student's educational needs, propensity to progress, recoupment potential and year to year progress may include the following:

- (1) Progress on goals in consecutive IEPs.
- (2) Progress reports maintained by educators, therapists and others having direct contact with the student before and after interruptions in the education program.
- (3) Reports by parents of negative changes in adaptive behaviors or in other skill areas.
- (4) Medical or other agency reports indicating degenerative-type difficulties, which become exacerbated during breaks in educational services.
- (5) Observations and opinions by educators, parents and others.
- (6) Results of tests, including criterion-referenced tests, curriculum-based assessments, ecological life skills assessments and other equivalent measures.

The need for ESY services will not be based on any of the following:

- (1) The desire or need for day care or respite care services.
- (2) The desire or need for a summer recreation program.
- (3) The desire or need for other programs or services that while they may provide educational benefit, are not required to ensure the provision of a FAPE.

Students with severe disabilities such as autism/pervasive developmental disorder, serious emotional disturbance; severe mental retardation; degenerative impairments with mental involvement; and severe multiple disabilities require expeditious determinations of eligibility for ESY services to be provided as follows:

- (1) Parents of students with severe disabilities shall be notified by 21CCCS of the annual review meeting to ensure their participation.
- (2) An IEP review meeting must occur no later than February 28 of each school year for students with severe disabilities.
- (3) The notice of recommended educational placement (NOREP) shall be issued to the parent no later than March 31 of the school year for students with severe disabilities.
- (4) If a student with a severe disability transfers into 21CCCS after the dates in paragraphs (2) and (3), and the ESY eligibility decision has not been made, the eligibility and program content must be determined at the IEP meeting.

The eligibility for ESY services of all students with disabilities shall be considered at the IEP meeting. ESY determinations for students other than those described above as having severe disabilities are not subject to the timelines for students with the severe disabilities described above. However, determinations for those other students shall still be made in a timely manner.

If the parents disagree with 21CCCS' recommendation on ESY, the parents will be afforded an expedited due process hearing in accordance with applicable laws. Parents are to be provided with the required procedural safeguards notice.

ESY programs are to be individualized with regard to the amount of services and individually appropriate goals and related services.

In cases where ESY is denied, evidence to support the denial is to be made part of the student's file.

The CEO or their designee is directed to develop procedures consistent with this policy and applicable laws.

**TIMELINES CONTAINED IN THIS POLICY MAY BE CHANGED BY THE PENNSYLVANIA DEPARTMENT OF EDUCATION AND THE SCHOOL MUST FOLLOW ANY REVISED TIMELINES.**

In accordance with applicable state and federal regulations regarding students with disabilities, the Board of Trustees of 21<sup>st</sup> Century Cyber Charter School (21CCCS) recognizes and directs as follows:

To the maximum extent appropriate, children with disabilities, are educated with children who are nondisabled; and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

A continuum of alternative placements must be available to meet the needs of children with disabilities for special education and related services. The continuum must include alternative placements (including, but not limited to: instruction in, regular classes, supplementary aids and services, instruction in special classes, instruction in alternative schools, home instruction, and instruction in hospitals and institutions to the extent required by applicable laws and regulations).

Administration is further directed to make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement to the extent required by law and to inform the Board when supplementary aids and services must be procured and/or approved by the Board.

In determining the educational placement of a child with a disability, Administration is directed to ensure that the placement decision is made by a group of persons, including the parents, and other persons knowledgeable about: the child, the meaning of the evaluation data, and the placement options. Such decision must be made in conformity with the LRE provisions of the federal regulations.

The child's placement must be determined at least annually; be based on the child's IEP; and must be as close as possible to the child's home to the extent required by applicable law. Unless the IEP of a child with a disability requires some other arrangement, the child is educated in the school that he or she would attend if nondisabled.

In selecting the LRE, Administration is directed to give consideration to any potential harmful effect on the child or on the quality of services that he or she needs.

A child with a disability is not to be removed from education in age appropriate regular/virtual classrooms solely because of needed modifications in the general education curriculum.

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, field trips, and the services and activities set forth in the applicable state and federal regulations, Administration is directed to ensure that each child with a disability participates with nondisabled children in the extracurricular services and activities to the maximum extent appropriate to the needs of that child.

Administration is directed to ensure that each child with a disability has the supplementary aids and services determined by the child's IEP Team to be appropriate and necessary for the child to participate in nonacademic settings.

Administration shall ensure that the IEP team making educational placement decisions understands and adheres to the following guiding principles from the Pennsylvania Department of Education to the extent that they are consistent with applicable federal and state regulations:

1. A Free and Appropriate Public Education (FAPE) must be provided to every student with an IEP; moreover, FAPE must be delivered in the LRE as per the IEP team.
2. Students will not be removed from regular/virtual education classrooms merely because of the severity of their disabilities;
3. When students with disabilities, including students with significant cognitive disabilities, need specially designed instruction or other supplementary aids and services to benefit from participating in regular/virtual education classrooms, as required in their IEP, the team is obliged to ensure that those services are provided to the extent required by applicable state and federal regulations and laws;
4. IEP teams must determine whether the goals in the student's IEP can be implemented in regular/virtual education classrooms with supplementary aids and services before considering removal from the regular education classroom;
5. The team will consider the full range of supplementary aids and services in regular/virtual education classrooms, based on peer-reviewed research to the extent practicable, including modification of curriculum content, before contemplating placement in a more restrictive setting.

To determine whether a child with disabilities can be educated satisfactorily in a regular/virtual education classroom with supplementary aids and services, the following factors provided by the Pennsylvania Department of Education shall be considered and addressed:

1. What efforts have been made to accommodate the child in the regular/virtual classroom and with what outcome(s);
2. What additional efforts (i.e. supplementary aids and services) in the regular/virtual classroom are possible;
3. What are the educational benefits available to the child in the regular/virtual classroom, with the use of appropriate supplementary aids and services; and
4. Are there possible significant and negative effects of the child's inclusion on the other students in the class?

Per the Pennsylvania Department of Education, the presumption is that IEP teams begin placement discussions with a consideration of the regular/virtual education classroom and the supplementary aids and services that are needed to enable a student with a disability to benefit from educational services. Benefit from educational services is measured by progress toward the goals and objectives of the student's IEP, not by mastery of the general education curriculum, and is not limited to academic progress alone; therefore, Administration is directed to ensure that special education placement in a more restrictive environment is not justified solely on the basis that the child might make greater academic progress outside the regular education environment.

The law and the Pennsylvania Department of Education policy favor education with non-disabled peers; however, inclusion or education with non-disabled peers is not a foregone conclusion; such a decision remains exclusively with the IEP team as they consider FAPE. An IEP team may choose a more specialized setting if:

1. The student will receive greater benefit from education in a specialized setting than in a regular/virtual class.
2. He or she is so disruptive as to significantly impair the education of other students in the class; or
3. The cost of implementing a given student's IEP in the regular/virtual classroom will significantly affect other children in the LEA.

If, after considering these factors, an IEP team determines that the student needs to be educated in a more specialized setting, the school is required to include the child in school programs with non-disabled children to the maximum extent appropriate. These may include but are not limited to extra curricular activities, assembly

programs, recess, lunch, homeroom, etc. Note that a student is not required to "try out" each level of LRE and "fail" before the student moves to a more specialized setting.

Administration is further directed to provide opportunities for teachers to participate in professional development and to become aware of peer-reviewed and research-based practices that can be used to support students in regular/virtual classroom settings. In consideration of Pennsylvania Department of Education guidance, Administration is directed to ensure that:

- Program and placement decisions are based on student strengths, potential and needs;
- IEP teams consider the regular classroom with supplementary aids and services considering a more restrictive environment;
- Staff is aware of this policy on inclusion.
- Supportive team structures are in place to enable general education teachers to effectively educate students with IEPs in their regular/virtual classroom as appropriate;
- IEP teams use the most current IEP format;
- Educational placement decisions are made in the proper IEP sequence, which is:
  1. Initial eligibility decision;
  2. Determine FAPE and design the program (i.e. IEP);
  3. Determine whether FAPE can be delivered in the regular classroom with the use of supplementary aids and services;
  4. If the answer to step #3 is "no," then, move to the next step along the continuum of placement options to determine where FAPE can be delivered; and
  5. Correct LRE data is entered into the Penn Data system.

Administration, teachers and Staff shall be required to adhere to the following:

- Be familiar with a wide array of supplementary aids and services.
- Know the proper IEP decision making sequence.
- Consider the whole range of supplementary aids and services when making placement decisions.
- Understand that modifications to the regular curriculum may be an appropriate means of delivering educational benefit within the regular classroom.
- Address services needed for a student in a single plan.
- Be clear about the supports you need in order to implement any given student's IEP within your regular classroom.
- Be familiar with the continuum of placement options.

### **Purpose**

The purpose of this policy is to maintain a safe, positive environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the Charter School and are prohibited at all times.

### **Definitions**

Hazing occurs when a person intentionally, knowingly or recklessly, for the purpose of initiating, admitting or affiliating a student with an organization, or for the purpose of continuing or enhancing membership or status in an organization, causes, coerces or forces a student to do any of the following:[\[1\]](#)

1. Violate federal or state criminal law.
2. Consume any food, liquid, alcoholic liquid, drug or other substance which subjects the student to a risk of emotional or physical harm.
3. Endure brutality of a physical nature, including whipping, beating, branding, calisthenics or exposure to the elements.
4. Endure brutality of a mental nature, including activity adversely affecting the mental health or dignity of the individual, sleep deprivation, exclusion from social contact or conduct that could result in extreme embarrassment.
5. Endure brutality of a sexual nature.
6. Endure any other activity that creates a reasonable likelihood of bodily injury to the student.

Aggravated hazing occurs when a person commits an act of hazing that results in serious bodily injury or death to the student and:[\[2\]](#)

1. The person acts with reckless indifference to the health and safety of the student; or
2. The person causes, coerces or forces the consumption of an alcoholic liquid or drug by the student.

Organizational hazing occurs when an organization intentionally, knowingly and/or recklessly promotes or facilitates hazing.[\[3\]](#)[\[4\]](#)

Any activity, as described above, shall be deemed a violation of this policy regardless of whether:[\[5\]](#)

1. The consent of the student was sought or obtained, or
2. The conduct was sanctioned or approved by the school or organization.

Student activity or organization means any activity, society, corps, team, club or service, social or similar group, operating under the sanction of or recognized as an organization by the Charter School, whose members are primarily students or alumni of the organization.[6]

For purposes of this policy, bodily injury shall mean impairment of physical condition or substantial pain.[7]

For purposes of this policy, serious bodily injury shall mean bodily injury which creates a substantial risk of death or which causes serious, permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ.[7]

### **Authority**

The Board of Trustees (Board) prohibits hazing in connection with any student activity or organization regardless of whether the conduct occurs on or off Charter School property or outside of school hours.[4][5]

No student, parent/guardian, coach, sponsor, volunteer or Charter School employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who believe they, or others, have been subjected to hazing to promptly report such incidents to the principal or administrator.

### **Title IX Sexual Harassment and Other Discrimination**

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of a hazing investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.

### **Delegation of Responsibility**

Students, parents/guardians, coaches, sponsors, volunteers, and Charter School employees shall be alert to incidents of hazing and shall report such conduct to the principal or administrator.

### **Discrimination/Discriminatory Harassment**

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination and discriminatory harassment shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer. If, in the course of a hazing investigation, potential issues of discrimination and/or discriminatory harassment are identified, the Compliance Officer shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.

### **Guidelines**

In addition to posting this policy on the Charter School's website, the Charter School shall annually inform students, parents/guardians, sponsors, volunteers and Charter School employees of the Charter School's policy prohibiting hazing, including rules, penalties for violations of the policy, and the program established by the Charter School for enforcement of the policy by means of publication in handbooks.[4]

This policy, along with other applicable Board policies, procedures and Codes of Conduct, shall be provided to all school athletic coaches and all sponsors and volunteers affiliated with a student activity or organization annually, prior to coaching an athletic activity or serving as a responsible adult supervising, advising, assisting or otherwise participating in a student activity or organization, together with a notice that they are expected to read and abide by the policies, procedures and Codes of Conduct.

### **Complaint Procedure**

A student who believes that they have been subject to hazing is encouraged to promptly report the incident to the principal, administrator or designee.

Students are encouraged to use the Charter School's report form, which is available from the principal or administrator, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of hazing shall be provided to the principal, administrator or designee, who shall promptly notify the Chief Executive Officer or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action shall be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

### **Interim Measures/Police**

Upon receipt of a complaint of hazing, the principal, administrator or designee, in consultation with the Chief Executive Officer or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with Charter School practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by Charter School personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.[\[8\]](#)

### ***Referral To Law Enforcement and Safe Schools Reporting Requirements –***

For purposes of reporting hazing incidents to law enforcement in accordance with Safe Schools Act reporting, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.[\[9\]](#)[\[10\]](#)[\[11\]](#)

The Chief Executive Officer or designee shall, or as soon as practicable, notify the parent/guardian of any student directly involved in a defined incident as a victim or suspect. ### **Reporting of Incidents**

Reports of hazing may be made verbally or in writing and may be anonymous, except where made by school staff. Any staff member who receives a report of hazing from any source will encourage the complainant/reporter to directly meet with and report the allegations to the building principal or designee. Staff members who receive a report of hazing will not directly investigate the allegations but will take appropriate action to protect the safety of involved students. Staff members who observe hazing or who receive a report of hazing will promptly provide a summary of what was observed or reported in a confidential email to the building principal.

Reports of hazing may come to the school from different sources. For purposes of these administrative regulations a "reporter" is someone, other than school staff, who makes a report alleging hazing directed at one or more students and a "complainant" is the alleged victim or target of hazing. There are various circumstances in which a complainant may be both a reporter and a complainant, for example, where more than one (1) person was subjected to hazing and only one (1) of them reports the matter.

The building principal or designee will encourage the complainant/reporter to promptly review and complete the Discrimination/Sexual Harassment/Bullying/Hazing/Dating Violence/Retaliation Report Form (Report Form). Oral and anonymous reports will be accepted, documented and investigated in accordance with Board policy and related administrative regulations. Where the complainant/reporter is not able, due to age or incapacitation, to complete the Report Form, the building principal or designee will interview the complainant/reporter and complete the Report Form and sign it as having received this report. If the initial report comes to the school from a reporter, the complainant and, in most circumstances, the complainant's parents/guardians will be contacted promptly, informed of the report and, if they believe hazing has occurred, they will be encouraged to promptly review and complete the Report Form.

If the complainant/reporter, school staff or others with professional knowledge relating to the complainant's health and well-being indicate that notifying the parents/guardians could cause serious harm to the health or well-being of the complainant or other person(s), the building principal will determine, in consultation with such individuals and upon advice of legal counsel, whether to withhold or delay notification of the report from the complainant's parents/guardians.

Every report of hazing will be subject to a sufficient investigation to address any misconduct, consistent with the protection and well-being of the complainant.

A complainant age fourteen (14) or older and the complainant's parents/guardians who are otherwise being notified of the report of alleged hazing will be provided with the Notice to Complainant and/or Parents/Guardians of Complainant at the outset of the investigation.

### **Investigation of Incidents**

If, at the time of the report or at any time during the investigation of the reported hazing, there is reason to believe that the conduct may fall within the school's Policy 2065. Discrimination/Title IX Sexual Harassment Affecting Students, the Title IX Coordinator must be promptly notified. Upon notification, the Title IX Coordinator will initiate the steps to comply with Policy 2065 and its procedures.

After determining that this matter need not be handled under Policy 2065. Discrimination/Title IX Sexual Harassment Affecting Students, the building principal will make an initial determination whether the alleged violations can be investigated by the building principal or a building level designee or must be referred to or discussed with the CEO or other appropriate central administrator to determine who will perform the investigation.

If the police have been called or a police report is known to have been made or if proven allegations could lead to an expulsion, the building principal will discuss this matter with the CEO or appropriate central administrator, who will consult with legal counsel as appropriate.

Unless the investigation is turned over to the CEO, central administrator or legal counsel, the building principal or designee will conduct a timely, impartial, thorough and comprehensive investigation of the alleged hazing. During the investigation, the investigator will use and complete the Investigative Fact Sheet.

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation will be maintained consistent with applicable law, regulations and the school's legal and investigative obligations necessary to enforce this policy.

The investigation may include the following steps based on the specifics of the allegations:

1. Identifying and interviewing the complainant.
2. Identifying and interviewing the individual(s) accused of having participated in the alleged hazing.
3. Identifying and interviewing any witnesses to the alleged hazing.
4. Review of any physical evidence or documents related to the alleged hazing.
5. Review of any other relevant evidence produced by those interviewed.
6. Any other reasonable investigation resulting from the information received during the course of the investigation or which the building principal deems necessary to reach a finding or address proven misconduct.

A report of hazing must be investigated even if the report is anonymous and even if the complainant/reporter states that they do not want the school to do anything.

### **Investigative Report Findings**

Investigated reports of hazing will include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further school action, and a recommended disposition of the complaint.

The complainant/reporter and the accused will be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused will not be notified of the individual remedies offered or provided to the complainant.

### **School Action**

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of Board policy, the school will take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The school will promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the effect the prohibited conduct had on the complainant and the school or school program environment. school staff will document the corrective action taken and, where not prohibited by law, inform the complainant/reporter. The investigator will follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If an investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters will be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions will be consistent with the Code of Student Conduct, Board policies and administrative regulations, school procedures, applicable collective bargaining agreements, and state and federal laws.

This notice is provided to highlight specific information related to the investigative process for, and resolution of, incidents of hazing.

1. If you believe that the allegations may involve acts of Title IX sexual harassment or other discrimination or discriminatory harassment, please promptly notify me immediately as this must be handled pursuant to a different policy and procedure. If, during the course of this investigation, it appears that the allegations may involve acts of Title IX sexual harassment or other discrimination or discriminatory harassment, the matter will be transferred to the Title IX Coordinator to handle the complaint under the proper policy and procedure.
2. The school will investigate allegations of hazing brought to its attention. The investigation will be conducted by \_\_\_\_\_. If you have any questions about the school's policy on hazing or this investigation, you may contact the investigator at the following address and telephone number:

4. The school is interested in knowing what actions you are seeking in response to the alleged hazing. Although the school will determine the best way to address any misconduct, a collaborative dialogue may be a useful tool in addressing and eliminating hazing.
5. The school will take reasonable steps to preserve confidentiality and will take appropriate action to prevent public disclosure of the names of the parties involved, except to the extent necessary to carry out the

investigation. The school is interested in knowing your views about confidentiality issues and will try to accommodate them, subject to the school being able to fulfill its commitment to eliminate hazing.

- 6. School employees, witnesses and students who are alleged to be perpetrators of hazing may be entitled to due process and may be protected by certain confidentiality rights. Subject to these rights, the school will make an effort to keep you advised of the progress of its investigation and, as appropriate or necessary, of any decisions it reaches concerning the situation. To meet the definition of Title IX sexual harassment, the conduct must have taken place during a school entity's education program or activity involving a person in the United States. An **education program or activity** includes the locations, events or circumstances over which the school entity exercises substantial control over both the respondent and the context in which the sexual harassment occurs. Title IX applies to all of a school entity's education programs or activities, whether such programs or activities occur on-campus or off-campus.

Did the incident occur during a school entity program or activity involving a person in the United States?

Yes

No

To meet the definition of Title IX sexual harassment, the conduct needs to satisfy one or more of the following (please check all that apply):

A school entity employee conditioning the provision of an aid, benefit, or service on an individual's participation in unwelcome sexual conduct, commonly referred to as quid pro quo sexual harassment.

Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to an education program or activity.

Sexual assault, dating violence, domestic violence or stalking.

**Dating violence** means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:

- Length of relationship.
- Type of relationship.
- Frequency of interaction between the persons involved in the relationship.

**Domestic violence** includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving federal funding, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.

**Sexual assault** means a sexual offense under a state or federal law that is classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

**Stalking** means stalking on the basis of sex, for example when the stalker desires to date a victim. Stalking means to engage in a course of conduct directed at a specific person that would cause a reasonable person to either:

1. Fear for their safety or the safety of others.
2. Suffer substantial emotional distress.

### **X. Title IX Information to Complainant**

What supportive measures were discussed with the complainant, and what were the complainant's wishes with respect to supportive measures?

Upon designating a course of action under Title IX sexual harassment, the Title IX Coordinator will promptly:

1. Explain to the complainant the process for filing a formal complaint.
2. Inform the complainant of the continued availability of supportive measures with or without the filing of a formal complaint.
3. The Title IX Coordinator shall contact a student complainant's parents/guardians and provide them with information regarding the report and Title IX sexual harassment procedures and grievance process for formal complaints.

If the complainant/reporter, school staff or others with professional knowledge relating to the complainant's health and well-being indicate that notifying the parents/guardians could cause serious harm to the health or well-being of the complainant or other person(s), the Title IX Coordinator will determine, in consultation with such individuals and upon advice of legal counsel, whether to withhold or delay notification of the report from the complainant's parents/guardians.

4. Determine what supportive measures may be offered to the respondent.
5. Determine whether the complainant wishes this report to be treated as a formal complaint.

**XI. Title IX Coordinator Signature**

I recommend the above course of action based on my consultation with the complainant and the information available at this time.

**XII. Title IX Formal Complaint Action**

The Title IX Coordinator shall have the complainant check the appropriate box and sign and date below to indicate whether or not the complainant wishes to have this form serve as a formal complaint pursuant to Title IX.

I would like my report to be treated as a formal complaint pursuant to Title IX.

Yes  No

Complainant's Signature: \_\_\_\_\_

Date: \_\_\_\_\_

If the complainant does not wish this report to be treated as a formal complaint pursuant to Title IX, the Title IX Coordinator must assess whether actions limited to supportive measures are a sufficient response to alleged behavior, or whether a formal complaint process is necessary to investigate and address the situation adequately. For example, if disciplinary action would be warranted if allegations are true, if the respondent is an employee, or if further investigation is needed to assess the extent of the behavior and impact on others, it may be clearly unreasonable not to initiate the formal complaint process. The Title IX Coordinator may consult with the school solicitor and other school officials in making this decision.

As Title IX Coordinator, I have determined that, notwithstanding the complainant's preference, it is necessary to proceed with the Grievance Process for Formal Complaints for the following reasons:

Therefore, I am signing this form for the purpose of serving as the formal complaint initiating that process:

### **Reporting of Incidents**

Reports of bullying/cyberbullying may be made verbally or in writing and may be anonymous, except where made by school staff. Any staff member who receives a report of bullying/cyberbullying from any source will encourage the Complainant/Reporter to directly meet with and report the allegations to the principal or designee. Staff members who receive a report of bullying/cyberbullying will not directly investigate the allegations but will take appropriate action to protect the safety of involved students. Staff members who observe bullying/cyberbullying or who receive a report of bullying/cyberbullying will promptly provide a summary of what was observed or reported in a confidential email to the principal.

Reports of bullying/cyberbullying may come to the school from different sources. For purposes of these administrative procedures a "Reporter" is someone, other than school staff, who makes a report alleging bullying/cyberbullying directed at one or more students and a "Complainant" is the alleged victim or target of bullying/cyberbullying. There are various circumstances in which a Complainant may be both a Reporter and a Complainant, for example, where more than one (1) person was subjected to bullying and only one (1) of them reports the matter.

The principal or designee will encourage the Complainant/Reporter to promptly review and complete the Discrimination / Sexual Harassment / Bullying / Hazing / Dating Violence / Retaliation Report Form (Report Form). Oral and anonymous reports will be accepted, documented and investigated in accordance with Board policy and related administrative procedures. Where the Complainant/Reporter is not able, due to age or incapacitation, to complete a form, the principal or designee will interview the Complainant/Reporter and complete a Report Form for Complaints of Bullying/Cyberbullying and sign it as having received this report. If the initial report comes to the school from a Reporter, the Complainant and, in most circumstances, the Complainant's parents/guardians will be contacted promptly, informed of the report and, if they believe bullying/cyberbullying has occurred, they will be encouraged to promptly review and complete the Report Form for Complaints of Bullying/Cyberbullying.

If the Complainant/Reporter, school staff or others with professional knowledge relating to the Complainant's health and well-being indicate that notifying the parents/guardians could cause serious harm to the health or well-being of the complainant or other person(s), Complainant's health or well-being, the principal will determine, in consultation with such individuals and upon advice of legal counsel, whether to withhold or delay notification of the report from the Complainant's parents/guardians.

Every report of bullying/cyberbullying will be subject to a sufficient investigation to address any misconduct, consistent with the protection and well-being of the Complainant.

A Complainant age fourteen (14) or older and the Complainant's parents/guardians who are otherwise being notified of the report of alleged bullying/cyberbullying will be provided with the Notice to Complainant and/or Parents/Guardians of Complainant at the outset of the investigation.

### **Investigation of Incidents**

If, at the time of the report or at any time during the investigation of the reported bullying/cyberbullying, there is reason to believe that the conduct may fall within the school's discrimination / Title IX Sexual Harassment Affecting Students, the Title IX Coordinator must be promptly notified. Upon notification, the Title IX Coordinator will immediately initiate steps to comply with Policy 2065 and its procedures.

After determining that this matter need not be handled under Policy 2065, the principal will make an initial determination whether the alleged violations can be investigated by them or a building level designee or must be referred to or discussed with the CEO or other appropriate central administrator to determine who will perform the investigation.

If the police have been called or a police report is known to have been made or if proven allegations could lead to an expulsion, the principal will discuss this matter with the CEO or appropriate central administrator, who will consult with legal counsel as appropriate.

Unless the investigation is turned over to the CEO, central administrator or legal counsel, the principal or designee will conduct a timely, impartial, thorough and comprehensive investigation of the alleged bullying/cyberbullying. During the investigation, the investigator will use and complete the Investigative Fact Sheet.

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation will be maintained consistent with applicable law, regulations and the school's legal and investigative obligations necessary to enforce Board policy.

The investigation may include the following steps based on the specifics of the allegations:

1. Identifying and interviewing the complainant.
2. Identifying and interviewing the individual(s) accused of having participated in the alleged bullying/cyberbullying.
3. Identifying and interviewing any witnesses to the alleged bullying/cyberbullying.
4. Review of any physical evidence or documents related to the alleged bullying/cyberbullying.
5. Review of any other relevant evidence produced by those interviewed.
6. Any other reasonable investigation resulting from the information received during the course of the investigation or which the principal deems necessary to reach a finding or address proven misconduct.

A report of bullying/cyberbullying must be investigated even if the report is anonymous and even if the Complainant/Reporter states that they do not want the school to do anything.

### **Investigative Report Findings**

Investigated reports of bullying/cyberbullying will include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, whether the conduct violated Board policy and of any other violations of law or Board policy which may warrant further school action, and a recommended disposition of the complaint.

The Complainant/Reporter and the accused will be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused will not be notified of the individual remedies offered or provided to the Complainant.

### **School Action**

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of Board policy, the school will take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The school will promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the effect the prohibited conduct had on the Complainant and

the school or school program environment. School staff will document the corrective action taken and, where not prohibited by law, inform the Complainant/Reporter. The investigator will follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If an investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters will be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions will be consistent with the Code of Student Conduct, Board policies and administrative procedures, school procedures, applicable collective bargaining agreements, and state and federal laws.

21<sup>st</sup> Century Cyber Charter School (21CCCS) must ensure that an individual is assigned to act as a surrogate of a child when no parent or person acting as the parent can be identified, or 21CCCS, after reasonable efforts, cannot locate the parent, or the child is an unaccompanied homeless youth as defined in the McKinney-Vento Homeless Assistance Act, 42 U.S.C. Sec. 11434 a (6). 21CCCS must have a method of determining whether or not a child needs a surrogate parent, and for assigning a surrogate parent to the child as well as ensuring that surrogates are trained and have adequate knowledge to serve in this capacity.

21CCCS may select a surrogate parent in any way permitted under State law, but must ensure that a person selected as a surrogate is not an employee of the State Educational Agency ("SEA"), 21CCCS or any other agency that is involved in the education or care of the child. For a child who is a ward of the State, a surrogate may be appointed by a judge overseeing the child's care or by 21CCCS. The surrogate must have no personal or professional interest that conflicts with the interest of the child the surrogate parent represents. The surrogate parent must have knowledge and skills that ensure adequate representation of the child. The surrogate parent may represent the child in all matters relating to the identification, evaluation, educational placement and provisions of FAPE to the child.

For a homeless youth, not in the physical custody of the parent or guardian, 21CCCS must appoint a surrogate. Reasonable efforts are to be made by the SEA to ensure the assignment of a surrogate not more than thirty (30) days after there is a determination by 21CCCS that the child needs a surrogate.

The IDEA of 2004 contains language about seeking parental permission for initial evaluations when a child is a ward of the State. If a child is designated a ward of the State, the whereabouts of the parent is not known or the rights of the parent have been terminated in accordance with State law; someone other than the parent has been designated to make educational decisions for the child. Therefore, 21CCCS must obtain consent for an initial evaluation from the individual designated to represent the interests of the child.

The CEO or designee is directed to develop procedures that may be necessary to implement this policy.

#### **Authority**

To ensure the educational stability of children in foster care, the Board of Trustees (Board) requires the Charter School to collaborate with the local children and youth agency, the school district of residence and other school entities, in accordance with applicable federal and state laws and regulations.[\[1\]](#)[\[2\]](#)[\[3\]](#)

#### **Definitions**

Foster care means twenty-four (24) hour substitute care for children placed away from their parents or guardians and for whom the child welfare agency has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes. A child is in foster care in accordance with this definition regardless of whether the foster care facility is licensed and payments are made by the state, tribal or local agency for the care of the child, whether adoption subsidy payments are being made prior to the finalization of an adoption, or whether there is federal matching of any payments that are made.[\[4\]](#)

School of origin is the school in which a child is enrolled at the time of placement in foster care. If a child's foster care placement changes, the school of origin would then be considered the school in which the child is enrolled at the time of the placement change.

#### **Delegation of Responsibility**

The Board designates the Chief Executive Officer or Director of Education to serve as the Charter School's point of contact for children in foster care.

The Charter School's point of contact shall coordinate with:[\[1\]](#)

1. Local children and youth agency to:
  - a. Establish formal mechanisms to ensure that the Charter School is promptly notified when a child enters foster care or changes foster care placements.
  - b. Develop a protocol on how to make best interest determinations; and
  - c. Develop and coordinate transportation procedures.
2. Other school entities on issues of transfer of records, transportation and other inter-school activities.
3. Charter School staff responsible for the provision of services under Section 504 of the Rehabilitation Act and the Individuals with Disabilities Education Act.

#### **Guidelines**

*Enrollment/Placement -*

[1]

*Best Interest Determination -*

The Charter School shall collaborate with the local children and youth agency and the child's school district of residence to conduct a best interest determination in accordance with federal and state laws and regulations, court orders, and established local procedures.[1]

The Charter School shall notify the child's school district of residence of any placement and enrollment changes.

In determining whether it is in a child's best interest to remain in their school of origin, all factors relating to a child's best interest shall be considered, including the appropriateness of the current educational setting and proximity of foster care placement.[1]

Documentation related to the best interest determination shall be kept in the student's education record.

*Enrollment -*

When a child in foster care enrolls in the Charter School, in accordance with established admission and enrollment procedures, the Charter School's point of contact shall:[1]

1. Ensure the child is immediately enrolled, even if the records normally required for enrollment and attendance in the Charter School pursuant to Board policies are not available.
2. Immediately contact the school last attended by the child to obtain relevant academic and other records.

*Dispute Resolution -*

If a dispute arises over the appropriate school placement for a child in foster care, to the extent feasible and appropriate, the child shall remain in their school of origin, pending resolution of the dispute.

*Assignment -*

If the Charter School is unable to determine the student's grade or level due to missing or incomplete records, the Charter School shall administer tests or utilize appropriate means to determine the student's assignment to the appropriate grade, level or program.

**Education Records**

The Charter School may disclose personally identifiable information from the education records of a student without written consent of the parent(s)/guardian(s) or the eligible student if the disclosure is:[5]

1. To comply with a court order authorizing the disclosure of education records in a case where a parent is a party to a proceeding involving child abuse or neglect or a dependency matter.
2. To an agency caseworker or other representative of a state or local child welfare agency, or tribal organization, who has the right to access a student's case plan, as defined and determined by the state or tribal organization, when such agency or organization is legally responsible, in accordance with state or tribal law, for the care and protection of the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the state or tribal laws applicable to protecting the confidentiality of a student's education records.

**Transportation**

The Charter School's point of contact for children in foster care shall provide professional development and training to Charter School staff on the Title I foster care provisions and education needs of children in foster care, as needed.

This policy sets forth guidelines by which student rights are to be determined consistent with law at 21CCCS.

The Board has the authority and responsibility to establish reasonable rules and regulations for the conduct and deportment of students of the school and to ensure that student rights under varying conditions are properly described. At the same time, no student shall be deprived of equal treatment and equal access to the educational program, due process, a presumption of innocence, and free expression and association in accordance with these guidelines

The privileges and rights of all students shall be guaranteed without regard to race, color, creed, religion, age, gender, national origin, disability, sexual orientation, marital status, or health or medical condition.

Students shall have the right to advocate change of any law, policy or regulation. Students may exercise their right to freedom of expression through speech, assembly, petition, and other lawful means. The exercise of this right may not interfere with the rights of others.

In the exercise of student rights, no person shall speak or distribute materials, wear buttons, or make other displays or post notices or other materials which are obscene, libelous or slanderous, incite students so as to create a clear and present danger of the imminent commission of unlawful acts on school premises or of the violation of lawful school regulations or of the substantial disruption of the orderly operation of the school; or express or advocate ideologies based on race, color, creed, religion, age, gender, national origin, disability, sexual orientation, marital status, or health or medical condition so as to create a clear and present danger of imminent commission of unlawful acts on school premises or the violation of lawful school regulations or of the substantial disruption of the orderly operation of the school.

Students may present complaints to teachers or administration officials through channels established for considering such complaints.

The Board believes that genuine student involvement requires responsible student action which is possible if students are guaranteed certain basic rights, among which are the following: the right to free inquiry and expression, the right to due process, the right to freedom of association, the right to freedom of peaceful assembly and petition, the right to participate appropriately in the governance of the school, the right to freedom from discrimination, and the right to equal educational opportunity.

Attendant upon the rights established for each student are certain responsibilities, which include respect for the rights of others, obedience to properly-constituted school authority and compliance with the rules and regulations of 21CCCS.

Student responsibilities include regular school attendance, conscientious effort in classroom work, and conformance to school rules and regulations. Most of all students share with the administration and faculty the responsibility to develop a climate within the school that is conducive to wholesome learning and living.

No student has the right to interfere with the education of their fellow students. It is the responsibility of each student to respect the rights of all who are involved in the educational process.

Students should express their ideas and opinions in a respectful manner so as not to offend or slander others.

It is the student's responsibility to:

1. Be aware of all rules and regulations for student behavior and to conduct themselves in accord with them and to abide by them.
2. Be willing to volunteer information in disciplinary cases and cooperate with school staff should they have relevant knowledge.
3. Dress and appear so as to meet fair standards of safety and health.
4. Assist the school staff in running a safe school for all students enrolled therein.
5. Assume that until a rule is waived, altered or repealed it is in full effect.
6. Be aware of state and local laws and comply with them.
7. Protect and take care of the school's property.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Books, materials, supplies, equipment and furniture used by students are the property of the school.

Teachers will instruct students about their responsibility to take pride in the school and to take proper care of books, materials, supplies and furnishings.

Students are fully responsible for loss and damage to school and school property. Students who willfully cause loss or damage to school or school property will be subject to disciplinary measures in accordance with the applicable Code of Student Conduct. The costs of repair and/or replacement of books, materials, supplies, equipment and furniture caused by damage or loss will be charged to the responsible student.

School computers and iPads are equipped with all hardware and software needed by students. Computers and other equipment will be supplied under signed agreement from guardians. It is recommended that families work with their insurance company to insure all school equipment against damage or loss under a family's homeowner's or renter's insurance policy.

Families will be responsible for the costs of repair or replacement of school issued equipment, including any freight costs incurred.

The Business Office will determine the required cost of repair or replacement. The charge will be based on the extent of damage or loss and will be commensurate with the value of the object. Value will be determined by the remaining life of the object and its replacement or repair cost.

The Business Office will notify in writing the parents/guardians of a student who is assessed a cost for loss or damage to school or school property. The notice will inform the parents/guardians that the debt must be paid within ten (10) school days, unless the circumstance or amount of the charge is extraordinary.

If restitution is not made within the ten (10) school day period, the Business Office will notify the parents/guardians that payment of the debt is past due and will allow them an additional thirty (30) calendar days to make payment. If the debt is not paid within the thirty (30) calendar days, the principal will immediately refer the financial obligation to the local magistrate's office for processing and collection, with those costs added to the original debt.

The Business Office may waive all or a portion of a debt if they determine any of the following conditions are met:

1. The student or parents/guardians are financially unable to pay the debt.
2. The cost to notify the parents/guardians and/or refer the financial obligation to the local magistrate would cost more than the debt to be collected.

3. Mitigating circumstances preclude collection of the debt.

### **Purpose**

The 21<sup>st</sup> Century Cyber Charter School ("Charter School") recognizes the need to protect the privacy rights of the Charter School's exceptional students and their parents. The classification, collection, use, maintenance and dissemination of any information about a pupil or their family raises issues regarding the privacy of that information. The Charter School shall adhere to the provisions of federal and state laws pertaining to those privacy rights, including but not limited to the Family Educational Rights and Privacy Act of 1974 ("FERPA"), as amended, and its accompanying regulations; the applicable provisions of the Individuals with Disabilities Education Improvement Act (2004) ("IDEA"), as amended, and its implementing regulations; the applicable provisions of the Pennsylvania Public School Code of 1949, and the applicable provisions of Chapters 12 and 711 of the Pennsylvania Administrative Code containing the regulations of the Pennsylvania State Board of Education and other provisions applicable to charter schools. The CEO or their designee shall be responsible for the implementation of this policy.

#### **Consent for Disclosure of Personally-Identifiable Information (34 CFR §300.622)**

Except under the circumstances specified below, parental consent is not required before personally-identifiable information is released to officials of the Charter School for purposes of meeting a requirement of Part B of IDEA 2004. A parent's (legal guardian's) consent, or consent of an eligible child who has reached the age of majority under State law, must be obtained before personally-identifiable information is released to officials of participating agencies providing or paying for transition services.

#### **Access Rights (34 CFR §300.613)**

(a) Parent Access: Charter School must permit a parent to inspect and review any education records relating to the parent's child that are collected, maintained, or used by the charter school under Part B of the IDEA. The charter school must comply with a parent's request to inspect and review any education records on the parent's child without unnecessary delay or before any meeting regarding an IEP, or any impartial due process hearing (including a resolution meeting or a hearing regarding discipline), and in no case more than 45 calendar days after the parent has made a request. A Parent's right to inspect and review education records includes:

(1) A parent's right to a response from the Charter School to reasonable requests for explanations and interpretations of the records;

(2) A parent's right to request that the Charter School provide copies of the records if the parent cannot effectively inspect and review the records unless the parent receives those copies; and

(3) A parent's right to have a representative inspect and review the records.

(i) Charter School may presume that a parent has authority to inspect and review records relating to the parent's child unless advised that the parent does not have the authority under applicable State law governing such matters as guardianship, or separation and divorce;

(ii) If any education record includes information on more than one child, the parents of those children have the right to inspect and review only the information relating to their child or to be informed of that specific information'

(iii) On request, each charter school must provide the parent with a list of the types and locations of education records collected, maintained, or used by the Charter School.

(b) Other Authorized Access (34 CFR §300.614): The Charter School must keep a record of parties obtaining access to education records collected, maintained, or used under Part B of the IDEA 2004 (except access by parents and authorized employees of the participating agency), including the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

**5. Fees:** The Charter School may charge a fee for copies of records (34 CFR §300.617) that are made for a parent under Part B of the IDEA, if the fee does not effectively prevent the parent from exercising the right to inspect and review those records. Charter School may not charge a fee to search for or to retrieve information under Part B of IDEA 2004.

**6. Amendment of Records at Parent's Request (34 CFR §300.618):** If a parent believes that information in the education records regarding the parent's child collected, maintained, or used under Part B of IDEA 2004 is inaccurate, misleading, or violates the privacy or other rights of the child, the parent may request the Charter School that maintains the information to change the information. The Charter School must decide whether to change the information in accordance with the parent's request within a reasonable period of time of receipt of the parent's request. If the Charter School refuses to change the information in accordance with the parent's request, it must inform the parent of the refusal and advise the parent of the right to a hearing for this purpose.

**7. Opportunity for Records Hearing (34 CFR §300.619):** Charter School must, on request, provide the parent an opportunity for a hearing to challenge information in education records regarding the parent's child to ensure that it is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child.

(a) Result of Hearing (34 CFR §300.620): If, as a result of the hearing, the Charter School decides that the information is inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child, it must change the information accordingly and inform the parent in writing. If, as a result of the hearing, the Charter School decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the parent's child, the parent may place in the records that it maintains on the parent's child a statement commenting on the information or providing any reasons the parent disagrees with the decision of the participating agency. Such an explanation placed in the records of the parent's child must:

(1) Be maintained by the Charter School as part of the records of the child as long as the record or contested portion is maintained by the Charter School; and

(2) If the Charter School discloses the records of the child or the challenged portion to any party, the explanation must also be disclosed to that party.

(b) Safeguards (34 CFR §300.623): Each charter school must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. The CEO or their designee must assume responsibility for ensuring the confidentiality of any personally identifiable information. All persons collecting or using personally-identifiable information must receive training or instruction regarding Pennsylvania's policies and procedures regarding confidentiality under Part B of IDEA 2004 and FERPA. Each charter school must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who have access to personally-identifiable information.

Persons who have access to personally-identifiable information at the Charter School will include members of the child's IEP team, the Charter School's records custodian and the CEO or their designee. Any individual accessing a student's personally-identifiable information must sign a sheet evidencing review of the records. The sheet will be maintained with the student records.

**8. Destruction of Information (34 CFR §300.624):** The Charter School must inform the parent when personally-identifiable information collected, maintained, or used is no longer needed to provide educational services to the parent's child, and the information must be destroyed at the parent's request. However, a permanent record of the child's name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation. The Charter School must comply with

record maintenance requirements in accordance with FERPA and Chapters 711 and 12 of Title 22 of the Pennsylvania Code, together with directives of PDE with regard to record maintenance. Special Education records must also be maintained in accordance with 6-year cyclical monitoring period guidelines established by PDE.

**9. Transfer of Records Between Schools:** When the education records for a child with a disability are transferred from a public agency, private school, approved private school or private agency, to a charter school, the public agency, private school, approved private school or private agency from which the child transferred shall forward all the child's educational records, including the most recent IEP, within 10 days after the public agency, private school, approved private school or private agency is notified in writing that the child is enrolled in a charter school. When the educational records for a child with a disability are transferred to a public agency, private school approved private school or private agency from a charter school, the charter school shall forward the child's educational records, including the most recent IEP, within 10 school days after the charter school is notified in writing that the child is enrolled at another public agency, private school, approved private school or private agency.

**10. Referral To and Action By Law Enforcement and Judicial Authorities and Record Transmittal:** The Charter School reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the crime is reported. A charter school reporting a crime may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by FERPA.

**11. Electronic Transmissions:** The Charter School will ensure that any records kept or transmitted electronically are subject to high standards of electronic security. Charter School uses electronic firewalls and encryption systems, and monitors and tests the system regularly to ensure its stability and integrity. **Hearing Procedures (34 CFR §300.621):** A hearing to challenge information in education records must be conducted according to the following procedures for such hearings under the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. Section 1233g (FERPA):

1. The educational agency or institution shall hold the hearing within a reasonable time after it has received the request for the hearing from the parent or eligible student;
2. The educational agency or institution shall give the parent or eligible student notice of the date, time, and place, reasonably in advance of the hearing;
3. The hearing may be conducted by any individual, including an official of the educational agency or institution, who does not have a direct interest in the outcome of the hearing;
4. The educational agency or institution shall give the parent or eligible student a full and fair opportunity to present evidence to challenge the content of the student's education records on the grounds that the information contained in the education records is inaccurate, misleading, or in violation of the privacy rights of the student. The parent or eligible student may, at their own expense, be assisted or represented by one or more individuals of his or her own choice, including an attorney;

**Administrative Procedures:** The CEO or their designee shall be responsible for ensuring that the education records, confidentiality policies and procedures established under IDEA 2004 (relating to confidentiality of education records of exceptional students) are enforced and administered. This official shall:

1. Notify parents on an annual basis of the policies and procedures regarding exceptional student education records and the rights of parents under both Federal and State Law concerning the confidentiality of education records of exceptional students;

exceptional students.

An education record shall not be destroyed by the Charter School if there is an outstanding request to inspect and review it by the parent or eligible student. Charter School will inform the parents of an exceptional student when personally-identifiable information collected, maintained, or used in the records of the exceptional student is no longer needed to provide educational services to the exceptional student. Upon request of the parents, information no longer relevant to and necessary for the provision of educational services to the exceptional student must be destroyed by the Charter School. However, a written record of an exceptional student's name, address, phone numbers, grades, attendance records, classes attended, grade level completed, and year completed will be maintained for 100 years. Prior to the destruction of the information referred to above, the Charter School shall send written notification to the parents which shall inform the parents of their right to receive a copy of the material to be destroyed. The Charter School shall not destroy education records containing information necessary for the education of an exceptional student who is enrolled or has been enrolled in an education program operated by the school. Except as is stated in the above paragraph of this subsection, nothing in this section shall be construed to mean that the Charter School is required to destroy education records and the Charter School Administration is directed to implement any procedures necessary to maintain student records consistent with this policy and applicable state and federal laws and regulations.

Once a formal complaint is filed, the student may seek either an informal or formal resolution of his or her complaint:

#### **A. Informal**

When a Title IX Coordinator receives a complaint, the Title IX Coordinator may offer an informal resolution process. An informal resolution process is only appropriate if each party enters the process voluntarily and the respondent is a student. The Charter School will not force, threaten, or require any party, complainant or respondent, into participating in informal resolution.

The Charter School will provide a facilitator to oversee the informal resolution process who is free from conflicts of interest or bias, and who has received special training.

The Charter School will provide both complainants and respondents with notice of the allegations, notice of their rights, information about whether an informal process is confidential, and about withdrawing from the process.

Any party, at any time, can decide to stop participating in an informal resolution process and instead go to a formal process.

#### **B. Formal**

A formal complaint is an official document alleging sexual harassment. Any student (or any parent of a student) who believes that his or her Title IX rights have been violated may file a complaint requesting a formal investigation into the allegations. Formal complaints shall be taken in writing by the Title IX Coordinator and signed by the complainant. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail at the Title IX Coordinator's posted contact information on the Charter School's website.

In cases where an alleged victim does not file a formal complaint, a Title IX Coordinator might file a complaint and initiate grievance procedures where discipline is appropriate.

A thorough and complete investigation shall be conducted by the Title IX Coordinator.

This investigation shall determine: (1) whether or not the conduct occurred; (2) whether the conduct constitutes a violation of this policy, and, (3) if the conduct was a violation, what actions the Charter School will take to end the violation.

To the extent possible and allowed by law, confidentiality shall be maintained within the confines of the investigation of the alleged prohibited behavior. All parties will be treated with dignity and due process. The Charter School is not allowed to access a party's personal records if they are maintained by a physician,

psychiatrist, psychologist, or other professional for the purpose of treatment to the party, without consent.

### C. Dismissals:

The Charter School **must** dismiss a complaint:

- That does not describe conduct that meets the definition of sexual harassment;
- That alleges sexual harassment that did not occur in the Charter school's educational program or activity;
- That alleges sexual harassment that did not occur in the United States.

The Charter School **may** dismiss a complaint:

- If the complainant notifies the Title IX Coordinator in writing that the complainant wishes to withdraw the formal complaint or some of its allegations;
- If the respondent is no longer enrolled or employed by the Charter school;
- If specific circumstances prevent the Charter school from gathering specific evidence sufficient to reach a determination about the allegation.

When the Charter School dismisses a formal complaint, or any allegations in it, the Charter School must promptly send written notice of the dismissal to the parties. That notice must also clearly state the reasons. The Charter School can still address dismissed Title IX complaints under the Student Code of Conduct, even if the misconduct is not sexual harassment under Title IX.

### D. Conducting Investigations

The Title IX Coordinator receiving a complaint, including a Title IX complaint, shall take the details of the complaint in writing and have the complainant sign it. All Title IX complaints against a student shall be received, investigated and disposed of in accordance with the procedures set forth in this Policy.

- Upon receipt of the complaint, the Title IX Coordinator must provide the parties with written notice including the names of the parties, the date and location of the alleged misconduct, and a description of the alleged misconduct. The notice must further:
  - Provide the allegations and facts that would constitute sexual harassment
  - State the presumption of innocence
  - A statement that the parties are entitled to an advisor of their choice
  - A statement that the parties can request to inspect and review certain evidence
  - Provide information regarding the Charter School's Code of Conduct and penalties for false statements.
  - If additional allegations come to light, notice must be supplemented.
- The Title IX Coordinator shall meet with every complainant and respondent. The complainant may have his or her Parent(s) present during any such meeting. The respondent, if he or she is a student, shall also have the right to have his or her parent(s) present at any meetings with the Title IX Coordinator as well.
- The Charter School shall provide written notice of the date, time, location, participants, and purpose of all interviews, or other meetings, with sufficient time for the party to prepare.
- The Respondent is presumed not responsible during the investigation.
- From these meetings, the Title IX Coordinator will conduct an adequate, reliable, and impartial investigation of complaint(s), which includes interviewing and obtaining statements from any witnesses of both the complainant and alleged perpetrator, and the review of all evidence presented. Parties will be provided updates until a determination is made in writing.
- No information protected by a legal privilege, such as the attorney-client privilege, or the doctor-patient privilege, can be used during an investigation unless the person holding that privilege has waived it.
- After gathering evidence, the Charter School must prepare an investigative report on the allegations of the formal complaint. The report, along with physical evidence (including written witness statements), must be provided to the parties. The Charter School will give each party ten (10) days to respond to the evidence in writing. The Charter School will review and consider the response of any party before making a final determination. After allowing time for a response, the Charter School will then finalize the report and submit it to the parties at least ten (10) days prior to any determination of responsibility or a hearing.

## E. Hearings/Final Determination of Responsibility

- Final Determinations of Responsibility will only be provided after a Hearing.
- For the purposes of this Policy, a Hearing is defined as either a live hearing or the opportunity for both parties to submit written questions prior to the issuance of a Final Determination.
- The Charter School has the option to hold a live hearing. If a live hearing is held, the complainant can request that he/she be in a separate room from the respondent, with technology allowing everyone to see/hear each other. A court reporter will be present at a live hearing and a transcript will be provided to all parties at the conclusion of the hearing.
- The Charter School shall provide written notice of the date, time, location, participants, and purpose of the hearing, with sufficient time for the party to prepare.
- If a live hearing is held, the Charter School must provide each party with an advisor, of the Charter school's own choosing, free of charge, solely for the purpose of conducting cross examination on that party's behalf. **No party is ever allowed to personally cross examine anyone.** Live cross examination must only be done through an attorney or advisor provided by the Charter School.
- In the absence of a live hearing, the Charter School will provide the parties equal opportunity to submit relevant, written questions to each other, before the Charter School reaches a determination of responsibility. If a party refuses to answer any questions, the party must state the reasons why.
  - Questions and evidence about the complainant's prior sexual history are not relevant, except:
    - Where such information is offered to prove that someone other than the respondent committed sexual harassment
    - Where it relates to sexual behavior between the complainant and respondent and if offered to prove consent.
- If a party or witness chooses not to appear at a live hearing, or not to answer cross examination questions, the decision-maker excludes that party or witness's statements and evaluates any evidence that does not include those statements.
- A neutral decision maker, who did not prepare the investigatory report, will preside over the hearing and make the final determination of responsibility.
- The neutral decision maker will not make inferences about the determination regarding responsibility based on the fact that a party or witness did not come to the hearing or submit answers to cross examination.
- The neutral decision maker will make a determination on whether the respondent is responsible within sixty (60) days of the receipt of a complaint unless good cause is shown. Good cause can include law enforcement activities, the absence of a party or witness, the absence of a party's advisor of choice, or the need to provide language assistance or accommodation of a disability.
- The complaint will be decided using a preponderance of the evidence standard (*i.e.*, it is more likely than not that sexual harassment or violence occurred).
- The determination will be in writing, and include:
  - The Charter School Policies that were violated
  - Standard of proof used
  - A description of the procedural steps that were taken by the Charter school
  - A findings of fact section
  - A section that draws conclusions after applying the facts to the applicable portions of the Charter school's policies
  - A statement and rationale for the ultimate determination of responsibility
  - Disciplinary sanctions that the Charter school will impose on the respondent
  - Possible remedies for the complainant (see supportive measures above)
  - A statement of the remedies provided to the complainant and rationale, addressing how those remedies will restore or preserve equal access
  - The right and procedure for each party to file an appeal.
- The determination will be provided to both parties simultaneously.

- Both parties have ten (10) days to file an appeal.
- Discipline for a respondent found responsible for sexual harassment can include but not be limited to in-school suspension, out-of-school suspension, or expulsion. If the Title IX Coordinator or the CEO believes that expulsion against an accused student may be appropriate, then a formal hearing shall be held pursuant to the Pennsylvania Code of Regulations, 22 Pa.Code §12.6 and §12.8. The formal disciplinary procedures contained in the Charter School's Code of Conduct shall be followed for such hearings to assure due process protection for the respondent.
- Even though FERPA limits disclosure of certain information in disciplinary proceedings, the Charter School will disclose information to the complainant about the sanction imposed on the perpetrator when the sanction directly relates to the complainant. This could include an order that the perpetrator stay away from the complainant, or that the perpetrator is prohibited from attending the Charter School for a period of time, or is transferred to other homeroom/classes in the Charter School building.
- The Title IX Coordinator is responsible for carrying out the remedies contained in the written decision.

#### **F. Appeals**

- Both the complainant and respondent are permitted to appeal a determination of responsibility.
- Appeals can be taken:
  - After a dismissal before the grievance process, whether mandatory or discretionary
  - At the end of the grievance process
- Grounds for Appeal
  - A procedural irregularity affected the outcome of the matter
  - New evidence has been discovered that was not reasonably available at the time of the determination on responsibility or dismissal
  - A conflict of interest on the part of a Title IX Coordinator, an investigator who compiled evidence, or a decision maker, and the conflict of interest affected the outcome
- Appeals will be referred to the Charter School Board of Trustees, unless the Board has or is scheduled to preside over a formal disciplinary hearing pursuant to 22 Pa.Code §12.6 and §12.8. In those cases, the Charter School Board of Trustees will appoint a neutral hearing officer to hear appeals of a determination of responsibility who is 1) not an employee of the Charter school, 2) not the investigator of the complaint, and 3) not the neutral decision-maker who made the initial determination.
- Both parties will have equal opportunities to submit a written statement supporting or challenging the outcome to the Board of Trustees or neutral hearing officer
- After considering the parties' written statements, the Board of Trustees or neutral hearing officer must issue a written decision and send it to the parties simultaneously. This decision is final.

Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 *et seq.*, protects students from discrimination based on sex in educational programs or activities that receive Federal financial assistance. Title IX states that:

No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by a recipient, which receives Federal financial assistance.

This policy reaffirms the commitment of the 21st Century Cyber Charter School ("Charter School") to comply with Title IX. This policy covers student on student as well as employee on student sexual harassment.

### **When Does Title IX Apply?**

Title IX covers sexual harassment that happens in a school's "education program or activity." This includes locations, events, and circumstances where a school exercises substantial control over the context of the alleged harassment and the person accused of committing the sexual harassment.

### **Sexual Harassment**

Title IX prohibits the following conduct on the basis of sex that satisfies one or more of the following:

- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's education program or activity.
- School employee conditioning educational benefits on participation in unwelcome sexual conduct, otherwise known as "Quid pro Quo" harassment.
- "Sexual assault," as defined in 20 U.S.C. 1092(f)(6)(A)(v) "dating violence," as defined in 34 U.S.C. 12291(a)(10) "domestic violence," as defined in 34 U.S.C. 12291(a)(8), or "stalking" as defined in 34 U.S.C. 12291(a)(30)

### **Charter School's Response to Allegations/Knowledge of Sexual Harassment**

Once the Charter School has actual knowledge of sexual harassment or allegations of sexual harassment, the Charter school must respond or take action.

The Charter School has "actual knowledge" when it has been given notice that a person may have been victimized by sexual harassment. Any person, whether the alleged victim or a parent, friend, or bystander, has the right to report sexual harassment to put the Charter school on notice. A report to any school employee will result in the Charter School having "actual knowledge." Further, Charter School personnel who personally witness sexual harassment can mean that the Charter School has "actual knowledge."

The Charter School cannot be “deliberately indifferent” in responding to a complaint of sexual harassment. That means that it cannot be “clearly unreasonable” in light of the known circumstances. Upon receipt of a complaint, the Title IX Coordinator must act promptly, and must provide the following information to the complainant:

- The availability of supportive measures
- The right to file a complaint
- How to file a complaint

### **Supportive Measures:**

Supportive measures are free, individualized services designed to restore or preserve equal access to education, protect or preserve equal access to education, protect safety, or deter sexual harassment. A complainant does not need to file a formal complaint for him/her to receive supportive measures. Supportive measures are intended to support a student and are not punitive or disciplinary with respect to another student. These measures do not unreasonably burden any other person. Each student, the complainant and respondent, must have equal access to education prior to any determination of responsibility.

Examples of supportive measures include:

- Counseling
- Extension of deadlines
- Modification of work or class schedules
- Escort services
- Mutual restrictions on contact between individuals

The Title IX Coordinator is responsible for implementing these supportive measures and must consider the alleged victim’s wishes when it comes to requests for supportive measures. Generally, these measures must remain confidential.

### **Title IX Coordinator:**

Per Title IX federal funding mandates, the Charter School shall designate a Title IX Coordinator whose duties will include:

- a. receiving reports from victims and third parties of sexual discrimination or sexual harassment in person or by mail, telephone, email, or any other means that results in the Title IX Coordinator receiving the report at any time, including nonbusiness hours;
- b. oversee mandated (seven-year) recordkeeping regarding investigations, appeals, informal resolutions, and training for Coordinator, investigators and decision-makers on the definition of sexual harassment in the Final Rule, the application of the Title IX policy, how to make relevancy determinations (including how to apply rape shield protections for complainants), the Charter School’s education program or activity, and the grievance process, including how to conduct investigations, hearings (including technology for live hearings), appeals, informal resolution processes, how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias;
- c. maintaining current contact information in Charter School’s nondiscrimination notices and website;
- d. ensuring Charter School is compliant with Title IX, coordinating the investigation and disciplinary process and looking for patterns or systematic problems with compliance to ensure Charter School fulfills federal obligations;
- e. signing formal complaints alleging sexual harassment;
- f. receiving notice of sexual harassment or allegations of sexual harassment (or authorized Charter School representative authorized to institute corrective measures), triggering actual knowledge designation;
- g. upon receipt of a complaint, providing prompt info to complainants about availability of supportive measures, the right to file a complaint and how to file a complaint and consideration of complainant’s wishes regarding supportive measures;
- h. ensuring the Charter School grievance process and the Title IX Coordinator, investigator, decision-maker and facilitator of an informal resolution process is free of conflicts of interest or bias against a party;
- a. dismissing a complaint (1) when complainant provides written notice to the Title IX Coordinator to do so, (2) when allegations do not constitute sexual harassment, (3) if the allegations did not occur in the Charter School’s educational program or activity, (4) if the allegations did not occur in the United States, (5) if respondent is no longer enrolled or employed by the Charter School, or (6) when specific circumstances prevent the gathering of evidence sufficient to reach a determination;
- j. coordinating Charter School efforts to comply with Title IX; and
- k. respecting a complainant’s wishes regarding whether the Charter School investigates, unless the Title IX Coordinator determines that signing a formal complaint to initiate an investigation over the wishes of the complainant is not clearly unreasonable in light of the known circumstances;

The Charter School's Title IX Coordinator's duties do not include:

- a. the ability to be named the decision-maker tasked with issuing a written determination regarding responsibility with findings of fact, conclusion about whether the alleged conduct occurred, rationale for the result as to each allegation, any disciplinary sanctions imposed on the respondent and whether remedies will be provided to the complainant (Title IX Coordinator or the investigator cannot be named decision-maker);
- b. the ability to be named as the decision-maker on any appeal (cannot be the same person as the initial decision-maker on the formal complaint, the investigator, or the Title IX Coordinator);
- c. any other job responsibility that creates a conflict of interest with responsibilities under Title IX;
- d. becoming a complainant or a party during the grievance process upon the signing of a formal complaint; and
- e. a requirement that the Title IX Coordinator file a formal complaint any time the Charter School received notice of multiple reports against a particular respondent and corresponding safe harbor.

### **Grievance Procedures**

Procedures outlining the Title IX Grievance Process that are consistent with this policy and final rules from the United States Department of Education are attached to this policy.

The Charter School will follow a grievance process that complies with the Final Rule before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.

The Charter School will not restrict rights protected under the U.S. Constitution, including the First Amendment, Fifth Amendment, and Fourteenth Amendment, when complying with Title IX. The Charter School will investigate sexual harassment allegations in any formal complaint, which can be filed by a complainant, or signed by a Title IX Coordinator.

It is the policy of the Charter School during the grievance process to treat complainants and respondents equitably. That includes providing remedies to a complainant if a respondent is found responsible, and by following these policies in imposing discipline on the respondent.

The Title IX Coordinator shall be capable of conducting a thorough and complete investigation and shall seek advice and assistance from the Board of Trustees if the Title IX Coordinator believes that he or she lacks the capacity to conduct a thorough and complete investigation of the alleged misconduct. If the Title IX Coordinator or the CEO is the one accused of sexual harassment, or the Title IX Coordinator has bias or a conflict of interest, the Board will appoint a qualified individual who is not employed by the Charter School to conduct the investigation.

If the Title IX Coordinator submits the complaint, the Title IX Coordinator must recuse him/herself from the investigation and allow the Board to appoint a qualified individual who is not employed by the Charter School to conduct the investigation.

Once the Title IX Coordinator completes his/her investigatory report, the case will be turned over to a neutral decision maker for the hearing process. A neutral decision maker must be a person(s) who is free from all conflicts of interest or bias for or against complainants or respondents and must receive special training about how to be impartial and how to decide what evidence is relevant.

A school can remove a respondent from the Charter school's educational programs or activities on an emergency basis if the respondent poses an immediate threat to anyone's physical health or safety. If the respondent is an employee, the Charter school may place the employee on administrative leave pending the investigation.

No one will be forced, threatened, coerced, or discriminated against for choosing not to be a part of this grievance process.

Both complainant and respondent have equal rights throughout the entire investigation and hearing process, including, but not limited to, the opportunity to present witnesses and evidence, including expert witnesses, as well as inculpatory and exculpatory evidence. The Charter School will further comply with all disability laws to ensure that all participants are appropriately accommodated.

The Charter School will maintain and make publicly available on its website all materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process (or available in response to a request from the public if it does not maintain a website).

The Charter School shall designate an individual as its Title IX Coordinator and publish the Coordinator's name, title, office address, email address and phone number on its website, notifying applicants for admission or employment, students, parents, legal guardians, employees, and unions of this designation. Designating one employee as the Title IX Coordinator ensures that students and employees know that notifying the Title IX Coordinator triggers the Charter School's legal obligations to respond to sexual harassment under the regulations.

## **Training**

Title IX mandates that Charter School employees that address sexual violence complaints have appropriate training. The U.S. Department of Education (ED) recommends that teachers, campus security, administrators, counselors, nurses, cleaning staff, coaches, and others likely to receive reports be trained on how to identify and report sexual harassment and violence.

Per the Department of Education, the Charter School will:

1. Ensure that responsible employees with the authority to address sexual violence know how to respond appropriately to reports of sexual violence;
2. That other responsible employees know that they are obligated to report sexual violence to appropriate school officials; and
3. That all other employees understand how to respond to reports of sexual violence.

The Charter School will ensure that counselors and advocates understand the extent to which they may and will keep a report confidential.

The Charter School will provide training to all employees likely to witness or receive reports of sexual violence, including teachers, campus security, school administrators, school counselors, general counsels, athletic coaches, and nurses.

The Charter School will train responsible employees to inform students of:

1. The reporting obligations of responsible employees;
2. Students' option to request confidentiality and available confidential advocacy, counseling, or other support services; and
3. Their right to file a Title IX complaint with the Charter School and to report a crime to campus security or local law enforcement.

The Charter School will ensure that the Title IX Coordinator, investigator, decision-maker, and/or facilitator of an informal resolution process be free of conflicts of interest or bias against a party and that such Charter School Title IX personnel be trained on the application of the Title IX Policy, the definition of sexual harassment in the Final Rule, the scope of the Charter School's education program or activity, how to conduct an investigation and grievance process, including hearings (and technology to be used at a live hearing), appeals, and informal resolution processes, as applicable, and how to make relevancy determinations (and applying rape shield protections for complainants) and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias.

The Charter School shall maintain and make publicly available on its website all materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process (or available in response to a request from the public if it does not maintain a website).

The training materials must be impartial and not rely on sex stereotypes.

Additionally, the Charter School will ensure that staff members are capable of providing culturally competent counseling to all complainants. It will ensure that its counselors and other staff who are responsible for receiving and responding to complaints of sexual violence, including investigators and hearing board members, receive appropriate training about working with Lesbian/Gay/Bi-sexual/Transgender and gender-nonconforming students and same-sex sexual violence.

The Charter School will also ensure that any reporting forms, information, or training about sexual violence be provided in a manner that is accessible to students and employees with disabilities, for example, by providing electronically-accessible versions of paper forms to individuals with print disabilities, or by providing a sign language interpreter to a deaf individual attending a training.

To ensure that students understand their rights under the laws cited herein, the Charter School will provide age-appropriate training to its students regarding Title IX and sexual violence. Training may be provided separately or as part of the Charter School's broader training on sex discrimination and sexual harassment.

The Charter School may include these education programs in its orientation programs for new students, faculty, staff, and employees, training for student athletes and coaches, and assemblies and "back to school nights." These programs will include a discussion of what constitutes sexual harassment and sexual violence, the Charter School's policies and disciplinary procedures, and the consequences of violating these policies.

The Charter School also will include such information in their employee handbook and any handbooks that student athletes and members of student activity groups receive. These materials will include where and to whom students should go if they are victims of sexual violence. These materials also will tell students and Charter School employees what to do if they learn of an incident of sexual violence.

