Harrisburg, PA 17120

Re: First Priority Life Insurance Company (FPLIC) 2019 ACA Rate Filing (Small Group Market)
FPLIC Filing # 1A-SG-FPLIC-2018 (SERFF Filing # HGHM-131496216)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached First Priority Life Insurance Company 2019 Small Group Market Rates Filing contains Trade Secret and Confidential Proprietary Information. Therefore, First Priority Life Insurance Company must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by First Priority Life Insurance Company should be redacted before release.

Dear Ms. Gray:

This Filing includes the First Priority Life Insurance Company (FPLIC) (NAIC # 60147; HIOS Issuer ID # 55957) Small Group Market Off Exchange ACA rates and the supporting rate development for policies with effective dates on or after **January 1, 2019**.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested as per the Department's 2019 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

1. Company Name & NAIC #: **First Priority Life Insurance Company, NAIC # 60147**
("Company")
2. Market: **Small Group** ("**Market**")
3. On or Off Exchange: This Company's products are offered **Off Exchange only**
4. Effective date of coverage: **January 1, 2019**
5. Average rate change requested: **17.81% increase**

6. Range of rate change requested: **14.4% to 28.4%** (PA Actuarial Memorandum Exhibits); 14.4% to 28.4% (URRT Worksheet 2 Row 27 Cumulative Rate Change % (over 12 mos prior))
7. Total additional annual revenue generated from the proposed rate change: **\$8,035,779**
8. Product(s): **PPO**
9. Rating Areas and the change from 2018: **Region 3** (Northeastern PA only)

There are no changes in our covered Rating Areas from the 2018 rate filing.

10. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels of coverage in the indicated Market: **Platinum, Gold, Silver, and Bronze**
11. Current number of covered lives and of policyholders as of February 1, 2018: **7,933 covered lives; 4,757 policyholders**
12. Number of plans offered in 2019 and the change this represents from 2018: **51**

The Company offered 49 plans in 2018. For 2019, the Company is offering 2 new plans in the Market, and removing 0 plans from the Market.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

13. Corresponding contract form number, SERFF and Binder ID numbers: The corresponding SERFF binder number is **HGHM-PA19-125080816** affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF #
Blue Care PPO	FPLIC-BC/PPO/SM; HGHM-131470389
Lehigh Valley Flex Blue HDHP	FPLIC-LV/HDHP/SM; HGHM-131470424
AffordaBlue	FPLIC-AB/COMP-SM; HGHM-131470430
Blue Care HDHP	FPLIC-BC/HDHP/SM; HGHM-131470392
Lehigh Valley Flex Blue PPO	FPLIC-LV/PPO/SM; HGHM-131470396
Blue Care Custom PPO	FPLIC-BCUST/PPO/SM; HGHM-131470399

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID # 55957, Company Filing # 1A-SG-FPLIC-2018 (SERFF Filing # HGHM-131496216)**

Changes Made Since Last Correspondence

Since the Company's last correspondence with the Department (Response to 2nd round of objections dated on 07/13/2018), the following changes have been made:

- Risk Adjustment in Table 5, cell C31 changed from \$48.02 to \$52.60
 - o Reason: Per Department guidance in e-mail dated 7/27/2018
 - o Exhibits Impacted:
 - PAAM Exhibits, tab "II Rate Development & Change" Table 5, flowing through to tables 6, 7, 8, 9, 10, 11.
 - URRT Worksheets I and II

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. For the Department's benefit, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted to HIOS. CMS is requesting that only the initial URRT and the final URRT be submitted to HIOS.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of First Priority Life Insurance Company if disclosed to the public.

Public disclosure of any information contained in this Filing would allow First Priority Life Insurance Company competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Small Group market, and could have negative consequences for the operation of First Priority Life Insurance Company's business. Therefore, First Priority Life Insurance Company asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential and proprietary information contained in this Filing or to otherwise permit this Filing and its

Ms. Tracie Gray, Director
First Priority Life Insurance Company 2019 Small Group Market Rates

Page 4 of 4

confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law (“RTKL”), First Priority Life Insurance Company must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, First Priority Life Insurance Company asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the First Priority Life Insurance Company RTKL representative identified below prior to release of any information contained in this Filing:

Lisa Martinelli, Esq.
RTKL Representative
VP Chief Privacy Officer
120 Fifth Avenue, FAP Suite 2114
Pittsburgh, PA 15222

Furthermore, it should be noted that First Priority Life Insurance Company is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at (717) 302-2143 or via e-mail at: jeffrey.scheib@highmark.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey Scheib". The signature is fluid and cursive, with the first name "Jeffrey" written in a larger, more prominent script than the last name "Scheib".

Jeffrey S. Scheib, ASA, MAAA
Vice President, Actuarial Services
Highmark Inc.

First Priority Life Insurance Company (FPLIC) – Small Group Plans

Rate request filing ID # HGHM-131496216- This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at <http://www.insurance.pa.gov/Consumers/ACARelatedFilings/>

Overview

Initial requested average rate change:	18.65% ¹
Revised requested average rate change:	17.81% ¹
Range of requested rate change:	14.4% to 28.4%
Effective date:	January 1, 2019
People impacted:	7,933
Available in:	Region 3

Key information

Jan. 2017-Dec. 2017 financial experience

Premiums	\$205,469,457
Claims	\$180,870,753
Administrative expenses	\$19,913,496
Taxes & fees	\$4,264,776
Company made (after taxes)	\$420,432

The company expects its annual medical costs to increase **9.7%**.

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2019:

Claims:	89.22%
Administrative:	8.75%
Taxes & fees:	2.03%
Profit:	0.00%

Explanation of requested rate change

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2018 and throughout 2019 as a result of both higher utilization and the increasing cost of healthcare services, and the underlying morbidity of the population within FPLIC's ACA products.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Pennsylvania Actuarial Memorandum

1. Basic Information and Data

A. Company Information (Table 0)

Table 0 has been completed as per the instructions. Please refer to the Excel file “2019_SmGrp_FPLIC_PAAMExhibits_051818 v3.xlsm” submitted with this filing containing the department’s required tables.

Note that for the remainder of this document, “Company” refers to First Priority Life Insurance Company, “Market” refers to Small Group, and “Rating Area” refers to Pennsylvania Rating Region 3 (Northeastern PA only). No Service Area changes were made since the last approved filing.

B. Rate History and Proposed Variations in Rate Changes

The most recent three years of historical rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Year	Avg. Increase	SERFF ID#
2018	6.6%	HGHM-131014764
2017	3.5%	HGHM-130536975
2016	9.5%	BCNP-130071709

Rate changes vary by plan, as plan benefits need adjusted to help maintain compliance with metal level requirements. Other base rate components (pricing actuarial factor and network discount) are also re-evaluated each year. For 2019, the Company’s proposed rate revisions vary by plan, according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

The average rate change from Table 10, column AC is a 17.85% increase. The rate change presented in this table reflects the average rate change over 2018 for the entire plan year, premium weighted based on the anticipated distribution of quarterly renewals.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 11, cell AN13, is an 16.7% increase. This rate change reflects the change for first quarter 2019 rates over first quarter 2018 rates.

The Percent Increase over the Experience Period from the URRT Worksheet 1, cell V45, is 34.83%; and the Percent Increase, Annualized, from cell V46, is 16.12%.

As noted in the URR Part III Actuarial Memorandum, the average rate increase is 18.0% weighted on the projected enrollment for renewing plans in the URRT. Please note that the rate increases by plan design will differ between the department’s “2019_SmGrp_FPLIC_PAAMExhibits_051818 v3.xlsm” template and the URRT worksheet 2 row 27 since we maintained the 2018 quarterly distribution of enrollment as

filed last year when calculating the average 2018 Calibrated Plan Adjusted Index Rate PMPMs in column Z of Table 10 in the PA Rate Exhibits while the URRT utilizes a consistent enrollment distribution by quarter for both years based on the 2019 projected distribution.

