

PennDOT Small Business set aside pilot program

The Small Business set aside pilot program is an ongoing PennDOT and FHWA collaboration. The pilot program provides for the opportunity to increase contracting participation and opportunities for certified PennDOT Small Business Enterprises (SBE) and/or Disadvantaged Business Enterprises (DBE). The firms that compete for agreements in the pilot program must meet the same requirements as any other firm that does business with PennDOT. The pilot program was developed in 2017 and seven (7) design agreements across multiple Districts have been awarded.

In 2019, the pilot program was expanded to include Construction Inspection Agreements, one (1) per district to begin in 2020. There are nine (9) agreements that have been awarded to SBEs.

Below are the actual award details by ECMS number, district, awardee, SBE dollar commitment and SBE dollars paid.