#### **Other Reporting Requirements in Compliance with Local and State Laws:**

If the complaint involves sexual assault, rape or conduct of a criminal nature, the local Police Department shall be contacted and a report of the incident made by the Charter School, in accordance with law enforcement. A report must also be made by the mandatory reporter to ChildLine and the Department of Public Welfare in accordance with the Charter School's Board approved Mandatory Reporter Policy. If there is any question of whether the conduct complained of constituted criminal activity, the Charter School's Board Solicitor should be contacted immediately. Knowledge of a law enforcement investigation does not relieve the Charter School of its independent obligation to investigate the misconduct.

Documents regarding substantiated charges of sexual harassment shall be placed in the accused student's file. Documents regarding unsubstantiated charges shall not be placed in student files, but shall be maintained by the Board of Trustees in a confidential file established expressly for retaining Title IX complaints against students.

#### **Retaliation:**

Charging an individual with code of conduct violations that do not involve sexual harassment, but arise out of the same facts or circumstances as a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX constitutes retaliation.

The Charter School will keep confidential the identity of complainants, respondents, and witnesses, except as may be permitted by FERPA, as required by law, or as necessary to carry out a Title IX proceeding.

Complaints alleging retaliation may be filed according to the Charter school's prompt and equitable grievance procedures. The exercise of rights protected under the First Amendment does not constitute retaliation.

Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a Title IX grievance proceeding does not constitute retaliation; however, a determination regarding responsibility, alone, is not sufficient to conclude that any party made a bad faith materially false statement.

#### **CONCLUSION**

If any section of this procedure is declared invalid, the remaining sections shall remain valid and unaffected.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

**GUIDANCE:**

This policy covers conduct that takes place in the Institution serving youth ("Institution"), on Institution property, at Institution-sponsored functions and activities. This policy also pertains to usage of electronic technology and electronic communication that occurs in the Institution, on Institution property, at Institution-sponsored functions and activities, and on Institution computers, networks, forums, and mailing lists. This policy applies to entire Institution community, including educators, Institution staff, youth, parents, and volunteers.

**Names/Pronouns**

A youth has the right to be addressed by a name and pronoun that corresponds to the youth's gender identity. The name and pronouns with which the youth identifies shall be used in all interactions between them and Institution staff and youth, as well as on written records including class rosters, report cards, letters from the Institution, transfer forms, and photo ID. A court-ordered name or gender change is not required, nor is evidence of therapy or medical transition. The intentional or persistent refusal to respect a youth's gender identity (for example, intentionally referring to the youth by a name or pronoun that does not correspond to the youth's gender identity) is a violation of this policy.

**Privacy and Confidentiality**

All persons, including youth, have a right to privacy, and this includes the right to keep one's transgender identity private at the Institution. Information about a youth's transgender identity, legal name, or sex assigned at birth also may constitute confidential medical information. Institution personnel should not disclose information that may reveal a youth's transgender identity or gender nonconformity to others, including parents and other Institution personnel, unless the youth has authorized such disclosure. Transgender and gender nonconforming youth have the right to discuss and express their gender identity and expression openly and to decide when, with whom, how much and whether to share private information.

**Gender-Segregated Activities**

To the extent possible, the Institution shall reduce or eliminate the practice of segregating youth by gender. In situations where youth are segregated by gender, youth will be included in the group that corresponds to their gender identity. As a general matter, the Institution should evaluate all gender-based activities, rules, policies, and practices, including classroom activities, Institution ceremonies, and Institution photos and maintain only those that have a clear and sound pedagogical purpose. Youth shall be permitted to participate in any such activities or conform to any such rule, policy, or practice consistent with their gender identity.

**Gender-Neutral Language**

To the extent possible, the Institution should use gender-neutral language in written communication with all youth and families, regardless of youth's gender identity. This included employing "they" (singular) instead of "he/she."

**Restroom Access**

Youth shall have access to the restroom that corresponds to their gender identity. Any youth who has a need or desire for increased privacy, regardless of the underlying reason, should be provided access to a single stall restroom, but no youth shall be required to use such a restroom.

**Locker Room Access**

Youth shall have access to the locker room that corresponds to their gender identity. Any youth who has a need or desire for increased privacy, regardless of the underlying reason, should be provided with a reasonable alternative changing area such as the use of a private area. Any alternative arrangement should be provided in a way that protects the youth's ability to keep their transgender identity confidential.

**Physical Education Classes & Intramural Sports**

Transgender and gender nonconforming youth shall be permitted to participate in physical education classes and intramural sports in a manner consistent with their gender identity.

**Interscholastic Competitive Sports Teams**

Participation in competitive athletic activities and contact sports will be resolved on a case-by-case basis.

**Dress Codes**

Transgender and gender nonconforming youth have the right to dress in a manner consistent with their gender identity or gender expression. Institutions may not adopt dress codes that restrict youth clothing or appearance on the basis of gender. In describing dress codes, Institutions serving youth should employ gender-neutral language rather than specify separate "girl" and "boy" uniforms.

**Training Requirement**

All Institution personnel shall be trained regarding this policy.

Discrimination/Harassment

It is the responsibility of the Institution to ensure that transgender and gender nonconforming youth have a safe environment. This includes ensuring that any incident of discrimination, harassment, or violence is given immediate attention, including investigating the incident, taking appropriate corrective action, and providing youth and staff with appropriate resources. Complaints alleging discrimination or harassment based on a person's actual or perceived transgender identity or gender nonconformity are to be handled in the same manner as other discrimination or harassment complaints.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

#### **PURPOSE:**

The 21<sup>st</sup> Century Cyber Charter School ("Charter School") will develop, jointly with teachers, principals, program administrators, and parents and family members of participating children, a Title I Parent and Family Members Engagement Policy. This policy shall be incorporated into any Charter School consolidated application for selected programs funded under Every Student Succeeds Act (ESSA).

The ESSA serves as the latest reauthorization of the Elementary and Secondary Education Act of 1965 (ESEA) which was last reauthorized in 2002 as the No Child Left Behind Act (NCLB). Since its inception, the intent of the law has been to provide all children significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps. Parent and family engagement and consultation have always been a key piece of the law, focused on the low-income parents of "Title I-participating" children.

Title I is a 100% federally funded supplemental education program that provides financial assistance to local educational agencies ("LEAs") to improve educational opportunities for educationally deprived children. Title I programs are designed to help children meet the state content and performance standards in reading, language arts, and mathematics. For LEAs with 40% or more of their students designated as coming from poverty, the Title I funds may be used to upgrade the entire curriculum of the Charter School as Schoolwide Programs. For LEAs with less than 40% poverty rates, programs are designed to help specific children and are targeted assisted programs. LEAs and district schools are subject to consequences of school choice and supplemental education services if they do not meet adequate yearly progress as determined by the State Educational Agency.

In order to receive Title I funds, LEAs must conduct outreach to parents and family members and must implement programs, activities and procedures for the involvement of parents and families in Title I-funded activities. Each LEA must jointly develop with and distribute to families, in a language they can understand, a written Parent and Family Engagement Policy. This policy must be periodically updated to reflect the needs of families and be incorporated into the LEA's school improvement plan.

The Charter School, as an LEA, welcomes the participation of parents and family members in support of student learning and recognizes that parental and familial engagement increases the opportunities for student success. It is the policy of the Charter School to foster and maintain ongoing communications with parents and family members concerning their opportunities for involvement, their child's eligibility for special programs, their child's educational progress, the professional qualifications of their child's teachers, and the status of their child's school. The Charter School strives to provide such information in an understandable and uniform format, including alternative formats upon request, and, to the extent practicable, in a language that parents can understand. To the extent practicable, the Charter School shall also provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and Charter School reports required under Section 1116 in a format and, to the extent practicable, in a language such parents understand. Communications with parents shall, at all times, respect the privacy of students and their families.

## **RATIONALE UNDERLYING PLAN AND SPECIFIED PLAN PROVISIONS (20 U.S.C. §6312(b)(1-13))**

- (5)** the strategy the local educational agency will use to implement effective parent and family engagement as set forth in this Policy pursuant to 20 U.S.C. §6318;
- (6)** how teachers and Charter School leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program will identify the eligible children most in need of services under this part;
- (7)** how the Charter School will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including, if applicable—
  - (A)** through coordination with institutions of higher education, employers, and other local partners; and

### **Background**

The Professional Standards and Practices Commission (PSPC) was required under Act 71 of 1989 to develop a code which would establish statewide standards for professional practice. The code affects all professional educators as defined in the Public School Code, including teachers, administrators, and certified guidance counselors, school nurses, home and school visitor liaison, psychologists, dental hygienists, instructional media specialists, and nutrition specialists.

### **Mission**

The Professional Standards and Practices Commission is committed to providing leadership for improving the quality of education in this Commonwealth by establishing high standards for preparation, certification, practice and ethical conduct in the teaching practice.

### **Introduction**

Professional conduct defines interactions between the individual educator and students, the employing agencies and other professionals. Generally, the responsibility for professional conduct rests with the individual professional educator. However, in this Commonwealth, a Code of Professional Practice and Conduct for certificated educators is required by statute and violation of specified sections of the Code may constitute a basis for verbal warnings, written warnings, private reprimands, public reprimands, suspension, dismissal, or civil and/or criminal sanctions. Violations of the Code may also be used as supporting evidence, though may not constitute an independent basis, for the suspension or revocation of a certificate.

### **Purpose**

A. Professional educators in this Commonwealth believe that the quality of their services directly influences the nation and its citizens. Professional educators recognize their obligation to provide services and to conduct themselves in a manner which places the highest esteem on human rights and dignity. Professional educators seek to ensure that every student receives the highest quality of service and that every professional maintains a high level of competence from entry through ongoing professional development. Professional educators are responsible for the development of sound educational policy and obligated to implement that policy and its program to the public.

B. Professional educators recognize their primary responsibility to the student and the development of the student's potential. Central to that development is the professional educator's valuing the worth and dignity of every person, student and colleague alike; the pursuit of truth; devotion of excellence; acquisition of knowledge; and democratic principles. To those ends, the educator engages in continuing professional development and keeps current with research and technology. Educators encourage and

support the use of resources that best serve the interests and needs of students. Within the context of professional excellence, the educator and student together explore the challenge and the dignity of the human experience.

C. In accordance with applicable state regulations, including Title 22 Pa. Code Chapter 235, the 21st Century Cyber Charter School ("Charter School") Board of Trustees ("Board") has established this policy to create high standards in ethical conduct for the teachers at the Charter School.

### **Practices**

- A. Professional practices are behaviors and attitudes that are based on a set of values that the professional education community and Charter School believe in and accept. These values are evidenced by the professional educator's conduct toward students, colleagues, the Charter School and community.
- B. Professional educators at the Charter School are expected to abide by the following:
1. Pennsylvania's Charter School Law, 24 PS 17-1701-A, other applicable school laws of the Commonwealth, all applicable state and federal law, including sections of the Public Employee Relations Act and the Pennsylvania Code of Professional Practice and Conduct for Educators.
  2. Professional educators shall be prepared and legally-certified in their areas of assignment. Educators may not be assigned or willingly accept assignments they are not certified to fulfill. Educators may be assigned to or accept assignments outside their certification area on a temporary, short-term emergency basis.
  3. Professional educators shall maintain high levels of competence throughout their careers.
  4. Professional educators shall exhibit consistent and equitable treatment of students, fellow educators and parents. They shall respect the civil rights of all and not discriminate on the basis of race, national or ethnic origin, culture, religion, sex or sexual orientation, marital status, age, political beliefs, socioeconomic status, or disabling condition of vocational interest. This list of bases of discrimination is not all-inclusive.
  5. Professional educators shall accept the value of diversity in educational practice. Diversity requires educators to have a range of methodologies and to request the necessary tools for effective teaching and learning.
  6. Professional educators shall impart to their students principles of good citizenship and societal responsibility.
  7. Professional educators shall exhibit acceptable and professional language and communication skills. Verbal and written communication with parents, students and staff shall reflect sensitivity to the fundamental human rights of dignity, privacy and respect.
  8. Professional educators shall be open-minded, knowledgeable and use appropriate judgment and communication skills when responding to an issue within the educational environment.
  9. Professional educators shall keep in confidence information obtained in confidence in the course of professional service unless required to be disclosed by law or by clear and compelling professional necessity as determined by the professional educator.

1. Election of a properly qualified person.
2. Re-election of a properly qualified person.
3. Extension of an incumbent's term.

Notice of such retention must occur at a regular meeting of the Board at least 150 days prior to the end of the incumbent's term.

### Changes

All changes concerning commissioned officers and officials in acting or substitute status require written notice, which is a copy of the Board resolution, to the School Services Unit. When changes occur, the following procedures will be followed:

The notification will include: the appointment, its effective date, its termination date, and copy of Board resolution. If an incumbent's resignation, retirement or death required the appointment, the notification will state that.

The term of an Acting CEO will be no longer than one (1) year from the time of appointment. A commission is not issued and a Letter of Eligibility is not required.

3. Substitute CEO – When the Board appoints a Substitute CEO, the Board will promptly forward written notification to the School Services Unit. The notification will include: the appointment, its effective date, its termination date, and copy of Board resolution.

The Board may appoint a Substitute CEO to serve for such period of time as the regular CEO is absent on leave. The notification must include a copy of the appointee's Letter of Eligibility. A commission is not issued.

2. Filed a charge or testified, assisted or participated in any manner in an investigation, proceeding or hearing under federal or state laws or regulations prohibiting employment discrimination on the basis of sex, race, color, national origin, age, religion, marital status, handicap or disability, or because they reported a suspected violation of such laws in accordance with Board policy and/or administrative procedures.
3. Reported, or was about to report, a suspected violation of any federal or state laws or regulations to a public body, unless the employee knew that the report was false.
4. Was requested by a public body to participate in an investigation, hearing or inquiry held by that public body or a court.

Any employee or applicant for employment who believes that they have suffered reprisal, retaliation or discrimination in violation of Board policy and administrative procedures will report the incident to Human Resources.

The school guarantees that no employee or applicant for employment who makes such a report will suffer any form of reprisal, retaliation or discrimination for making the report.

The school considers violations of applicable Board policy and administrative procedures governing whistle blowing and no retaliation by an employee to be a major offense that will result in disciplinary action against the offender, regardless of the offender's position within the school.

#### Filing A Complaint

An employee who feels they have been subject to an adverse employment action based on their prior disclosure of alleged or actual wrongful conduct may contest the action by filing a written complaint of reprisal with the Board Chairperson of the Board of Trustees. The Board will appoint a designee to promptly review the complaint to determine whether:

1. Complainant made a disclosure of alleged wrongful conduct before an adverse employment action was taken.
2. Responding party could reasonably have been construed to have had knowledge of the disclosure and the identity of the disclosing employee.
3. Complainant has in fact suffered an adverse employment action after having made the disclosure.
4. Complainant alleges that adverse employment action occurred as a result of the disclosure.

If the designee determines that all of the above factors are present, the Board will appoint a Review Officer or Review Panel to investigate the claim and make a recommendation for action to the Board. At the time of appointment, the designee will inform the complainant and respondent in writing of the:

1. Intent to proceed with an investigation.
2. Specific allegations to be investigated.
3. Appointment of the Review Officer or Review Panel.
4. Opportunity of each party to support or respond, in writing, to the allegation.

Once the Review Officer or Review panel has conducted a review and considers the investigation to be complete, the Officer or Panel will notify the Board and its designee regarding completion of the review.

From the date of notice, the Review Officer or Review Panel has thirty (30) days to submit to the Board and designee a written report of the findings and any recommendations deemed appropriate.

The Board will direct the designee, in conferral with the appropriate administrator, to issue a letter describing the findings to both the complainant and the respondent.

The finding of the Review Officer or Review Panel is binding.

A copy of applicable Board policy and administrative procedures will be annually distributed to all school employees with fiscal accounting and/or money handling responsibilities.

Upon receipt and acceptance of an employee resignation, the Director of Human Resources will provide to the resigning employee, either in person or by certified mail, the following statement:

**Acceptance of Resignation**

I, the Director of Human Resources of 21st Century Cyber Charter School, acknowledge receipt this date of the resignation from employment signed by *(Employee Name)* from the position of *(position employee is resigning from)* which will be effective on *(employee's last date of employment)*.

This resignation will be reflected on the Board agenda on *(Meeting Date)*.

Paid personal or vacation leave requests during the final two-weeks prior to the last day of employment will not be approved. Any request for personal or vacation leave that was previously approved prior to notice of resignation having been submitted to the School may or may not be permitted, after resignation is submitted, depending on operational needs of the School. During the final two weeks prior to the last day of employment, sick leave will only be granted for exigent circumstances and as required in accordance with applicable law.

The Pennsylvania School Code requires that all instructional employees provide 60 days written notice before any resignation becomes effective. However, dependent upon 21CCCS' needs, the resigning instructional employee may be held less than sixty (60) days. If an instructional employee does not give the required advance notice regarding resignation, 21CCCS may petition PDE to hold that instructional employee's PA certificate. 21CCCS Administration reserves the right to ask an employee to leave the organization earlier than that employee's planned resignation date.

An employee who resigns or terminates their employment must return to 21CCCS Administration all school property (school keys, entry fobs, equipment, laptops, credit cards and all school, student or staff-related documents in the employee's possession) by that employee's last day at 21CCCS. Property of 21CCCS cannot be accessed or used after termination of employment.

My signature constitutes acceptance of the resignation and releases the School from all further obligations upon the effective date of the resignation. This resignation is irrevocable.

### **Guidelines**

Employees may be required to sign a teleworking agreement, prior to working in a remote work location, which may be waived under emergency conditions at the Board's discretion or as specified in this policy.

Such an agreement may include, but is not limited to, the following considerations:

1. Acknowledgement that the employee's compensation, benefits, work hours, and performance expectations shall not change while teleworking.
2. The employee shall be subject to and shall comply with the same Board policies, administrative procedures, and standards of conduct as are expected at the employee's regularly assigned place of work.

6. The employee does not have a right to telework and the teleworking arrangement may be revoked and/or terminated by the Board or Charter School administration at any time.
7. The employee shall notify their supervisor if the employee is not able to perform all assigned job duties, essential or nonessential, at the remote work location.

#### General Conditions

Employees whose physical presence at their regularly assigned place of work is essential to the performance of their duties may not be permitted to telework.

An employee may not telework as a replacement for leave.

Attendance at the employee's regularly assigned place of work for onsite meetings, conferences, training sessions, and other Charter School business activities may be required on scheduled telework days.

While teleworking, nonexempt employees shall not be permitted to work overtime or during non-working hours without authorization from the employee's immediate supervisor, in accordance with law and Board policy. All overtime must be pre-approved by the Business Administrator.

All teleworking employees shall be subject to and shall comply with the same Board policies, administrative procedures, and standards of conduct as are expected under normal working conditions.

For Charter School employees unable to perform their assigned essential job duties while teleworking, such employees may be required to take any available accrued leave, whether paid or unpaid, in accordance with applicable Board policies or provisions of an individual contract, collective bargaining agreement or Board resolution, where applicable.

### **Purpose**

In order to certify the fitness of Charter School employees to efficiently discharge the duties they will be performing and to protect the health of students and staff from the transmission of communicable diseases, the Board of Trustees (Board) requires physical examinations of all Charter School employees prior to beginning employment and may require health monitoring to prevent the transmission of communicable diseases in the school setting.

### **Definition**

A physical examination, for purposes of this policy, shall mean a general examination by a licensed physician, certified registered nurse practitioner or a licensed physician assistant.

Health monitoring, for purposes of this policy, shall mean screening or monitoring an employee for specific symptoms that may indicate the presence of a communicable disease, in accordance with guidance from state and local health officials, including the Centers for Disease Control and Prevention ("CDC") the Pennsylvania Department of Health and the Pennsylvania Department of Education.

### **Authority**

After receiving an offer of employment but prior to beginning employment, all candidates shall undergo physical examinations, as required by law and as the Board may require, [\[1\]](#)[\[2\]](#)[\[3\]](#) the expense for which shall be paid by the applicant.

The Board requires that all employees undergo a tuberculosis examination upon initial employment, in accordance with regulations of the Pennsylvania Department of Health.[\[1\]](#)[\[4\]](#)

The Board may require an employee to undergo a physical examination at the expense of the Board of Trustees. [\[1\]](#)

An employee who presents a signed statement that a physical examination is contrary to the employee's religious beliefs shall be examined only when the Secretary of Health determines that facts exist indicating that certain conditions would present a substantial menace to the health of others in contact with the employee if the employee is not examined for those conditions.[\[5\]](#)[\[6\]](#)

### **Health Monitoring and Communicable Diseases**

The Board may require employees to participate in health monitoring by designated Charter School staff to monitor for signs and symptoms of communicable diseases, in accordance with guidance issued by state and local health officials and the Board-approved health and safety plan. An employee may request an alternative method of monitoring per a religious accommodation, and designated Charter School staff shall assess and respond to such request in accordance with applicable law, regulations and Board policy. A request for an accommodation that would unreasonably impair workplace safety or cause undue hardship will not be granted.[7]

An employee with a health condition that may render a monitoring method ineffective should notify designated staff so that alternative or supplemental methods may be considered.[7]

Employees exhibiting symptoms that indicate health concerns shall be referred to the school nurse or designated Charter School staff for further assessment, and may be excluded from Charter School facilities in accordance with regulations of the PA Department of Health or guidance from state or local health officials for specified diseases and infections conditions. Employees may return to Charter School facilities when the criteria for readmission following a communicable disease has satisfied, in accordance with law, regulations or guidance from state or local health officials.[8][9][10][11]

### **Delegation of Responsibility**

The results of all required physical examinations shall be made known to the Chief Executive Officer on a confidential basis and discussed with the employee.

Medical records and other health information of an employee shall be kept in a file separate from the employee's personnel file.[3][7]

The school expects employees to comply with applicable federal and state laws and regulations. Employees must ensure that their business conduct is ethical and cannot be interpreted as in contravention of the laws and regulations governing school operations.

The following guidelines are established for the information and direction of school employees to avoid situations in which their personal interests, activities and associations may conflict with the interests of the school:

1. Do not utilize school material for personal gain. Copyrights to materials, software or equipment developed, processed or tested by school employees when performing assigned activities in fulfillment of the terms of employment reside with and may be claimed by the school.
2. Do not use school property or school time to solicit or accept customers for private enterprises.
3. Do not use school time for outside activities when there is no valid reason to be excused from assigned duties.

### **Conflict Of Interest**

Regardless of the circumstances, if an employee determines that their course of action may result in a conflict of interest with the school, they must immediately communicate the facts of the situation to the principal or direct supervisor.

### **Tutoring**

A teacher may not arrange to tutor for a fee a student in their class.

A teacher who tutors school students for a fee will not conduct any tutoring sessions on school property and will make their own arrangements regarding a fee.

A principal may provide instructional materials for a student in the school who is receiving tutoring assistance.

### **Outside Employment**

School employees may receive compensation for outside employment as long as that employment does not interfere with the proper discharge of their assigned school duties and does not create public relations issues within the community.

**Clients And Suppliers**

School employees should avoid investing in or acquiring a financial interest in a business organization that has a contractual relationship with or provides goods or services to the school if such investment or interest could influence, or create the impression of influencing, their decisions on behalf of the school while performing their assigned duties.

**Consultants**

School employees may serve as a consultant to other schools, educational entities or other organizations, or engage in writing or speaking activities.

Preparation of materials to be used for consulting activities and the actual conduct of these activities must be completed only on the employee's personal time and without the use of school time, staff or supplies.

#### Political Materials As Part Of Instructional Program

Teachers are responsible for providing students with an opportunity to investigate various sides of the topics presented in their courses, particularly in relation to controversial subjects, within the limits imposed by relevance to the course, maturity level and intellectual ability of students, and the time available.

Teachers are encouraged to conduct appropriate classroom activities that will encourage students to become involved in the political processes of the party of the student's choice.

Teachers may use political materials as part of the instructional program, provided the material is germane to the instructional objective of the course.

Any classroom presentation of political materials, issues or expression of views must be balanced and fair.

Teachers will strive to promote tolerance for the opinions of others and respect for the right of all individuals to hold and express differing opinions.

School employees will not encourage personal receipt of gifts for services rendered as a school employee.

Recognizing that gifts are often given to employees to express appreciation and are often given to school staff at holidays, at the conclusion of special projects or the end of special seasons, such gifts to staff will be permitted. However, gifts should not be in cash and should not exceed \$25.00 in value.

School employees may not accept gifts that could influence, or appear to influence, school business decisions in favor of an individual, group or organization with which the school conducts business dealings.

### **Authority**

Charter School employees set an example in dress and grooming for students and the Charter School community. Employees' dress should reflect their professional status and encourage respect for authority in order to have a positive influence on the Charter School's programs and operations.

The Board of Trustees (Board) has the authority to specify reasonable dress and grooming requirements, within law, for all Charter School employees to prevent an adverse impact on the educational programs and Charter School operations. [\[1\]](#)[\[2\]](#)

When assigned to Charter School duties, employees shall be physically clean, neat, well-groomed and dressed in a manner consistent with assigned job responsibilities.

Employees shall be groomed so that their hairstyle does not cause a safety or health hazard.

### **Delegation of Responsibility**

The Chief Executive Officer or designee shall have the authority to designate special days when some departure from the dress code shall be allowed.

If an employee feels that an exception to this policy would enable them to carry out assigned duties more effectively, a request should be made to the immediate supervisor.

The Chief Executive Officer or designee shall annually distribute this policy and the rules regarding dress and grooming to employees, and shall include this information in employee handbooks.

### **Guidelines**

Violations of this policy shall result in disciplinary action, in accordance with Board policy, administrative procedures and Charter School rules.

The Charter School shall prepare and distribute identification badges for all employees.

Badges shall display a picture of the employee, employee's name and title, and the name of the Charter School.

All Charter School employees are required to wear identification badges during the school day. Identification badges must be easily visible at all times.

Replacement badges may be purchased by the employee at a cost determined by the Charter School.

In order to provide a learning environment consistent with the purpose of educating children, all school employees will dress appropriately and professionally according to their assigned positions and related job descriptions.

Employees should be aware that they set a powerful example for all students with regard to proper dress and grooming and reflect an image of the school to the community.

Staff dress and grooming must not disrupt the educational process, interfere with the maintenance of a positive teaching/learning climate, or compromise reasonable standards of health or safety.

### **Enforcement**

Principals and immediate supervisors are responsible to ensure that school employees present a professional appearance in dress and grooming and to do so in an equitable, consistent and fair manner.

Principals and immediate supervisors may permit employees who require specific attire to dress according to the needs of their assigned job responsibilities, such as specialty teachers, custodians, maintenance workers, etc.

Principals have the authority to designate special days when some departure from the dress code will be allowed. Principals will announce these days.

### **Penalties**

In order to be consistent in dealing with employees who do not adhere to the established standards for dress and grooming, administrators will follow these procedures for employee violations:

1. First Offense – Employee receives a verbal warning, followed up by written documentation of the date and events of the violation and the warning.
2. Second Offense – Employee is sent home to change and return to work, docked pay for the time lost, followed up with written documentation of date and events of the violation.

#### **Authority**

It is the intent of the Board of Trustees (Board) to establish reasonable and effective means of resolving conflicts among employees to reduce potential areas of complaints, and to establish and maintain clear two-way channels of communication between supervisory personnel and Charter School employees.

The Board adopts this policy to facilitate proper and equitable solutions to complaints by employees at the lowest appropriate level, and to establish an orderly procedure for pursuing solutions.

If a concern or issue arises regarding a term or condition of employment, disciplinary action and/or employment decision or if an employee disagrees with the implementation of 21CCCS policies or procedures, the employee should refer to the Complaint Procedure in the Employee Handbook.

There shall be no reprisals or retaliation of any kind taken against any employees or their representatives because of support of or participation in a complaint.

All complaints will be kept confidential, and will not be disclosed except on a need basis, consistent with the resolution of the issue.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

| Title   | Making Complaints |
| Code    | 3026-AR-1         |
| Status  | Active            |
| Adopted | September 8, 2020 |

The Charter School is committed to resolving these complaints as quickly and efficiently as possible. Individuals who believe they are/have been the victims of or have knowledge or have witnessed harassment, discrimination and/or retaliation should report such incidents, in writing, as promptly as possible, to the CEO. Should the CEO be the person accused of the harassment, discrimination and/or retaliation or should the complainant feel that the CEO is in some way responsible for the harassment, discrimination or retaliation, the complainant may bring their concerns directly to the attention of the Board Chairperson who will follow the procedures outlined below.

Any alleged incident involving an employee and another employee, administrator, Board member or vendor shall be investigated by the CEO or their designee. After completing any such investigation, the CEO shall determine appropriate remediation and/or discipline and shall report to the Board of Trustees.

The reporting of an alleged incident shall remain strictly confidential, within the bounds of any legal and investigative requirements. The confidentiality and rights of the accused shall be similarly respected.

To the extent possible and as permissible by law, the Charter School shall maintain full and confidential records of all such investigation, remediation and discipline (if imposed).

Any retaliation by a Charter School employee found guilty of harassment, discrimination and/or retaliation (or friend/supporter(s) of such an individual) shall be handled as a most serious offense by the appropriate level of jurisdiction, including possible referral to the appropriate law enforcement agencies. Equally serious is a complaint that is not made in good faith or based upon false information. Disciplinary action, including unpaid suspension or termination, may be taken against an employee who files such a complaint.

All students and employees shall be made aware of this policy and their rights to protection against harassment and against any type of retaliation for reporting alleged harassment or discrimination. They also shall be informed of counseling services, where appropriate.

The employee may seek either an informal or formal resolution to their complaint:

#### A. Informal (Employee)

The employee may request that the CEO intervene, after a full investigation by the CEO or their designee, by notifying the alleged offender that the specific offensive behavior(s) will not be tolerated in the work place. In such case, the CEO must discuss the matter with the alleged offender, and, if warranted, require that they participate in non-disciplinary counseling. The CEO shall document responsive actions taken in writing. Copies will also be forwarded to the Chairperson of the Board. If a student, the accused shall have the right to have their parent/guardian present during their interview.

#### B. Informal (Student)

The student or their parent/guardian may request CEO to intervene by notifying the alleged offender that the specific offensive behavior(s) will not be tolerated. In such case, the CEO must discuss the matter with the alleged offender, and, if warranted, require that they participate in non-disciplinary counseling. The CEO shall document actions taken in writing. Copies will also be forwarded to the Board Chairperson. The accused, if they are a student, shall have the right to have their parent present during the interview.

### C. Formal

An individual who believes that they have been harassed, discriminated, or retaliated against (or a witness to any such conduct) should make a written complaint to the CEO requesting an investigation into the allegation. Formal complaints shall be taken in writing and signed by the complainant. A thorough and complete investigation shall be conducted by the CEO or their designee with results provided to the Board of Trustees. To the extent possible and allowed by law, confidentiality shall be maintained within the confines of the investigation of the alleged prohibited behavior. All parties will be treated with dignity and due process.

## Procedures for Investigating and Resolving Complaints

### A. Equal Employment Opportunity Officer ("EEO")

The CEO or their designee shall be designated as the EEO Officer, capable of conducting a thorough and complete investigation. This EEO Officer shall seek advice and assistance from the Board of Trustees if it is believed that they lack the capacity to conduct a thorough and complete investigation of the alleged misconduct. If the CEO is the alleged harasser or is alleged to have been responsible for the harassment/discrimination/retaliation, the Chairperson of the Board will conduct the investigation.

### B. Conducting Investigations

The EEO Officer, receiving a complaint of harassment, discrimination or retaliation, shall take the details of the complaint in writing and have the complainant sign it. Copies of this document will be provided to the Board. All complaints of harassment, discrimination or retaliation against a Charter School employee shall be received, investigated and disposed of in accordance with the procedures set forth in this policy, and complainants shall be notified of the final disposition/action taken.

If the complaint involves sexual assault, rape or conduct of a potentially criminal nature, the local police department or law enforcement agency shall be contacted and a report of the incident made. If there is any question whether the conduct complained of constituted criminal activity, the Charter School's solicitor should be contacted and consulted.

The EEO Officer shall attempt to secure statements from all participants in, and witnesses to the alleged incident. The accused, if they are a student, shall have the right to have their parent or guardian present.

All investigations shall be completed by the EEO Officer within ten (10) school days from the date of the written complaint.

A substantiated charge of harassment, discrimination or retaliation shall result in appropriate disciplinary action, including, but not limited to, potential employee discharge or suspension without pay, or student suspension or expulsion. Any disciplinary action shall be subject to the requirements of the Charter School's Code of Conduct, the Public School Code, Charter School Law, Department of Education Regulations and other applicable law. All complainants shall be guaranteed protection from reprisals of any type, including, but not limited to, continued employment, promotion, work assignment, grades awarded, etc., unless it can be proved such accusations were known to be false and malicious in their intent. If such malicious intent is proved, the complainant shall be subject to appropriate disciplinary action.

Documents regarding substantiated charges of harassment, discrimination or retaliation shall be maintained by the Charter School. Documents regarding unsubstantiated charges shall not be placed in employee personnel files, but shall be maintained by the Board of Trustees in a confidential EEO file established expressly for retaining complaints of harassment, discrimination and/or retaliation against students and/or employees.

### C. Training

It is the responsibility of the Charter School Board of Trustees to ensure that all administration, staff and Board receive the appropriate training to enforce this Policy.

**NOTICE TO INDIVIDUALS COMPLAINING OF  
IMPROPER CONDUCT, UNLAWFUL HARASSMENT OR DISCRIMINATION**

**TO:**

**DATE:**

**FROM:**

The elimination of improper conduct, including unlawful harassment or discrimination, is a high priority for the 21<sup>st</sup> Century Cyber Charter School (21CCCS). It is the established policy of 21CCCS to prohibit *all* forms of improper conduct, including sexual harassment or discrimination. The Employee Handbook addresses Mutual Respect and Prohibition of Workplace Harassment, and we urge you to read it and become familiar with the provisions contained therein. We would, however, like to use this notice to highlight certain information.

1. 21CCCS will investigate the allegations of improper conduct that you have brought to its attention. The investigation will be conducted by the CEO, Human Resources/Civil Rights Coordinator, or designee. If you have any questions of 21CCCS's investigator, you may contact them at the following address and telephone number:  

1245 Wrights Lane, West Chester, PA 19380  
484-875-5400
2. During the investigation, you have the right to (a) provide 21CCCS with information and documentation concerning the alleged improper conduct; (b) advise 21CCCS of the identity and location of any possible witnesses, and (c) all other rights set forth in law or in 21CCCS policy.
3. 21CCCS is interested in knowing what action you are seeking in response to the harassment or discrimination. Although the law does not require that 21CCCS to comply with requested action in order to eliminate unlawful harassment or discrimination, a collaborative dialogue may be a useful tool in ensuring that such harassment or discrimination is eliminated throughout 21CCCS.
4. 21CCCS will take reasonable steps to preserve confidentiality and will make every effort to prevent public disclosure of the names of the parties involved except to the extent necessary to carry out the investigation. 21CCCS is interested in knowing your views about confidentiality issues and will try to accommodate them subject to 21CCCS being able to fulfill its commitment to eliminate unlawful harassment or discrimination.
5. 21<sup>st</sup> Century Cyber Charter School employees and students who are alleged to be perpetrators of misconduct and unlawful harassment or discrimination are entitled to due process and are protected by certain confidentiality rights. Subject to the rights of students and/or employees, 21CCCS will make an effort to keep you apprised of the progress of its investigation and of any decisions it renders concerning the situation. If you have any questions concerning the progress of the investigation or the actions taken by 21CCCS to remediate any harassment or discrimination that may have occurred, please feel free to contact the CEO, Human Resources/Civil Rights Coordinator or the Investigator identified previously in this notice.

6. If you are dissatisfied with the progress of the investigation or have any concerns, you may submit your concerns in writing to the Board of Trustees Chairperson at the following address. The Board will then consider the written concerns and determine what responsive action, if any, is appropriate.

21CCCS Board of Trustees Chairperson  
21st Century Cyber Charter School  
1245 Wrights Lane  
West Chester, PA 19380

7. If, after investigating your complaint, it is concluded that the allegations have merit and that action will be taken to remediate the situation, 21CCCS will follow-up with you to make sure that there is not a recurrence of the improper conduct. If there is any repeat of any improper conduct, we ask that you immediately notify Human Resources/Civil Rights Coordinator.
8. 21CCCS has a policy of correcting the discriminatory effects of any improper conduct, including sexual harassment or discrimination. Please feel free to advise of the things that you believe that 21CCCS should do to correct the discriminatory effects of the improper conduct.
9. Retaliation by anyone against any individual who has reported improper conduct, including sexual harassment or discrimination, is strictly forbidden. If you believe that anyone is retaliating against you in any way, please notify Human Resources/Civil Rights Coordinator immediately.

Thank you for your assistance and cooperation.

I hereby acknowledge receipt of this notice.

| Status  | Active                       |
| Adopted | September 8, 2020            |

Exempt employees are not eligible for overtime or overtime pay (i.e. time and one half pay). Exempt employees are expected to work as many hours or days that it takes to get the job done without additional compensation.

Based upon operational constraints, a non-exempt employee may be offered the opportunity to work more than 7.5 hours in a given day, with the expectation that subsequent days in the same work week would reflect an equal reduction in hours to meet the standard 37.5 hour work week.

Hours worked by a non-exempt employee in excess of 37.5 up to 40 in a workweek will be compensated through payroll at the regular hourly rate of pay (or through equivalent compensatory hours added to the employee's available balance if so elected by the employee and approved by the supervisor).

Non-exempt employees working more than 40 hours in a workweek will be compensated through payroll at the overtime rate of one and one-half times the employee's regular hourly rate of pay (or through the addition of equivalent compensatory time to the employee's available balance if so elected by the employee and approved by the supervisor).

No overtime shall be scheduled or worked without prior approval of the Business Administrator (Board Policy #3030).

When submitting for overtime or compensatory time, non-exempt staff members must complete and submit a weekly timesheet reflecting actual time worked for the entire week, both on and off work premises. The employee's supervisor must approve the timesheet and is responsible for verifying the actual time worked.

Failure to submit and/or submitting inaccurate timesheets will result in disciplinary action up to and including termination. The substitution of compensatory time off in lieu of monetary compensation for the time worked over 37.5 and up to 40 hours must be agreed upon in advance by the staff member and supervisor. In the absence of a timely election, staff members will be paid straight time for time worked in excess of their regular schedule up to 40 hours.

Non-exempt employees cannot receive a combination of both compensatory time and overtime pay for actual time worked in the same pay period.

#### a) Compensatory Time

No more than 20 hours of earned compensatory time may be accumulated in an employee's current balance at any time during the school year. An employee must schedule compensatory time off in advance with their supervisor. Compensatory time must be taken or processed for payment through Payroll by June 30 of the school year in which it is earned. If a staff member changes status or terminates employment, compensatory time is to be paid at the staff member's current rate of pay on or before the next regular payday following the effective date of change of status or termination.

b) Overtime Pay

All payments for overtime must be authorized by the supervisor and processed through payroll within the pay period in which the overtime hours are worked. ### **Travel Expenses for Attendance at Meetings/Conventions/Conferences/Testing Sites**

Employees are encouraged to pool transportation with other school employees, when possible.

Travel will be by the most direct and economical route. Employees should select the most efficient mode of transportation when traveling, considering the most economical use of time and school funds. The length of time involved in travel and lodging and meal expenses should be considered. Locations beyond normal driving distance, approximately 300 miles or five (5) hours, may be reached more economically by air travel.

When an employee is assigned use of a school owned or rental vehicle, the employee will use a school issued gas card for fuel expenses. The school issued gas card is not permitted for use in a personal vehicle.

Use of a personal vehicle for authorized travel between school by an employee will be reimbursed at the mileage rate established by the IRS. Use of a personal vehicle requires that liability insurance be provided by the employee.

Use of a personal vehicle for special emergency purposes by an employee will be reimbursed if it is a recognized part of the employee's job responsibilities.

Employees will complete and submit to the immediate supervisor at the end of each month the Employee's Monthly Expense Form to receive reimbursement for travel connected to the job description. The supervisor will approve the form and submit it to the Business Office for approval by the Business Administrator.

Employees traveling for school business should exercise the same care when incurring expenses as they would when traveling on personal business. Employees are expected to be accurate when reporting expenses.

It is the general practice that all expenses are paid by the employee and reimbursed according to the stated procedure.

When traveling overnight, the actual cost for meals supported by itemized receipts (dates and costs must be clearly visible) will be within the General Service Administration (GSA) per diem. Where receipts are unavailable, a menu with itemized costs totaling the requested reimbursements supported by a credit card statement, may be accepted. Employees will be reimbursed no more than \$60 per day (recommended as follows: \$14 - Breakfast, \$16 - Lunch, \$30 - Dinner). Gratuities will not be reimbursed over twenty percent (20%). Sales tax will be reimbursable for travel related expenses.

Each employee will include only meals for reimbursement. On the return day, the meal allowance will end upon arrival at the school or employee's home. On the travel day, the meal allowance will begin upon departure from the school. Meals in lieu of meals covered by a conference registration fee will not be reimbursed.

Requests for reimbursement in a name other than the employee will not be permitted without a Statement or Verification Form.

Reimbursement requests that are not timely and are older than 3 months will not be processed for reimbursement.

### **Procedures**

1. All requests for travel to and attendance at meetings, conventions or conferences must have been budgeted in the current operating budget, although the CEO can exercise discretion for final approval of a proposed request outside the budget allocation.
2. The completed Meeting/Convention/Conference/Workshop Request Form must be submitted to the principal or immediate supervisor at least three (3) weeks prior to the requested date of attendance.
3. If the principal or supervisor approves the request, they will ensure that the expenses for the request are covered in the budget. The original is submitted to the CEO and the Business Administrator for final approval.
4. The CEO makes the final determination of approval or denial. If the request is denied, the reasons will be noted on the form.
5. The request is returned to the employee with approval or denial noted.
6. The employee attends the meeting, conference or convention and keeps a copy of all receipts paid for meals, tolls and mileage.
7. Within five (5) days of the end of the month, the employee completes the Report of Conference Attendance and the Monthly Expense Form, attaches all receipts, and submits it to the principal or immediate supervisor.
8. The principal or supervisor reviews the form and submitted expenses, approves them and submits them to the Business Administrator for approval and payment.
9. The employee's expenses will be approved with the accounts payable bills for that month.

### **Unallowable Expenses**

### **Purpose**

The Board of Trustees (Board) adopts this policy to ensure that Charter School employees receive paid sick leave days in accordance with the employee handbook and terms of an individual employment contract.

### **Authority**

The Board reserves the right to require any employee claiming paid or unpaid sick leave to submit sufficient proof, including documentation from a licensed physician, certified registered nurse practitioner or a licensed physician assistant, of the employee's illness, disability or need to quarantine.

Misuse of sick leave shall be considered a serious infraction subject to disciplinary action.[1] Any evidence of misuse of sick leave shall be maintained in the employee's confidential file and shall be made part of the evaluation of the employee's service.

The Board shall consider the written request of any eligible employee for an extension of sick leave, with or without pay, when the employee's own accumulated sick leave or other paid or unpaid leave has been exhausted.

### **Delegation of Responsibility**

The Chief Executive Officer or designee shall report to the Board the names of employees absent for non-compensable cause or whose claim for sick leave pay cannot be justified.

### **Guidelines**

Charter School employees shall be entitled to sick leave as specified in the handbook provisions applicable to each employee classification and/or individual employment contract.

Whatever the claims of disability, no day of absence shall be considered a sick leave day if the employee has engaged in or prepared for other gainful employment, or has engaged in any activity that would raise doubts regarding the validity of the sick leave request.

### **Proof of Disability**

An employee absent on sick leave may be required to submit a physician's written statement certifying their disability.

An employee absent for 3 or more consecutive working days may be required to submit a physician's statement.

A physician's statement may not be presumed to conclusively establish the employee's disability.

#### Records

The Charter School's personnel records shall show the attendance of each employee; and the days absent shall be recorded, with the reasons for such absences noted.

A record shall be made of the unused sick leave days accumulated by each Charter School employee, which shall be reported to the employee.

It is the policy of the Board not to make payment for unused sick leave upon discharge, resignation, or retirement, except as referenced in the employee handbooks and/or individual employment contract.

### **Sick Time**

All full time employees will accrue paid sick time at the rate of one (1) day per month of employment. Sick time is added to available balances in the Employee Portal the first of the month. There is no maximum accrual for sick time balances. Employees hired after the start of the school year will earn sick leave on a pro-rated basis.

### **Employment Basis Sick Time Accrual**

260 Days (12 Months) 12 days per year  
 221-259 days (11 Months) 11 days per year  
 180-220 days (10 Months) 10 days per year

With the approval of the CEO, part-time employees (0.5FTE or higher) are eligible to earn sick time on a prorated basis. Absences due to sickness lasting more than two consecutive days must be substantiated with a doctor's note. Any employee who is expected to be at work but is absent on days considered "critical days" must provide a doctor's note upon their return to work. Sick days used to extend a non-work day/break or taken on a "critical day" will require a doctor's note. Critical days are defined as full professional development days, first/last day of the quarter, transition days and during standardized testing weeks. This restriction will apply to employees in the following positions: Teachers, Counselors, School Nurse, Developers, Academic Advisor, ISD department and Administrators.

After an employee has used half of their sick day accrual for the year, they may be required to supply Administration with a doctor's note for subsequent sick days. Unused sick time will not be paid out at termination of employment unless eligibility requirements are met (refer to Retirement and Severance). Misuse of sick leave shall be considered a serious infraction subject to disciplinary action (Board Policy #3034).

## PAID SICK LEAVE AND EXPANDED FAMILY AND MEDICAL LEAVE UNDER THE FAMILIES FIRST CORONAVIRUS RESPONSE ACT

The **Families First Coronavirus Response Act (FFCRA or Act)** requires certain employers to provide their employees with paid sick leave and expanded family and medical leave for specified reasons related to COVID-19. These provisions will apply from April 1, 2020 through December 31, 2020.

### ▶ PAID LEAVE ENTITLEMENTS

**Generally, employers covered under the Act must provide employees:**

Up to two weeks (80 hours, or a part-time employee's two-week equivalent) of paid sick leave based on the higher of their regular rate of pay, or the applicable state or Federal minimum wage, paid at:

- 100% for qualifying reasons #1-3 below, up to \$511 daily and \$5,110 total;
- ⅔ for qualifying reasons #4 and 6 below, up to \$200 daily and \$2,000 total; and
- Up to 12 weeks of paid sick leave and expanded family and medical leave paid at ⅔ for qualifying reason #5 below for up to \$200 daily and \$12,000 total.

A part-time employee is eligible for leave for the number of hours that the employee is normally scheduled to work over that period.

### ▶ ELIGIBLE EMPLOYEES

In general, employees of private sector employers with fewer than 500 employees, and certain public sector employers, are eligible for up to two weeks of fully or partially paid sick leave for COVID-19 related reasons (see below). *Employees who have been employed for at least 30 days prior to their leave request may be eligible for up to an additional 10 weeks of partially paid expanded family and medical leave for reason #5 below.*

### ▶ QUALIFYING REASONS FOR LEAVE RELATED TO COVID-19

An employee is entitled to take leave related to COVID-19 if the employee is unable to work, including unable to **telework**, because the employee:

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                           |

# EMPLOYEE RIGHTS AND RESPONSIBILITIES UNDER THE FAMILY AND MEDICAL LEAVE ACT

## Basic Leave Entitlement

FMLA requires covered employers to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- for incapacity due to pregnancy, prenatal medical care or child birth;
- to care for the employee's child after birth, or placement for adoption or foster care;
- to care for the employee's spouse, son, daughter or parent, who has a serious health condition; or
- for a serious health condition that makes the employee unable to perform the employee's job.

## Military Family Leave Entitlements

Eligible employees whose spouse, son, daughter or parent is on covered active duty or call to covered active duty status may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is: (1) a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness\*; or (2) a veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness.\*

**\*The FMLA definitions of "serious injury or illness" for current servicemembers and veterans are distinct from the FMLA definition of "serious health condition".**

## Benefits and Protections

During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms.

Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee's leave.

## Eligibility Requirements

Employees are eligible if they have worked for a covered employer for at least 12 months, have 1,250 hours of service in the previous 12 months\*, and if at least 50 employees are employed by the employer within 75 miles.

**\*Special hours of service eligibility requirements apply to airline flight crew employees.**

## Definition of Serious Health Condition

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities.

Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and

a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

## Use of Leave

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the employer's operations. Leave due to qualifying exigencies may also be taken on an intermittent basis.

## Substitution of Paid Leave for Unpaid Leave

Employees may choose or employers may require use of accrued paid leave while taking FMLA leave. In order to use paid leave for FMLA leave, employees must comply with the employer's normal paid leave policies.

## Employee Responsibilities

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with an employer's normal call-in procedures.

Employees must provide sufficient information for the employer to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the employer if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide a certification and periodic recertification supporting the need for leave.

## Employer Responsibilities

Covered employers must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the employer must provide a reason for the ineligibility.

Covered employers must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the employer determines that the leave is not FMLA-protected, the employer must notify the employee.

## Unlawful Acts by Employers

FMLA makes it unlawful for any employer to:

- interfere with, restrain, or deny the exercise of any right provided under FMLA; and
- discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

## Enforcement

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

**FMLA section 109 (29 U.S.C. § 2619) requires FMLA covered employers to post the text of this notice. Regulation 29 C.F.R. § 825.300(a) may require additional disclosures.**

The employer must give the employee **at least 15 calendar days** to provide the certification. Do not provide information about genetic tests, as defined in 29 C.F.R. § 1635.3(f), genetic services, as defined in 29 C.F.R. § 1635.3(e), or the manifestation of disease or disorder in the employee's family members, 29 C.F.R. § 1635.3(b).

(1) State the approximate date the condition started or will start: \_\_\_\_\_ (mm/dd/yyyy)

(2) Provide your **best estimate** of how long the condition lasted or will last: \_\_\_\_\_

(3) Check the box(es) for the questions below, as applicable. For all box(es) checked, the amount of leave needed must be provided in Part B.

**Inpatient Care:** The patient ( has been /  is expected to be) admitted for an overnight stay in a hospital, hospice, or residential medical care facility on the following date(s): \_\_\_\_\_

**Incapacity plus Treatment:** (e.g. outpatient surgery, strep throat)  
Due to the condition, the patient ( has been /  is expected to be) incapacitated for *more than* three consecutive, full calendar days from \_\_\_\_\_ (mm/dd/yyyy) to \_\_\_\_\_ (mm/dd/yyyy).

The patient ( was /  will be) seen on the following date(s): \_\_\_\_\_  
\_\_\_\_\_

The condition ( has /  has not) also resulted in a course of continuing treatment under the supervision of a health care provider (e.g. prescription medication (other than over-the-counter) or therapy requiring special equipment)

**Pregnancy:** The condition is pregnancy. List the expected delivery date: \_\_\_\_\_ (mm/dd/yyyy).

**Chronic Conditions:** (e.g. asthma, migraine headaches) Due to the condition, it is medically necessary for the patient to have treatment visits at least twice per year.

**Permanent or Long Term Conditions:** (e.g. Alzheimer's, terminal stages of cancer) Due to the condition, incapacity is permanent or long term and requires the continuing supervision of a health care provider (even if active treatment is not being provided).

**Conditions requiring Multiple Treatments:** (e.g. chemotherapy treatments, restorative surgery) Due to the condition, it is medically necessary for the patient to receive multiple treatments.

**None of the above:** If none of the above condition(s) were checked, (i.e., inpatient care, pregnancy) no additional information is needed. Go to page 4 to sign and date the form.

- (4) If needed, briefly describe other appropriate medical facts related to the condition(s) for which the employee seeks FMLA leave. (e.g., use of nebulizer, dialysis) \_\_\_\_\_

**PART B: Amount of Leave Needed**

For the medical condition(s) checked in Part A, complete all that apply. Several questions seek a response as to the frequency or duration of a condition, treatment, etc. Your answer should be your **best estimate** based upon your medical knowledge, experience, and examination of the patient. Be as specific as you can; terms such as “lifetime,” “unknown,” or “indeterminate” may not be sufficient to determine FMLA coverage.

- (5) Due to the condition, the patient ( had /  will have) **planned medical treatment(s)** (scheduled medical visits) (e.g. psychotherapy, prenatal appointments) on the following date(s): \_\_\_\_\_

- (6) Due to the condition, the patient ( was /  will be) **referred to other health care provider(s)** for evaluation or treatment(s).

State the nature of such treatments: (e.g. cardiologist, physical therapy) \_\_\_\_\_

Provide your **best estimate** of the beginning date \_\_\_\_\_ (mm/dd/yyyy) and end date \_\_\_\_\_ (mm/dd/yyyy) for the treatment(s).

Provide your **best estimate** of the duration of the treatment(s), including any period(s) of recovery (e.g. 3 days/week)

- (7) Due to the condition, it is medically necessary for the employee to work a **reduced schedule**.

Provide your **best estimate** of the reduced schedule the employee is able to work. From \_\_\_\_\_ (mm/dd/yyyy) to \_\_\_\_\_ (mm/dd/yyyy) the employee is able to work: (e.g., 5 hours/day, up to 25 hours a week)

- (8) Due to the condition, the patient ( was /  will be) **incapacitated for a continuous period of time**, including any time for treatment(s) and/or recovery.

Provide your **best estimate** of the beginning date \_\_\_\_\_ (mm/dd/yyyy) and end date \_\_\_\_\_ (mm/dd/yyyy) for the period of incapacity.

- (9) Due to the condition, it ( was /  is /  will be) medically necessary for the employee to be absent from work on an **intermittent basis** (periodically), including for any episodes of incapacity i.e., episodic flare-ups. Provide your **best estimate** of how often (frequency) and how long (duration) the episodes of incapacity will likely last.

Over the next 6 months, episodes of incapacity are estimated to occur \_\_\_\_\_ times per ( day /  week /  month) and are likely to last approximately \_\_\_\_\_ ( hours /  days) per episode.

**PART C: Essential Job Functions**

If provided, the information in Section I question #4 may be used to answer this question. If the employer fails to provide a statement of the employee’s essential functions or a job description, answer these questions based upon the employee’s own description of the essential job functions. An employee who must be absent from work to receive medical treatment(s), such as scheduled medical visits, for a serious health condition is considered to be *not able* to perform the essential job functions of the position during the absence for treatment(s).

(10) Due to the condition, the employee ( was not able /  is not able /  will not be able) to perform *one or more* of the essential job function(s). Identify at least one essential job function the employee is not able to perform:

The Family and Medical Leave Act (FMLA) provides that an employer may require an employee seeking FMLA leave to care for a family member with a serious health condition to submit a medical certification issued by the family member's health care provider. 29 U.S.C. §§ 2613, 2614(c)(3); 29 C.F.R. § 825.305. The employer must give the employee **at least 15 calendar days** to provide the certification. If the employee fails to provide complete and sufficient medical certification, his or her FMLA leave request may be denied. 29 C.F.R. § 825.313. Information about the FMLA may be found [on the WHD website at www.dol.gov/agencies/whd/fmla](http://www.dol.gov/agencies/whd/fmla).

**SECTION I - EMPLOYER**

Either the employee or the employer may complete Section I. While use of this form is optional, this form asks the health care provider for the information necessary for a complete and sufficient medical certification, which is set out at 29 C.F.R. § 825.306. **You may not ask the employee to provide more information than allowed under the FMLA regulations, 29 C.F.R. §§ 825.306-825.308.** Additionally, you **may not** request a certification for FMLA leave to bond with a healthy newborn child or a child placed for adoption or foster care.

Employers must generally maintain records and documents relating to medical information, medical certifications, recertifications, or medical histories of employees or employees' family members created for FMLA purposes as confidential medical records in separate files/records from the usual personnel files and in accordance with 29 C.F.R. § 1630.14(c)(1), if the Americans with Disabilities Act applies, and in accordance with 29 C.F.R. § 1635.9, if the Genetic Information Nondiscrimination Act applies.

You must provide the following information no later than \_\_\_\_\_, unless it is not practicable under the particular circumstances despite your diligent good faith efforts, or your leave may be denied.

#### **Authority**

The Board of Trustees (Board) adopts this policy to ensure appropriate oversight of and responsibility for student welfare by Charter School employees.[\[1\]](#)[\[2\]](#)

Charter School employees are responsible for the safety of students in their charge within Charter School buildings, on Charter School property, and during school-sponsored activities.

Each employee is responsible for supervision, control and protection of students, commensurate with assigned duties and directives.

Each employee is responsible to ensure that students are supervised by a teacher or other Charter School staff member at all times while engaged in Charter School activities.

Each teacher must be in the classroom or assigned station, or ensure another staff member is present, when students are in the classroom or at the assigned station.

An employee should not voluntarily assume responsibility for duties they cannot reasonably perform. Voluntary assumption of duties carries the same responsibilities as assigned duties.

Teachers and designated staff shall provide proper instruction in and enforcement of the safety rules and procedures included in the Board-approved health and safety plan and the approved curriculum.

Each employee has the responsibility to report immediately to their immediate supervisor, administrator or Chief Executive Officer or designee, an accident, safety hazard, unsafe dangerous situation, or to immediately address observed violations of Charter School safety rules.

Employees may not send students on any personal errands.

Employees may not transport students in employee's personal vehicles, except when specifically authorized in advance by the Chief Executive Officer or designee.

Employees shall not require a student to perform work and/or services that may be detrimental to the student's health.

#### **Delegation of Responsibility**

The Chief Executive Officer and immediate supervisors shall monitor employees' adherence to this policy to ensure the maintenance of standards that protect student welfare.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

The 21st Century Cyber Charter School ("Charter School") shall provide an environment free from harassment of any kind, including sexual harassment, or harassment because of one's gender. Sexual harassment has been defined by the Equal Employment Opportunity Commission (EEOC), as well as by federal, state and local laws, and for the purpose of this policy, Charter School has adopted this definition. This policy covers employee on student and employee on employee harassment.

A key aspect of such an environment is protection from harassment or discrimination based on sex, race, religion, age, marital status, ethnicity, disability, ancestry, sexual orientation, gender and/or any other legally-protected class for every employee. Such harassment will not be tolerated by or from any Board member, employee, student or vendor doing business with the Charter School.

Harassment or discrimination is defined herein as discriminatory treatment on the basis of race, color, sex, religion, national origin, age, disability, or any other protected activity or class under applicable law or statutes. An action may not rise to the level of harassment pursuant to federal law if it consists of simple teasing, offhand comments, or isolated incidents that are not "extremely serious." Rather, the conduct must be "so objectively offensive as to alter the 'conditions' of the victim's employment." The conditions of employment are altered if the harassment or discrimination culminated in a tangible employment action or was sufficiently severe or pervasive to create a hostile work environment.

Further, sexual harassment is defined as: unwanted sexual advances, including request for sexual favors, and/or inappropriate verbal or physical contact of a sexual nature when made by a member of the Charter School staff, administration or Board of Trustees ("Board"). Sexual advances, request for sexual favors, or other verbal or physical acts of a sexual nature constitute sexual harassment when:

- A) submission to such conduct is made either explicitly or implicitly a term or condition of a student's success in school;
- B) submission to or rejection of such conduct by a school employee is used as the basis for the employee's success in their employment with the Charter School or threatens their employment with the Charter School in any way;
- C) submission to or rejection of such conduct by a student is used as the basis for school decisions affecting such student;
- D) such conduct has the purpose or effect of unreasonably interfering with a student's work performance or creating an intimidating, hostile, or offensive school environment; or
- E) such conduct has the purpose or effect of unreasonably interfering with an employee's work performance or creating an intimidating, hostile work environment.

Recent court cases have recognized acts of harassment directed at a person because of gender to be sexual harassment, despite the intent behind the act. The Charter School adopts this interpretation as part of its policy. Sexual harassment is a violation of federal and state laws and may expose not only the Charter School, but also individuals to significant liability under the law.

Any student or employee who feels they are being subjected to harassing or discriminatory behavior of any kind is encouraged to object to the behavior and report the behavior to their Chief Executive Officer ("CEO") or other appropriate officials as indicated in the "Procedures for Making Complaints," which is incorporated herein. It is a violation of this policy to retaliate or engage in any form of reprisal because a student or employee has raised a concern, filed a complaint of, or been a witness to sexual harassment.

It shall also be the policy of the Charter School that the basic rights of all concerned must be respected at all times.

### **Prohibited Sexually Harassing Conduct**

The following are examples of acts that violate the Charter School's Anti-Harassment policy and position. These examples are not to be construed as an all-inclusive list of prohibited acts under the policy.

- A) Physical assaults of a sexual nature, such as:
  - 1) rape, sexual battery, molestation or attempts to commit those offenses, or committing an act with intent to cause fear in another of immediate bodily harm or death; and
  - 2) intentional physical contact which is sexual in nature, such as touching, pinching, patting, grabbing, brushing against or poking a person's body, or touching of the clothing covering the immediate area of the complainant's intimate body parts.
- B) Unwelcome sexual advances, propositions or other sexual comments such as:
  - 1) sexually-oriented gestures, sounds, remarks, jokes, or comments about a person's sexuality or sexual experience directed at or made in the presence of any student;
  - 2) preferential treatment or promise of preferential treatment for submitting to sexual conduct, including soliciting or attempting to solicit any student to engage in sexual activity for compensation or reward; and
  - 3) subjecting, or threatening to subject, an individual to unwelcome sexual attention or conduct, or intentionally making success in school more difficult because of the individual's gender.
- C) Display of publications anywhere within the Charter School's control such as:
  - 1) Displaying pictures, posters, cartoons, calendars, graffiti, objects, promotional materials, reading materials, music or other materials that are sexually suggestive, sexually demeaning, or pornographic;
  - 2) displaying or publicizing, in the classroom environment, materials that are sexually revealing, sexually suggestive, sexually demeaning or pornographic;
  - 3) displaying signs or other materials purporting to segregate a student by gender in any area of the school (other than the restrooms and similar semi-private lockers/changing rooms); or
  - 4) possession of such material in a manner that is reasonably foreseeable that it might be seen by others.

Exceptions will be considered in situations where nudity or sexually explicit language is necessary to convey a message important to public health and/or safety or pedagogically appropriate.

Subject to the foregoing exceptions, visual material will be presumed to be sexually suggestive if it depicts a person of either sex who is nude or seminude and/or who is posed for the obvious purpose of displaying or drawing attention to private portions of their body.

D) Sexual Favoritism: The granting or withholding of school opportunities and benefits, including, but not limited to, evaluation, salary, etc., constitutes sexual harassment when it is based on sexual favoritism, and is prohibited.

E) Other Forms of Prohibited Sexual Harassment: Other conduct that has the purpose or effect of unreasonably interfering with work performance on the basis of gender may also constitute sexual harassment, and therefore, is prohibited.

**Prohibited Retaliation**

The following are examples of retaliatory acts that violate the Charter School's Anti-Harassment and Anti-Discrimination Policy. These examples are not to be construed as an all-inclusive list of prohibited retaliatory acts. Examples of such retaliation may include:

- 1) Arbitrary discipline, threats, unwarranted change of assignments, providing inaccurate information, or failing to cooperate or discuss school-related matters with an employee because that employee has complained about, been a witness to, or resisted harassment, discrimination and/or retaliation; and/or
- 2) Intentionally pressuring, falsely denying, lying about, or covering up or attempting to cover up conduct such as that described in any items above.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Holidays**

The following paid holidays shall be observed on the school calendar for all full time, 12-month employees:

- 1 day Independence Day (plus preceding day if holiday falls on a Tuesday or day following if holiday falls on a Thursday)
- 1 day Labor Day
- 2 days Thanksgiving Day (and day following)
- 2 Days Christmas
- 1 day New Year's Day
- 1 day Martin Luther King's Birthday
- 1 day Mid-Winter Break
- 1 day Good Friday
- 1 day Memorial Day

Employees who are hired on less than a 12-month/260-day basis will not receive the paid holidays and are required to work the specific number of days for which they are employed between July 1 and June 30. If an employee is required by their department to work on a holiday, the employee will be paid for that day at their normal rate of pay and receive an alternative day off.

### **Floating Holiday**

One Floating Holiday will be included on the annual school calendar. This day is available to all full-time employees hired on a 10-month (195-215 day) basis. Employees who elect to use the Floating Holiday will be required to work the designated make-up date on the calendar to ensure the required days are worked for the school year. If the floating holiday is unused within the school year, the day will not carry forward into the next year. The Floating Holiday may not be used on "critical days." Critical days are defined as full professional development days, first/last day of the quarter, transition days and during standardized testing weeks. This restriction will apply to employees in the following positions: Teachers, Counselors, School Nurse, Teaching Assistants and Administrators.

A maximum of 10% of full-time employees in the position of Teachers, Counselors, School Nurse, and Teaching Assistants may use a personal day to extend a non-work day or break. These days will be approved on a first-come, first-served basis. (For example, Martin Luther King Day is a Monday. The number of floating holidays that will be approved for the Friday prior or the Tuesday following will be restricted to 10% of the employee

classification requesting the time off.) \* The CEO reserves the right to make exceptions to this policy. In the event that an employee who has used the floating holiday separates from employment prior to working the required make-up day, the calculation for the final pay will reflect actual days worked for the year.

The Pennsylvania Workers' Compensation Law, pursuant to 77 P.S. Sec. 1 et seq., provides wage loss and medical benefits to employees who cannot work or who need medical care because of a work-related injury.

Workers' Compensation benefits are required to be paid by the Charter School when self-insured and through insurance provided by the Charter School. Employees of the Charter School shall report immediately any injury or work-related injury to a direct supervisor and Director of Human Resources. An employee's Workers' Compensation benefits could be delayed or denied if that employee does not notify the Charter School immediately regarding a work injury. If an employee's Workers' Compensation claim is denied by the Charter School, that employee has the right to request a hearing before a Workers' Compensation judge.

When an employee reports a work-related injury to the Charter School, the Charter School shall immediately:

- (a) notify its Workers' Compensation insurance carrier about the claim;
- (b) complete an incident report regarding the work-related injury;
- (c) provide to the injured employee Workers' Compensation Employee Notification forms (including an employee's Notice of Rights and Obligations) for review and signature;
- (d) collect from the injured employee a signed Notice of Rights and Obligations for the employee's file; and
- (e) provide to the injured employee the Medical Provider List (also known as Panel Providers) and explain that the employee must obtain their medical treatment regarding the work-related injury through one of these listed doctors or the Charter School will not be responsible for the bills.

