

The table below provides a quick overview of commonly-requested items for local roads and transportation systems as well as various discretionary programs that may fund them. Before applying, always confirm specific project eligibility using the referenced websites below and working with the program contact(s).

Projects and Efforts	ARLE	Green Light-Go	PennDOT Multimodal Fund	Transportation Alternatives Set-Aside	Local Share Account - Statewide
Brief Description	ARLE aims to mitigate existing, documented safety issues through low cost safety improvements.	GLG is designed to improve safety and mobility by reducing congestion and improving traffic signal efficiency.	The MTF provides financial assistance for transportation infrastructure projects that enhance communities, improve pedestrian safety, and/or revitalize transit. <i>Note: There is also a DCED MTF program with similar project eligibility.</i>	The TA Set-Aside provides funding for smaller-scale transportation projects such as bike/ped facilities, rec trails, safe routes to school, historic preservation, vegetation management, stormwater and habitat connectivity.	The LSA provides funding for projects in the public interest, including projects that improve the quality of life of citizens in the community.