D. Membership Count (Table 1)

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2018 data, this table reflects all Small Group enrollment, including enrollment from 2017 and 2018 plan year plans.

E. Benefit Changes

Most plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2019 effective dates. The plan changes were mostly required so that the plans remained within the defined metal level AV requirements, and were enacted by adjusting member cost sharing and the maximum out of pocket levels.

For the 2019 plan year, there were no benefit changes necessary to the Company's plans to cover the benefits contained in the state's Essential Health Benefit (EHB) benchmark plan.

F. Experience Period Claims and Premium (Table 2)

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2017 calendar year results for all non-grandfathered policies (including transitional policies) in the single risk pool, with run out through February 2018. This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary). The Company has offered only ACA-compliant policies in the Market in the experience period. As requested, the transitional policy experience is broken out in the "2019 Supplemental Exhibits - FPLIC v2.xlsx" file included in this filing, on the worksheet labeled "Table 4 Transitional".

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
 - Two months of run out from the end of the experience period,
 - Claims processed outside of the Company's claims system (e.g., claim settlement costs), and
 - Our best estimate of claims incurred but not paid as of the end of the run out period.

Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates, while Table 2 has the Prescription Drug Rebates separately identified. As per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.

- There are no non-EHB benefits or costs in the experience period.
- There are no capitated claim services in the experience period.

- The EHB coverage for pediatric vision benefits are provided by our vision coverage vendor under a capitation arrangement. These costs are \$0.62 PMPM uniform across each member in the experience period and are reflected in Table 2 under the Total EHB Capitation section.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- The Estimated Risk Adjustment represents our best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period. This amount is developed based on an analysis of Company data (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components), and an estimate as to the Market-wide risk transfer component profile. This Market-wide profile is developed from available Market data, including the Interim Summary Report for 2017 risk adjustment published by CMS, the PA Insurance Department's calculation of 2017 risk adjustment transfer amounts using the 5/1/2018 RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants.
- The calculated loss ratio is 88.03%.

G. Credibility of Data (Tables 2b, 3b, 4b)

The experience period data for this Company is large enough to be fully credible. The results are based 100% on the experience period data, adjusted as described herein. Given the Company's fully credible rate development, Tables 2b, 3b, and 4b have not been populated.

H. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

To arrive at our trend assumption, the experience period cost and utilization data were pulled from the Company's claims systems by the defined benefit categories. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost component of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

These projected costs measure and normalize for benefit leveraging, population aging, and historical changes in fee schedules, as well as company-wide utilization management programs, and external trend drivers. Based upon the coverage and demographics of our membership, our historical claim levels, adjusted for these factors and projected forward, represent the best estimates of trend for this

block of business. Please note that since these historical claim levels are normalized throughout to account for these forces impacting claim utilization and costs, the claim levels presented will not reflect actual experience claim levels.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Based on a review of the projected normalized annual trends for 2018 and 2019, an overall claim trend of 9.6% (5.2% cost; 4.2% utilization) was selected for the 2019 rate development. Please refer to the “Trend Support” exhibit in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file showing the historical and projected normalized claim values for the Company’s trend determination, along with our proposed rate trend.

Note that the URRT instructions require that anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period be reflected in the Utilization trend component shown in Worksheet I, Section 2. This component of the trend is separately identified in Table 3, as the Induced Utilization trend. Please refer to the “PA to URRT Trend” exhibit in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file, which reconciles the trend assumptions between the URRT and Table 3.

For this Small Group Market filing, quarterly rates are proposed, with rates adjusted each quarter based on the Total Annual Trend presented in Table 3, excluding the Induced Utilization trend. The quarterly trend is based on the cost and utilization trend from Table 3. Note that we zeroed out the impact of the Capitation trend in the Composite URRT Trend. The change in the Capitation charge is reflected in the Change in Benefits adjustment discussed below.

I. Historical Experience (Table 4)

Table 4 presents the most recent 48 months (4 calendar years) of Company data with run-out through February 2018. Since this table includes experience from transitional policies, the transitional policy experience by year is broken out in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file included in this filing, on the worksheet labeled “Table 4 Transitional”.

2. Rate Development & Change

A. Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Morbidity represents an adjustment from the experience period claims to the projection period. See below for additional commentary related to the projection period assumptions.
- The Change in Demographics adjustment reflects the change in age and geography factors we expect from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims we anticipate due to changes in in-network discount levels between the experience period and the projection period.
- The Change in Benefits adjustment reflects the change in the EHB benefits (pediatric benefits) we anticipate between the experience period and the projection period, as well as the change in expected pharmacy rebates. See below for additional commentary related to these cost changes.

Please see the worksheet named “Table 5 Support” in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file for the calculation of these factors from our experience period data and projected rate results.

Our initial step in developing the index rates is to determine the expected covered membership for 2019. We estimate the covered member base by adjusting for those groups known to have lapsed during 2017, and those that we expect will lapse in 2018. Then we add in expected new business from groups with current transitional coverage moving to ACA plans, and groups currently with another carrier.

As we have seen through 2017, many of the Small Group market customers have retained their pre-ACA coverage through the transitional coverage provisions, and have yet to join the ACA risk pool. With the transitional coverage provisions extension through the end of 2019 for groups that renew on or prior to October 1, 2019, we continue to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. However, as there is a significant level of transitional policy experience in this Company’s single risk pool, we anticipate that the morbidity within the ACA products will be considerably worse and reflect this with a Change in Morbidity adjustment of 1.264.

The Change in Benefits adjustment reflects our estimate of the additional costs associated with the addition of EHBs from the experience period to the coverage period, as well as a change in expected Pharmacy rebates. The rating impacts and descriptions associated with each of these items are as follows:

- Pediatric Dental (\$0.46) – The estimated cost to add the pediatric dental EHB services is \$0.46 PMPM. Pediatric dental costs from the EHB package are included in our experience period claims for ACA business, but not for transitional business. Thus we need to add a charge for those transitional policies that we expect will move to ACA coverage by 2019. This \$0.46 PMPM cost is determined from an estimated dental cost of \$26.29 PMPM for members aged 0-18 (provided by our dental vendor and developed based on dental experience for members 0-18 priced at 2019 benefit levels for this Market and Rating Area). It was projected that

approximately 19.0% of the Small Group members will be between the ages of 0-18, based upon the 2017 membership distribution, and that approximately 9.2% of the 2019 ACA business was in transitional coverage in the 2017 experience period. Therefore, the estimated cost of pediatric dental was calculated as follows: $\$26.29 \times 19.0\% \times 9.2\% = \0.46 .

- Pediatric Vision (\$0.61, decrease of \$0.01) – The pediatric vision benefits from the EHB package are covered under a capitated service agreement with our vision vendor, Davis Vision. These costs are a flat \$3.23 PMPM charge determined for those pediatric members with covered benefits. For rate development, the anticipated costs for this arrangement are spread across the book as a flat PMPM charge. As above, we are assuming that 19.0% of Small Group members will be between the ages of 0-18 in the rating period, as so the appropriate charge for the book is \$0.61 PMPM ($\$3.23 \times 19.0\%$). Since the Capitation trend is removed from the Table 3 Trend Identification (discussed in section 1.H above), the change in the cost for these benefits is included in the Change in Benefits adjustment.
- Pharmacy Rebates (-\$5.62) – The Company is expecting an increase in its Pharmacy rebates from the 2017 experience period to the 2019 rating period. This change in Pharmacy Rebates is due to new levels of negotiated rebates with our pharmaceutical vendor. For the Company, rebate savings are expected to increase from \$15.58 PMPM in the experience period to \$21.21 PMPM in the rating period. This increase in rebates reduces the 2019 projected costs by \$5.62 PMPM.