In fulfilling 21<sup>st</sup> Century Cyber Charter School's ("Charter School") commitment to provide a safe and healthy working environment, a Workers' Compensation Return-to-Work Program ("Return-to-Work Program") has been established for employees who have sustained an injury and are deemed disabled as defined under the state Workers' Compensation Act.

The Charter School undertakes to reasonably accommodate the injured employee through an early rehabilitation and placement where possible, to the benefit of both parties. The work that shall be offered to an eligible employee shall be productive work that will advance the interests of the Charter School.

The Charter School will work toward facilitating the injured employee to an appropriate and timely return to work in the original position where they were employed at the same time of the injury. If the original department is unable to place an employee in a suitable position, the company will try to identify an appropriate position in another department. All attempts to place the employee in another area must be done in cooperation with managers, workers, and the employee.

Nothing in this policy shall be construed as requiring that a lighter duty job be provided to an eligible employee or that the essential functions of any job be eliminated. Lighter duty jobs are intended as transitional opportunity to assist an injured employee to return to their pre-injury occupation with or without reasonable accommodation.

The educational program and school services that the school plans to offer its students are the foundation of the annual school budget. With input from the Board members, administration, staff and community, the school budget represents a reasonable compromise between academic and operational expectations and economic realities.

Budget planning is critical to the development of a budget likely to further the educational program and provide for efficient operation of the school.

The CEO and/or Business Administrator will establish and communicate an annual Budget Development Calendar that outlines the budget development process and includes a schedule for completion of each phase.

In recognition of the importance of the budget planning process, the CEO and/or Business Administrator will be responsible to complete the following by the time designated on the Budget Development Calendar:

1. With the Board, establish the priorities of the school, recognizing that improving student academic success will always be of paramount concern.
2. Consider the Board adopted goals and action plans developed through the comprehensive planning process when assessing the school's needs; designate those allocations that directly correlate with the approved goals and action plans; and explain how they link with the stated goals, action plans and objectives of the school.
3. Seek input from administrators, school staff and community members.
4. Examine the school's recent history of revenue and expenses to determine patterns and trends; such examination will include projected financial results for the current year.
5. Project future revenue sources based on available information and projected changes in federal, state and local funding.
6. Consider student achievement data and the classroom expenditures required to meet the established academic standards.
7. Integrate budget planning into program planning so that the budget can effectively express and implement relevant programs and activities.
8. Utilize a system of cost-effective analysis when making budget decisions.

9. Include budget requests submitted by each school building.
10. Explore all available federal, state and private sources of revenue.
11. Continually assess the needs of the school and the related revenues and expenses.

The Business Administrator will maintain accurate and comprehensive financial records on a consistent and systematic basis and will provide financial and related operational reports to the Board as required.

### **Grants/Funding**

All applications for grants or specially funded projects will be in accordance with the educational goals established by the Board.

To meet the school's educational goals and supplement school resources, the CEO or designee will be responsible to seek available public and private grants and funding for special projects.

School employees are encouraged to learn about and research special funding opportunities and to participate in the development of proposals to obtain the funding after receiving approval from the principal.

When required by the funding agency, the proposals will be presented for administrative or Board approval.

The CEO will notify the Board of all funds awarded to the school; such funding source and related expenditures will be incorporated into the budget by amendment if such award follows budget adoption. Such budget amendment will be subject to Board approval.

### **Purpose**

The Board recognizes that the maintenance of a fund balance is essential to the preservation of the financial integrity of and is fiscally prudent for the 21<sup>st</sup> Century Cyber Charter School (21CCCS). This policy establishes goals and provides guidance concerning the desired level of year-end fund balance to be maintained by the 21CCCS.

### **Definitions**

Fund Balance is a measurement of available financial resources. Fund balance is the difference between total assets and total liabilities in each fund.

GASB Statement 54 distinguishes fund balance classification based on the relative strength of the constraints that control the purposes for which specific amounts can be spent. Beginning with the most binding constraints, fund balance amounts will be reported in the following classifications:

- A. Non-spendable – Amounts that cannot be spent because they are in an unspendable form (e.g., inventory or prepaid items) or legally or contractually required to be maintained intact (e.g., restricted cash balances).
- B. Restricted – Amounts limited by external parties, creditors, contributors or legislation.
- C. Unrestricted Fund Balances – Committed, Assigned and Unassigned Fund balances.
  1. Committed – Amounts limited by board policy or action. Once committed, it cannot be used for any other purpose unless changed by board policy or action.
  2. Assigned – Amounts that are intended for a particular purpose, such as rate stabilization fund or segregation of an amount intended to be used at some time in the future.
  3. Unassigned – Amounts available that are not restricted in any manner.

### **Guidelines**

Board policy directs the development of the following fund balances in accordance with GASB 54. The disposition of the fund balances shall include the following guidelines.

- A. Order of Use of Fund Balances - When amounts are available in the fund balances for a particular purpose, there are no restrictions on the order of the fund balances used for disbursements. Order of the fund balances used for disbursements is at the discretion of the Director/CEO and/or designee.
- B. Non-spendable Fund Balances - Portion of net resources that cannot be spent because of their form or are legally or contractually required to remain intact. The following resources will be included in the Non-spendable Fund Balance - prepaid expenses, inventory, restricted cash balances, principle portion of endowment funds and any other non-spendable resources not listed above. The amount of non-spendable funds is to be determined first and removed to determine spendable fund balances.

- C. Restricted Fund Balances - Portions of resources that are subject to limitations imposed by grantors, creditors, contributors, laws and regulations of other government agencies.
- D. Unrestricted Fund Balances - Total fund balance in the General Fund in excess of Non-spendable and Restricted fund balances.
1. Order of Use of Unrestricted Fund Balances - When amounts are available in the unrestricted fund balances for a particular purpose, there are no restrictions on the order of the unrestricted fund balances used for disbursements. Order of the unrestricted fund balances used for disbursements is at the discretion of the CEO and/or designee.
  2. Disposition of Fund Balances - 21CCCS shall establish the following specific unrestricted fund balances in accordance with GASB 54:
    - a. Committed Fund Balance - Establishment and purpose of committed fund balances shall be approved by the Board by June 30 each year in accordance with GASB 54. Specific disbursements from the committed fund balance are at the discretion of the Director/CEO and/or designee.
    - b. Assigned Fund Balances - Use of funds identified for a specific purpose but not considered restricted or committed. Expenditures from assigned fund balances are at the discretion of the CEO and/or designee.

The Board of Trustees of 21CCCS considers the preparation of an annual budget to be one of its most important responsibilities because the budget is the financial reflection of the educational plan for 21CCCS. The budget shall be designed to carry out that plan in a thorough and efficient manner and to maintain the facilities and honor the obligations of 21CCCS.

The existence of an adequate fund balance is essential to maintain the sound and stable financial condition of the school.

The Board is authorized to review the budget as submitted by the CEO. Each Board member may make recommendations for change prior to final adoption of the budget. Once adopted by the Board, it deserves the support of all members of the Board regardless of each Board Member's position when adoption was voted upon.

The Board recognizes its obligation to the taxpayers to approve only those expenses reasonably required to provide an educational program suitable to the needs and goals of this school and its students.

In order to ensure adequate time for the preparation and review of the proposed budget, the Board directs the CEO to present to the Board all available information associated with the budget in the month of January. The CEO, Business Administrator and the entire administrative staff, shall establish priorities for the ensuing school year. The priorities will be based upon the needs identified through the charter school's budget planning process and by the Board. The Board shall explore means to provide adequate funds and resources for their accomplishment.

A charter school will keep on file the following documents for inspection by the school district:

1. Property lease or deed.
2. Audit reports.
3. Employee certifications and background checks.
4. Insurance policies.
5. Health, fire and safety inspection reports.
6. Current list of employees and positions held.
7. Current list of enrolled students with school districts of residence and information required by the state.
8. Attendance records for each student.
9. Test scores for each student.

When the school district has resident students enrolled in a charter school, the district administration will complete the required form and submit it to PDE each year by August 31.

Charter schools enrolling students resident in the district will adhere to the following guidelines:

1. Invoices sent to the district must include the following information regarding each individual resident student enrolled in the charter school:
  - a. Name.
  - b. Address.
  - c. Birthdate.
  - d. Grade level.
  - e. Parent(s)/Guardian(s) name
  - f. Enrollment date.
  - g. Withdrawal date, if applicable.

h. Special education and start date, if applicable.

2. Included on or with the invoice must be a summary of the amount due for the entire school year through the current month, the amounts the school district has paid to the charter school to date for the current school year, and the amounts of previous PDE deductions for the current school year.
3. Invoices must be sent to the district in sufficient time for the school district either to make payments by the 5<sup>th</sup> day of the following month or to decide that payments will not be made to the requesting charter school (e.g. invoices mailed by September 10 for payment by October 5).
4. The school district is not required to pay a charter school the increased Selected Expenditures for a special education student until that student has been identified as a student with a disability in need of special education services and the front page of the IEP has been submitted to the school district with the start date. The front page of the IEP will serve as sufficient documentation that the student is eligible for special education services. Because of privacy laws such as FERPA, the charter school is not permitted to release special education records of students enrolled in the charter school without a parent's/guardian's consent. The school must keep this information secure and confidential and must destroy the IEP cover sheet when it is no longer needed.

### **Cash Receipts Procedures and Controls**

All mail is opened by the receptionist. She enters all cash and checks received on a spreadsheet, then gives the spreadsheet and cash/checks to Payroll Fiscal Assistant. Payroll Fiscal Assistant prepares and submits the deposit to the bank. 21CCCS uses a remote deposit function, so checks are deposited via the remote deposit, and cash is taken to the bank. The spreadsheet is then given to A/R Fiscal Assistant, who records the activity in the cash receipt module of CSIU. Support for the deposit is filed. Districts that choose to have their payment taken from the Basic Ed Subsidy pay via wires from PDE. A/R Fiscal Assistant records these receipts in the cash receipt module of CSIU when they come in. All deposits are made to the general checking account and logged by the Payroll Fiscal Assistant. The bank reconciliation for the general checking account is completed by the A/R Fiscal Assistant. Payroll Fiscal Assistant submits daily bank activity reports to the Business Administrator. The Business Administrator also logs onto online banking periodically to monitor activity.

### **Bank & Account Reconciliations**

A/R Fiscal Assistant reconciles all bank accounts monthly. All other balance sheet accounts are also reconciled monthly by various individuals in the business office, with the Business Administrator reviewing all reconciliations before monthly board reports are run. Bank reconciliations are reviewed by the Business Administrator, who initials the reconciliations as proof of her review.

### **Purpose**

It shall be the policy of the Board of Trustees (Board) to optimize its return on funds available for investment through investment of cash balances in such a way as to minimize non-invested balances and to maximize return on investments consistent with the following principles:

Legality - All investments shall be made in accordance with applicable laws.

Safety - Preservation of principal shall be of highest priority. Preservation of principal in the portfolio of investments shall be ensured by diversification and other means of minimizing credit risk, including avoidance of concentration of credit risk, market risk and interest rate risk, and by thoroughly investigating and reviewing the performance of all investment providers and professionals.

Liquidity - Investments shall remain sufficiently liquid to meet all operating requirements that are reasonably anticipated. A fiscal year operations anticipated cash flow shall be developed so that investments can be made as early as possible, with maturities consistent with anticipated cash demands.

Yield - Investments shall be made with the objective of attaining a market-average rate of return throughout the budgetary and economic cycles, taking into account investment risk constraints and liquidity needs.

### **Authority**

The Board shall annually approve an investment plan for Charter School investments in accordance with this policy and applicable laws.

### **Definitions**

Short-term – Any period thirteen (13) months or less.

Long-term – Any period exceeding forty-eight (48) months.

Mid-range – Any period between short-term and long-term.

Collateral – Security pledged by a financial institution to an entity for its deposit.

Concentration of credit risk – The risk of loss attributed to the magnitude of an entity's investment in a single issuer, pool, institution, or instrument.

Counterparty – Another party to a transaction. In the case of deposits and investments made by entities, a counterparty could be the issuer of a security, a financial institution holding a deposit, a broker-dealer selling securities, or a third party holding securities or collateral.

Credit risk – The risk that a counterparty to an investment transaction will not fulfill its obligations. Overall credit risk can be associated with the issuer of a security, with a financial institution holding deposits, or with a party holding securities or collateral. Credit risk exposure can be affected by a concentration of deposits or investments in any one (1) investment type or with any one (1) counterparty.

Custodial credit risk – The custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, an entity will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty to a transaction, an entity will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Foreign currency risk – The risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Investments depending on substantial overseas activities or markets may present related foreign currency risk.

Interest rate risk – The risk that changes in interest rates will adversely affect the fair value of an investment.

Issuer – The entity that has the authority to distribute a security or other investment. A bond issuer is the entity that is legally obligated to make principal and interest payments to bond holders. In the case of mutual funds, external investment pools, and other pooled investments, issuer refers to the entity invested in, not the investment company-manager or pool sponsor.

Investment plan – The Charter School’s specifically enumerated investment strategy approved annually by the Board.

Market risk – The risk that the market value of an investment, collateral protecting a deposit, or securities underlying a repurchase agreement will decline. Market risk is affected by the length to maturity of a security, the need to liquidate a security before maturity, the extent that collateral exceeds the amount invested, and the frequency at which the amount of collateral is adjusted for changing market values.

Repurchase agreement –

- a. An agreement in which an entity (buyer-lender) transfers cash to a broker-dealer or financial institution (seller-borrower); the broker-dealer or financial institution transfers securities to the entity and promises to repay the cash plus interest in exchange for the same securities.
- b. A generic term for an agreement in which an entity (buyer-lender) transfers cash to a broker-dealer or financial institution (seller-borrower); the broker-dealer or financial institution transfers securities to the entity and promises to repay the cash plus interest in exchange for the same securities (as in definition (a) above) or for different securities.

Weighted average maturity – A weighted average maturity measure expresses investment time horizons—the time when investments become due and payable—in years or months, weighted to reflect the dollar size of individual investments within an investment type.

### **Delegation of Responsibility**

The Board shall designate the Business Administrator, who shall implement the Charter School’s investment program in accordance with this policy, related procedures, applicable laws and the annual investment plan approved by the Board.

The Business Administrator shall prepare, for approval of the Board, an annual investment plan for all general and segregated/designated funds of the Charter School, taking into account the anticipated liquidity needs of each fund.

The plan may provide for moneys from more than one (1) fund under Charter School control for the purchase of any single investment, provided that each of the funds combined for the purpose shall be accounted for separately in all respects and that the earnings from the investment are separately and individually computed and recorded, and credited to the accounts from which the investment was purchased.

The plan shall not encompass the investment of any student activity or class-related funds separately managed.

The annual investment plan shall be submitted to the Board for review and approval during the month of May.

The Business Administrator shall report at each Board Meeting to the Board the following:

1. Amount of funds invested.
2. Interest earned and received to date.
3. Types and amounts of each investment and the interest rate on each.
4. Names of the institutions where investments are placed.
5. The means by which any deposits exceeding insurance limits are collateralized.

This report may, but is not required to, include the information regarding depository balances, earnings and transactions required to be reported to the Board as set forth in Policy 4008.

The Board directs the Chief Executive Officer and Business Administrator to develop, for approval by the Board as an appendix to this policy, specific due diligence and risk mitigation measures for:

1. Evaluating and mitigating the risks associated with each investment;
2. Investigating, selecting and evaluating the performance of investment advisors and investment professionals;
3. Specifying standards for audits of investment transactions; and
4. Determining the qualifications, training, standards and disclosures required for Charter School staff performing functions relating to the Charter School's investment program.

#### **Guidelines**

Investments permitted by this policy are those permitted by law and enumerated in this policy that are appropriately collateralized in accordance with this policy and applicable laws.

#### **Permissible Investments**

1. United States Treasury bills.
2. Short-term obligations of the United States Government or its agencies or instrumentalities.
3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Insurance Corporation (FSLIC) or the National Credit Union Share Insurance Fund (NCUSIF) to the extent that such accounts are so insured, and, for any amounts above the insured maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository.
4. Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
5. Shares of an investment company registered under the Investment Company Act of 1940 (54 Stat. 789, 15 U.S.C. Sec. 80a-1 et seq.), whose shares are registered under the Securities Act of 1933 (48 Stat. 74, 15 U.S.C. Sec. 77a et seq.). Provided, that the following are met:[\[1\]](#)
  - a. The only investments of that company are in the authorized investments for school entity funds listed in items 1 through 4 above and repurchase agreements fully collateralized by such investments.
  - b. The investment company is managed so as to maintain its shares at a constant net asset value in accordance with 17 CFR Sec. 270 2a-7 (relating to money market funds).
  - c. The investment company is rated in the highest category by a nationally recognized statistical rating organization.

### **Management of Investments and Collateral**

All securities or other investments in which the Charter School invests or that collateralize Charter School investments shall be managed as provided in this policy and in the Charter School's investment plan annually approved by the Board.

The plan shall require that securities purchased as investments be purchased in the name of the Charter School and held in custody for the benefit of the Charter School as provided in the investment plan and authorized custodian agreements. The plan may make exceptions to such requirements as defined in this policy, or for the purchase of shares of an investment company.

If, after purchase, the rating of any instrument is reduced and no longer in compliance with Board policy, the individual responsible for Charter School replace the investment immediately upon receipt of notice of the rating change and notify the Board of the rating change, action taken and replacement investment.

For purposes of interest rate disclosure in the annual financial report, the method of determining interest rate risk shall be based on weighted average maturity.

### **Foreign Currency and Related Risk**

Charter School funds shall not be invested in foreign currency. To the extent other permissible investments are exposed to related foreign currency risk, they shall be disclosed as required by GASB Statement 40.

### **Protection of Savings Accounts, Time Deposits, Share Accounts or Other Depository Balances in Excess of FDIC Insurance Limits**

When Charter School funds are deposited in any savings account, time deposit, share account or other authorized depository account, if the cash balance exceeds FDIC insurance limits, Charter School funds shall be collateralized in accordance with law and sound accounting practices.

It shall be the responsibility of the Business Administrator to verify with the depository the value of the collateral instrument(s) based on the instrument being "marked to market." This valuation shall occur at least monthly.

Following a review of valuation, the Business Administrator may request an additional review by the Charter School's investment advisors or financial consultant, and shall require additional collateral if the existing collateral has declined in value and exposes the Charter School to potential loss of principal. The status of the valuation review and any additional collateral shall be included in the periodic reports to the Board regarding the investment program.

### **Audit**

The Board directs that all investment records be subject to annual audit by the Charter School's independent auditors.

The audit shall include but not be limited to independent verification of amounts and records of all transactions, as deemed necessary by the independent auditors.

### **Conflict of Interest Avoidance and Disclosure**

The Business Administrator and any other Charter School employee performing functions related to the investment program shall disclose in writing to the Board any material conflict of interest or material potential conflict of interest which exists because of personal relationships or personal business activity between the Business Administrator or other employees and any depository institution, broker, dealer, investment advisor, or other investment provider or professional serving the Charter School. The Business Administrator or other employees shall refrain from any personal business activity that could impair ability to make impartial decisions in managing the annual investment plan.<sup>[2]</sup>

All depository institutions, repurchase agreement providers, brokers, and investment advisors and managers shall disclose in writing to the Charter School:

1. Any fees or other compensation paid to or received from a third party with respect to any Charter School investment; and
2. Any ownership of or by a parent corporation which owns any other depository institution, broker, dealer, investment advisor, or other investment provider or professional which does business with the Charter School.

All investment advisors shall verify in writing that they have received and reviewed a copy of this Board policy and agree to comply with this policy and all applicable laws related to Charter School investments.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Unless exempt by law, at least three (3) written or telephonic price quotations shall be requested by the Board for:[\[1\]](#)

1. Furniture, equipment, school supplies and appliances costing a base amount of more than \$12,200 but less than \$22,500.
2. All contracts for construction, reconstruction, repairs, maintenance or work on any Charter School building or property, having a total cost or value of more than \$12,200 but less than \$22,500.[\[1\]](#)

If it is not possible to obtain three (3) quotations, a memorandum must be kept on file showing that fewer than three (3) qualified vendors exist in the market area. The written price quotations, written records of telephonic price quotations and memoranda shall be kept on file for three (3) years.

### **Work Performed by Charter School Maintenance Personnel**

The bidder must file a written protest with the Chief Executive Officer or designee within five (5) working days after receipt of notification of the bid award. The bidder must submit with the protest, all documents supporting or justifying the protest.

A bidder's failure to file the protest documents in the given time period will constitute a waiver of their right to protest the award of a bid.

The Chief Executive Officer or designee shall review the protest and supporting documents and render a written decision within thirty (30) working days. The Chief Executive Officer or designee may arrange a meeting with the protester to attempt to resolve the issue.

The decision of the Board shall be final.

### **Delegation of Responsibility**

The Board may grant the Chief Executive Officer, Board Treasurer or Purchasing Agent the authority to purchase supplies and award contracts in the amount and manner designated by applicable law.[\[1\]](#)

The purchasing, receiving, storing and distributing of necessary supplies, equipment and services for use in the school represents a significant budget expenditure. School staff recognize that these items must be procured efficiently and economically.

The Business Administrator will supervise school purchasing and may authorize school purchases that conform to the adopted budget appropriations and are not required to be bid. Such purchases will not exceed designated budget limitations, unless modified by the Board.

No contract will be entered into or bill paid without the proper documentation and affirmative vote by the Board.

All school employees are required to report to the CEO any suspected fraud, theft or misuse of school resources.

Under no circumstances may employees use school funds to make unauthorized or personal purchases. School employees may be disciplined or terminated for failing to follow Board policy or administrative procedures and for any misuse of school resources.

### **Procedures**

Items commonly used in the charter school will be standardized whenever possible.

All purchase requests must be submitted to and approved by the Business Administrator prior to the placement of the order. Unauthorized orders will be the responsibility of the individual, not the school.

Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order submitted to the Business Administrator.

Purchase requests by an employee must be submitted to the building principal or immediate supervisor responsible for the budget code from which the purchase will be made. The responsible administrator will check as to the necessity of the purchase and whether the material might be available elsewhere in the school, whether sufficient funds exist in the budget, and whether the proposed purchase is subject to bid.

All purchase orders should include: clearly described instructions, exact description of material requested, estimated costs, budget code, suggested vendors, name of requestor, and signature of administrator.

The responsible administrator will submit the approved purchase order to the Business Administrator.

The Business Administrator will approve, sign, process and make copies of compliant purchase orders after:

1. Coding the request with the appropriate account numbers.
2. Determining if the request is legal and in the best interests of the school.

### 3. Reviewing all information on the purchase order for clarity and accuracy.

Upon approval of a purchase order, the Business Administrator will notify the responsible administrator and forward the purchase order for processing and encumbering the expenditure against the specific budget line item(s), to prevent the creation of liabilities in excess of appropriations.

The responsible administrator will be consulted regarding a substitution for the item specified prior to the purchase being completed.

Purchase orders denied or rejected by the Business Administrator will be returned to the responsible administrator, with the reason for the denial or rejection noted on the purchase order.

When a purchase has been completed and the materials or services have been received, the receiver will forward a copy of the applicable purchase order to Accounts Payable.

The receiving document, all shipping documents and the invoice will be matched. After entry of all invoice detail, the purchase order will be processed for payment.

No deliveries will be accepted from vendors unless identified with an approved purchase order.

Purchases will be made through available state contracts whenever such purchases are in the best interest of the school.

Opportunity to do business with the school will be provided to as many responsible suppliers as possible. The Business Administrator will maintain and update lists of potential suppliers for various types of supplies, equipment and services.

There will be no exceptions to the purchasing procedures other than extreme emergencies. **Emergencies** are defined as unscheduled, unanticipated needs that cannot wait or be restricted by the established purchasing procedures. Individuals placing emergency orders must provide the Business Administrator with written justification for such orders.

Charter school employees will follow these established procedures when receiving purchases:

1. No deliveries will be accepted from vendors without an approved purchase order identified with the product.
2. Delivery will be opened immediately upon arrival. Employee will inspect the delivery to ensure that materials have been received undamaged and in the quantities ordered.
3. Employee will immediately report in writing any damaged or incorrect deliveries to the Purchasing Requisitioner. If delivered carton appears damaged, acceptance from the delivery service should be noted "pending concealed damage."
4. If delivery is correct and undamaged, employee will note such on delivery or packing slip, sign and date purchase order, attach delivery and packing slips, and forward to the Business Administrator's office.
5. The delivery will be delivered to the responsible administrator who initially approved the request.
6. The Business Administrator will process the purchase order, charge the specific budget account for the expenditure, and approve payment of the invoice.

The interests of the students and Charter School community require fiscal responsibility by the Board of Trustees (Board) in the disbursement of public funds and operation of the Charter School. The Board shall adopt appropriate fiscal controls for purchases made by the Charter School.

### **Guidelines**

In the event of emergency, which exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing classes, a purchase order up to the amount of \$50,000.00 may be authorized by the Chief Executive Officer.

When budgeted funds are allocated, the total amount budgeted may not be exceeded without prior approval by the Chief Executive Officer.

Any expenditures in excess of appropriation made in conformance with this policy shall be reported to the Board at the next meeting, with a recommendation of funds to be transferred to cover said purchase.

The 21CCCS' Board of Trustees ("Board") recognizes the advantages of centralized purchasing. The Board, therefore, encourages the administration to seek advantages in savings that may accrue to 21CCCS through joint agreements for the purchase of supplies, equipment or services with other entities.

The Board authorizes the Business Administrator to negotiate such cooperative purchase agreements for services, supplies and equipment with other entities as may be appropriate in accordance with the Pennsylvania Charter School Law, other applicable Pennsylvania statutes and the policies of this Board.

Cooperative purchases require an agreement approved by the Board and the participating contracting body(s) which shall specify: the categories of equipment or supplies to be purchased; the manner of advertising for bids and of awarding contracts; the method of payment by each participating party; and any such other matters as may be deemed necessary to carry out the purposes of the agreement. All such agreements must conform to regulations provided in the Pennsylvania Charter School Law and other applicable Pennsylvania statutes.

The charter school complies with all applicable federal and state laws and regulations with respect to payment of salary and benefits to employees, including the Fair Labor Standards Act.

The CEO and/or Business Administrator are responsible to annually review the types of payroll deductions authorized by the school and to make recommendations for Board approval.

### **Optional Payroll Deductions**

Board policy will determine the purposes for which the school will make deductions from employees' paychecks.

### **Medical Insurance**

Based on employment status and applicable Board resolutions, contracts, administrative compensation plan and collective bargaining agreements, employees may elect or be required to contribute through payroll deductions toward the cost of various health plans and coverages, including dental and vision plans.

Employees must submit the appropriate election of coverage forms to the Business Office by the stated date.

Employees will be notified of the amount of deductions required by applicable board resolutions, administrative compensation plan, contract or collective bargaining agreement.

### **Changes In Optional Deductions**

Authorization by employees to change an existing optional payroll deduction, such as savings bonds, credit unions, individual retirement accounts, etc., will be accepted with the submission of the applicable signed form during a school year.

A written authorization for a payroll deduction change by an employee must be submitted to the Business Office ten (10) days before the next payroll.

Actual changed payroll deductions will commence two (2) weeks following the stated deadline dates.

### **Complaint Process**

An employee who believes that the school has made an inappropriate or incorrect payroll deduction or has failed to make proper payment regarding salary or benefits is encouraged to immediately consult with the principal or immediate supervisor to resolve the issue.

Alternately, an employee may file a formal, written complaint with the Business Administrator. Within fifteen (15) business days after receipt of the complaint, they will make a determination as to whether the payroll deduction(s) was appropriate, and will provide the employee with a written response and explanation. The response may include reimbursement for any payroll deduction that was made in error.

This complaint process is available in addition to the complaint process established and available for employees.

The Tax Sheltered Annuity Plan is administered by the school under the provisions of Section 403(b) of the Internal Revenue Code for the purposes of an employee retirement or deferred compensation plan. An annuity contract authorizes the school to deduct a fixed amount from an employee's gross income for the purpose of sheltering the income from federal income taxes during the term of the contract.

The school will annually inform all employees about the tax sheltered annuity program and give notice of each employee's right to participate.

An employee can make changes to a tax sheltered annuity only one (1) time each school year, upon proper notification to the school.

The school will designate tax sheltered annuity firms to participate in a payroll deduction program.

The school's designated staff is responsible for verifying that employees are eligible to participate in the program, that contribution amounts do not exceed limits, and that distributions from the accounts are done correctly.

The employee and the company involved will indemnify, save and hold harmless the charter school from any and all claims made by an employee and/or the company as a result of the tax sheltered program. The indemnity agreement must be signed by the appropriate parties.

The CEO and/or Business Administrator may recommend to the Board for its approval independent consultants to analyze and recommend tax sheltered annuity plans, and/or independent consultants to serve as a third party administrator to carry out the day-to-day responsibilities of administering the program.

### **Written Plan**

The school will maintain and operate the tax sheltered annuity program in accordance with a written plan.

The plan will contain all the material terms and conditions for eligibility, benefits, applicable limitations, the contracts available under the plan, and the time and form under which benefit distributions may be made.

The written plan also will address any optional features, including hardship withdrawal distributions, loans, plan-to-plan or annuity contract transfers and acceptance of roll-over to the plan that are included in the school's program.

The written plan may assign responsibility for administrative functions, including those to comply with the requirements of 26 U.S.C. Sec. 493(b) and other tax requirements. Responsibilities that are not allocated to another entity remain with the school.

At least one (1) fiduciary must be named in the plan. Fiduciaries may include investment advisors, individuals exercising discretion in administration of the plan, and those who select individuals to perform services in connection with the plan.

The written plan may assign responsibilities to parties other than the school but not to participants, unless the administration of the plan is a substantial portion of the duties of the participant.

The written plan may incorporate by reference other documents which then become part of the plan. The referenced documents must not be in conflict with other documents.

The written plan may address termination of the program.

**Article I – Purpose**

- 1.01 **Purpose:** Section 403(b) of the Code of 1986 permits contributions to be made to annuity contracts and custodial accounts under a 403(b) Plan to provide retirement benefits for employees of certain non-profit educational, charitable, humane and religious organizations. The Employer whose name and signature appear on the Adoption Agreement hereby adopts a 403(b) Plan in the form of this Volume Submitter 403(b) Plan Document for Public Schools, as modified by the information provided and selections made in the Adoption Agreement, for the exclusive benefit of Employees and their beneficiaries.

**Article II- Definitions**

The following words and terms, when used in the Plan and the Adoption Agreement, shall have the meaning set forth below.

- 2.01 **Account:** The account or accumulation maintained for the benefit of any Participant or Beneficiary under one or more Annuity Contracts or Custodial Accounts. For purposes of this Plan a separate account (including a separate bookkeeping account) shall include separate accounting.
- 2.02 **Account Balance:** The bookkeeping account maintained for each Participant which reflects the aggregate amount credited to the Participant's Account under all Accounts, including the Participant's Elective Deferrals, the earnings or loss of each Annuity Contract or a Custodial Account (net of expenses) allocable to the Participant, any transfers for the Participant's benefit, and any distribution made to the Participant or the Participant's Beneficiary. If permitted in the applicable Annuity Contract or Custodial Account Agreement, in the case where a Participant has more than one Beneficiary at the time of the Participant's death, then a separate Account Balance shall be maintained for each Beneficiary. The Account Balance includes any account established under Article VIII for rollover contributions and plan-to-plan transfers or exchanges made for a Participant, the account established for a Beneficiary after a Participant's death, and any account or accounts established for an Alternate Payee (as defined in section 414(p)(8) of the Code).

- 2.04 **Administrative Appendix (Appendix):** Persons to whom administrative functions have been allocated and the specific functions allocated to such persons shall be identified in an Administrative Appendix to the Plan. Service agreements and other records or information pertaining to the administration of the Plan may be included or incorporated by reference in the Administrative Appendix. The Appendix will also include a list of all the Vendors of Funding Vehicles approved for use under the Plan, including sufficient information to identify the approved Funding Vehicles. This Appendix may be modified from time to time. A modification of the Appendix is not an amendment of the Plan.
- 2.05 **Administrator:** The person, committee, or other organization named in the Adoption Agreement, appointed by the Employer to administer the Plan. If no such Entity is named, the Administrator shall be the Employer. Functions of the Administrator, including those described in the Plan, may be performed by Vendors, designated agents of the Administrator, or others (including Employees a substantial portion of whose duties is administration of the Plan) pursuant to the terms of the Individual Agreements, written service agreements or other documents under the Plan. For this purpose, an Employee is treated as having a substantial portion of his or her duties devoted to administration of the Plan if the Employee's duties with respect to administration of the Plan are a regular part of the Employee's duties and the Employee's duties relate to Participants and Beneficiaries generally (and the Employee only performs those duties for himself or herself as a consequence of being a Participant or Beneficiary). Such duties shall be outlined and provided to the Employer under the Administrative Appendix.

If no designation has been made, or if no beneficiary is living at the time of a Participant's death, his Beneficiary shall be:
- (a) His surviving spouse; but if he has no surviving spouse, then
  - (b) His surviving children, in equal shares; but if he has no surviving children, then
  - (c) His estate.

If the Individual Agreement permits, a Beneficiary may designate a subsequent Beneficiary(ies) to receive the remaining balance in the account upon such original Beneficiary's death.

Solely for the purpose of determining whether a Break in Service for eligibility and vesting purposes has occurred in a computation period, an individual who is absent from work for maternity or paternity reasons shall receive credit for the Hours of Service which would otherwise have been credited to such individual but for such absence, or in any case in which such hours cannot be determined, 8 Hours of Service per day of such absence. Such period begins on the date the Employee retires, quits, or is discharged, or if earlier, the 12 month anniversary of the date on which the Employee was otherwise first absent from service.

In the case of an individual who is absent from work for maternity or paternity reasons, the twelve-consecutive month period beginning on the first anniversary of the first date of such absence shall not constitute a Break in Service.

If elected by the Employer in the Adoption Agreement the following Employees may also be excluded: (a) nonresident aliens who receive no earned income from the Employer which constitutes income from sources within the U.S.; (b) Employees who are participants in an eligible deferred compensation plan within the meaning of section 457 of the Code or a qualified cash or deferred arrangement of the Employer or another custodial account or annuity described in section 403(b) of the Code; (c) students performing services in the employee of a school, college, or university as described in section 3121(b)(10); and (d) an Employee who normally works fewer than 20 hours per week.

For exclusions outlined above under Section 3.01(c) and (d), if any Employee in one of these two categories is permitted to participate, then all employees in that category must be permitted to participate in the Plan.

An Employee normally works fewer than 20 hours per week if, for the 12-month period beginning on the date the Employee's employment commenced, the Employer reasonably expects the Employee to work fewer than 1,000 hours of service (as defined under section 410(a)(3)(C) of the Code) and, for each Plan Year ending after the close of that 12-month period, the Employee has worked fewer than 1,000 hours of service.

If the Employer has elected the "20 hour rule" in the Adoption Agreement as an exclusion for Employees to be eligible to defer, once the Employee is eligible they will remain eligible for future years.

3.02 **Compensation Reduction Election:**

- (a) General Rule: An Employee elects to become a Participant by executing an election to reduce his or her Compensation (and have that amount contributed as an Elective Deferral on his or her behalf) and filing it with the Administrator or its designated agent. This Compensation reduction election shall be made on the agreement provided by the Administrator under which the Employee agrees to be bound by all the terms and conditions of the Plan. The Administrator may establish an annual minimum deferral amount no higher than \$200, and may change such minimum to a different amount (but not in excess of \$200 or such lower amount so specified in the Adoption Agreement), from time to time. The participation election shall also include designation of the Funding Vehicles and Accounts therein to which Elective Deferrals are to be made. Any such election shall remain in effect until a new election is filed. Only an individual who performs services for the Employer as an Employee may reduce his or her Compensation under the Plan. An Employee shall become a Participant as soon as administratively practicable following the date applicable under the Employee's election, or if later, the Entry Date specified in the Adoption Agreement.
- (b) Compensation for Compensation Reduction Election: For purposes of the Compensation Reduction Election, unless elected otherwise in the Adoption Agreement, "Compensation" means all cash compensation for services to the Employer, including salary, wages, fees, commissions, bonuses and overtime pay, that is includible in the Employee's gross income for the calendar year and amounts that would be cash compensation includible in gross income but for a reduction election under section 125, 132(f), 401(k), 403(b), or 457(b) of the Code (including a Compensation Reduction Election under the Plan).
- (c) Leave of Absence: Unless an election is otherwise revised, if an Employee is absent from work by leave of absence, Elective Deferrals under the Plan shall continue to the extent that Compensation continues.
- (d) Timing of Elective Deferrals: Elective Deferrals must be transferred to the Plan within a period that is not longer than what is reasonable for the proper administration of the Plan. Since this Plan is not subject to ERISA, notwithstanding any policy adopted to the contrary, the applicable State laws requirements shall be used.

3.03 **Eligible Automatic Contribution Arrangement (EACA)**

(a) Rules of Application

- (1) Employer Election of EACA Option: If an EACA is permitted under the terms of an Individual Agreement and the Employer has elected the EACA option in the Adoption Agreement, the provisions of this Section 3.03 shall apply for the Plan Year and, to the extent that any other provision of the Plan is inconsistent with the provisions of this section, the provisions of this section shall govern.
- (2) Default Elective Deferrals: Default Elective Deferrals will be made on behalf of Covered Employees who do not have an affirmative election in effect regarding Elective Deferrals. The amount of Default Elective Deferrals made for a Covered Employee each pay period is equal to the Default Percentage specified in the Adoption Agreement multiplied by the Covered Employee's Compensation for that pay period. If the Employer has so elected in the Adoption Agreement, a Covered Employee's Default Percentage will increase by one percentage point each Plan Year, beginning with the second Plan Year that begins after the Default Percentage first applies to the Covered Employee. The increase will be effective beginning with the first pay period that begins in such Plan Year or, if elected by the Employer in the Adoption Agreement, the first pay period in such Plan Year that begins on or after the date specified in the Adoption Agreement.
- (3) Right to Make Affirmative Election: A Covered Employee will have a reasonable opportunity after receipt of the notice described in Section 3.03(d) of this Article to make an affirmative election regarding Elective Deferrals (either to have no Elective Deferrals made or to have a different amount of Elective Deferrals made) before Default Elective Deferrals are made on the Covered Employee's behalf. Default Elective Deferrals being made on behalf of a Covered Employee will cease as soon as administratively feasible after the Covered Employee makes an affirmative election to have no Elective Deferrals made or to have a different amount of Elective Deferrals made.

(b) Definitions: Refer to Article II, Section 2.43 for definitions related to Eligible Automatic Contribution Arrangements (EACAs).

(c) Uniformity Requirement

- (1) Non-increasing Default Percentage. Except as provided in Section 3.03(c)(2) below or if the Employer has elected an increasing Default Percentage in the Adoption Agreement, the same percentage of Compensation will be withheld as Default Elective Deferrals from all Covered Employees subject to the Default Percentage.
- (2) Required Reduction or Cessation of Default Elective Deferrals. Default Elective Deferrals will be reduced or stopped to meet the limitations under §§ 402(g), and 415 of the Code and to satisfy any suspension period required after a distribution.

(d) Notice Requirement

- (1) Timing of Notice. At least 30 days, but not more than 90 days, before the beginning of the Plan Year, the Employer will provide each Covered Employee a notice of the Covered Employee's rights and obligations under the EACA as described in section 3.03(d)(2), written in a manner calculated to be understood by the average Covered Employee. If an Employee becomes a Covered Employee after the 90th day before the beginning of the Plan Year and does not receive the notice for that reason, the notice will be provided no more than 90 days before the Employee becomes a Covered Employee but not later than the date the Employee becomes a Covered Employee.
- (2) Content of Notice: The notice must accurately describe:
  - (A) The amount of Default Elective Deferrals that will be made on the Covered Employee's behalf in the absence of an affirmative election;
  - (B) The Covered Employee's right to elect to have no Elective Deferrals made on his or her behalf or to have a different amount of Elective Deferrals made;
  - (C) How Default Elective Deferrals will be invested in the absence of the Covered Employee's investment instructions; and
  - (D) The Covered Employee's right under section 3.03(e)(1) to make a withdrawal of Default Elective Deferrals and the procedures for making such a withdrawal.

(e) Withdrawal of Default Elective Deferrals

- (1) 90-Day Withdrawal Period. No later than 90 days after a Covered Employee's pay is first reduced by Default Elective Deferrals, the Covered Employee may request a distribution of his or her Default Elective Deferrals. No spousal consent is required for a withdrawal under this Section 3.03(e).

- (2) Amount of Withdrawal. The amount to be distributed from the Plan upon the Covered Employee's request is equal to the amount of Default Elective Deferrals made through the earlier of (a) the pay date for the second payroll period that begins after the Covered Employee's withdrawal request and (b) the first pay date that occurs after 30 days after the Covered Employee's request, plus attributable earnings through the date of distribution. Any fee charged to the Covered Employee for the withdrawal may not be greater than any other fee charged for a cash distribution.
  - (3) Effect of Withdrawal on Elective Deferrals. Unless the Covered Employee affirmatively elects otherwise, any withdrawal request will be treated as an affirmative election to stop having Elective Deferrals made on the Covered Employee's behalf as of the date specified in Section 3.03(e)(2) above.
  - (4) Treatment of Withdrawn Amounts. Default Elective Deferrals distributed pursuant to this Section 3.03 are not counted towards the dollar limitation on Elective Deferrals contained in Code § 402(g). Matching Contributions that might otherwise be allocated to a Covered Employee's Account on behalf of Default Elective Deferrals will not be allocated to the extent the Covered Employee withdraws such Elective Deferrals pursuant to this Section 3.03 and any Matching Contributions already made on account of Default Elective Deferrals that are later withdrawn pursuant to this Section 3.03 will be forfeited.
- (f) Special Rule for Distribution of Excess Aggregate Contributions: If the Employer has elected in the Adoption Agreement that all Participants are Covered Employees, then the Plan has until 6 months (rather than 2½ months) after the end of the Plan Year to distribute Excess Aggregate Contributions and avoid the Code section 4979 10% excise tax.

### 3.04 **Roth 403(b) Elective Deferrals**

#### (a) General Application

- (1) If the Employer has elected in the Adoption Agreement, this Section 3.04 will apply to contributions beginning with the effective date specified in the Adoption Agreement but in no event before the first day of the first taxable year beginning on or after January 1, 2006.
- (2) As of the effective date under section 3.04(a)(1), the Plan will accept Roth Elective Deferrals made on behalf of Participants. A Participant's Roth Elective Deferrals will be allocated to a separate account maintained for such deferrals as described in section 3.04(b).
- (3) Unless specifically stated otherwise, Roth Elective Deferrals will be treated as Elective Deferrals for all purposes under the Plan.

#### (b) Separate Accounting

- (1) Contributions and withdrawals of Roth Elective Deferrals will be credited and debited to the Roth Elective Deferral account maintained for each Participant.
- (2) The Plan will maintain a record of the amount of Roth Elective Deferrals in each Participant's account.
- (3) Gains, losses, and other credits or charges must be separately allocated on a reasonable and consistent basis to each Participant's Roth Elective Deferral account and the Participant's other accounts under the Plan.
- (4) No contributions other than Roth Elective Deferrals and properly attributable earnings will be credited to each Participant's Roth Elective Deferral account.

#### (c) Direct Rollovers

- (1) Notwithstanding any provision in this Plan, a direct rollover of a distribution from a Roth Elective Deferral account under the Plan will only be made to another Roth Elective Deferral account under an applicable retirement plan described in section 402A(e)(1) or to a Roth IRA described in section 408A, and only to the extent the rollover is permitted under the rules of section 402(c).
- (2) Notwithstanding any provision in this Plan, unless otherwise provided by the Employer in the Adoption Agreement, the Plan will accept a rollover contribution to a Roth Elective Deferral account only if it is a direct rollover from another Roth Elective Deferral account under an applicable retirement plan described in section 402A(e)(1) and only to the extent the rollover is permitted under the rules of section 402(c).
- (3) The Plan will not provide for a direct rollover (including an automatic rollover) for distributions from a Participant's Roth Elective Deferral account if the amounts of the distributions that are eligible rollover distributions are reasonably expected to total less than \$200 during a year. In addition, any distribution from a Participant's Roth Elective Deferral account is not taken into account in determining whether distributions from a Participant's other accounts are reasonably expected to total less than \$200 during a year. However, eligible rollover distributions from a Participant's Roth Elective Deferral account are taken

into account in determining whether the total amount of the Participant's account balances under the Plan exceeds \$1,000 for purposes of mandatory distributions from the Plan.

- 3.05 **Information Provided by the Employee:** Each Employee enrolling in the Plan should provide to the Administrator at the time of initial enrollment, and later if there are any changes, any information necessary or advisable for the Administrator to administer the Plan, including any information required under the Individual Agreements.
- 3.06 **Change in Elective Deferrals Election:** Subject to the provisions of the applicable Individual Agreements, an Employee may at any time revise his or her participation election, including a change of the amount of his or her Elective Deferrals, his or her investment direction, and his or her designated Beneficiary. A change in the investment direction shall take effect as of the date provided by the Administrator on a uniform basis for all Employees. A change in the Beneficiary designation shall take effect when the election is accepted by the Vendor, or if applicable, the Administrator.
- 3.07 **Contributions Made Promptly:** Elective Deferrals under the Plan shall be transferred to the applicable Funding Vehicle as soon as administratively feasible. An Employer may adopt a policy and procedure that will satisfy State Law requirements or adopt the IRS safe harbor rule of depositing the amounts within 15 business days following the end of the month in which the amount would otherwise have been paid to the Participant, as long as the IRS safe harbor is not a longer period than the applicable State law.

#### **Article IV - Limitations on Amounts Deferred and Other Special Contribution Rules**

- 4.01 **Basic Annual Limitation for Elective Deferrals:** Except as provided in Sections 4.02 and 4.03, the maximum amount of the Elective Deferral under the Plan for any calendar year shall not exceed the lesser of (a) the applicable dollar amount or (b) the Participant's Includible Compensation for the calendar year. The applicable dollar amount is the amount established under section 402(g)(1)(B) of the Code, which is \$18,000 for 2015 and 2016, and is adjusted for cost-of-living after 2016 to the extent provided under section 415(d) of the Code.
- 4.02 **Special Section 403(b) Catch-up Limitation for Employees With 15 Years of Service:** If elected by the Employer in the Adoption Agreement and if the Employer is a Qualified Organization (within the meaning of § 1.403(b)-4(c)(3)(ii) of the Income Tax Regulations), the applicable dollar amount under Section 4.01 for any "Qualified Employee" is increased (to the extent provided in the Individual Agreements) by the least of:
- (a) \$3,000;
  - (b) The excess of:
    - (1) \$15,000, over
    - (2) The total special 403(b) catch-up elective deferrals made for the Qualified Employee by the Qualified Organization for prior years; or
  - (c) The excess of:
    - (1) \$5,000 multiplied by the number of years of service of the employee with the qualified organization, over
    - (2) The total Elective Deferrals made for the employee by the qualified organization for prior years.
- 4.03 **Age 50 Catch-up Elective Deferral Contributions:** If elected by the Employer in the Adoption Agreement, an Employee who is a Participant who will attain age 50 or more by the end of the calendar year is permitted to elect an additional amount of Elective Deferrals, up to the maximum age 50 catch-up Elective Deferrals for the year. The maximum dollar amount of the age 50 catch-up Elective Deferrals for a year is \$6,000 for 2015 and 2016, and is adjusted for cost-of-living after 2016 to the extent provided under the Code.
- 4.04 **Coordination of Catch-up Contributions:** Amounts in excess of the limitation set forth in Section 4.01 shall be allocated first to the special 403(b) catch-up under Section 4.02 and next as an age 50 catch-up contribution under Section 4.03. However, in no event can the amount of the Elective Deferrals for a year be more than the Participant's Compensation for the year.
- 4.05 **Special Rule for a Participant Covered by Another Section 403(b) Plan:** For purposes of this Article IV, if the Participant is or has been a participant in one or more other plans under section 403(b) of the Code (and any other plan that permits elective deferrals under section 402(g) of the Code), then this Plan and all such other plans shall be considered as one plan for purposes of applying the foregoing limitations of this Article IV. For this purpose, the Administrator shall take into account any other such plan maintained by any Related Employer and shall also take into account any other such plan for which the Administrator receives from the Participant sufficient information concerning his or her participation in such other plan. Notwithstanding the foregoing, another plan maintained by a Related Employer shall be taken into account for purposes of Section 4.02 only if the other plan is a section 403(b) plan.

4.06 **Correction of Excess Elective Deferrals in Multiple Plans:**

- (a) If any portion of an Employee's Elective Deferral exceeds the limitation on Elective Deferrals under this Article IV, such portion shall be included in the Employee's gross income and be considered an Excess Deferral. Notwithstanding any other provision of this Plan, Excess Deferrals assigned to this Plan, plus any income and minus any losses allocable thereto, shall be distributed no later than April 15 to Participants who claim Excess Deferrals for the preceding taxable year and assign them to the Plan for such preceding year.
- (b) A Participant may assign to this Plan any Excess Deferrals made during a taxable year of the Participant by notifying the Administrator on or before March 1 (unless a later date, but not after April 15th is outlined in the Individual Agreement) of the amount of the Excess Deferrals to be assigned to the Plan. The Participant's notice shall be in writing, shall specify the Participant's Excess Deferrals for the preceding taxable year, and shall be accompanied by the Participant's written statement that if such amounts are not distributed, such Excess Deferrals when added to amounts deferred under other plans or arrangements described in sections 401(k), 408(k), 408(p) or 403(b) of the Code, exceed the limit imposed on the Participant by section 402(g) of the Code for the year in which the deferral occurred. For years beginning after 2005, distribution of Excess Deferrals for a year shall be made first from the Participant's pre-tax Elective Deferral account to the extent pre-tax Elective Deferrals were made for such year, unless the Employer elects otherwise in the Adoption Agreement.
- (c) Excess Deferrals shall be adjusted for any income or loss up to the date of distribution. The income or loss allocable to Excess Deferrals is the income or loss allocable to the Participant's Employee Elective Deferral account for the taxable year multiplied by a fraction, the numerator of which is such Participant's Excess Deferrals for the year and the denominator is the Participant's account balance attributable to Elective Deferrals without regard to any income or loss occurring during such taxable year; and income or loss allocable to the Participant's Elective Deferral account from the beginning of the next Plan Year through the date of correction. If the Elective Deferral on behalf of a Participant for any calendar year exceeds the limitations described above, or the Elective Deferral on behalf of a Participant for any calendar year exceeds the limitations described above when combined with other amounts deferred by the Participant under another plan of the Employer under section 403(b) of the Code (and any other plan that permits elective deferrals under section 402(g) of the Code for which the Participant provides information that is accepted by the Administrator), then the Elective Deferral, to the extent in excess of the applicable limitation (adjusted for any income or loss in value, if any, allocable thereto), shall be distributed to the Participant.

4.07 **Return of Excess 415 Contributions:**

- (a) If, as a result of a reasonable error in estimating a Participant's annual compensation, a reasonable error in determining the amount of Elective Deferrals under Section 402(g)(3) of the Code, or any other circumstances that the Internal Revenue Service shall determine meets the requirements of Section 415 of the Code and the regulations thereunder, an excess annual addition occurs in any Participant's account, a distribution is permitted of such excess. Such corrections of 415 excesses shall also include any subsequent guidance provided by the Treasury and any correction procedure included under the Employee Plans Compliance Resolution System (EPCRS).
- (b) Excess annual addition amounts which are distributed shall not be deemed annual additions for the limitation year during which such contributions were made, and are disregarded for purposes of Section 402(g) of the Code.
- (c) Distributions made under this section 4.07 include distributions of Elective Deferrals or employee After-Tax contributions. Such distributions will also include the income attributable to the excess annual addition.

4.08 **Protection of Persons Who Serve in a Uniformed Service:** An Employee whose employment is interrupted by qualified military service under section 414(u) of the Code or who is on a leave of absence for qualified military service under section 414(u) of the Code may elect to make additional Elective Deferrals upon resumption of employment with the Employer equal to the maximum Elective Deferrals that the Employee could have elected during that period if the Employee's employment with the Employer had continued (at the same level of Compensation) without the interruption or leave, reduced by the Elective Deferrals, if any, actually made for the Employee during the period of the interruption or leave. Except to the extent provided under section 414(u) of the Code, this right applies for five years following the resumption of employment (or, if sooner, for a period equal to three times the period of the interruption or leave).

4.09 **Amounts Paid after Severance Treated as Compensation:**

- (a) Effective Date: The provisions of this Section 4.10 shall apply to limitation years beginning on or after July 1, 2007.

(b) Compensation paid after severance from employment: If elected by the Employer in the Adoption Agreement, Compensation shall be adjusted, as set forth herein and as otherwise elected in this Section 4.10, for the following types of compensation paid after a Participant's severance from employment with the Employer maintaining the Plan (or any other entity that is treated as the Employer pursuant to sections 414(b), (c), (m) or (o)). However, amounts described in subsections (1i) and (2) below may only be included in Compensation to the extent such amounts are paid by the later of 2 1/2 months after severance from employment or by the end of the limitation year that includes the date of such severance from employment. Any other payment of compensation paid after severance of employment that is not described in the following types of compensation is not considered Compensation within the meaning of section 415(c)(3), even if payment is made within the time period specified above.

(1) **Regular pay**: Compensation shall include regular pay after severance of employment if (1) the payment is regular compensation for services during the participant's regular working hours, or compensation for services outside the participant's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments; and (2) the payment would have been paid to the participant prior to a severance from employment if the Participant had continued in employment with the Employer.

(2) **Leave cashouts and deferred compensation**: Leave cashouts shall be included in Compensation, unless otherwise elected in the Adoption Agreement, if those amounts would have been included in the definition of Compensation if they were paid prior to the Participant's severance from employment, and the amounts are payment for unused accrued bona fide sick, vacation, or other leave, but only if the Participant would have been able to use the leave if employment had continued. In addition, deferred compensation shall be included in Compensation, unless otherwise elected in the Adoption Agreement, if the compensation would have been included in the definition of Compensation if it had been paid prior to the Participant's severance from employment, and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the Participant had continued in employment with the Employer and only to the extent that the payment is includible in the Participant's gross income.

4.10 **Salary continuation payments for military service participants**: Compensation does not include, unless otherwise elected in the Adoption Agreement, payments to an individual who does not currently perform services for the Employer by reason of qualified military service (as that term is used in Code section 414(u)(1)) to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the Employer rather than entering qualified military service.

4.11 **Administrative delay ("the first few weeks") rule**: Compensation for a limitation year shall not include, unless otherwise elected in the Adoption Agreement, amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates. However, if elected, Compensation for a limitation year shall include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates, provided the amounts are paid during the first few weeks of the next limitation year, the amounts are included on a uniform and consistent basis with respect to all similarly situated Participants, and no compensation is included in more than one limitation year.

## Article V – Limitation on Annual Additions

### 5.01 Limitations on Aggregate Annual Additions

(a) **General Limitation on Annual Additions**: A Participant's Annual Additions under the Plan for a Limitation Year may not exceed the Maximum Annual Addition as set forth in section 5.02(d) below.

(b) Aggregation of Section 403(b) Plans of the Employer: If Annual Additions are credited to a Participant under any section 403(b) plans of the Employer in addition to this Plan for a Limitation Year, the sum of the Participant's Annual Additions for the Limitation Year under this Plan and such other section 403(b) plans may not exceed the Maximum Annual Addition as set forth in section 5.02(d) below.

(c) Aggregation Where Participant is in Control of Any Employer: If a Participant is in control of any employer for a Limitation Year, the sum of the Participant's Annual Additions for the Limitation Year under this Plan, any other section 403(b) plans of the Employer, any defined contribution plans maintained by controlled employers, and any section 403(b) plans of any other employers may not exceed the Maximum Annual Addition as set forth in section 5.02(d) below. For purposes of this paragraph, a Participant is in control of an employer based upon the rules of sections 414(b), 414(c), and 415(h) of the Code; and a defined contribution plan means a defined contribution plan that is qualified under section 401(a) or 403(a) of the Code, a section 403(b) plan, or a simplified employee pension within the meaning of section 408(k) of the Code.

- (d) **Notice to Participants.** The Administrator will provide written or electronic notice to Participants that explains the limitation in section 5.01(c) in a manner calculated to be understood by the average Participant and informs Participants of their responsibility to provide information to the Administrator that is necessary to satisfy section 5.01(c). The notice will advise Participants that the application of the limitations in section 5.01(c) will take into account information supplied by the Participant and that failure to provide necessary and correct information to the Administrator could result in adverse tax consequences to the Participant, including the inability to exclude contributions to the Plan under section 403(b) of the Code. The notice will be provided annually, beginning no later than the year in which the Employee becomes a Participant.
- (e) **Coordination of Limitation on Annual Additions Where Employer Has Another Section 403(b) Prototype Plan or Participant is in Control of Employer.** The Annual Additions which may be credited to a Participant under this Plan for any Limitation Year will not exceed the Maximum Annual Addition under section 2.4, reduced by the Annual Additions credited to the Participant under any other Section 403(b) Prototype Plans of the Employer in addition to this Plan and, if the Participant is in control of an employer, any defined contribution plans maintained by controlled employers and section 403(b) plans of any other employers. Contributions to the Participant's Accounts under this Plan will be reduced to the extent necessary to prevent this limitation from being exceeded.
- (f) **Excess Annual Additions:**
- (1) If, notwithstanding sections 5.01(a) through 5.01(e), a Participant's Annual Additions under this Plan, or under this Plan and plans aggregated with this Plan under sections 5.01(b) and 5.01(c), result in an Excess Annual Addition for a Limitation Year, the Excess Annual Addition will be deemed to consist of the Annual Additions last credited, except Annual Additions to a defined contribution plan qualified under section 401(a) of the Code or a simplified employee pension maintained by an employer controlled by the Participant will be deemed to have been credited first.
  - (2) If an Excess Annual Addition is credited to a Participant under this Plan and another Section 403(b) Prototype Plan of the Employer on the same date, the Excess Annual Addition attributable to this Plan will be the product of:
    - (A) the total Excess Annual Addition credited as of such date, times
    - (B) the ratio of (1) the Annual Additions credited to the Participant for the Limitation Year as of such date under this Plan to (2) the total Annual Additions credited to the Participant for the Limitation Year as of such date under this Plan and all other Section 403(b) Prototype Plans of the Employer.
  - (3) Any Excess Annual Addition attributable to this Plan will be corrected in the manner described in section 5.01(h).
- (g) **Coordination of Limitation on Annual Additions Where Employer Has Another Section 403(b) Plan that is Not a Prototype Plan.** If Annual Additions are credited to the Participant for the Limitation Year under another section 403(b) plan of the Employer which is not a Section 403(b) Prototype Plan, the Annual Additions which may be credited to the Participant under this Plan for the Limitation Year will be limited in accordance with sections 5.01(e) and 5.01(f) as though the other plan were a Section 403(b) Prototype Plan unless the Employer provides other limitations in the Adoption Agreement.
- (h) **Correction of Excess Annual Additions.** A Participant's Excess Annual Additions for a taxable year are includible in the Participant's gross income for that taxable year. A Participant's Excess Annual Additions attributable to this Plan will be credited in the year of the excess to a separate account under the Plan for such Excess Annual Additions which will be maintained by the Vendor until the Excess Annual Additions are distributed. This separate account will be treated as a separate contract to which section 403(c) (or another applicable provision of the Code) applies. Amounts in the separate account may be distributed at any time, notwithstanding any other provisions of the Plan.

5.02 **Definitions:** Refer to Article II, Section 2.45 for definitions related to Limitation on Annual Additions.

#### **Article VI – Loans**

6.01 **Loans:** Loans shall be permitted under the Plan to the extent permitted by the Individual Agreements controlling the Account assets from which the loan is made.

6.02 **Information Coordination Concerning Loan:** Each Vendor is responsible for all information reporting and tax withholding required by applicable federal and state laws in connection with distributions and loans. To minimize the instances in which Participants have taxable income as a result of loans from the Plan, the Administrator shall take such steps as may be appropriate to coordinate the limitations on loans set forth in Section 6.03, including the collection of information from Vendors, and transmission of information requested by any Vendor, concerning the outstanding balance of any loans made to a Participant under the Plan or any other plan of the Employer. The Administrator shall also take such steps as may be appropriate to collect information from Vendors and transmission

of information to any Vendor, concerning any failure by a Participant to repay timely any loans made to a Participant under the Plan or any other plan of the Employer.

- 6.03 **Maximum Loan Amount:** No loan to a Participant under the Plan may exceed the lesser of:
- (a) \$50,000, reduced by the greater of (1) the outstanding balance on any loan from the Plan to the Participant on the date the loan is made or (2) the highest outstanding balance on loans from the Plan to the Participant during the one-year period ending on the day before the date the loan is approved by the Administrator (not taking into account any payments made during such one-year period); or
  - (b) one-half of the value of the Participant's vested Account Balance (as of the valuation date immediately preceding the date on which such loan is approved by the Administrator) or, if greater, the total accrued benefit up to \$10,000.
- For purposes of this Section 6.03, any loan from any other plan maintained by the Employer and any Related Employer shall be treated as if it were a loan made from the Plan, and the Participant's vested interest under any such other plan shall be considered a vested interest under this Plan; provided, however, that the provisions of this paragraph shall not be applied so as to allow the amount of a loan to exceed the amount that would otherwise be permitted in the absence of this paragraph.
- 6.04 **Failure to Make Loan Payment:** If a Participant fails to make a loan payment when due, such Participant will have a reasonable period as described in the loan agreement and applied on a uniform basis, (but no longer than the end of the calendar quarter following the calendar quarter in which the loan payment was due) after such loan payment due date to cure such default.
- 6.05 **Suspension of Certain Loan Payments:** Loan payments may be suspended under this Plan:
- (a) as permitted under section 414(u)(4) of the Code during participants' periods of military service; and
  - (b) during any Participants' leave of absence as defined in section 72(p) of the Code and the regulations thereunder, but in no event shall such suspension exceed one year.
- 6.06 **Term of Loan:** Any loan shall by its terms require that repayment (principal and interest) be amortized in level payments, not less frequently than quarterly, over a period not extending beyond five years from the date of the loan. If such loan is used to acquire a dwelling unit which within a reasonable time (determined at the time the loan is made) will be used as the principal residence of the Participant, the amortization period shall not extend beyond 30 years from the date of the loan.
- 6.07 **Assignment or Pledge:** An assignment or pledge of any portion of the Participant's interest in the Plan and a loan, pledge, or assignment with respect to any insurance contract purchased under the Plan, will be treated as a loan under this paragraph.
- 6.08 **Administration of Loans:** Any applicable loan will be administered based on the loan policy of the Vendor or the Employer, whichever is applicable. Such policy(ies) must satisfy section 72(p) and the regulations thereunder.
- 6.09 **Repayment of Loan:** The terms governing the applicable Investment Arrangement shall determine the method of repayment of loans.

#### **Article VII - Benefit Distributions**

- 7.01 **Benefit Distributions At Severance from Employment or Other Distribution Event:**
- (a) Except as permitted under Section 4.06 (relating to excess Elective Deferrals), Section 7.04 (relating to withdrawals of amounts rolled over into the Plan), Section 7.05 (relating to hardship), or Section 10.03 (relating to termination of the Plan), pre-1989 Elective Deferral contributions (excluding earnings thereon) to an Annuity Contract that are separately accounted for, amounts rolled over into the Plan, a qualified reservist distributions as defined in section 72(t)(2)(G) of the Code, a payment pursuant to a qualified domestic relations order, or an IRS Levy, or as may otherwise be provided by law and in regulations or other rules of general applicability published by the Department of the Treasury or the Internal Revenue Service, distributions from a Participant's Elective Deferral Account may not be made earlier than the earliest of the date on which the Participation has a Severance from Employment, dies, becomes Disabled, or attains age 59 1/2. Distributions shall otherwise be made in accordance with the terms of the Individual Agreements.

For purposes of this paragraph, a Participant shall be treated as having a Severance from Employment during any period the Participant is performing service in the uniformed services described in section 3401(h)(2)(A) of the Code.

- (b) Except for a payment pursuant to section 7.01(a) of the Plan, or as may otherwise be provided by law in regulations or other rules of general applicability published by the Department of the Treasury or the Internal Revenue Service, Employer contributions held in a Custodial Account may not be distributed earlier than the earliest of the date on which the Participant has a Severance from Employment, dies, becomes Disabled, or attains age 59 ½. The available forms of distribution will be based on the terms governing the applicable Investment Arrangement.
- (c) Except for a payment pursuant to section 7.01(a) of the Plan, or as may otherwise be provided by law in regulations or other rules of general applicability published by the Department of the Treasury or the Internal Revenue Service, Employer contributions held in an Annuity Contract may not be distributed earlier than the earliest of the date on which the Participant has a Severance from Employment or upon the prior occurrence of an event as specified in the Adoption Agreement such as after a fixed number of years, attainment of a stated age, or after the Participant becomes disabled. The available forms of distribution will be based on the terms governing the applicable Investment Arrangement.

