Pennsylvania National Electric Vehicle Infrastructure (NEVI)
Third Party API Information
(Updated 3/11/25)

The Pennsylvania Department of Transportation (PennDOT) must ensure that specific data fields for operational NEVI-funded charging stations are made available, free of charge, to third-party software developers, via application programming interface (API). See 23 CFR 680.116(c) of the NEVI final regulations for more details.

The following is a list of charging network companies providing services for one or more operational NEVI-funded charging stations in Pennsylvania, and their respective weblink addresses for third parties to access their API. Please contact PennDOT's NEVI team at RA-PDEVCORRIDORS@pa.gov if you have any questions.

- ChargePoint: https://chargepoint.stoplight.io/docs/nevi/5620b2cab3737-nevi
  - 6406 Truck Plaza – Emlenton, PA
    Station ID: PA-EMLENTON-00001
  - Loves Travel Stops and Country Stores – Jonestown, PA
    Station ID: PA-JONESTOWN-00001
  - Loves Travel Stops and Country Stores – Slippery Rock, PA
    Station ID: PA-SLIPPERYROCK-00001