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file in the “Table 5 Paid-to-Allowed” worksheet. As shown in this exhibit, the projected paid to allowed ratio from the membership projections by plan included in Worksheet 2 is consistent with the value shown in Worksheet 1, Section III.

Table 5 reflects that we are assuming a Projected Risk Adjustment receipt in the projection period of \$52.60 PMPM. This amount reflects an anticipated risk transfer payment of \$50.86, along with a monthly charge of \$0.15 for the CMS stipulated Risk Adjustment User Fee in 2019 of \$1.80 for the year. This combined value of \$50.71 is trended by the average 2019 pricing trend to arrive at the value of \$52.60 reflected in Table 5.

To arrive at the anticipated risk transfer for 2019, we bring in the risk adjustment calculation components for the projected 2019 Company portfolio (as discussed above), and use our current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2017 Benefit Year published by CMS, the PA Insurance Department’s calculation of 2017 risk adjustment transfer amounts using the 5/1/2018 RATEE files, prior years’ risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants.

In analyzing the risk transfer components from corporate Highmark’s various Pennsylvania businesses, we have noticed a significant difference in results between the various regions (Western, Central, and Northeastern Pennsylvania). Thus when projecting the risk transfer components to 2019, we determine

each region's risk transfer results separately to arrive at the estimated risk transfer results for each company, as appropriate for each company's region.

The Company considered the impact of the high-cost risk pooling payment for the Small Group market, first implemented in 2018, in its development of its anticipated risk transfer for 2019, and is assuming that the net cost (payments less recoveries) will be negligible for the 2019 projection period.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2019, multiplied by the percentage of business we expect to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2019, so there are no Exchange User Fees charged in the rate development.

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims. Note that the Annual Trend shown in cells J32:M32 reflect the quarterly impact of the Health Insurer Provider Fee. Please refer to Section 2.B Retention Items (Table 6) below for a discussion of the quarterly Health Insurance Provider Fee impact.

B. Retention Items (Table 6)

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development in Table 10. Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect our anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measureable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

The following Taxes and Fees were included in the rate development:

- \$1.92 per member per annum for the Patient Centered Outcomes Research Fee (0.02% of premium);
- 2.0% for PA Premium Tax; and
- A prorated quarterly amount for the Health Insurer Provider Fee (discussed below, but reflected in Table 5A).

The Health Insurer Provider Fee is being applied quarterly, at a prorated level appropriate to the 2019 renewal quarter. Although the Health Insurance Provider Fee will not be collected in 2019, the fee will be collected in 2020. As such, for any groups with renewal dates other than January 1, 2019, the group's renewal period will extend into 2020, where the premiums will need to include a charge for this fee. For

the 2019 rate development, the quarterly rates have been adjusted so that the appropriate pro rata portion of this fee is collected based on a group’s renewal quarter as follows:

Renewal Quarter	Health Insurance Provider Fee
1Q	0.00%
2Q	0.75%
3Q	1.50%
4Q	2.25%

As mentioned above, the impact of the Health Insurance Provider Fee is being reflected in the quarterly trend in Table 5A. The Annual Trend shown in Table 5A is determined so that the resulting rate calculation appropriately reflects the impact of the Health Insurance Provider Fee.

Note the following regarding plan level retention items:

- The rate development reflects a 0% risk/contribution to surplus margin for all products and plans. The Company has voluntarily refrained from including a risk and contingency factor in this filing. By this voluntary action, the Company is not waiving any right to include a risk and contingency factor which the Company believes is consistent with historical and legal interpretations of the Company and the Department.
- The administrative expenses do not vary by plan.
- Expenses for Quality Improvement Initiatives are estimated to be 7% of internal Company expenses, based upon historical analysis of these costs.

Please note that for the Small Group Market the Projected Required Revenue PMPM shown in Table 6 will not match the URRT Worksheet 1 Single Risk Pool Gross Premium Average Rate PMPM since the value in the URRT is based on a January 1 effective date without reflecting the impact of quarterly rates in the Small Group market.

C. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2018 values are pulled from the prior year’s filing, while the 2019 values represent our projection for 2019 assumed in the 2019 rate development.

The Age Factor is the weighted average of the Average Age Factors for the Current ACA Book of Business as of the End of Year 2017 and for the Membership Moving to the ACA Book (from Transitional and New Business).

The Company only participates in region 3, so geographic calibration is not necessary.

The Tobacco Surcharge is not applicable since we do not use one.

D. Components of Rate Change (Tables 8 and 9)

Table 8 presents the components of change in the proposed 2019 Calibrated Plan Adjusted Index Rate (PMPM). The 2018 base period allowed claims as developed from the 2018 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. The amounts shown in the 2018 Column match those entered in the 2018 Column in the plan year 2018 rate filing.

3. Plan Rate Development (Table 10)

Table 10 showing the plan rate development has been completed following the instructions in the 2018 ACA-Compliant Health Insurance Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2019, as well as plans discontinued from the 2018 portfolio for 2019. Since many Small Group market enrollees as of 2/1/18 are still in plan year 2017 plans, the enrollees in plan year 2017 plans were mapped to the plan year 2018 plan that the we anticipate they will renew into in 2018. The calibrated plan adjusted index rates for 2019 and 2018, and all of the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Non-Funding of CSR Adjustment Factor (not applicable to Small Group) in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate. Since each component of the Calibrated Plan Adjusted Index Rate is applied multiplicatively (including the Plan AV Pricing Value), plan premiums are in proportion to the Plan AV Pricing Values.

The rate change percentages calculated in Table 10 column AC by plan design will slightly differ between URRT Worksheet 2 row 27 since the PID spreadsheet maintains the 2018 quarterly distribution of enrollment as filed last year while the URRT calculation utilizes a consistent enrollment distribution by quarter for both years based on the anticipated distribution for 2019.

Note that the HHS Actuarial Value Calculator was able to accommodate all of the Company's benefit designs, and that no adjustments were needed from the values produced by the calculator.

The requested Induced Utilization Exhibit was completed and it presented within the "2019 Supplemental Exhibits - FPLIC v2.xlsx" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (8) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.1025. In multiplying the Induced Utilization column (8) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization), which are the CMS-prescribed assumptions used in the risk

adjustment transfer calculation. These factors have been unchanged since they were originally developed for the 2014 rating period.

The member-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

The Child Capping Adjustment is applied to the Age Calibration Factor in Table 10 to reflect the limitation on the number of children allowed in rating. This factor is determined by estimating the amount of lost revenue due to this restriction, and applying the resulting factor to the normalized age factor in the base rate development. Support for the calibration factors is shown in the “2019 Supplemental Exhibits - FPLIC v2.xlsx” file on the worksheet named “Table 10 Calibration Factors”.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User (Table 11)

Table 11 presents the Company’s 21-year-old non-tobacco premium in the Market for each rating quarter in 2019. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a 16.7% increase, while the “percent rate change requested” from the SERFF Rate Review Detail Screen (and Table 10) is 17.81%.

5. Plan Factors

A. Age and Tobacco Factors (Table 12)

Please see Table 12 for the Company’s age and tobacco factors.

B. Geographic Factors (Table 13)

Please see Table 13 for the Company’s geographic factors. The Company’s factors for the rating period are unchanged from the currently approved factors.

As mentioned in the Cover Letter, the Company is not changing its product offerings by Rating Area.

C. Network Factors (Table 14)

Please see Table 14 for the Company’s network rating factors.

D. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company has submitted its current 2018 service area and its proposed 2019 service area in the file “Pennsylvania Counties Map - 2019 Filings - FPLIC.pdf” submitted with this filing. There are no proposed changes to the Company’s service area from 2018 to 2019.