- 7.02 **Small Account Balances:** To the extent permitted under the terms governing the applicable Funding Vehicles, and if elected in the Adoption Agreement, distributions may be made in the form of a lump-sum payment, without the consent of the Participant or Beneficiary, but not without the consent of the Participant or Beneficiary if the Participant's Accumulated Benefit (determined without regard to any separate account that holds rollover contributions) exceeds \$5,000 or any lesser amount specified in the Funding Vehicle, ("Small Account Balance"). Any such distribution shall comply with the requirements of section 401(a)(31)(B) of the Code (relating to automatic distribution as a direct rollover to an individual retirement plan for distributions in excess of \$1,000).
- 7.03 **Minimum Distributions:** The Plan shall comply with the distribution requirements of section 401(a)(9) of the Code and the regulations thereunder in accordance with the terms of each Individual Agreement, unless and to the extent otherwise permitted by law and on regulations or other rules of general applicability published by the Department of the Treasury or the Internal Revenue Service. For purposes of applying the distribution rules of section 401(a)(9) of the Code, each Individual Agreement is treated as an individual retirement account (IRA) and distributions shall be made in accordance with the provisions of §1.408-8 of the Treasury Regulations, except as provided in §1.403(b)-6(e) of the Treasury Regulations.
- 7.04 **In-Service Distributions From Rollover Account:** If a Participant has a separate account attributable to rollover contributions to the Plan, to the extent permitted by the applicable Individual Agreement, if elected by the Employer in the Adoption Agreement, the Participant may at any time elect to receive a distribution of all or any portion of the amount held in the rollover account.
- 7.05 **Hardship Withdrawals:**
- (a) Hardship withdrawals shall be permitted under the Plan to the extent elected in the Adoption Agreement and permitted by the Individual Agreements controlling the Account assets to be withdrawn to satisfy the hardship. If applicable under an Individual Agreement, no Elective Deferrals or After-Tax Employee Contributions (excluding Mandatory Employee Contributions) shall be allowed under the Plan during the 6-month period beginning on the date the Participant receives a distribution on account of hardship. A Participant who receives a distribution of Elective Deferrals on account of hardship shall be prohibited from making Elective Deferrals and/or After Tax Employee Contributions under this and all other plans of the Employer for 6 months after receipt of the distribution;
  - (b) The Individual Agreements shall provide for the exchange of information among the Employer and the Vendors or the Administrator to the extent necessary to implement the Individual Agreements, including, in the case of a hardship withdrawal that is automatically deemed to be necessary to satisfy the Participant's financial need (pursuant to section 1.401(k)-1(d)(3)(iv)(E) of the Income Tax Regulations), the Vendor or the Administrator notifying the Employer of the withdrawal in order for the Employer to implement the resulting 6-month suspension of the Participant's right to make Elective Deferrals under the Plan. In addition, in the case of a hardship withdrawal that is not automatically deemed to be necessary to satisfy the financial need (pursuant to section 1.401(k)-1(d)(3)(iii)(B) of the Income Tax Regulations), the Vendor or the Administrator, if applicable shall obtain information from the Employer or other Vendors to determine the amount of any plan loans and rollover accounts that are available to the Participant under the Plan to satisfy the financial need;
  - (c) The distribution is not in excess of the amount of the immediate and heavy financial need (including amounts necessary to pay any federal, state or local income taxes or penalties reasonably anticipated to result from the distribution); and

- (d) If required by Treasury regulations, the Participant has obtained all distributions, other than hardship distributions, and all nontaxable loans under all plans maintained by the Employer (except to the extent such actions would be counterproductive to alleviating the financial need).
- (e) In applying the overall permitted Hardship distribution, such amounts shall be limited to the aggregate dollar amount of the Participant's section 403(b) elective deferrals under the applicable custodial agreements and contracts (and may not include any income thereon), reduced by the aggregate dollar amount of Elective Deferral distributions previously made to the Participant from the custodial agreements and/or contracts.

**7.06 Rollover Distributions:**

- (a) A Participant or the Beneficiary of a deceased Participant (or a Participant's spouse or former spouse who is an Alternate Payee under a domestic relations order, as defined in section 414(p) of the Code) who is entitled to an eligible rollover distribution may elect to have any portion of an eligible rollover distribution (as defined in section 402(c)(4) of the Code) from the Plan paid directly to an eligible retirement plan (as defined in section 402(c)(8)(B) of the Code) specified by the Participant in a direct rollover. In the case of a distribution to a Beneficiary who at the time of the Participant's death was neither the spouse of the Participant nor the spouse or former spouse of the Participant who is an Alternate Payee under a domestic relations order, a direct rollover is payable only to a traditional individual retirement account or traditional individual retirement annuity (IRA) that has been established on behalf of the Beneficiary as an inherited traditional IRA (within the meaning of section 408(d)(3)(C) of the Code).
- (b) For distributions made after December 31, 2007, Participants must be given the option to directly rollover to a Roth IRA as a qualified rollover contribution pursuant to section 408A(e) of the Code.
- (c) Pursuant to section 402(c)(11) of the Code and section 108(f) of WRERA, for Plan Years after December 31, 2009, a plan must permit rollovers by nonspouse Beneficiaries and a rollover by a nonspouse Beneficiary must be made in a Direct Rollover to either a Roth IRA or traditional IRA. A surviving spouse Beneficiary who makes a rollover to a Roth IRA or a traditional IRA from this Plan may elect either to treat the Roth IRA or traditional IRA as his or her own or establish the Roth IRA or traditional IRA in the name of the decedent with the surviving spouse as the Beneficiary.
- (d) Each Vendor shall be separately responsible for providing, within a reasonable time period before making an initial eligible rollover distribution, an explanation to the Participant of his or her right to elect a direct rollover and the income tax withholding consequences of not electing a direct rollover.

**7.07 Nonspouse Beneficiary Direct Rollover**

- (a) A direct trustee-to-trustee transfer of any portion of a benefit payable upon the death of a Participant may be distributed from this Plan to an individual retirement plan described in section 408(a) or (b) of the Code (an "IRA") that is established for the purpose of receiving the distribution on behalf of a Designated Beneficiary who is a nonspouse beneficiary. The transfer is treated as a direct rollover of an eligible rollover distribution for purposes of section 402(c) of the Code.

The IRA of the nonspouse beneficiary is treated as an inherited IRA within the meaning of section 408(d)(3)(C) of the Code.

- (b) This Plan shall offer a direct rollover of a distribution to a nonspouse beneficiary who is a Designated Beneficiary within the meaning of section 401(a)(9)(E) of the Code, provided that the distributed amount satisfies all the requirements to be an eligible rollover distribution other than the requirement that the distribution be made to the participant or the participant's spouse. The direct rollover must be made to an IRA established on behalf of the Designated Beneficiary that will be treated as an inherited IRA pursuant to the provisions of section 402(c)(11) of the Code. If a nonspouse beneficiary elects a direct rollover, the amount directly rolled over is not includible in gross income in the year of the distribution.
- (c) Section 402(c)(11) of the Code provides that a direct rollover of a distribution by a nonspouse beneficiary is a rollover of an eligible rollover distribution only for purposes of section 402(c) of the Code. Therefore, the distribution is not subject to the direct rollover requirements of section 401(a)(31) of the Code, the notice requirements of section 402(f) of the Code, or the mandatory withholding requirements of section 3405(c) of the Code. If an amount distributed from a plan is received by a nonspouse beneficiary, the distribution is not eligible for rollover.
- (d) This Plan may make a direct rollover to an IRA on behalf of a trust where the trust is the named beneficiary of a decedent, provided the beneficiaries of the trust meet the requirements to be designated beneficiaries within

the meaning of section 401(a)(9)(E) of the Code. In such a case, the beneficiaries of the trust are treated as having been designated as beneficiaries of the decedent for purposes of determining the distribution period under section 401(a)(9) of the Code, if the trust meets the requirements set forth in Treasury Regulation section 1.401(a)(9)-4, Q&A-5, with respect to the IRA.

(e) Determination of Required Minimum Distributions:

*General rule.* If the Employee dies before his or her Required Beginning Date, the required minimum distributions for purposes of determining the amount eligible for rollover with respect to a nonspouse beneficiary are determined under either the 5-year rule described in section 401(a)(9)(B)(ii) of the Code or the life expectancy rule described in section 401(a)(9)(B)(iii) of the Code. Under either rule, no amount is a required minimum distribution for the year in which the Employee dies. The rule in Treasury Regulation section 1.402(c)-2, Q&A-7(b) (relating to distributions before an Employee has attained age 70½) does not apply to nonspouse beneficiaries.

*Five-year rule.* Under the 5-year rule described in section 401(a)(9)(B)(ii) of the Code, no amount is required to be distributed until the fifth calendar year following the year of the Employee's death. In that year, the entire amount to which the beneficiary is entitled under the plan must be distributed. Thus, if the 5-year rule applies with respect to a nonspouse beneficiary who is a designated beneficiary within the meaning of section 401(a)(9)(E) of the Code, for the first 4 years after the year the Employee dies, no amount payable to the beneficiary is ineligible for direct rollover as a required minimum distribution. Accordingly, the beneficiary is permitted to directly roll over the beneficiary's entire benefit until the end of the fourth year (but, the 5-year rule must also apply to the IRA to which the rollover contribution is made). On or after January 1 of the fifth year following the year in which the Employee died, no amount payable to the beneficiary is eligible for rollover.

*Life expectancy rule.* (1) *General rule.* If the life expectancy rule described in section 401(a)(9)(B)(iii) of the Code applies, in the year following the year of death and each subsequent year thereafter, there is a required minimum distribution. The amount not eligible for rollover includes all undistributed required minimum distributions for the year in which the direct rollover occurs and any prior year (even if the excise tax under section 4974 of the Code has been paid with respect to the failure in the prior years). (2) *Special rule.* If, under Treasury Regulation section 1.401(a)(9)-3, Q&A, paragraph (b) or (c) the 5-year rule applies, the nonspouse Designated Beneficiary may determine the required minimum distribution under the plan using the life expectancy rule in the case of a distribution made prior to the end of the year following the year of death. However, in order to use this rule, the required minimum distributions under the IRA to which the direct rollover is made must be determined under the life expectancy rule using the same Designated Beneficiary.

- (f) If an Employee dies on or after his or her Required Beginning Date, within the meaning of section 401(a)(9)(C) of the Code, for the year of the Employee's death, the required minimum distribution not eligible for rollover is the same as the amount that would have applied if the Employee were still alive and elected the direct rollover. For the year after the year of the Employee's death and subsequent years thereafter, see Q&A-5 of Treasury Regulation section 1.401(a)(9)-5, Q&A-5, to determine the applicable distribution period to use in calculating the required minimum distribution. As in the case of death before the Employee's Required Beginning Date, the amount not eligible for rollover includes all undistributed required minimum distributions for the year in which the direct rollover occurs and any prior year, including years before the Employee's death.
- (g) Under section 402(c)(11) of the Code, an IRA established to receive a direct rollover on behalf of a nonspouse Designated Beneficiary is treated as an inherited IRA within the meaning of section 408(d)(3)(C) of the Code. The required minimum distribution requirements set forth in section 401(a)(9)(B) of the Code and the regulations thereunder apply to the inherited IRA. The rules for determining the required minimum distributions under the Plan with respect to the nonspouse beneficiary also apply under the IRA. Thus, if the Employee dies before his or her Required beginning Date and the 5-year rule in section 401(a)(9)(B)(ii) of the Code applied to the nonspouse Designated Beneficiary under the plan making the direct rollover, the 5-year rule applies for purposes of determining required minimum distributions under the IRA. If the life expectancy rule applied to the nonspouse Designated Beneficiary under the plan, the required minimum distribution under the IRA must be determined using the same applicable distribution period as would have been used under the plan if the direct rollover had not occurred. Similarly, if the Employee dies on or after his or her Required Beginning Date, the required minimum distribution under the IRA for any year after the year of death must be determined using the same applicable distribution period as would have been used under the plan if the direct rollover had not occurred.

7.08 Qualified Reservist Distribution:

- (a) This provision applies to individuals ordered or called to active duty after September 11, 2001. The two-year period for making repayments of Qualified Reservist Distributions does not end before the date that is two years after the date of enactment.

- (b) A Qualified Reservist Distribution is a distribution (1) from an IRA or attributable to elective deferrals under a 401(k) plan, 403(b) plan, or certain similar arrangements, (2) made to an individual who (by reason of being a member of a reserve component as defined in section 101 of title 37 of the U.S. Code) was ordered or called to active duty for a period in excess of 179 days or for an indefinite period, and (3) that is made during the period beginning on the date of such order or call to duty and ending at the close of the active duty period. A 401(k) plan or 403(b) plan does not violate the distribution restrictions applicable to such plans by reason of making a Qualified Reservist Distribution.
- (c) An individual who receives a Qualified Reservist Distribution may, at any time during the two-year period beginning on the day after the end of the active duty period, make one or more contributions to an IRA of such individual in an aggregate amount not to exceed the amount of such distribution. The dollar limitations otherwise applicable to contributions to IRAs do not apply to any contribution made pursuant to the provision. No deduction is allowed for any contribution made under the provision.

#### **Article VIII - Rollovers to the Plan and Transfers from the Plan**

##### **8.01 Eligible Rollover Contributions to the Plan:**

- (a) Eligible Rollover Contributions: If elected by the Employer in the Adoption Agreement and to the extent provided in the Individual Agreements, an Employee who is a Participant who is entitled to receive an eligible rollover distribution from another eligible retirement plan may request to have all or a portion of the eligible rollover distribution paid to the Plan. The Vendor or the Administrator, if applicable, may require such documentation from the distributing plan as it deems necessary to effectuate the rollover in accordance with section 402 of the Code and to confirm that such plan is an eligible retirement plan within the meaning of section 402(c)(8)(B) of the Code. If elected by the Employer in the Adoption Agreement and permitted in the Individual Agreements, the Plan may accept a rollover contribution from a Roth elective deferral account under an applicable retirement plan described in section 402A(e)(1) of the Code.
- (b) Eligible Rollover Distribution: For purposes of Section 8.01(a), an eligible rollover distribution means any distribution of all or any portion of a Participant's benefit under another eligible retirement plan, except that an eligible rollover distribution does not include (1) any installment payment for a period of 10 years or more, (2) any distribution made as a result of an unforeseeable emergency or other distribution which is made upon hardship of the employee, or (3) for any other distribution, the portion, if any, of the distribution that is a required minimum distribution under section 401(a)(9) of the Code. In addition, an eligible retirement plan means an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, a qualified trust described in section 401(a) of the Code, an annuity plan described in section 403(a) or 403(b) of the Code, or an eligible governmental plan described in section 457(b) of the Code, that accepts the eligible rollover distribution.
- (c) Eligible Retirement Plan. An Eligible Retirement Plan means a qualified trust described in section 401(a) of the Code, an annuity plan described in section 403(a) or 403(b) of the Code, an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, or an eligible governmental plan described in section 457(b) of the Code.
- (d) Separate Accounts: The Vendor, or the Administrator if applicable, shall establish and maintain for the Participant a separate account for any eligible rollover distribution paid to the Plan.
- (e) Roth Rollovers: If provided by the Employer in the Adoption Agreement, the plan will accept a rollover contribution to a Roth Elective Deferral account only if it is a direct rollover from another Roth elective deferral account under an applicable retirement plan described in section 402A(e)(1) of the Code and only to the extent the rollover is permitted under the rules of section 402(c) of the Code.
- (f) Information Regarding Participant Basis Required. A rollover of an Eligible Rollover Distribution that includes after-tax employee contributions or Roth Elective Deferrals will only be accepted if the Administrator obtains information regarding the Participant's tax basis under section 72 of the Code in the amount rolled over.

##### **8.02 Plan-to-Plan Transfers to the Plan:** If elected in the Adoption Agreement, plan-to-plan transfers for a Participant shall be permitted as provided in this section.

- (a) At the direction of the Employer, for a class of Employees who are Participants or Beneficiaries in another plan under section 403(b) of the Code, the Administrator may permit a transfer of part or all of the assets to the Plan as provided in this Section 8.02. Such a transfer is permitted only if the other plan provides for the direct transfer of each person's interest therein (entire or partial interest) to the Plan and the participant is an employee or former employee of the Employer. The Administrator and any Vendor accepting such transferred amounts may require that the transfer be in cash or other property acceptable to it. The Administrator or any Vendor accepting

such transferred amounts may require such documentation from the other plan as it deems necessary to effectuate the transfer in accordance with §1.403(b)-10(b)(3) of the Income Tax Regulations and to confirm that the other plan is a plan that satisfies section 403(b) of the Code.

- (b) The amount so transferred shall be credited to the Participant's Account Balance, so that the Participant or Beneficiary whose assets are being transferred has an accumulated benefit immediately after the transfer at least equal to the accumulated benefit with respect to that Participant or Beneficiary immediately before the transfer.
- (c) To the extent provided in the Individual Agreements holding such transferred amounts, the amount transferred shall be held, accounted for, administered and otherwise treated in the same manner as an Elective Deferral by the Participant under the Plan, except that (1) the Individual Agreement which holds any amount transferred to the Plan must provide that, to the extent any amount transferred is subject to any distribution restrictions required under section 403(b) of the Code, the Individual Agreement must impose restrictions on distributions to the Participant or Beneficiary whose assets are being transferred that are not less stringent than those imposed on the transferor plan and (2) the transferred amount shall not be considered an Elective Deferral under the Plan in determining the maximum deferral under Article IV. The Employer reserves the right to establish procedures with respect to former employees.
- (d) Plan-to-Plan transfer may not be made between this Plan and a qualified plan or a 457(b) Plan. Notwithstanding the previous sentence if the Plan Sponsor is a church, or church related organization transfers and mergers may be made between a qualified plan and a 403(b) or vice versa.

8.03 **Plan-to-Plan Transfers from the Plan:** If elected in the Adoption Agreement, plan-to-plan transfers for a Participant shall be permitted as provided in this section.

- (a) At the direction of the Employer, the Administrator may permit a class of Participants and Beneficiaries to elect to have all or any portion of their Account Balance transferred to another plan that satisfies section 403(b) of the Code in accordance with §1.403(b)-10(b)(3) of the Income Tax Regulations. A transfer is permitted under this Section 8.03(a) only if the Participants or Beneficiaries are employees or former employees of the employer (or the business of the employer) under the receiving plan and the other plan provides for the acceptance of plan-to-plan transfers with respect to the Participants and Beneficiaries and for each Participant and Beneficiary to have an amount under the other plan immediately after the transfer at least equal to the amount transferred.
- (b) The other plan must provide that, to the extent any amount transferred is subject to any distribution restrictions required under section 403(b) of the Code, the other plan shall impose restrictions on distributions to the Participant or Beneficiary whose assets are transferred that are not less stringent than those imposed under the Plan. In addition, if the transfer does not constitute a complete transfer of the Participant's or Beneficiary's interest in the Plan, the other plan shall treat the amount transferred as a continuation of a pro rata portion of the Participant's or Beneficiary's interest in the transferor plan (e.g., a pro rata portion of the Participant's or Beneficiary's interest in any after-tax employee contributions).
- (c) Upon the transfer of assets under this Section 8.03, the Plan's liability to pay benefits to the Participant or Beneficiary under this Plan shall be discharged to the extent of the amount so transferred for the Participant or Beneficiary. The Administrator may require such documentation from the receiving plan as it deems appropriate or necessary to comply with this Section 8.03 (for example, to confirm that the receiving plan satisfies section 403(b) of the Code and to assure that the transfer is permitted under the receiving plan) or to effectuate the transfer pursuant to § 1.403(b)-10(b)(3) of the Income Tax Regulations.

8.04 **Contract and Custodial Account Exchanges:**

- (a) A Participant or Beneficiary is permitted to change the investment of his or her Account Balance among the Vendors under the Plan, subject to the terms of the Individual Agreements. However, an investment change that includes an investment with a Vendor that is not eligible to receive contributions under Article III (referred to below as an exchange) is not permitted unless the conditions in paragraphs (b) through (d) of this Section 8.04 are satisfied.
- (b) The Participant or Beneficiary must have an Account Balance immediately after the exchange that is at least equal to the Account Balance of that Participant or Beneficiary immediately before the exchange (taking into account the Account Balance of that Participant or Beneficiary under both section 403(b) contracts and custodial accounts immediately before the exchange).
- (c) The Individual Agreement with the receiving Vendor has distribution restrictions with respect to the Participant that are not less stringent than those imposed on the investment being exchanged.

- (d) The Employer or the Administrator enters into an agreement with the receiving Vendor for the other contract or custodial account under which the Employer and the Vendor will from time to time in the future provide each other with the following information:
- (1) Information necessary for the resulting contract or custodial account, or any other contract or custodial accounts to which contributions have been made by the Employer, to satisfy section 403(b) of the Code, including the following: (1) the Employer providing information as to whether the Participant's employment with the Employer is continuing, and notifying the Vendor when the Participant has had a Severance from Employment (for purposes of the distribution restrictions in Section 7.01); (2) the Vendor notifying the Employer of any hardship withdrawal under Section 7.05 if the withdrawal results in a 6-month suspension of the Participant's right to make Elective Deferrals under the Plan; and (3) the Vendor providing information to the Employer or other Vendors concerning the Participant's or Beneficiary's section 403(b) contracts or custodial accounts or qualified employer plan benefits (to enable a Vendor to determine the amount of any plan loans and any rollover accounts that are available to the Participant under the Plan in order to satisfy the financial need under the hardship withdrawal rules of Section 7.05); and
  - (2) Information necessary in order for the resulting contract or custodial account and any other contract or custodial account to which contributions have been made for the Participant by the Employer to satisfy other tax requirements, including the following: (1) the amount of any plan loan that is outstanding to the Participant in order for a Vendor to determine whether an additional plan loan satisfies the loan limitations of Section 603, so that any such additional loan is not a deemed distribution under section 72(p)(1); and (2) information concerning the Participant's or Beneficiary's after-tax employee contributions in order for a Vendor to determine the extent to which a distribution is includible in gross income.
- (e) If any Vendor ceases to be eligible to receive Elective Deferrals under the Plan, the Employer or the Administrator will enter into an information sharing agreement as described in Section 8.04(d) to the extent the Employer's contract with the Vendor does not provide for the exchange of information described in Section 8.04(d)(1) and (2).
- (f) Notwithstanding anything to the contrary in this section, if the Employer does not permit Exchanges under this Plan, an invalid exchange (an exchange that occurs after September 24, 2007) shall be permitted to be re-exchanged into an approved Vendor under this Plan.

**8.05 Permissive Service Credit Transfers:**

- (a) If a Participant is also a participant in a tax-qualified defined benefit governmental plan (as defined in section 414(d) of the Code) that provides for the acceptance of plan-to-plan transfers with respect to the Participant, then the Participant may elect to have any portion of the Participant's Account Balance transferred to the defined benefit governmental plan. A transfer under this Section 8.05(a) may be made before the Participant has had a Severance from Employment.
- (b) A transfer may be made under Section 8.05(a) only if the transfer is either for the purchase of permissive service credit (as defined in section 415(n)(3)(A) of the Code) under the receiving defined benefit governmental plan or a repayment to which section 415 of the Code does not apply by reason of section 415(k)(3) of the Code.
- (c) In addition, if a plan-to-plan transfer does not constitute a complete transfer of the Participant's or Beneficiary's interest in the transferor plan, the Plan shall treat the amount transferred as a continuation of a pro rata portion of the Participant's or Beneficiary's interest in the transferor plan (e.g., a pro rata portion of the Participant's or Beneficiary's interest in any after-tax employee contributions).

- 8.06 Transfer by Employer.** To the extent permitted by applicable law and the underlying Individual Agreements, and subject to rules and procedures established by the Administrator, an Employer may request a transfer of all Accounts maintained under its Plan to another section 403(b) plan that it has established.

**Article IX - Investment of Contributions**

- 9.01 Manner of Investment:** All Elective Deferrals or other amounts contributed to the Plan, all property and rights purchased with such amounts under the Funding Vehicles, and all income attributable to such amounts, property, or rights shall be held and invested in one or more Annuity Contracts or Custodial Accounts. Each Custodial Account shall provide for it to be impossible, prior to the satisfaction of all liabilities with respect to Participants and their Beneficiaries, for any part of the assets and income of the Custodial Account to be used for, or diverted to, purposes other than for the exclusive benefit of Participants and their Beneficiaries.
- 9.02 Investment of Contributions:** Each Participant or Beneficiary shall direct the investment of his or her Account among the investment options available under the Annuity Contract or Custodial Account in accordance with the

terms of the Individual Agreements. Transfers and Exchanges among Annuity Contracts and Custodial Accounts may be made to the extent provided in the Individual Agreements, the Plan and permitted under applicable Income Tax Regulations.

- 9.03 **Current and Former Vendors:** The Administrator shall maintain a list of all Vendors under the Plan. Each Vendor and the Administrator shall exchange such information as may be necessary to satisfy section 403(b) of the Code or other requirements of applicable law. In the case of a Vendor which is not eligible to receive Elective Deferrals under the Plan (including a Vendor which has ceased to be a Vendor eligible to receive Elective Deferrals under the Plan and a Vendor holding assets under the Plan in accordance with Plan Vendor Attachment which is incorporated in the Administrative Appendix), the Employer shall keep the Vendor informed of the name and contact information of the Administrator in order to coordinate information necessary to satisfy section 403(b) of the Code or other requirements of applicable law.

#### **Article X - Amendment and Plan Termination**

- 10.01 **Termination of Contributions:** The Employer has adopted the Plan with the intention and expectation that contributions will be continued indefinitely. However, the Employer has no obligation or liability whatsoever to maintain the Plan for any length of time and may discontinue contributions under the Plan at any time without any liability hereunder for any such discontinuance.
- 10.02 **Amendment and Termination By Employer:** The Employer reserves the authority to amend or terminate this Plan at any time. An Employer that amends the Plan, other than to change the choice of options or procedures in the Adoption Agreement or to add certain sample or model amendments published by the Internal Revenue Service which specifically provide that their adoption will not cause the Plan to be treated as individually designed, will no longer participate in this section 403(b) volume submitter plan and will be considered to have an individually designed 403(b) plan.
- 10.03 **Distribution upon Termination of the Plan:** The Employer may provide that, in connection with a termination of the Plan and subject to any restrictions contained in the Individual Agreements, all Accounts will be distributed, provided that the Employer and any Related Employer on the date of termination do not make contributions to an alternative section 403(b) contract that is not part of the Plan during the period beginning on the date of plan termination and ending 12 months after the distribution of all assets from the Plan, except as permitted by the Income Tax Regulations. Upon Termination of the Plan all nonvested amounts under the Plan shall become fully vested. In addition, all accumulated benefits for a Participant must be distributed to Participants and Beneficiaries as soon as administratively feasible as described in section 1.403(b)-10(b)(1)(i) of the Treasury regulations.
- 10.04 **Amendment by Sponsor of Volume Submitter:**
- (a) The Sponsor reserves the right to amend the Plan from time to time on behalf of all adopting employers, including those Employers who have adopted the Plan prior to this amendment, for changes in the Code, regulations, revenue rulings, other statements published by the Internal Revenue Service, including model, sample or other required good faith amendments, but only if their adoption will not cause such Plan to be individually designed, and for corrections of prior approved plans. These amendments will be applied to all Employers who have adopted the plan and such amendments will comply with section 12.03 of Revenue Procedure 2013-22. The Mass Submitter, as agent for the Sponsor, shall have the right to unilaterally amend the Plan on behalf of the Sponsors of the Volume Submitter for purposes of any amendments mandated for changes in the Code, regulations, or other guidance issued from the IRS, Department of Labor or other government entity, as it may deem appropriate.
- Notwithstanding the paragraph above, if the amendment that is being made requires an election by the Employer, then the Sponsor will maintain, or have maintained on its behalf, a record of the Employers that have adopted the Plan, and the Sponsor will make reasonable and diligent efforts to ensure that adopting Employers have actually received and are aware of all Plan amendments and that such Employers adopt new documents when necessary. This amendment supersedes other provisions of the Plan to the extent those other provisions are inconsistent with this amendment.
- (b) The Sponsor may preselect options on the Adoption Agreements where necessary, from time to time. The Sponsor also reserves the right to amend the "Defaults" that are in the Adoption Agreements to reflect the administration of the plans, or to only permit certain options to be available to adopting Employers. The "Defaults" that may appear on the Adoption Agreements below certain items are not to be considered a part of the Plan and may be amended or removed at the discretion of the Employer, Sponsor, or Administrator.
- 10.05 **Amendment of Vesting Schedule:** If the Plan's vesting schedule is amended, or the Plan is amended in any way that directly or indirectly affects the computation of a Participant's nonforfeitable percentage, each Participant with at least 3 years of service with the Employer may elect, within a reasonable period after the adoption of the

amendment or change, to have the nonforfeitable percentage computed under the Plan without regard to such amendment or change. For Participants who do not have at least 1 Hour of Service in any Plan Year beginning after December 31, 1988, the preceding sentence shall be applied by substituting "5 Years of Service" for "3 Years of Service" where such language appears.

The period during which the election may be made shall commence with the date the amendment is adopted or deemed to be made and shall end on the latest of:

- (a) 60 days after the amendment is adopted;
- (b) 60 days after the amendment becomes effective; or
- (c) 60 days after the Participant is issued written notice of the amendment by the Employer or Administrator.

#### **Article XI – Miscellaneous and Administration of the Plan**

- 11.01 **Non-Assignability:** Except as provided in Section 10.02 and 10.03, the interests of each Participant or Beneficiary under the Plan are not subject to the claims of the Participant's or Beneficiary's creditors; and neither the Participant nor any Beneficiary shall have any right to sell, assign, transfer, or otherwise convey the right to receive any payments hereunder or any interest under the Plan, which payments and interest are expressly declared to be nonassignable and nontransferable.
- 11.02 **Domestic Relation Orders:** Notwithstanding Section 10.01, if a judgment, decree or order (including approval of a property settlement agreement) that relates to the provision of child support, alimony payments, or the marital property rights of a spouse or former spouse, child, or other dependent of a Participant is made pursuant to the domestic relations law of any State ("domestic relations order"), then the amount of the Participant's Account Balance shall be paid in the manner and to the person or persons so directed in the domestic relations order. Such payment shall be made without regard to whether the Participant is eligible for a distribution of benefits under the Plan. The Administrator shall establish reasonable procedures for determining the status of any such decree or order and for effectuating distribution pursuant to the domestic relations order.
- 11.03 **IRS Levy:** Notwithstanding Section 10.01, the payor or the Administrator, as applicable may pay from a Participant's or Beneficiary's Account Balance the amount that the Administrator finds is lawfully demanded under a levy issued by the Internal Revenue Service with respect to that Participant or Beneficiary or is sought to be collected by the United States Government under a judgment resulting from an unpaid tax assessment against the Participant or Beneficiary.
- 11.04 **Tax Withholding:** Contributions to the Plan are subject to applicable employment taxes (including, if applicable, Federal Insurance Contributions Act (FICA) taxes with respect to Elective Deferrals, which constitute wages under section 3121 of the Code). Any benefit payment made under the Plan is subject to applicable income tax withholding requirements (including section 3405 of the Code and the Employment Tax Regulations thereunder). A payee shall provide such information as the payor or the Administrator, if applicable may need to satisfy income tax withholding obligations, and any other information that may be required by guidance issued under the Code.
- 11.05 **Payments to Minors and Incompetents:** Subject to any State law requirements, if a Participant or Beneficiary entitled to receive any benefits hereunder is a minor or is adjudged to be legally incapable of giving valid receipt and discharge for such benefits, or is deemed so by the payor or the Administrator, if applicable, benefits will be paid to such person as the payor or the Administrator may designate for the benefit of such Participant or Beneficiary. Such payments shall be considered a payment to such Participant or Beneficiary and shall, to the extent made, be deemed a complete discharge of any liability for such payments under the Plan.
- 11.06 **Mistaken Contributions:** If any contribution (or any portion of a contribution) is made to the Plan by a good faith mistake of fact, then within one year after the payment of the contribution, and upon receipt in good order of a proper request approved by the Administrator, the amount of the mistaken contribution (not adjusted for any income but adjusted for loss in value, if any, allocable thereto) shall be returned directly to the Employer.
- 11.07 **Procedure When Distributee Cannot Be Located:** The Administrator shall make all reasonable attempts to determine the identity and address of a Participant or a Participant's Beneficiary entitled to benefits under the Plan. For this purpose, a reasonable attempt means (a) the mailing by certified mail of a notice to the last known address shown on the Employer's or the Administrator's records, (b) notification sent to the Internal Revenue Service, the Social Security Administration or the Pension Benefit Guaranty Corporation (under their respective programs to identify payees under retirement plans), and (c) the payee has not responded within 6 months. If the Administrator is unable to locate such a person entitled to benefits hereunder, or if there has been no claim made for such benefits, the funding vehicle shall continue to hold the benefits due such person.

- 11.08 **Plan Administration:** The Plan shall be administered, and the provisions of the various documents comprising the Plan shall be coordinated, in accordance with the terms of the Plan and the requirements of section 403(b) of the Code. These provisions and requirements (as outlined in the Administrative Appendix) include but are not limited to:
- (a) Determining whether an employee is eligible to participate in the Plan
  - (b) Determining whether contributions comply with the applicable limitations
  - (c) Determining whether hardship withdrawals and loans comply with applicable requirements and limitations
  - (d) Determining that any transfers, rollovers, or purchases of service credit comply with applicable requirements and limitations
  - (e) Determining that the requirements of the Plan and section 403(b) of the Code are properly applied, including whether the Employer is a member of a controlled group
  - (f) Determining the status of domestic relations orders or qualified domestic relations orders

Administrative functions, including functions to comply with section 403(b) of the Code and other tax requirements may be allocated among various persons pursuant to service agreements or other written documents, including the Administrative Appendix. However, in no case shall administrative functions be allocated to Participants (other than permitting Participants to make investment elections for self-directed accounts). Any administrative functions not allocated to other persons are reserved to the Employer.

In the event there is a conflict between the provisions of this Plan (including the Adoption Agreement) and the underlying Custodial Accounts and/or the Annuity Contracts, the provisions of this Plan shall govern.

- 11.09 **Responsibilities of Employer:** The Employer shall have the following responsibilities with respect to administration of the Plan:

- (a) The Employer shall make any Employer Contributions required under the Plan.
- (b) The Employer shall serve as Administrator of the Plan, unless the Employer designates in writing another person to administer the Plan on behalf of the Employer. The Employer may remove and reappoint a Plan Administrator from time to time in the Employer's discretion.
- (c) The Employer shall supply the Administrator in a timely manner with all information necessary for the Administrator to fulfill its responsibilities under the Plan, including Compensation of Participants and other pertinent facts.

- 11.10 **Responsibilities of Administrator:** The Administrator shall administer the Plan according to its terms for the exclusive benefit of Participants, former Participants, and their Beneficiaries in accordance with the following provisions:

- (a) The Administrator's responsibilities shall include, but shall not be limited to, the following:
  - (1) To determine all questions relating to the eligibility of Employees to participate or remain Participants hereunder.
  - (2) To maintain all records necessary for administration of the Plan.
  - (3) To interpret the provisions of the Plan and prepare and publish rules and regulations for the Plan.
  - (4) To comply with all reporting, disclosure, and notice requirements of the Code.
- (b) In order to fulfill its responsibilities, the Plan Administrator shall have all powers necessary or appropriate to accomplish its duties under the Plan, including the power to determine all questions arising in connection with the administration, interpretation, and application of the Plan. Any such determination shall be conclusive and binding upon all persons. However, all discretionary acts, interpretations, and constructions shall be done in a nondiscriminatory manner based upon uniform principles consistently applied.
- (c) In order to fulfill its responsibilities hereunder, the Administrator shall be specifically authorized to employ such agents, or attorneys, or contract for such assistance, as the Plan Administrator may from time to time deem necessary or advisable in connection with its responsibilities hereunder and to pay the fees, commission, or salaries incurred on account thereof as an expense of administration of the Plan. The Administrator is authorized to delegate administrative duties to the Custodian when not inconsistent with the terms of this Plan.
- (d) The Administrator shall serve as the designated agent for legal purposes under the Plan.

- 11.11 **Resignation and Removal of Administrator:** The Administrator may resign at any time by giving the Employer thirty (30) days prior written notice. The Employer may waive such notice. The Employer may remove the Administrator from office at any time by giving written notice to the Administrator, which removal shall be effective as of the date specified in the notice.
- 11.12 **Expenses of Administration:** All costs and expenses of administering this Plan shall be paid pursuant to the service agreement(s) entered into by the Employer. Expenses shall be paid: directly by the Employer; or where applicable, shall be paid pro rata or per capita from each Participant's Account; or where applicable shall be paid by the Vendors. Payment of such expenses shall not be considered to be Employer Contributions.
- 11.13 **Incorporation of Individual Agreements:** The Plan, together with the Individual Agreements, is intended to satisfy the requirements of section 403(b) of the Code and the Income Tax Regulations thereunder. Terms and conditions of the Individual Agreements are hereby incorporated by reference into the Plan, excluding those terms that are inconsistent with the Plan or section 403(b) of the Code.
- 11.14 **Governing Law:** The Plan will be construed, administered and enforced according to the Code and the laws of the State in which the Employer has its principal place of business.
- 11.15 **Headings:** Headings of the Plan have been inserted for convenience of reference only and are to be ignored in any construction of the provisions hereof.
- 11.16 **Gender:** Pronouns used in the Plan in the masculine or feminine gender include both genders unless the context clearly indicates otherwise.
- 11.17 **This Plan Is Not An Employment Contract:** Neither the adoption of the Plan by the Employer, nor any action of the Employer or the Administrator under this Plan, nor the establishment of any custodial account, nor the payment of any benefits, shall be construed to confer upon any person any legal right to be continued as an Employee of the Employer or any affiliated or related employer. All Employees shall be subject to discharge to the same extent as they would have been had this Plan never have been adopted.
- 11.18 **USERRA - Military Service Credit:** Notwithstanding any provision of this Plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with section 414(u) of the Internal Revenue Code. In addition, the survivors of any Participant who dies on or after January 1, 2007, while performing qualified military service, are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) that would have been provided under the Plan had the Participant resumed employment and then terminated employment on account of death.

#### **Article XII – Employer Contributions**

- 12.01 **Employer Contributions:** If the Adoption Agreement provides that this Plan shall accept Employer Contributions, then the following rules shall apply.
- (a) Unless otherwise elected by the Employer in the Adoption Agreement, Employer Contributions shall be an amount, if any, determined annually in the sole discretion of the Employer.
- (b) Post-Employment Employer Contributions shall follow the rules of Section 12.03.
- (c) Optional Retirement Plan (ORP) Provisions:
- (1) **General Application.** This Section 12.01(c) shall apply only if the Employer has indicated that it offers an Optional Retirement Program (ORP) on the Adoption Agreement and only if permitted under the Adoption Agreement being completed. Not all Adoption Agreements that accompany this Plan will permit this selection.
- (2) **Incorporation of ORP.** The ORP is established and governed by separate plan documentation which may include a plan document, statutory language and/or regulatory guidance. The terms and conditions of the ORP are incorporated herein by reference. If there is a conflict between the Plan and the requirements of the ORP, the ORP shall govern with respect to those provisions that are exclusive to the ORP. The Plan shall govern in all other circumstances.
- (3) **ORP Contributions.** Employer shall make contributions under the ORP to the Accounts of Participants that are also participating in the ORP in accordance with the terms of the ORP and/or as authorized by the

Employer on the Adoption Agreement. Unless otherwise provided by the ORP, such contributions shall be treated as Employer Contributions and are therefore subject to the requirements and limitations imposed by section 415(c) of the Code.

- (4) **Separate Accounting Requirements.** ORP contributions and withdrawals, including any earnings or losses thereon, shall be credited and debited to each participating Participant's Account and shall be separately accounted for under each Employee's Account.
  - (5) **Deposit Requirements.** ORP contributions shall be deposited with the applicable Funding Vehicles as soon as practicable in conformity with any requirements established in the ORP, or if applicable by the State law.
- (d) Supplemental 403(b) Contributions:
- (1) **General Application.** This Section 12.01(d) shall apply only if the Employer has indicated that it offers a Supplemental 403(b) Program on the Adoption Agreement and only if permitted under the Adoption Agreement being completed. Not all Adoption Agreements will permit this optional provision.
  - (2) **Incorporation of Supplemental 403(b) Program.** The Supplemental 403(b) Program is established and governed by a separate plan document. The Plan includes the Adoption Agreement and the document establishing the Supplemental 403(b) Program, as identified on the Adoption Agreement. If there is a conflict between the Plan and the Supplemental 403(b) Program document, the Supplemental 403(b) Program shall govern with respect to those provisions that are exclusive to the Supplemental Program. The Plan shall govern in all other circumstances.
  - (3) **Supplemental 403(b) Contributions.** Employer shall make contributions as required under the Supplemental 403(b) Contributions to the Accounts of Participants that are participating in the Supplemental 403(b) Program in accordance with the terms of the Supplemental 403(b) Program. Such contributions shall be subject to the appropriate annual contribution limitations based on the type of contribution required under the Supplemental 403(b) Program.
  - (4) **Separate Accounting Requirements.** Supplemental 403(b) Program contributions and withdrawals, including any earnings or losses thereon, shall be credited and debited to each participating Participant's Account and shall be separately accounted for under each Employee's Account.
  - (5) **Deposit Requirements.** Supplemental 403(b) Program Contributions shall be deposited with the applicable Funding Vehicles as soon as practicable in conformity with the Supplemental 403(b) Program document, or if applicable State law.
- (e) The Employer has evidenced its intent to adopt this Plan by executing the Adoption Agreement which is a part of this 403(b) Plan document. This Plan document, the Adoption Agreement, documents governing ORPs and Supplemental 403(b) Programs, as applicable, and any underlying Annuity Contracts and Custodial Accounts provided by the Vendors authorized by the Employer, as well as necessary forms and administrative policies and procedures incorporated by the Employer, an Administrator or any Funding Vehicle shall constitute the entire Plan.

#### 12.02 **Correction of Allocations:**

- (a) In the event that the Administrator learns that Employer allocations have not been made on behalf of an Employee for whom an allocation should have been made pursuant to the terms of this Plan, the Participant's account for such Employee shall be restored to its proper balance as soon as is reasonably possible.
- (b) In the event that the Administrator learns that contributions or allocations have been made on behalf of an Employee for whom allocations should not have been made pursuant to the terms of the Plan; and if such contributions were made pursuant to a mistake of fact, such contributions shall be returned to the Employer within one year of the contributions. Earnings attributable to the mistaken contribution shall not be returned to the Employer, but losses attributable to the mistaken contribution shall reduce the amount to be returned to the Employer.

#### 12.03 **Employer Contributions for former Employees:**

- (a) Includible compensation deemed to continue for post-employment Employer Contributions - For purposes of applying paragraph (b) of this section, a former Employee is deemed to have monthly includible compensation for the period through the end of the taxable year of the Employee in which he or she ceases to be an Employee and through the end of each of the next five taxable years. The amount of the monthly Includible Compensation is equal to one twelfth of the former Employee's Includible Compensation during the former Employee's most recent year of service. Accordingly, post-employment Employer Contributions for a former Employee must not exceed the limitation of section 415(c)(1) up to the lesser of the dollar amount in section 415(c)(1)(A) or the former Employee's annual Includible Compensation based on the former Employee's average monthly compensation during his or her most recent year of service.
- (b) If a Participant who is a former Employee dies during the first 5 calendar years following the date on which the Participant ceases to be an Employee, and Employer contributions are being made pursuant to this Section 12.03, then any additional contributions made after the death of the Participant or former Employee may not exceed the lesser of –
  - (1) The excess of the former Employee's Includible Compensation for the year of death over the contributions previously made for the former Employee for that year; or
  - (2) The total contributions that would have been made on the former Employee's behalf thereafter if he or she had survived to the end of the 5-year period.

12.04 **Service:** Service will be computed on the basis designated by the Employer in the Adoption Agreement. Except where specifically excluded under this section, all of an Employee's Years of Service will be taken into account for purposes of eligibility, including:

- (a) Years of Service for employment with an employer required to be aggregated with the Employer under section 414(b), (c), (m), or (o) of the Code;
- (b) Years of Service for an employee required under section 414(n) or 414(o) of the Code to be considered an employee of any employer aggregated with the Employer under section 414(b), (c), or (m) of the Code;
- (c) Years of Service with the predecessor Employer, if the Adoption Agreement allows and the Employer so specifies; and
- (d) Years of Service with the predecessor employer during the time a qualified plan was maintained, if the Adoption Agreement allows and the Employer so specifies. If the Employer maintains the Plan of a predecessor Employer, Service with such Employer will be treated as Service for the Employer.

12.05 **Eligibility Computation Periods:**

- (a) Hours of Service Method - If the Employer has specified in the Adoption Agreement that service will be credited on the basis of hours, days, weeks, semi-monthly payroll periods, or months, the initial eligibility computation period is the 12-consecutive month period beginning on the date the Employee first performs an Hour of Service for the Employer ("employment commencement date"). Pursuant to the Employer's election in the Adoption Agreement, the succeeding 12-consecutive month periods shall commence with either:
  - (1) the first anniversary of the Employee's employment commencement date; or
  - (2) the first Plan Year which commences prior to the first anniversary of the Employee's employment commencement date regardless of whether the Employee is entitled to be credited with 1,000 Hours of Service (or any lesser number specified by the Employer in the Adoption Agreement) during the initial eligibility computation period. An employee who is credited with 1,000 Hours of Service (or such lesser number specified by the Employer in the Adoption Agreement) in both the initial eligibility computation period and the first Plan Year which commences prior to the first anniversary of the Employee's initial eligibility computation period will be credited with two Years of Service for purposes of eligibility to participate.
- (b) Elapsed Time Method - If the Employer has specified in the Adoption Agreement (or if the Adoption Agreement default is) that service will be credited under the elapsed time method, an Employee will receive credit for the aggregate of all time periods commencing with the Employee's first day of employment or reemployment and ending on the date a Break in Service begins. The first day of employment or reemployment is the first day an Employee performs an Hour of Service. An Employee shall also receive credit for any Period of Severance of less than twelve consecutive months. Fractional periods of a year will be expressed in terms of days. For purposes of this paragraph, Hour of Service shall mean each hour for which an Employee is paid or entitled to payment for the performance of duties for the Employer.

- 12.06 **Use of Computation Periods:** Years of Service and Breaks in Service shall be measured on the same eligibility computation period.
- 12.07 **Eligibility Break in Service:** In the case of any Participant who has a 1-year Break in Service, years of eligibility service before such break will not be taken into account until the Employee has completed a Year of Service after returning to employment. Pursuant to the Employer's election in the Adoption Agreement, such Year of Service will be measured by the 12-consecutive month period beginning on an Employee's reemployment commencement date and, if necessary, either:
- (a) subsequent 12-consecutive month periods beginning on anniversaries of the reemployment commencement date; or
  - (b) Plan Years beginning with the Plan Year which includes the first anniversary of the reemployment commencement date. The reemployment commencement date is the first day on which the Employee is credited with an Hour of Service for the performance of duties after the first eligibility computation period in which the Employee incurs a one year Break in Service.
- If a Participant completes a Year of Service in accordance with this provision, his or her participation will be reinstated as of the reemployment commencement date.
- 12.08 **Entry into Plan:** Each Employee who is a member of an eligible class of employees specified in the Adoption Agreement will participate on the Entry Date selected by the Employer in the Adoption Agreement after such Employee has met the minimum age and service requirements, if any, in the Adoption Agreement.
- 12.09 **Participation upon Return to Eligible Class:** In the event a Participant is no longer a member of an eligible class of employees and becomes ineligible to participate but has not incurred a Break in Service, such Employee will participate immediately upon returning to an eligible class of employees. If such Participant incurs a Break in Service, eligibility will be determined under the Break in Service rules of the Plan.
- In the event an Employee who is not a member of an eligible class of employees becomes a member of an eligible class, such Employee will participate immediately if such Employee has satisfied the minimum age and service requirements and would have otherwise previously become a Participant.
- 12.10 **Participation during an Authorized Leave of Absence:** All contributions on behalf of the Participant shall be suspended, but membership in the Plan shall be deemed to be continuous, unless otherwise terminated, for the period of any Authorized Leave of Absence, provided that the Employee returns to work for the Employer upon completion of such Authorized Leave of Absence.
- 12.11 **Eligibility upon Reemployment:**
- (a) A former Participant will become a Participant immediately upon returning to the employ of the Employer if such former Participant had a nonforfeitable right to all or a portion of his accrued benefit attributable to Employer Contributions at the time of termination from service.
  - (b) For a former Participant who did not have a nonforfeitable right to any portion of his accrued benefit attributable to Employer Contributions or for a former Employee (other than an Employee required to complete more than one Year of Service in order to become eligible to participate in the Plan) who had not yet become a Participant at the time of termination from service, the Participant's Years of Service prior to the Break(s) in Service will be disregarded if the number of consecutive 1-year Breaks in Service equal or exceed the greater of five (5) or the aggregate number of Years of Service before such Breaks in Service.
  - (c) If an Employee is required to complete more than one Year of Service for in order to become eligible to participate in the Plan, and such an Employee incurs a 1-year Break in Service before satisfying the Plan's eligibility requirements, service prior to such 1-year Break in Service shall not be taken into account in the determination of the Employee's eligibility to participate in the Plan upon reemployment.
  - (d) A former Participant who's Years of Service before termination from service cannot be disregarded pursuant to Section 12.11(b) shall participate immediately upon reemployment.
  - (e) A former Employee who had met the eligibility requirements specified in the Adoption Agreement before termination from service but who had not become a Participant and who's Years of Service before termination from service cannot be disregarded pursuant to Section 12.11(b) will become a Participant as of the later of:
    - (1) his date of reemployment; or

- (2) the Entry Date next following his date of termination from service.
- (f) A former Employee (including a former Participant) who's Years of Service before termination from service can be disregarded pursuant to Section 12.11(b) will be treated as a new Employee for eligibility purposes and will be eligible to participate once he has met the requirements under the Plan following his most recent date of employment.

**12.12 Vesting and Forfeitures**

- (a) Each type of contribution made by the Employer on behalf of a Participant that is subject to a different vesting schedule will be credited to a separate bookkeeping account. Any portion of such account in which the participant is not vested shall be accounted for separately and treated as a contract to which section 403(c) (or another applicable provision under the Internal Revenue Code) applies.
- (b) Employee Contribution Accounts: A Participant's Elective Deferral Account, After-Tax Employee Contribution Account and Rollover/Transfer Account, and all earnings, appreciations, and additions thereto, less any losses, depreciation, and distributions allocable thereto, shall be fully vested and nonforfeitable at all times.
- (c) Employer Contribution Account: A Participant's Vested Percentage in his Employer Contribution Account shall be determined as follows:
  - (1) Death or Disability: A Participant's interest in his Employer Contribution Account shall become fully vested upon his death or Disability prior to Retirement Age.
  - (2) Termination of Employment: A Participant's Vested Percentage in his Employer Contribution Account shall be determined according to the vesting formula specified in the Adoption Agreement when the Participant terminates his employment.
  - (3) Plan Termination: A Participant's interest in his Employer Contribution Account shall become fully vested in the event of termination or partial termination (but only if the partial termination applies to the Participant) of this Plan.

**12.13 Vesting at Termination:** When a Participant's employment is terminated on account of retirement, death, disability, or otherwise, the Vested Percentage of his Employer Contribution Account (after all required adjustments thereto) shall be determined in accordance with this Article and the vesting formula specified in the Adoption Agreement as of termination of employment. The difference between the balance of the Participant's Employer Contribution Account and the Participant's Vested Percentage shall be forfeiture and shall be allocated pursuant to Section 12.15 below.

**12.14 Computation of Vested Account Balance:**

- (a) Service will be computed on the basis designated by the Employer in the Adoption Agreement. Except where specifically excluded under this Article XII, all of the Employee's Years of Service will be taken into account for purposes of vesting, including:
  - (1) Years of service for employment with an employer required to be aggregated with the Employer under section 414(b), (c), (m), or (o) of the Code;
  - (2) Years of Service for an employee required under section 414(n) or 414(o) of the Code to be considered any employee of any employer aggregated with the Employer under section 414(b), (c), or (m) of the Code;
  - (3) Years of Service with the predecessor Employer, if the Adoption Agreement allows and the Employer so specifies; and
  - (4) Years of Service with the predecessor employer during the time a qualified plan was maintained, if the Adoption Agreement allows and the Employer so specifies.
- (b) The Employer shall designate in the Adoption Agreement the period described in either (1) or (2) below as the Vesting Computation Period:
  - (1) For purposes of computing the Employee's nonforfeitable right to the account balance derived from Employer Contributions, Years of Service and Breaks in Service will be measured by the Plan Year.
  - (2) For purposes of determining Years of Service and Breaks in Service for purposes of computing an Employee's nonforfeitable right to the account balance derived from Employer Contributions, the 12-consecutive month period will commence on the date the Employee first performs an Hour of Service and each subsequent 12-consecutive month period will commence on the anniversary of such date.
- (c) In the case of a Participant who has incurred a 1-year Break in Service, Years of Service before such break will not be taken into account until the Participant has completed a Year of Service after such Break in Service.

- 12.15 **Forfeitures:** Notwithstanding the Employer's election in the Adoption Agreement, Forfeitures may be allocated as follows:
- (a) to restore Participant's Employer Contribution Accounts pursuant to the buy-back provisions of Section 12.18;
  - (b) used to pay any expenses of administration of the Plan; and/or
  - (c) used to make or reduce Employer Contributions required under the terms of the Plan.
- 12.16 **Forfeitures - Withdrawal of Employee Contributions:** No Forfeitures will occur solely as a result of an Employee's withdrawal of Employee Contributions.
- 12.17 **Vesting for Pre-Break and Post-Break Account:** In the case of a Participant who has 5 or more consecutive 1-year Breaks in Service, all service after such Breaks in Service will be disregarded for the purpose of vesting the employer-derived account balance that accrued before such Breaks in Service. Such Participant's pre-break service will count in vesting the post-break employer-derived account balance only if either:
- (a) such Participant has any nonforfeitable interest in the account balance attributable to Employer Contributions at the time of separation from service; or
  - (b) upon returning to service, the number of consecutive 1-year Breaks in Service is less than the number of Years of Service.
- Separate accounts will be maintained for the Participant's pre-break and post-break employer derived account balance. Both accounts will share in the earnings and losses of the fund..
- 12.18 **Buy-back:** If a former Participant is reemployed by the Employer before the former Participant incurs five consecutive 1-year Breaks in Service, and such former Participant has received a distribution of the entire Vested Percentage of his Employer Contribution Account prior to his reemployment, any forfeited amounts shall be reinstated only if he repays the full amount of his Employer Contribution Account distributed to him before he incurs five consecutive 1-year Breaks in Service after the date of the distribution. In the event the former Participant does repay the full amount distributed to him, his Employer Contribution Account balance will be restored to the amount on the date of distribution.

  - (b) **Deemed IRA contributions:** For purposes of this section, Deemed IRA contributions means any contribution (other than a mandatory contribution within the meaning of section 411(c)(2) of the Code) that is made by the Participant and which the Participant has designated, at or prior to the time of making the contribution, as a contribution to which this section applies.
  - (c) **Deemed IRA Participant:** Any Participant or Employee or group of Employees eligible to make Deemed IRA Contributions to the Plan.
  - (d) **IRA Trustee (or Custodian or Issuer):** The entity that provides the separate trust agreement, custodial agreement or annuity contract which the Participant executes to establish the IRA account. Throughout this document where IRA Trustee is mentioned, it shall also include an IRA Custodian; or if applicable an Issuer of the IRA Annuity Contract.
- 13.03 **Separate Accounting**

- (a) IRAs established pursuant to this Article XIII shall be held in a trust, custodial account or an annuity (as evidenced by the separate trust, custodial agreement or annuity contract established by the Participant and shall be separate from the Trust established under this Plan to hold contributions other than deemed IRA contributions and shall satisfy the applicable requirements of sections 408 and 408A of the Code, which requirements are set forth in sections 13.04 through 13.16 below.
  - (b) Separate records will be maintained for the interest of each Participant or Beneficiary.
- 13.04 **Individual's Interest is Nonforfeitable:** The interest of an individual in the balance in his or her Deemed IRA account is nonforfeitable at all times.
- 13.05 **Prohibited Investments:**
- (a) If the trust acquires collectibles within the meaning of Code § 408(m) after December 31, 1981, trust assets will be treated as a distribution in an amount equal to the cost of such collectibles.
  - (b) No part of the trust funds will be invested in life insurance contracts.
- 13.06 **Reporting Duties:**
- (a) The Trustee, Custodian or Issuer of the Deemed IRA shall be subject to the reporting requirements of section 408(i) of the Internal Revenue Code with respect to all Deemed IRAs that are established and maintained under the plan.
  - (b) The Trustee, Custodian or Issuer of a Deemed IRA shall furnish annual calendar-year reports concerning the status of the account and such information concerning required minimum distributions as is prescribed by the Commissioner of Internal Revenue.
- 13.07 **Non-Bank Trustee or Custodian:** If the Deemed IRA is held by a non-bank Trustee or Custodian, the non-bank Trustee or Custodian shall substitute another trustee or custodian if the non-bank Trustee or Custodian receives notice from the Commissioner of Internal Revenue that such substitution is required because it has failed to comply with the requirements of § 1.408-2(e) of the Income Tax Regulations.
- 13.08 **Traditional IRA Maximum Permissible Annual Contributions:**
- (a) Except in the case of a rollover contribution (as permitted by Internal Revenue Code §§ 402(c), 402(e)(6), 403(a)(4), 403(b)(8), 403(b)(10), 408(d)(3) and 457(e)(16)) or a contribution made in accordance with the terms of a Simplified Employee Pension (SEP) as described in § 408(k), no contributions will be accepted unless they are in cash, and the total of such contributions shall not exceed \$5,000 for any taxable year beginning in 2008 and years thereafter. After 2008, the limit will be adjusted by the Secretary of the Treasury for cost-of-living increases under Code § 219(b)(5)(D). Such adjustments will be in multiples of \$500.
  - (b) In the case of an individual who is 50 or older, the annual cash contribution limit is increased by \$1,000 for any taxable year beginning in 2006 and years thereafter.
  - (c) In addition to the amounts described in paragraphs (a) and (b) above, an individual may make additional contributions specifically authorized by statute – such as repayments of qualified reservist distributions, repayments of certain plan distributions made on account of federally declared disasters and certain amounts received in connection with the Exxon Valdez litigation.
  - (d) No contributions will be accepted under a SIMPLE IRA plan established by any employer pursuant to § 408(p). Also, no transfer or rollover of funds attributable to contributions made by a particular employer under its SIMPLE IRA plan will be accepted from a SIMPLE IRA, that is, an IRA used in conjunction with a SIMPLE IRA plan, prior to the expiration of the 2-year period beginning on the date the individual first participated in that employer's SIMPLE IRA plan.
  - (e) If this is an inherited IRA within the meaning of § 408(d)(3)(C), no contributions will be accepted.
- 13.09 **Roth IRA Maximum Permissible Annual Contributions:**
- (a) Except in the case of a qualified rollover contribution (as defined in (g) below) or a recharacterization (as defined in (f) below), no contribution will be accepted unless it is in cash and the total of such contributions to all the

individual's Roth IRAs for a taxable year does not exceed the applicable amount (as defined in (b) below), or the individual's compensation (as defined in (h) below), if less, for that taxable year. The contribution described in the previous sentence that may not exceed the lesser of the applicable amount or the individual's compensation is referred to as a "regular contribution." However, notwithstanding the preceding limits on contributions, an individual may make additional contributions specifically authorized by statute – such as repayments of qualified reservist distributions, repayments of certain plan distributions made on account of a federally declared disaster and certain amounts received in connection with the Exxon Valdez litigation. Contributions may be limited under (c) through (e) below.

- (b) Applicable Amount: The applicable amount is determined below:
- (1) If the individual is under age 50, the applicable amount is \$5,000 for any taxable year beginning in 2008 and years thereafter. After 2008, the \$5,000 amount will be adjusted by the Secretary of the Treasury for cost-of-living increases under Code §219(b)(5)(D). Such adjustments will be in multiples of \$500.
  - (2) If the individual is 50 or older, the applicable amount under paragraph (1) above is increased by \$1,000 for any taxable year beginning in 2006 and years thereafter.
- (c) Regular Contribution Limit. The maximum regular contribution that can be made to all the individual's Roth IRAs for a taxable year is the smaller amount determined under (1) or (2) below.
- (1) The maximum regular contribution is phased out ratably between certain levels of modified adjusted gross income in accordance with the following table:

| Filing Status                        | Full Contribution | Phase-out Range             | No Contribution   |
|--------------------------------------|-------------------|-----------------------------|-------------------|
| Single or Head of Household          | \$95,000 or less  | Between \$95,000-\$110,000  | \$110,000 or more |
| Joint Return or Qualifying Widow(er) | \$150,000 or less | Between \$150,000-\$160,000 | \$160,000 or more |
| Married- Separate Return             | \$0               | Between \$0-\$10,000        | \$10,000 or more  |

An individual's modified adjusted gross income ("modified AGI") for a taxable year is defined in Code § 408A(c)(3) and does not include any amount included in adjusted gross income as a result of a qualified rollover contribution. If the individual's modified AGI for a taxable year is in the phase-out range, the maximum regular contribution determined under this table for that taxable year is rounded up to the next multiple of \$10 and is not reduced below \$200. After 2006, the dollar amounts above will be adjusted by the Secretary of the Treasury for cost-of-living increases under Code § 408A(c)(3). Such adjustments will be in multiples of \$1,000.

- (2) If the individual makes regular contributions to both Roth and non-Roth IRAs for a taxable year, the maximum regular contribution that can be made to all of the individual's Roth IRAs for that taxable year is reduced by the regular contributions made to the individual's non-Roth IRAs for the taxable year.
- (d) SIMPLE IRA Limits: No contributions will be accepted under a SIMPLE IRA plan established by any employer pursuant to §408(p). Also, no transfer or rollover of funds attributable to contributions made by a particular employer under its SIMPLE IRA plan will be accepted from a SIMPLE IRA, that is, an IRA used in conjunction with a SIMPLE IRA plan, prior to the expiration of the 2-year period beginning on the date the individual first participated in that employer's SIMPLE IRA plan.
- (e) Inherited Roth IRA. If this is an inherited Roth IRA within the meaning of § 408(d)(3)(C), no contributions will be accepted.
- (f) Recharacterization. A regular contribution to a non-Roth IRA may be recharacterized pursuant to the rules in § 1.408A-5 of the regulations as a regular contribution to this Roth IRA, subject to the limits in (c) above.
- (g) Qualified Rollover Contribution. A "qualified rollover contribution" is a rollover contribution of a distribution from an eligible retirement plan described in § 402(c)(8)(B). If the distribution is from an IRA, the rollover must meet the requirements of Code § 408(d)(3), except the one-rollover-per-year rule of § 408(d)(3)(B) does not apply if the distribution is from a non-Roth IRA. If the distribution is from an eligible retirement plan other than an IRA, the rollover must meet the requirements of Code § 402(c), 402(e)(6), 403(a)(4), 403(b)(8), 403(b)(10), 408(d)(3) or 457(e)(16), as applicable. A qualified rollover contribution also includes (1) and (2) below.

- (1) All or part of a military death gratuity or service members' group life insurance ("SGLI") payment may be contributed if the contribution is made within 1 year of receiving the gratuity or payment. Such contributions are disregarded for purposes of the one-rollover-per-year rule under § 408(d)(3)(B).
  - (2) All or part of an airline payment (as defined in § 125 of the Worker, Retiree, and Employer Recovery Act of 2008 ("WRERA"), Pub. L. 110-458) received by certain airline employees may be contributed if the contribution is made within 180 days of receiving the payment, or such other dates as provided by the Treasury Department.
- (h) Compensation. For purposes of (a) above, compensation is defined as wages, salaries, professional fees, or other amounts derived from or received for personal services actually rendered (including, but not limited to commissions paid salesmen, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, and bonuses) and includes earned income, as defined in Code §401(c)(2) (reduced by the deduction the self-employed individual takes for contributions made to a self-employed retirement plan). For purposes of this definition, §401(c)(2) shall be applied as if the term trade or business for purposes of §1402 included service described in subsection (c)(6). Compensation does not include amounts derived from or received as earnings or profits from property (including but not limited to interest and dividends) or amounts not includible in gross income (determined without regard to §112). Compensation also does not include any amount received as a pension or annuity or as deferred compensation. The term "compensation" shall include any amount includible in the individual's gross income under §71 with respect to a divorce or separation instrument described in subparagraph (A) of §71(b)(2). In the case of a married individual filing a joint return, the greater compensation of his or her spouse is treated as his or her own compensation, but only to the extent that such spouse's compensation is not being used for purposes of the spouse making an IRA contribution. The term "compensation" also includes any differential wage payments as defined in §3401(h)(2).

**13.10 Deemed IRA Annuity Contract Requirements for Roth and Traditional IRAs:**

- (a) This contract is nontransferable by the individual.
- (b) Any refund of premiums (other than those attributable to excess contributions) will be applied, before the close of the calendar year following the year of the refund, toward the payment of future premiums or the purchase of additional benefits.
- (c) If the premium payments are interrupted, the contract will be reinstated at any date prior to maturity upon payment of a premium to the Company, and the minimum premium amount for reinstatement shall be determined by the underlying Individual Agreement of the Annuity Contract; however, the Issuer may at its option either accept additional future payments or terminate the contract by payment in cash of the then present value of the paid up benefit if no premiums have been received for two full consecutive policy years and the paid up annuity benefit at maturity would be less than \$20 per month.

**13.11 Required Minimum Distributions from a Traditional IRA:**

- (a) Notwithstanding any provision of this IRA to the contrary,
  - (1) The distribution of the individual's interest in the Deemed IRA Custodial Account shall be made in accordance with the requirements of Code §408(a)(6) and the regulations thereunder, the provisions of which are herein incorporated by reference. If distributions are made from an annuity contract purchased from an insurance company, distributions thereunder must satisfy the requirements of Q&A-4 of § 1.401(a)(9)-6 of the Income Tax Regulations, rather than paragraphs (b), (c) and (d) below and section 13.12. The required minimum distributions calculated for this IRA may be withdrawn from another IRA of the individual in accordance with Q&A-9 of § 1.408-8 of the Income Tax Regulations.
  - (2) The distribution of the individual's interest in the Deemed IRA Annuity Contract shall be made in accordance with the requirements of Code § 408(b)(3) and the regulations thereunder, the provisions of which are herein incorporated by reference. If distributions are not made in the form of an annuity on an irrevocable basis (except for acceleration), then distribution of the interest in the IRA (as determined under section 13.13(c) must satisfy the requirements of Code §408(a)(6) and the regulations thereunder, rather than paragraphs (b), (c) and (d) below and section 13.13.
- (b) The entire value or interest of the Deemed IRA Account of the individual for whose benefit the account is maintained will commence to be distributed no later than:

Petty cash funds will be established annually for the West Chester and Murrysville offices. Such funds will be used for the payment of properly itemized and documented purchases of nominal amounts and under conditions calling for immediate payment or emergency.

The Business Administrator will issue all petty cash funds. Each school building will be provided a \$100.00 petty cash fund.

Petty cash funds are school funds; and administrators and responsible employees will exercise prudent management, supervision and protection of the assigned funds.

The administrator of a school or area with a petty cash fund can designate an employee as a fund custodian to conduct bookkeeping and security duties.

Petty cash funds must be secured in the building in a locked moneybag or cabinet to avoid access by unauthorized individuals.

The fund custodian will complete and maintain each month a Disbursement of Petty Cash Form.

The fund custodian will annually submit all request forms and receipts and the completed Disbursement Of Petty Cash Forms for reconciliation to the Business Administrator by June 30.

