

Register for an eCAMMS Account for Product Evaluation

Thank you for your interest in having your product evaluated by PennDOT for the purpose of being listed in PennDOT Bulletin 15 (Publication 35). Bulletin 15 is PennDOT's Qualified Products List for Construction, which is organized by Publication 408 Specification section.

- All new products proposed for use by PennDOT must be evaluated, with the extent of the evaluation being product dependent.
- Only Manufacturers, Fabricators, Coaters and Pre-casters and other specific entities identified on page 2 of Bulletin 15 may submit a Product Evaluation Application to be considered for listing in Bulletin 15. Suppliers, distributors, or companies that outsource the manufacturing of their products or private label products that are manufactured by other companies are typically not eligible for approval and listing in Bulletin 15 and are not qualified to apply.
- If the product meets an existing Pub 408 Specification, then PennDOT will assign that product application a PEQ status and review its design, performance, and test data in comparison to PennDOT specification requirements.
- If the product needs to have a PennDOT specification developed or modified, then PennDOT will assign that product a PE status and a more extensive review process will occur.

Manufacturers will utilize PennDOT's 'electronic Construction and Materials Management System (eCAMMS) to complete and submit an online Product Evaluation Application for their product/material. The web-based Product Evaluation Application can be accessed through the "Product Evaluation" menu within eCAMMS.

PennDOT utilizes an online Product Evaluation Application process for approving and listing products in [Bulletin 15, Qualified Products List for Construction](#). PennDOT does not charge a fee for submitting a product evaluation application or for the review/approval process.

To gain access to eCAMMS for completion and submission of a Product Evaluation Application, the individual Applicant must register through the eCAMMS website. Even if you already have an existing eCAMMS user account as a Business Partner, you must request eCAMMS access.

Step 1 of Product Evaluation Application Process

1. Go to <https://www.ecamms.penndot.pa.gov>
2. Click on **REGISTER**.
3. Select **BUSINESS PARTNER**.
4. Complete the **Organization Information, User Profile Information, and Access Selection** tabs.
5. Near the bottom of the **Access Selection** tab, select **Submit applications for new product approvals** under **eCAMMS Access**.

After submitting the request, it may take up to 10 business days for you to receive a username and password to access the system. Upon activation of your user account, you may access eCAMMS via the "Product Evaluation" menu in eCAMMS: www.ecamms.penndot.pa.gov. This access will allow the individual user to:

- Submit a product evaluation application to PennDOT, on behalf of your company, for listing in [Bulletin 15, Qualified Products List for Construction](#).
- Track the progress of your submitted product evaluation application within eCAMMS.
- Communicate electronically with PennDOT within eCAMMS as evaluation review questions/comments arise.