E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period; however, the Company is interested in the state adopting a methodology for the PA Marketplace that is more consumer friendly than the CMS method by utilizing composite rating tiers similar to transitional small group policies currently in the market (i.e. rates by contract types of Individual, Parent/Child(ren), Two Person (Adults), and Family).

6. Actuarial Certifications

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2019) for the small group combined Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the 2019 PA Actuarial Memorandum Rate Exhibits.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in the Company's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2018 Rate Filing Justification.

Part II of the Preliminary Justification

First Priority Life Insurance Company (FPLIC) – Small Group Market

Scope and Range:

First Priority Life Insurance Company (FPLIC) is requesting a weighted average rate increase of 18.0% weighted on the projected enrollment for renewing plans shown in the Unified Rate Review Template for its 2019 ACA qualifying small group products with effective dates from January 1, 2019 to December 31, 2019. This will impact 7,933 individuals.

Due to changes in benefits, metal levels and plan design pricing relativities some plans will be seeing a rate increase greater than 14% with average increases ranging from 14.4% to 28.4% as shown in the Unified Rate Review Template.

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2018 and throughout 2019 as a result of both higher utilization and the increasing cost of healthcare services), and the underlying morbidity of the population within FPLIC's ACA products. Unlike many other regions of the state and nation, FPLIC's 13-county service area in northeastern and north central Pennsylvania has a lack of tertiary care facilities (i.e., facilities that provide higher level care such as transplants), which drives a necessary use of out-of-area providers by our members. This drives up the cost of care since services utilized outside the FPLIC service area generally come at a higher cost.

Lower cost small groups are expected to remain outside the ACA single-risk pool for most of 2019 due to more favorable premium rates afforded to them in the pre ACA rating formula. The remaining population expected to enroll in the ACA qualifying products represents a small portion of the pool, and those groups generally have unfavorable demographics and higher than average claim costs.

Historical Financial Experience:

FPLIC's Small Group ACA segment reported a financial loss in 2017.

Change in Medical Service Costs:

The projected average cost of medical care for the projected population is expected to increase. The increase will emerge in utilization and average cost per service, and is spread across all types of services.

Change in Benefits:

Some cost sharing parameters were changed in order to maintain compliance with Federal AV requirements. Additionally, some out of pocket maximum parameters were changed to keep up with the rising cost of health care. These out of pocket maximum changes also aided in mitigating the rate increase.

Administrative Costs, Anticipated Operating Results, and Medical Loss Ratio:

Relative to the 2018 rate filing, taxes and fees are lower since the Health Insurance Provider Fee was waived for 2019. The anticipated operating results are not excessive or unreasonable. In accordance with regulations, the projected medical loss ratio is over 80%.

Part III Actuarial Memorandum

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for First Priority Life Insurance Company's ("FPLIC") Small Group block of business rate filing ("Filing"), for products with effective dates in calendar year 2019. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the State of Pennsylvania Department of Insurance, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of FPLIC's Filing. However, we recognize that this certification may become a public document. FPLIC makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by FPLIC that would result in the creation of any duty or liability under any theory of law by FPLIC or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: First Priority Life Insurance Company
- State: The State of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 55957
- Market: Small Group
- Effective Date: January 1, 2019

II. Proposed Rate Increase(s)

For all rate increases by plan please see the 'Cum'tive Rate Change % (over 12 mos prior)' found in Worksheet 2 Row 27 of the URRT. Rate changes vary by plan, as plan benefits need adjusted to help maintain compliance with metal level requirements. Other base rate components (pricing actuarial factor and network discount) are also re-evaluated each year. For 2019, the Company's proposed rate revisions vary by plan, according to the detail presented in the URRT, Worksheet 2.

The primary drivers of the 18.0% rate increase (weighted on the projected enrollment for renewing plans in the URRT) are anticipated cost and utilization increases impacting claims (such as changes in provider reimbursement levels and the availability of new pharmaceutical treatments), and the underlying morbidity of the population within FPLIC's ACA products. As transitional coverage has been extended through the end of 2019, FPLIC has attracted higher morbidity groups, while the more favorable groups continue to remain outside of the ACA market. We expect that FPLIC will continue to attract higher morbidity groups in 2019 from groups moving from transitional coverage to ACA coverage.

The increase is being partially offset by a projected increase in receipts from the risk adjustment program, and an increase in claim savings due to negotiated terms with our pharmaceutical benefit manager.

III. Experience Period Premium and Claims

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2017, paid through February 2018. We only include the non-grandfathered, insured members in FPLIC's 2017 book-of-business.

III.2 Premiums (net of MLR Rebate) in Experience Period:

The premiums shown for the experience period were based on calendar year 2017 actual revenues, in accordance with the Unified Rate Review Instructions.

Based on preliminary information for calendar year 2017, no MLR rebates are anticipated to be refunded to enrollees. Therefore, we did not include an adjustment for MLR rebates in the 2017 premium amounts.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- **Historical Experience:** To complete the URRT historical experience section we chose FPLIC's current experience for the small group block of business for the period January 1, 2017 through December 31, 2017, with claims paid through February, 2018.

- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for FPLIC’s book-of-business. This section includes:
 - The amount of claims which were processed through our claims system,
 - Claims processed outside of our claims system (Rx rebates, provider settlements, capitated benefits), and
 - Our best estimate of claims incurred but not paid as of the Paid through Date stated above.
- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from FPLIC’s detailed claim-level historical data. We only include the non-grandfathered, insured members from FPLIC’s 2017 book-of-business.
- Paid Claims: We also summarized the paid claims from detailed member records. The paid-to-allowed ratio for the experience period reflects the 2017 plan designs chosen by each member.
- Incurred but Not Paid (IBNR) Claims Estimate: FPLIC’s estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.970 was developed for FPLIC’s total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Historical cost and utilization data were pulled from FPLIC’s claims systems by the defined benefit categories included in Worksheet 1, Section II of the URRT. This data was used to allocate FPLIC’s total claims into its components on the URRT.

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the “Other Medical” category. The “Other Medical” category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. The “Capitation” category represents the monthly charge paid to our Vision benefit provider for covering pediatric vision benefits. Prescription drug utilization is converted to a 30-day script count.

V. Projection Factors

V.1 Changes in the Morbidity of the Population Insured

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors) from the experience period to the rating period. As we have seen through 2017, many of the Small Group market customers have retained their pre-ACA coverage through the transitional coverage provisions, and have yet to join the ACA risk pool. With the transitional coverage provisions extension through the end of 2019 for groups that renew on or prior to October 1, 2019, we continue to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. However, as there is a significant level of transitional policy experience in FPLIC's single risk pool, we anticipate that the morbidity within the ACA products will be considerably worse and reflect this with a Change in Morbidity adjustment increase of 26.4% from the experience period due to the higher-morbidity population selecting these products.

V.2 Changes in Benefits

We made the following adjustments to reflect the expected differences in benefits between the experience period and projection period:

- We reflected the additional cost of the following benefits that must now be covered under the essential health benefit package for members moving into ACA compliant policies from the transitional pre-ACA policies which do not cover these benefits:
 - Pediatric dental benefits: +\$0.46 PMPM
- We reflected the following newly mandated benefits required under state law, which are not reflected in the experience period claims: None.
- We reflected the following new benefits that are not part of the essential health benefit package or required under state law that did not exist in the experience period claims: None
- We made an adjustment to reflect the removal of benefits covered in the experience period claims that will not be covered in the projection period: None.

V.3 Changes in Demographics

We are projecting a slight decrease in the average age from the experience period to the projection period as business migrates into ACA plans from transitional plans. There is no change assumed in the projected area factor.