### **Procedure**

The following procedure will be used for dispensing of petty cash funds:

1. The requestor must complete a Petty Cash Request Form, along with any supporting documents, and submit it to the Business Administrator.
2. All expenditures from petty cash must be approved by the fund custodian prior to withdrawal of funds.
3. Reimbursement will be made to an employee only upon submission of a valid receipt for the expenditure and verification with the request form.
4. The responsible employee will note the expenditure on the Disbursement of Petty Cash Form.
5. The responsible employee will retain all request forms and receipts until the end of the year or all the funds are used.
6. At all times, the request forms and receipts and cash count must equal the full amount of the fund.

Petty cash funds will not be used to circumvent the regular purchasing procedure.

No single purchase using petty cash will exceed fifty dollars (\$50.00), unless it is an emergency purchase.

Petty cash funds will not be used to accommodate the cashing of personal checks.

**Request for Replenishment Of Funds**

A request to replenish a petty cash fund can be made when at least fifty percent (50%) of the funds has been expended.

Upon depletion of the monies in a petty cash fund, the fund custodian will submit receipts, along with a request for additional funds.

After review of the submitted request and supporting documents will be issued.

No petty cash funds will be replenished after June 1 of the fiscal year.

The Board is responsible for employing an independent, certified public accountant to conduct an annual school audit.

When the Board decides to seek proposals for employment as the school auditor, the CEO is responsible for initiating the process. This process should be conducted at least once every three (3) years.

In cooperation with the Board, the CEO and/or Business Administrator will develop the required qualifications and criteria for the auditor's position.

The CEO and/or Business Administrator will advertise in appropriate media the availability of the position, state the required qualifications and criteria, and clarify the process for submitting proposals, including the timeline and contact employee.

The CEO and/or Business Administrator will receive the completed proposals and review each proposal, comparing the relative merits of alternative audit approaches, the hours required by staff levels to complete the various segments of the audit, as well as the experience of the assigned staff as appropriate for the type of audit desired.

The CEO and/or Business Administrator will complete an Evaluation Form for each submitted proposal that meets the stated qualifications and criteria.

### **Oral Presentations/Interviews**

During the evaluation process, the administration has the authority to request any one or all firms to make oral presentations. Such presentations may provide firms with an opportunity to clarify issues and answer questions regarding the firm's proposal. Not all firms may be asked to make an oral presentation.

At a presentation, school administrators may pose interview questions to the firm's representative about the proposal.

### **Final Selection**

Based on the total scores on the Evaluation Form, feedback from any oral presentation or interview, information received and opinion of the Business Administrator, the CEO will recommend an auditing firm to the Board for its approval.

The Board will approve the employment of an auditor at a public Board meeting and will execute a written contract that specifies the terms and conditions of employment.

- g. Significant project experiences and results.
- h. All records must be retrievable and available for programmatic or financial audit.

The Charter School shall provide the federal awarding agency, Inspectors General, the Comptroller General of the United States, and the pass-through entity, or any of their authorized representatives, the right of access to any documents, papers, or other Charter School records which are pertinent to the federal award. The Charter School shall also permit timely and reasonable access to the Charter School's personnel for the purpose of interview and discussion related to such documents.

Records shall be retained for a minimum of five (5) years from the date on which the final Financial Status Report is submitted, or as otherwise specified in the requirements of the federal award, unless a written extension is provided by the awarding agency, cognizant agency for audit, oversight agency for audit or cognizant agency for indirect costs.

If any litigation, claim or audit is started before the expiration of the standard record retention period, the records shall be retained until all litigation, claims or audits have been resolved and final action taken.

As part of the Records Management Plan, the Charter School shall maintain a records retention schedule, which shall delineate the record retention format, retention period and method of disposal.

The Records Management Plan shall include identification of staff authorized to access records, appropriate training, and preservation measures to protect the integrity of records and data.

The Charter School shall ensure that all personally identifiable data protected by law or regulations is handled in accordance with the requirements of applicable law, regulations, Board policy and administrative regulations.

### **Sub-Recipient Monitoring**

In the event that the Charter School awards sub-grants, the Charter School shall establish procedures to:

- a. Assess the risk of noncompliance.
- b. Monitor grant sub-recipients to ensure compliance with federal, state, and local laws and Board policy and procedures.
- c. Ensure the Charter School's record retention schedule addresses document retention on assessment and monitoring.

### **Compliance Violations**

Employees and contractors involved in federally funded programs and sub-recipients shall be made aware that failure to comply with federal law, regulations or terms and conditions of a federal award may result in the federal awarding agency or pass-through entity imposing additional conditions or terminating the award in whole or in part.

### **Cash Management – Federal Programs**

The Charter School receives payment from the Pennsylvania Department of Education (PDE) on a reimbursement basis. The Charter School may receive an advance of federal grant funds. The Charter School shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met.

#### **Payment Methods**

Reimbursements -

The Charter School will initially charge federal grant expenditures to nonfederal funds. The Business Administrator will request reimbursement for actual expenditures incurred under the federal grants monthly.

Such requests shall be submitted with appropriate documentation and signed by the requestor. Requests for reimbursements will be approved by the Business Administrator.

Reimbursement will be submitted on the appropriate form to the PDE portal. All reimbursements are based on actual disbursements, not on obligations. PDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the Charter School will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for PDE to review upon request. Reimbursements of actual expenditures do not involve interest calculations.

Advances -

When the Charter School receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the Charter School and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The Charter School shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the Charter School shall use existing resources available within a program before requesting additional advances. Such resources include program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds. (2 CFR Sec. 305(b)(5)).

The Charter School shall hold federal advance payments in insured, interest-bearing accounts.

The Charter School is permitted to retain for administrative expense up to \$500 per year of interest earned on federal grant cash balances. Regardless of the federal awarding agency, interest earnings exceeding \$500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using either Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(9))

Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned. Remittance of interest shall be responsibility of the Business Administrator.

### **Allowability of Costs – Federal Programs**

Expenditures must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

### **Delegation of Responsibility**

When determining how the Charter School will spend its grant funds, the Business Administrator will review the proposed cost to determine whether it is an allowable use of federal grant funds *before* obligating and spending those funds on the proposed good or service.

### **Allowability Determinations**

All costs supported by federal education funds must meet the standards outlined in Education Department General Administrative Regulations ("EDGAR"), 2 CFR Part 3474 and 2 CFR Part 200, Subpart E. The Business Administrator must consider these factors when making an allowability determination.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act (ESEA), or the Carl D. Perkins Career and Technical Education Act (Perkins)), along with accompanying program regulations, non-regulatory guidance and grant award notifications.

Restrictions in state and local rules or policy also must be considered. Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. Be Necessary and Reasonable for the performance of the federal award. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, reasonable means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

- Whether the cost is a type generally recognized as ordinary and necessary for the operation of the Charter School or the proper and efficient performance of the federal award.
- The restraints or requirements imposed by factors, such as: sound business practices; arm's-length bargaining; federal, state and other laws and regulations; and terms and conditions of the federal award.
- Market prices for comparable goods or services for the geographic area.
- Whether the individual incurring the cost acted with prudence in the circumstances considering responsibilities to the Charter School, its employees, its students, the public at large, and the federal government.
- Whether the Charter School significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award's cost. (2 CFR Sec. 200.404)

Whether a cost is necessary will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the Charter School can demonstrate that the cost addresses an existing need, and can prove it.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the federal award program.
  - Whether the cost is identified in the approved budget or application.
  - Whether there is an educational benefit associated with the cost.
  - Whether the cost aligns with identified needs based on results and findings from a needs assessment.
  - Whether the cost addresses program goals and objectives and is based on program data.
2. Allocable to the federal award. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405)
  3. Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.
  4. Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.
  5. Consistent treatment. A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
  6. Adequately documented. All expenditures must be properly documented.
  7. Be calculated in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in Part 200.
  8. Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such. Some federal program statutes require the nonfederal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.
  9. Be the net of all applicable credits. The term "applicable credits" refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

### **Selected Items of Cost**

Charter School personnel responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable, and also check state, Charter School and program-specific rules.

Any questions related to specific costs should be forwarded to the Business Administrator who shall consult with the school solicitor for clarification as appropriate.

### **Administration of Federal Funds – Type of Costs, Obligations and Property Management**

The Charter School establishes and maintains Board policies, administrative regulations and procedures on administration of federal funds in federal programs as required by the Uniform Grant Guidance and other federal, state and local laws, regulations and requirements. The Charter School's financial management system includes internal controls and grant management standards in the following areas.

### **Direct and Indirect Costs**

Direct costs – costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs – costs incurred for a common or joint purpose benefiting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs. (2 CFR Sec. 200.405, 200.413)

Identification with the federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs.

Direct and indirect costs shall be determined in accordance with law, regulations, the terms and conditions of the federal award, and the Charter School's negotiated indirect cost rate.

The Charter School shall develop an indirect cost rate proposal and cost allocation plan in accordance with law, regulations and the terms and conditions of the federal award.

### **Timely Obligation of Funds**

Obligations – orders placed for property and services, contracts and sub-awards made, and similar transactions during a given period that require payment by the Charter School during the same or a future period.

All obligations must occur between the beginning and ending dates of the federal award project, which is known as the period of performance. The period of performance is dictated by law and regulations and will be indicated in the federal award. Specific requirements for carryover funds may be specified in the federal award and must be adhered to by the Charter School. (2 CFR Sec. 200.77, 200.309)

The Charter School will handle obligations and carry over of state-administered and direct grants in accordance with state and federal law and regulations, and the terms and conditions of the federal award. Carryover will be calculated and documented by the Business Administrator.

The Charter School may exercise an extension of the period of performance under a direct grant in accordance with law, regulations and the terms and conditions of the federal award when written notice is provided to the federal awarding agency at least ten (10) calendar days prior to the end of the period of performance. (2 CFR Sec. 200.308(d)(2))

The CEO along with the Business Administrator will decide when an extension of the period of performance is necessary and will recommend that the Board approve this process.

The CEO along with the Business Administrator will develop the required written notice, including the reasons for the extension and revised period of performance; the notice will be issued no later than ten (10) calendar days prior to the end of the currently documented period of performance in the federal award.

The Charter School must seek approval from the federal awarding agency for an extension of the period of performance when the extension is not contrary to federal law or regulations, and the following conditions apply:

- a. The terms and conditions of the federal award prohibit the extension;
- b. The extension requires additional federal funds; or
- c. The extension involves any change in the approved objectives or scope of the project. (2 CFR Sec. §200.308)

The CEO along with the Business Administrator will determine when an extension must be requested for approval by the federal awarding agency, draft the written request and notify the Board of the requested extension.

## **Management of Property Acquired With Federal Funds**

### Contract and Purchasing Administration -

The Charter School maintains internal controls, administrative regulations and procedures to ensure that contractors deliver goods and services in accordance with the terms, conditions and specifications of the designated contract, purchase order or requisition.

### Property Classifications -

Property shall be classified as equipment, supplies, computing devices and capital assets as defined and specified in accordance with law, regulations and Board policy.

### Inventory Control/Management -

All property purchased with federal funds, regardless of cost, will be inventoried as a safeguard.

Inventory will be received by the department or program requesting the item; designated staff will inspect the property, compare it to the applicable purchase order or requisition, and ensure it is appropriately logged and tagged in the Charter School's property management system.

Items acquired will be physically labeled by source of funding and acquisition date.

Inventory records of equipment and computing devices must be current and available for review and audit, and include the following information:

- a. Description of the item, including any manufacturer's model number.
- b. Manufacturer's serial number or other identification number.
- c. Identification of funding source.
- d. Acquisition date and unit cost.
- e. Source of items, such as company name.
- f. Percentage of federal funds used in the purchase.
- g. Present location, use, condition of item, and date information was reported.
- h. Pertinent information on the ultimate transfer, replacement or disposition of the item and sale price of the property.

Inventory will be updated as items are sold, lost or stolen, or cannot be repaired, and new items are purchased.

### Physical Inventory -

Physical inventory of property will be completed by designated Charter School staff in accordance with applicable federal and state law and regulation and Board policy.

The physical inventory of items will be conducted annually, and the results will be reconciled with the inventory records and reported to the federal awarding agency.

### Maintenance -

The Charter School establishes adequate maintenance procedures to ensure that property is maintained in good condition in accordance with law, regulation and Board policy.

### Safeguards -

The Charter School ensures that adequate safeguards are in place to prevent loss, damage or theft of property:

- a. Any loss, damage or theft will be reported to the CEO and investigated and fully documented, and may be reported to local law enforcement.
- b. If stolen items are not recovered, the Charter School will submit copies of the investigative report and insurance claim to the federal awarding agency.
- c. The Charter School may be responsible for replacing or repairing lost, damaged, destroyed or stolen items.
- d. Replaced equipment is property of the originally funded program and should be inventoried accordingly.

- e. Charter School property may only be loaned in accordance with Board policy and administrative regulations.

#### Disposition of Property Acquired with Federal Funds –

When the Charter School determines that equipment or supplies acquired under a federal award are no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the Principal will contact the federal awarding agency or pass-through entity administering the program to obtain disposition instructions, based on the fair market value of the equipment or supplies.

Generally, items with a fair market value of \$5,000 or less that are no longer effective may be retained, sold, purged, or transferred to the Charter School. For items with a fair market value greater than \$5,000, the federal awarding agency is entitled to the federal share of the current market value or sales proceeds.

If the Charter School will be replacing the equipment or supplies, the Charter School may use the existing equipment or supplies as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.

The Business Administrator will be responsible for contacting the federal awarding agency and determining the process for disposition of equipment or supplies.

The Charter School may use the following methods in disposing of unnecessary equipment or supplies acquired with federal funds:

- a. Public auction and/or online sale – generally conducted by a licensed auctioneer.
- b. Salvage – scrap sold to local dealers.
- c. Negotiated sale – normally used when disposing of items of substantial value.
- d. Sealed bid – normally used for items of substantial value or unique qualities.
- e. Pre-priced sale – large quantities of obsolete or surplus equipment or supplies may be sold by this method.
- f. Donation to charitable organizations, for equipment or supplies with little to no value.
- g. Disposition to trash for equipment or supplies with no value.

The Business Administrator will be responsible for maintaining records of obsolete and surplus property disposed of, and will report to the federal awarding agency when required.

### **Procurement – Federal Programs Policy Attachment**

#### **Responsibility for Purchasing**

The Board of Trustees of the Charter School has outlined standard purchasing responsibilities, methods of purchasing, price quotations and bid requirements in the following Board policies and their accompanying administrative regulations or procedures:

Disqualification, Suspension Or Debarment Of Bidders Policy  
 Internal Controls Policy  
 Payment of Claims Policy  
 Purchases Subject to Bid Policy  
 Purchases Budgeted Policy

#### **Purchase Methods**

When a request for purchase of equipment, supplies or services has been submitted and approved as outlined below, the procurement method to be used will be determined based on the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in the Purchases Subject to Bid Policy must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply, so as to comply with both state and federal requirements. Final determination of which purchasing procedures are to be applied is delegated to the Business Administrator under the authority of the Board.

### **Standard Procurement Documents and Purchase Request Process**

The Charter School shall use purchase orders or requisition order forms for purchase requests in accordance with the applicable purchase method. The Charter School shall use paper and/or electronic purchasing records, which are pre-numbered and are accessible to designated purchasing staff in the Charter School main office.

Purchase requests by an employee must be submitted to the Principal. Purchase of all budgeted items or items approved by the CEO must be initiated by use of a purchase order or requisition submitted to the Business Administrator.

Purchase orders and requisitions shall contain information including, but not limited to:

1. Description of the services to be performed or goods to be delivered.
2. Location of where services will be performed or goods will be delivered.
3. Appropriate dates of service or delivery.

Documentation on purchase orders and requisitions shall be maintained in accordance with the Charter School's Records Management Policy and records retention schedule.

Contracts shall be reviewed by the CEO prior to submission to the Board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

### **Micro-Purchases Not Requiring Quotes or Bidding (up to \$10,000)**

For purposes of this procedure, micro-purchase means a purchase of equipment, supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of \$10,000. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$10,000.

The micro-purchase method is used in order to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of equipment, supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

The micro-purchase maximum for federal purposes is lower than the amount below which the PA Procurement Law allows purchase for non-federal purposes to be made without obtaining at least three written or telephonic quotes or using formal competitive bidding.

To the extent practicable, the Charter School distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices and other terms. The Business Administrator will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the Charter School considers the price to be reasonable. The Charter School will maintain evidence of this reasonableness in the records of all micro-purchases. Reasonable means that sound business practices were followed and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

### **Small Purchase Procedures (between \$10,000 and \$20,600)**

For purposes of this procedure, small purchase procedures are those relatively simple and informal procurement methods for securing equipment, services, or supplies that cost more than the amount qualifying as a micro-purchase and do not cost \$20,600 or more. Small purchase procedures cannot be used for purchases of equipment or supplies or for construction, repair or maintenance services costing \$20,600 or more because the School Code requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law is adjusted for inflation annually, and the amount most recently established and published in the Pennsylvania Bulletin shall apply if other than \$20,600. (24 P.S. Sec. 120)

Because state law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding is required (\$250,000).

If small purchase procedures are used, written or telephonic price or rate quotations are obtained from at least three (3) qualified sources and records of quotes are maintained.

### **Formal Competitive Bidding (\$20,600 or more)**

Publicly Solicited Sealed Competitive Bids:

For purchases of equipment or supplies, or of services for construction, maintenance or repairs of school facilities, sealed competitive bids are publicly solicited and awarded to the lowest responsive and responsible bidder when the total cost is estimated to be \$20,600 or more.

State law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding will be used when the estimated total cost will be at or over the federal threshold of \$250,000.

The federal competitive bidding dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

For procurement of services costing at or over the \$250,000 federal threshold other than for construction, maintenance, or repairs on facilities, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

### **Competitive Proposals**

State law does not require public school entities to solicit competitive bids for services other than construction, repairs or maintenance of school facilities, for which competitive bidding is required if the cost will be a base amount of \$20,600 or more. State law allows competitive proposals relating to work on facilities in lieu of bidding only in the context of guaranteed energy savings contracts.

Federal regulations allow the use of competitive proposals as an alternative when formal bidding would otherwise be required only to procure architectural and engineering services. Other types of services for federally funded purposes to which the Uniform Grant Guidance applies, professional or otherwise, must be procured using competitive bidding when the cost would meet or exceed the federal threshold for competitive bidding (\$250,000).

In the case of services other than for construction, repairs or maintenance of school facilities costing less than that threshold, the Charter School may use small purchase procedures or micro- purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Board policy for the acquisition of services other than for construction, repairs or maintenance of school facilities, and can be used if the total cost will be less than \$250,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The Charter School shall comply with other applicable state and federal law and

regulations, Board policy and administrative regulations regarding purchasing; the Charter School may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

- a. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
- b. Proposals must be solicited from an adequate number of qualified sources.
- c. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

Competitive proposals shall be evaluated by the CEO based on factors including but not limited to:

- a. Cost.
- b. Experience of contractor.
- c. Availability.
- d. Personnel qualifications.
- e. Project management expertise.
- f. Understanding of Charter School needs.

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the Board.

### **Contract/Price Analysis**

The Charter School performs a cost or price analysis in connection with every procurement action in excess of \$250,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the Business Administrator must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the Business Administrator will enact established business practices which may include evaluation of similar prior procurements and a review process.

When performing a cost analysis, the Business Administrator negotiates profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

### **Negotiated Profit**

In any procurement in which there has been no price competition, or in which a cost-analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals or quotes shall require that bids, proposals, or quotes be limited to costs other than profit, and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR §200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the CEO.

### **Noncompetitive Proposals**

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An emergency exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the Charter School.
4. After solicitation of a number of sources, the Charter School determines the competition is inadequate.

In addition to standard procurement policy and procedures, the Charter School will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the Business Office.

All noncompetitive proposals will ultimately be approved by the Board. The Charter School may utilize legal advice from the solicitor regarding noncompetitive proposals.

A cost or price analysis will be performed for noncompetitive proposals when the price exceeds \$250,000.

### **Full and Open Competition**

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.
4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

The Education Department General Administrative Regulations further requires the following to ensure adequate competition.

### **Minority Businesses, Women's Business Enterprises, Labor Surplus Area Firms**

The Charter School must take necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women's business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises.

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

### **Geographical Preferences Prohibited**

The Charter School must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

### **Prequalified Lists**

The Charter School must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the Charter School must not preclude potential bidders from qualifying during the solicitation period.

### **Solicitation Language**

The Charter School must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

### **Avoiding Acquisition of Unnecessary or Duplicative Items**

The Charter School must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds.

### **Use of Intergovernmental Agreements and Cooperative Purchasing**

To foster greater economy and efficiency, the Charter School enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act and the Commonwealth Procurement Code. (53 Pa. C.S. Ch. 23; 62 Pa. C.S. Ch. 19)

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the Charter School shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable requirements and standards of the Uniform Grant Guidance as outlined in this procedure.

### **Use of Federal Excess and Surplus Property**

The Charter School considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

### **Debarment and Suspension**

The Charter School awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The Charter School may not subcontract with or award sub-grants to any person or company who is debarred or suspended. For all contracts over \$25,000 the Charter School verifies that the contractor with whom the Charter School intends to do business is not excluded or disqualified.

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The Business Administrator will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

### **Maintenance of Procurement Records**

The Charter School must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by Board policy relating to Records Management and established administrative regulations.

### **Time and Materials Contracts**

The Charter School may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the Charter School is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

The Charter School must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

### **Settlements of Issues Arising Out of Procurements**

The Charter School alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the Charter School of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

### **Protest Procedures to Resolve Dispute**

The Charter School maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, established Charter School administrative regulations and the advice of the solicitor.

### **Food Service Program Notes**

#### *Exemption from Bidding for Perishable Food Items -*

The School Code exempts purchases of perishable food items from bidding requirements. Bidding for perishable food items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required (\$250,000). Small purchase procedures may be used for purchases below \$250,000, or micro-purchase procedures for purchases below \$10,000. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.(24 P.S. Sec. 504(d))

#### *Geographic Preferences -*

The Charter School is permitted to apply a geographic preference when procuring unprocessed locally grown or locally raised agricultural products. When a geographic preference is applied, the Charter School has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

*Buy American -*

The Charter School shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes.

*Mandatory Contract Clauses -*

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;
2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or (b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;
3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;
4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

*Contracts with Food Service Management Companies -*

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

*Pre-Plated Meals -*

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)

The above thresholds are updated as of 2018. The micro-purchase threshold and simplified acquisition threshold may be periodically adjusted for inflation. See 2 CFR §200.67. Changes in these thresholds are required to be published in the Federal Register.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Allowability of Costs – Federal Programs**

Expenditures must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

### **Delegation of Responsibility**

When determining how the school will spend its grant funds, the Federal Programs Coordinator will review the proposed cost to determine whether it is an allowable use of federal grant funds before obligating and spending those funds on the proposed good or service.

### **Allowability Determinations**

All costs supported by federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474 and 2 CFR Part 200, Subpart E, which are listed below. The Federal Programs Coordinator must consider these factors when making an allowability determination. A section entitled, Helpful Questions for Determining Whether Costs are Allowable, is located at the end of this document.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act ("ESEA"), or the Carl D. Perkins Career and Technical Education Act ("Perkins"), along with accompanying program regulations, non regulatory guidance and grant award notifications.

Restrictions in state and local rules or policy also must be considered. For example, travel and other job-related expenses incurred by employees are not allowable unless they also are in compliance with Board Policy 3031 (Job Related Expenses) and related administrative regulations, including but not limited to, Board Policy 3031-AR-1 (Job Related Travel Expenses).

Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. Be Necessary and Reasonable for the performance of the federal award. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, reasonable means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

- Whether the cost is a type generally recognized as ordinary and necessary for the operation of the school or the proper and efficient performance of the federal award.

- The restraints or requirements imposed by factors, such as: sound business practices; arm's-length bargaining; federal, state and other laws and regulations; and terms and conditions of the federal award.
- Market prices for comparable goods or services for the geographic area.
- Whether the individual incurring the cost acted with prudence in the circumstances considering responsibilities to the district, its employees, its students, the public at large, and the federal government.
- Whether the school significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award's cost. (2 CFR Sec. 200.404)

Whether a cost is necessary will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the school can demonstrate that the cost addresses an existing need, and can prove it. For example, the school entity may deem a language skills software program necessary for a limited English proficiency program.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the federal award program.
  - Whether the cost is identified in the approved budget or application.
  - Whether there is an educational benefit associated with the cost.
  - Whether the cost aligns with identified needs based on results and findings from a needs assessment.
  - Whether the cost addresses program goals and objectives and is based on program data.
2. Allocable to the federal award. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405) For example, if fifty percent (50%) of a teacher's salary is paid with grant funds, then that teacher must spend at least fifty percent (50%) of their time on the grant program.
  3. Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.
  4. Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.
  5. Consistent treatment. A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
  6. Adequately documented. All expenditures must be properly documented.
  7. Be calculated in accordance with generally accepted accounting principles ("GAAP"), unless provided otherwise in Part 200.
  8. Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such. Some federal program statutes require the non-federal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.
  9. Be the net of all applicable credits. The term "applicable credits" refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

### **Selected Items of Cost**

Subpart E of Part 200 sets forth principles to be applied in establishing the allowability of fifty-five (55) specific cost items (commonly referred to as Selected Items of Cost), at 2 CFR Sec. 200.420-200.475. These specific cost items are listed in the chart below along with the citation to the section of Subpart E addressing the allowability of that item. These principles are in addition to the other general allowability standards, and apply whether or not a particular item of cost is properly treated as direct cost or indirect (F&A) cost. Meeting the specific criteria for a listed item does not by itself mean the cost is allowable, as it may be unallowable under other standards or for

other reasons, such as restrictions contained in the terms and conditions of a particular grant or restrictions established by the state or in Board policy. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.

School personnel responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable, and also check state, Charter School, and program-specific rules.

The selected item of cost addressed in Part 200 includes the following (in alphabetical order):

| <b>Item of Cost</b>                                                                                 | <b>Citation of Allowability Rule</b> |

It is possible for the state and/or Charter School to put additional requirements on a specific item of cost. Under such circumstances, the stricter requirements must be met for a cost to be allowable.

#### **Helpful Questions for Determining Whether Costs are Allowable -**

In addition to applying the cost principles and standards described above, school staff involved in expending federal funds should ask the following questions when assessing the allowability of a particular cost:

1. Is the proposed cost allowable under the relevant program?
2. Is the proposed cost consistent with an approved program plan and budget?
3. Is the proposed cost consistent with program specific fiscal rules? For example, the school entity may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources, or only as a match for funds from non-federal sources.
4. Is the proposed cost consistent with EDGAR?
5. Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?
6. Is the proposed cost consistent with the underlying needs of the program? For example, program funds must benefit the appropriate population of students for which they are allocated. This means that, for

instance, funds allocated under Title III of the Elementary and Secondary Education Act (ESEA) governing language instruction programs for Limited English Proficient (LEP) students must only be spent on LEP students and cannot be used to benefit non-LEP students.

7. Will the cost be targeted at addressing specific areas of weakness that are the focus of the program, as indicated by available data?

Any questions related to specific costs should be forwarded to the Business Administrator who shall consult with the school solicitor for clarification as appropriate.

Generally, the school receives payment from the Pennsylvania Department of Education (PDE) on a reimbursement basis. In some circumstances, the school may receive an advance of federal grant funds. This attachment addresses responsibilities of the school and school staff under those alternative payment methods. In either case, the school shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met.

#### Payment Methods

##### Reimbursements -

The Business Administrator will request reimbursement for actual expenditures incurred under the federal grants quarterly.

Requests shall be submitted with appropriate documentation and signed by the requestor. Requests for reimbursements will be approved by the Federal Programs Coordinator.

Reimbursement will be submitted on the appropriate form to the PDE portal. All reimbursements are based on actual disbursements, not on obligations. PDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the school will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for PDE to review upon request.

Reimbursements of actual expenditures do not involve interest calculations.

##### Advances -

When the school receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the school and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The school shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the school shall use existing resources available within a program before requesting additional advances. Such resources include program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds. (2 CFR Sec. 305(b)(5))

The school shall hold federal advance payments in insured, interest-bearing accounts.

The school is permitted to retain for administrative expense up to \$500 per year of interest earned on federal grant cash balances. Regardless of the federal awarding agency, interest earnings exceeding \$500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using either Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(9))

Pursuant to federal guidelines, interest earnings shall be calculated from the date that the federal funds are drawn down from the G5 system until the date on which those funds are disbursed by the district. Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned.

Remittance of interest shall be responsibility of the Business Administrator.

This document is intended to integrate standard school purchasing procedures with additional requirements applicable to procurements that are subject to the federal Uniform Grant Guidance regulations. The school maintains the following purchasing procedures, in accordance with federal and state laws, regulations and Board policy. (2 CFR 200.318-200.325; 7 CFR 210.16, 210.19, 210.21, 215.14a, 220.16; 24 P.S. 120, 24 P.S. 504, 24 P.S. 508, 24 P.S. 521, 24 P.S. 607, 24 P.S. 609, 24 P.S. 751, 24 P.S. 807.1; 62 Pa. C.S.A. 4601 et seq; Pol. 610, 611, 612, 613, 808)

Responsibility for Purchasing

The Board has outlined standard school purchasing responsibility, methods of purchasing, price quotations and bid requirements in the following Board policies and their accompanying administrative regulations or procedures:

|               |                                    |
|---------------|------------------------------------|

| AR 4010-AR-1. | Purchases Subject to Bid           |
| Policy 4011.  | Purchases Budgeted                 |
| Policy 4012.  | Purchases Not Budgeted Policy      |
| Policy 4013.  | Cooperative Purchasing             |

Purchase Methods

When a request for purchase of equipment, supplies or services has been submitted and approved as outlined below, the procurement method to be used will be determined based on the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy 4010 must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply, so as to comply with both state and federal requirements. Final determination of which purchasing procedures are to be applied is delegated to the Business Administrator under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The school shall use purchase orders for purchase requests in accordance with the applicable purchase method.

The school shall use electronic purchasing records, which are pre-numbered and are accessible to designated purchasing staff in the Business Office.

Purchase requests by an employee must be submitted to the administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the Business Administrator.

Purchase orders and requisitions shall contain information including, but not limited to:

1. Description of the services to be performed or goods to be delivered.
2. Location of where services will be performed or goods will be delivered.
3. Appropriate dates of service or delivery.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Records Management Policy and records retention schedule. (Pol. 6000, 6000-AR-1, 6000-AR-2, 6000-AR-3, 6000-AR-4)

Contracts shall be reviewed by the Business Administrator and school solicitor prior to submission to the Board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

#### Micro-Purchases Not Requiring Quotes or Bidding (up to \$3,500)

For purposes of this procedure, **micro-purchase** means a purchase of equipment, supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of \$3,500. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$3,500.(48 CFR Subpart 2.1)

Note: The micro-purchase maximum for federal purposes is lower than the amount below which the School Code allows purchase for nonfederal purposes to be made without obtaining at least three (3) written or telephonic quotes or using formal competitive bidding.

The micro-purchase method is used in order to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of equipment, supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the school distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices and other terms. The Business Administrator will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the school considers the price to be reasonable. The school will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

#### Small Purchase Procedures (between \$3,500 and \$19,400)

For purposes of this procedure, **small purchase procedures** are those relatively simple and informal procurement methods for securing equipment, services, or supplies that cost more than the amount qualifying as a micro-purchase and do not cost \$19,400 or more. Small purchase procedures cannot be used for purchases of equipment or supplies or for construction, repair or maintenance services costing \$19,400 or more because the School Code requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law is adjusted for inflation annually, and the amount most recently established and published in the Pennsylvania Bulletin shall apply if other than \$19,400. (24 P.S. Sec. 120)

Because state law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding is required (\$150,000).

If small purchase procedures are used, written or telephonic price or rate quotations are obtained from at least three (3) qualified sources and records of quotes are maintained as provided in Policy 4010. (Pol. 4010)

#### Formal Competitive Bidding (\$19,400 or more)

#### Publicly Solicited Sealed Competitive Bids:

For purchases of equipment or supplies, or of services for construction, maintenance or repairs of school facilities, sealed competitive bids are publicly solicited and awarded to the lowest responsive and responsible bidder as provided in Policy 4010 when the total cost is estimated to be \$19,400 or more. (Pol. 4010)

Note: The amount at which formal competitive bidding is required by federal regulations is much higher than the base amount at which the School Code requires competitive bidding. Therefore, the lower base amount specified by the School Code, as annually adjusted, is used to determine when bidding will be used for purchases of equipment or supplies, or for obtaining services for construction, maintenance or repairs on school facilities. (24 P.S. Sec. 120)

State law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding will be used when the estimated total cost will be at or over the federal threshold of \$150,000.

The federal competitive bidding dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

#### Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than construction, repairs or maintenance of school facilities, for which competitive bidding is required if the cost will be a base amount of \$19,400 or more. State law allows competitive proposals relating to work on facilities in lieu of bidding only in the context of guaranteed energy savings contracts.

Federal regulations allow the use of competitive proposals as an alternative when formal bidding would otherwise be required only to procure architectural and engineering services. Other types of services for federally funded purposes to which the Uniform Grant Guidance applies, professional or otherwise, must be procured using competitive bidding when the cost would meet or exceed the federal threshold for competitive bidding (\$150,000).

In the case of services other than for construction, repairs or maintenance of school facilities costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy 4010 for the acquisition of services other than for construction, repairs or maintenance of school facilities, and can be used if the total cost will be less than \$150,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and

reasonable compensation. The school shall comply with other applicable state and federal law and regulations, Board policy and administrative regulations regarding purchasing; the school may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

Competitive proposals shall be evaluated by the Business Administrator based on factors including but not limited to:

1. Cost.
2. Experience of contractor.
3. Availability.
4. Personnel qualifications.
5. Financial stability.
6. Minority business, women's business enterprise, or labor surplus area firm status.
7. Project management expertise.
8. Understanding of the school's needs.
9. Prior experience with the school.

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the Chief Executive Officer and Business Administrator.

Contract/Price Analysis:

The school performs a cost or price analysis in connection with every procurement action in excess of \$150,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the Business Administrator must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the Business Administrator will enact established business practices which may include evaluation of similar prior procurements and a review process.

When performing a cost analysis, the Business Administrator negotiates profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

Noncompetitive Proposals (Sole Sourcing).

**Procurement by noncompetitive proposals** means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.

4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the school will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the Business Office.

All noncompetitive proposals will ultimately be approved by the Board. The school may utilize legal advice from the solicitor regarding noncompetitive proposals.

A cost or price analysis will be performed for noncompetitive proposals when the price exceeds \$150,000.

#### Purchase Cards

The school approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs. The use of procurement cards is governed by the Procurement Card Manual.

#### Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.
4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

EDGAR further requires the following to ensure adequate competition.

#### Minority Businesses, Women's Business Enterprises, Labor Surplus Area Firms

The school must take necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women's business enterprises on solicitation lists.

2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

#### Geographical Preferences Prohibited

The school must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

#### Prequalified Lists

The school must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the school must not preclude potential bidders from qualifying during the solicitation period.

#### Solicitation Language

The school must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

#### Avoiding Acquisition of Unnecessary or Duplicative Items

The school must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure attached to Administrative Rule 4020-AR-1 Allowability of Costs – Federal Programs.

#### Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the school enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act and the Commonwealth Procurement Code. (53 Pa. C.S. Ch. 23; 62 Pa. C.S. Ch. 19)

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the school shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable requirements and standards of the Uniform Grant Guidance as outlined in this procedure.

#### Use of Federal Excess and Surplus Property

The school considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

#### Debarment and Suspension

The school awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The school may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the school verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The Business Administrator will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

#### Maintenance of Procurement Records

The school must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by Board policy 6000 Records Management and established administrative regulations. (Pol. 6000, 6000-AR-1, 6000-AR-2, 6000-AR-3, 6000-AR-4)

#### Time and Materials Contracts

The school may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

#### Settlements of Issues Arising Out of Procurements

The school alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the school of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

#### Protest Procedures to Resolve Dispute

The school maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, established school administrative regulations and the advice of the solicitor. (Pol. 4010)

The charter school acquires, records, inventories, maintains and disposes of capital assets. Responsible school employees will ensure accurate capital asset reporting and compliance with governmental requirements.

Designated employees will maintain accurate records of physical assets whose value and useful life exceed the capitalization threshold.

In order to associate debt with acquired assets and to avoid net asset deficits, any asset that has been acquired with debt proceeds will be capitalized, regardless of the cost of the asset. The asset life of these assets will be considered relative to the time of the respective debt.

For all other assets not acquired by debt proceeds, the dollar value of any single item for inclusion in the fixed assets accounts will be not less than \$1,500.

The capitalization threshold will be set at a level that will capture at least eighty percent (80%) of all fixed assets.

The assets listed below do not normally individually meet capitalization threshold criteria:

1. Classroom texts.
2. Computer equipment.
3. Classroom furniture.

These asset category costs will be capitalized and depreciated as groups when that group's acquisition cost exceeds the capitalization threshold in any given fiscal year.

For group asset depreciation purposes, the estimated useful life of the group may be based on the weighted average or simple average of the useful life of the group as a whole. Periodically, the school will review the estimated life of groups of assets and adjust the remaining depreciation life of the group.

Assets that fall below the capitalization threshold for GASB 34 reporting purposes may still be significant for insurance, warranty service, and obsolescence/replacement policy tracking purposes. The school may record and maintain these non-GASB 34 asset inventories in subsidiary ledgers.

**NOTES:**

**Fixed Assets** can be purchased with money from the school's operating budget (desks, chairs, books, etc.).

**Capital Assets** are purchased with borrowed money. These items are usually larger and cause the school to borrow funds, such as buildings or a large piece of equipment.

The employee verification process shall occur monthly prior to payment of bills.

The Business Administrator shall report the value of taxable fringe benefits with the regular payroll for the payroll immediately following the determination of taxable fringe benefits.

The CEO will annually submit to the Board for its approval a list of designated employees recommended to use the charter school procurement/credit cards or to pick up necessary supplies.

School employees authorized by the CEO and/or Business Administrator may make purchases with school procurement or credit cards. When authorized by the CEO, cards may be issued temporarily to an employee who is traveling to efficiently pay for and document travel expenses.

The total combined authorized credit limit of all procurement/credit cards issued by the school will not exceed a half percent (.5%) of the total school budget for the current fiscal year.

The Business Administrator will direct staff to pay the card balances in full no later than the due date so that finance charges will not be incurred.

The Business Administrator will maintain a list of all current school cardholders and will monitor the procurement card program's aggregate monthly spending relative to the aggregate established credit limit for potential required increases.

The CEO and Business Administrator will determine the need to cancel or reissue cards to employees.

School procurement/credit cards will bear the school name; cardholder name; school tax exemption number; and expiration date.

### **Use Of Charter School Cards**

3. School cards may not be used to purchase any item in excess of card limit; nor will any employee charge more than card limit a month without prior written authorization by the CEO or Business Administrator.

4. Employees must complete a Payment Request Form and attach itemized receipts for each stated purchase. All charges must be verified with itemized receipts. The employee's supervisor will approve the expenditures and submit the approved form to the Business Office by the Business Administrator.
5. School cards will not be used for purchases that would circumvent bidding required by law and Board policy and administrative procedures.
6. School cards will not be used to purchase personal items, unauthorized items or items that do not benefit the school. If a personal item is inadvertently purchased on a school card, the employee must immediately make repayment to the school.
7. Only the authorized employee to whom the card was issued can use the school card.
8. All employees issued a school card must take all reasonable measures to protect the card against damage, loss, theft or misuse. Employees must immediately report such to the Business Administrator.

Unauthorized purchases by employees will result in disciplinary action, and the employee will be required to make payment for such transaction.

When purchases are questioned, the Business Administrator is responsible for resolving the issue with the cardholder. If the Business Administrator is not satisfied that the purchase was necessary and for official use, or used for a prohibited violation, the cardholder must return the purchase and provide a credit voucher proving the item was returned; or provide a personal check made payable to the school for the full amount of the purchase. The check must be sent to the Business Office along with an explanation of why the violation occurred and include a copy of the original receipt.

### **Resolving Returns/Credits/Disputes/Charges**

When a cardholder questions or disputes a transaction charged to their account, the cardholder will initially contact the vendor about the transaction and seek to resolve the issue by requesting or supplying information about the transaction.

If the matter is not resolved immediately, the cardholder will notify the Business Administrator in writing to request the charge be disputed. The Business Administrator will contact the company or banking institution.

### **Card Termination**

The Business Administrator will notify the banking institution to cancel the card of a terminated employee within twenty-four (24) hours of the employee's termination. Procurement cards collected from terminated employees will be destroyed by cutting the card into pieces.

Procurement card privileges may be revoked by the school when the cardholder fails to adhere to relevant Board policy and school administrative procedures. | Status       | Active             |

Asset management and accounting is desirable. Capital assets are a primary component of such management and accounting. The Board of Trustees recognizes the use of statements issued by the Governmental Accounting Standards Board to meet such needs.

In accordance with Governmental Accounting Standards Board Statement No. 34, "capital assets" include land, improvement to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art, historical treasures, infrastructure, tangible and intangible assets that are used in operations and which have initial useful lives extending beyond a single reporting period. Examples of infrastructure assets include roads, bridges, tunnels, drainage systems, water and sewer systems, and dams and lighting systems. Equipment that will not change its original shape, appearance or character with use and can be expected to last more than one year with reasonable care and maintenance is a capital asset.

### **Purchased Capital Assets**

A. Purchased capital assets greater than \$5,000 should be recorded at their historical/original cost. The cost of capital assets should include capitalized interest and ancillary charges necessary to place the asset into service. Ancillary charges include freight, transportation, site preparation and professional fees. Purchases less than \$5,000 will be treated as supplies and are coded to the supply objects prescribed by the Pennsylvania Public School Accounting Manual.

B. Capital assets should be depreciated over their useful lives, as determined for each asset class. Inexhaustible capital assets such as land and land improvements should not be depreciated.

C. If determining historical costs is not practical due to inadequate records, reporting should be on an estimate of original cost at the date of construction or purchase.

D. Fixed asset records must include the acquisition date, cost, useful life and method of depreciation for each capital asset classification and group.

E. Individual items less than \$5,000 but purchased in the aggregate totaling \$10,000 that meet the other fixed asset definitions shall be capitalized and depreciated as a unit over the useful life for that asset class.

F. Due to changes in technology, computer software is considered a supply and is expensed at the time of purchase. Components such as monitors and keyboards shall be capitalized as a unit upon purchase when the individual components are less than the capitalization threshold, but in the aggregate meet or exceed the threshold.

### **Donated Capital Assets**

A. Donated capital assets must be reported at fair market value at the time of acquisition, plus ancillary charges, if any. Donated assets are recorded as contributed capital and depreciated over their useful lives as determined for each asset class.

B. If determining historical costs is not practical due to inadequate records, reporting should be based on estimates of fair market value at the date of donation.

### **Collections**

A. Works of art, historical treasures and similar assets should be capitalized at their historical cost or fair value at the date of donation (estimated if necessary), whether they are held as individual items or in a collection.

B. Capitalized collections or individual items that are exhausted should be depreciated over their useful lives. Depreciation is not required for collections or individual items that are inexhaustible.

### **Infrastructure**

A. Infrastructure assets are long-lived capital assets that normally are stationary in nature and can normally be preserved for a significantly greater number of years than most capital assets. Infrastructure includes, but is not limited to, parking lot, sidewalks, driveways and drainage systems, roads, bridges, tunnels, water and sewer systems, and dams and lighting systems.

B. Infrastructure assets should be depreciated over their useful lives.

C. Routine repairs and maintenance costs are charges to operations as incurred. Expenditures that extend the useful life of the infrastructure are capitalized as part of the asset and depreciated over the newly-established useful life.

### **Useful Lives**

Fixed assets are to be depreciated over their useful lives.

| <b><u>Asset Class</u></b> | <b><u>Years</u></b> |
|---------------------------|---------------------|
| School Buildings          | 30-50               |
| HVAC Systems              | 20-25               |
| Interior Construction     | 25-30               |
| Sprinkler/Fire System     | 20-25               |
| Outdoor Equipment         | 15-20               |
| Machinery & Tools         | 10-15               |
| Kitchen Equipment         | 10-15               |
| Custodial Equipment       | 05-07               |
| Furniture & Accessories   | 15-20               |
| Business Machines         | 05-10               |
| Copiers                   | 03-05               |
| Computers                 | 03-05               |
| Audio Visual              | 07-10               |
| Communication             | 05-10               |

### **Depreciation**

A. Depreciation expense should be reported in the statement of activities. Depreciation expense that can be specifically-identified with a function should be included as a direct expense. Depreciation expense for shared facilities should be ratably included in direct expenses for each function.

B. Depreciation is allocated to expense in a systematic and rational manner. The straight-line method of depreciation is used for all fixed asset classes in accordance with the useful lives established for each asset classification. Depreciation charts do not include a salvage value.

C. Depreciation may be calculated for a class of assets, a network of assets or individual assets.

**Disposal**

A. Sale of Fixed Assets - When fixed assets are sold, a calculation of gain or loss on disposal is required. The calculation is based upon the amount of proceeds received less the net book value. (Cost of the fixed asset less accumulated depreciation taken).

B. Trade-ins - The value given for a trade is part of the cost of the newly-acquired asset. The costs and accumulated depreciation of the traded-in asset must be removed from the books. Any gain or loss resulting from the disposition of the asset will be recognized as a gain or loss on disposal in the entity-wide operating statements.

C. Any disposal shall be recorded in the charter school's property records in accordance with Board Policy 5006, Property Records.

**Capital Leases**

Assets acquired by capital lease are recorded at the net present value of the future minimum lease payments. A corresponding liability is established at this time. Assets acquired under the terms of capital leases are depreciated using the straight-line method over the useful lives designated for the asset class. The cost of operating leases will be charged to current expenditures as each payment becomes due.

**Repairs and Maintenance**

Extraordinary repairs greater than \$5,000 extending the useful life of an asset beyond one year should be capitalized, and the useful life of an entire asset for depreciation purposes should be revised. Routine repairs, maintenance and parts purchased to keep the asset in working condition are charged to expense as incurred whether they are greater than or equal to \$5,000.

The school will dispose of used textbooks, books and media materials that are recommended for disposal.

Textbooks, books and media materials that are eligible for disposal include those that are severely damaged; cannot be rebound; have pages missing; or have been determined by the professional staff to contain information that is not current or correct; demonstrated low student interest; and outdated copyrights.

Principals and supervisors will identify the textbooks, library books and media materials that are eligible for disposal.

Textbooks and media materials will be stamped "DISCARD" on the first page or lead edge and packed in boxes labeled "DISCARD."

The principals will complete the Books/Materials Disposal Form and forward a copy to the Business Office and the Facilities Manager. The form will be submitted approximately one (1) week prior to the requested pick-up.

The Facilities Manager will remove the boxes for disposal.

The principals or supervisors will ensure that textbook inventories for the school are updated to reflect the disposals of books.

The principals and supervisors will update inventory records to reflect the disposal of books and materials, and will update current resource catalogs.

Physical inventories of the school will be conducted on a regular basis. A physical inventory will reveal discrepancies between recorded data and physical asset and will provide an opportunity for correction.

All administrative, professional and support staff will be required to assist in all in-house inventories when assigned. A listing of all assets in each area and room will be distributed routinely for verification by the employee assigned to that area or room.

Employees are required to report to the principal or immediate supervisor all changes in asset inventory throughout the year to maintain the accuracy of inventory listings.

#### Lost/Stolen Capital Assets

Employees are required to immediately report lost or stolen assets to the principal or immediate supervisor, who will contact the Facilities Manager.

The Facilities Manager will record the information and initiate an investigation.

The Facilities Manager will notify the CEO and Business Administrator upon completion of the investigation. When appropriate, the CEO may report a theft to law enforcement.

The Facilities Manager will initiate an insurance claim when applicable.

School capital assets that are no longer useful or needed will be disposed of by designated staff, upon proper approval.

The CEO or designee must approve all plans for the disposal of school assets. The CEO will report the disposal of capital assets to the Board and will seek Board approval when required.

If the original cost of an item exceeded \$4,000, the approval of the Board is required prior to any action.

All state and local laws and regulations must be followed, including formal bidding when applicable.

If an asset was purchased with federal funds, it may be necessary to receive federal permission for disposal. The coordinator or supervisor of the federal program from which the asset was purchased will obtain the relevant written authorization.

The Business Administrator will be responsible for processing all requests for disposal of an asset, and will provide to the CEO or designee the following relevant information:

1. Estimated current market value and how market value was determined.
2. Reason for disposal.
3. Removal method.
4. Related costs.

### **Reasons For Disposal**

Assets may be available for disposal if they are:

1. No longer required due to changed procedures, functions or usage patterns.
2. Occupying storage space and not needed in the foreseeable future.
3. Noncompliant with health or safety standards.
4. Found to contain hazardous materials.
5. Beyond repair.

### **Options For Disposal**

Land and buildings must be sold in accordance with applicable laws.

Moveable assets identified for disposal may be disposed of using one of the following means, only after authorization by the CEO or Board:

1. Public Bid - A written request giving full details and specifications for the goods offered for sale must be sent to the CEO. The sale must be advertised in the local newspaper and posted in the school office. Bids will be received in the Business Office until opening at a public Board meeting. After review by the solicitor, bids will be awarded.
2. Public or Online Auction - A public auction may be conducted by a licensed auctioneer if the anticipated revenues exceed the cost of the auctioneer.
3. Donations - When the school has determined that goods have no residual value, and where their disposal is unlikely to produce offsetting revenue, it may be authorized that the goods be donated to another organization.
4. Trade-In - Items may be traded in when doing so maximizes the net return to the school. The asset number of the item traded and the value of the trade-in must be shown on the purchase order of the number asset.
5. Destroyed/Junked - Items with no market value and no use may be destroyed in an appropriate and safe manner.

The school offers no warranty on the condition of the goods it sells. The advertisement for sale should provide as full a description as possible, specify that the goods are sold "as is, where is" and invite prospective buyers to inspect the goods before the sale.

### **Disposals**

When disposing of a capital asset, after authorization from the CEO or Board, the Business Administrator should ensure that the following actions occur:

1. All school tags are removed.
2. Assets are checked for items that are not included in the disposal, such as school stationery, software, records, files, papers, hazardous materials, etc.
3. Arrangements are made for removal.
4. Capital Assets Disposal Form is completed and filed in the Business Office.
5. Inventory records are updated accordingly.
6. Proceeds from the sale are credited to the General Fund Budget.

Capital assets are items that have a useful life of at least one (1) year. The assets are permanent in nature, tangible and held for purposes other than investment or resale.

There are six (6) types of capital assets: land, land improvements, buildings, building improvements, moveable equipment and fixed equipment.

### **Capital Asset Valuation**

For purposes of valuing capital assets, the school will separate them into five (5) categories, based on how they were acquired.

#### 1. Purchased Assets:

- a. To determine the value of an asset, the price must include purchase price, transportation costs, installation costs, value received from a trade-in, bid advertising costs, and any other direct costs of the school related to the purchase of the asset.
- b. Subsequent purchases for additional or replacement components must be treated as an expense per guidelines.
- c. Subsequent purchases for additional or replacement components for an existing piece of equipment funded by a federal, state or local grant may be capitalized if the additional components are specifically budgeted under the grant. An explanation is required for these additions to the capital asset inventory.

#### 2. Donated Assets:

- a. The value recorded by the school for a donated asset is the market value of the asset when the school receives it.
- b. To determine the market value of the asset, the appraisal price, selling price to educational institutions of an equivalent item, and/or information on IRS Form 8283 may be used.
- c. Transportation and installation costs should also be included when valuing the donated item.

#### 3. Leased Assets – assets purchased under a capital lease:

- a. The asset must be recorded under a capital lease when the asset is put in use.
- b. The value is recorded at the current market value and should not include any interest.

- c. Use the present value calculation based on the monthly payment schedule to determine current market value.
4. Fabricated Equipment – the value of a fabricated asset is determined by the total of the recoverable costs associated with the construction of the asset. Recoverable costs include:
    - a. Original invoice prices paid for the components.
    - b. All shipping, handling and in-transit insurance and storage charges related to the delivery and installation of the component.
    - c. All costs associated with installation, including site preparation.
    - d. Costs of all testing.
    - e. All books, manuals and training for operation.
    - f. Do not include in-house labor charges.
  5. Constructed Buildings and Improvements/Renovations:
    - a. The value of the asset includes the total amount paid for acquiring or improving the asset, such as non in-house labor; materials; architectural and design fees; charges by brokers, agents, notaries, building permits, inspections and filing costs; costs of utilities during construction; and landscaping costs related to the building.
    - b. Record all school-owned facilities that are permanent in nature as a capital asset.
    - c. Record any alteration or renovation of an existing facility that adds useful space.

**NOTES:**

**Fixed Assets** can be purchased with money from the school's operating budget (desks, chairs, books, etc.).

**Capital Assets** are purchased with borrowed money. These items are usually larger and cause the school to borrow funds, such as buildings or a large piece of equipment.

### **Identification/Determination Of Facilities For Closing/Leasing**

Prior to the final adoption of the annual budget, the CEO, principals and designated administrators will project the school's enrollment figures for the ensuing two (2) school years and identify if projected enrollments are below acceptable capacities.

The CEO will notify the Board prior to May 1 if a school's enrollment has been projected to be less than the school's capacity for at least the ensuing two (2) years.

The Board and administration will consider the feasibility of closing or leasing areas in the underutilized school buildings.

At that time, the administration will contact the Department of Education, appropriate government agencies and community residents of the affected municipality(ies) where the building is located to advise them that the Board is considering the desirability and feasibility of closing or seeking an alternate use of the surplus space. The administration will keep the agencies and community members informed in writing of the considerations as they progress and will actively seek input of affected agencies and community residents regarding the actions being considered with respect to the building or space.

In the case of available surplus areas within a facility that will continue to be used in the school's educational program, the administration will identify such areas and advise the Board whether and how such areas can appropriately be grouped for alternate use.

The Board must approve of any closing of a school building or leasing of surplus space within a school building and must notify the Department of Education in writing of such Board resolution.

### **Application For Use Of Surplus Space**

After Board approval, the administration will advertise the availability for rental of surplus space in a school building. The administration will provide an Application For Leasing Surplus Space and a copy of these administrative procedures to all interested parties.

Entities and individuals interested in leasing surplus space must complete and submit to the Business Administrator or designee a completed application form. The application must contain complete information. The administration may require applicants to provide additional information to the school.

The designated administrators will ensure that each applicant being considered for leasing provides copies of any required licenses and approval from supervisory agencies, and is fully capable of meeting school lease requirements.

### **Identification/Selection Of Prospective Lessees**

The Business Administrator or designee will maintain a file of applicants for lease of surplus space.

The administration may advertise for and engage, with Board approval, the services of a real estate firm to seek desirable lessees.

Appropriate governmental agencies and community organizations of the municipality(ies) where the surplus space is located will be advised in writing regarding the prospective lessees with which the school is negotiating.

The Board will give at least thirty (30) days' public notice of its intention to act on the administration's recommendation that surplus space be leased to a proposed lessee. Such notice will identify the proposed lessee by name and will describe the use(s) to which the proposed lessee would put such space.

### **Leases**

The Business Administrator will develop, with the assistance of the solicitor, a lease form to be signed by all parties that states the terms and conditions of the lease of the school's surplus space.

### **Oversight Of Leased Space**

The Business Administrator or designee is responsible for overseeing compliance by lessees with lease terms and conditions, and with all applicable codes, laws and regulations.

The Business Administrator or designee is responsible for ensuring that the lessees of such areas do not interfere with the educational program conducted by the school in the facility where the leased area is located.

Staff members who bring personal property into the school building and onto school property do so at their own risk. The school is not responsible for the theft or damage to personal property of employees.

### **Mail Service**

A mail service system will be maintained within the school so that communications from inside and outside the school can be delivered to the intended recipient in the most practicable manner.

Use of school mail facilities and staff will be restricted mainly to the distribution of communications and materials that further the educational purposes of the school. The CEO or designee may authorize exceptions.

For the convenience of staff, mailboxes are provided for teachers and other assigned employees in each building office. Mail should be retrieved on a daily basis.

Political materials and literature will not be distributed through the mail service system or placed in school mail boxes, unless received through the United States Postal Service. Use of the mail system by employees shall be in compliance with applicable collective bargaining agreements.

### **Telephone Calls**

The Board reserves the right to refuse to accept any gift that does not contribute to achievement of Charter School goals or when such ownership would adversely affect the Charter School.

Any gift accepted by the Board or its designee shall become Charter School property, may not be returned without Board approval, and is subject to the same controls and regulations as are other Charter School properties.

The Board shall be responsible for the maintenance of any gift it accepts, unless otherwise stipulated.

The Board shall make every effort to honor the intent of the donor in the use of the gift, but it reserves the right to utilize any gift in the best interests of the Charter School's programs.

The Chief Executive Officer shall publicly report to the Board all gifts of any amount or kind to the Charter School accepted on behalf of the Board.

The school appreciates all gifts, grants and donations given to the school to support and supplement the school's educational programs and student activities program.

All gifts accepted by the school will become the property of the school.

In deciding whether to accept a gift, grant or donation, the Board and CEO will minimally consider whether the contribution will further the established goals, whether it will be useful and be used, whether it is appropriate for the school environment, and whether it will unequally distribute resources within the school.

In general, the CEO is authorized to accept gifts, grants and donations to the school, but the Board must take action to accept all contributions that require ongoing annual service, a maintenance fee, significant personnel time, initial or continuing financial commitments for the school, and gifts of real property.

The CEO will ensure that no gift will be accepted without verification that there are no encumbrances against the gift.

The use of any gift, grant or donation not designated by the donor will be determined by the CEO and designated administrators, after appropriate consultation with the donor.

Gifts, grants or donations for a particular school, department or activity must be approved by the principal or immediate supervisor and forwarded to the CEO for final approval.

The school will make every attempt to keep equipment purchased for a particular building or program within that building or program for which it was purchased but reserves the right to make changes when necessary.

School employees will refuse to accept any gifts, grants or donations that have not been processed and approved in accordance with Board policy and school administrative procedures.

### **Procedure**

1. An individual, group or agency requesting to donate gifts, grants or donations to support the school's educational or student activities programs must submit their intentions in writing to the CEO.
2. The requesting donor must complete the Intent To Give Gift/Grant/Donation Form and submit the form to the CEO.
3. The CEO will review the request, evaluate its appropriateness, and approve or reject the request.

4. Upon receipt of the gift, grant or donation, the CEO will direct the appropriate staff to receive the contribution and ensure it is distributed as directed.

The school has a duty to maintain facilities that provide a safe supply of drinking water.

To ensure that all school facilities are providing safe drinking water to students and staff, the school will implement the following measures:

1. Disinfect drinking water fountains and water outlets daily to reduce possible bacteria contamination.
2. Clean drinking water fountains daily to remove lime and calcium build-up.
3. Clean sediment and debris out of all outlet screens or aerators on a regular basis.
4. Clean water faucets and hot water tanks to control bacteria growth levels.
5. Evaluate school facilities for the presence of cross-connections between the drinking water system and other liquids or substances for actual or potential cross-contamination.

The CEO may, if necessary, communicate information to students, parents/guardians, staff and the community about the programs in place for monitoring lead levels, the results of testing for lead in the drinking water, and remediation action being taken by the school.

### **Purpose**

The 21st Century Cyber Charter School Board of Trustees shall adopt the following policy for all school employees using school and/or rental vehicles for school business.

### **Guidelines**

Employees must have a valid driver's license in order to drive a school and/or rental vehicle.

The school shall conduct a motor vehicle record check prior to authorizing any individual to drive the school vehicle. Motor vehicle record checks shall come back with a result of "No convictions in the past three (3) years." Motor vehicle record checks shall also be conducted at least once per year.

School employees who have not had a motor vehicle record check shall be prohibited from driving the school vehicle, except in the case of an emergency.

Any employee or person using a school and/or rental vehicle for school business, who is found to have a violation, may be given a probationary period and may be required to submit to a motor vehicle record check every six (6) months, or depending on the type and number of violations, may be prohibited from operating the school vehicle. The school is concerned about employee safety relative to the use of school vehicles and the use of personal vehicles by employees for school business. The following rules and procedures will assist in reducing the incidents of automobile-related accidents, injuries and costs and in maintaining the school's ability to obtain insurance coverage.

The Business Administrator or designee is responsible for ensuring that employees are aware of, understand and adhere to the administrative procedures governing the operation of school vehicles and personal vehicles for school business.

The Business Administrator or designee is responsible for determining when an employee is not able to operate a school vehicle, and can prohibit that employee from operating a school vehicle, after consultation with the employee's supervisor.

Employees who operate a school vehicle and who operate a personal vehicle on school business have inherent responsibility to care for the vehicles in their charge, obey all state and local traffic laws, continuously observe safe and courteous driving practices, and adhere to established school administrative procedures.

Each employee is responsible for all traffic citations and parking tickets issued by a law enforcement officer. The employee must report receiving the citation or ticket to their immediate supervisor.

An employee operating a school vehicle is required to:

1. Possess and carry a valid driver's license and vehicle registration while operating a vehicle.
2. Conduct pre-operation inspections.
3. Be responsible for the security of the vehicle.
4. Report problems, malfunctions or needed repairs.
5. Report accidents and damages.
6. Not operate a vehicle in unsafe conditions that may cause damage to the vehicle.
7. Be free of and not possess any controlled substances, including non-prescribed or illegal drugs, prescription drugs, or alcoholic beverages that may affect the employee's ability to safely operate a vehicle.

An employee operating a school vehicle will be informed about the established administrative procedures and will acknowledge the conditions for operation of a school vehicle by signing the Vehicle Use Form.

### **Employees Operating Personal Vehicle on School Business**

The school does not provide insurance coverage for damage to personal vehicles when being operated for school business. This coverage is the responsibility of the employee. Approved and paid mileage reimbursement anticipates the cost of vehicle insurance, deductibles, wear and tear, etc.; therefore, these costs and expenses are the responsibility of the employee.

Employees who drive a personal vehicle on school business must provide to the school a certificate of insurance with limits of liability of at least \$500,000 Combined Single Limit.

The school does provide excess liability coverage for the school and for the employee while acting in the course and scope of employment.

**School vehicle** means a motor vehicle, except a motorcycle, designed for carrying no more than ten (10) passengers, including the driver, and used for the transportation of pre-primary, primary or secondary school students while registered by or under contract to the school. The term includes vehicles having chartered, group and party rights under the Pennsylvania Public Utility Commission and used for the transportation of school children. The term does not include a “school bus” or “commercial motor vehicle.”

1. Using, being under the influence of, or possessing illegal drugs.

### **Prescription Drugs, Over-the-Counter Drugs, and Medical Marijuana**

School vehicle drivers must inform the Facilities Manager about any therapeutic drug use, whether prescription or over-the-counter.

For use of a prescription drug, the school vehicle driver must provide a signed statement from the prescribing licensed medical practitioner that the substance will not adversely affect the driver's ability to perform the assigned work function.

School vehicle drivers shall also inform the Facilities Manager of any use of drug(s) or medication(s) for which the packaging includes warnings that, "marked drowsiness may occur and/or be careful when driving a motor vehicle or operating machinery."

Failure to report the use of such drugs or failure to provide proper evidence of medical authorization may result in disciplinary action.

### **Required Tests**

School vehicle drivers will be required to submit to the following tests:

1. Reasonable Suspicion/Reasonable Cause.
2. Post-Accident.
3. Return-to-Duty.
4. Follow-up.

When a school vehicle driver is notified to report for testing, the driver must report to the collection site immediately. Failure to immediately report to the collection site, to submit to the test, or interfering with the testing process will be considered a refusal.

The school will provide forms for custody and control of specimens used in drug and alcohol testing.

The drug and alcohol testing program for school vehicle drivers shall be completely separate from the drug and alcohol testing program for covered drivers. The school shall not use the *Federal Drug Testing Custody and Control Form* or the *Department of Transportation Alcohol Testing Form* in its drug and alcohol testing program for school vehicle drivers.

Altering a drug or alcohol test result is prohibited.

#### *Reasonable Suspicion Testing -*

When a supervisor or school administrator has reasonable cause to suspect a school vehicle driver is under the influence of drugs or alcohol (or both), they will require the affected driver to report to the collection site and provide a specimen as soon as practicable. Following a reasonable suspicion determination, the affected school

vehicle driver will not be permitted to perform safety-sensitive functions until a negative test result is received by the school.

This reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the school vehicle driver's appearance, behavior, speech, or body odors. The observations may include indications of the chronic and withdrawal effects of controlled substances. The supervisor or administrator will document in writing the basis for the reasonable suspicion within twenty-four (24) hours of the observed behavior or before the results of the alcohol or controlled substances tests are released, whichever is earlier.

A school vehicle driver may only be directed to undergo reasonable suspicion testing while the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

The school vehicle driver will be escorted to the collection site by the Facilities Manager or designee, and arrangements will be made to transport the driver to their home after the specimen is collected.

Alcohol testing is authorized for reasonable suspicion only if the required observations are made during, just preceding, or just after the period of the workday. The supervisor or school official who makes the determination that reasonable suspicion exists to conduct an alcohol test is not permitted to conduct the alcohol test of the school vehicle driver.

If an alcohol test is not administered within two (2) hours of the reasonable suspicion determination, the school will prepare and maintain on file a record explaining why the test was not promptly administered. An alcohol test will not be given if not administered within eight (8) hours following the reasonable suspicion determination. If an alcohol test is not administered for this reason, the school will record the reasons for not administering the test.

### **Notifications**

The school will notify an applicant of the results of a pre-employment drug test, if the applicant requests the results within sixty (60) calendar days of being notified of the disposition of their employment application.

The school will notify a school vehicle driver of the results of random, reasonable suspicion, and post-accident drug tests if the test results are positive. The school will also inform the school vehicle driver which controlled substance(s) were positive.

The school will inform the school vehicle driver about the results of alcohol testing.

### **Consequences**

The school will remove a school vehicle driver from performing safety-sensitive functions under the following circumstances:

1. A positive drug test result;
2. An adulterated or substituted drug test result;
3. A refusal to submit to a post-accident, random, reasonable suspicion, return-to-duty or follow-up test, as required by Board policy.

The school shall place a school vehicle driver who drives, operates or is in physical control of a school vehicle out of service for thirty (30) days if the school vehicle driver:

1. Has any detectable amount of alcohol in their system; or
2. Refuses to take a test to determine their alcohol content.

A school vehicle driver who refuses to take a drug or alcohol test required pursuant to Board policy and administrative procedures has not refused to take a Department of Transportation (DOT)-test.

All employment decisions involving reinstatement, termination, or dismissal will be made in accordance with

applicable state law, Board policies, and negotiated agreements.

