Accepting Workshop Proposals:

Each year, the conference includes workshops that highlight practices, programs, and initiatives which exemplify the various components of Pennsylvania's Balanced and Restorative Justice mission and the Juvenile Justice System Enhancement Strategy. Our goal is for workshop presenters to encourage open dialogue among colleagues, spark imagination, and discover solutions to our system's ongoing challenges and changes. Workshop themes may include, but are not limited to, professional alliance skills, diversity and/or inclusion, stakeholder engagement, and responsivity factors. Starting on March 1, 2025, workshop proposals can be located on the JCJC website.