V.4 Other Adjustments

We are expecting an increase in savings associated with prescription drug rebates from the experience period to the projection period of \$(5.62) PMPM. This increase in rebates is due to new levels of negotiated rebates with our pharmaceutical vendor.

V.5 Trend Factors (cost/utilization)

This development of the CY 2019 rates reflects an annual trend rate of 9.6% (5.2% cost, 4.2% utilization). These trends reflect FPLIC's expectations regarding increases in in-network contractual reimbursement. The annual trend estimates include the impact of provider contracting and anticipated utilization changes to both projected in-network and out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

We reflected anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: +0.2%.

We reflected a reduction in capitation costs for the pediatric vision benefits: -\$0.01 PMPM.

VI. Credibility Manual Rate Development

FPLIC's small group experience is fully credible; no manual rate is developed or used in this projection.

VII. Credibility of Experience

The experience is for FPLIC's non-grandfathered plans in 2017. It is large enough to be fully credible. Our results are based 100% on the experience rate, adjusted as described herein.

VIII. Paid to Allowed Ratio

For 2019, an average paid-to-allowed ratio of 85.5% is projected based on the 2019 product portfolio and the projected membership for each plan design.

IX. Risk Adjustment and Reinsurance

IX.1 Projected Risk Adjustments PMPM:

To determine our estimated risk transfer for 2019, we examined historical risk scores calculated from the factors in the HHS Notice of Benefit and Payment Parameters, and other risk adjustment transfer formula components, for those members anticipated to be covered by FPLIC in 2019. We then estimate the statewide average risk scores and other transfer formula components by analyzing the available risk adjustment transfer component information: the Interim Summary Report on Risk Adjustment for the 2017 Benefit Year published by CMS, the PA Insurance Department's calculation of 2017 risk adjustment transfer amounts using the 5/1/2018 RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. We do not anticipate significant migration into the small group risk pool from external populations (such as the uninsured).

In analyzing the risk transfer components from Highmark's corporate family of businesses, we have noticed a significant difference in results between the various regions (Western, Central, and Northeastern Pennsylvania). Thus when projecting the risk transfer components to 2019, we determine the each region's risk transfer results separately to arrive at the estimated risk transfer results for each company, as appropriate for each company's covered region.

FPLIC considered the impact of the high-cost risk pooling payment for the Small Group market, first implemented in 2018, in its development of its anticipated risk transfer for 2019, and is assuming that the net cost (payments less recoveries) will be negligible for the 2019 rating period.

Given the anticipated profile of the membership within FPLIC in 2019, and the estimated market-wide profile, we are assuming that FPLIC members will have a risk profile slightly higher than the market-wide averages, and that FPLIC will receive a small contribution from the risk adjustment program in 2019, decreasing premiums in the rate development by \$50.86 PMPM.

IX.2 Projected ACA Reinsurance Recoveries Net of Reinsurance:

The Individual ACA Reinsurance program terminated at the end of 2016. For the 2019 rating period, there is no Reinsurance Premium amount to include in the rate development.

X. Non-Benefit Expenses and Profit & Risk

X.1 Administrative Expense Load:

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on its standard expense allocation methods.

X.2 Profit (or Contribution to Surplus) & Risk Margin:

The proposed rates reflect 0% of premium as a risk/contribution to surplus margin. This load was applied to all products and plans. FPLIC has voluntarily refrained from including a risk and contingency factor in this filing. By this voluntary action, FPLIC is not waiving any right to include a risk and contingency factor which FPLIC believes is consistent with historical and legal interpretations of FPLIC and the Pennsylvania Insurance Department.

X.3 Taxes and Fees:

The Health Insurance Provider Fee was suspended for 2019, with the fee currently slated to be in effect in 2020. As such, for any groups with renewal dates other than January 1, 2019, the group’s renewal period will extend into 2020, where the premiums need to include a charge for this fee. For the 2019 rate development, the quarterly rates have been adjusted so that the appropriate pro rata portion of this fee is collected based on a group’s renewal quarter as follows:

Renewal Quarter	Health Insurance Provider Fee
1Q	0.00%
2Q	0.75%
3Q	1.50%
4Q	2.25%

The following taxes and fees were included in the 2019 rate development:

- \$1.92 Per Member Per Annum for the Patient Centered Outcomes Research Fee
- 2.0% for premium tax
- Percent indicated as above based on renewal quarter for the Health Insurance Provider Fee; the average of the above table is 0.9%, which is used in the URRT, Worksheet 2, in determining the projected period Plan Adjusted Index Rate

XI. Projected Loss Ratio

The anticipated medical loss ratio is about 91.1% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XII. Single Risk Pool

As described above the base experience used includes all of FPLIC’s small group non-grandfathered members in accordance with the Single Risk Pool regulations. The projected membership and their corresponding premiums and claims only include those members who will be enrolled in a fully ACA-compliant plan in 2019 under FPLIC.

XIII. Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for FPLIC. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2019	% of Members	Projected Quarterly Index Rate PMPM
1Q	44.2%	\$644.88
2Q	21.4%	\$658.92
3Q	10.6%	\$673.27
4Q	23.8%	\$687.93
Composite	100.0%	\$661.14

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

XIV. Market Adjusted Index Rate

Please see Exhibit I for a numerical demonstration of the Market Adjusted Index Rate development. The Market Adjusted Index Rate is the Index Rate further adjusted for risk adjustment and the exchange fee (all grossed up from paid to imputed allowed values). The Risk Adjustment factor is developed by taking one minus the grossed up expected risk transfer (net of the fee) and dividing by the projected incurred claims before risk adjustment. The Exchange User Fee factor is developed by adding the expected average exchange fee PMPM to the projected incurred claims after risk adjustment, then dividing by the projected incurred claims after risk adjuster. These adjustments were developed as factors in accordance with the Part III instructions.

XV. Plan Adjusted Index Rates

Plan Adjusted Index Rates are developed by taking the Market Adjusted Index Rate and adjusting for each plan’s actuarial value, relative benefit richness, relative network, and remaining administrative expenses (including profit and risk, and taxes and fees). Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan. The administrative expenses do not vary by plan.

XVI. Calibration

XVI.1 Age Curve Calibration (to age 46, non-smoker, area with 1.0 geographic factor, January 1 effective date):

The projected weighted average age factor is 1.527. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.527). Please note that no member will pay these rates because the age factor of 1.527 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. The closest age factor (1.500) is the factor for a person age 46. Please see Exhibit I for the development of the calibration factor.

XVI.2 Geographic Factor Calibration:

FPLIC only participates in region 3, so geographic calibration is not necessary.

XVI.3 Quarterly Trend Factor Calibration:

The Plan Adjusted Index Rate represents the average rate renewing over the four quarters of 2019. Exhibit I also shows the factors to de-trend to calibrate to the rate for a 1/1/2019 renewal.

XVII. Consumer Adjusted Premium Rate Development

The Plan Adjusted Index Rate represents the rate for a non-smoker average age and average geographic member for an average quarterly renewal. FPLIC is filing quarterly Index Rate trends of 2.32% per quarter. The Plan Adjusted Index Rates in Worksheet 2 Row 81 reflect an average combined trend of 3.7% for the four quarter renewal rating period.

The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I to the plan adjusted index rates the resulting value will represent the plan premium for a 46 year old in a 1.0 area on 1/1/2019. The standard HHS Age Curve can be used to calculate any rate found in the QHP rate template.

For quarterly rates beyond the first quarter, there is an additional quarterly trend adjustment related to the Health Insurer Provider Fee (discussed above in Section X.3) that would need to be applied to arrive at the appropriate quarterly plan premium.

XVIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator. No adjustments were needed for any benefits from those values produced by the AV calculator.

XIX. AV Pricing Values

The “URRT AV Pricing Value” shows the adjustment from the Market Average Index Rate to the Plan Adjusted Index Rates on Exhibit II. Please see Exhibit II for the portion of each AV pricing value that is attributable to each of the allowable modifiers.