### **Confidentiality/Privacy**

School staff will take appropriate measures to ensure that all the testing procedures are as private and confidential as reasonably practical.

Test results or medical information will only be provided to supervisors who have a need to know such information, to the applicant/employee tested, and to any individual permitted or required by law or regulation to receive such information.

### **Maintenance of Records**

All drug and alcohol test records must be kept in a secure location with controlled access. The school will maintain records in accordance with the school's records retention schedule.

All drug and alcohol test records will be maintained separately from personnel or medical records.

Drug and alcohol test information for school vehicle drivers shall not be included on the U.S. Department of Transportation Drug and Alcohol Testing MIS Data Collection Form.

### **Treatment/Counseling**

The school is interested in maintaining a safe workplace and a healthy and productive workforce, not in punishing employees who seek assistance. An employee who feels they may have a substance abuse problem is urged to contact the Facilities Manager. Such employees will not be disciplined or retaliated against.

Employees who request treatment or leaves of absence for treatment of drug and/or alcohol problems will not be subject to discipline. However, employees cannot escape discipline by first requesting such treatment or leave after being selected for testing or after being caught violating Board policy and/or administrative procedures.

Employee requests for voluntary treatment of drug and/or alcohol problems will be kept confidential, in accordance with applicable federal and state law, Board policy and administrative procedures.

### **Policy Distribution, Educational Materials and Acknowledgement of Receipt**

At the beginning of each school year, or when a new employee starts or transfers into a school vehicle driver position after the start of the school year, all school vehicle drivers will receive:

1. The Board policies prohibiting use, possession and being under the influence of alcohol and controlled substances and requiring drug and alcohol testing, and the administrative procedures implementing those policies.
2. Educational materials that explain:
  - a. Effects of drug/alcohol abuse on an individual's health, work and personal life.
  - b. Signs and symptoms of drug and alcohol problems.
  - c. Employee assistance programs available through the school.
  - d. Methods of intervention and list of resources when a drug or alcohol problem is suspected
  - e. Post-accident procedures.

Each school vehicle driver shall sign a statement certifying that they have received a copy of the Board policy and administrative procedures.

The school shall keep the original signed statement in the school vehicle driver's personnel file and provide a copy to the driver.

#### *Training for Supervisors -*

The school will provide a training program for employees who supervise school vehicle drivers about the requirements of Board policy and administrative procedures, and to assist them in determining whether a school vehicle driver must be tested for drug and alcohol use based on reasonable suspicion.

The school will maintain documentation of supervisor training in accordance with the school's records retention schedule.

### **Purpose**

The Charter School shall utilize Integrated Pest Management (IPM) procedures to manage structural and landscape pests and the toxic chemicals used for their control in order to alleviate pest problems with the least possible hazard to people, property and the environment.

The Charter School shall integrate IPM education into the curriculum in accordance with relevant academic standards.[\[1\]](#)

### **Definitions**

Integrated Pest Management is the coordinated use of pest and environmental information to design and implement pest control methods that are economically, environmentally and socially sound. IPM promotes prevention over remediation and advocates integration of at least two (2) or more strategies to achieve long-term solutions.

Integrated Pest Management Plan is a plan that establishes a sustainable approach to managing pests by combining biological, cultural, physical and chemical tools in a way that minimizes economic, health and environmental risks.[\[2\]](#)

### **Authority**

The Board of Trustees (Board) establishes that the Charter School shall use pesticides only after consideration of the full range of alternatives, based on analysis of environmental effects, safety, effectiveness and costs.[\[3\]](#)[\[4\]](#)

The Board shall adopt an Integrated Pest Management Plan for Charter School buildings and grounds that complies with policies and regulations promulgated by the Department of Agriculture.[\[2\]](#)[\[4\]](#)

The Facilities Manager serves as the IPM Coordinator for the Charter School.

### **Delegation of Responsibility**

The IPM Coordinator shall be responsible to annually notify parents/guardians of the procedures for requesting notification of planned and emergency applications of pesticides in Charter School buildings and on Charter School grounds.[\[5\]](#)

The IPM Coordinator shall maintain detailed records of all chemical pest control treatments for at least three (3) years. Information regarding pest management activities shall be available to the public at the Charter School's administrative office.[\[5\]](#)

### **Guidelines**

Pest management strategies may include education, exclusion, sanitation, maintenance, biological and mechanical controls, and site appropriate pesticides.

When pesticide applications are scheduled in Charter School buildings and on Charter School grounds, the Charter School shall provide notification in accordance with law, including: [\[5\]](#).

1. Posting a pest control sign in an appropriate area.
2. Providing the pest control information sheet to all individuals working in the school building.
3. Providing required notice to all parents/guardians of students or to a list of parents/guardians who have requested notification of individual applications of pesticides.

Where pests pose an immediate threat to the health and safety of students or employees, the Charter School may authorize an emergency pesticide application and shall notify by telephone any parent/guardian who has requested such notification. [\[5\]](#).

The Integrated Pest Management (IPM) program will be administered through established procedures to control pests in a sufficient manner to assure a safe and healthy environment for student, staff and visitors.

An integrated pest management decision will consist of the following steps:

1. Identify pest species.
2. Estimate pest populations and compare to established action thresholds.
3. Select appropriate management tactics based on current on-site information.
4. Assess effectiveness of pest management.
5. Keep appropriate records.

The choice of using a pesticide will be based on a review of all other available options and a determination that these options are not acceptable or feasible. Cost or staffing considerations alone will not be adequate justification for use of chemical control agents, and selected non-chemical pest management methods will be implemented whenever possible to provide the desired control.

When it is determined that a pesticide must be used to meet important pest management goals, the most appropriate pesticide will be applied in school buildings or on school grounds. The main emphasis will always be to direct the pesticide into areas to minimize or eliminate the spread of any residue to other non-target areas.

Only a certified applicator or pesticide application technician will perform a pesticide treatment at a school building or on school grounds.

The applicator or technician will complete an Intent To Apply Pesticides form and submit it to the Facilities Manager prior to the treatment.

When receiving a report of a pest in a school building or on school grounds, the principal will complete an Integrated Pest Management Pest Sighting Log and forward it to the Facilities Manager.

The school prohibits application of pesticides within a school building or on school grounds where students are expected to be present for academic instruction or extracurricular activities within seven (7) hours following the application, except when the administration determines that pests pose an immediate threat to the health and

safety of students or employees. If a pesticide label restricts re-entry to a longer period, the longer time period will be observed.

Students may not be present in an untreated portion of a school building where a pesticide treatment is or has been performed within the restricted re-entry time unless the area that is being treated or has been treated has a separate ventilation system and is separated from the untreated portions by smoke or fire doors or is a separate building.

Prior to performing any treatment, the applicator or technician must supply the Pest Control Information Sheet and all required pest control signs at least 8 ½" X 11" in size to the Facilities Manager in sufficient time to comply with all posting and notification requirements.

### **Notification**

Annually at the beginning of the school year, the Facilities Manager will direct sending all parents/guardians of enrolled students the Notification Letter For Parents/Guardians that provides information about the school's IPM program.

No pesticide treatment will be performed at a school building or on school grounds unless all notification requirements have been complied with, as follows:

1. Post Notice Of Pesticide Application in an area of common access where individuals are likely to view the sign, at least three (3) days before and two (2) days after each planned treatment.
2. Provide a copy of Pest Control Information Sheet, by hard copy or email, to every individual working in the school building, at least three (3) days before treatment.
3. Provide a copy of the Pest Control Information Sheet at least three (3) days before each planned treatment to the parents/guardians who have requested to be placed on the Notification Registry. This notice will only be provided to the list of parents/guardians who, at the beginning of each school year or upon a student's enrollment, requested notification of individual applications of pesticides.
4. In cases where pests pose an immediate threat to the health and safety of students or employees and the school authorizes an emergency pesticide application, the school will notify by telephone any parent/guardian who has requested such notification.

Notification is not required for the application of disinfectant and antimicrobial products; self-contained baits in areas not accessible to students; gel-type baits placed in cracks, crevices or voids; or swimming pool chemicals.

### **Non-Chemical Actions**

Whenever practical, non-chemical means to control or limit pests will be used. Practices such as sanitation, housekeeping, trapping and pest proofing, including caulking and sealing cracks, will be used in school buildings and on school grounds.

The Facilities Manager will perform a thorough inspection and provide the CEO with a report that identifies conditions that contribute to pest problems.

### **Facilities Manager**

The Facilities Manager will implement the adopted Board policy, IPM Plan and IPM Procedures. The Facilities Manager's responsibilities include the following:

1. Record all pest sightings by school staff and students by receiving and filing the Integrated Pest Management Pest Sighting Log.
2. Record all pesticide use by completing the Pesticide Use Log.
3. Maintain for three (3) years accurate required records of pesticide use and supporting documents; a copy of Board policy, IPM Plan and IPM Procedures; annual evaluations; and Board reports on the status of the IPM program.
4. Meet with the pest control company to share relevant information on the pest problems present in the school.

5. Ensure that the pest control company's recommendations on maintenance and sanitation are implemented, when feasible.
6. Ensure that pesticide applications are done when school is not in session or when the area can be secured against access by students and staff, in accordance with specified timelines.
7. Ensure that notices are posted and communicated within the specified timelines.
8. Evaluate annually the school's progress in implementing and maintaining the IPM Plan and procedures, in consultation with the CEO.

### **Purpose**

The Board of Trustees (Board) adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from Charter School programs, activities and services, and to ensure that the Charter School does not discriminate on the basis of disability. In accordance with federal law, the Charter School "shall modify its policies, practices or procedures to permit the use of a service animal by an individual with a disability." [\[1\]](#)

### **Definition**

Service animal means any dog individually trained to do work or perform tasks for the benefit of an individual with a disability. [\[2\]](#)

Miniature horses may be utilized as service animals if: [\[1\]](#)

1. The miniature horse is individually trained to do work or perform tasks for the benefit of an individual with a disability.
2. The facility can accommodate the type, size and weight of the miniature horse.
3. The presence of the miniature horse does not compromise the safe operation of the facility.

The work or tasks performed by a service animal shall be directly related to the individual's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. [\[2\]](#)

The provision of emotional support, well-being, comfort, or companionship does not constitute work or tasks for the purpose of this definition. [\[2\]](#)

### **Authority**

The Board shall permit individuals with disabilities to use service animals in Charter School buildings; on Charter School property; and on vehicles that are owned, leased or controlled by the Charter School, in accordance with this policy and applicable state and federal laws and regulations. ## **Guidelines**

### **Admission of Service Animals to School Programs**

A student or an employee with a disability may submit a request to bring a service animal to school for educational or employment purposes. A student or employee seeking to bring a service animal to school must comply with the requirements as set forth in this policy and any administrative procedures governing this issue.

Parents/Guardians of students with disabilities may submit a request to the building administrator for their student to bring a service animal to school. The building administrator shall forward the request to the appropriate Section 504 or IEP team. The team shall gather the necessary information and evaluate the request to bring a service animal to school. Any service animal accompanying a student with a disability to school or school activities shall be handled and cared for in a manner detailed in the student's IEP or Section 504 Service Agreement.

Before a service animal shall be allowed in a Charter School building, or on Charter School property or vehicles, the Charter School shall request the following from the owner or handler of the animal:[\[3\]](#)

1. Verification of the need for a service animal.[\[1\]](#)
2. Description of the function(s) the service animal is trained to perform in relation to the individual's disability.[\[1\]](#)
3. Proof of current vaccinations and immunizations of the service animal.[\[7\]](#)

### **Admission of Service Animals to Public Events**

Individuals with disabilities may be accompanied by their service animals while on Charter School property for events that are open to the general public. This right of access does not extend to the school buildings generally or to other activities that are not open to the general public.[\[1\]](#)[\[6\]](#)

Charter School administrators may inquire of the owner or handler of an animal whether the animal is required because of a disability and the specific tasks that the animal has been trained to perform, but shall not ask questions about an individual's disability.[\[1\]](#)

The Charter School shall not require an owner or handler of a service animal to pay an extra charge for the animal to attend events for which a fee is charged.[\[1\]](#)

## **Delegation of Responsibility**

The Chief Executive Officer or designee shall develop and disseminate administrative procedures to implement Board policy and accommodate individuals with disabilities requesting use of a service animal in Charter School buildings and on Charter School property and vehicles.

The designated administrator shall ensure that all individuals involved in a situation where a service animal will regularly accompany an individual in Charter School buildings or on Charter School property or vehicles are informed of the Board policy and administrative procedures governing this issue. Involved individuals can include administrators, appropriate employees, student and parent/guardian.

The owner or handler of a service animal shall be solely responsible for:

1. Supervision and care of the animal, including any feeding, exercising, clean up and stain removal.[\[1\]](#)
2. Control of the animal at all times through the use of a harness, leash, tether or by other effective means.
3. Damages to Charter School buildings, property and vehicles caused by the animal.
4. Injuries to students, employees, volunteers and visitors caused by the animal.
5. Annual submission of documentation of vaccinations and immunizations.

An administrator shall receive and forward to the Chief Executive Officer each completed request by an individual with a disability to be accompanied by a service animal. The Chief Executive Officer shall respond to the request.

Charter School administrators may exclude a service animal from Charter School buildings, property and vehicles under the following circumstances:

1. Presence of the animal poses a direct threat to the health and safety of others.
2. Owner or handler is unable to control the animal.
3. Animal is not housebroken.
4. Presence of the animal would require a fundamental alteration to the program.

Any individual with a service animal who is aggrieved by a decision to exclude, limit or remove a service animal may appeal that decision in accordance with applicable Board policy. The appeal must be in writing and provide detailed information regarding the basis of the appeal.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Service animals are dogs or miniature horses trained to assist individuals with disabilities in the activities of normal, daily living. In compliance with law, service animals accompanying individuals with disabilities will be permitted in school buildings; on school property; and on vehicles that are owned, leased or controlled by the school when in compliance with Board policy and administrative procedures.

### **Types Of Service Animals**

1. Guide – animal is trained to serve as a travel tool to persons who are blind or have severe visual impairment.
2. Hearing – animal is trained to alert a person who is deaf or has significant hearing loss when a sound occurs.
3. Service – animal is trained to assist a person who has a mobility or health impairment. The animal may perform functions such as carrying, fetching, opening doors, ringing doorbells, activating elevator buttons, steadying a person while walking, helping up a person after a fall, assisting with wheelchair, etc.
4. Sensory signal (Ssig) – animal is trained to assist a person with autism. The animal may provide sensory input such as sight and hearing, and may alert the person to distracting repetitive movements common among those with autism.
5. Seizure alert/response – animal is trained to assist a person with a seizure disorder. During a seizure, the animal may stand guard over the person or go for help, depending on the person's needs. An animal may be trained to predict a seizure and warn the person in advance.
6. Psychiatric service – animal is trained to assist a person with a mental disability to go out in public, socialize and remain focused.
7. Trainee – undergoing training to be a service animal. The animal must be housebroken and fully socialized, which means the animal will not, except on rare occasions, bark, yip, growl or make disruptive noises; will have a good temperament and disposition; will not show fear; will not be upset or agitated when it sees another animal; and will not be aggressive. If a trainee begins to display improper behavior, the handler immediately will act to correct the animal or remove the animal from the school building, property or vehicle.

### **Instructions To Employees/Students**

1. Allow a service animal to accompany the owner or handler at all times in school buildings and school vehicles and on school property, except where service animals are specifically prohibited.
2. Do not separate or attempt to separate an owner or handler from their service animal.
3. Do not pet a service animal, as this distracts the animal from the assigned functions.
4. Do not feed a service animal, as the animal may have specific dietary requirements or feeding times, and feeding could cause the animal to become ill.
5. Do not deliberately startle a service animal.

### **Allergic Reactions By Others**

If a student or employee assigned to a classroom or program in which a service animal is permitted suffers an allergic reaction to the animal, the owner or handler will be required to move the animal to a different location designated by the principal or designee.

An alternate plan will be developed by the appropriate staff and the student's parent/guardian. The plan could include reassignment of the owner or handler to a different classroom or program or reassignment of the allergic individual.

### **Removal From School, Facilities And Property**

When an administrator determines that a service animal is violating the conditions of Board policy, the administrator will revoke permission and require the owner or handler to immediately remove the animal from the school, vehicle, or school property. The administrator shall document the incident(s) that led to the decision to remove the service animal. If necessary, the administrator may contact local law enforcement.

Examples of violations by an owner or handler of a service animal can include the following:

1. Service animal is not under control of owner or handler and is significantly unruly or disruptive, including barking, growling, biting, clawing, running around, or behavior that brings attention to the animal. If the improper behavior happens repeatedly, the animal will be prohibited from school buildings, vehicles, and property until the owner or handler takes significant steps to mitigate the behavior, which may include muzzling or refresher training.
2. Service animal is ill and should not be taken into the school building or vehicle or on school property.
3. Service animal is unclean and/or not well-groomed. An animal that becomes wet from the weather or weather-related incidents but is otherwise clean should be considered a clean animal.
4. Service animal does not do work or perform tasks for the benefit of the individual with a disability.

If the principal recommends excluding, limiting or removing a student's service animal for any of the reasons noted above, the principal shall convene a meeting of the Section 504 or IEP team to discuss the reason(s) that may require the exclusion, placing of limitations or removal of the service animal and what alternative methods or actions may resolve the problem(s) presented by the service animal.

If the principal recommends excluding, limiting or removing an employee's service animal for any of the reasons noted above, the principal shall meet with the employee to discuss the reason(s) that may require the exclusion, placing of limitations or removal of the service animal and what alternative methods or actions may resolve the problem(s) presented by the service animal. The principal may also discuss the issue with other school employees and administrators who may be able to assist in reaching a decision regarding the service animal's continued presence at the school.

A principal shall have the right to require the immediate removal from school property of a service animal, due to aggressive behavior, health or grooming issues, such as fleas or parasites, or any other condition or behavior which poses a serious direct or immediate threat to the health or safety of persons at the school.

Any employee or student with a service animal who is aggrieved by a decision to exclude, limit or remove a service animal may appeal that decision to the CEO of the school. That appeal must be in writing and provide detailed information regarding the basis of the appeal.

### **Restrictions And Off-Limits Areas**

1. Mechanical Rooms/Custodial Closets – boiler rooms, facility equipment rooms, electric closets, elevator control rooms, and custodial closets.
2. Protective Clothing Required Areas – chemical laboratories, wood shops, metal/machine shops and photography dark rooms.
3. Dangerous Areas – any room with sharp metal cuttings or other sharp objects on the floor or protruding from a surface, hot materials on the floor, high level of dust, or moving machinery.

A student who is requesting an exception for a service animal to be permitted in a restricted access area will contact the Facilities Manager, who will determine if and in what manner an exception will be made.

Access by a service animal to a classroom or program held in a restricted area will be determined on a case-by-case basis, based on the nature of the restriction and the best interest of the owner or handler and the animal.

The following procedures and considerations will be used by the school administration when determining if an individual with a disability is making a legitimate request for use of a service animal in school and vehicles or on school property.

**Step One** – Determine whether the student or employee requesting use of a service animal is a qualifying individual with a disability.

**Step Two** – Determine whether a written request and all documentation have been submitted, as required by Board policy.

**Step Three** – Determine the qualifications of the particular service animal requested to assist the individual with a disability.

Establish if the requested service animal is a dog or miniature horse individually trained to do work or perform tasks for the benefit of an individual with a disability including, but not limited to, guiding individuals with impaired vision; alerting individuals with impaired hearing to intruders or sounds; providing minimal protection or rescue work; pulling a wheelchair; or fetching dropped items.

If the above standards are met, animals are considered service animals under the Americans With Disabilities Act (ADA), regardless of whether they have been licensed or certified. The school cannot require certification of formal training.

Based on the documentation submitted with the request, determine if the service animal has been trained to provide the specific tasks, services or functions required by the individual due to their disabilities and if the animal can actually provide that task, service or function. If the animal cannot perform the identified tasks, services or functions, the school may deny the request.

**Step Four** – Determine whether use of the service animal will cause a fundamental alteration to the program, service or activity.

This standard is generally limited. Prior to determining that there would be a fundamental alteration, the school must rigorously analyze whether the presence of the service animal would actually have a significant effect upon the program, service or activity involved.

If so, identify the fundamental alteration that would occur if the service animal is permitted to accompany the owner or handler prior to denying the request.

**Step Five** – Determine whether use of the service animal will pose a direct threat to the health and safety of others who participate in school programs, services or activities.

Direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practice or procedures, or by the provision of auxiliary aids or services.

In determining whether a service animal would pose a direct threat to the health and safety of others, administrators must make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or the best available objective evidence, to establish the nature, duration and severity of the risk; the probability that the potential injury will actually occur; and if reasonable modifications of policies, practices or procedures will mitigate the risk.

A determination of direct threat may not be used to remove a service animal from a classroom where another individual has an allergy to that animal. Instead, the administration would meet with those involved to develop an alternative plan of accommodation or modification, such as assigning the individuals to different classrooms.

**Step Six** – Determine what alternatives can be provided if the school denies the request for use of a service animal.

The school may not be required in all cases of denial to offer modifications or accommodations, but the Board's commitment to provide access to school programs, services and activities for individuals with disabilities, and the Board's commitment to nondiscrimination on the basis of disability, are enhanced and supported by determination of an alternative plan.

If the administration determines that the use of a requested service animal will not be permitted, the school will take the following actions to ensure that the individual with a disability is not discriminated against on the basis of disability:

1. Establish if alternative modifications to current policies, practices or procedures can be made to permit the person to participate in school programs, services or activities.
2. Establish if academic adjustments or auxiliary aids are necessary for an individual with a disability to ensure that the student is not excluded from participation in or denied the benefits of school programs, services or activities.

As in all disability cases, actual offers of modifications or accommodations are determined on an individual basis.

**Step Seven** – Provide notice about the right to appeal.

If the school denies the request at any step in this procedure, the administration will provide to the individual with a disability notice about the means available to file a complaint about the decision, and will provide information about the Board's related policies and complaint procedure.

### **Guidelines**

The Charter School's Records Management Plan shall be the principal means for the retention, retrieval, and disposition of manual and electronic records, including emails. The Plan shall not rely primarily on backup systems to manage the retention and disposition of records.

The Records Management Plan shall include:

1. Comprehensive listing of records and data of the Charter School.
2. Criteria to distinguish records of the Charter School from the supplemental personal records of individual employees.
3. System(s) of records storage and retrieval to be used, including in what form the records will be stored, maintained, reproduced, and disposed.
4. Preservation measures to protect the integrity of records and data.
5. Data map or flow chart detailing the sources, routes, and destinations of electronic records.
6. Procedures and employee designated for determining whether an item is a record.
7. Procedures for adding, revising or deleting records and data, and any other details necessary to implement the Records Management Plan.
8. Records Retention Schedule.
9. Provisions for the storage and retrieval of records in the event of an emergency or disaster.
10. Staff positions authorized to access Charter School records.
  - Procedures to be implemented in the event of a litigation hold that immediately suspends disposition of all records relevant to the current or potential claim. Such procedures shall specify:
    - Who can initiate a litigation hold.
    - How and to whom a litigation hold is communicated.

Who will determine which records are subject to the litigation hold.

Who will be responsible for collecting and preserving such records and data.

Who will be responsible for monitoring and ensuring the Charter School's compliance with the litigation hold.

In what format the records will be collected.

When possible, records and data shall be stored in their original form, including metadata, such as creation date, author, type of file, etc.

For any record not covered by the Records Retention Schedule, the Records Management Committee shall determine how long the record shall be kept and recommend any necessary revisions to the retention schedule.

The Charter School shall maintain and dispose of records in a manner that protects any sensitive, proprietary or confidential information or individual privacy rights, and helps conserve natural resources.

### **Manual Records**

Manual records, which include all records not stored electronically, shall be retained and disposed of in accordance with the Records Management Plan.

Manual records shall be indexed in an organized and consistent manner, reflecting the way the records will be retained and referenced for later retrieval.

When the school receives notice that the school is involved in litigation as a party to a lawsuit, the school is issued a subpoena by a party to a lawsuit in which it is not a party, an investigation concerning the school has commenced or may commence, or the school receives information that would lead a reasonable person to anticipate the possibility of litigation, the school will immediately take steps to ensure that any records and data that could be related to the ongoing litigation/investigation or potential litigation/investigation are preserved from deletion or destruction.

Actions to preserve records and data will include, but not be limited to, postponing or canceling any automatic deletion of electronically stored information until relevant information and documents can be identified and stored, notifying employees of a litigation hold to prevent the deletion and destruction of records and data that might be related to the litigation/investigation or potential litigation/investigation, and identifying records and data that are subject to preservation.

A litigation hold triggers the duty to preserve records and data that could otherwise be deleted or destroyed under the school's Records Management Plan.

The school solicitor(s) will be responsible for issuing a litigation hold that specifically describes the types of records and data that must be preserved and describes how those materials are to be maintained and stored. The litigation hold will be sent directly to the CEO and/or designee, who will acknowledge receipt of the litigation hold. The litigation hold may be communicated initially by phone but will be followed by a written notification (email or letter).

The CEO and/or designee, in consultation with the school solicitor(s), will decide which records and data are subject to the litigation hold and in which form the records will be retained or produced. The CEO and/or designee, will be responsible for:

1. Coordinating the collection and preservation of records and data that are subject to the litigation hold.
2. Monitoring and ensuring the school's compliance with the litigation hold.
3. Checking periodically on the status of a litigation hold.
4. Ensuring that all steps taken by the school to identify and preserve relevant records and data are documented.

The solicitor will inform the CEO and/or designee, of changes as they occur.

The Open Records Officer will respond as promptly as possible under the circumstances to a request for access to a public record.

The Open Records Officer will forward copies of the school's written responses to records requests to the CEO.

#### **Extension Of Time**

Upon receipt of a written request for access, the Open Records Officer will determine if any one (1) of the following applies:

1. Redaction - the request for access requires redaction of a record.
2. Retrieval Time/Remote Storage - the request for access requires retrieval of a record stored in a remote location.
3. Staffing Limitations - a timely response to the request for access cannot be accomplished due to bona fide and specified staffing limitations.
4. Legal Review - a legal review is necessary to determine whether the requested record is a public record subject to access.
5. Lack of Policy Compliance - the requester has not complied with the Board policy governing access to public records.
6. Failure to Pay Fees - the requester refuses to pay applicable, established fees.
7. Nature of Request - the extent or nature of the request precludes a response within the required time period.

If the Open Records Officer determines that an extension of time is required to respond to a records request, the requester will be notified in writing, in accordance with law and Board policy.

#### **Certified Copies**

If the Open Records Officer grants a request for access to a record and the requester requests a certified copy of the record for the purpose of legally verifying the public record, the Open Records Officer will provide a certified copy upon payment of the applicable, established fees by the requester.

#### **School Does Not Possess Record**

A request for a public record that the school does not possess but is possessed by a third party with whom the school has contracted to perform a governmental function and which relates directly to that governmental function must be submitted to the school's Open Records Officer.

If the Open Records Officer determines that the requested record is subject to public access, the Open Records Officer will respond and grant access in accordance with law, Board policy and administrative procedures.

The requester will pay the established duplication fee.

If the third party that possessed the requested public record duplicated the record in response to the request, the Open Records Officer will remit the fee to the third party.

The third party is not required to provide access to any other of its records.

### **Transcripts Of Administrative Proceedings**

Prior to an adjudication becoming final, binding and non-appealable, a transcript of an administrative proceeding will be provided to a requester by the proceeding's stenographer.

To request access to a pre-final adjudication transcript possessed by a stenographer that is subject to disclosure, the requester must directly contact the stenographer and pay the fees assessed by the stenographer.

After an adjudication becomes final, binding and non-appealable, a transcript of an administrative proceeding will be provided to a requester, and the established duplication fee will be charged.

### **Trade Secrets/Confidential Proprietary Information**

When a third party provides a record to the school and includes a written statement signed by its representative that the record contains a trade secret or confidential proprietary information, the Open Records Officer will notify that third party of a request for access to that record.

**Trade secret** is defined as information, including a formula; drawing; pattern; compilation such as a customer list; program; device; method; technique; or process that derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use and is the subject of efforts that are reasonable under the circumstances to maintain its secrecy. The term includes data processing software obtained by the school under a licensing agreement prohibiting disclosure.

**Confidential proprietary information** is defined as commercial or financial information that is privileged or confidential and the disclosure of which would cause substantial harm to the competitive position of the individual that submitted the information.

The Open Records Officer will provide notice within five (5) business days of receipt of the request. The third party will have five (5) business days from receipt of the Open Records Officer's notice to provide input on the release of the requested record.

The Open Records Officer will provide access to the record or will deny the request for access within ten (10) business days of providing notice to the third party and will notify the third party of the Open Records Officer's decision.

### **Computer Access**

The Open Records Officer will not grant requests for access to the school's or its employees' computers.

### **Discretionary Access**

The Open Records Officer may exercise discretion and make an otherwise exempt record accessible in response to a request.

The exempted record will be made accessible for access and duplication, in accordance with law and Board policy, if all of the following apply:

1. Disclosure of the record is not prohibited by federal or state law or regulation, or by judicial order or decree.

2. The record is not protected by privilege, to include the attorney-work product doctrine; attorney-client privilege; doctor-patient privilege; speech and debate privilege; or other privilege recognized by a relevant court.
3. The CEO determines that the public interest favoring access outweighs any individual, school or public interest that may favor restriction of access.

**Appeal Of Denial Of Access**

A requester who is denied access to a requested record by the school will write to the Office of Open Records, 333 Market Street, 16th Floor, Harrisburg, PA, 17101, and mark the envelope Right-To-Know Appeal.

### **Purpose**

The Board of Trustees (Board) recognizes the importance of public records as the record of the Charter School's actions and the repository of information about this Charter School. The public has the right to access and procure copies of public records, with certain exceptions, subject to law, Board policy and administrative procedures.[\[1\]](#)[\[2\]](#)

### **Definitions**

**Financial record** - any account, voucher or contract dealing with the receipt or disbursement of funds or acquisition, use or disposal of services, supplies, materials, equipment or property; or the salary or other payments or expenses paid to an officer or employee, including the individual's name and title; and a financial audit report, excluding the audit's underlying work papers.[\[1\]](#)

Public record - a record, including a financial record, that is not protected by a defined privilege or is not exempt from being disclosed under one of the exemptions in Pennsylvania's Right-to-Know Law or under other federal or state law or regulation, or judicial decree or order.

Record - information, regardless of physical form or characteristics, that documents a Charter School transaction or activity and is created, received or retained pursuant to law or in connection with a Charter School transaction, business or activity, including: a document; paper; letter; map; book; tape; photograph; film or sound recording; information stored or maintained electronically; and a data-processed or image-processed document.

Requester - a legal resident of the United States, or an agency, who requests access to a record.

### **Authority**

The Board shall make the Charter School's public records available for access and duplication to a requester, in accordance with law, Board policy and administrative procedures.[\[2\]](#)[\[3\]](#)[\[4\]](#)[\[5\]](#)

### **Delegation of Responsibility**

The Board shall designate an Open Records Officer, who shall be responsible to:[\[6\]](#)

1. Receive written requests for access to records submitted to the Charter School.
2. Review and respond to written requests in accordance with law, Board policy and administrative procedures.

3. Direct requests to other appropriate individuals in the Charter School or in another agency.
4. Track the Charter School's progress in responding to requests.
5. Issue interim and final responses to submitted requests.
6. Maintain a log of all record requests and their disposition.
7. Ensure Charter School staff are trained to perform assigned job functions relative to requests for access to records.

Upon receiving a request for access to a record, the Open Records Officer shall:[\[6\]](#)[\[7\]](#)[\[8\]](#)

1. Note the date of receipt on the written request.
2. Compute and note on the written request the day on which the five-day period for response will expire.
3. Maintain an electronic or paper copy of the written request, including all documents submitted with the request, until the request has been fulfilled.
4. If the written request is denied, maintain the written request for thirty (30) days or, if an appeal is filed, until a final determination is issued, or the appeal is deemed denied.

### **Guidelines**

Requesters may access and procure copies of the public records of the Charter School during the regular business hours of the administration office.[\[5\]](#)

A requester's right of access does not include the right to remove a record from the control or supervision of the Open Records Officer.

The Charter School shall not limit the number of records requested.[\[2\]](#)

When responding to a request for access, the Charter School is not required to create a record that does not exist nor to compile, maintain, format or organize a record in a manner which the Charter School does not currently use.[\[9\]](#)

Information shall be made available to individuals with disabilities in an appropriate format, upon request and with sufficient advance notice.[\[10\]](#)[\[11\]](#)[\[12\]](#)

The Charter School shall post the following information at the administration office and on the Charter School's website:[\[4\]](#)[\[13\]](#)

1. Contact information for the Open Records Officer.
2. Contact information for the state's Office of Open Records or other applicable appeals officer.
3. The form to be used to file a request, with a notation that the state Office of Open Records form may also be used if the Charter School decides to create its own form.
4. Board policy and administrative procedures governing requests for access to the Charter School's public records.

### **Request for Access**

A written request for access to a public record shall be submitted on the required form(s) and addressed to the Open Records Officer.[\[4\]](#)[\[13\]](#)[\[14\]](#)

Written requests may be submitted to the Charter School in person, by mail, to a designated facsimile machine, and to a designated email address.

Each request must include the following information:[\[5\]](#)[\[14\]](#)

1. Identification or description of the requested record, in sufficient detail.
2. Medium in which the record is requested.
3. Name and address of the individual to receive the Charter School's response.

The Charter School shall not require an explanation of the reason for the request or the intended use of the requested record, unless otherwise required by law.[\[14\]](#)

### **Fees**

Except for the duplication fees established by the state, the Board shall approve a list of reasonable fees relative to requests for public records. The Charter School shall maintain a list of applicable fees and disseminate the list to requesters.[15]

No fee may be imposed for review of a record to determine whether the record is subject to access under law. [15]

Prior to granting access, the Charter School may require prepayment of estimated fees when the fees required to fulfill the request are expected to exceed \$100.[15]

The Chief Executive Officer or designee may waive duplication fees when the requester duplicates the record or the Chief Executive Officer or designee deems it is in the public interest to do so.[15]

### **Response to Request**

Charter School employees shall be directed to immediately forward requests for access to public records to the Open Records Officer.[6][16]

Upon receipt of a written request for access to a record, the Open Records Officer shall determine if the requested record is a public record and if the Charter School has possession, custody or control of that record.[8]

The Open Records Officer shall respond as promptly as possible under the existing circumstances, and the initial response time shall not exceed five (5) business days from the date the written request is received by the Open Records Officer.[8]

The initial response shall grant access to the requested record; deny access to the requested record; partially grant and partially deny access to the requested record; notify the requester of the need for an extension of time to fully respond; or request more detail from the requester to clearly identify the requested material.

If the Charter School fails to respond to a request within five (5) business days of receipt, the request for access shall be deemed denied.[8]

### **Extension of Time**

If the Open Records Officer determines that an extension of time is required to respond to a request, in accordance with the factors stated in law, written notice shall be sent within five (5) business days of receipt of the request. The notice shall indicate that the request for access is being reviewed, the reason that the review requires an extension, a reasonable date when the response is expected, and an estimate of applicable fees owed when the record becomes available.[8][17]

Up to a thirty-day extension for one (1) of the listed reasons does not require the consent of the requester. If the response is not given by the specified date, it shall be deemed denied on the day following that date.

A requester may consent in writing to an extension that exceeds thirty (30) days, in which case the request shall be deemed denied on the day following the date specified in the notice if the Open Records Officer has not provided a response by that date.

### **Granting of Request**

If the Open Records Officer determines that the request will be granted, the response shall inform the requester that access is granted and either include information on the regular business hours of the administration office, provide electronic access, or state where the requester may go to inspect the records or information electronically at a publicly accessible site. The response shall include a copy of the fee schedule in effect, a statement that prepayment of fees is required in a specified amount if access to the records will cost in excess of \$100 and the medium in which the records will be provided.

A public record shall be provided to the requester in the medium requested if it exists in that form; otherwise, it shall be provided in its existing medium. However, the Charter School is not required to permit use of its computers.[5]

The Open Records Officer may respond to a records request by notifying the requester that the record is available through publicly accessible electronic means or that the Charter School shall provide access to inspect the record electronically. If the requester, within thirty (30) days following receipt of the Charter School's notice, submits a written request to have the record converted to paper, the Charter School shall provide access in printed form within five (5) days of receipt of the request for conversion to paper.[5][18]

A public record that the Charter School does not possess but is possessed by a third party with whom the Charter School has contracted to perform a governmental function and which directly relates to that governmental function shall be considered a public record of the Charter School. When the Charter School contracts with such a third party, the Charter School shall require the contractor to agree in writing to comply with requests for such records and to provide the Charter School with the requested record in a timely manner to allow the Charter School to comply with law.[\[19\]](#)

If the Open Records Officer determines that a public record contains information both subject to and not subject to access, the Open Records Officer shall grant access to the information subject to access and deny access to the information not subject to access. The Open Records Officer shall redact from the record the information that is not subject to access. The Open Records Officer shall not deny access to a record if information is able to be redacted.[\[20\]](#)

If the Open Records Officer responds to a requester that a copy of the requested record is available for delivery at the administration office and the requester does not retrieve the record within sixty (60) days of the Charter School's response, the Charter School shall dispose of the copy and retain any fees paid to date.[\[21\]](#)

### **Notification to Third Parties**

When the Charter School produces a record that is not a public record in response to a request, the Open Records Officer shall notify any third party that provided the record to the Charter School, the person that is the subject of the record, and the requester.[\[22\]](#)

The Open Records Officer shall notify a third party of a record request if the requested record contains a trade secret or confidential proprietary information, in accordance with law and administrative procedures.[\[22\]](#)

### **Denial of Request**

If the Open Records Officer denies a request for access to a record, whether in whole or in part, a written response shall be sent within five (5) business days of receipt of the request. The response denying the request shall include the following:[\[8\]](#)[\[23\]](#)

1. Description of the record requested.
2. Specific reasons for denial, including a citation of supporting legal authority.
3. Name, title, business address, business telephone number, and signature of the Open Records Officer on whose authority the denial is issued.
4. Date of the response.
5. Procedure for the requester to appeal a denial of access.

The Open Records Officer may deny a request for access to a record if the requester has made repeated requests for that same record and the repeated requests have placed an unreasonable burden on the Charter School.[\[19\]](#)

The Open Records Officer may deny a request for access to a record when timely access is not possible due to a disaster, or when access may cause physical damage or irreparable harm to the record. To the extent possible, a record's contents shall be made accessible even when the record is physically unavailable.[\[19\]](#)

Information that is not subject to access and is redacted from a public record shall be deemed a denial.[\[20\]](#)[\[23\]](#)

If a written request for access to a record is denied or deemed denied, the requester may file an appeal with the state's Office of Open Records within fifteen (15) business days of the mailing date of the Open Records Officer's response or deemed denial.[\[7\]](#)

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **How to Use the Records Retention Schedule**

The Records Retention Schedule lists records that are created, received or retained as a result of school operations. The schedule includes a description of the records, format in which the records will be retained, retention period, and disposal code. The following information will assist in applying this schedule.

### **Record Format**

Media codes are used to identify the format(s) that the school may use to maintain specified records and are assigned as follows:

- A. Paper
- B. Microform
- C. Electronic (machine readable)
- D. Audiovisual (tapes, movies, filmstrips, etc.)
- E. Cartographic (maps, drawings, blueprints, plans, etc.)
- F. Photographic

### **Retention Periods**

Retention periods listed on the schedule are given in years, unless otherwise indicated. Upon expiration of the retention period, all identified records will be disposed of in accordance with Board policy and this schedule.

### **Disposal Codes**

Disposal codes are used to direct the final disposition of records. Records must be disposed of according to the assigned code listed on the schedule. Assigned disposal codes are as follows:

1. Routine Handling – No special precautions are necessary upon disposal. The records should be recycled or disposed of in accordance with standard school procedures.
2. Special Handling – The destruction of records containing privileged, confidential, exempt or sensitive information that requires special handling by shredding, burning, erasing or any other method that reduces

information to an illegible condition.

3. Archival Retention – Records requiring permanent retention or records that have sufficient archival or historic value must be preserved in perpetuity.
4. Delete – For use with electronic records. When electronic records have met their retention period, they will be deleted.

### **Records Not On Schedule**

For any record not covered by the retention schedule, the Records Management Committee will determine how long the record must be kept and recommend any necessary revisions to the retention schedule.

Records Retention Schedule is below.

The school calendar will state the starting and ending dates of a school year, the starting and ending times of the school day for each school level, the dates when school will not be in session, and the dates of scheduled half-day sessions and early dismissals.

The school calendar, including changes to school day starting and ending times, dates or days of week when school will not be in session and changes to any partial-day sessions, may be revised in cases of emergency, in accordance with law and Board policy.

Following each emergency school closing, the Board will adopt a revised school calendar and reschedule available time to make up for the emergency closing. The CEO or designee will document alterations to the school calendar, in accordance with Board policy.

Schools will be in session during the school year in accordance with the following minimum:

- Secondary – 990 hours.

#### Days School Is Not In Session

When developing the annual school calendar for Board approval, school administrators will ensure that school sessions are normally not scheduled on the following:

1. Saturdays, for ordinary instruction.
2. Sundays.
3. Memorial Day.
4. Fourth of July.
5. Thanksgiving.
6. Christmas.
7. January 1.

In the annual adopted calendar, the Board can designate up to five (5) days as local school holidays. The Board may cancel any designated local holiday due to an emergency school closure, including but not limited to a weather emergency, pandemic or natural disaster.

#### Activities Counted as Instructional Time

In accordance with guidance from the PA Department of Education, activities under the direction of certified school employees, which may be counted as student instructional time include, but are not limited to:

1. Remote or alternative methods of instruction provided under the direction of certified school employees.
2. Student services, such as guidance and counseling services, psychological services, speech pathology and audiology services, and student health services conducted during school hours and in accordance with law, regulations and Board policy.
3. Opening exercises, including homeroom periods, supervised study halls and time when students are eating breakfast during the regularly scheduled homeroom periods or during classroom instruction.
4. Assemblies, clubs, student councils, and similar activities conducted during school hours.
5. School, group or class educational trips, to which admission is not charged to students or parents/guardians, if accompanied by a certified school employee, and in accordance with Board policy.
6. For students in graduating classes, up to three (3) days for graduation preparation within sixty (60) days of the commencement ceremony, under the supervision of certified school employees. Graduation preparation may be held on Saturdays or scheduled instructional days.

The CEO or designee may make a request to the PA Department of Education on the prescribed form for activities that may be applied to the 180-day requirement as an Act 80 exception.

The proposed request must be approved by the Board and include the date of each requested exception and the reason for each requested exception.

There is no limit on the number of Act 80 exceptions that may be requested as long as the required minimum instructional hours for the school year are met. Requests for Act 80 exception approvals should be submitted prior to the date of the Act 80 activity; however, Act 80 approvals will be considered for approval by the PA Department of Education if submitted before July 31 following the end of the school year.

#### Graduation Of Seniors – Exception To 180 Days

When the school makes an approved bona fide effort to provide 180 days of instruction in the event of pandemic or emergency school closures, including but not limited weather emergencies, pandemic or natural disasters, no change to the graduation schedule is required, and graduating seniors are not required to return to school after graduation to make up lost class days.

The CEO or designee will forward to the Secretary of Education a request for a bona fide effort exception to the 180-day requirement in the form prescribed by the PA Department of Education for graduating seniors which will include the following:

1. Written verification of the conditions that caused the loss of instructional days.
2. Accounting of the number of emergency school closings per year for the three (3) years previous to the current year.
3. A copy of the original school calendar and a copy of each revised school calendar, including the final revision that shows no available instructional days left prior to graduation. Days identified as official local school holidays must be rescheduled as instructional days. In the case of career and technical centers or other out-of-school program conflicts, a brief explanation of the special circumstances should be included.

The Secretary of Education and the Auditor General will strictly enforce the 180-day rule.

The Secretary of Education will determine whether the school made a bona fide effort to fulfill the 180-day instructional requirement:

1. The Secretary will authorize the bona fide effort exception only when the loss of days is caused by severe weather conditions and when all legally remaining instructional days have been scheduled.
2. The Secretary will approve only those requests for an exception where the school can show the weather closings could not have been anticipated. This means that a bona fide effort exception will be granted only if the school builds "snow days" into the school calendar based upon the average per year closings over the past three (3) years.

3. The Secretary may grant bona fide effort exceptions to the 180-day requirement when weather emergencies create a scheduling conflict for graduating seniors attending AVTS or other out-of-school programs.
4. Following each severe weather closing, the Board adopted a revised school calendar that rescheduled all available time to make up for the weather closing.

Seniors will not be counted in average daily membership after graduation, and this requires graduation after 180 days of instruction. If graduation occurs before the 180<sup>th</sup> day, the school's average daily membership, and the school's basic instructional subsidy, will be decreased unless the school receives a bona fide effort exception. This does not affect graduation preparation, which allows up to three (3) days within sixty (60) days prior to the commencement ceremonies. Graduation practice may occur on a Saturday.

Instructional time for students consists of the time in the school day devoted to instruction and instructional activities provided as an integral part of the school program under the direction of certified school employees.

#### **Activities Counted as Instruction Time**

1. Student personnel services, such as guidance and counseling services, psychological services, speech pathology and audiology services, and student health services conducted during school hours.
2. Opening exercises, homeroom periods and supervised study halls.
3. Assemblies, clubs, student councils and similar activities conducted during school hours.
4. School, group or class education trips to which admission is not charged to students or parents/guardians, if accompanied by certified school employee.
5. Civil defense, fire and other similar drills.
6. Graduation preparation for senior classes, up to three (3) days, within sixty (60) days of the commencement ceremony under the supervision of certified school employees, which may be held on Saturday.

#### **Activities Not Counted As Instruction Time**

1. Lunch period; however, an exception is made for special education students identified as moderately to severely handicapped if their IEP includes teaching social and motor skills related to meal-time activities such as the use of eating utensils.
2. Any activity for which admission is charged to students or parents/guardians.

#### **Act 80 Exceptions**

The CEO or designee can apply to the Secretary of Education for an exception to the daily schedule when a meritorious educational program warrants, for the following activities:

1. Parent-teacher meetings.
2. Curriculum planning and development.

3. Long-range planning.

4. In-service programs dealing with new subjects or activities having an impact on educational programs.

The proposed request must be approved by the Board, and the CEO or designee must complete and submit the required request form (PDE-4085) electronically in the Child Accounting Data Base System (CAD).

There is no limit on the number of Act 80 exceptions that the school may request as long as the required minimum instructional hours for the school year are met. Requests should be submitted prior to the date of the Act 80 activity; however, Act 80 approvals will be considered for approval if submitted before September 30 following the end of the school year.

Approvals cannot be used for time lost due to inclement weather, mechanical or power failures, or other causes not provided for in the school laws. In the event that unforeseen circumstances warrant a rescheduling of the school year and the school elects not to exercise its Act 80 approval, the number of instructional days required reverts to 180 days or 180 days minus the number of full-day or half-day Act 80 approvals used.

Approval will not be granted for Act 80 days where there has been a work stoppage by teachers. Any approved Act 80 days, except early dismissals, including those that have already occurred, will be rescinded upon initiation of a work stoppage.

Delayed school openings, early dismissals, and school closings are determined primarily for the safety and welfare of students and staff members.

**Emergency Closing**

When the Board is compelled to close school because of contagious disease, natural disaster, or other emergency, the school may ask the Department of Education to exercise its discretion and grant a waiver to allow the school to receive full subsidy reimbursement for providing less than 180 days because of the emergency closing.

3. Charter School policy related to reporting of suspected abuse and sexual misconduct.
4. Maintenance of professional and appropriate relationships with students.

Employees are required to complete a minimum of three (3) hours of training every five (5) years.

### **Duty to Report**

Charter School employees, independent contractors and volunteers shall make a report of suspected child abuse if they have reasonable cause to suspect that a child is the victim of child abuse under any of the following circumstances:

1. The Charter School employee, independent contractor or volunteer comes into contact with the child in the course of employment, occupation and the practice of a profession or through a regularly scheduled program, activity or service.
2. The Charter School employee, independent contractor or volunteer is directly responsible for the care, supervision, guidance or training of the child.
3. A person makes a specific disclosure to a Charter School employee, independent contractor or volunteer that an identifiable child is the victim of child abuse.
4. An individual fourteen (14) years of age or older makes a specific disclosure to a Charter School employee, independent contractor or volunteer that they have committed child abuse.

A child is not required to come before the Charter School employee, independent contractor or volunteer in order for that individual to make a report of suspected child abuse.

A report of suspected child abuse does not require the identification of the person responsible for the child abuse.

Any person who, in good faith, makes a report of suspected child abuse, regardless of whether the report is required, cooperates with an investigation, testifies in a proceeding, or engages in other action authorized by law shall have immunity from civil and criminal liability related to those actions.

Any person required to report child abuse who willfully fails to do so may be subject to disciplinary action and criminal prosecution.

Any person who intentionally or knowingly makes a false report of child abuse or intentionally or knowingly induces a child to make a false claim of child abuse may be subject to disciplinary action and criminal prosecution.

Any person who engages in intimidation, retaliation, or obstruction in the making of a child abuse report or the conducting of an investigation into suspected child abuse may be subject to disciplinary action and criminal prosecution.

The Charter School shall not discriminate or retaliate against any person for making, in good faith, a report of suspected child abuse.

### **Reporting Procedures**

Charter School employees, independent contractors or volunteers who suspect child abuse shall immediately make a written report of suspected child abuse using electronic technologies ([www.compass.state.pa.us/cwis](http://www.compass.state.pa.us/cwis)) or an oral report via the statewide toll-free telephone number (1-800-932-0313). A person making an initial oral report of suspected child abuse must also submit a written electronic report within forty-eight (48) hours after the oral report. Upon receipt of an electronic report, the electronic reporting system will automatically respond with a confirmation, providing a written record of the report.

A Charter School employee, independent contractor or volunteer who makes a report of suspected child abuse shall immediately, after making the initial report, notify the principal or administrator, and if the initial report was made electronically, also provide the principal or administrator with a copy of the report confirmation. The principal or administrator shall then immediately notify the Chief Executive Officer or designee that a child abuse report has been made and if the initial report was made electronically, also provide a copy of the report confirmation.

When a report of suspected child abuse is made by a Charter School employee, independent contractor or volunteer as required by law, the Charter School is not required to make more than one (1) report. An individual otherwise required to make a report who is aware that an initial report has already been made by a Charter School employee, independent contractor or volunteer is not required to make an additional report. The person making an initial oral report is responsible for making the follow-up written electronic report within forty-eight (48) hours, and shall provide the principal or administrator with a copy of the report confirmation promptly after the written electronic report has been filed. The principal or administrator shall, in turn, provide a copy of the report confirmation to the Chief Executive Officer or designee.

If the Chief Executive Officer or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Safe Schools Act, the Chief Executive Officer or designee shall inform local law enforcement, in accordance with applicable law, regulations and Board policy.

### **Investigation**

The principal or administrator shall facilitate the cooperation with the Department of Human Services of the Commonwealth or the county agency investigating a report of suspected child abuse, including permitting authorized personnel to interview the child while in attendance at school.

Upon notification that an investigation involves suspected child abuse by a Charter School employee, the principal or administrator shall immediately implement a plan of supervision or alternative arrangement that has been approved by the Chief Executive Officer for the Charter School employee under investigation. The plan of supervision or alternative arrangement shall be submitted to the county agency for approval.

### **Purpose**

Under certain conditions, electronic records and signatures satisfy the requirements of a manual record and/or signature when transacting business. The Board of Trustees (Board) recognizes that the effectiveness of electronic records and signatures depends upon the authenticity and reliability of the signatures and the context in which the electronic records are created, transferred and stored. Therefore, the Board adopts this policy to allow for the use of and acceptance of electronic records and signatures and to establish the guidelines under which electronic signatures may be used by the Charter School.[\[1\]](#)[\[2\]](#)

### **Authority**

The Board authorizes the use of electronic signatures in place of manual signatures to conduct Charter School business unless a manual signature is required by law or regulations. Electronic signatures shall have the full force and effect of a manual signature when used in accordance with this policy and applicable law and regulations.[\[3\]](#)

Electronic records filed with or issued by the Charter School shall have the full force and effect of paper records when the requirements of this policy and applicable law and regulations are satisfied.[\[1\]](#)[\[2\]](#)[\[4\]](#)[\[5\]](#)[\[6\]](#)

This policy applies to the use of electronic records and signatures when permitted or required in connection with Charter School programs and operations.

### **Definitions**

**Electronic record** – any record created, generated, sent, communicated, received, or stored by electronic means.[\[6\]](#)[\[7\]](#)

**Electronic signature** – an electronic sound, symbol or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record. More simply, it is a paperless means of committing to a contract or other document in a manner that indicates the signer's intent to bind themselves and/or the Charter School.[\[7\]](#)[\[8\]](#)

## **Delegation of Responsibility**

The Chief Executive Officer or designee shall develop administrative procedures to direct staff on the parameters for authorized use of electronic signatures related to Charter School programs and operations.

## **Guidelines**

### Electronic Recordkeeping

The maintenance of electronic records and signatures by the Charter School shall comply with the electronic recordkeeping requirements of state and federal laws and regulations and the Charter School's Records Management Plan.[6][9]

Electronic records created or received by the Charter School shall be appropriately attributed to the individual(s) responsible for their creation, authorization and/or approval.

The Charter School may specify the type of electronic signature required on an electronic record, the manner and format in which the electronic signature must be affixed to the electronic record, and the criteria that must be met when an individual uses a third party to file a document if electronic records must be signed by electronic means.

The Charter School shall implement and maintain electronic recordkeeping systems to securely receive, store, and reproduce electronic records and signatures relating to transactions in their original form.[2]

Such a system shall allow the Charter School to implement:

1. A security procedure for the purposes of verifying that an electronic signature is that of a specific person or for detecting changes or errors in the information in an electronic record.
2. Appropriate control processes and procedures to ensure adequate preservation, disposition, integrity, security, confidentiality and auditability of electronic records.
3. A consistent manner and format in which the electronic records must be created, generated, sent, communicated, received and stored.

### Electronic Signatures

An electronic signature may be used if the law requires a signature unless there is a specific law, regulation, or order that requires records to be manually signed. The issuance and/or acceptance of an electronic signature by the Charter School shall be permitted in accordance with the provisions of this policy and all applicable state and federal laws and regulations. Such electronic signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:[2][5][10][11]

1. The signing employee is authorized to manually sign the document on behalf of the Charter School.
2. The identity of the individual signing with an electronic signature is capable of being validated through the use of an audit trail.
3. The electronic signature and the document to which it is affixed cannot be altered once the electronic signature has been applied.
4. The electronic signature conforms to all other provisions of this policy.

This policy does not require a specific method for executing an electronic signature. The employee signing a particular document is responsible for verifying that the method chosen is appropriate for the nature of the transaction. Employees must consider confidentiality, authentication of signatures, and verification that the document signed is, in all respects, identical to the one to which the signer intends to bind the Charter School.

Any electronic signature that appears to be forged, altered, or otherwise not authentic, or that is not compliant with law or regulation, this policy or related administrative procedure, is not a valid signature. Should an electronic signature be deemed invalid, the Chief Executive Officer or designee may require a manual signature.

All other policies and procedures that apply to the execution of contracts or other documents on behalf of the Charter School remain in full force and effect.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Purpose**

While safe and appropriate use of social media is useful in education, unsafe and inappropriate use of social media both inside and outside of the Charter School is prohibited and subject to Charter School discipline and reporting to local, state and/or federal law enforcement pursuant to applicable Student or Employee Codes of Conduct, as well as to local and state child welfare agencies pursuant to the Board's Mandatory Reporter Policy (in accordance with the Pennsylvania Child Protective Services Law, at 23 Pa.C.S. §§6301 et seq.), and to other governmental agencies as part of its duties pursuant to the Safe Schools Act at 24 P.S. §§13-1301-A, et seq.

L. No. 106-554 and 47 USC 254(h), which mandates that schools that receive federal technology funds must develop and implement measures and policies to prevent access to "visual depictions" that are determined to be "obscene," "child pornography," or "harmful to minors" as defined herein. This Policy is also in accordance with PDE's further guidance that schools receiving certain E-rate discounts are also mandated by the Neighborhood Children's Internet Protection Act (N-CIPA), which was passed as part of CIPA, to enforce an Internet Safety Policy (ISP) that addresses harmful or inappropriate online activities.

The insurance program shall be reviewed and approved annually by the Board, and included in the annual budget.

In determining the types and amounts of insurance necessary to adequately protect the Charter School, the Board shall be guided by the service of an insurance advisor or agent, scope of coverage provided, price of desired coverage, and assurance of coverage.

The Board is determined to provide insurance protection for school property and assets based upon a prudent selection of risks to be borne by insurers and those to be assumed by the school. The primary consideration will be the frequency and liability probabilities of risks related to the school's abilities to absorb a loss.

The school will maintain insurance adequate to safeguard the school's property.

Each fiscal year, the Business Administrator will make recommendations to the Board on the amounts and types of insurance which should be obtained for school property, such as for real and personal property, boiler and machinery, etc.

The CEO and Business Administrator will include insurance premiums in the annual budget as a necessary expense.

The Business Administrator will maintain custody of insurance policies and insurance programs.

The school administration will utilize the following as insurance guidelines:

1. Insure for 100% of replacement cost against the risks embodied in fire and extended coverage policies on buildings and their contents.
2. Accept all reasonable deductible features where premium saved is substantial and risk of loss is minor.
3. Protect funds and property adequately against losses caused by burglary, robbery and dishonesty.
4. Adjust insurance coverage according to the estimates of assets by annual appraisal.
5. Maintain an amount equal to at least ten percent (10%) of the school's annual budget as borrowing power for emergency use against uninsured losses.
6. Review the insurance portfolio annually and as changes to coverage needs dictate.

Insurance claims for damages to school property must be reported to the Business Administrator or designee by the responsible administrator.

### **Authority**

The Board of Trustees (Board) emphasizes that federal law makes it illegal for anyone to duplicate copyrighted materials without permission. The Board acknowledges that severe penalties are provided for unauthorized copying of audio, visual, software, online or printed materials unless the copying falls within the bounds of the fair use doctrine.<sup>[1]</sup>

### **Definition**

Under the fair use doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. In order for the duplication or alteration of a product to fall within the bounds of fair use, four (4) standards must be met:

1. *Purpose and Character of the Use* – The use must be for such purposes as teaching or scholarship, and must be nonprofit.
2. *Nature of the Copyrighted Work* – Staff may make single copies of: book chapters for use in research, instruction or preparation for teaching; articles from periodicals or newspapers; short stories, essays or poems; and charts, graphs, diagrams, drawings, cartoons or pictures from books, periodicals or newspapers.
3. *Amount and Substantiality of the Portion Used* – Copying the whole of a work cannot be considered fair use; copying a small portion may be considered fair use if appropriate guidelines are followed.
4. *Effect of the Use Upon the Potential Market for or Value of the Copyrighted Work* – If resulting economic loss to the copyright holder can be shown, making even a single copy of certain materials may be an infringement; and making multiple copies presents the danger of greater penalties.

### **Delegation of Responsibility**

Charter School staff may make copies of copyrighted materials that fall within the established administrative procedures. Where there is reason to believe the material to be copied does not fall within the administrative procedures, prior permission shall be obtained from the building administrator.

Staff members who fail to adhere to this policy may be held personally liable for copyright infringement.

Staff members shall be responsible for instructing students in fair copyright practices and academic integrity, including guidance on citing resources appropriately.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

The guidelines listed below are intended to help staff members determine when copyrighted materials may be used, and when permission is needed to use or copy materials. Whenever a staff member is uncertain, has questions, or needs permission from a copyright owner to use or copy a work, they will contact the CEO or designated employee.

### **Public Domain And Unprotected Materials**

Works are not copyright protected if they are in the public domain, are U.S. Government publications, or are an idea or method described in a copyrighted work; however, it is recommended that the source always be credited.

### **Permitted Copies**

Multiple copies, not exceeding more than one (1) per student, may be made for classroom use or discussion if the copying meets the following tests of brevity, spontaneity and cumulative effect. Each copy must include a notice of copyright.

#### *Brevity –*

1. Poetry: a complete poem if less than 250 words and if two (2) pages long, or from a longer poem an excerpt of not more than 250 words, may be reproduced. The numerical limits may be expanded to permit the completion of an unfinished line of a poem.
2. Prose: either complete articles, stories or essays of less than 2,500 words, or excerpts from prose works not more than 1,000 words or ten percent (10%) of the work, whichever is less; but in any event a minimum of 500 words may be reproduced. The numerical limits may be expanded to permit the completion of an unfinished prose paragraph.
3. Illustration: one (1) chart, graph, design, drawing, cartoon or picture per book or periodical issue may be reproduced.
4. Special Works: certain works in poetry, prose, or in poetic prose, which often combine language with illustrations and are intended for children and at other times for a more general audience, which fall short of 2,500 words. Notwithstanding the above requirements relevant to prose, these special works may not be reproduced in their entirety. An excerpt of not more than two (2) of the published pages of the special work and containing not more than ten percent (10%) of the words found in the full text may be reproduced.

#### *Spontaneity –*

1. The copying must be at the instance and inspiration of the individual teacher.

2. The inspiration and decision to use the work and the moment of its use for maximum teaching effectiveness are so close in time that it would be unreasonable to expect a timely reply to a request for permission.

#### *Cumulative Effect –*

1. The copying of the material is for only one (1) course in the school in which the copies are made.
2. No more than one (1) short poem, article, story, essay or two (2) excerpts may be copied from the same author; nor may more than three (3) from the same collective work or periodical volume during one (1) class term be reproduced.
3. There may be no more than nine (9) instances of multiple copying for one (1) course during one (1) class term.
4. The limitations listed above do not apply to current news periodicals, newspapers and current news sections of other periodicals.

Copies of materials for face-to-face teaching activities involving performances or displays made by students or instructors, religious services, live performances without commercial advantage, and the use of instructional broadcasts are permitted.

#### **Prohibited Copies**

The law prohibits using copies to replace or substitute for anthologies, consumable works, compilations or collective works.

Consumable works include workbooks, exercises, standardized tests, test booklets and answer sheets.

Teachers cannot substitute copies for the purchase of books, publishers' reprints or periodicals; nor can they repeatedly copy the same item from term to term. Copying cannot be directed by a "higher authority," and students cannot be charged more than the actual cost of photocopying.

#### **Musical Works**

The following minimum guidelines apply to reproductions of musical works. Reproductions may be made for:

1. Emergency copying to replace purchased copies which for any reason are not available for an imminent performance, provided purchased replacement copies are substituted in due course.
2. For academic purposes other than performance:
  - a. Multiple copies of excerpts of works may be made, provided that the excerpts do not comprise a part of the whole which would constitute a performable unit such as a section, movement, or aria; but in no case more than ten percent (10%) of the whole work. The number of copies may not exceed more than one (1) copy per student.
  - b. A single copy of an entire performance unit (section, movement, aria, etc.) that is confirmed by the copyright proprietor to be out of print, or unavailable except in a larger work, may be made by or for a teacher solely for the purpose of their scholarly research or in preparation to teach a class.
3. Printed copies that have been purchased may be edited or simplified, provided the fundamental character of the work is not distorted or the lyrics altered or lyrics added if none existed.
4. A single copy of a sound recording, such as a tape, disc, cassette or sound file, of copyrighted music may be made from sound recordings owned by the school or an individual teacher for the purpose of constructing aural exercises or examinations; and they may be retained by the school or individual teacher. This pertains only to the copyright of the music itself and not to any copyright which may exist in the sound recording.
5. A single copy of recordings of performances by students may be made for evaluation or rehearsal purposes and may be retained by the school or individual teacher.

Schools must be licensed to play copyrighted music where the performer is paid or admission is charged, even if the admission is used to cover refreshment costs.

Jukeboxes must be licensed, and a certificate of license must be displayed on each machine.

### **Off-Air Recordings**

Broadcast programs may be recorded off-air simultaneously with broadcast transmission, including simultaneous cable transmission, and retained by the school for a period not to exceed forty-five (45) consecutive calendar days after the date of recording. After this period of time, all recordings must be erased or destroyed immediately.

Off-air taping of broadcast programs is permitted by educational institutions for programs broadcast to the general public. Pay cable TV services and satellite broadcasts available at an extra charge are not allowed without permission from the copyright owner.

Program recordings may be used once by individual teachers in the course of relevant teaching activities, and repeated once only when instructional reinforcement is necessary, during the first ten (10) consecutive school days in the forty-five (45) calendar day retention period.

After the first ten (10) consecutive school days, off-air recordings may be used up to the end of the forty-five (45) calendar day retention period only for evaluation purposes by the teacher.

Off-air recordings may be made only at the request of and use by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

Off-air recordings need not be used in their entirety, but they may not be altered from their original content and may not be physically or electronically combined or merged to constitute teaching anthologies or compilations.

All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.

### **Videotapes/Video Discs/Audiovisual Delivery Devices**

A library, archive, or media center may reproduce one (1) copy of a recording of a copyrighted work and distribute it in accordance with provisions of law.

Recorded copies of copyrighted programs owned by a staff member or another person, or a copy of a rental program, are considered illegally made and may not be used for instructional purposes unless its use meets the fair use test.

Rental videocassettes, DVD's, video files and other optical media with the "home use only" warning label may not be used in a classroom, school assembly, or club unless specifically covered in the rental agreement.

Multimedia use of copyrighted material falls under the guidelines of the medium being used, such as computer, video, or audio.

Closed-circuit distribution of a copyrighted work to classrooms in a school or campus is legal, as long as the transmission is used for instructional activity and not entertainment.

### **Distance Learning**

Distance learning is subject to copyright guidelines if copyrighted material is copied or recorded during a transmitted lesson.

The school will limit the transmission of copyrighted materials to students enrolled in a particular course, to the extent technologically feasible.

Students will be notified that materials used in connection with a course may be subject to copyright protection.

Technological measures will be applied to ensure that copyrighted material is accessible to recipients only as long as class is in session.

The school will not interfere with technological measures used by copyright owners to prevent unauthorized retention or dissemination.

### **Computer Software**

Copies of software, including those downloaded via modem, other than public domain software, cannot be made without the permission of the vendor or copyright owner.

Illegal copies of copyrighted programs may not be made or used on school equipment.

A computer program may be legally copied only for the following reasons:

1. It is created as an essential step in the use of the computer program, such as automatic copying into memory when a program is loaded.
2. It is created as a backup or archival copy only. All backup and archival copies must be destroyed in the event the original program is erased or removed from inventory.

