PUB 809SIP (12-18)

## Keeping Pennsylvania moving...

The Pennsylvania Department of Transportation (PennDOT) is responsible for planning, designing, constructing, and maintaining approximately 44,000 state-operated roadways and nearly 25,400 bridges statewide. PennDOT also oversees public transit, passenger rail, rail freight, ports, and aviation. This is an enormous task requiring innovative solutions for today's needs. Additionally, PennDOT administers the state's nearly 12 million vehicle registrations and 10.8 million driver licenses and ID cards.

Pennsylvanians rely on PennDOT to keep them moving when and where they want with minimal inconvenience. To meet this critical mission, PennDOT needs individuals with a driving commitment to excellence and public service.

**Explore the opportunities an internship provides!**

## The Program

PennDOT invests in students by providing real-world experience through our Summer Internship Program. Internships typically last from May through August. Students interested in the potential to obtain academic credit, in addition to their hourly wage for participation in the program, should discuss this opportunity with their academic advisor. See all that we do at [www.PennDOT.gov](http://www.PennDOT.gov) and discover how an internship can place you on the right road to a fulfilling career!

- **Engineering internship** – This is an exciting opportunity for students pursuing engineering and engineering technology majors. Interns may assist PennDOT employees in surveying activities, drafting and design efforts, construction inspections, collecting roadway data, reviewing environmental documentation, and/or participating in traffic-related studies.
- **Non-Engineering internship** – These opportunities are designed for majors such as Archaeology, Accounting, Business, Communications/Public Relations, Computer Science/IT, Environmental Science, Geology, Materials Science, Mathematics, and Safety Management. Non-engineering interns provide support for fiscal, communications, information technology, and other administrative functions performed throughout PennDOT operations.

**There are many roads to success. Discover the right one for you.**

## Eligibility/Criteria

- All summer internship applicants must have completed their first year of college by the internship start date and be enrolled full-time for the upcoming fall semester.

## Application Process:

1. Review the map on the reverse side to obtain the district number(s) where you wish to apply.
2. If available to work in more than one district, submit an application to each district of interest.
3. Log on to [www.employment.pa.gov](http://www.employment.pa.gov), select "Internships" in the center of the screen, Search "PennDOT," and apply.