XX. Membership Projections

Since transitional policy relief was extended through 2019 for groups that renew on or prior to October 1, 2019, we project that the bulk of the members in the small group market will remain outside of the ACA-compliant products, and remain outside the ACA single-risk pool. Thus, we are expecting only a moderate increase in membership in FPLIC from the experience period to the projection period. See row 48 of Worksheet 2 to the URRT to see projected membership by plan.

XXI. Terminated Plans and Products

FPLIC is terminating 22 QHP plans that were active in the 2017 experience period. These plans are being terminated due to changes in the CMS Actuarial Value calculator, which would have valued these plans outside of the regulated metal level bands. These plans will be mapped to a corresponding QHP of similar metal level and plan design, and the experience period members and allowed charges will be moved to the mapped plans in the URRT.

In addition, all other non-grandfathered plans that may have had experience in the base period (2017) will be terminated. Exhibit III lists all terminating QHP plans, as well as their URRT plan mappings.

XXII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe FPLIC’s plans adequately.

XXIII. Warning Alerts

There are no Warning Alerts generated by Worksheet 2. All results from plan level projections on Worksheet 2 are within tolerable bounds of the Worksheet 1 projected amounts.

XXIV. Actuarial Certification

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of FPLIC to accompany its rate filing (for calendar year 2019) for the small group combined market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in FPLIC's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by FPLIC to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

2019 Rates Table Template v8.1		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.		
HIOS Issuer ID*	55957			
Federal TIN*	23-2905083			
Rate Effective Date*	01/01/2019			
Rate Expiration Date*	03/31/2019			
Rating Method*	Age-Based Rates			
Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	Required: Select the Rating Area ID	Required: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	Required: Select the age of a subscriber eligible for the rate	Required: Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan

2019 Rates Table Template v8.1		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.		
HIOS Issuer ID*	55957			
Federal TIN*	23-2905083			
Rate Effective Date*	04/01/2019			
Rate Expiration Date*	06/30/2019

2019 Rates Table Template v8.1		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.		
HIOS Issuer ID*	55957

2019 Rates Table Template v8.1		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

Derivation of Change in Morbidity, Demographics, Benefits, and Average Network Factor

<u>Change in Morbidity Calculation</u>	<u>Reference</u>	<u>Formula</u>	<u>Calculation</u>
2017 Allowed Claims for those Members Expected to be Effective in 2019 [(Northeastern region)]	(1)		\$617.65
Calendar year 2017 allowed claims PMPM [(Northeastern region)]	(2)		\$488.66
Change in Morbidity	(3)	=(1)/(2)	1.264

<u>Change in Demographics Calculation</u>	<u>Reference</u>	<u>Formula</u>	<u>Calculation</u>
2019 Age Factor for Members Expected to be Effective in 2019	(1)		1.534
2019 Area Factor for Members Expected to be Effective in 2019	(2)		1.000
Calendar Year 2017 Age Factor [Northeastern Region]	(3)		1.570
Calendar Year 2017 Area Factor [Northeastern Region]	(4)		1.000
Change in Demographics	(5)	=[(1)*(2)]/[(3)*(4)]	0.9771

<u>Change in Benefits Calculation</u>	
Total Adjusted Projected Allowed EHB Claims PMPM (Before Change in Benefits)	\$ 729.49
EHB - Pediatric Benefits	\$ 1.08
Change in Pharmacy Rebates	\$ (5.62)
Total Adjusted Projected Allowed EHB Claims PMPM (After Change in Benefits)	\$ 724.94
Change in Benefits	0.994

<u>Average Network Factor Calculation</u>		<u>Formula</u>			<u>Calculation</u>	Normalized
		= Sumproduct [(3),(4),(5)] / Sumproduct[(3), (4)]			0.890	Provider

**First Priority Life Insurance Company's Response to Objection Letter Dated
06/15/2018**

Product Name: FPLIC Small Group 2019 ACA Rate Filing

RE: FPLIC – 2019 Small Group ACA Compliant Plans (1A-SG-FPLIC-2018);

Pennsylvania Insurance Department ID #: HGHM-131496216

Objection Letter Status: Additional Information Required

Objection Letter Date: 06/15/2018

Respond By Date: 06/22/2018

Response Date: 06/22/2018

Below please find our responses to the First Priority Life Insurance Company (FPLIC, “Company”) Small Group 2019 ACA Rate Filing Objection Letter dated 06/15/2018. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named “PID Response FPLIC 2018-06-22.xlsx,” which contains additional exhibits and supplemental detail, as referenced in the below responses.

In response to the questions posed in this Objection Letter, the following changes have been made to the PA Actuarial Memorandum Exhibits:

- Tables 3b and 4b have been removed in response to Question 4.
- Table 6 now includes formulas for *General & Claims Expense* and *Quality Improvement Expense* in response to Question 5.
- The average HIT fee was removed from Table 6 and Table 10 and the impact of the insurer fee on quarterly trend is now reflected in Table 5A. These changes impacted Table 11 such that the rates produced now match the Federal Rates Template. This was done in response to Question 12.

1. Please reconcile the data in Table 2 with the corresponding category in the SHCE for the appropriate market.

Response:

	Table 2	SHCE
Premiums	\$205,469,457	\$206,863,380
Incurred Claims	\$180,870,753	\$178,102,058
Allowed Claims	\$211,826,980	n/a
Member Months	433,488	433,979

The differences between the two exhibits are due to the following:

- The SHCE exhibit is a year-end accounting view of results with no runout and would include the experience based on actual cash transfers adjusted for changes in reserves, which affects both premiums and incurred claims.
- Table 2 presents an updated view of results where experience is restated based upon more recent data and is tied more directly to the incurred period with some provision for IBNR included in the claims. The results for 2017 shown in Table 2 would have included two months of run out. Table 2 includes all Small Group plan members with coverage in 2017.
- The SHCE exhibit uses a different classification of business than Table 2; the SHCE classification is based on the mandated MLR classifications and results in the following differences in premiums, claims, and membership:
 - Sole proprietors and other groups of one with Small Group plan coverage would be included in the Small Group Table 2, but are removed from Small Group in the SHCE
 - Certain groups are reclassified between Small Group and Large Group on the SHCE due to the definition of group sizes used for that exhibit
- Network access fees are removed from the claims in the SHCE exhibit, per the instructions for completing that exhibit.

2. Please reconcile the ultimate incurred claims reported in Table 2 with the sum of the ultimate incurred claims for the experience period reported in Table 4.

Response:

The Table 4 Ultimate Incurred Claims are equal to the sum of the 2017 Ultimate Incurred Claims in Table 2, the Total Prescription Drug Rebates in Table 2, and the Total EHB Capitation in Table 2. Please see the “Question #2” tab in the included supplemental exhibits file, “PID Response FPLIC 2018-06-22.xlsx”

3. Please reconcile the allowed claims reported in Table 2 with the sum of the allowed claims for the experience period reported in Table 4.

Response:

The Table 4 Allowed Claims are equal to the sum of the 2017 Allowed Claims in Table 2, the Total Prescription Drug Rebates in Table 2, and the Total EHB Capitation in Table 2. Please see the “Question #3” tab in the included supplemental exhibits file, “PID Response FPLIC 2018-06-22.xlsx”

4. Please populate Table 4b with ACA only historical experience.

Response:

Table 4b has been removed because FPLIC does not use the manual rate in the rate development.

5. Per Department guidance, the input in all cells in Table 6, must be a formula. Please comply.

Response:

With respect to Table 6, we interpreted the Department’s guidance to mean that formulas were being requested where applicable. For most of the retention items, we did not believe that a formula was applicable. The bullets below provide additional context for the values shown:

- *General & Claims Expense* – This calculation has been added to Table 6.
- *Commission Expense* – We assumed a \$14.60 PMPM value. Additional support for this assumption can be found in the response to Question 15.
- *Quality Improvement Expense* – This calculation has been added to Table 6.

