PAYS ALL QUESTIONS BY GRADE REPORT

This report provides full results from the 2023 Pennsylvania Youth Survey (PAYS). For each survey item included in the survey, this report presents data for each response option by grade (and for all grades combined).

This report allows you to see not only the percent of students who selected each response option but also the number of students. These counts allow for you to, for example, add the counts for 10th and 12th grade to calculate a percentage for high school students. PAYS sponsors — the Pennsylvania Commission on Crime and Delinquency, Department of Drug and Alcohol Programs, and the Pennsylvania Department of Education — are supplying these data with the hope of aiding in more complete prevention and wellness planning.

Notes to Consider Before Proceeding

This report shares data from the 2019, 2021, and 2023 PAYS administrations when data are available. If your county or district did not participate in one or more of these administrations, you will find “n/a” notations where relevant. Your full profile report also displays data from 2019, 2021, and 2023 when available.

Please note that the Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an “n/a” notation, it can mean the question was either not asked in a previous administration or the question was revised in a

way that the 2023 data are not directly comparable. Also, note that any question with an * at the end designates a question and/or response option that was part of the 2023 survey revision. Please see Appendix B of your Profile Report for a description of changes.

Studies indicate that most young people are truthful in answering anonymous prevention-centered surveys such as PAYS. To ensure valid survey results, the data here have made use of the same validity/honesty checks used in PAYS profile reports.

Data are displayed here when there are a minimum number of 25 responses at the grade level.

An overwhelming majority of the percentages shown in this report are out of ALL students. Any exceptions are noted for the question as it appears in this report.

If you need help reading, interpreting, or applying these data, please contact your local county drug and alcohol office or reach out to the Evidence-based Prevention and Intervention Support (EPIS) at:

*The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. Please see Appendix B of your Profile Report for a description of changes

*The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. *The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. Please see Appendix B of your Profile Report for a description of changes

*The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. *The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. *The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. Please see Appendix B of your Profile Report for a description of changes

When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. *The Pennsylvania Youth Survey (PAYS) was significantly revised from 2021 to 2023. Trend data are reported in this report when the data are comparable. When cells include an "n/a" notation, it means the question was either not asked in a previous administration or the question was revised in a way that the 2023 data are not directly comparable. Please note that any question with an * at the end designates a question and/or response option that was part of this 2023 survey revision. Please see Appendix B of your Profile Report for a description of changes