Backup or archival copies may not be used simultaneously with the original program.

Copying a copyrighted program from a computer hard drive to a disc or server file for use as an additional copy is illegal.

Networking computer software is illegal if the legal multiple user or site licenses have not been acquired from the vendor or copyright owner. Networking is the use of a single program in a single computer that is connected to other computers, permitting the program to be used simultaneously in more than one (1) computer.

Reproduction of original computer software manuals is illegal, and copying must abide by the fair use guidelines.

The school will provide expenditures for software as a budgetary item. Priority will be given to software that supports and/or is critical to curriculum or operating needs. All other software will be purchased if reasonable need is established and/or financial resources allow such purchase.

Renting or leasing original copies of software by individuals without the express permission of the copyright owner is illegal.

School staff must register all software, including software downloaded from the Internet, with the designated technology staff. Staff must provide the title, manufacturer and license number of the software.

### **Internet/Online Materials**

The school does not condone the illegal or inappropriate use of materials subject to copyright protections that are available through online systems and services that the school makes available to users. Employees and students must be aware of the copyright protections afforded to online materials and that violations of these protections may result in significant penalties. The fair use doctrine applies to online and Internet use.

Users may not circumvent technology intended to block access to copyrighted work.

Board policies and administrative procedures, as well as Internet Service Provider agreements, and local, state and federal statutes and regulations concerning the use of computing facilities, including copyright protections, must be followed by students and employees.

Students and employees must adhere to Board policies, administrative procedures and federal and state laws and regulations when digitally creating, manipulating and distributing content.

### **Web Publishing**

Copyright law applies to images, graphics and words placed on the web in any form, multimedia and otherwise, or in distributing projects to others over electronic networks.

When publishing to the web, students and employees will:

1. Document sources.
2. Obtain permission from the copyright holder.
3. Check to see if the source is in the public domain or available for free use; for example, government agencies at .gov websites.

4. Use their own graphics with original art or digital pictures.

Students and employees must not link to another website and represent the other website as their content, whether by deep-linking, framing or any other means.

Students and employees must notify the technology department or designated person about any infringing material contained on the school's website. Additionally, the designated person must respond to complaints and remove/disable materials that infringe the copyrights of others.

Users' Internet services may be terminated for copyright infringement, and other disciplinary action may be taken. The school reserves the right to report any copyright infringement by a student or employee to the Internet Service Provider, and local, state or federal authorities.

It is every technology resource user's (see "Definitions" below) duty to use technology resources responsibly, professionally, ethically, and lawfully. Access to these resources may be designated a privilege, not a right. This policy applies to the acceptable use of technology resources by both adults and minors.

This policy is intended to fulfill requirements of state and federal laws to the extent applicable, including the Federal Children's Internet Protection Act (CIPA), 47 U.S.C. 254(h) and (l) and the Neighborhood Children's Internet Protection Act (N-CIPA), the 2008 Broadband Improvement Act, P.L. 110-385, and any applicable implementing regulations. 2. The safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;
3. Unauthorized access, including so-called hacking and other unlawful activities by minors online;
4. Unauthorized disclosure, use, and dissemination of personal information regarding minors; and
5. Measures designed to restrict minors' access to materials harmful to minors.

In using or accessing 21CCCS' technology resources, users must comply with the provisions outlined in this policy.

### **Definitions**

For the purposes of this policy and related procedures and forms, the following terms are defined as such:

Technology resources means technologies, devices, and resources used to access, store, or communicate information. This definition includes, but is not limited to: computers, information systems, networks, laptops, iPads or other tablet devices, modems, printers, scanners, fax machines and transmissions, telephonic

equipment, audiovisual equipment, digital cameras, e-readers (i.e. Kindles and Nooks), Internet, electronic mail, electronic communications devices and services, multimedia resources, hardware, and software, including Moodle software.

User means any person who has signed this policy and is permitted by 21CCCS to utilize any portion of 21CCCS' technology resources, including, but not limited to, students, parents/guardians, Learning Coaches, employees, Board of Trustees members, contractors, consultants, vendors, and agents of 21CCCS.

User identification (User ID) means any identifier that would allow a user access to 21CCCS's technology resources or to any program including, but not limited to, email and Internet access.

Password means a unique word, phrase, or combination of alphanumeric and non-alphanumeric characters used to authenticate a user ID as belonging to a specific user.

Child Pornography means, under federal law, any visual depiction, including any photograph, film, video, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct where:[\[5\]](#)

1. The production of such visual depiction involves the use of a minor engaging in sexually explicit conduct;
2. Such visual depiction is a digital image, computer image, or computer-generated image that is, or is indistinguishable from, that of a minor engaging in sexually explicit conduct; or
3. Such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct.

Under Pennsylvania law, child pornography is any book, magazine, pamphlet, slide, photograph, film, videotape, computer depiction, or other material depicting a child under the age of eighteen (18) years engaging in a prohibited sexual act or in the simulation of such act.[\[6\]](#)

Minor means, for purposes of compliance with CIPA, an individual who has not yet attained the age of seventeen (17). For other purposes, minor shall mean any person under the age of eighteen (18).

3. The subject matter, taken as a whole, lacks serious literary, artistic, political, or scientific value.

Technology protection measure means a specific technology that blocks or filters Internet access to content that is obscene, child pornography, or harmful to minors and the material covered by a certification regarding CIPA.[\[3\]](#)

Sexual act and sexual contact have the meanings given such terms under 18 U.S.C. § 2246(2), 18 U.S.C. § 2246(3), and 18 Pa.C.S.A. § 5903.[\[7\]](#)[\[8\]](#)

Vandalism means any malicious attempt to harm or destroy technology resources or data of another user, on the Internet, or on other networks. This includes, but is not limited to, the uploading or creation of computer viruses or malware.

## **Guidelines**

### **Authorized Users**

21CCCS's technology resources may be used by any authorized user. Use of 21CCCS's technology resources is a privilege, not a right. If a potential user has a history of discipline problems involving technology resources, the Chief Executive Officer (CEO) or designee may make the decision not to give the potential user access to certain 21CCCS technology resources.

### **User Privacy**

Computer accounts and technology resources are given to users to assist them in the performance of 21CCCS-related functions. A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving 21CCCS' technology resources, including email, in anything they create, store, send, share, access, view, or receive on or through the Internet.

By using 21CCCS' network and technology resources, all users are expressly waiving any right to privacy and consenting to having their electronic communications and all other use accessed, reviewed, and monitored by 21CCCS in accordance with 21CCCS policies and procedures. A user ID with email access will be provided to authorized users only on the conditions that the user consent to interception of or access to all communications accessed, sent, received, or stored using 21CCCS technology and sign this policy.

Electronic communications, downloaded material, and all data stored on 21CCCS' technology resources, including files deleted from a user's account, may be intercepted, accessed, or searched by 21CCCS administrators or designees at any time in the regular course of business to protect users and 21CCCS' equipment. Any such search, access, or interception will be reasonable in inception and scope and shall comply with all applicable laws.

### **Technology Administration**

The Board of Trustees directs the CEO or designee to assign trained personnel to maintain 21CCCS's technology in a manner that will protect 21CCCS from liability and will protect confidential student and employee information retained on or accessible through 21CCCS' technology resources.

Administrators may suspend access to and/or availability of 21CCCS' technology resources to diagnose and investigate network problems or potential violations of the law or 21CCCS policies and procedures. All 21CCCS technology resources are considered 21CCCS property.

21CCCS may maintain or improve technology resources at any time. 21CCCS or authorized 21CCCS agents may remove, change, or exchange hardware, equipment, or other technology between buildings, classrooms, or users at any time without prior notice.

### **Content Filtering and Monitoring**

School computers will be outfitted with software to enable school officials to remotely monitor and administer the computer. 21CCCS shall not remotely access any webcam or video camera on any computer or electronic device issued to a student without obtaining prior written permission from the parents/guardians (or student if age 18 or older). 21CCCS issued devices are configured with a content filter enabled to block inappropriate content in accordance with the Children's Internet Protection Act (CIPA). In addition, all devices are under enrollment in a mobile device management (MDM) service. This service is used to install software, apply updates, and provide additional device restrictions. It is a violation of school rules and school board policies to circumvent these services.

If users find a website deemed inappropriate, such website must be reported to CEO. After review of the site, appropriate steps will be taken to block an inappropriate site from users.[\[1\]](#)[\[3\]](#)[\[9\]](#)

For purposes of bona fide research or other lawful purposes, certain blocked sites may be made available—but only after approval by the CEO. In making decisions to disable 21CCCS' Technology Protection Measure device, the CEO or designee shall consider whether the use will serve a legitimate educational purpose or otherwise benefit 21CCCS. A student or parent/guardian claiming they have been denied access to Internet material that is not within the purview of this policy shall be afforded review of the request. The parent/guardian or student (if age eighteen (18) or older) must notify the CEO or designee electronically or in writing that they are requesting a reconsideration review within ten (10) school days. Once a decision is rendered, if the parent/guardian or student disagrees with the decision, the parent/guardian or student may escalate their request to the 21CCCS Board of Trustees.[\[1\]](#)[\[9\]](#)[\[10\]](#)

Technology Protection Measures are not foolproof, and 21CCCS does not warrant the effectiveness of Internet filtering except to the extent expressly required by federal and state laws. Evasion or disabling, or attempting to evade or disable, a Technology Protection Measure device installed by 21CCCS is prohibited.

21CCCS shall not be held responsible when a student or other user knowingly or willingly accesses inappropriate material or communicates or shares such materials with others.

### **Viruses**

Viruses can cause substantial damage to technology resources. Users are responsible for taking reasonable precautions to ensure they do not introduce viruses to 21CCCS' technology resources.

All material received on disk, flash drive, or other magnetic or optical medium, and all materials downloaded from the Internet or from technology resources or networks that do not belong to 21CCCS, must be scanned for viruses and other destructive programs before being transferred to 21CCCS' systems. Any user receiving an email from a questionable source must contact the Technology Department before opening the email or any attachment included in the email.

To ensure security and avoid the spread of viruses, users accessing the Internet through a technology resource attached to 21CCCS' network must do so through an approved Internet firewall or Technology Protection Measure.

### **Encryption Software**

Users shall not install or use encryption software on any 21CCCS technology resource without first obtaining written permission from the CEO. Users shall not use passwords or encryption keys that are unknown to the CEO.

The federal government has imposed restrictions on export of programs or files containing encryption technology. Software containing encryption technology shall not be placed on the Internet or transmitted in any way outside the United States.

### **Web Content Developed by Students**

As part of class/course assignments, students may be developing and/or publishing content to the Internet via Web pages, electronic and digital images, blogs, wikis, podcasts, vodcasts, and webcasts, and/or may be participating in videoconferences.

1. Personal information such as phone numbers, addresses, email addresses, or other specific personal information shall not be published or shared to a public page or videoconference.
2. All Web content must comply with this policy.
3. All Web content and videoconferencing must be under the direction and supervision of the teacher/administrator and Learning Coach and is to be used for educational purposes only.
4. All Web content is subject to copyright law and Fair Use guidelines.
5. All Web content shall be posted only to 21CCCS-approved Web pages, blogs, wikis, podcasts, webcasts, vodcasts, and/or videoconferences.

### **Prohibitions**

Students, staff, and all users are expected to act in a responsible, ethical, and legal manner in accordance with 21CCCS policies and federal and state laws. Specifically, the following uses of 21CCCS' technology resources are prohibited:

1. To facilitate illegal activity, including unauthorized access and hacking.
2. Evasion or disabling, or attempting to evade or disable, a Technology Protection Measure device installed by 21CCCS.
3. To engage in commercial, for-profit, or any business purposes, except where such activities are otherwise permitted or otherwise authorized.
4. Non-work or non-school-related work.
5. Product advertisement or political lobbying.
6. Production or distribution of hate mail, unlawful discriminatory remarks, and offensive or inflammatory communication.
7. Unauthorized or illegal installation, distribution, reproduction, or use of copyrighted materials.
8. To access or transmit material that is harmful to minors and/or users, indecent, obscene, pornographic, child pornographic, or terroristic, or that advocates the destruction of property.
9. Use of inappropriate language or profanity.
10. To transmit material likely to be offensive or objectionable to recipients.
11. To intentionally obtain or modify files, data, and passwords belonging to other users or integral to system and network operations.
12. Impersonation of another user, anonymity, and/or use of pseudonyms.

13. Installing or use of unauthorized games, programs, files, or other electronic media.
14. To disrupt the work of other users.
15. Destruction, modification, or abuse of technology resources and peripheral hardware or software.
16. Relocation of 21CCCS hardware without prior administrative consent.
17. Quoting personal and/or private communications in a public forum without the original author's prior consent.
18. To access or use any form of non-21CCCS electronic mail on 21CCCS technology resources unless authorized by the CEO or designee.
19. Using the network to participate in online or real-time conversations unless authorized by the teacher/administrator for the purpose of communicating with other classes, students, teachers, experts and/or professionals for educational purposes.
20. Using a disk, removable storage device, or CD/DVD, brought into 21CCCS from an outside source, that has not been properly scanned for viruses or authorized for use by a teacher/administrator in accordance with 21CCCS established procedures.
21. To discriminate against, advocate violence against, harass, intimidate, bully, or cyberbully others.
22. To send unsolicited or forwarded emails and chain letters to persons ("spamming").
23. Using "spoofing" or other means to disguise user identities in sending email or other electronic communication via bulletin boards, newsgroups, social networking sites, instant messages, email systems, chat groups, chat rooms, or other technology resources.
24. To send, transmit, or otherwise disseminate proprietary data, trade secrets, or other confidential information of 21CCCS.
25. To post or allow the posting of personal information about oneself or other people on the technology resource unless authorized in advance by the CEO. Personal information includes address, telephone number (including home, work, and cell phone numbers), school address, work address, pictures or video bites, clips and so forth.
26. To refer to or attempt to refer to 21CCCS or its employees, agents, trustees, parents/guardians, or students in any electronic communication, posting, blog, website, email, or social networking site, without written authorization from the CEO.
27. To access or transmit gambling, pools for money, or any other betting or games of chance.
28. Using technology resources to solicit information with the intent of using such information to cause personal harm or bodily injury to another or others.
29. Using technology resources to post, share, or attempt to post or share information that could endanger an individual or cause personal damage or a danger of service disruption.
30. Indirectly or directly making connections that create "back doors" to 21CCCS, other organizations, community groups, etc., that allow unauthorized access to the technology resources or 21CCCS.
31. Use of school-issued devices or 21CCCS internet resources or accounts outside of the United States of America without the prior written consent of the CEO.

### **Security**

21CCCS intends to strictly protect its technology resources against numerous outside and internal risks and vulnerabilities. Users are important and critical players in protecting these assets and in lessening the risks that can harm technology resources. Therefore, users are required to comply fully with this policy and to immediately report any violations or suspicious activities to the CEO.

System security is protected in part by the use of passwords. All passwords must be at least eight (8) characters and include alphanumeric and special characters.

Employee users will be required to change their passwords every thirty (30) days.

Student users will be required to change their passwords every six (6) months.

21CCCS will maintain a password history that prevents the use of a repetitive password.

After three (3) unsuccessful access attempts, an attempted user will be locked out and must contact the Help Desk.

After a period of 60 (sixty) minutes of inactivity, a user will be automatically logged off the system.

In addition, there may be circumstances that warrant the change of a password, including but not limited to the following:

1. The user's laptop has been replaced with a new unit;
2. There has been a record or report of a virus or other potentially dangerous software or malware on the user's system;
3. The user's system has been compromised by hacking or there is a reasonable suspicion of such activity;
4. The user has admitted to sharing a password, or there are reasons to believe that a user's password has been shared, with another student or other non-authorized user; or
5. Other reasons determined by the 21CCCS Technology Department.

Failure to adequately protect or update passwords could result in unauthorized access to personal or 21CCCS files. Users shall be responsible for safeguarding their passwords for access to 21CCCS's technology resources and for all transactions made using their passwords. To protect the integrity of 21CCCS technology resources and systems, the following guidelines shall be enforced:

1. Students and other users shall not reveal their passwords to another unauthorized individual.
2. Passwords shall not be printed or stored online.
3. Students and other users are required to log off from the network when they finish working at a particular station.
4. Users are not to use a computer that has been logged in under another student's, teacher's or user's name.
5. Any user identified by the CEO or designee as having a history of discipline problems involving technology resources may be denied access to any or all of 21CCCS' technology resources.
6. Students and other users shall not alter a communication originally received from another person or computer with the intent to deceive.
7. Users shall not misrepresent the identity of a sender or source of communication.
8. Users shall not disable or circumvent any 21CCCS security, software or hardware.
9. Users shall not interfere with or disrupt 21CCCS' systems, network accounts, services, or equipment.
10. Files, system security software/hardware, or any 21CCCS system shall not be altered or attempt to be altered without the written authorization of the CEO or designee.
11. Unauthorized hardware and electronic devices shall not be connected to the 21CCCS system.
12. Users shall comply with requests from the CEO or designee to discontinue activities that threaten the operation or integrity of the 21CCCS system.

Use of passwords to gain access to technology resources or to encode particular files or messages does not imply that users have an expectation of privacy in the material they create or receive on technology resources. 21CCCS retains the right to access all material stored on the technology resources regardless of whether that material has been encoded with a particular user's password, subject to limitations as set forth in 21CCCS' Remote Access and Monitoring of School-Issued Technology Policy as well as applicable law.

Users shall not alter or copy a file belonging to another user without first obtaining permission from the owner of the file. Ability to read, alter, or copy a file belonging to another user does not imply permission to read, alter, or copy that file. Users shall not use the technology resources to snoop or pry into the affairs of other users by unnecessarily reviewing the files and emails of another.

A user's ability to connect to another computer's system through the network or by any other electronic means shall not imply a right to connect to those systems or make use of those systems unless specifically authorized by the administrators of those systems and the CEO. Users shall not use the technology resources to snoop or pry into the affairs of other users by unnecessarily or inappropriately reviewing the files and/or emails of another.

### **Safety**

To the greatest extent possible, users of the network will be protected from harassment or unwanted or unsolicited communication. Any network user who receives threatening or unwelcome communications shall immediately bring them to the attention of a teacher, staff member, or administrator.

Communications through 21CCCS technology resources are limited to only those which serve a demonstrable educational purpose. For safety reasons, 21CCCS users shall not reveal personal addresses, contact information or telephone numbers to other users on 21CCCS networks or on the Internet.

The CEO or designee shall be responsible for implementing protection measures to determine whether 21CCCS' computers, laptops, iPads, Kindles, tablets and other technology resources and technology-related devices (such as USB drives, digital cameras and video cameras, PDAs, MP3 players, printers, etc.) are being used for purposes prohibited by law or for accessing sexually explicit materials. The procedures shall include but not be limited to: [\[1\]](#)[\[2\]](#)[\[3\]](#)

1. Utilizing technology protection measures that block or filter Internet access for minors and adults to certain visual depictions that are obscene, child pornography, harmful to minors with respect to use by minors, or determined inappropriate for use by minors by the Board of Trustees.
2. Maintaining a listing of all employees and users with access to the room which contains 21CCCS' server.
3. Generating and maintaining monitoring reports (including firewall logs) of user activity and remote access on 21CCCS' system by all users, including but not limited to students, employees, contractors, consultants, and/or vendors.
  - a. The report should include the date, time, and reason for access; whether it was remote access; the changes made; and who made the changes.
4. Maintaining documentation that students no longer enrolled at 21CCCS as well as terminated employees and contractors/vendors or those with expired contracts have been properly removed from 21CCCS' system in a timely manner.
5. Analyzing the impact of proposed program changes in relation to other critical business functions before adopting the proposed program changes.
6. Developing compensating controls to mitigate IT weakness and alert 21CCCS to unauthorized changes to student data, i.e., reconciliations to manual records, analysis of student trends, data entry procedures and review, etc.

### **Vendors**

If 21CCCS shares internally sensitive, legally-and/or contractually-restricted 21CCCS data with parties outside the 21CCCS community, 21CCCS shall first enter into a Non-Disclosure Agreement with the party. The Non-Disclosure Agreement is needed to protect 21CCCS' proprietary or otherwise sensitive information. Non-Disclosure Agreements are typically needed when entering into a business relationship with vendors, consultants, and contractors. All Non-Disclosure Agreements must be reviewed by 21CCCS' legal counsel before signing.

All vendors, consultants, and/or contractors shall be granted access to 21CCCS' technology resources only to make changes or updates with prior written authorization from the CEO or designee. Once the vendor, consultant, and/or contractor have completed their work, access to 21CCCS' systems will be removed.

Vendors, consultants, and contractors are required to assign unique user IDs and passwords to each of their employees authorized to access 21CCCS' system. Vendors, consultants, and/or contractors may be terminated for violating this policy and/or violating any state or federal laws.

All vendors, consultants, and/or contractors and their employees who have direct contact with students must comply with the mandatory Pennsylvania background check requirements for federal and state criminal history and child abuse. An official child abuse clearance statement for each of the vendors', consultants' and/or contractors' employees shall be submitted to 21CCCS prior to beginning employment with 21CCCS. Failure to comply with the background checks as required by applicable law or legal regulations and/or the Pennsylvania Department of Education shall lead to immediate termination or non-hire. [\[11\]](#)[\[12\]](#)[\[13\]](#)

### **Closed Forum**

21CCCS' technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law.

All expressive activities involving 21CCCS technology resources that students, parents/guardians, and members of the public might reasonably perceive to bear the approval of 21CCCS and that are designed to impart particular knowledge or skills to student participants and audiences are considered curricular publications. All curricular publications are subject to reasonable prior restraint, editing, and deletion, to the fullest extent permitted by applicable law, on behalf of 21CCCS for legitimate educational reasons. All other expressive activities involving 21CCCS's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by applicable law and Board of Trustees Policies.

### **Records Retention**

21CCCS personnel shall establish a retention schedule for the regular archiving or deletion of data stored on 21CCCS technology resources that complies with 21CCCS' Record Retention and Destruction Policy as well as all federal and Pennsylvania state laws and regulations. It is the user's responsibility to know which records are subject to these conditions and to comply with these laws and regulations or to contact the CEO for clarification.

In the case of pending or threatened litigation, 21CCCS' attorney will issue a litigation hold directive to the CEO or designee. A hold directive will direct all 21CCCS administration and staff or agents not to delete or destroy any electronic mail or other documentation on a computer as related to a specific student, employee, and issue for a specific time period. Failure to follow such a directive could result in negative legal consequences for the user and/or within the actual or threatened litigation. The litigation hold directive will override any records retention schedule that may have otherwise called for the transfer, disposal, or destruction of relevant documents until the hold has been lifted by 21CCCS' attorney.

Email and computer accounts of separated employees that have been placed on a litigation hold will be maintained by 21CCCS until the hold is released. No employee who has been so notified of a litigation hold may alter or delete any electronic record that falls within the scope of the hold. Violation of the hold may subject the individual to disciplinary actions, up to and including termination of employment, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

### **Drafting Emails**

Emails may appear informal, as email messages are sometimes offhand like a conversation and are often not as carefully thought out as a letter or memorandum. Like any other document, an email message or other computer information can later be used to indicate what a user knew or felt. You should keep this in mind when creating email messages and other documents. Even after you delete an email message or close a computer session, it may still be recoverable and may remain on the system. Email communications are discoverable during litigation and, therefore, will have to be turned over to the opposing party unless it is determined to be privileged by 21CCCS' legal counsel.

### **Privileged Attorney-Client Communications**

Confidential emails sent to or retained from counsel or an attorney representing 21CCCS shall include this warning header on each page: "ATTORNEY CLIENT PRIVILEGED" and/or "ATTORNEY CLIENT PRIVILEGED: DO NOT FORWARD WITHOUT PERMISSION."

### **No Warranty/No Endorsement**

21CCCS makes no warranties of any kind, whether expressed or implied, for the services, products, or access it provides.

The electronic information available to students and staff on the Internet or through web-based services does not imply endorsement of the content by 21CCCS, with the exception of resources approved and adopted by the Board of Trustees. Nor does 21CCCS guarantee the accuracy of information received using 21CCCS' technology resources.

21CCCS is not and shall not be responsible for the loss of data, delays, nondeliveries, misdeliveries, or service interruptions. 21CCCS is not and shall not be responsible for any information that may be damaged or unavailable when using 21CCCS technology resources or for any information that is retrieved via the Internet. 21CCCS is not and shall not be responsible for any damages incurred as the result of using 21CCCS technology

resources, including but not limited to the loss of personal property used to access a technology resource. Further, 21CCCS is not and shall not be responsible for any unauthorized charges or fees resulting from access to the Internet or other commercial online services.

**Unauthorized Disclosure of Information of Minors**

It is a violation of state laws, including but not limited to Chapter 12 of Title 22 of the Pennsylvania Code, as well as The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g) and all other federal laws and regulations, to access data of a student the user does not have a legitimate educational interest in or to disclose information about a student without parental permission or absent an exception to the disclosure requirements. Access and distribution of student data is recorded. [\[14\]](#)[\[15\]](#)

Questions regarding the disclosure of student information must be directed to the CEO prior to disclosure and must conform to 21CCCS’ Student Records Policy. Unauthorized disclosure, use, and/or dissemination of personal information regarding minors is prohibited.

**Damages**

Users shall be responsible for damage to technology resources, equipment, systems, and/or software. All damage incurred due to a user's intentional or negligent misuse of 21CCCS’ technology resources, including loss of property and staff time, may be charged to the user. 21CCCS administrators have the authority to sign any criminal complaint regarding damage to 21CCCS technology.

**Technology Optional Insurance**

The technology devices provided by 21st Century Cyber Charter School are expensive devices that require students to follow usage guidelines and use caution when handling the devices. All students are assigned a MacBook Air and an iPad. A charger is also provided for each device. It is the student’s responsibility to care for the devices and any accessories. **The technology optional insurance is highly recommended, but not required.** The annual fee covers the cost of repairing devices. Fees are capped at a maximum of two fees per household. The optional insurance cost for the current school year is as follows:

| Per Student Cost | Per Student Cost<br>Qualifies for Reduced Lunch Status | Per Student Cost<br>Qualifies for Free Lunch Status | Per Student Cost<br>Opt Out |
|------------------|--------------------------------------------------------|-----------------------------------------------------|-----------------------------|
| \$25             | \$10                                                   | \$0                                                 | \$0                         |

If the MacBook Air or iPad is stolen or lost, including as a result of fire or other natural disaster, you must notify the school immediately and file a police report for stolen devices. It is highly recommended to add the devices to your homeowners or renters insurance policy. The student will be responsible for the cost of stolen or lost devices at the respective fee:

|                      |          |
|----------------------|----------|
| MacBook Air          | \$699.00 |
| MacBook Air Charger  | \$72.00  |
| iPad                 | \$294.00 |
| iPad Charger         | \$19.00  |
| iPad Lightning Cable | \$19.00  |

Should there be any damage to the devices, it must be reported within 24 hours and the Technology Department will determine if the damage was deliberate or as a result of deterioration from use. Any damage caused deliberately will be classified as vandalism. Students will be billed for repairs caused by vandalism and disciplinary action may occur. The optional insurance covers the first incident of the school year, including damage due to negligence or vandalism. Subsequent incidents will incur a deductible based on the tier of damage.

**Important Notes:**

- The optional insurance MUST be paid prior to an incident occurring. It will not be applied retroactively.
- If the damage involves multiple tiers you will be charged the highest of the tiers.
- Examples of negligence or vandalism include, but are not limited to:

- Lying or misrepresenting information on the damage reported
- Not reporting damages on time
- Damage caused by drops, falls, collisions or liquid spills

The following shows deductible costs based on tier and type of damage.

| Device Type | Damage Tier | Type of Damage                                | Subsequent Incident Cost with Tech Fee | ANY Incident Cost WITHOUT Tech Fee |
|-------------|-------------|-----------------------------------------------|----------------------------------------|------------------------------------|
| MacBook Air | Tier 1      | Internal Components, Cables, Connectors, etc. | No Charge                              | Up to \$15.00                      |
| MacBook Air | Tier 2      | Trackpad                                      | \$15.00                                | \$45.00                            |
| MacBook Air | Tier 2      | Wireless Card                                 | \$20.00                                | \$60.00                            |
| MacBook Air | Tier 2      | Bottom Case                                   | \$23.00                                | \$70.00                            |

### **Reporting a Missing or Stolen Technology Resource**

If a student or parent/guardian believes that a school-issued technology resource is missing or stolen, the following must occur:

1. Notify the student's Family Support Coordinator immediately;
2. Immediately file a true and accurate report with the local police department and/or law enforcement agency;
3. Immediately submit a copy of the report via email, fax or US Mail to the IT Director at the 21st Century Cyber Charter School; and

4. Cooperate with 21CCCS and/or authorities in any and all legal efforts/actions taken to retrieve the stolen property.

#### **Compliance with Applicable Laws and Licenses**

In their use of technology resources, users must comply with all software licenses/copyrights and all other state, federal, and international laws governing intellectual property and online activities. Users shall not copy and distribute copyrighted material (e.g., software, database files, documentation, articles, graphics files, and downloaded information) through the email system or by any other means unless it is confirmed in advance from appropriate sources that 21CCCS has the right to copy or distribute the material. Failure to observe a copyright may result in disciplinary action by 21CCCS as well as legal action by the copyright owner. Any questions concerning these rights should be directed to the CEO or designee.[\[16\]](#)

#### **Violations of Acceptable Technology Usage Policies and Procedures**

Use of technology resources and equipment in a disruptive, manifestly inappropriate or illegal manner impairs 21CCCS' mission and squanders resources, and it shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to 21CCCS' technology resources. Any violation of 21CCCS policies or procedures regarding technology usage may result in temporary, long-term, or permanent suspension of user privileges. User privileges may be suspended pending investigation into the use of 21CCCS' technology resources and equipment.[\[9\]](#)

Employees may be disciplined or terminated, and students suspended or expelled, for violating this policy. Any attempted violation of 21CCCS' policies or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation.

#### **Consequences for Inappropriate Use**

Illegal use of 21CCCS technology resources includes, but is not limited to: intentional copying, deletion or damage to files or data belonging to others; copyright violations; or theft of services. Any illegal usage of 21CCCS technology resources will be immediately reported to the appropriate legal and/or law enforcement authorities for possible investigation and prosecution.[\[9\]](#)

General rules for behavior and communications apply when using the Internet or any 21CCCS technology resource. Suspension of access, loss of access, and other disciplinary actions may be consequences for inappropriate use. Vandalism may result in cancellation of access privileges, discipline, and possible criminal action.[\[9\]](#)

#### **Cessation of Access**

Upon the termination or ending of enrollment or employment or the termination of any contract with or from 21CCCS, no further access to or use of technology resources is permitted without the express authorization from the CEO.

#### **Education of Technology Resource Users**

21CCCS shall implement a program that educates students and staff about acceptable use and Internet safety associated with 21CCCS' technology resources. All students must complete a designated technology resources and Internet training prior to unsupervised use of 21CCCS technology resources, as required by the 2008 Broadband Data Improvement Act. This training includes, but is not limited to: appropriate online behavior, including interacting on social networking websites and in chat rooms; cyberbullying awareness and response; proper use of technology resources; restricted activities with technology resources; and access and monitoring of school-issued technology resources to students.[\[3\]](#)[\[17\]](#)

#### **No Additional Rights**

This policy is not intended for and does not grant users any contractual rights. Users of 21CCCS' technology resources must review this policy closely and sign and return to 21CCCS the form acknowledging receipt and acceptance of the terms in this policy, which is attached hereto. Venue for any legal action arising out of an alleged and/or actual violation of the attached agreement(s) shall be in Chester County, Pennsylvania.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Purpose**

The Board of Trustees of the 21st Century Cyber Charter School (21CCCS) provides computer network and technology resources to enhance educational opportunities for 21CCCS students, employees, and the 21CCCS community. This policy details acceptable use of technology resources provided by 21CCCS. These services and equipment are provided by 21CCCS as a privilege to the user, and appropriate and ethical use of any 21CCCS technology resources, tools, and equipment is required.

It is every technology resource user's (see "Definitions" below) duty to use technology resources responsibly, professionally, ethically, and lawfully. Access to these resources may be designated a privilege, not a right. This policy applies to the acceptable use of technology resources by both adults and minors.

This policy is intended to fulfill requirements of state and federal laws to the extent applicable, including the Federal Children's Internet Protection Act (CIPA), 47 U.S.C. 254(h) and (l) and the Neighborhood Children's Internet Protection Act (N-CIPA), the 2008 Broadband Improvement Act, P.L. 110-385, and any applicable implementing regulations. As such, this policy addresses the following:[\[1\]](#)[\[2\]](#)[\[3\]](#)[\[4\]](#)

1. Access by minors to inappropriate matter on the Internet and World Wide Web;
2. The safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;
3. Unauthorized access, including so-called hacking and other unlawful activities by minors online;
4. Unauthorized disclosure, use, and dissemination of personal information regarding minors; and
5. Measures designed to restrict minors' access to materials harmful to minors.

In using or accessing 21CCCS' technology resources, users must comply with the provisions outlined in this policy.

### **Definitions**

For the purposes of this policy and related procedures and forms, the following terms are defined as such:

Technology resources means technologies, devices, and resources used to access, store, or communicate information. This definition includes, but is not limited to: computers, information systems, networks, laptops, iPads or other tablet devices, modems, printers, scanners, fax machines and transmissions, telephonic

equipment, audiovisual equipment, digital cameras, e-readers (i.e. Kindles and Nooks), Internet, electronic mail, electronic communications devices and services, multimedia resources, hardware, and software, including Moodle software.

User means any person who has signed this policy and is permitted by 21CCCS to utilize any portion of 21CCCS' technology resources, including, but not limited to, students, parents/guardians, Learning Coaches, employees, Board of Trustees members, contractors, consultants, vendors, and agents of 21CCCS.

User identification (User ID) means any identifier that would allow a user access to 21CCCS's technology resources or to any program including, but not limited to, email and Internet access.

Password means a unique word, phrase, or combination of alphanumeric and non-alphanumeric characters used to authenticate a user ID as belonging to a specific user.

Child Pornography means, under federal law, any visual depiction, including any photograph, film, video, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct where:[\[5\]](#)

1. The production of such visual depiction involves the use of a minor engaging in sexually explicit conduct;
2. Such visual depiction is a digital image, computer image, or computer-generated image that is, or is indistinguishable from, that of a minor engaging in sexually explicit conduct; or
3. Such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct.

Under Pennsylvania law, child pornography is any book, magazine, pamphlet, slide, photograph, film, videotape, computer depiction, or other material depicting a child under the age of eighteen (18) years engaging in a prohibited sexual act or in the simulation of such act.[\[6\]](#)

Minor means, for purposes of compliance with CIPA, an individual who has not yet attained the age of seventeen (17). For other purposes, minor shall mean any person under the age of eighteen (18).

Obscene means, under federal and Pennsylvania law, any material if:[\[7\]](#)

1. The average person, applying contemporary community standards, would find that the material, taken as a whole, appeals to the prurient interest;
2. The subject matter depicts or describes sexual conduct in a patently offensive way; and
3. The subject matter, taken as a whole, lacks serious literary, artistic, political, or scientific value.

Technology protection measure means a specific technology that blocks or filters Internet access to content that is obscene, child pornography, or harmful to minors and the material covered by a certification regarding CIPA.[\[3\]](#)

Sexual act and sexual contact have the meanings given such terms under 18 U.S.C. § 2246(2), 18 U.S.C. § 2246(3), and 18 Pa.C.S.A. § 5903.[\[7\]](#)[\[8\]](#)

Vandalism means any malicious attempt to harm or destroy technology resources or data of another user, on the Internet, or on other networks. This includes, but is not limited to, the uploading or creation of computer viruses or malware.

## **Guidelines**

### **Authorized Users**

21CCCS's technology resources may be used by any authorized user. Use of 21CCCS's technology resources is a privilege, not a right. If a potential user has a history of discipline problems involving technology resources, the Chief Executive Officer (CEO) or designee may make the decision not to give the potential user access to certain 21CCCS technology resources.

### **User Privacy**

Computer accounts and technology resources are given to users to assist them in the performance of 21CCCS-related functions. A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving 21CCCS' technology resources, including email, in anything they create, store, send, share, access, view, or receive on or through the Internet.

By using 21CCCS' network and technology resources, all users are expressly waiving any right to privacy and consenting to having their electronic communications and all other use accessed, reviewed, and monitored by 21CCCS in accordance with 21CCCS policies and procedures. A user ID with email access will be provided to authorized users only on the conditions that the user consent to interception of or access to all communications accessed, sent, received, or stored using 21CCCS technology and sign this policy.

Electronic communications, downloaded material, and all data stored on 21CCCS' technology resources, including files deleted from a user's account, may be intercepted, accessed, or searched by 21CCCS administrators or designees at any time in the regular course of business to protect users and 21CCCS' equipment. Any such search, access, or interception will be reasonable in inception and scope and shall comply with all applicable laws.

### **Technology Administration**

The Board of Trustees directs the CEO or designee to assign trained personnel to maintain 21CCCS's technology in a manner that will protect 21CCCS from liability and will protect confidential student and employee information retained on or accessible through 21CCCS' technology resources.

Administrators may suspend access to and/or availability of 21CCCS' technology resources to diagnose and investigate network problems or potential violations of the law or 21CCCS policies and procedures. All 21CCCS technology resources are considered 21CCCS property.

21CCCS may maintain or improve technology resources at any time. 21CCCS or authorized 21CCCS agents may remove, change, or exchange hardware, equipment, or other technology between buildings, classrooms, or users at any time without prior notice.

### **Content Filtering and Monitoring**

School computers will be outfitted with software to enable school officials to remotely monitor and administer the computer. 21CCCS shall not remotely access any webcam or video camera on any computer or electronic device issued to a student without obtaining prior written permission from the parents/guardians (or student if age 18 or older). 21CCCS issued devices are configured with a content filter enabled to block inappropriate content in accordance with the Children's Internet Protection Act (CIPA). In addition, all devices are under enrollment in a mobile device management (MDM) service. This service is used to install software, apply updates, and provide additional device restrictions. It is a violation of school rules and school board policies to circumvent these services.

If users find a website deemed inappropriate, such website must be reported to CEO. After review of the site, appropriate steps will be taken to block an inappropriate site from users.[\[1\]](#)[\[3\]](#)[\[9\]](#)

For purposes of bona fide research or other lawful purposes, certain blocked sites may be made available—but only after approval by the CEO. In making decisions to disable 21CCCS' Technology Protection Measure device, the CEO or designee shall consider whether the use will serve a legitimate educational purpose or otherwise benefit 21CCCS. A student or parent/guardian claiming they have been denied access to Internet material that is not within the purview of this policy shall be afforded review of the request. The parent/guardian or student (if age eighteen (18) or older) must notify the CEO or designee electronically or in writing that they are requesting a reconsideration review within ten (10) school days. Once a decision is rendered, if the parent/guardian or student disagrees with the decision, the parent/guardian or student may escalate their request to the 21CCCS Board of Trustees.[\[1\]](#)[\[9\]](#)[\[10\]](#)

Technology Protection Measures are not foolproof, and 21CCCS does not warrant the effectiveness of Internet filtering except to the extent expressly required by federal and state laws. Evasion or disabling, or attempting to evade or disable, a Technology Protection Measure device installed by 21CCCS is prohibited.

21CCCS shall not be held responsible when a student or other user knowingly or willingly accesses inappropriate material or communicates or shares such materials with others.

### **Viruses**

Viruses can cause substantial damage to technology resources. Users are responsible for taking reasonable precautions to ensure they do not introduce viruses to 21CCCS' technology resources.

All material received on disk, flash drive, or other magnetic or optical medium, and all materials downloaded from the Internet or from technology resources or networks that do not belong to 21CCCS, must be scanned for viruses and other destructive programs before being transferred to 21CCCS' systems. Any user receiving an email from a questionable source must contact the Technology Department before opening the email or any attachment included in the email.

To ensure security and avoid the spread of viruses, users accessing the Internet through a technology resource attached to 21CCCS' network must do so through an approved Internet firewall or Technology Protection Measure.

### **Encryption Software**

Users shall not install or use encryption software on any 21CCCS technology resource without first obtaining written permission from the CEO. Users shall not use passwords or encryption keys that are unknown to the CEO.

The federal government has imposed restrictions on export of programs or files containing encryption technology. Software containing encryption technology shall not be placed on the Internet or transmitted in any way outside the United States.

### **Web Content Developed by Students**

As part of class/course assignments, students may be developing and/or publishing content to the Internet via Web pages, electronic and digital images, blogs, wikis, podcasts, vodcasts, and webcasts, and/or may be participating in videoconferences.

1. Personal information such as phone numbers, addresses, email addresses, or other specific personal information shall not be published or shared to a public page or videoconference.
2. All Web content must comply with this policy.
3. All Web content and videoconferencing must be under the direction and supervision of the teacher/administrator and Learning Coach and is to be used for educational purposes only.
4. All Web content is subject to copyright law and Fair Use guidelines.
5. All Web content shall be posted only to 21CCCS–approved Web pages, blogs, wikis, podcasts, webcasts, vodcasts, and/or videoconferences.

### **Prohibitions**

Students, staff, and all users are expected to act in a responsible, ethical, and legal manner in accordance with 21CCCS policies and federal and state laws. Specifically, the following uses of 21CCCS' technology resources are prohibited:

1. To facilitate illegal activity, including unauthorized access and hacking.
2. Evasion or disabling, or attempting to evade or disable, a Technology Protection Measure device installed by 21CCCS.
3. To engage in commercial, for-profit, or any business purposes, except where such activities are otherwise permitted or otherwise authorized.
4. Non-work or non-school-related work.
5. Product advertisement or political lobbying.
6. Production or distribution of hate mail, unlawful discriminatory remarks, and offensive or inflammatory communication.
7. Unauthorized or illegal installation, distribution, reproduction, or use of copyrighted materials.
8. To access or transmit material that is harmful to minors and/or users, indecent, obscene, pornographic, child pornographic, or terroristic, or that advocates the destruction of property.
9. Use of inappropriate language or profanity.
10. To transmit material likely to be offensive or objectionable to recipients.
11. To intentionally obtain or modify files, data, and passwords belonging to other users or integral to system and network operations.
12. Impersonation of another user, anonymity, and/or use of pseudonyms.

13. Installing or use of unauthorized games, programs, files, or other electronic media.
14. To disrupt the work of other users.
15. Destruction, modification, or abuse of technology resources and peripheral hardware or software.
16. Relocation of 21CCCS hardware without prior administrative consent.
17. Quoting personal and/or private communications in a public forum without the original author's prior consent.
18. To access or use any form of non-21CCCS electronic mail on 21CCCS technology resources unless authorized by the CEO or designee.
19. Using the network to participate in online or real-time conversations unless authorized by the teacher/administrator for the purpose of communicating with other classes, students, teachers, experts and/or professionals for educational purposes.
20. Using a disk, removable storage device, or CD/DVD, brought into 21CCCS from an outside source, that has not been properly scanned for viruses or authorized for use by a teacher/administrator in accordance with 21CCCS established procedures.
21. To discriminate against, advocate violence against, harass, intimidate, bully, or cyberbully others.
22. To send unsolicited or forwarded emails and chain letters to persons ("spamming").
23. Using "spoofing" or other means to disguise user identities in sending email or other electronic communication via bulletin boards, newsgroups, social networking sites, instant messages, email systems, chat groups, chat rooms, or other technology resources.
24. To send, transmit, or otherwise disseminate proprietary data, trade secrets, or other confidential information of 21CCCS.
25. To post or allow the posting of personal information about oneself or other people on the technology resource unless authorized in advance by the CEO. Personal information includes address, telephone number (including home, work, and cell phone numbers), school address, work address, pictures or video bites, clips and so forth.
26. To refer to or attempt to refer to 21CCCS or its employees, agents, trustees, parents/guardians, or students in any electronic communication, posting, blog, website, email, or social networking site, without written authorization from the CEO.
27. To access or transmit gambling, pools for money, or any other betting or games of chance.
28. Using technology resources to solicit information with the intent of using such information to cause personal harm or bodily injury to another or others.
29. Using technology resources to post, share, or attempt to post or share information that could endanger an individual or cause personal damage or a danger of service disruption.
30. Indirectly or directly making connections that create "back doors" to 21CCCS, other organizations, community groups, etc., that allow unauthorized access to the technology resources or 21CCCS.
31. Use of school-issued devices or 21CCCS internet resources or accounts outside of the United States of America without the prior written consent of the CEO.

### **Security**

21CCCS intends to strictly protect its technology resources against numerous outside and internal risks and vulnerabilities. Users are important and critical players in protecting these assets and in lessening the risks that can harm technology resources. Therefore, users are required to comply fully with this policy and to immediately report any violations or suspicious activities to the CEO.

System security is protected in part by the use of passwords. All passwords must be at least eight (8) characters and include alphanumeric and special characters.

Employee users will be required to change their passwords every thirty (30) days.

Student users will be required to change their passwords every six (6) months.

21CCCS will maintain a password history that prevents the use of a repetitive password.

After three (3) unsuccessful access attempts, an attempted user will be locked out and must contact the Help Desk.

After a period of 60 (sixty) minutes of inactivity, a user will be automatically logged off the system.

In addition, there may be circumstances that warrant the change of a password, including but not limited to the following:

1. The user's laptop has been replaced with a new unit;
2. There has been a record or report of a virus or other potentially dangerous software or malware on the user's system;
3. The user's system has been compromised by hacking or there is a reasonable suspicion of such activity;
4. The user has admitted to sharing a password, or there are reasons to believe that a user's password has been shared, with another student or other non-authorized user; or
5. Other reasons determined by the 21CCCS Technology Department.

Failure to adequately protect or update passwords could result in unauthorized access to personal or 21CCCS files. Users shall be responsible for safeguarding their passwords for access to 21CCCS's technology resources and for all transactions made using their passwords. To protect the integrity of 21CCCS technology resources and systems, the following guidelines shall be enforced:

1. Students and other users shall not reveal their passwords to another unauthorized individual.
2. Passwords shall not be printed or stored online.
3. Students and other users are required to log off from the network when they finish working at a particular station.
4. Users are not to use a computer that has been logged in under another student's, teacher's or user's name.
5. Any user identified by the CEO or designee as having a history of discipline problems involving technology resources may be denied access to any or all of 21CCCS' technology resources.
6. Students and other users shall not alter a communication originally received from another person or computer with the intent to deceive.
7. Users shall not misrepresent the identity of a sender or source of communication.
8. Users shall not disable or circumvent any 21CCCS security, software or hardware.
9. Users shall not interfere with or disrupt 21CCCS' systems, network accounts, services, or equipment.
10. Files, system security software/hardware, or any 21CCCS system shall not be altered or attempt to be altered without the written authorization of the CEO or designee.
11. Unauthorized hardware and electronic devices shall not be connected to the 21CCCS system.
12. Users shall comply with requests from the CEO or designee to discontinue activities that threaten the operation or integrity of the 21CCCS system.

Use of passwords to gain access to technology resources or to encode particular files or messages does not imply that users have an expectation of privacy in the material they create or receive on technology resources. 21CCCS retains the right to access all material stored on the technology resources regardless of whether that material has been encoded with a particular user's password, subject to limitations as set forth in 21CCCS' Remote Access and Monitoring of School-Issued Technology Policy as well as applicable law.

Users shall not alter or copy a file belonging to another user without first obtaining permission from the owner of the file. Ability to read, alter, or copy a file belonging to another user does not imply permission to read, alter, or copy that file. Users shall not use the technology resources to snoop or pry into the affairs of other users by unnecessarily reviewing the files and emails of another.

A user's ability to connect to another computer's system through the network or by any other electronic means shall not imply a right to connect to those systems or make use of those systems unless specifically authorized by the administrators of those systems and the CEO. Users shall not use the technology resources to snoop or pry into the affairs of other users by unnecessarily or inappropriately reviewing the files and/or emails of another.

### **Safety**

To the greatest extent possible, users of the network will be protected from harassment or unwanted or unsolicited communication. Any network user who receives threatening or unwelcome communications shall immediately bring them to the attention of a teacher, staff member, or administrator.

Communications through 21CCCS technology resources are limited to only those which serve a demonstrable educational purpose. For safety reasons, 21CCCS users shall not reveal personal addresses, contact information or telephone numbers to other users on 21CCCS networks or on the Internet.

The CEO or designee shall be responsible for implementing protection measures to determine whether 21CCCS' computers, laptops, iPads, Kindles, tablets and other technology resources and technology-related devices (such as USB drives, digital cameras and video cameras, PDAs, MP3 players, printers, etc.) are being used for purposes prohibited by law or for accessing sexually explicit materials. The procedures shall include but not be limited to: [\[1\]](#)[\[2\]](#)[\[3\]](#)

1. Utilizing technology protection measures that block or filter Internet access for minors and adults to certain visual depictions that are obscene, child pornography, harmful to minors with respect to use by minors, or determined inappropriate for use by minors by the Board of Trustees.
2. Maintaining a listing of all employees and users with access to the room which contains 21CCCS' server.
3. Generating and maintaining monitoring reports (including firewall logs) of user activity and remote access on 21CCCS' system by all users, including but not limited to students, employees, contractors, consultants, and/or vendors.
  - a. The report should include the date, time, and reason for access; whether it was remote access; the changes made; and who made the changes.
4. Maintaining documentation that students no longer enrolled at 21CCCS as well as terminated employees and contractors/vendors or those with expired contracts have been properly removed from 21CCCS' system in a timely manner.
5. Analyzing the impact of proposed program changes in relation to other critical business functions before adopting the proposed program changes.
6. Developing compensating controls to mitigate IT weakness and alert 21CCCS to unauthorized changes to student data, i.e., reconciliations to manual records, analysis of student trends, data entry procedures and review, etc.

### **Vendors**

If 21CCCS shares internally sensitive, legally-and/or contractually-restricted 21CCCS data with parties outside the 21CCCS community, 21CCCS shall first enter into a Non-Disclosure Agreement with the party. The Non-Disclosure Agreement is needed to protect 21CCCS' proprietary or otherwise sensitive information. Non-Disclosure Agreements are typically needed when entering into a business relationship with vendors, consultants, and contractors. All Non-Disclosure Agreements must be reviewed by 21CCCS' legal counsel before signing.

All vendors, consultants, and/or contractors shall be granted access to 21CCCS' technology resources only to make changes or updates with prior written authorization from the CEO or designee. Once the vendor, consultant, and/or contractor have completed their work, access to 21CCCS' systems will be removed.

Vendors, consultants, and contractors are required to assign unique user IDs and passwords to each of their employees authorized to access 21CCCS' system. Vendors, consultants, and/or contractors may be terminated for violating this policy and/or violating any state or federal laws.

All vendors, consultants, and/or contractors and their employees who have direct contact with students must comply with the mandatory Pennsylvania background check requirements for federal and state criminal history and child abuse. An official child abuse clearance statement for each of the vendors', consultants' and/or contractors' employees shall be submitted to 21CCCS prior to beginning employment with 21CCCS. Failure to comply with the background checks as required by applicable law or legal regulations and/or the Pennsylvania Department of Education shall lead to immediate termination or non-hire. [\[11\]](#)[\[12\]](#)[\[13\]](#)

### **Closed Forum**

21CCCS' technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law.

All expressive activities involving 21CCCS technology resources that students, parents/guardians, and members of the public might reasonably perceive to bear the approval of 21CCCS and that are designed to impart particular knowledge or skills to student participants and audiences are considered curricular publications. All curricular publications are subject to reasonable prior restraint, editing, and deletion, to the fullest extent permitted by applicable law, on behalf of 21CCCS for legitimate educational reasons. All other expressive activities involving 21CCCS's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by applicable law and Board of Trustees Policies.

### **Records Retention**

21CCCS personnel shall establish a retention schedule for the regular archiving or deletion of data stored on 21CCCS technology resources that complies with 21CCCS' Record Retention and Destruction Policy as well as all federal and Pennsylvania state laws and regulations. It is the user's responsibility to know which records are subject to these conditions and to comply with these laws and regulations or to contact the CEO for clarification.

In the case of pending or threatened litigation, 21CCCS' attorney will issue a litigation hold directive to the CEO or designee. A hold directive will direct all 21CCCS administration and staff or agents not to delete or destroy any electronic mail or other documentation on a computer as related to a specific student, employee, and issue for a specific time period. Failure to follow such a directive could result in negative legal consequences for the user and/or within the actual or threatened litigation. The litigation hold directive will override any records retention schedule that may have otherwise called for the transfer, disposal, or destruction of relevant documents until the hold has been lifted by 21CCCS' attorney.

Email and computer accounts of separated employees that have been placed on a litigation hold will be maintained by 21CCCS until the hold is released. No employee who has been so notified of a litigation hold may alter or delete any electronic record that falls within the scope of the hold. Violation of the hold may subject the individual to disciplinary actions, up to and including termination of employment, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

### **Drafting Emails**

Emails may appear informal, as email messages are sometimes offhand like a conversation and are often not as carefully thought out as a letter or memorandum. Like any other document, an email message or other computer information can later be used to indicate what a user knew or felt. You should keep this in mind when creating email messages and other documents. Even after you delete an email message or close a computer session, it may still be recoverable and may remain on the system. Email communications are discoverable during litigation and, therefore, will have to be turned over to the opposing party unless it is determined to be privileged by 21CCCS' legal counsel.

### **Privileged Attorney-Client Communications**

Confidential emails sent to or retained from counsel or an attorney representing 21CCCS shall include this warning header on each page: "ATTORNEY CLIENT PRIVILEGED" and/or "ATTORNEY CLIENT PRIVILEGED: DO NOT FORWARD WITHOUT PERMISSION."

### **No Warranty/No Endorsement**

21CCCS makes no warranties of any kind, whether expressed or implied, for the services, products, or access it provides.

The electronic information available to students and staff on the Internet or through web-based services does not imply endorsement of the content by 21CCCS, with the exception of resources approved and adopted by the Board of Trustees. Nor does 21CCCS guarantee the accuracy of information received using 21CCCS' technology resources.

21CCCS is not and shall not be responsible for the loss of data, delays, nondeliveries, misdeliveries, or service interruptions. 21CCCS is not and shall not be responsible for any information that may be damaged or unavailable when using 21CCCS technology resources or for any information that is retrieved via the Internet. 21CCCS is not and shall not be responsible for any damages incurred as the result of using 21CCCS technology

resources, including but not limited to the loss of personal property used to access a technology resource. Further, 21CCCS is not and shall not be responsible for any unauthorized charges or fees resulting from access to the Internet or other commercial online services.

**Unauthorized Disclosure of Information of Minors**

It is a violation of state laws, including but not limited to Chapter 12 of Title 22 of the Pennsylvania Code, as well as The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g) and all other federal laws and regulations, to access data of a student the user does not have a legitimate educational interest in or to disclose information about a student without parental permission or absent an exception to the disclosure requirements. Access and distribution of student data is recorded. [\[14\]](#)[\[15\]](#)

Questions regarding the disclosure of student information must be directed to the CEO prior to disclosure and must conform to 21CCCS’ Student Records Policy. Unauthorized disclosure, use, and/or dissemination of personal information regarding minors is prohibited.

**Damages**

Users shall be responsible for damage to technology resources, equipment, systems, and/or software. All damage incurred due to a user's intentional or negligent misuse of 21CCCS’ technology resources, including loss of property and staff time, may be charged to the user. 21CCCS administrators have the authority to sign any criminal complaint regarding damage to 21CCCS technology.

**Technology Optional Insurance**

The technology devices provided by 21st Century Cyber Charter School are expensive devices that require students to follow usage guidelines and use caution when handling the devices. All students are assigned a MacBook Air and an iPad. A charger is also provided for each device. It is the student’s responsibility to care for the devices and any accessories. **The technology optional insurance is highly recommended, but not required.** The annual fee covers the cost of repairing devices. Fees are capped at a maximum of two fees per household. The optional insurance cost for the current school year is as follows:

| Per Student Cost | Per Student Cost Qualifies for Reduced Lunch Status | Per Student Cost Qualifies for Free Lunch Status | Per Student Cost Opt Out |
|------------------|-----------------------------------------------------|--------------------------------------------------|--------------------------|
| \$25             | \$10                                                | \$0                                              | \$0                      |

If the MacBook Air or iPad is stolen or lost, including as a result of fire or other natural disaster, you must notify the school immediately and file a police report for stolen devices. It is highly recommended to add the devices to your homeowners or renters insurance policy. The student will be responsible for the cost of stolen or lost devices at the respective fee:

|                      |          |
|----------------------|----------|
| MacBook Air          | \$699.00 |
| MacBook Air Charger  | \$72.00  |
| iPad                 | \$294.00 |
| iPad Charger         | \$19.00  |
| iPad Lightning Cable | \$19.00  |

Should there be any damage to the devices, it must be reported within 24 hours and the Technology Department will determine if the damage was deliberate or as a result of deterioration from use. Any damage caused deliberately will be classified as vandalism. Students will be billed for repairs caused by vandalism and disciplinary action may occur. The optional insurance covers the first incident of the school year, including damage due to negligence or vandalism. Subsequent incidents will incur a deductible based on the tier of damage.

**Important Notes:**

- The optional insurance MUST be paid prior to an incident occurring. It will not be applied retroactively.
- If the damage involves multiple tiers you will be charged the highest of the tiers.
- Examples of negligence or vandalism include, but are not limited to:

- Lying or misrepresenting information on the damage reported
- Not reporting damages on time
- Damage caused by drops, falls, collisions or liquid spills

The following shows deductible costs based on tier and type of damage.

| Device Type | Damage Tier | Type of Damage                                | Subsequent Incident Cost with Tech Fee | ANY Incident Cost WITHOUT Tech Fee |

1. Notify the student's Family Support Coordinator immediately;
2. Immediately file a true and accurate report with the local police department and/or law enforcement agency;
3. Immediately submit a copy of the report via email, fax or US Mail to the IT Director at the 21st Century Cyber Charter School; and

Users shall not copy and distribute copyrighted material (e.g., software, database files, documentation, articles, graphics files, and downloaded information) through the email system or by any other means unless it is confirmed in advance from appropriate sources that 21CCCS has the right to copy or distribute the material. Failure to observe a copyright may result in disciplinary action by 21CCCS as well as legal action by the copyright owner. Any questions concerning these rights should be directed to the CEO or designee.[\[16\]](#)

#### **Violations of Acceptable Technology Usage Policies and Procedures**

Use of technology resources and equipment in a disruptive, manifestly inappropriate or illegal manner impairs 21CCCS' mission and squanders resources, and it shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to 21CCCS' technology resources. Any violation of 21CCCS policies or procedures regarding technology usage may result in temporary, long-term, or permanent suspension of user privileges. User privileges may be suspended pending investigation into the use of 21CCCS' technology resources and equipment.[\[9\]](#)

Employees may be disciplined or terminated, and students suspended or expelled, for violating this policy. Any attempted violation of 21CCCS' policies or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation.

#### **Consequences for Inappropriate Use**

Illegal use of 21CCCS technology resources includes, but is not limited to: intentional copying, deletion or damage to files or data belonging to others; copyright violations; or theft of services. Any illegal usage of 21CCCS technology resources will be immediately reported to the appropriate legal and/or law enforcement authorities for possible investigation and prosecution.[\[9\]](#)

General rules for behavior and communications apply when using the Internet or any 21CCCS technology resource. Suspension of access, loss of access, and other disciplinary actions may be consequences for inappropriate use. All students must complete a designated technology resources and Internet training prior to unsupervised use of 21CCCS technology resources, as required by the 2008 Broadband Data Improvement Act. This training includes, but is not limited to: appropriate online behavior, including interacting on social networking websites and in chat rooms; cyberbullying awareness and response; proper use of technology resources; restricted activities with technology resources; and access and monitoring of school-issued technology resources to students.[\[3\]](#)[\[17\]](#)

The school provides email to facilitate communication, to aid students and staff members in fulfilling their duties and responsibilities, and as an educational tool.

The school's email system and network resources are the property of the school; users will have no expectation of privacy in any messages they create, store, send, delete, receive or display on the school's email system. Consequences for inappropriate use of the school's email system will be in accordance with Board policy on Acceptable Use Of Internet, Computers And Network Resources. All school email users must comply with Board policy.

School employees are assigned a school email account in accordance with assigned job responsibilities.

School Board members, contractors, consultants or third parties may be assigned school email accounts on a case-by-case basis, as determined by the Director of Technology.

The school permits incidental personal use of the email system by school employees. Incidental personal use is use of the email system that does not consume more than a trivial amount of school resources; does not interfere with staff productivity; and does not preempt any business activity.

### **Safety And Etiquette**

1. Do not provide personal identification information about yourself or other users in email messages (i.e., home address or telephone number).
2. Users should spell check and proofread all emails prior to transmission.
3. Emails should be brief but clear; avoid abbreviations unless certain the reader will understand them.
4. Avoid using all capitals, as it may be perceived as shouting; use other formatting or language for emphasis.
5. When sending attachments, avoid large files and let the recipient know in the body of the message what the attachment is and why it is being sent.
6. Use meaningful subject lines and avoid leaving the subject line blank.
7. Emails transmitted via the school email system carry the school's Internet domain; this domain name is a registered domain name and identifies the author as being with the charter school. Great care should be taken in the composition of email messages and how they might reflect on the name and reputation of the school. Users will be held personally responsible for the content of any and all electronic mail messages transmitted.

8. Email is not an appropriate debating forum; do not use email to enter into discussion when it would be more appropriate to have a face-to-face meeting or make contact by phone. Do not use email as a means of avoiding direct contact.

### **Security and Recordkeeping**

Users should not open email messages or attachments from suspicious and unknown senders; messages should be deleted or forwarded to a network administrator.

The email system should not be used to disseminate personal and confidential information; however, it may be used for this purpose when there is a specific business-related purpose and appropriate safeguards are in place.

The email system should not be considered a permanent storage repository for information such as student records, financial records, personnel files, etc. Critical information must be stored separately on the school network and/or retained in hard copy format in accordance with the Records Management Plan and Records Retention Schedule.

### **Employee Email Use**

School employees must check their email during work day at least once daily to ensure essential communications are received.

It is important to respond to email messages as quickly as possible. When time constraints or workload prevent timely responses, acknowledge to the sender that the message was received and a thorough response will be forthcoming.

Emails, text messages or other forms of electronic messaging generated by teachers and staff to students must be directed to entire school-sponsored student groups, clubs or teams and involve only issues specifically related to classroom work or sport/activity-related information. Electronic messages will be for the purpose of informing students of time-sensitive information such as canceled practices, reminders, rescheduling or classroom-specific assignments.

Teachers and staff may respond to individual students via email when it involves issues specifically related to classroom work or sport/activity-related information.

Email messaging to students should be done through the staff member's school email account and should be for school-related purposes and a copy of the email should be provided in student's communication log.

Employee email signatures should contain the employee's name, position, school, school phone number and the school's website address.

Exclusion from School may take the form of suspension or expulsion;

(1) Suspension is exclusion from school for a period of from one (1) to ten (10) consecutive school days.

(i) Suspensions may be given by the Chief Executive Officer or his designee of 21st Century Cyber Charter School (21CCCS).

(ii) A student may not be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health, safety or welfare of the school community is threatened.

(iii) The parents or guardians shall be notified immediately in writing when the student is suspended.

(iv) When the suspension exceeds three (3) school days, the student and parent shall be given the opportunity for an informal hearing consistent with the requirements of the Pennsylvania Code.

(v) Suspensions may not be made to run consecutively beyond the ten (10) school day period.

(vi) Students shall have the responsibility to make up exams and work missed while being disciplined by suspension and shall be permitted to complete these assignments within guidelines established by the Board of Trustees ("Board").

(2) Expulsion is exclusion from school by the Board for a period exceeding ten (10) school days and may be permanent expulsion from the school rolls. Expulsions require a prior formal hearing pursuant to the Pennsylvania Code.

(i) During the period prior to the hearing and decision of the Board in an expulsion case, the student shall be placed in their normal class except as set forth in subsection (ii).

(ii) If it is determined after an informal hearing that a student's presence in their normal class would constitute a threat to the health, safety or welfare of others and it is not possible to hold a formal hearing within the period of a suspension, the student may be excluded from school for more than ten (10) school days. A student may not be excluded from school for longer than fifteen (15) school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.

(iii) Students who are under 17 years of age are still subject to the compulsory school attendance law even though expelled and shall be provided an education.

(1) The initial responsibility for providing the required education rests with the student's parents or guardian, through placement in another school, tutorial or correspondence study, or another educational program approved by the CEO.

(2) Within thirty (30) days of action by the Board, the parents or guardians shall submit to 21CCCS written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardians are unable to provide the required education, 21CCCS, within the (10) days of receipt of the notification, make provision for the student's education. A student with a disability shall be provided educational services as required by the Individuals with Disabilities Education Act 2004.

(3) If the approved educational program is not complied with, 21CCCS may take action in accordance with 42 Pa.C.S. Chapter 63 (relating to the Juvenile Act) to ensure that the child will receive a proper education. See Pennsylvania Code § 12.1(b) (relating to free education and attendance).

## **Hearings**

(a) *General.* Education is a statutory right, and students shall be afforded due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to a formal hearing.

(b) *Formal hearings.* A formal hearing is required in all expulsion actions. The hearing may be held before the Board or an authorized committee of the Board, or a qualified hearing examiner appointed by the Board. When a committee of the Board or a hearing examiner conducts the hearing, a majority vote of the entire Board is required to expel a student. The following due process requirements shall be observed with regard to the formal hearing:

(1) Notification of the charges shall be sent to the student's parents or guardians by certified mail.

(2) At least three (3) days' notice of the time and place of the hearing shall be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures shall be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.

(3) The hearing shall be held in private unless the student or parent requests a public hearing.

(4) The student may be represented by counsel, at the expense of the parents or guardians, and may have a parent or guardian attend the hearing.

(5) The student has the right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.

(6) The student has the right to request that the witnesses appear in person and answer questions or be cross-examined.

(7) The student has the right to testify and present witnesses on their own behalf.

(8) A written or audio record shall be kept of the hearing. The student is entitled, at the student's expense, to a copy. A copy shall be provided at no cost to a student who is indigent.

(9) The proceeding shall be held within fifteen (15) school days of the notification of charges, unless mutually agreed to by both parties. A hearing may be delayed for any of the following reasons, in which case the hearing shall be held as soon as reasonably possible:

(i) Laboratory reports are needed from law enforcement agencies.

(ii) Evaluations or other court or administrative proceedings are pending due to a student invoking their rights under the Individuals With Disabilities Education Act 2004 (20 U.S.C.A. § 1400—1482).