- *PCORI Fee* – We assumed a \$0.16 PMPM value, calculated as the \$2.52 fee * (3/4) / 12. The percentage shown in cell C54 is simply the PMPM value divided by the total Projected Required Revenue PMPM.
- *PA Premium Tax & Health Insurance Provider Fee* – These are known values and so there is no formula to show. The HIT fee has been removed from Table 6.
- *Federal Income Tax* – We do not expect to owe Federal Income Tax for this business and so the value was set to 0%.

6. The underlying annual trend supporting the filing is 9.6%, which is further adjusted by an induced utilization adjustment of 0.09% per year, to develop the overall trend assumption of 9.69% per year.

a. Please provide quantitative support for the “Normalized Allowed PMPM” values provided in the supplemental file “2019 Supplemental Exhibits - FPLIC.xlsx,” “Trend Support” tab which are driving the 9.6% trend assumption (e.g. show the initial monthly allowed PMPM values, the normalization adjustments, and the calculations driving the monthly PMPMs after the experience period).

Response:

Please see the “Question #6a” tab in the included supplemental exhibits file, “PID Response FPLIC 2018-06-22.xlsx” which shows the development of the normalized and adjusted allowed claims for the prior three experience years, and projected out through 2019. As discussed in the Actuarial Memorandum, to get to the adjusted allowed claims used for the development of the trend, the experience allowed claims for all Small Group business within Highmark's corporate family are aggregated by Pennsylvania region (Western, Central, and Northeastern), and adjusted for changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression, as appropriate for the Company's service area, is then used to provide the basis from which to base the Company's rating trend upon.

b. Please provide quantitative support for the annual induced utilization adjustment of 0.09%.

Response:

Please see the "Question #6b Summary" tab in the included supplemental exhibits file, "PID Response FPLIC 2018-06-22.xlsx" which shows the quantitative support for the annual induced utilization adjustment. The induced utilization adjustment is determined from the plan level utilization factors using the actual membership distribution by plan from 2017 and projected membership by plan in 2019. These utilization factors are presented in the "Question 6b 2017 Induced Demand" and "Question 6b 2019 Induced Demand" tabs of the supplemental exhibits file. As mentioned in the Actuarial Memorandum, the plan level utilization factors are the CMS-prescribed Induced Utilization factors used in the risk adjustment transfer calculation, and have been unchanged since they were originally developed for the 2014 rating period.

7. The actuarial memorandum states that the \$47.54 PMPM projected risk adjustment assumption is comprised of an expected risk transfer receivable of \$46.44 PMPM, less the \$0.15 PMPM risk adjustment user fee, trended by the average 2019 pricing trend.

a. Please demonstrate how the proposed demographic and morbidity adjustments (i.e., 0.9771 and 1.264, respectively) were taken into account in calculating the projected 2019 risk adjustment receipt based on the 2017 results.

Response:

The demographic and morbidity adjustments in the development of the FPLIC rates reflect the adjustments from the single risk pool (including transitional policies) to the projected experience of the ACA membership only. Similarly, the development of the risk adjustment is based on the final risk adjustment results from the experience period from the ACA membership. As the demographic and morbidity profile of the ACA membership is not projected to change significantly from the experience period to the rating period, there is no adjustment necessary to the projected risk adjustment.

8. With respect to the demographic adjustment equal to 0.9771, please provide the distribution of membership by age and gender for the following:

- i. Projected for 2019
- ii. Currently inforce in 2018
- iii. Underlying the 2017 base experience.

Response:

Please see the “Question #8” tab in the supplemental exhibits file, “PID Response FPLIC 2018-06-22.xlsx” which shows the calculation of the demographic adjustment factor. The “Calendar Year 2017 Factors” section provides a distribution by age of our underlying 2017 experience, which is used to calculate the average age factor for the experience period. The “2019 Factors for ACA Members Expected to be Effective in 2019” section provides a distribution by age of the population that is expected to be active in 2019, which was used to calculate the age factor in this section. This 2019 age factor is then weighted with age factors for the projected “Non-ACA in 2017 to ACA in 2019” and the “New ACA Business in 2018 & 2019” business cohorts. These groupings weighted by their expected 2019 member months calculate the total 2019 age factor for the region. The area factors are provided in each section, and the overall demographic adjustment factor calculation is then shown on the bottom of the exhibit.

9. In developing the morbidity adjustment equal to 1.264, please provide the quantitative development of, and justification for, the \$617.65 value for “2017 Allowed Claims for those Members Expected to be Effective in 2019 [(Northeastern region)]” which was used to calculate the change in morbidity adjustment from the file “2019 Supplemental Exhibits - FPLIC.xlsx,” “Table 5 Support” tab.

Response:

Please see the exhibit tab named “Question #9” in the submitted response file “PID Response FPLIC 2018-06-22.xlsx” showing the quantitative development of the \$617.65 value for “2017 Allowed Claims for those Members Expected to be Effective in 2019 [(Northeastern region)]”. As shown in the exhibit, the development of the 2017 allowed claims assumption comes from a blend of 2017 allowed claims for current Company membership, along with the allowed claims level for assumed new business.

a. For the groups enrolled as of 2/1/18, provide the 2017 member months, the corresponding experience period total incurred claims, allowed claims and premiums.

Response:

As per Table 1 in the Pennsylvania rate filing exhibits, there were 34,219 members active as of 2/1/2018. For those groups with active members, their 2017 experience period data was as follows:

Member months	398,683
Incurred claims	\$168,004,242
Allowed claims	\$197,119,561
Premiums	\$189,033,713

b. For the new groups expected to enroll in 2019, provide the member months, the corresponding expected total incurred claims, allowed claims and premiums.

Response:

For new groups expected to enroll in 2019, their projected annualized 2019 experience is as follows:

Member months	16,200
Incurred claims	\$10,274,282
Allowed claims	\$12,020,523
Premiums	\$10,741,536

10. Please describe and demonstrate quantitatively how the factors in Column 5 “Network Factor” used to calculate the 2019 network adjustment in the file “2019 Supplemental Exhibits - FPLIC.xlsx,” “Table 5 Support” tab were developed.

Response:

The network discount factors shown in Column 5 of the Supplemental Exhibits included in the initial submission of this filing apply to specific plan designs offered in the various service zones, which are also listed in Table 14 of the PID Actuarial Memorandum next to the current factors. These factors are evaluated each year to reflect the impact of anticipated network cost and utilization changes between the experience period and the projection period. The proposed factors will better align premium with the expected costs in the projection period. Note the network discount factors shown in Column 5 of the Supplemental Exhibits included in the initial submission of this filing are before normalization is applied. The network discount factors shown in Column 6 of the Supplemental Exhibits included in the initial submission of this filing are normalized to account for the average network discount factor.

11. It appears that the Pricing AVs for a number of plans increased relative to last year. For example, for plan 55957PA0270030 (previously 55957PA0270022 in the 2018 rate filing), the Pricing AV increased from 0.751 in the 2018 rate development to 0.818 in the 2019 rate development. Similarly, for plan 55957PA0280002, the Pricing AV increased from 0.620 in the 2018 rate development to 0.698 in the 2019 rate development. Please describe how the revised Pricing AVs for 2019 were developed, specifically addressing and providing justification for the changes to the Pricing AVs for the two plans referenced above.

Response:

For filing year 2019, pricing AV development methodology was changed from using all small group experience to ACA only experience. Since ACA members utilize at a higher rate, the pricing AVs increased relative to prior years.

