PATIENT VISIT REPORT:

The data reported should be data that is related to the practice specialty of the waiver physician that is being supported. However, **the data should reflect all visits for this specialty,** not just the visits for the waiver physician. For example, if this is a waiver for a neurologist at Hospital XYZ, all patient visits for neurology at Hospital XYZ, regardless of who the provider of service was, should be reported for each month. **If physician is approved for multiple sites, a separate form must be submitted for each site.**