(iii) In cases in juvenile or criminal court involving sexual assault or serious bodily injury, delay is necessary due to the condition or best interests of the victim.

(10) Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

(c) *Informal hearings.* The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended.

(1) The informal hearing is held to bring forth all relevant information regarding the event for which the student may be suspended and for students, their parents or guardians and school officials to discuss ways by which future offenses might be avoided.

(2) The following due process requirements shall be observed in regard to the informal hearing:

(i) Notification of the reasons for the suspension shall be given in writing to the parents or guardians and to the student.

(ii) Sufficient notice of the time and place of the informal hearing shall be given.

(iii) (iv) (v) A student has the right to question any witnesses present at the hearing. A student has the right to speak and produce witnesses on their own behalf.

21CCCS shall offer to hold the informal hearing within the first five (5) days of the suspension.

### **Discipline of Students with Disabilities**

21CCCS shall comply with the Individuals with Disabilities Education Improvement Act (IDEA 2004) and any applicable federal and state statutes or regulations when disciplining students with disabilities. Students with disabilities who engage in inappropriate behavior, disruptive or prohibited activities, and/or conduct injurious to themselves or others shall be disciplined in accordance with their Individualized Education Programs (IEP), behavioral intervention plan, Title 22 Chapter 711 and relevant portions of Chapter 12 of the State Board of Education Regulations, IDEA 2004, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and any other applicable federal or state law.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Purpose**

The Board of Trustees (Board) adopts this policy to ensure that contractors comply with certain legal requirements regarding contractor employees involved in the delivery of services to the Charter School. This policy is adopted to outline those requirements and the manner in which the Charter School shall direct and monitor contractor compliance.

### **Definitions**

For purposes of this policy, contractor employee shall include an individual who:

1. Is employed or offered employment by an independent contractor or a subcontractor of an independent contractor, or is an individual independent contractor; and
2. Has or will have direct contact with children.

Direct Contact with Children - the possibility of care, supervision, guidance or control of children or routine interaction with children.[\[1\]](#)

For purposes of this policy, independent contractor shall mean an individual or entity that contracts with the Charter School to provide services.

### **Authority**

The Charter School is required by law to ensure that independent contractors and contractor employees comply with the mandatory background check requirements for criminal history and child abuse certifications, the employment history review requirement, and the arrest and conviction reporting requirements.[\[2\]](#)[\[3\]](#)[\[4\]](#)

### **Guidelines**

Prior to using contracted services, a written contractual agreement shall be entered into between the Charter School and the independent contractor and maintained centrally by the Charter School in a manner similar to that for other contracts. Requests for proposals, bid specifications for proposals and resulting contracts shall specify the following:

1. Mandatory requirements for criminal history background checks, child abuse certifications, employment history reviews, and arrest and conviction reporting for contracted services involving direct contact with children, as mandated by law and set forth in this policy.[\[5\]](#)
2. That failure to comply with this policy and the requirements for criminal history background checks and child abuse certifications, employment history reviews, and required reporting of employee arrests, convictions or other misconduct by an independent contractor or contractor employee shall be grounds for termination of the contract.

The Chief Executive Officer or designee shall review all information provided pursuant to this policy and determine if information is disclosed that precludes employment or continued service of an independent contractor or contractor employee.[\[2\]](#)[\[3\]](#)[\[4\]](#)[\[5\]](#)[\[6\]](#)

Information submitted by an independent contractor or contractor employee in accordance with this policy shall be maintained centrally in a manner similar to that for Charter School employees.

### **Pre-Employment Requirements**

#### *Employment History Review -*

Independent contractors shall conduct an employment history review, in compliance with state law, prior to assignment of a contractor employee to perform work for the Charter School in a position or assignment involving direct contact with children. The independent contractor may use the information for the purpose of evaluating an applicant's fitness to be hired or for continued employment of a current contractor employee and may report the information as permitted by law.[\[4\]](#)

Independent contractors shall inform the Charter School, in writing, upon receipt of an affirmative response to any of the abuse and sexual misconduct background questions for a contractor employee. If the Charter School objects to the assignment, the independent contractor may not assign the contractor employee to the Charter School.[\[4\]](#)

Contractor employees providing services for students shall undergo a test for tuberculosis in accordance with the regulations and guidance of the Pennsylvania Department of Health.[\[7\]](#)[\[8\]](#)

### **Arrest and Conviction Reporting Requirements**

All independent contractors shall adopt policies and procedures that require their employees, who are providing services to the Charter School and who have direct contact with children, to notify the independent contractor, in writing, within seventy-two (72) hours of the occurrence, of an arrest or conviction required to be reported by law. Contractor employees shall also be required to report to the independent contractor, within seventy-two (72) hours of notification, that the employee has been named as a perpetrator in a founded or indicated report pursuant to the Child Protective Services Law. The policies and procedures shall also include the provision that the failure on the part of contractor employees to make such a timely notification shall subject them to disciplinary action, including termination.[\[3\]](#)[\[6\]](#)

If the independent contractor receives notice of such arrest or conviction or that the contractor employee has been named as a perpetrator in a founded or indicated report, from either the contractor employee or a third party, the independent contractor shall immediately report, in writing, that information to the Chief Executive Officer or designee.

The independent contractor shall immediately require a contractor employee to submit new certifications when there is a reasonable belief that the employee was arrested for or has been convicted of an offense required to be reported by law, was named as a perpetrator in a founded or indicated report, or has provided written notice of such occurrence.[\[3\]](#)[\[6\]](#)

Contractor employees who provide transportation services shall immediately notify the independent contractor and the Charter School of any traffic citations or the suspension, revocation or cancellation of operating privileges.[\[9\]](#)

### **Educator Misconduct**

If the Chief Executive Officer or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Educator Discipline Act, the Chief Executive Officer or designee shall notify the Pennsylvania Department of Education, in accordance with applicable law, regulations and Board policy.[\[10\]](#)

### **Training**

Independent contractors shall provide their employees who have direct contact with children with mandatory training on child abuse recognition and reporting. The training shall include, but not be limited to, the following topics:[\[1\]](#)

2. Provisions of the Educator Discipline Act, including mandatory reporting requirements.[\[11\]](#)
3. Board policy related to reporting of suspected abuse and sexual misconduct.
4. Maintenance of professional and appropriate relationships with students.

Employees of independent contractors who have direct contact with children are required to complete a minimum of three (3) hours of training every five (5) years.[\[1\]](#)

Contractor employees shall attend orientation and training sessions, as appropriate to the nature of their service. When training is provided for Charter School employees relating to the legal obligations of employers and educational institutions, consideration shall be given to which contractor employees should also receive that training.

### **Child Abuse Reporting**

All contractor employees who have reasonable cause to suspect that a child is the victim of child abuse shall make a report of suspected child abuse in accordance with applicable law, Board policy and administrative procedures.[\[12\]](#)

### **Confidentiality**

No contractor employee shall be permitted access to confidential student information unless the Charter School has determined that such access is necessary for the contractor employee to fulfill their responsibilities. Contractor employees with access to confidential student information shall maintain the confidentiality of that information in accordance with Board policies and procedures and applicable law. If a contractor employee has questions about the confidentiality of student information, the contractor employee should consult with the building administrator.

### Prevention

Staff Professional Development- All staff, including but not limited to administrators, teachers, paraprofessionals, support staff, coaches and custodians will receive annual professional development on risk factors, warning signs, protective factors, response procedures, referrals, postvention, and resources regarding youth suicide prevention. The professional development will include additional information regarding groups of students at elevated risk for suicide, including those living with mental and/or substance use disorders, those who engage in self harm or have attempted suicide, those in out-of-home settings, those experiencing homelessness, American Indian/Alaska Native students, LGBTQ (lesbian, gay, bisexual, transgender, and questioning) students, students bereaved by suicide, and those with medical conditions or certain types of disabilities. As part of 21CCCS' Professional Development Plan, professional staff serving students in grades six (6) through twelve (12) shall participate in four (4) hours of youth suicide awareness and prevention training every five (5) years. Youth Suicide Prevention Programming- Developmentally-appropriate, student-centered education materials will be integrated into the curriculum of all 6-12 health classes. The content of these age-appropriate materials will include: 1) the importance of safe and healthy choices and coping strategies, 2) how to recognize risk factors and warning signs of mental disorders and suicide in oneself and others, 3) help-seeking strategies for oneself or others, including how to engage school resources and refer friends for help. In addition, schools may provide supplemental small group suicide prevention programming for students.

### Assessment and Referral

When a student is identified by a staff person as potentially suicidal, i.e., verbalizes about suicide, presents overt risk factors such as agitation or intoxication, the act of self-harm occurs, or a student self-refers, the student will be seen by a school employed mental health professional within the same school day to assess risk and facilitate referral. If there is no mental health professional available, a school nurse or administrator will fill this role until a mental health professional can be brought in.

### For Youth at Risk

1. School staff will continuously supervise the student to ensure their safety.
2. The principal and guidance counselor will be made aware of the situation as soon as reasonably possible.
3. The school employed mental health professional or principal will contact the student's parent or guardian, as described in the Parental Notification and Involvement section, and will assist the family with urgent referral. When appropriate, this may include calling emergency services or bringing the student to the local Emergency Department, but in most cases will involve setting up an outpatient mental health or primary care appointment and communicating the reason for referral to the healthcare provider.
4. Staff will ask the student's parent or guardian for written permission to discuss the student's health with outside care, if appropriate.

### Suicide Attempts

If a staff member becomes aware of a suicide attempt by a student that is in progress in an out-of-school location, the staff member will:

1. Call the police and/or emergency medical services, such as 911.
2. Inform the student's parent or guardian.
3. Inform the school guidance counselor and principal.

If the student contacts the staff member and expresses suicidal ideation, the staff member should maintain contact with the student (either in person, online, or on the phone). The staff member should then enlist the assistance of another person to contact the police while maintaining verbal engagement with the student.

### **Parental Notification and Involvement**

In situations where a student is assessed at risk for suicide or has made a suicide attempt, the student's parent or guardian will be informed as soon as practicable by the principal, designee, or mental health professional. If the student has exhibited any kind of suicidal behavior, the parent or guardian should be counseled on "means restriction," limiting the child's access to mechanisms for carrying out a suicide attempt. Staff will also seek parental permission to communicate with outside mental health care providers regarding their child. Through discussion with the student, the principal or school employed mental health professional will assess whether there is further risk of harm due to parent or guardian notification. If the principal, designee, or mental health professional believes, in their professional capacity, that contacting the parent or guardian would endanger the health or well-being of the student, they may delay such contact as appropriate. If contact is delayed, the reasons for the delay should be documented.

### **Re-entry Procedures**

For students returning to school after a mental health crisis (e.g., suicide attempt or psychiatric hospitalization), a school employed mental health professional, the principal, or designee will meet with the student's parent or guardian, and if appropriate, meet with the student to discuss re-entry and appropriate next steps to ensure the student's readiness for return to school.

1. A school employed mental health professional or other designee will be identified to coordinate with the student, their parent or guardian, and any outside mental health care providers.
2. The parent or guardian will provide documentation from a mental health care provider that the student has undergone examination and that they are no longer a danger to themselves or others.
3. The designated staff person will periodically check in with student to help the student readjust to the school community and address any ongoing concerns.

### **Postvention**

#### 1. Development and Implementation of an Action Plan

The crisis team will develop an action plan to guide school response following a death by suicide. A meeting of the crisis team to implement the action plan should take place immediately following news of the suicide death. The action plan may include the following steps:

a) **Verify the death.** Staff will confirm the death and determine the cause of death through communication with a coroner's office, local hospital, the student's parent or guardian, or police department. Even when a case is perceived as being an obvious instance of suicide, it should not be labeled as such until after a cause of death ruling has been made. If the cause of death has been confirmed as suicide but the parent or guardian will not permit the cause of death to be disclosed, the school will not share the cause of death but will use the opportunity to discuss suicide prevention with students.

b) **Assess the situation.** The crisis team will meet to prepare the postvention response, to consider how severely the death is likely to affect other students, and to determine which students are most likely to be affected. The crisis team will also consider how recently other traumatic events have occurred within the school community and the time of year of the suicide. If the death occurred during a school vacation, the need for or scale of postvention activities may be reduced.

c) **Share information.** Before the death is officially classified as a suicide by the coroner's office, the death can and should be reported to staff, students, and parents/guardians with an acknowledgement that its cause is unknown. Inform the faculty that a sudden death has occurred, preferably in a staff meeting. Write a statement for staff members to share with students. The

statement should include the basic facts of the death and known funeral arrangements (without providing details of the suicide method), recognition of the sorrow the news will cause, and information about the resources available to help students cope with their grief. The crisis team may prepare a letter (with the input and permission from the student's parent or guardian) to send home with students that includes facts about the death, information about what the school is doing to support students, the warning signs of suicidal behavior, and a list of resources available.

d) **Avoid suicide contagion.** It should be explained in the staff meeting described above that one purpose of trying to identify and give services to other high-risk students is to prevent another death. The crisis team will work with teachers to identify students who are most likely to be significantly affected by the death. In the staff meeting, the crisis team will review suicide warning signs and procedures for reporting students who generate concern.

e) **Initiate support services.** Students identified as being more likely to be affected by the death will be assessed by a school employed mental health professional to determine the level of support needed. The crisis team will coordinate support services for students and staff in need of individual and small group counseling as needed. In concert with parents or guardians, crisis team members will refer to community mental healthcare providers to ensure a smooth transition from the crisis intervention phase to meeting underlying or ongoing mental health needs.

f) **Develop memorial plans.** The school should not create on-campus physical memorials (e.g. photos, flowers), funeral services, or fly the flag at half-mast because it may sensationalize the death and encourage suicide contagion. School should not be canceled for the funeral. Any school-based memorials (e.g., small gatherings) will include a focus on how to prevent future suicides and prevention resources available.

## 2. External Communication

The school CEO or designee will be the sole media spokesperson. Staff will refer all inquiries from the media directly to the spokesperson. The spokesperson will:

a) Prepare a statement for the media including the facts of the death, postvention plans, and available resources. The statement will not include confidential information, speculation about victim motivation, means of suicide, or personal family information.

b) Answer all media inquiries. If a suicide is to be reported by news media, the spokesperson should encourage reporters not to make it a front-page story, not to use pictures of the suicide victim, not to use the word suicide in the caption of the story, not to describe the method of suicide, and not to use the phrase "suicide epidemic" – as this may elevate the risk of suicide contagion. They should also be encouraged not to link bullying to suicide and not to speculate about the reason for suicide. Media should be asked to offer the community information on suicide risk factors, warning signs, and resources available.

### **Overview**

In accordance with law, the Charter School establishes the following procedures for receiving, assessing and responding to reports received from the Safe2Say Something anonymous reporting program of the Pennsylvania Office of the Attorney General. (24 P.S. 1303-D)

These procedures establish a framework within which Charter School administrators and staff will operate and coordinate with the county emergency dispatch center and local law enforcement agencies.

Safe2Say Something reports may be submitted by any individual, including students, parents/guardians, staff and others as a secure and anonymous report about unsafe, potentially harmful, dangerous, violent or criminal activities in a school entity or threat of such activities in a school entity through:

1. A twenty-four (24) hours a day, seven (7) days a week telephone hotline maintained by the Office of the Attorney General's Safe2Say Something Crisis Center;
2. A Safe2Say Something program secure website; or
3. A Safe2Say Something software program application, or "app" accessed through a mobile electronic device.

Reports may be submitted through one of these methods for an identified K-12 school anywhere in the state. Anonymous reports will be triaged by the Safe2Say Something Crisis Center and delivered to the appropriate school entity based on the location of the identified school, and county emergency dispatch center, where applicable, by Crisis Center staff through telephone communication, text and/or email.

### **Report Categorization and Delivery**

Reports, also known as tips, will be analyzed by the Safe2 Say Something Crisis Center and categorized as either Life Safety or Non-Life Safety based on definitions determined and approved by the Office of the Attorney General.

The following list provides examples of incidents, concerns or threats that may be categorized as Life Safety or Non-Life Safety, or Non-Notification, and are not all-inclusive lists. The status of a report may also be changed at the discretion of the Safe2Say Something Crisis Center when additional information becomes available regarding the report.

The Safe2Say Something Crisis Center will forward reports to a team, established by the Charter School, via telephone communication, text and/or email, and through the Safe2Say Something management program, depending on the nature and categorization of the report received:

The timeline for assessment and response, as well as the number and nature of responses, will vary based on the nature and complexity of the report. Responses may include but not be limited to:

1. Monitoring – monitoring may be done by the Crisis Team, a Child Study team, IEP team, or other appropriate team of individuals within the Charter School.
2. Parental notification, as appropriate.

*Interplay with Child Protective Services Law –*

The Crisis Team will respond to Safe2Say Something reports involving suspected child abuse in accordance with Board policy and the Child Protective Services Law, and will follow the requirements for making a mandated report, even if the county emergency dispatch center or law enforcement agency has also received the Safe2Say Something report. When a report of suspected child abuse is made by a Charter School employee as a member of the Crisis Team, the Charter School is not required to make more than one (1) report. An individual otherwise required to make a report who is aware that an initial report has already been made by a Charter School employee, is not required to make an additional report. (23 Pa. C.S.A. 6305, 6311, 6313)

*Safe Schools Incident Reporting –*

For Safe Schools reporting purposes, the term **incident** will mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act. (24 P.S. 1303-A; 22 PA Code 10.2; 35 P.S. 780-102)

In accordance with Safe Schools reporting requirements, the Chief Executive Officer or designee will immediately report required incidents and may report discretionary incidents committed by students on Charter School property, at any school-sponsored activity, or on a conveyance providing transportation to or from a Charter School or school-sponsored activity to the local police department that has jurisdiction over the Charter School's property, in accordance with state law and regulations, the procedures set forth in the Memorandum of Understanding with local law enforcement and Board policies. (24 P.S. 1302.1-A, 1303-A; 22 PA Code 10.2, 10.21, 10.22)

The Chief Executive Officer or designee will notify the parent/guardian of any student directly involved in an incident on Charter School property, at any school-sponsored activity, or on a conveyance providing transportation to or from a Charter School or school-sponsored activity, who is a victim or suspect, immediately, as soon as practicable. The Chief Executive Officer or designee will inform the parent/guardian whether or not the local police department that has jurisdiction over the Charter School property has been or may be notified of the incident. The Chief Executive Officer or designee will document attempts made to reach the parent/guardian. (22 PA Code 10.2, 10.25)

*Students With Disabilities –*

When reporting an incident committed by a student with a disability to a law enforcement agency, the Charter School will provide the information required by state and federal laws and regulations and will ensure that copies of the special education and disciplinary records of the student are transmitted for consideration by these authorities. The Charter School will transmit copies of the student's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act. (20 U.S.C. 1232g, 1415)

For purposes of protection and continuity in handling students with disabilities, the Charter School will provide a copy of its administrative procedures for behavior support, developed in accordance with the Special Education Plan, to each local police department that has jurisdiction over Charter School property. Updated copies will be provided each time the administrative procedures for behavior support are revised by the Charter School. (22 PA Code 10.23)

The Charter School may invite representatives of each local police department that has jurisdiction over Charter School property to participate in Charter School training on the use of positive behavior supports, deescalation techniques and appropriate responses to student behavior that may require intervention, as included in the Charter School's Special Education Plan and positive behavior support program. (22 PA Code 10.23, 711.46)

**Closure and Documentation**

Crisis Team members designated to receive Safe2Say Something reports will coordinate and ensure that all reports are officially closed in the Safe2Say Something management program.

The Crisis Team will coordinate with the county emergency dispatch center and local law enforcement agencies in documenting responses to reports and/or handling student information and records, in accordance with these procedures, the Memorandum of Understanding with local law enforcement, and applicable laws and regulations.

Notes briefly detailing ongoing response activities or resolution of the report must be noted as applicable in the Safe2Say Something management program and shared with other members of the Crisis Team, in accordance with the Family Educational Rights and Privacy Act, and other applicable law, regulations and Board policies. (20 U.S.C. 1232g)

The Chief Executive Officer or designee may direct the Crisis Team to submit a report periodically to the administration on aggregate data of Safe2Say Something program reports and responses.

Report and response data from the Safe2Say Something program may be included in the annual Board report from the School Safety and Security Coordinator.

The Crisis Team may develop reports, databases and/or files for documenting and storing information regarding Safe2Say Something reports, assessments, resolutions and follow-up responses.

Documentation from Safe2Say Something reports that includes specific student information will be handled by the Charter School in accordance with applicable laws, regulations, Board policies and administrative procedures. (20 U.S.C. 1232g)

Student Assistance Program documentation and follow-up information will be handled in accordance with Board policy, administrative procedures and program requirements.

| Last Revised | September 10, 2019             |

### **Purpose**

In response to increased immigration enforcement by the federal government, the Board of Trustees ("Board") for the 21st Century Cyber Charter School ("Charter School") adopts the following policy regarding students who are immigrants to the United States. A Memorandum was issued by the Department of Homeland Security ("DHS") on February 20, 2017 increasing efforts to deport illegal immigrants from the United States.

The purpose of this policy is to advise students, parents, and Charter School board members, administrators, faculty, and staff of the rights of students who are undocumented immigrants. It is also intended to ensure compliance with federal laws that prohibit employers from hiring undocumented immigrants.

### **Authority**

The Board declares it to be its policy to provide an equal opportunity and education for all students, including students who are undocumented immigrants. At no time shall the Charter School, including the Board, fail to admit a child conditioned on the child's immigration status. At no time, shall the Charter Schools' board members, administration, faculty or staff, inquire regarding the immigration status of a student as part of the admission process. 22 Pa Code § 11.11(d).

The Board also declares it to be its policy to have updated information regarding its employee's immigration statuses, insure that all employees I-9 forms are up to date, and kept in a separate employee file. If any employees cannot provide updated immigration documents required on an I-9, that employee should be terminated.

Furthermore, if the Charter School is presented with a government warrant for immigration records, it should contact legal counsel for review before providing those records.

### **Undocumented Students**

Pennsylvania regulations state that a child's right to be admitted to a public school may not be conditioned on the child's immigration status. 22 Pa Code § 11.11(d). Since a child's right to be admitted may not be conditioned on their immigration status, a school cannot inquire about the immigration status as part of the admission process.

In 1982, the United States Supreme Court held that students who are undocumented immigrants have an equal right to education as students who are citizens.

The provision does not relieve a student who has obtained an F-1 visa (international students) from the student's obligation to pay tuition under Federal law.

In compliance with Pennsylvania and Federal law, no board member, administrator, faculty or staff member of the Charter School should inquire about a student's immigration status, before or after the admission process. The Charter School may require proof of residency from the student's parents, but that can be shown by means other than government-issued documentation.

### **Immigration Status of Employees**

The Charter School shall ensure that all of its employees' I-9 forms are up-to-date and all supporting documentation is on file.

The Charter School shall require all new hires to complete and sign an I-9 form, and present required documentation upon hire. Within three business days of hire, the Charter School shall review the form and supporting documentation. If the I-9 form is compliant and required documentation is presented, a representative from the Charter School should sign the I-9 form. 8 C.F.R. 274a.2(b)(i) and (ii).

All I-9 forms and other immigration forms should be kept in a separate file, or an immigration compliance file. While copies of government-issued documentation (such as Social Security cards, driver's licenses, and birth certificates) may be kept in an employee's regular file, copies should also be kept with the I-9 forms in an employee's immigration compliance file. If an employee at the Charter School is not a citizen, but legally permitted to be in the United States and permitted to work in the United States, then copies of any immigration documents showing legal work status and/or documents required by the I-9 form must be kept in the file.

The Charter School should take note of the expiration of any I-9 form required documents, and if any of those documents are expired or nearing expiration, ask the employee for updated documentation.

It is the policy of the Charter School to not employ undocumented immigrants. If an employee cannot provide the Charter School with documentation that they are able to work in the United States legally, the employee shall be terminated. It is a violation of the law for a Charter School to continue to employ an undocumented immigrant. 8 U.S.C.A. § 1324a.

### **Warrants**

If the Charter School is presented with a warrant from the Office of Immigration and Customs Enforcement ("ICE") for immigration purposes, or for any purpose, the Charter School should present that warrant to legal counsel for review before it complies with the warrant.

ICE Administrative warrants are not warrants signed by a judge or judicial officers. These warrants are signed by federal immigration officials, and do not require the same burden of proof that a judicial warrant requires. The United States Supreme Court has held that constitutionally sufficient warrants are issued only upon oath or affirmation of facts submitted to a judicial officer, one who is neutral and detached from enforcement activities. *Coolidge v. New Hampshire*, 403 U.S. 443, 450 (1971). A warrant not signed by neutral judge is not constitutionally sufficient and may not need to be followed. If presented to the Charter School, these warrants should be reviewed by legal counsel to determine whether the Charter School must comply.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

### **Purpose**

The Board of Trustees (Board) is committed to providing a safe and healthy environment for the Charter School community.

Maintaining automated external defibrillator (AED) units and staff trained in cardiopulmonary resuscitation (CPR) in the Charter School enables responders to deliver early defibrillation and resuscitation to victims.

### **Authority**

Except in extenuating circumstances, each location shall have one (1) person certified in the use of cardiopulmonary resuscitation (CPR) during regular school hours when school is in session and students are present. [\[1\]](#)

The automated external defibrillator (AED) units are owned by the Charter School and shall be properly maintained and located in secure and accessible locations.

The automated external defibrillator (AED) units shall be used in accordance with approved administrative procedures.

### **Guidelines**

A core team shall be trained in CPR and AED procedures by completing a training program offered by approved providers. Members of the team shall be provided opportunities for annual training and retraining.

Written guidelines for medical emergencies related to the use of automated external defibrillator (AED) units shall be provided to all members of the core team.

Responders' use of automated external defibrillator (AED) units shall not replace the care provided by emergency medical services (EMS) providers. Patient care shall be transferred to the EMS providers upon their arrival.

### **Delegation of Responsibility**

The Chief Executive Officer or designee shall develop and disseminate administrative procedures that detail the use of automated external defibrillator (AED) units.

Automated external defibrillator (AED) units may be used by all members of the Charter School's core team who have successfully completed training and any trained volunteer who has a current course completion card.

| Title   | Use of Automated External Defibrillator (AED) |
| Code    | 6022-AR-1                                     |
| Status  | Active                                        |
| Adopted | September 8, 2020                             |

The school strives to provide a safe environment for students, staff, parents/guardians and community members as they learn and utilize school facilities. To achieve a safe environment, an automated external defibrillator (AED) may be placed in an accessible location in school facilities.

AED's will be used in emergency situations when sudden cardiac arrest occurs by individuals properly trained in the application of the device.

The principal may permit an authorized user to take an AED to other areas of a school or property for the purpose of standing by at a specific event or activity.

#### **Procedure For Use Of AED**

1. An AED will be located in an accessible location in a school, and signs will be posted to assist staff in locating the AED.
2. When an emergency situation occurs the responding staff member will activate the CODE BLUE Response.
3. Code Blue Response Plan will be followed.
4. AED Steps:
  1. Turn on the AED and follow the visual and/or audio prompts.
  2. Open the person's shirt and wipe his or her bare chest dry. If the person is wearing any medication patches, you should use a gloved (if possible) hand to remove the patches before wiping the person's chest.
  3. Attach the AED pads, and plug in the connector (if necessary).
  4. Make sure no one is, including you, is touching the person. Tell everyone to "stand clear."
  5. Push the "analyze" button (if necessary) and allow the AED to analyze the person's heart rhythm.
  6. If the AED recommends that you deliver a shock to the person, make sure that no one, including you, is touching the person – and tell everyone to "stand clear." Once clear, press the "shock" button.
  7. Begin CPR after delivering the shock. Or, if no shock is advised, begin CPR. Perform 2 minutes (about 5 cycles) of CPR and continue to follow the AED's prompts. If you notice obvious signs of life, discontinue CPR and monitor breathing for any changes in condition.

| Status  | Active             |
| Adopted | September 10, 2019 |

### **Authority**

As a means of enhancing the health and safety of its students, staff and visitors, the Charter School may obtain, maintain and administer doses of an opioid antagonist and other facilities, specifically Naloxone, for emergency use to assist a student, staff member or other individual believed or suspected to be experiencing an opioid overdose. [\[1\]](#)[\[2\]](#)

### **Definitions**

Drug overdose - shall mean an acute medical condition, including, but not limited to, severe physical illness, coma, mania, hysteria or death, which is the result of consumption or use of one or more controlled substances causing an adverse reaction. An individual's condition may be deemed to be a drug overdose if a prudent person, possessing an average knowledge of medicine and health, would reasonably believe that the condition is in fact a drug overdose and requires immediate medical attention. [\[1\]](#)

Naloxone - shall mean a medication that can reverse an overdose caused by an opioid drug. As a narcotic antagonist, Naloxone displaces opiates from receptor sites in the brain and reverses respiratory depression that usually is the cause of overdose deaths.

Opioid - shall mean illegal drugs such as heroin, as well as prescription medications used to treat pain such as morphine, codeine, methadone, oxycodone, hydrocodone, fentanyl, hydromorphone, and buprenorphine.

### **Delegation of Responsibility**

The Chief Executive Officer or designee, in consultation with the school nurse(s) and the school physician, shall establish appropriate internal procedures for the acquisition, stocking and administration of Naloxone and related emergency response procedures pursuant to this policy.

The school physician shall be the prescribing and supervising medical professional for the Charter School's stocking and use of Naloxone. The Chief Executive Officer or designee shall obtain a standing order from the school physician for administration of Naloxone.

The school nurse shall be responsible for building-level administration of Naloxone and management of Naloxone stocks.

### **Guidelines**

The school nurse shall develop a plan for annually informing all parents/guardians, students and staff about this policy and specifically:

1. The availability of Naloxone to treat opioid drug overdoses and what it does;

2. The symptoms of opioid drug overdoses;
3. How students and staff should report suspected overdoses;
4. The protection from criminal prosecution provided by law for persons who report a suspected overdose using their real name and remain with the overdosing person until emergency medical services (EMS) or law enforcement arrive, as well as for the person whose overdose they report; and [\[1\]](#)[\[2\]](#)
5. The protection from civil liability provided by law for persons who report overdoses or administer Naloxone in overdose emergencies. [\[1\]](#)[\[2\]](#)

### **Standing Order From the School Physician**

The school physician shall provide and annually renew a standing order for administration of Naloxone to students, staff members or other individuals believed or suspected to be experiencing an opioid overdose.

The standing order shall include at least the following information:

1. Type of Naloxone (intranasal and auto-injector).
2. Date of issue.
3. Dosage.
4. Signature of the school physician.

The standing order shall be maintained in the office of the Chief Executive Officer or designee, and copies of the standing order shall be kept in each location where Naloxone is stored.

### **Training**

Before any Charter School employee may have custody of Naloxone or administer Naloxone under this policy, the employee must successfully complete an online Pennsylvania Department of Health training program about recognizing opioid-related overdoses, administering Naloxone and promptly seeking medical attention for drug overdoses. Evidence that such training has been completed shall be placed in the employee's personnel file. [\[2\]](#)

A list of Charter School employees who successfully complete such training shall be maintained, updated and kept in the school nurse's office and the administration office.

### **Acquisition, Storage and Disposal**

Naloxone shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

Naloxone shall be made readily accessible to those employees who have completed the required training to administer it in the event of a suspected drug overdose. All properly trained employees shall be informed of the exact location where Naloxone is being stored within the school nurse's office or other location.

The school nurse shall obtain sufficient supplies of Naloxone pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh Naloxone stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Department of Health Guidelines.

### **Administration of Naloxone**

When responding to a suspected drug overdose, Charter School employees shall follow the steps outlined below:

1. Call for medical help immediately (Dial 9-1-1).
2. Check for signs of opioid overdose.
3. Perform initial rescue breathing (or CPR if needed), as instructed in training.
4. Administer Naloxone, as instructed in training.
5. Continue rescue breathing (or CPR if needed), as instructed in training.
6. Administer second dose of Naloxone if needed, as instructed in training.

7. Place in recovery position, as instructed in training.
8. Stay with the individual until emergency medical help arrives.
9. Cooperate with EMS personnel responding to the incident.
10. Notify the building administrator of the incident.

#### **Referral to Law Enforcement and Parental Notification**

[\[3\]](#)[\[4\]](#)[\[5\]](#)[\[6\]](#)[\[7\]](#)

The Chief Executive Officer or designee shall notify the parent/guardian of any student directly involved in an incident involving use of controlled substances immediately, as soon as practicable. The Chief Executive Officer or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the Charter School property has been or may be notified of the incident. The Chief Executive Officer or designee shall document attempts made to reach the parent/guardian. [\[3\]](#)[\[8\]](#)

#### **Referral to Student Assistance Program**

Any student who experiences a drug overdose shall be referred to the Student Assistance Program.

#### **Indemnification**

The Charter School shall indemnify and hold harmless any employee who administers Naloxone in good faith to another individual experiencing a suspected drug overdose, if all of these conditions apply: [\[2\]](#)[\[9\]](#)[\[10\]](#)

1. The employee did not act with the intent to harm or with reckless indifference to a substantial risk or harm in administering Naloxone to that individual.
2. The employee successfully completed the training contemplated by this policy.
3. The employee promptly sought additional medical assistance before or immediately after administering Naloxone.
4. The employee is administering Naloxone pursuant to this policy.

#### **Volunteers**

The term employee as used in this policy shall include approved volunteers who have received the required training.

#### **Authority**

This policy applies to Charter School employees, volunteers, student teachers, and independent contractors and their employees who interact with students or are present on Charter School grounds. For purposes of this policy, such individuals are referred to collectively as "Adults". The term Adults as used in this policy, does not include Charter School students who perform services on a volunteer or compensated basis.

All Adults shall be expected to maintain professional, moral and ethical relationships with Charter School students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The Board of Trustees (Board) directs that all Adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative procedures and rules.

This policy is not intended to interfere with appropriate pre-existing personal relationships between Adults and students and their families that exist independently of the Charter School or to interfere with participation in civic, religious or other outside organizations that include Charter School students.

#### **Definition**

For purposes of this policy, legitimate educational reasons include matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, Charter School administration or other purposes within the scope of the Adult's job duties.

#### **Delegation of Responsibility**

The Chief Executive Officer or designee shall annually inform students, parents/guardians, and all Adults regarding the contents of this Board policy through employee handbooks and student handbooks.

The principal or administrator, supervisor or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

Independent contractors doing business with the Charter School shall ensure that their employees who have interaction with students or are present on Charter School grounds are informed of the provisions of this policy.

#### **Guidelines**

Adults shall establish and maintain appropriate personal boundaries with students and not engage in any behavior that is prohibited by this policy or that creates the appearance of prohibited conduct.

### **Prohibited Conduct**

#### *Romantic or Sexual Relationships –*

Adults shall be prohibited from entering into or attempting to form a romantic or sexual relationship with any student enrolled in the Charter School, regardless of the student's age. The consent of a student to engage in romantic or sexual interactions may not be a defense or mitigating factor in any discipline for violations of this section.<sup>[1][2]</sup>

Prohibited romantic or sexual interaction involving students includes, but is not limited to:

1. Sexual physical contact.
2. Romantic flirtation, propositions, or sexual remarks.
3. Sexual slurs, leering, epithets, sexual or derogatory comments.
4. Personal comments about a student's body.
5. Sexual jokes, notes, stories, drawings, gestures or pictures.
6. Spreading sexual or romantic rumors.
7. Touching a student's body or clothes in a sexual or intimate way.
8. Accepting massages, or offering or giving massages other than in the course of injury care administered by an athletic trainer, coach, or health care provider.
9. Restricting a student's freedom of movement in a sexually intimidating or provocative manner.
10. Displaying or transmitting sexual objects, pictures, or depictions.

#### *Social Interactions –*

In order to maintain professional boundaries, Adults shall ensure that their interactions with students are appropriate.

Examples of prohibited conduct that violates professional boundaries include, but are not limited to:

1. Disclosing personal, sexual, family, employment concerns or other private matters to one or more students.
2. Exchanging personal notes, emails or other communications of a personal nature with a student.
3. Giving personal gifts, cards or letters to a student without written approval from the principal or administrator, or supervisor.
4. Touching students without a legitimate educational reason. (Reasons could include the need for assistance when injured, a kindergartner having a toileting accident and requiring assistance, appropriate coaching instruction, or appropriate music instruction).
5. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional Adult-student relationship.
6. Taking a student out of class without a legitimate educational reason.
7. Being alone with a student behind closed doors without a legitimate educational reason.
8. Initiating or extending contact with a student beyond the school day or outside of class times without a legitimate educational reason.
9. Sending or accompanying a student on personal errands.

10. Inviting a student to the Adult's home.
11. Going to a student's home without a legitimate educational reason.
12. Taking a student on outings without prior notification to and approval from both the parent/guardian and the principal or administrator, or supervisor.
13. Giving a student a ride alone in a vehicle in a nonemergency situation without prior notification to and approval from both the parent/guardian and the principal or administrator, or supervisor.
14. Addressing students or permitting students to address Adults with personalized terms of endearment, pet names, or otherwise in an overly familiar manner.
15. Telling a student personal secrets or sharing personal secrets with a student.
16. For Adults who are not guidance/counseling staff, psychologists, social workers or other Adults with designated responsibilities to counsel students, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, the student should be referred to the appropriate school resource.
17. Furnishing alcohol, drugs, vaping products, or tobacco to a student or being present where any student is consuming these substances.
18. Engaging in harassing or discriminatory conduct prohibited by other Board policies or by state or federal law and regulations.

#### *Electronic Communications –*

For purposes of this policy, electronic communication shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, computer network, personal data assistant or pager. Electronic communications include, but are not limited to, emails, text messages, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, Adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational or Charter School operational reasons only.

When available, Charter School-provided email or other Charter School-provided communication devices, networks and platforms shall be used when communicating electronically with students. The use of Charter School-provided email or other Charter School-provided communication devices, networks and platforms shall be in accordance with Board policies and administrative procedures.

All electronic communications from coaches and advisors to team or club members shall be sent in a single communication to all participating team or club members, except for communications concerning an individual student's medical or academic privacy matters, in which case the communications will be copied to the principal or administrator, or supervisor.

Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the Charter School for this purpose, without the prior written approval of the principal or administrator, or supervisor.

#### **Exceptions**

An emergency situation or a legitimate educational reason may justify deviation from the rules regarding communication or methods for maintaining professional boundaries set out in this policy. The Adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that the Adult has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationships" section of this policy.

There will be circumstances where personal relationships develop between an Adult and a student's family, e.g., when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many Adults are involved in various other roles in the community through non-Charter School-related civic, religious, athletic, scouting or other organizations and programs whose participants may include Charter School students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an Adult's ability to serve in those roles; however, Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

### **Reporting Inappropriate or Suspicious Conduct**

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an Adult and a student, shall immediately notify the Chief Executive Officer, principal or administrator, or supervisor.

All Charter School employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse to ChildLine, in accordance with applicable law, regulations and Board policy. The reporter shall immediately thereafter notify the Chief Executive Officer and their immediate supervisor of the report.[\[3\]](#)

An educator who knows of any action, inaction or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline Act shall immediately report such misconduct to the Chief Executive Officer, Title IX Coordinator and the educator's immediate supervisor and report such misconduct to the Pennsylvania Department of Education on the required form within fifteen (15) days of discovery of such misconduct.[\[4\]](#)

If the Chief Executive Officer or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Chief Executive Officer, Title IX Coordinator, and/or the educator's immediate supervisor, shall make a report promptly, but not later than fifteen (15) days following discovery of such misconduct.[\[3\]](#)[\[4\]](#)[\[5\]](#)[\[6\]](#)[\[7\]](#)[\[8\]](#)[\[9\]](#)

It is a violation of Board policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

### **Investigation**

The Title IX Coordinator shall promptly assess and address allegations of inappropriate conduct in accordance with the procedures for reports or discrimination or Title IX sexual harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported Adult is cleared of any wrongdoing shall not result in disciplinary action against the person making the report or any witnesses. If as the result of an investigation any individual, including the reported Adult, the reporter, or a witness is found to have knowingly provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and Board policies. Obstruction includes, but is not limited to, violation of "no contact" orders given to the reported Adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

### **Disciplinary Action**

A Charter School employee who violates this policy may be subject to disciplinary action, up to and including termination, in accordance with all applicable Board disciplinary policies and administrative procedures.

A volunteer, student teacher, or independent contractor or an employee of an independent contractor who violates this policy may be prohibited from working or serving in the Charter School for an appropriate period of time or permanently, as determined by the Chief Executive Officer or designee.

### **Training**

The Charter School shall provide training with respect to the provisions of this policy to current and new employees, volunteers and student teachers subject to this policy.

The Charter School, at its sole discretion, may require independent contractors and their employees who interact with students or are present on Charter School grounds to receive training on this policy and related procedures.

TO THE EXTENT THAT ANYTHING IN THIS POLICY CONFLICTS WITH THE SCHOOL'S CHARTER OR APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS AND/OR CHARTER CONTROL.

Many of the common indoor air quality problems can be prevented by prudent design of new construction and major renovation. Ventilation and cooling systems have the most profound effect on air quality. Design of new or renovated buildings and facilities should reflect the most stringent current standards. Good, stringent design is cost-effective because it can significantly reduce the cost of subsequent repairs and renovation.

#### **Construction Planning And Practice**

The school's recommendations for construction planning and practices that reduce the chance of subsequent health problems include the following:

1. Incorporate indoor air quality goals into the bid and construction documents.
2. Require the development and use of an indoor air quality management plan or program.
3. Ensure that all members of the project team are familiar with indoor air quality issues and have defined their responsibilities to address those issues.
4. Require contractors to provide information on any product substitutions.

#### **Architect/Contractor Requirements**

The school will require that the following guidelines be followed by contractors during new construction and renovations:

1. Perform as much of the work as possible when the building or facility is not occupied.
2. Keep building occupants as far as possible from the construction.
3. Install temporary barriers and ensure that the ventilation system is not drawing any pollutants to occupied areas; create positive pressure in those areas.
4. Use methods that will reduce the concentration of airborne pollutants, such as wet methods.

In order to secure appropriate indoor air quality in school buildings and facilities, when new facilities are constructed and when existing facilities are renovated, the following requirements will be specified to the architect or design professionals responsible for the construction project:

1. Adherence to applicable state and local requirements defining minimum air circulation.

2. Building/Space must meet or exceed the ASHRAE (American Society of Heating, Refrigerating and Air Conditioning Engineers) standards that consider chemical, physical and biological contaminants that can affect air quality.
3. Design and placement of air handling equipment must be done in a manner where it is accessible to inspect and maintain the equipment; mechanical rooms are desirable, versus exposed rooftop units or units hung above suspended ceilings.
4. With increased air flow requirements, attention must be given to the potential of air velocity noise within ductwork.
5. Fresh air intakes must be located away from all types of vents and exhausts of roofs, whenever possible.
6. Air intakes and ventilation windows must be sufficiently distant from bus loops and loading docks.
7. Radon mitigation systems should be part of new construction to provide a vapor barrier and protection from under-slab humidity.
8. Attention must be given to the selection of carpeting, carpet adhesives, and synthetic materials that may emit odorous and irritating volatile organic vapors degrading indoor air quality.
9. Reduction of the potential of moisture intrusion through appropriately designed pitched roofs wherever possible.
10. Consideration of the economic feasibility of achieving dehumidification through air conditioning.
11. Installation of temperature control systems that monitor temperature and other factors helpful in monitoring and diagnosing heating, ventilation and air conditioning (HVAC) systems.
12. When renovating an occupied building, provision for the mechanical control of airborne pollutants associated with the construction process.
13. Building materials must be kept dry to prevent microbial growth, and water damaged materials must be dried as soon as possible.
14. Spills of toxic or irritant materials must be cleaned immediately.

The school believes that the conservation of water, energy and other natural resources, as well as the protection of the environment, is essential to the health and welfare of the schools and the community. The schools should set an example of stewardship of our natural resources and develop responsible citizenship in the students.

The CEO and/or designated administrator will develop, implement and maintain an integrated resource/waste management program in the school to reduce waste, conserve natural resources and protect the environment. The program will include specific strategies designed to be used in all areas of school operation for the purposes of:

1. Implementing and maintaining effective and sustainable resource practices.
2. Exploring renewable and clean energy technologies.
3. Reducing energy and water consumption.
4. Minimizing utility costs.
5. Reducing the amount of waste of consumable materials.
6. Encouraging recycling.
7. Encouraging green procurement practices.
8. Promoting conservation principles.

The CEO and/or designated administrator may collaborate with municipal, county and state agencies when developing and implementing the school's resource/waste management program.

To ensure efficient utilization of natural and material resources, the designated administrator will gradually implement the following measures and practices:

1. Reduce waste generation by reducing the consumption of disposable materials, composting of organic materials, and fully utilizing all materials prior to disposal.
2. Recycle materials such as paper, glass, plastic and aluminum.
3. Minimize the use of non-biodegradable products.

4. Purchase, when financially feasible, recycled and other environmentally preferable products when procuring materials for use in schools and offices, and when contracting for the construction or renovation of any school building or facility.
5. Communicate with vendors and contractors regarding the use of packaging and delivery materials that generate less waste and the availability of recycled products, such as unbleached paper products.
6. Work with municipal, county and state agencies to locate markets for the school's reusable and recyclable materials.

The Facilities Manager will integrate the concept of resource conservation, including waste reduction and recycling, into the environmental education at all grade levels.

The designated administrator will provide appropriate training opportunities for students and employees regarding the benefits of and methods for conserving natural resources and protecting the environment.

The designated administrator will regularly inspect school facilities and operations, produce written reports, and recommend maintenance and capital expenditures that may help the school reach its established conservation and resource/waste management goals.

The school will report an annual renewal of the waste management program.

The school will take reasonable security measures to guard against the foreseeable loss or exposure of restricted personal information about staff, students and parents/guardians. The school will implement and maintain practices regarding physical, technical and administrative safeguards for both paper and electronic records.

The CEO or designee will direct and monitor a process to identify the following information:

1. What information is considered restricted or confidential.
2. Where the information currently resides.
3. The safeguards utilized to secure the information.
4. Who is responsible for providing each level of security for each piece of restricted or confidential information.
5. The school's cybersecurity insurance policy.

Employees will promptly report to the CEO or designee any security breach of the school's computerized data that compromises the security, confidentiality or integrity of personal information maintained by the school. The CEO will immediately inform the Board of such breach of information.

#### Identifying Security Breach

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized individual or an individual without valid authorization, the school will consider the following factors:

1. Whether the information is in the physical possession and control of an unauthorized individual, such as a lost or stolen computer or other device containing information.
2. Whether the information has been downloaded or copied.
3. Whether the information was used by an unauthorized individual, such as fraudulent accounts or reported identity theft.
4. Other factors the school deems appropriate and relevant to such determination.

#### Determination of a Security Breach

A determination of a security breach means that there is a verification or reasonable certainty that a breach of the school's computerized data has occurred. Such a determination is made after a reasonable forensic investigation has been completed to determine the scope and nature of the incident and a legal determination is made that breach notifications are required.

The following individuals will be involved in making the determination that a security breach has occurred and that breach notifications are required:

1. Chief Executive Officer
2. Business Administrator
3. IT Director
4. Solicitor
5. Insurance Agent

#### Procedure For Notification

If there is a legal determination that notification is required, notices of a breach of information security will be provided to the individuals whose unencrypted and unredacted personal information has been accessed or acquired by an unauthorized person.

The following steps will be taken by the employee designated to provide notification:

If the breach involved computerized data owned or licensed by the school, the school will directly notify those residents of the Commonwealth whose personal information was or is reasonably believed to have been accessed and acquired by a person without valid authorization.

2. If the breach involved computerized data maintained by the school, the school directly will notify the owner or licensee of the information of the breach immediately following discovery, if the person information was or is reasonably believed to have been accessed and acquired by a person without valid authorization.
3. If there is a legal determination that notification is required, the notification to affected individuals will be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement or any measures necessary to determine the scope of the breach and to restore the reasonable integrity of the system. Notification will be provided within seven (7) business days of determination of the breach of the security of the system.
4. Notification will be provided to the school attorney in the county where the breach of the security of the system occurred within three (3) business days following determination of the breach of the security of the system.
5. The required notification will include:
  - a. School contact information.
  - b. Description of the categories of information that were or are reasonably believed to have been accessed and acquired without authorization.
  - c. Which specific elements of personal information were or are reasonably believed to have been accessed and acquired.
6. The notification requirement may be delayed if a law enforcement agency determines, and advises the school in writing, specifically citing 73 P.S. Sec. 2304, that such notification will impede a criminal or civil investigation. The required notification will then be made after the law enforcement agency determines that such notification does not compromise the investigation or national or homeland security.

The school will provide notice to affected individuals by at least one (1) of the following methods:

1. Written notice to last known home address for the individual.
2. Telephone notice if the individual can be reasonably expected to receive the notice and the notice is given in a clear and conspicuous manner; describes the incident in general terms; verifies the personal information but does not require the individual to provide personal information; and provides a telephone number to call or Internet website to visit for further information or assistance.
3. Email notice, if a prior business relationship exists and the school has a valid email address for the individual.
4. Electronic notice, if the notice directs the individual whose personal information has been materially compromised by breach of the security of the system to promptly change the individual's password and security question or answer, as applicable, or to take other steps appropriate to protect the individual's online account, and other online accounts that may use the same user name, email address and password or security question and answer, to the extent the school has sufficient contact information for the individual.
5. Substitute notice if the school determines that the cost of notice exceeds \$100,000, the affected individuals exceed 175,000 people, or the school does not have sufficient contact information. Substitute

notice shall consist of an email notice, when the school has an email address for the individual, conspicuous posting of the notice on the school's website, and notification to major statewide media.

6. If the school provides notification to more than 1,000 persons at one (1) time, the school shall also notify all consumer reporting agencies that compile and maintain files on consumers on a nationwide basis of the timing, distribution and number of notices, without unreasonable delay.

The Board of Trustees of 21st Century Cyber Charter School ("Charter School"), recognizes the need to follow best practices when dealing with the cleaning and disinfection of rooms or areas of those with suspected or with confirmed coronavirus disease 2019 (COVID-19). According to current Center for Disease Control (CDC) guidelines, person-to-person transmission of COVID-19 occurs via respiratory droplets and cleaning of visibly dirty surfaces followed by disinfection is a best practice measure for prevention of COVID-19 and other viral respiratory illnesses in community settings.

This policy aims to limit the survival of novel coronavirus in key environments in Charter School facilities. These recommendations will be updated if additional information becomes available via the CDC's website: <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/guidance-for-schools.html>.

### Definitions

- **Cleaning** refers to the removal of dirt and impurities, including germs, from surfaces. Cleaning alone does not kill germs. But by removing the germs, it decreases their number and therefore any risk of spreading infection.
- **Disinfecting** works by using chemicals to kill germs on surfaces. This process does not necessarily clean dirty surfaces or remove germs. But killing germs remaining on a surface after cleaning further reduces risks of spreading infection.

### Personal Protective Equipment (PPE) and Hand Hygiene for Charter School staff and vendors charged with cleaning Charter School facilities

Charter School staff and vendors charged with cleaning Charter School facilities should wear disposable gloves and gowns for all tasks in the cleaning process, including handling trash. Gloves and gowns should be compatible with the disinfectant products being used. Additional PPE might be required based on the cleaning/disinfectant products being used and whether there is a risk of splash. Gloves and gowns should be removed carefully to avoid contamination of the wearer and the surrounding area. If the risk of bodily fluid exposure is low or minimal, the CDC recommends gloves and gowns that follow the American National Standard PB70 Level 1 or 2. Please use the following link for more information: [http://my.aami.org/aamiresources/previewfiles/pb70\\_1206\\_preview.pdf](http://my.aami.org/aamiresources/previewfiles/pb70_1206_preview.pdf).

After removing their gloves, each Charter School cleaner should follow the CDC's protocol on washing hands, posted here: <https://www.cdc.gov/handwashing/when-how-handwashing.html>. It is recommended these hand washing guidelines be posted throughout Charter School facilities.

Charter School cleaners should immediately report breaches in PPE (e.g., tear in gloves) or any potential exposures to their supervisor. It is recommended that all members of the Charter School community should clean their hands often, including immediately after removing gloves and after contact with an ill person, by washing hands with soap and water for 20 seconds. If soap and water are not available and hands are not visibly dirty, an alcohol-based hand sanitizer that contains 60%-95% alcohol may be used. However, if hands are visibly dirty, always wash hands with soap and water.

The Charter School's CEO or designee should work with their local and state health departments and the Pennsylvania Department of Education to ensure appropriate local protocols and guidelines are being followed regarding COVID-19. The Charter School's CEO or designee is also tasked with educating Charter School staff and vendors performing cleaning, laundry, and trash pick-up duties to recognize the symptoms of COVID-19. Instructions should be communicated to all Charter School staff members on what to do if they develop symptoms of COVID-19. Any Charter School staff member should immediately notify their supervisor and the local health department if they develop symptoms of COVID-19. The health department will provide guidance on what actions need to be taken.

The Charter School's CEO or designee will develop policies for worker protection and provide training to all cleaning staff on site prior to providing cleaning tasks. Training should include when to use PPE, what PPE is necessary, how to properly don (put on), use, and doff (take off) PPE, and how to properly dispose of PPE. It is recommended that the following chart from the CDC be posted at Charter School facilities regarding PPE use: <https://www.cdc.gov/hai/pdfs/ppe/PPE-Sequence.pdf>

The Charter School's CEO or designee must ensure Charter School staff and vendors are trained on the hazards of the cleaning chemicals used in the workplace in accordance with Occupational Safety and Health Act's (OSHA) Hazard Communication standard ([29 CFR 1910.1200](#)). The Charter School is also required to comply with OSHA's standards on Bloodborne Pathogens ([29 CFR 1910.1030](#)), including proper disposal of regulated waste, and PPE ([29 CFR 1910.132](#)). Please see the Charter School's Bloodborne Policy for additional information.

### **Timing and location of cleaning and disinfection of surfaces**

The CDC recommends closing off areas used by those members of the Charter School community who might have been affected by COVID-19. Wait as long as practical before beginning cleaning and disinfection to minimize potential for exposure to respiratory droplets. Open outside doors and windows to increase air circulation in the area. If possible, wait up to 24 hours before beginning cleaning and disinfection.

Charter School staff and vendors charged with cleaning Charter School facilities should clean and disinfect all areas in Charter School facilities used by the potentially affected persons, focusing especially on frequently touched surfaces.

### **How to Clean and Disinfect Surfaces**

If surfaces are dirty, they should be cleaned using a detergent or soap and water prior to disinfection. For disinfection, diluted bleach solutions, alcohol solutions with at least 70% alcohol, and most common EPA-registered disinfectants should be effective. Follow the manufacturer's instructions for application and proper ventilation. Check to ensure the product is not past its expiration date. The CDC warns to never mix bleach with ammonia or any other cleanser.

If appropriate for the surface, the CDC recommends preparing a bleach cleaning solution by mixing:

- 5 tablespoons (1/3<sup>rd</sup> cup) bleach per gallon of water or
- 4 teaspoons bleach per quart of water

Products with EPA-approved emerging viral pathogens icon are expected to be effective against COVID-19 based on CDC data. Follow the manufacturer's instructions for all cleaning and disinfection products. The EPA's list of approved products is available here: <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>.

For porous surfaces such as carpets, rugs, and drapes, remove visible contamination if present and clean with appropriate cleaners indicated for use on these surfaces. After cleaning:

- If the items can be laundered, launder items in accordance with the manufacturer's instructions using the warmest appropriate water setting for the items and then dry items completely.
- Otherwise, use products with the EPA-approved emerging viral pathogens icon that are suitable for porous surfaces

21st Century Cyber Charter School will follow guidelines produced from the America Academy of Pediatrics, The National Association of School Nurses and the Center for Disease Control. Mass screening for head lice has not been proven to significantly affect the incidence of head lice in schools. Head lice can be a nuisance but do not spread disease. In school, transmission is considered to be rare and no healthy staff member and/or student is to be excluded from work and/or school.

Parent/Guardian Responsibilities:

- Do not send your child to school with untreated head lice.
- Notify your school nurse if your child has lice and describe the treatment.
- Use only safe and physician recommended practices to treat head lice.
- Strive to remove all nits from hair. A nit is defined as the egg of a louse.
- Parent/Guardian should re-check the affected child's head a week after treatment and follow the aforementioned guidelines if lice are present.

Staff Responsibilities:

- Do not come to work with untreated head lice.
- Notify school nurse and your supervisor if you have lice and describe the treatment.
- Use only safe and physician recommended practices to treat head lice.
- Strive to remove all nits from hair. A nit is defined as the egg of a louse.
- Re-check a week after treatment and follow the aforementioned guidelines if lice are present.

Nurse Responsibility:

- Students/Staff Members - When head lice are suspected, check the person for lice and nits.
- If lice are found, notify the child's parent/guardian and request that they take their child home for treatment with a lice-killing treatment. If it is a staff member, they should go home and proceed with lice-killing treatment.
- Provide accurate information on the detection, treatment and control of head lice for parents/guardians and staff.

The Board adopts this policy to establish procedures for seeking appropriate resolution to complaints.

### **Authority**

The Board encourages parents/guardians, students, residents of school districts with students attending this Charter School, or community groups who have general complaints about Board policy and administrative procedures, Charter School programs, personnel, operations and facilities to follow the general complaint procedure established in this policy.

The Board directs parents/guardians, other individuals and organizations alleging violations of law in the Charter School's administration of federally-funded programs to submit complaints in accordance with the separate federal program complaint procedure established in this policy.[\[1\]](#)

The Board shall ensure that this policy is posted on the Charter School's publicly accessible website and in Charter School buildings.

### **Delegation of Responsibility**

The Charter School shall annually notify parents/guardians, students, employees and the public of this policy and established complaint procedures via the Charter School website, newsletters, posted notices and/or other efficient communication methods.

### **Guidelines**

#### General Complaint Procedure

It is the intent of the Board that complaints, concerns and suggestions be addressed and/or resolved at the lowest appropriate level.[\[2\]](#)

At all levels of this procedure, Charter School employees shall make a determination as to whether the complaint should proceed as outlined in this policy or if the complaint should be submitted through a specialized complaint process addressed in a separate Board policy, administrative procedure or Charter School guideline that is directly related to the nature of the complaint.

General complaints about Board policy and administrative procedures, programs, personnel, operations and facilities shall begin with an informal, direct discussion between the complainant and Charter School employee who is most directly involved.

The employee shall attempt to provide a reasonable explanation or take appropriate action within the employee's authority. The employee shall report the matter and the resolution to the principal, administrator or immediate supervisor.

When an informal discussion fails to resolve the complaint, the following procedure shall be used.

**First Level** – If a satisfactory resolution is not achieved by discussion with the employee, the complainant shall submit a written complaint to the principal, administrator or designee and a conference shall be scheduled with the complainant. The written complaint shall include the contact information of the person or group filing the complaint, the specific nature of the complaint, a brief statement of relevant facts, how the complainant has been affected adversely, and the action requested. The principal, administrator or designee shall provide a written response to the complainant.

**Second Level** – If a satisfactory resolution is not achieved through a conference with the principal, administrator or designee, the complaint shall be referred to the Chief Executive Officer or designee. The Chief Executive Officer or designee shall review the complaint and may schedule a conference with the complainant. The Chief Executive Officer or designee shall provide a written response to the complainant.

**Third Level** – If a satisfactory resolution is not achieved through referral to the Chief Executive Officer or designee or if resolution of the complaint is beyond their authority and requires Board action, the Chief Executive Officer or designee shall refer the complaint to the Board.

The Board, after reviewing all information relative to the complaint, shall provide the complainant with its written response. The Board may, at its discretion, grant a hearing before the Board or a committee of the Board. If a hearing is granted, the complainant shall be advised of the Board's response, in writing, no more than thirty (30) days following the hearing.

Any requests, suggestions or complaints first directed to individual Board members and/or the Board shall be referred to the Chief Executive Officer for consideration, investigation and action. If further action is warranted, based on the initial investigation, such action shall be in accordance with the procedures outlined above.

#### Complaint Procedure for Federal Programs

Complaints alleging violations of law in the Charter School's administration of federally-funded programs shall be processed in accordance with the following procedure. [\[1\]](#)

The complainant shall submit a written, signed statement to the Charter School's administration office that includes:

1. Contact information of the individual or organization filing the complaint.
2. Alleged federal program violation.
3. Facts supporting the alleged violation.
4. Supporting documentation, such as information on discussions, correspondence or meetings with Charter School staff regarding the complaint.

Charter School staff shall forward complaints to the Charter School administrator responsible for federal programs, who will notify the Chief Executive Officer and acknowledge receipt of the complaint in writing to the complainant.

The administrator responsible for federal programs shall conduct an independent investigation, which may include but not be limited to:

1. On-site visit to the building that is the subject of the complaint.
2. Opportunity to present evidence by all individuals and/or organizations involved.
3. Opportunity for participants to ask questions of each other and witnesses.

When the investigation is completed, the administrator responsible for federal programs shall prepare a written report with a recommendation for resolving the complaint. The report shall include:

1. Name of the individual or organization filing the complaint.
2. Nature of the complaint.
3. Summary of the investigation.

4. Recommended resolution.

5. Reasons for the recommended resolution.

The administrator responsible for federal programs shall submit the written report to the Chief Executive Officer or designee, who will determine whether further investigation is required and/or the Charter School's final response.

All individuals and/or organizations making the complaint or that are the subject of the complaint shall be notified of the resolution of the complaint by the Chief Executive Officer or designee.

The Charter School administrator responsible for federal programs shall ensure that the resolution of the complaint is implemented.

The time period between receipt and resolution of a complaint shall not exceed sixty (60) calendar days, unless circumstances require additional time.

The school encourages parents/guardians, professional educators and others who have legitimate interests pertaining to school students and the school's educational program to visit the schools.

Visitors are defined as any person other than an enrolled student or school employee; and schools are defined as school buildings, school property and vehicles used for school purposes.

A staff member may request identification from any person in a school building or on school grounds. Refusal to provide such information is grounds for removal of the person from the school building or school property.

As circumstances warrant, the CEO or designee will take appropriate actions when a visitor is disruptive or refuses to follow Board policy, administrative procedures or established rules. Such action may include requesting the person to immediately leave the premises, contacting law enforcement officials, and preventing future visits to the school by that person.

Refusal to leave school grounds when requested to do so by school employees constitutes the criminal offense of a defiant trespass and may result in arrest and prosecution.

The school will post notices at all entrances to buildings notifying visitors to report to the main office and meet entry requirements.

### School Visitors

Visitors are welcome at schools, provided their presence is not disruptive.

1. Upon arrival at the school, visitors must register at the main entrance, where they will sign a log, and receive permission, a visitor's badge and instructions. Upon departure, visitors must sign out and return the visitor's badge. Visitors must provide any required information or identification to protect the health and safety of students, staff and the school community.
2. Registered visitors must wear a visitor's badge during the time they are in the building, and the badge must be displayed in a clearly visible manner.
3. For special events when large groups of individuals will attend, registration requirements may be altered by the CEO or designee; but visitors must follow school staff's instructions.
4. Staff members are responsible to ensure that visitors in the school have registered and display a visitor's badge.

5. No visitor will confer with a student without approval in advance of the CEO or designee.
6. Should an emergency require that a student be called to the reception area to meet a visitor, the principal, counselor, teacher or nurse will be present during the meeting.
7. During the school day, a person other than a school student or authorized employee who, without permission, enters or remains on school property will be considered to be trespassing.
8. A visitor at any time of the day who refuses to obey a directive by a school employee not to enter or remain upon school property will be considered to be trespassing.
9. A student not enrolled in the school or accompanied by a parent/guardian is prohibited from visiting schools, unless approved in advance by the CEO or designee.
10. Agents and sales personnel must direct all solicitations and communications to the CEO or designated administrators or supervisors.

#### Loitering

Staff members will report to the CEO or designee any person loitering in, on or near a school building or school property.

The CEO or designee may request an unauthorized person to leave or remove them from the school premises or area immediately.

If the person does not leave voluntarily or resists removal, the CEO or designee will notify law enforcement officials and request assistance.

### **Purpose**

The Board believes that the education of the students is a joint responsibility, one it shares with the parents/guardians of the school community. To insure that the best interests of the student are served in the educational process, a strong program of communication and cooperation between home and school must be maintained and parental involvement encouraged.

### **Authority**

The Board believes that it is the parents/guardians who have the ultimate responsibility for their student's in-school behavior, including the behavior of pupils who have reached the legal age of majority, but are still for all practical purposes, under parental authority.

### **Delegation of Responsibility**

During school hours, the Board, through its designated administrators, acts in loco parentis or in place of the parents/guardians.

### **Purpose**

The purpose of community engagement is to create a collaborative environment in which students, parents/guardians, families, residents, businesses, and community organizations are encouraged and invited to be involved stakeholders in the school community. Such engagement strengthens broad-based community support for the 21st Century Charter School ("Charter School") mission, goals, operations, educational programs and services.

### **Definition**

Community engagement is defined as an ongoing collaborative process in which the Charter School works with the public to build understanding, guidance, and active support for the education of students in the community.

### **Authority**

The Board endorses the concept that community engagement is essential for the Charter School and the community to maintain mutual understanding, respect and trust, and to work together to improve the quality of education for students. The Board intends, through this two-way communication, to identify the community's concerns, needs and suggestions, and to be responsive to the community through the Board's actions.

The Board also recognizes that the public offers resources of training and experience useful to Charter School programs. The quality of the Charter School's operations, programs and services can be strengthened when these resources are used in an advisory capacity.

The Board, with assistance from the administration, shall determine the appropriate strategy when utilizing the community engagement process.

The Board, in consultation with the Executive Director, shall identify a team of individuals who will be responsible for developing, implementing and delivering a community engagement program.

After the community engagement process is concluded, the Board shall make the final decision regarding an issue.

The Board shall annually assess the effectiveness of the community engagement program.

### **Delegation of Responsibility**

The Board directs the administration to develop and implement a planned program of community engagement that regularly provides opportunities for students, parents/guardians, families, residents, businesses and community organizations to participate in dialogue and decision-making related to issues presented by the Charter School.

The administration shall develop and use varied, effective communication methods to ensure that all community members receive information about Charter School programs and the available opportunities to become actively involved.

**Guidelines**

The Board and administration shall give substantial weight to the input received from the community. When evaluating the community's suggestions, the Board and administration will consider the impact on the Charter School's goals, operations, programs, services, and financial resources. Recommendations made by the community shall not reduce the authority or responsibility of the Board, which may accept or reject such recommendations.

The Charter School shall communicate to the community the Board's decision and its rationale regarding an issue involving community engagement.