12. The following questions are related to the Health Insurer Provider Fee:

a. In the development of quarterly index rates in Table 5A, the company is not reflecting the cost of the Health Insurer Provider Fee. Your Pennsylvania actuarial memorandum appropriately points out that the method used in this proposed filing does not generate rates in, Table 11, that are consistent with the Federal Rates Template. Given this, please revise the filing to remove the average HIT from Table 6 and incorporate the HIT in Table 5A. Please ensure that the actuarial memorandum is also modified to discuss the development of the revised trend in this Table.

Response:

The Pennsylvania actuarial memorandum and the Excel workbook “2019_SmGrp_FPLIC_PAAMExhibits” have been updated to reflect revised trend which incorporates the HIT. Within the Excel workbook, several adjustments needed to be made to facilitate this change. Although it does not affect the rates, the average HIT was removed from Table 6. To ensure that the rates produced in Table 11 are consistent with those supplied in the Federal Rates Template, the HIT was also removed from Table 10’s Taxes & Fees and instead added to the trend impact in Table 5a. By making these changes, the rates for a 21 year old member are consistent between the Federal Rates Template and Table 11.

13. Please reconcile the average age factor in Table 7 (1.534) with the factor shown Table 10 (1.527).

Response:

The age calibration factor in Table 10 includes a child capping adjustment, while the Table 7 average age factor does not include the child capping adjustment. Please see the “Question #13” tab in the included supplemental exhibits file, “PID Response FPLIC 2018-06-22.xlsx.”

14. In support of Table 10, regarding the calibration factors, please provide the current member distribution by age.

Response:

Please see the exhibit tab named “Question #14” in the submitted response file “PID Response FPLIC 2018-06-22.xlsx” showing the current member distribution by age.

15. Please show the development of the average commission as shown in Table 6. Additionally, the current and 2019 broker agreements should be included and used to develop the percent shown in Table 6 as well as the associated pmpm.

Response:

Response redacted.

16. For the expanded Bronze plans, please demonstrate that the copay is less than or equal to 50% coinsurance for that category.

Response:

In order to demonstrate that the copay is less than or equal to 50% coinsurance for the impacted category, we ran the expanded Bronze plans that had a copay cost sharing element through the AV Calculator under both scenarios. Namely, we ran the following plans through the AV Calculator using the proposed copay (as filed) for the PCP benefit category, as well as 50% coinsurance for the PCP benefit category:

- BlueCare PPO Bronze 4
- BlueCare Custom PPO Bronze 4

The AV Calculator results of these scenarios are summarized below. Please see the attached exhibit, *Question Response - FPLIC.xlsx*, which includes screenshots from the AV Calculator.

Plan Name	HIOS	Government AV (Filed Copay)	Member AV (Filed Copay)	Government AV (50% Coinsurance)	Member AV (50% Coinsurance)
BlueCare PPO Bronze 4	55957PA0270013	64.96%	35.04%	62.95%	37.05%
BlueCare Custom PPO Bronze 4	55957PA0290021	64.96%	35.04%	62.95%	37.05%

As can be seen in the table, the Member AV, which is the complement of the Government AV, is less for the scenario with the filed copay as compared to the scenario with 50% coinsurance. This result demonstrates that the copay is less than or equal to 50% coinsurance for the impacted category.

**First Priority Life Insurance Company's Response to Objection Letter Dated
07/06/2018**

Product Name: FPLIC Small Group 2019 ACA Rate Filing

RE: FPLIC – 2019 Small Group ACA Compliant Plans (1A-SG-FPLIC-2018);

Pennsylvania Insurance Department ID #: HGHM-131496216

Objection Letter Status: Additional Information Required

Objection Letter Date: 07/06/2018

Respond By Date: 07/13/2018

Response Date: 07/13/2018

Below please find our responses to the First Priority Life Insurance Company (FPLIC, “Company”) Small Group 2019 ACA Rate Filing Objection Letter dated 07/06/2018. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named “PID Response FPLIC 2018-07-13.xlsx,” which contains additional exhibits and supplemental detail, as referenced in the below responses.

No changes to the PA Actuarial Memorandum Exhibits or the URRT were necessary in response to the questions posed in this Objection Letter.

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in time. We have assumed that risk adjustment payments will take place for 2019. Additional assumptions include that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and all Pennsylvania QHP issuers currently participating on the Marketplace will continue to do so throughout 2019. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. If any of these assumptions are ultimately incorrect or additional developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, FPLIC reserves the right to submit a revised filing.

1. Regarding the response to question 6:

a) Utilizing the January 2015 adjustment factor as a base, please provide the quantitative development of the January 2016, January 2017, January 2018, and January 2019 Medical and Rx “Adjustment Factors” from the file “PID Response FPLIC 2018-06-22.xlsx,” “Question #6a” tab, outlining each of the specific components driving the changes in the adjustment factors.

Response:

Since our trend analysis includes annual adjustment factors by specific component, these components are best applied to the weighted average adjustment factors to explain the change year over year. Please see the worksheet labeled “Question #1a” in the included supplemental exhibits file, “PID Response FPLIC 2018-07-13.xlsx”, which shows the development of the average adjustment factor for each experience year by taking the prior year’s adjustment factor and applying the adjustment components. For convenience, the worksheet named “Question #1 (Data)” is included in this response showing the original data from the prior response with calculations included showing the development of the annual adjustment factors.

As mentioned in the actuarial memorandum, the adjustments are made to the experience trend to eliminate explainable fluctuations in claim experience that are not expected to persist, or that are otherwise inappropriate to use in establishing underlying trend regression levels for rate setting. These adjustment include the following components:

Step Changes: one-time impacts to claims levels that are not expected to persist (for example, changes due to client mix or impacts from utilization management programs)

Demographic Adjustments: changes to the underlying population that are covered by other rating factors (age, location, induced utilization)

Seasonality: minor changes due to such things as seasonality and work days

Aging: since age is removed from the normalized trend levels, a component for the impact of claim levels to increase by age over time (above the allowable rating factors) needs to be included in anticipated claim levels

Covariance/Other: adjustments to account for compounding effects of certain conditions, and other appropriate actuarial adjustments to experience claims

b) Please demonstrate quantitatively how the 9.6% combined trend was developed based on the information provided in the “Question #6a” tab.

Response:

As shown in worksheet “Question #1b”, which uses the prior response data shown in the “Question #1 (Data)” worksheet, our 2-year average projection of trend from 2017 to 2019 is 8.2%. However, this is a point estimate around a range of possible trend estimates, and will vary with actual experience. An adjustment of 1.4% is applied to the initial point estimate to produce a final estimate of trend of 9.6%, which would be within the reasonable range of potential trend levels. This adjustment is slightly more than what we would expect for a balanced risk pool due to the higher than average risk observed in the membership.

2. It is stated in the response to question 7 that the morbidity and demographic adjustments “are not expected to change significantly.”

a) Per the ‘Table 5 Risk Adjustment’ tab, the morbidity adjustment being applied to the FPLIC 2017 single risk pool (including transitional policies) is 1.264. Please provide the morbidity adjustment which would be applied if the 2017 single risk pool did not include transitional policies (i.e., if only the ACA policies were included in the 2017 single risk pool).

Response:

If we remove the transitional policy experience from the 2017 single risk pool, the morbidity adjustment is 1.023.

3. Regarding the response to question 9:

a) Please describe in greater detail and demonstrate quantitatively how the allowed charge and membership amounts for the “Groups entering the FPLIC ACA risk pool after 2017” were developed. For example, what is the source data for the projected experience for these groups and what specific quantitative adjustments were applied to the source data to develop the results provided in the response?

Response:

Please see the derivation of the “Groups entering the FPLIC ACA risk pool after 2017” claim PMPM in the “Question #3” tab of the “PID Response FPLIC 2018-07-13.xlsx” file.
